**SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE,
 CINCHONA FEBRIFUGE, RESIDUAL ALKALOID
 AND QUINOIDINE.**

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. QUININE can be purchased by Government officers, District and Local Boards for Hospitals and Dispensaries in the Provinces of Bengal, Bihar, Punjab and Assam on indents duly countersigned by the Civil Surgeon of their Districts. It can also be purchased by Missionaries for *bona fide* public purposes. It is never sold to private persons or firms. CINCHONA FEBRIFUGE both in powder and $3\frac{1}{2}$ grain tablet forms and CINCHONIDINE can be purchased by Government officers and the general public. It is also sold by the Principal Druggists in Calcutta. QUINOIDINE or *Pure Amorphous Alkaloid* and *Residual Alkaloid* or *Amorphous Cinchona Alkaloid*, which contains about 40 per cent. of *Pure Amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance but private purchasers may use the V. P. P. system*, and are obtainable from the SUPERINTENDENT, JUVENILE JAIL, ALIPORE.

The rates for these drugs from 16th May 1919 are as follows:—

SULPHATE OF QUININE.

For quantities 60 lbs. and above in one delivery	Rs. 24 per lb.
For quantities of not less than 6 lbs. but below 60 lbs. in one delivery	" 25 "
For any quantity less than 6 lbs.	" 26 "

SULPHATE OF CINCHONIDINE.

For quantities of not less than 6 lbs. in one delivery	Rs. 11 per lb.
For any quantity less than 6 lbs.	" 12 "

(Only small quantities available when in stock.)

CINCHONA FEBRIFUGE.

For quantities of not less than 6 lbs. in one delivery	Rs. 5 per lb.
For quantities less than 6 lbs. (when in stock)	" 6 "

CINCHONA FEBRIFUGE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.
For any quantity less than 6 lbs. (when in stock)	" 7 "

QUINOIDINE in non Tablet form (when in stock) and Residual Alkaloids. " 4 "

QUINOIDINE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.

TREASURE TROVE.**NOTICE.**

It is hereby notified under section 5 of the Indian Treasure Trove Act, 1878 (VI of 1878) that on the 15th August 1919 a treasure consisting of sixteen pieces of gold approximately valued at Rs. 50 was discovered under the ground in S. No. 46 of Mukundanallur village of the Vriddhachalam Taluk, South Arcot District, Madras Presidency.

2. All persons claiming the said treasure or part thereof are hereby required to appear personally or by agent before the Collector of South Arcot at his office in Cuddalore on the 27th March 1920 in order to have the matter enquired into and determined according to law.

SOUTH ARCOT, COLLECTOR'S OFFICE,
Dated 24th October 1919.

J. K. LANCASHIRE,
Acting Collector.

W. G. WOOD,

Principal, Thomason College, Roorkee.

**DEPARTMENT OF MINES IN INDIA, DHANBAD P. O.,
MANBHUM.**
Indian Mines Act, 1901.**NOTICE.**

An examination for First Class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for Second Class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad P.O., E I. Railway, and not to any Officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

G. F. ADAMS,

Chief Inspector of Mines in India,
and ex-officio President of the Board of Examiners.

DHANBAD,

The 18th October 1919.

Davey, Superintendent, 4th grade (substantively promoted to 3rd grade from 11th August 1918, but the promotion to take effect on his return from leave) from the 10th July 1917.				
Mr. Kasim Husain	Assistant Superintendent, 1st grade, sub <i>pro tem</i> .	Inspector on Rs. 125	Reversion . . .	2nd
Mr. Ghulam Husain Khan Sahib.	Inspector on Rs. 125	Assistant Superintendent, 1st grade, sub. <i>pro tem</i> .	Promotion . . .	2nd.
3. In the vacancy caused by the absence on 1 year's combined leave of Mr. E. D. Wilson, Superintendent, 1st grade, from the 18th October 1915.				
Mr. Damodar Das	Assistant Superintendent, 1st grade, provl. subs.	Superintendent, 4th grade.	Promotion . . .	2nd.
4. In the vacancy caused by the absence on military duty of Mr. R. N. Haygarth, Superintendent, 4th grade, from the 24th October 1918.				
Mr. Mahmud Hasan	Assistant Superintendent, 2nd grade, sub. <i>pro tem</i> .	Inspector on Rs. 125	Reversion . . .	2nd.
Mr. A. Gardner	Inspector on Rs. 125	Assistant Superintendent, 2nd grade, sub. <i>pro tem</i> .	Promotion . . .	2nd.
5. In the vacancy caused by the absence on 4 months' privilege leave of Mr. D. Durham, Superintendent, 1st grade, from the 19th May 1919.				
Mr. Mohammad Hamid Khan.	Assistant Superintendent, 2nd grade.	Inspector on Rs. 601	Reversion . . .	2nd.
Mr. Mohammad Shafiq Khan.	Inspector on Rs. 60	Assistant Superintendent, 2nd grade.	Promotion . . .	2nd.
6. In the vacancy caused by the absence on 9 months' combined leave of Mr. H. H. Bryan, Superintendent, 2nd grade, from the 13th July 1919.				
Mr. Mohammad Shafiq Khan.	Inspector on Rs. 60	Assistant Superintendent, 2nd grade.	Promotion . . .	1st only.
Mr. Mahmud Hasan	Inspector on Rs. 125	Ditto.	Ditto . . .	2nd.
7. In the vacancy caused by the absence on one month and 15 days' privilege leave of Mr. N. Daly, Superintendent, 4th grade, from the 21st July 1919.				
Mr. Bhagwan Das	Inspector on Rs. 60	Assistant Superintendent, 2nd grade.	Promotion . . .	3rd.
8. In the vacancy caused by the retirement of Mr. C. H. Jeffery-Orchard, Assistant Commissioner, from the 16th January 1919 to 1st August 1919.				
Mr. A. Gardner	Assistant Superintendent, 2nd grade, sub. <i>pro tem</i> .	Inspector on Rs. 125	Reversion . . .	2nd.

The 21st October 1919.

No. 166.—Mr. A. English, Superintendent, on release from military duty, is granted furlough for one year, with effect from the 24th September 1919.

(File 235 P. of 1919.)

The 26th October 1919.

No. 170.—Mr. G. W. C. Lisle, Assistant Commissioner, on leave, is granted furlough for one year, in continuation of and in combination with privilege leave sanctioned in Notification No. 137, dated the 30th September 1919.

(File 177 P. of 1919.)

J. C. FERGUSSON, I.C.S.,

Offg. Commissioner, Northern India Salt Revenue.

HIGH COURT OF JUDICATURE AT LAHORE.

NOTIFICATION.

Lahore, the 5th November 1919.

No. 5029-G.—The following list of General holidays to be observed by the various Civil Courts in the Delhi Province subordinate to the High Court of Judicature at Lahore, during the year 1920 has been prepared by the High Court under Section 47, Clause (i) of the Punjab Courts Act VI of 1918 as amended by Act IV of 1919 and is published for general information.

Description of holidays.	Name of holidays.	Date on which the holiday falls.	No. of days including Sundays.	Day or days of the week	REMARKS.
1. General	Proclamation of the day.	1st January	1	Thursday.	
2. Hindu	Basant Panchmi	26th "	1	Monday.	
3. "	Sheeratri	18th February	1	Wednesday.	
4. "	Holi	3rd and 4th March	2	Wednesday and Thursday.	
5. Durga	Durga Ashtmi	27th March	1	Saturday.	
6. Christian	Good Friday	2nd April	1	Friday.	
7. "	Saturday before Easter.	3rd "	1	Saturday.	
8. "	Easter Monday	5th "	1	Monday.	
9. Hindu	Baisakhi	12th "	1	Monday.	
10. Muhammadan	Shab-i-Barat	4th May	1	Tuesday.	
11. Hindu	Nirjala Ekadshi	28th "	1	Friday.

2. The last Saturday in every month is a holiday provided the state of business in the Courts admits.

3. All Civil Courts will be closed during the month of September.

4. The day fixed for the celebration of the King-Emperor's birthday will be notified separately hereafter.

By Order, etc.,

M. S. LEIGH,

Registrar.

AGENT TO THE GOVERNOR-GENERAL IN CENTRAL INDIA.**NOTIFICATIONS.**

Central India Agency, Indore, the 5th November 1919.

No. 1942-C.—In exercise of the powers conferred by section 16 of the Central India (Administered Areas) Excise Law, 1917, the Agent to the Governor-General in Central India is pleased to empower the officer in charge of the Indore State distillery at Barwaha, subject to the rules made by the Indore Darbar for the management of the distillery and the issue of spirit therefrom, to grant passes, in such form as may from time to time be prescribed by the Indore Darbar and approved by the Agent to the Governor-General in Central India in this behalf, for the import into the Cantonment of Mhow of spirit consigned from that distillery to the bonded warehouse established under section 17 (a) of the said Law.

2. Notification No. 715-C, dated the 22nd April 1908, is hereby cancelled.

No. 1943-C.—In exercise of the powers conferred by section 18 of the Central India (Administered Areas) Excise Law, 1917, the Agent to the Governor-General in Central India is pleased to fix the following rates at which warehouse dues shall be leviable in respect of bhang stored in warehouses established under section 17 of the said Law, *vis.* :—

For every day during which the bhang remains at the warehouse after the day on which, in accordance with the rules made under section 42 of the said Law, it should have been removed from the warehouse, 1 annas for each maund or fraction of a maund. Provided that the local excise authority may, for reasons recorded in writing, remit the said dues in whole or in part, in any case in which he considers their levy at the full rate undesirable.

2. Notification No. 1166-C., dated the 18th June 1908, is hereby cancelled.

No. 1944-C.—In exercise of the powers conferred by section 42 (2) (h) of the Central India (Administered Areas) Excise Law, 1917, and in supersession of notifications Nos. 717-C, dated the 22nd April 1908, and 1117-C and 1119-C, dated the 12th June 1908, the Agent to the Governor-General in Central India is pleased to make the following rules for the management of warehouses for the storage of country spirit established under section 17 of the said Law :—

1. In these rules unless a contrary intention appears from the context—

- (a) "the contractor" means in relation to any warehouse "the person or persons to whom has been assigned the exclusive privilege of wholesale supply of country spirit for consumption in the area in and for which the warehouse is established"
- (b) "Excise Commissioner" means the Excise Commissioner for Central India, and includes any other officer who may be appointed by the Agent to the Governor-General, by name or virtue of his office, to perform generally or in any specified area or for specified purposes or on specified occasions the functions of Excise Commissioner for the purposes of these rules.
- (c) "to gauge" means "to determine the quantity of spirit contained in or taken from any receptacle, or to determine the capacity of a receptacle";
- (d) "the Law" means the Central India (Administered Areas) Excise Law, 1917;
- (e) "to prove" means "to test the strength of spirit by a hydrometer or other suitable instrument";
- (f) "retail vendor" means in relation to any warehouse "any person holding a license for the retail sale of country spirit within the area in and for which the warehouse is established," and also includes any person holding a license for the retail sale of country spirit in any other area and permitted by the authority by whom he is licensed, with the approval of the Excise Commissioner for Central India, to obtain spirit from the warehouse.

2. Spirit may be imported by the contractor for storage in the warehouse under a pass, granted by the officer in charge of the distillery from which he is licensed to obtain supplies. Spirit may (subject to the rules in force in the province or territory in which the distillery is situated) be transported either at high strength or at one of the strengths prescribed for issue. The pass will be in such form as may be prescribed by the Government of the province or territory in which the distillery is situated, and the spirit will be conveyed in such casks or other receptacles as may be prescribed, sealed or otherwise secured in such manner as may be directed, by that Government. The pass will authorise the transport of the spirit through and its export from the province or territory in which the distillery is situated, and will also be the pass required by section 16 of the Law for its import into the area to which the Law applies. One copy of the pass will be sent by the issuing officer direct to the officer in charge of the warehouse. One copy will be given to the contractor, and will on the arrival of the spirit be presented, by the contractor or his agent, to the officer in charge of the warehouse.

3. The spirit shall be conveyed by the contractor direct to the warehouse. On the arrival of a consignment the officer in charge will compare the numbers and marks on the casks or other receptacles with those entered in the pass, and will also note the condition of the seals or other appliances by which the casks or receptacles are secured. He will then proceed to gauge and prove the spirit. The date of arrival of the spirit and the result of

the foregoing operations will be noted on both copies of the pass, of which one will be returned direct by post or otherwise to the issuing officer, and the other will be filed in the warehouse. If there be any reason to suppose that any of the casks or receptacles have been tampered with, or that any of their contents have been removed in transit, the circumstances shall be immediately reported to the local excise authority by the officer in charge of the warehouse.

4. As soon as the spirit has been proved and gauged, it shall be stored in one of the vats or other receptacles provided for the purpose, and shall be entered in the warehouse registers. The contractor shall thereupon become responsible for the purposes of rule 23 for the quantity and strength of the spirit. Subject to such directions on the subject as are contained in these rules, all proving and gauging operations shall be conducted in such manner as may from time to time be prescribed by the Excise Commissioner in this behalf.

5. The vats or tanks must be of such number, shape, and capacity and made of such materials as the Excise Commissioner shall previously approve, and shall be set up to his satisfaction, and so as to admit of the contents being accurately gauged or measured, and must be fitted to his satisfaction with proper dipping rods so adjusted to fixed dipping points that the contents thereof may at any time be ascertainable. The vats or tanks shall be gauged and the result of gauging recorded in such manner as the Excise Commissioner may from time to time direct: and no vessel shall be used for the storage of spirit until it has been gauged and the gauging has been checked by such officer as the Excise Commissioner may appoint in this behalf.

6. The vats or tanks shall be fixed at a proper height, and be fitted with cocks so that they can be emptied without being moved, and shall be placed on stands so sloped as to ensure their draining dry through the cocks. They must be so placed as to minimise the chance of their contents being tampered with, a sufficient space being left round and below them. On each vat or tank its consecutive number and its capacity in gallons shall be legibly marked in oil paint in English. The vats and tanks shall also be fitted and connected with such pipes, pumps and other fittings as the Excise Commissioner may consider necessary to the efficient working of the warehouse.

There must be a sufficient number of vats and tanks to allow ordinarily of the blending vats being completely emptied before each blending operation, and of spirit of the various strengths and colours prescribed for issue being separately stored in quantities sufficient for a fortnight's ordinary consumption.

7. The cocks and manholes and other apertures, if any, in the vats or tanks or in the pipes and fittings connected therewith must be of such construction as to admit of their being secured by padlocks provided by Government. The keys of all such locks, and the key of the building, will be retained by the officer in charge of the warehouse. The contractor will also be permitted to affix his own locks to all such cocks, manholes and apertures, and also to the door of the building, provided that he shall always on the requisition of the Excise Commissioner, local excise authority, or other officer generally or specially authorised by the local excise authority in this behalf, or of the officer in charge of the warehouse, immediately remove his locks so as to permit access to the building and to the vats or tanks. Unless otherwise directed by the Excise Commissioner duplicate keys of the Government locks affixed to the building or buildings used for the storage of spirit shall be kept (in a locked box with a glass front, the key of which shall be retained by the officer in charge of the warehouse) in the custody of the warehouse guard if a guard is provided, and otherwise in the custody of the nearest guard, and duplicate keys of the locks, if any, affixed by the contractor to the said buildings shall be kept in a second similar box in the same custody, the key of the box being retained by the contractor's agent. The officer or member of the guard on duty will permit the glass to be broken and the building to be opened in the event only of fire or other serious emergency occurring in the absence of the officer in charge or of the contractor's agent as the case may be.

8. Spirit may be stored in the warehouse at any strength. Storage shall ordinarily be in vats or tanks, but storage in casks may be permitted as a special case or in the case of varieties of spirit of which only small quantities require to be stored. Reduction and blending will be conducted in separate vats or tanks, which must ordinarily be completely emptied before each transaction. Separate vats or tanks must be set apart for the storage and issue of spirit of each of the strengths and colours prescribed for issue. All transfers, and all storing, reducing, or blending operations shall be conducted in the presence of the officer in charge of the warehouse.

9. Spirit shall be supplied from the warehouse to retail vendors only and shall not be issued excepting after payment of the price as determined by the contractor's license and of duty at the rate in force in the area to which it is to be issued. Provided, in the case of spirit supplied to retail vendors licensed for areas other than that in and for which the warehouse is established, that those rates shall for the purposes of these rules have been approved by the Excise Commissioner and intimation of his approval given to the officer in charge of the warehouse.

10. The Excise Commissioner may direct that spirit supplied from any warehouse to the retail vendors of any area specified by him in this behalf shall before leaving the warehouse be coloured by the contractor by the admixture of such material in such proportions as may be prescribed by him. He may further direct that the spirit intended for issue to the retail vendors of any such area shall be coloured in the presence of an officer specified by him in

this behalf and separately stored until issue, and may prescribe the intervals at which the said officer shall attend the warehouse for the purpose of supervising the colouring of such spirit.

11. No spirit shall leave the warehouse excepting under a pass, in such form as may from time to time be prescribed by the Excise Commissioner, issued by the officer in charge of the warehouse. (This pass will be the pass required by section 16 of the Law for the transport of spirit, and for its export in the case of spirit supplied to retail vendors licensed for areas other than that in and for which the warehouse is established). The pass will be in triplicate, one copy will remain in the book and two will be given to the person in charge of the consignment. Each consignment shall be conveyed, with these two copies of the pass, direct to its destination, and bulk shall not be broken, or the seals or other fastenings of the receptacles removed in transit. The pass will protect the consignment only so long as these conditions are complied with, and only upto the time specified in it in this behalf. One copy of the pass shall, on arrival of the consignment, be at once returned by post or otherwise to the officer in charge of the warehouse and the other shall be filed by the retail vendor at his shop and produced by him on the demand of any officer authorized to inspect his shop or accounts. The officer in charge of the warehouse may, with the sanction of the local excise authority, refuse to sanction the issue of spirit to any retail vendor until the passes covering previous consignments to his shop have been returned or the failure to return them satisfactorily explained, or until such fine not exceeding Rs. 5 as may be imposed by the local excise authority has been paid. Pass books will be kept in a place of safety in the local excise authority's office and issued to the officer in charge of the warehouse one or two at a time, as required. At warehouses at which duty is leviable at rates differing according to the areas for the supply of which spirit is issued, a separate pass book will be used for spirit issued at each of such rates. Spirits shall be issued from the warehouse only at one of the following strengths, *viz.*, 25° U.P. and 60° U.P.

12. No spirit shall be removed from the warehouse until it has been gauged and proved by the officer in charge.

13. The gauging of spirit for issue shall be effected by actual measurement in standard vessels provided for the purpose, and no other method of gauging spirit for issue shall under any circumstances be adopted without the previous sanction of the Excise Commissioner.

The standard vessels shall at least once a quarter be tested by the officer in charge against a measure to be specially set apart for this purpose, and the result recorded in a book to be kept for this purpose.

On no account is a measuring vessel to be locally repaired or adjusted without the previous sanction of the Excise Commissioner and every vessel so repaired or adjusted under the Excise Commissioner's sanction shall thereafter be tested against the measure set apart for the purpose before it is again taken into use.

14. Before spirit is proved for issue, it must be well stirred, so that the true average temperature and gravity may be obtained. If the casks or other receptacles in which removal is to be made are to be filled from a larger cask, vat, or tank, it will suffice to prove the spirit in such larger cask, vat, or tank once for all before any of the smaller receptacles are filled. But in this case the officer in charge must be careful to see that no addition is made to the contents of the larger cask, vat or tank while the filling of the smaller ones is in progress. If such larger cask, tank or vat is ordinarily in communication with the outer air or with any other receptacle by a pipe or by other means by which fluid can be passed into it, such pipe or other means of communication must, during the filling of vessels for issue, be securely closed by a cock or valve secured by a lock affixed by the officer in charge of the warehouse. If these conditions are not complied with, the spirit in each receptacle must be separately proved before issue. Provided that if spirit is issued in bottles it will suffice (in the absence of cause to suspect irregular practices) to prove the contents of one bottle taken at random out of every dozen. It will suffice for the proving officer to satisfy himself that the spirit is within 1° under or above the strength prescribed for issue, and when the spirit is within 1° of such strength no further reduction or blending in order to bring it to the exact strength will be required or permitted.

15. Spirit shall not be issued in quantities of less than one gallon at a time of each strength or colour. The issue of spirit is permitted in the following:—

- (1) Imperial quart or pint bottles.
- (2) Reputed do. do. six or twelve of which, as the case may be, shall be held to be equal to one gallon.
- (3) Metal drums or tanks.
- (4) Casks or kegs.

The receptacles in which spirit is to be issued shall be provided by the purchaser. No such receptacle other than a bottle shall be taken into use until it has been gauged by the officer in charge of the warehouse and marked at the cost of the owner with the following particulars:—

- (a) Name of warehouse.
- (b) Number of receptacle.
- (c) Capacity of receptacle.

A register of receptacles for issue shall be maintained by the officer in charge of the warehouse, and each such receptacle in use shall be gauged by him at least once in twelve months, the date of gauging and any alteration in the capacity of the receptacle being entered

by him in the register. There is no objection to a registered receptacle being used (with the owner's permission) for the transport of spirit to the premises of another retail vendor. The officer in charge of the warehouse may refuse to permit the issue of spirit in any receptacle which is in his opinion insecure or otherwise unfit (for reasons to be recorded by him) for the transport of spirit.

16. All receptacles in which spirit is removed from the warehouse shall before removal be sealed by the officer in charge. It is the duty of the contractor to prepare the receptacles, to the satisfaction of the warehouse officer, for sealing. The seal used should be the officer's private seal, which should be of sufficiently intricate design to render its reproduction difficult.

17. The retail vendor desiring to obtain spirit from the warehouse shall, personally or by his agent, tender to such officer as may be specified by the Agent to the Governor-General in that behalf an application in duplicate in such form as may be prescribed by the Excise Commissioner, together with the price of, and duty on, the spirit that he desires to obtain.

The said officer, after ascertaining that the amount tendered is correct, shall cause the figures in the endorsement in both copies of the application to be filled up, and shall sign both copies of the application in token of the receipt of the amount tendered, and shall stamp both copies with his official seal. He shall return one copy to the applicant, retaining the second copy for record. This latter copy shall be defaced by impressing on it with a stamp the words "Office Copy," and shall then be filed in a guard book.

18. The purchaser shall then tender the receipted copy of the application to the contractor's agent, who shall initial the application, and hand it over to the moharrir for the preparation of the necessary pass. The moharrir, after checking the particulars and after, in the case of warehouses where distinctive colours have been prescribed for spirit issued to retail vendors of different areas, noting on it the colour of the spirit to be issued, shall prepare the pass, leaving blank the spaces for the entry of the period of validity and for the seal of the officer issuing the pass, and shall record on the reverse of the receipted application the quantity of spirit to be issued and the number and date of the pass prepared, and shall sign the entry. He shall also make the necessary entry in the warehouse registers.

19. As soon as all applications for the issue of spirit have been dealt with as provided in the preceding rule, the officer in charge of the warehouse shall compare the passes with the receipted applications for payment of duty and with the entries in the warehouse registers, and, after filling in the duration of the pass, shall sign all three copies of the same. He shall then remove the parts of each pass that are to accompany the consignment, and retain the same until the spirit is ready for removal.

20. The officer in charge shall then proceed, with the contractor's agent, to prove, gauge and issue the spirit, to colour such spirit, if any, as requires to be coloured at the time of issue, and to seal the receptacles in which spirit is to be removed, affixing a distinct impression of his seal to one of the two copies of the pass that are to accompany each consignment. He shall then make over to the person in charge of each consignment the copies of the pass that are to accompany it, and the spirit shall thereupon be removed from the warehouse.

21. In cases where spirit is supplied to retail vendors licensed for areas other than that in and for which the warehouse is established, each consignment of spirit issued to retail vendors so licensed shall, if the Excise Commissioner so directs, be accompanied to the boundary of the area to which the Law applies by a peon, who shall retain the two copies of the pass until the spirit has crossed the boundary, and shall then make them over to the person in charge of the consignment, noting on them the hour at which the consignment crossed the boundary.

22. The officer in charge of the warehouse and the contractor respectively shall maintain, in such manner as may be directed by the Excise Commissioner, such registers and accounts relating to the storage, reduction, blending and issue of spirit, to the receptacles, vessels, apparatus, utensils and furniture in use at the warehouse, and to the persons employed at the warehouse, as may from time to time be prescribed by the Excise Commissioner, and shall submit such copies or extracts therefrom at such intervals and to such officers as may be prescribed by him. Such registers, accounts, copies and extracts shall also, at any time during the hours when the warehouse is open for the transaction of business, be available for the inspection of the local excise authority, of the Excise Commissioner, and of such other officers or persons as may be specified by the Excise Commissioner.

23. An account of stock will be taken at such intervals, not being greater than three months, as the Excise Commissioner may from time to time prescribe, and in such manner as he may direct : and the contractor shall pay to the administration at the end of each year of the contract duty at the highest rate for the time being in force in the area for which the warehouse is established on all spirit which may not be forthcoming and for which he shall be unable to account to the satisfaction of the Excise Commissioner, in excess of an allowance of $1\frac{1}{2}$ per cent. which will be made for wastage. Wastage for the purpose of collection of duty on the excess as aforesaid shall be calculated annually at the end of each year of the currency of the contract. Provided that if it shall be proved to the satisfaction of the Excise Commissioner that the whole or any portion of such deficiency in excess of $1\frac{1}{2}$ per cent has been caused by accident or other unavoidable cause, the payment of duty on the deficiency or on the portion of it caused by such accident or other unavoidable cause shall not be required.

The allowance of $1\frac{1}{2}$ per cent will be calculated on the balance in hand on the date of the previous stock taking, *plus* the quantity since received.

In warehouses where coloured spirit is stored for issue on payment of a rate of duty lower than that payable in respect of uncoloured spirit, the accounts of stock of uncoloured and of coloured spirit shall be taken separately. In such case the allowance of $1\frac{1}{2}$ per cent will be calculated, in the case of uncoloured spirit, on the balance in hand at the commencement of the year *plus* the quantity since received less the quantity transferred to coloured stock. In the case of coloured spirit it shall be calculated on the balance in hand *plus* the quantity transferred from uncoloured stock. If the total wastage on uncoloured stock exceeds the allowance of $1\frac{1}{2}$ per cent calculated as above, the contractor shall be liable to pay duty on the excess at the highest rate leviable on spirit issued from the warehouse, notwithstanding that the wastage of coloured stock may be less than the allowance of $1\frac{1}{2}$ per cent. But if the wastage on coloured stock exceeds and that on uncoloured stock is less than the allowance of $1\frac{1}{2}$ per cent, the contractor shall be liable to pay duty, at the highest rate leviable on *coloured* spirit issued from the warehouse, only on the net excess, *i.e.*, on the number of gallons by which the total wastage of coloured and uncoloured spirit exceeds the total allowance of $1\frac{1}{2}$ per cent on the quantity in hand at the beginning of the year *plus* the quantity since received.

In the calculations required for the purposes of this rule, all spirit received, transferred or in store shall be reduced to its equivalent in terms of London Proof.

The allowance of $1\frac{1}{2}$ per cent mentioned in this rule may, under the orders of the Excise Commissioner, be increased to not more than 3 per cent in the case of any warehouse at which he considers that the allowance of $1\frac{1}{2}$ per cent would, owing to special circumstances, be insufficient.

Government will not be responsible for the destruction, loss or damage of spirit by fire or theft or by gauging, proof, or by any other cause whatever. In case of fire or other accident the officer in charge of the warehouse shall attend the warehouse with the least possible delay.

24. The guard maintained at the warehouse shall ordinarily consist of at least two peons who will be required to reside on the premises and one of whom will be on duty at the door of the warehouse whenever the warehouse is open for the transaction of business. The strength of the guard may be increased by the Agent to the Governor-General at the request of the contractor on payment by the latter of the extra expenditure involved. Or the guard may be dispensed with if the situation of the warehouse is such as in the opinion of the Agent to the Governor-General to render the maintenance of a special guard unnecessary.

25. The hours of attendance of the officer in charge of the warehouse shall be prescribed from time to time by the Excise Commissioner. The convenience of the contractor will in this matter be consulted as far as possible. No operation shall, except under special sanction, be permitted after 6 p.m. Transactions will, as far as possible, be conducted during fixed hours duly notified.

The holidays to be allowed, exclusive of Sundays, are only those notified under the Negotiable Instruments Act, Sundays, New Year's Day, Good Friday, the King's Birthday and Christmas Day are alone to be treated as *close* holidays. On other days the warehouse should be opened for at least two hours between 8 and 10 A. M. for the transaction of urgent business.

26. The warehouse and the officers employed therein shall be under the direct control of the local excise authority subject to the supervision of the Excise Commissioner and to the orders of the Agent to the Governor-General.

27. The warehouse shall be open only for the entrance and exit of persons having business thereat. Ordinarily, excepting with the permission of the local excise authority, Excise Commissioner, or Agent to the Governor-General, no person other than officers and persons specified by the Excise Commissioner under rule 22, the members of the establishment employed at the warehouse, the contractor and his agents and servants, and retail vendors (or the agents or servants of retail vendors) who have come to purchase spirit shall be admitted. A register shall be kept of the names of all persons employed by the contractor, and such persons may, under the orders of the Excise Commissioner, be required to wear, whilst in the warehouse, a badge or distinctive uniform to be provided by the contractor. The local excise authority or the Excise Commissioner may, for reasons recorded in writing, direct that the name of any person be struck off the register and that he be excluded from the warehouse.

All persons, other than the local excise authority, the Excise Commissioner, and the Agent to the Governor-General, entering a warehouse shall, in respect of their conduct and proceedings while in the warehouse, be under the orders of the officer in charge, and shall, unless they are persons who have been specified by the Excise Commissioner under rule 22, be liable to search, on quitting the premises, at the discretion of that officer. Smoking and the use of matches or of naked lights in the warehouse are strictly prohibited. If lights are necessary, closed lanterns (to be supplied by the contractor) of a make approved by the Excise Commissioner shall be used.

28. The officer in charge may eject and exclude from the premises any person whom he may find to have committed or to be about to commit any breach of these rules or of the provisions of the Law, or who shall be intoxicated, riotous, or disorderly. Any action taken by such officer under this rule shall immediately be reported by him to the local excise authority.

29. If it comes to the knowledge of a contractor or his agent that any person employed by such contractor in the storage, receipt, blending or issue of spirit, has committed any breach of the Law or of any other law in force, whether in Central India or elsewhere, for

the protection of the excise or opium revenue, or of the engagements entered into by such contractor, it shall be his duty to report the matter through the officer in charge of the warehouse to the local excise authority and to comply with the directions of that authority respecting the continued employment of such person.

30. In case of any breach of these rules or of the conditions of the license, or in case of any attempt, by altering the capacities of receptacles or otherwise, to deceive the officer in charge in gauging or proving, either by a contractor or his agent, or, with his connivance and privity, by any person in his employment it shall be competent to the Excise Commissioner to impose upon him a fine not exceeding the sum of Rs. 50 for every such breach of such rules or conditions or, at the option of the Excise Commissioner, to declare the money deposited by the contractor forfeited, and to cancel the license.

31. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding rule shall not be held to prevent the prosecution of any person for any offence which may have been committed against the provisions of the Law, or other law for the time being in force relating to the excise revenue.

32. If a contractor or his agent shall be convicted on prosecution before a Magistrate of any offence against the Law, or other law for the time being in force and relating to the excise revenue, it shall be lawful for the Excise Commissioner to declare his license forfeited.

33. All sums payable to Government by a contractor and all fines imposed under rule 30 may be deducted from the amount of his deposit or from any sum due to him by Government, or realised by sale of the securities deposited by him, or may be recovered by attachment and sale of his property under section 19 of the Law.

34. Any sum deducted under the powers herein contained from the amount deposited by a contractor as a security for his due performance of his engagements shall be replaced by the latter within fifteen days from the date of receipt of a notice from the Excise Commissioner informing him of such deduction having been made.

35. On the expiry of his license (unless a fresh license shall have been granted him for the next official year or unless his contract contains provisions to the contrary) or if his license shall be cancelled or suspended, every contractor shall be bound forthwith to pay the duty on, and to remove, all spirits remaining within the warehouse; and, if he shall fail to do so within ten days of the receipt of written notice from the local excise authority, the cost of any establishment which it may be necessary to employ at the warehouse may be recovered from the defaulter. In the event of continued neglect, the spirit shall be liable to be forfeited at the discretion of the Excise Commissioner.

36. Except as otherwise provided, all orders passed and proceedings taken under these rules by officers of the Excise Department shall be subject to appeal to their respective immediate superiors within two months. The decision of the Agent to the Governor-General on any such appeal shall be final.

37. Contractors shall be bound by all additional general rules for the management of warehouses, or for the issue of spirit therefrom, which may hereafter be prescribed under the Law or under any law which may hereafter be enacted, and by all special orders issued by the Agent to the Governor-General with regard to individual warehouses, and shall cause all persons employed by them in the issue, etc., of spirit to obey all such rules.

No. 1945-C.—For the purposes of rule 17 of the rules for the management of bonded warehouses for the storage of country spirit made by him under section 42 of the Central India (Administered Areas) Excise Law, 1917, and in exercise of the powers conferred upon him by that section the Agent to the Governor-General in Central India is pleased to direct that

1. The officer in charge of the Military Treasure Chest at Mhow shall be the officer to receive applications for the payment of price of and duty on spirit removed from the warehouse established in the Cantonment of Mhow;
2. The Cantonment Magistrate of Nowgong shall be the officer to receive applications for the payment of price of and duty on spirit removed from the warehouse established in the Cantonment of Nowgong if removed—
 - (i) to shops situated within the Cantonment, or
 - (ii) in quantities the duty on which exceeds Rs. 50 in the case of any one consignment to shops in Native States served by the warehouse;
3. The officer in charge of the Nowgong warehouse shall be the officer to receive applications for the payment of price of and duty on spirit removed from the warehouse to shops in Native States served by the warehouse in quantities the duty on which does not exceed Rs. 50 in the case of any one consignment.
4. The officer in charge of the Nowgong warehouse shall at once enter in a register in the annexed form every sum received by him under Rule 3, and on every day on which the Treasury is open shall remit thereto, and obtain a receipt for, all sums so received during the day up to the latest hour at which the Treasury will accept remittances, and similarly shall remit to the Treasury on the following day or on the next working day, as the case may be, all sums so received after that hour.
5. When a remittance is made to the Treasury in accordance with Rule 4, a line in red ink will be ruled across the register, and the total amount remitted entered in columns 4—6. On the same line will be entered the name of the peon by

2. The person desirous of importing such drugs shall apply in writing to the local excise authority for the issue of a pass. The application, which may be sent by post, shall contain the following particulars:—

- (1) Name and address of applicant.
- (2) Quantity and description of drugs to be imported.
- (3) Place whence drugs are to be imported.
- (4) Person who will be in charge of the consignment.
- (5) Whether pass to be sent to applicant by post or delivered to him at the office of the local excise authority.

The local excise authority shall, unless he sees reason to the contrary, prepare a pass, and forward three parts thereof for the countersignature of the Political Agent, retaining the counterfoil in his office. One part shall, after countersignature, be returned to the applicant through the local excise authority, or sent to him by the Political Agent by registered post if he so desires, the second shall be sent by the Political Agent to the officer in charge of the warehouse or district from which the drug is to be exported, the third shall be retained in the office of the Political Agent. The pass shall specify the route to be followed by the consignment, which, in the absence of special reasons to the contrary, shall be required to be despatched by railway to its destination.

3. The importer or his agent shall present his copy of the pass to the officer in charge of the warehouse or district from which the drug is to be exported, who will return it to the person presenting the same, after endorsing on it the particulars of the drugs to be exported. The second copy of the pass received by the same officer will be retained by him and dealt with in accordance with the law and rules in force in the Province or State from which the drug is exported.

4. The importer or his agent, after making his purchase, shall have the drugs securely packed and sealed. If sent by rail he shall have them consigned direct to the local excise authority, and shall forthwith send his copy of the pass, together with the Railway Receipt, by post under registered cover, to the local excise authority, who shall cause the consignment on receipt to be conveyed, together with the pass, in charge of some responsible officer, ordinarily the warehouse officer, to the bonded warehouse for the storage of intoxicating drugs established under section 17 of the law, to be subsequently dealt with under the rules provided in that behalf. The cost of conveying the consignment from the railway to the bonded warehouse, and all risks incidental to such transport, shall be borne by the importer.

5. In cases where the drugs are not despatched by rail, the person named in the pass shall cause the drugs to be conveyed direct to the bonded warehouse by the route prescribed, and there produced, together with his copy of the pass, before the officer in charge, who shall deal with the drugs in accordance with the rules prescribed in that behalf.

6. Ganja and charas may either be deposited in bond in the said warehouse, or removed at once on payment of duty. Provided that the whole of the ganja or charas imported under a single pass must either be removed at once or deposited in the warehouse in its entirety.

7. Unless its storage in the warehouse is specially authorised by the local excise authority bhang must be removed at once, the weight of the consignment having first been checked and the duty leviable thereon having been paid as required by the provisions of these rules, provided that bhang may, if the Treasury be not open at the time when the weight of the consignment has been checked in accordance with the following rules, be retained in the warehouse until the next day on which the Treasury is open. The owner of bhang not removed as required by this rule shall become liable in respect thereof to the payment of warehouse dues thereon at the rate fixed in that behalf under section 18 (1) of the Law, and the bhang shall, after one week's notice to remove it has been given to its owner, be disposed of in such manner as the Agent to the Governor-General may direct.

8. On the arrival of the consignment at the warehouse the officer in charge shall, in the presence of the importer or his agent, and before allowing the drugs to be stored or removed, note the condition of the seals on the packages. He shall also verify the weight of the consignment in accordance with the following rules, and note the condition in which the drugs are received, whether dry or damp, sound or in process of deterioration or decay. The latter particulars shall, unless the drugs are to be removed at once, be entered in the personal register of deposits hereinafter prescribed. Provided that, if the importer fail to attend the warehouse, personally or by duly authorized agent, during business hours on the day on which the consignment arrives, the proceedings required by this and by the following rules may be taken, in his absence, by the officer in charge of the warehouse.

9. Each package of drugs shall, on receipt, be weighed separately in its original packing. From the gross weight so ascertained of each package an allowance of two seers per maund (fractions of a seer being neglected) shall be deducted and set off for packing materials, etc., and the weight of the package thus reduced shall, unless the package be opened in accordance with the provisions of rules 11-12, be taken as the true weight for the purposes of these rules of the drugs contained therein.

10. If the total gross weight of the consignment is less than that entered by the officer in charge of the warehouse or district of export in the pass under which the drugs have been imported, the circumstances shall be reported to the local excise authority, who, if the deficiency is material, shall cause inquiry to be made and report the result for the orders of the Political Agent. The Political Agent may thereupon direct that the weight entered in the pass, after deducting the allowance for packing materials mentioned in rule 9, shall be deemed

to be the true weight of the consignment, and that the owner shall, before the removal of any portion of the consignment is permitted, pay, in addition to the duty on the weight of the packages to be removed, the duty on the difference between the weight of the consignment as thus determined and the total weight of the drug contained therein as ascertained under rules 9, 11 or 12.

11. In the case of drugs imported from warehouses established under the law in force in British India, or maintained by Native States approved in this behalf by the Excise Commissioner for Central India, and issued from such warehouses in sealed receptacles of standard weight, the weight of such receptacles and of their contents being recorded on the receptacles and in the accompanying passes, the packages (if any) containing such receptacles shall be opened on arrival at the warehouse, and the receptacles weighed with their contents by the officer in charge of the warehouse. If the gross weight of a receptacle and its contents as thus ascertained agrees with that recorded on the receptacle and in the accompanying pass, the weight of its contents as so recorded shall, provided that the seals on the receptacle are intact, be taken as the true weight for the purposes of these rules of the drug contained therein. If the gross weight of any receptacle and its contents as ascertained by weighment differs from that recorded on the receptacle and in the accompanying pass, or if the seals are broken or injured, the receptacle shall be opened and the weight of its contents ascertained by actual weighment by the officer in charge of the warehouse.

12. Any importer of charas desirous of doing so may, at the time of import, require that all or any of the packages of charas imported by him be opened in the presence of the officer in charge of the warehouse, and their contents repacked in smaller packages containing not less than one seer each. In such case the weight of the drug so repacked in each package shall be ascertained by actual weighment by the officer in charge of the warehouse.

13. After examining in the manner prescribed by rules 9—12 a consignment of drugs received at the warehouse, the officer in charge shall return the pass to the local excise authority, after endorsing thereon the results of his examination.

14. The local excise authority will cause the endorsements on the pass showing the particulars of the drugs exported and received to be copied on the counterfoil filed in his office. He will then return the pass received from the warehouse to the Political Agent, entering in the pass so returned and in the counterfoil the date of doing so, and signing the entries in the pass and in the counterfoil.

15. The Political Agent will cause the foregoing particulars to be entered in the copy of the pass retained in his office, and will then forward the pass received from the local excise authority to the officer in charge of the warehouse or district of export, entering the date of doing so in the pass so returned and in the copy retained in his office, and signing the entry in the pass and in the copy so retained.

16. Drugs that are removed at once without being deposited in bond shall be entered in the register of drugs imported and removed, which shall be in Form I annexed to these rules.

17. All packages deposited in the warehouse shall, after examination and weighment, be registered in the daily register of deposits and withdrawals, which shall be maintained in Form II annexed to these rules, and also in the personal register of deposits and withdrawals, which shall be maintained in Form III. Registration shall be by packages, and each package shall have its separate number. The weight, as ascertained in accordance with rules 9—12, shall be clearly noted against each package, and no change shall on any account be made without the previous sanction of the local excise authority. The removal of drugs from the warehouse shall be permitted in entire packages only.

18. All drugs received in bond shall, after examination, registration and weighment, be placed in store. Each package shall have attached to it a card on which shall be noted—

- (a) a number corresponding to the number in the personal register of deposits,
- (b) owner's name,
- (c) description and weight of drugs in the package,
- (d) date of deposit.

19. All drugs in the warehouse shall, as far as possible, be stored separately according to the description of the drugs. The property of each depositor shall also as far as possible be separately arranged in the order of the numbers on the packages.

20. On the deposit of drugs in a warehouse, the depositor shall be furnished with a pass book, free of charge, in Form IV. No drugs shall be deposited in or subsequently withdrawn from the warehouse without the production of the pass-book. All entries in the pass-book shall be made by the officer in charge of the warehouse at the time of the deposit or withdrawal of drugs, and each entry of deposit or withdrawal shall be verified by his initials. Depositors should examine their books before leaving the warehouse, and ascertain that the entries are correct, and Government shall not be responsible for any error not brought to notice at the time of making the entry in which it occurs.

21. On exhaustion of the stock of drugs covered by the pass-book, it shall be retained by the officer in charge of the warehouse, and shall be re-issued on a further deposit being made, but not otherwise.

22. On satisfactory proof of the loss of a pass-book, a duplicate may be issued, with the sanction of the local excise authority, on payment of a fee of Rs. 1.

23. All pass-books shall be kept in safe custody by the depositors, and Government shall not be responsible for any loss caused to depositors should any unauthorized person obtain possession of the book, and thereby fraudulently procure delivery of drugs.

24. The depositor shall not alter, or manipulate in any way, the entries in his pass-book.

25. The owner of drugs desirous of removing from the warehouse for consumption in the area for which the warehouse is established drugs deposited therein or produced for weighment thereat shall present to the officer in charge of the Treasury an application in duplicate in Form V together with the duty on the drugs that it is desired to remove. The officer in charge of the Treasury will receive the application in duplicate and the amount tendered, and, after ascertaining that the amount tendered is correct, will fill up the figures in the endorsement on both copies of the application, sign them in token of the receipt of the amount tendered, and stamp them both with the seal of the Treasury. One copy will then be returned to the applicant, the duplicate being retained in the Treasury. The applicant will then present his copy to the officer in charge of the warehouse, who will retain it as his authority for permitting the removal of the drug, endorsing on it over his signature the description and weight of the packages removed, the date of removal and the serial number of the pass issued under the following rule, and recording the withdrawal in the registers maintained at the warehouse and, in the case of drugs deposited in the warehouse, in the depositor's pass-book.

26. In respect of every package or consignment of drugs so removed from the warehouse the officer in charge shall prepare a pass in Form IX authorising the transport of the drugs to their destination. Such passes will be in duplicate, the first copy will be delivered to the person in charge of the drugs, and the second will be retained by the officer in charge of the warehouse. The pass will protect the drugs only up to the time entered therein in that behalf, and only so long as they are carried by the most direct route from the warehouse to the licensed premises, and as bulk remains unbroken. It shall, on the arrival of the drugs at their destination, be returned by the person in charge to the officer in charge of the warehouse, by whom it will be pasted to the counterfoil.

27. The issue of drugs from the warehouse for consumption in Native States may be permitted by the local excise authority, free of duty, on the application of the owner accompanied by a permit or pass in duplicate, signed or countersigned by the Political Agent accredited to the State in which the drugs are to be consumed or by the Excise Commissioner for Central India, authorizing their import into the State. The drugs shall be securely packed and sealed by the warehouse officer and their description and weight entered by him on both copies of the permit or pass, which shall be signed by him. One copy shall be filed in the warehouse as the authority for the issue of the drugs and the second will accompany the drugs to their destination. This copy, with the result of the verification of the drugs on arrival at destination endorsed thereon, will subsequently be returned to the officer in charge of the warehouse by the authorities of the State of destination, and will also be filed at the warehouse. It will be the duty of the officer in charge of the warehouse to bring to the notice of the local excise authority delay in the return of such permits or passes, and also any serious discrepancy between the drugs despatched and those shown by the endorsement as received.

28. The warehouse dues (if any) unpaid at the time of the removal of drugs from the warehouse shall, prior to such removal, be demanded in the manner prescribed by section 18 (1) of the law by the officer in charge, who shall, on payment, grant a receipt for the same in Form VI. All amounts so received shall forthwith be remitted by the said officer to the Treasury, and a receipt obtained and filed in a guard book. A register of warehouse dues shall be maintained by the officer in charge of the warehouse in Form VII.

29. Ganja and charas remaining uncleared in a warehouse after the expiry of two years from the date on which they were deposited shall, after one month's notice to the owner of the expiry of such period, be disposed of in such manner as the Excise Commissioner for Central India may direct.

30. The warehouse registers shall be totalled at the end of the month, and an abstract shall be prepared in Form VIII. The whole of the drugs in stock shall be verified by the officer in charge of the warehouse by counting the packages in the warehouse on the last day of the month, and by comparing the particulars on the cards with those in the registers. The said officer shall endorse on the abstract a certificate stating the results of the foregoing verification. A copy of the abstract and certificate shall be forwarded to the local excise authority on the first day of the following month.

31. The local excise authority shall, before the 10th of every month, compare the entries in registers I, II, III and VII for the preceding month with the receipts in Forms V and VI, with the import passes, and with the departmental accounts maintained at his office, and shall certify on the registers the result of such comparison.

32. The warehouse shall be open for the transaction of business during such hours as may from time to time be prescribed by the local excise authority in this behalf. In precribing such hours the convenience of depositors will be consulted as far as possible. No transaction shall, except under special sanction, be permitted after 6 p.m. Transactions will, as far as possible, be conducted during fixed hours duly notified. The holidays to be allowed, exclusive of Sundays, are only those notified under the Negotiable Instruments Act. Sundays, New Year's Day, Good Friday, the King's birthday and Christmas Day are alone to be treated as close holidays. On other days the warehouse shall be open for at least two hours for the transaction of urgent business.

[illegible]

No. 1947-C.—In exercise of the powers conferred by section 42 of the Central India (Administered Areas) Excise Law, 1917 (hereinafter referred to as "the Law") and in supersession of notification No. 1164-C., dated the 18th June 1908, the Agent to the Governor-General in Central India is pleased to make the following rules for the regulation in the Cantonment and Civil Lines of Nowgong of the matters hereinafter mentioned :—

1. Opium for consumption in the Cantonment and Civil Lines of Nowgong shall be imported on behalf of Government under the orders of the Excise Commissioner, and stored in the warehouse established under section 17 (a) of the Law.

2. Every consignment of opium received at the warehouse shall at once be opened, and its contents weighed and examined by the officer in charge of the warehouse in the presence of the local excise authority and entered in the stock register, the entry being initialled by the local excise authority.

3. Opium shall be supplied by the officer in charge of the warehouse only in quantities of not less than a ser in weight and only to the holders of a license from the local excise authority for the sale of opium or to their authorized agents, after pre-payment in accordance with the following rules of such price per ser as may from time to time be fixed by the Agent to the Governor-General in Central India in this behalf together with the duty leviable thereon under section 16 (1) of the Law.

4. Any such person desiring to obtain opium from the warehouse shall present to the officer in charge of the Treasury an application in duplicate in Form A hereto appended, together with the price of and duty on the opium that he desires to purchase. The officer in charge of the Treasury will receive the application in duplicate and the amount tendered, and, after ascertaining that the amount tendered is correct, will fill up the figures in the endorsement on both copies of the application, sign them in token of the receipt of the amount tendered, and stamp them both with the seal of the Treasury. One copy will then be returned to the applicant, the duplicate being retained in the Treasury. The applicant will then present his copy to the officer in charge of the warehouse, who will supply the quantity of opium specified therein, retaining the copy of the application as his authority for doing so, and noting thereon over his signature the date on which the opium was supplied, the amount supplied, and the serial number of the pass issued under the following rule.

5. The officer in charge of the warehouse will also prepare in duplicate a pass in Form B hereto appended for the removal of the opium to licensed premises. One copy will be given to the purchaser, and the other will be retained by the officer in charge of the warehouse. The pass will protect the opium only up to the time entered therein in that behalf, and only so long as it is carried by the most direct route from the warehouse to the licensed premises and in unbroken bulk. On the arrival of the opium at its destination, the purchaser will return the pass to the officer in charge of the warehouse, by whom it will be pasted to the counterfoil.

6. Opium shall be issued from the warehouse in the order of its receipt. No portion of the contents of a fresh consignment shall be issued until the whole contents of the previous consignment have been disposed of.

7. The stock register shall be maintained in Form C hereto appended, each receipt or issue of opium being entered in a separate line, and a balance struck after each transaction. Any loss of weight by dryage shall be shown in the last column.

The entries in the register shall at least once a month be compared by the local excise authority with the receipts for duty and with the balance of opium in hand. The entries in columns 5 and 6 shall be totalled at the end of each month, and the total of column 6 compared with the corresponding total for the month in the Treasury accounts. In the event of a discrepancy, its cause shall be ascertained by comparing the receipts issued from the Treasury for price of and duty on opium with those presented at the warehouse, and a note reconciling the accounts recorded in the stock register.

By order, etc.,

E. J. D. COLVIN, Major,

First Assistant to the Agent to the Governor-General in Central India.

ORDERS BY THE HON'BLE THE AGENT TO THE GOVERNOR-GENERAL, RAJPUTANA.

NOTIFICATION.

Mount Abu, the 5th November 1919.

No. 5830—3.—The following rules made by the Abu Municipal Committee for the regulation of vaccine operations within the limits of the Abu Municipality under Section 19 of the Vaccination Act XIII of 1880 as applied to the District of Abu are hereby published for general information.

1. The area of the Abu Municipality shall be considered one vaccination circle.
2. The Municipal Committee will provide a vaccination office in a convenient situation, and a board will be set up at this office and maintained there, bearing the words "Vaccination Station", followed by a notice setting forth for public information the name of the public vaccinator, and the hours of his daily attendance at the station on vaccination duty, and a notice also notifying that the public vaccinator will, on due request made, attend for the vaccination of children at their homes in the circle, and a notice that no charge will be made for vaccination, whether performed at the Station or at the child's home.
3. The Civil Surgeon, Abu, shall *ex-officio* be Superintendent of Vaccination within the circle.
4. The public vaccinator shall possess a certificate of qualification given by the General Superintendent of Vaccination, Rajputana, or by such medical officer as the Hon'ble the Agent to the Governor-General shall direct, in the following form :—

I hereby certify that I have examined _____ and find him qualified for the office of public vaccinator.

Dated _____ the _____ 19 _____

General Superintendent of
Vaccination or Medical Officer.

Before granting such certificate the General Superintendent of Vaccination, Rajputana, or the medical officer appointed in this behalf by the Hon'ble the Agent to the Governor-General, shall be assured of the soundness of the candidate's knowledge in regard to—

- (1) The vaccination operation.
- (2) The characteristics of a good vesicle and cicatrice.
- (3) The chief symptoms of small-pox disease.
- (4) The Vaccination Act and Rules.
- (5) The forms and certificates required under the rules.

5. The public vaccinator shall be appointed by the Municipal Committee and may for recorded misconduct be suspended or dismissed from office by the Municipal Committee on the recommendation of the Superintendent.

6. The hours of daily attendance of the public vaccinator at the vaccine station shall be fixed by the Municipal Committee.

7. A public vaccinator shall be a permanent resident of the circle and shall be absent therefrom only for such periods of leave as may be granted by the Municipal Committee.

8. The vaccination season is the period of nine months extending from the 1st October to 30th June.

9. The public vaccinator shall at all times when engaged in the duties of his office wear a badge in the form of a brass-plate, with the words "Public Vaccinator, Abu Municipality," engraved on it.

10. The public vaccinator shall vaccinate children of the circle at their homes, at the request of a parent or guardian, or at any other place within the circle by direction of the Superintendent. He may also visit and vaccinate children residing beyond the circle, at the request of a parent or guardian and with the permission of the Sirohi Darbar and the Superintendent.

11. Certificates of vaccination shall be in the form A hereto annexed.

12. Certificates of unfitness for vaccination shall be in the form B hereto annexed.

13. The public vaccinator shall issue to the parent or guardian a certificate of vaccination in Form A on account of every child vaccinated on the day of vaccination and shall complete the certificate on the day of examination and he shall also issue to the parent or guardian a certificate in Form B of unfitness for vaccination on account of every child found unfit on the day of its examination. All cases of reported unfitness for vaccination shall be referred by the vaccinator to the Superintendent whose countersignature to every certificate issued in Form B will be necessary.

Before final delivery to the parent or guardian of any certificate, the public vaccinator shall complete and sign the entries of its fly-leaf which shall remain bound in the book of such certificates. The public vaccinator shall be provided with books of the above Forms A and B.

14. The lymph ordinarily used by the public vaccinator shall be glycerinated calf lymph obtained through the Superintendent under the orders of the General Superintendent of Vaccination, Rajputana. In case of failure of the lymph supply at any time of the season the General Superintendent of Vaccination or such medical officer as he may direct, shall renew the

supply in tubes. In the event of a considerable demand for vaccination with animal lymph arising in the circle, the Superintendent shall cultivate such lymph for use in the circle.

Vaccination instruments shall be supplied to the vaccinator free of charge.

15. No fee shall be charged for vaccination at the vaccination station of a person residing beyond the circle limits. If the operation and inspection are performed elsewhere than at the vaccination station the Committee may by general or special orders in this behalf charge a fee not exceeding four annas per individual.

16. The Municipal Committee shall take measures to prepare and keep the following registers in the forms appended to these rules:—

(1) Register of infants born within the circle on or after the 1st January, 1920, with record of vaccination, in every mohalla of the Municipality.

(2) Register of the names of children now resident in or brought into Municipal limits after the 1st January, 1920 who have not been vaccinated or have not had small-pox, such children having resided in the Municipality for not less than one month and being if boys, under the age of 14 years; if girls, under the age of 8 years.

17. The general register of vaccination performed in the circle and forms of monthly returns shall be prescribed by the General Superintendent of Vaccination, Rajputana.

18. At the commencement of every vaccination season the Secretary, Municipal Committee, shall cause notices to be affixed for public information in every important portion or quarter of the circle in Form C both in Hindi and Urdu.

The Secretary, Municipal Committee, may at any time during the vaccination season direct the public crier to call attention to these notices.

19. A monthly figured statement of results shall be submitted by the public vaccinator to the Superintendent during the vaccination season in the prescribed departmental form. At the same time a copy shall be sent to the Municipal Committee.

The public vaccinator shall submit to the Superintendent and the Municipal Committee a figured statement of results for the season after its termination together with a concise report upon the working of the Act and rules during the season.

Miscellaneous.

20. All the fees received by the public vaccinator shall be credited to the Municipal Fund.

21. If the Superintendent of Vaccination shall have proof that a parent or guardian has failed to procure the vaccination of a child under the Act, he shall cause to be delivered to such parent or guardian, or to be attached to his house, a notice in the accompanying form D.

If such notice is not complied with, the Superintendent of Vaccination shall report the matter to the Secretary, Municipal Committee, who shall proceed as directed in section 18 of the Act.

WHOLESALE AND RETAIL (FORTNIGHTLY) PRICES

RETURN SHOWING the WHOLESALE and RETAIL PRICES of CEREALS, PULSES, OILSEEDS, SUGAR (RAW), SALT, ETC., in INDIA by DISTRICTS for the FORTNIGHT ENDING THE 15TH OCTOBER, 1919

DEPARTMENT OF STATISTICS, INDIA }
November 12, 1919

G. FINDLAY SHIRRAS,
Director of Statistics

Published by order of the Governor-General in Council

PREFATORY NOTE.

Prices of Country Produce and Salt in India in the middle of October, 1919.

(a) *The first fortnight of October, 1919, as compared with the preceding fortnight.*

A further fall in prices.

In the middle of October, 1919, the average wholesale prices of food grains and pulses in India showed a further fall, namely, 3 per cent as compared with the preceding fortnight. There was a decrease of 1 per cent in the prices of rice, barley and gram (unweighted average), 2 per cent in wheat, 3 per cent in maize and arhar dāl, 5 per cent in jawar, and 6 per cent in bajra. The weighted average price of rice indicated a fall of 7 per cent in India. Ghi showed a rise of 1 per cent but salt a corresponding fall, while raw sugar (gúr) showed little or no change. The all-India fluctuation is stated below :—

Article	PREVIOUS FORTNIGHT (30TH SEPTEMBER, 1919)		THIS FORTNIGHT (15TH OCTOBER, 1919)	
	Unweighted	Weighted	Unweighted	Weighted
Rice	100	100	99	93
Wheat	100	100	98	100
Barley	100	100	99	98
Jawar	100	100	95	96
Bajra	100	100	94	96
Maize	100	100	97	96
Gram	100	100	99	99
Arhar dāl	100	—	97	—
Ghi	100	—	101	—
Raw Sugar (gúr)	100	100	100	101
Salt	100	—	99	—

The noticeable fluctuations in provincial prices are : a fall of 23 per cent in jawar in Sind-Baluchistan and of 17 per cent in bajra in Delhi. The price of rice in Bengal showed a fall of 3 per cent as compared with the previous fortnight but wheat prices in the Punjab remained unchanged.

(b) *The first fortnight of October, 1919, as compared with the average of the preceding three years at corresponding date.*

The wholesale prices of cereals and pulses in India in the middle of October 1919, showed a rise of 50 per cent as compared with the average of the prices which ruled at the corresponding date in the last three years. The increase in the price of rice was 45 per cent (unweighted average) showing a rise of 71 per cent in Bengal, 77 per cent in Bihar and Orissa, 56 per cent in the Madras Presidency and 39 per cent in Burma. Prices of wheat advanced by 31 per cent. The increase in the Punjab was 23 per cent, in the United Provinces 36 per cent, in the Central Provinces and Berar 37 per cent, and in the Bombay Presidency 33 per cent. The rise in barley was 35 per cent, in jawar and bajra 52 per cent, and in maize 41 per cent. Prices of gram and arhar dāl showed a rise of 67 and 75 per cent respectively. There was an increase of 34 per cent in ghi and 61 per cent in raw sugar (gúr). The price of salt fell by 4 per cent in India.

* 5% barley, 3% dirt, and 30% red.

NOTE.—These statistics are compiled from fortnightly returns furnished by Local Governments and Administrations. They relate to the wholesale prices in the markets referred to above, which prevailed on the last (or nearest mart) day of each fortnight. The statistics for Karachi, Bombay, and Calcutta are compiled from the Chambers of Commerce Market Reports.

(a) Based on the price for the fortnight ending the 31st July, 1914, which is taken as 100.

India per maund of 82½ lbs

NOTE.—These statistics are entirely compiled from returns furnished fortnightly by Local Governments and Administrations. They relate to the retail prices in the head quarters of the districts and in the ports referred to above.

(a) Based on the price for the fortnight ending the 31st July 1914, which is taken as 100.

Relates to Khandwa wheat.

[The figures state quantity per rupee in seers of 80 tolas.]

Government of India Notifications, Appointments, Promotions, etc.

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS.

Delhi, the 15th November, 1919.

No. 102.—In exercise of the powers conferred by sub-section (6) of section 63 of the Government of India Act, 1915 (5 and 6 Geo. 5, c. 61), the Governor General in Council, with the approval of the Secretary of State for India in Council, is pleased to make the following amendment in the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor General (in the said Act referred to as the Indian Legislative Council) published under Notification No. 61 of the Government of India in the Legislative Department, dated 14th November, 1912, as subsequently amended, namely:—

In rule 2 (c) in Schedule XVI to the said Regulations for the word "Calcutta" the word "Patna" shall be substituted.

No. 103.—In exercise of the powers conferred by sub-section (4) of section 74 of the Government of India Act, 1915 (5 and 6 Geo. 5, c. 61), the Governor General in Council, with the approval of the Secretary of State for India in Council, is pleased to make the following amendments in the Regulations for the nomination and election of Additional Members of the Legislative Council of the Lieutenant-Governor of Bihar and Orissa published under Notification No. 66 of the Government of India in the Legislative Department, dated the 21st November, 1912, as subsequently amended, namely :—

In Schedule IV to the said Regulations the following amendments shall be made :—

(a) In rules 3 (b) and 7 (c) for the word "Calcutta" the word "Patna" shall be substituted.

(b) For clause (f) of rule 3 the following clause shall be substituted, namely :—

"(f) are teachers in a college as defined in the Patna University Act, 1917, or in an educational institution permitted or entitled under the Regulations of the Patna University to present candidates at the Matriculation examination of that University, or maintained or aided by Government."

The 17th November, 1919.

No. 104.—Mr. H. P. Duval, I.C.S., is placed on special duty in the Legislative Department with effect from the 15th November, 1919.

The 20th November, 1919.

No. 105.—Whereas the validity of the election on the 21st July, 1919, of Haji Chaudhuri Muhammad Ismail Khan by the Muhammadan Community in Bihar and Orissa to be an Additional Member of the Legislative Council of the Governor General has been brought in question under Regulation XVI of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor General ;

The Governor General in Council having made enquiry into the matter is pleased hereby to declare the election of the said Haji Chaudhuri Muhammad Ismail Khan to be void, and to call upon the Muhammadan Community in Bihar and Orissa to elect, in accordance with the said Regulations, another person to be an Additional Member of the said Council, by the 22nd January, 1920.

The 21st November, 1919.

No. 106.—A vacancy having occurred in the Indian Legislative Council by reason of the death of the Hon'ble Khan Bahadur Sayed Allahabado Shah, an Additional Member of the said Council who represented the Jagirdars and Zamindars of Sindh in the Presidency of Bombay, the Governor General is pleased, in pursuance of the provisions of Regulation XI(b) of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor General, to call upon the Jagirdars and Zamindars of Sindh in the Presidency of Bombay to elect, in accordance with the said Regulations, a person for the purpose of filling the said vacancy on or before the 15th January 1920.

H. M. SMITH,

Secretary to the Government of India.

HOME DEPARTMENT.

ESTABLISHMENTS.

Delhi, the 20th November 1919.

ALLOTMENT TO PROVINCES OF THE MEMBERS OF THE INDIAN CIVIL SERVICE APPOINTED IN 1919.

RESOLUTION.

The undermentioned gentlemen, who have been appointed in England to the Indian Civil Service, are, under the orders of the Governor General in Council, allotted to the Provinces shown against their names:—

Mr. J. Peddie.	}	Bengal.
The Hon. S. K. Sinha.		
Mr. K. C. Chunder.		
Mr. M. H. B. Nethersole.	}	United Provinces.
Mr. W. Hussain.		
Mr. H. R. Waugh.		Punjab.
Mr. J. K. Stanford.		Burma.
Mr. S. Lall.	}	Bihar and Orissa.
Mr. W. G. Lacey.		
Mr. N. T. Porter.	}	Central Provinces.
Mr. C. D. Deshmukh.		
Mr. C. R. Pawsey.		Assam.

2. The Governor General in Council is further pleased to direct that Messrs. Peddie, Chunder and Pawsey and the Hon. S. K. Sinha shall on arrival at Bombay ascertain from the Resident Under Secretary to the Government of Bombay whether any orders as to their destination await them. In the absence of any such orders, they should proceed to Calcutta and report themselves to the Chief Secretary to the Government of Bengal. Messrs. Lall and Lacey should on arrival at Bombay inquire from the Resident Under Secretary to the Government of Bombay whether any orders as to their destination await them. In the absence of any such orders, they should at once proceed to Patna (Patna Junction Railway Station) and there report themselves to the Chief Secretary to the Government of Bihar and Orissa or in his absence to the Commissioner of the Patna Division.

3. Messrs. Nethersole, Hussain, Waugh, Porter and Deshmukh should ascertain on arrival at Bombay from the Resident Under Secretary to the Government of Bombay whether any orders as to their destination await them. In the absence of such orders, Messrs. Nethersole and Hussain should proceed at once to Allahabad and report themselves to the Chief Secretary to the Government of the United Provinces. Mr. Waugh should proceed to Lahore and report himself to the Chief Secretary to the Government of the Punjab and Messrs. Porter and Deshmukh should proceed to Nagpur and report themselves to the Chief Secretary to the Chief Commissioner, Central Provinces.

4. Mr. Stanford should on arrival at Rangoon report himself to the Chief Secretary to the Government of Burma.

ORDER—Ordered that a copy of this Resolution be forwarded to the Local Governments and Administrations concerned for information and guidance. Also that the Resolution be published in the Supplement to the *Gazette of India* and that a copy be forwarded to each of the gentlemen named therein.

Delhi, the 20th November 1919.

RECOMMENDATIONS OF THE PUBLIC SERVICES COMMISSION RELATING TO PENSIONS OF THE INDIAN CIVIL SERVICE.

RESOLUTION.

In connexion with the recommendations of the Royal Commission on the Public Services in India relating to the Indian Civil Service contained in paragraphs 45 and 46 of Annexure X to their Report, the Government of India, with the approval of the Secretary of State, are pleased to announce that it has been decided—

- (1) to retain the present uniform rate of £1,000 for annuities, but not to require the 4 per cent. contribution which the officers are at present compelled to make towards it, and
- (2) to fund for the benefit of the officers concerned the 4 per cent. deduction now made, this being returned to them on retirement, or to their legal representatives in case of death, with the same interest as is allowed on subscriptions to the General Provident Fund. This concession will take effect from the 1st April 1919.

2. The Commission in paragraph 48 of Annexure X to their Report expressed the opinion that the existing rates of invalid annuities laid down in article 564, Civil Service Regulations, are sufficiently liberal, but the attention of the Government of India has been drawn to the facts that, *firstly*, when questions of the retirement on grounds of health of members of the Indian Civil Service have been under consideration, difficulties have from time to time arisen owing to the disproportion between the rates of the invalid annuities and the amount of the annuity of £1,000 which an officer receives on retirement after a full term of service, *secondly*, that local Governments are naturally unwilling to penalise officers retiring through no fault of their own, and endeavour so far as possible to avoid the premature retirement of their officials on invalid pension, and, *thirdly*, that officers who ought in their own interests and in the interests of the service to be invalided are induced by pecuniary considerations to avoid appearance before Medical Boards and persist in their duties at serious risk to health and even life. The Government of India, with the approval of the Secretary of State, have therefore decided to improve the rates as follows, the exact amount being calculated on years of "active" instead of "total" service as heretofore :—

		£
For the first three years of active service—a gratuity of		500
" 4th year—an annuity of		150
" 5th " "		170
" 6th " "		200
" 7th " "		230
" 8th " "		260
" 9th " "		290
" 10th " "		320
" 11th " "		360
" 12th " "		400
" 13th " "		440
" 14th " "		480
" 15th " "		540
" 16th " "		600
" 17th " "		660
" 18th " "		720
" 19th " "		780
" 20th " "		840
" 21st " "		900

This scale will apply to all officers invalided since 1st April 1919 and from date of invaliding. Any of these officers or any officers now in the service invalided hereafter will be allowed the benefit of the present rules in the rare cases where owing to special circumstances the present rules are more favourable to them.

ORDER.—Ordered that a copy of this Resolution be forwarded to all local Governments and Administrations, the several Departments of the Government of India (including the Financial Adviser, Military Finance) and the offices subordinate to this Department for information and guidance.

Ordered also that it be published in the Supplement to the *Gazette of India* for general information.

Mint.

Dated Delhi, the 21st November 1919.

**RULES REGULATING THE RELATIONS BETWEEN THE MINT AND ASSAY
OFFICES AND THE PUBLIC IN RESPECT OF BULLION TENDERED FOR
ASSAY.**

RESOLUTION.

As a result of recent occurrences in one of the Mints the Government of India have decided to frame rules regulating the relations between the Mint and the Assay Office and between these and the public. In the past members of the public bringing bullion for assay have dealt direct with the Assay Office and the various processes employed in dealing with such bullion have all been performed in the Assay Office where the bullion has been weighed in and out, melted, assayed and finally reported on. The objections to this system are that it opens the door to possible connivance between the public and the Assay Office and tends to detract from the impartiality of assay by affording the Assay staff information as to the ownership of the bullion presented for assay and in some cases of the estimated fineness of the bullion. The Government of India are accordingly pleased to lay down the following rules which will be observed in future.

(1) All bullion brought for assay will be presented at the Mint and not at the Assay Office, only such number of tenders being received as the Assay Master is prepared to deal with. Tenders will be accepted in the order in which they are presented.

(2) Tenders of bullion will be weighed on receipt and re-weighed after melting by an Assistant specially deputed for this work by the Mint Master in the presence of the tenderer or his representative. No melter will be present at the weighment, nor will the results of such weighments be communicated to him. All bullion will be weighed at the Mint in the presence of the tenderer or his representative, if he so desires, and bullion will be removed from the Mint only on a pass issued by the Assistant specifying the number of bars and the actual weight.

(3) The serial number of the tender and the weights before and after melting and the fees paid for melting and assay will be recorded under the initials of the officer actually making the weighment in a book provided for the purpose. The fees will be paid into the office daily and the Cashier will acknowledge receipt in the book.

(4) In the case of gold bullion melted from each pot a muster of 50 grains will be sent to the Assay Master for report with the serial number of the melting. The same procedure will be followed in the case of silver except that the muster will be 90 grains. The serial number will be sufficient for purposes of identification, and no further information as regards the bullion to be assayed will be communicated to the Assay Office.

(5) The assay reports (together with the musters in the case of gold bullion) will be sent direct by the Assay Office to the Mint Master and will in no case except with the express permission of the Mint Master be shown either to the melter or to the Bullion Department.

(6) No employé of the Mint will be permitted to enter the Assay Office and no employé of the latter office will be permitted to enter the Mint except in so far as is necessary for the proper performance of his duties under the written orders of the Mint or Assay Master or of some officer to whom the power has been delegated to issue passes in this behalf. No member of the public will be permitted to enter the Assay Office except under such rules as may be laid down for visitors.

ORDERED that a copy of this Resolution be forwarded to the Comptroller and Auditor General, the Controller of Currency, and the Mint and Assay Masters, Calcutta and Bombay. Ordered also that the Resolution be published in the *Gazette of India*.

H. F. HOWARD,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 20th November 1919, based on the Indian Daily Weather Reports of the period.

1. The disturbance, which appeared in the south of the Bay and was giving locally heavy rain on the east Madras coast towards the end of the previous week, developed into a storm off Vizagapatam during the 13th; it then advanced in a northeasterly direction and by the morning of the 17th had crossed the Bengal coast and disappeared. During its continuance rainfall was widespread on the north Madras coast, in northeast India and Burma, the falls being locally heavy on the coast from Gopalpur to Kyaukpyu; Gopalpur received nearly 13" in forty-eight hours; False Point and Kyaukpyu 19" and 17½" respectively in seventy-two hours, and Akyab 10½" in twenty-four hours with another 4½" during the succeeding twenty-four hours. In the southern and central districts of the Peninsula rain fell on the 13th and 14th, but ceased almost entirely on the remaining days. Towards the end of the week conditions became unsettled over Gujarat and the adjacent parts to the east, and local rain fell in Gujarat, south Rajputana and the west of Central India and of the Central Provinces.

2. *Burma.*—Nearly general rain fell in Lower Burma on the 16th and 17th, and in Upper Burma on the 15th; there was local rain in both these areas on four other days.

Northeast India, including Orissa.—Nearly general rain fell in Assam and Bengal on the 15th, and in Orissa on the 13th and 14th; rainfall occurred locally or at a few stations on one other day in Orissa, and on two other days in the other two areas. In Chota Nagpur and Bihar the week was rainless except for a light fall at Chaibasa and Naya Dumka.

The United Provinces, Central India and the Central Provinces.—Local rain fell in the west of Central India and of the Central Provinces on the 19th, and there was an individual fall on one other day in the latter area.

Northwest India.—Rainfall was local in Gujarat on the 18th and 19th; over the rest of the division Udaipur was the only station that reported rain during the week.

The Peninsula.—There was nearly general rain in south Hyderabad and on the north Madras coast on the 13th, in Mysore on the 14th, and in Malabar on the 13th and 14th; rain fell locally or at a few stations in Mysore on two other days and on the north Madras coast on three other days. Rainfall was local in the Konkan on the 15th, in the Bombay Deccan on the 13th and 17th, in north Hyderabad on the 19th, in southeast Madras on the 13th, and in the Madras Deccan between the 13th and 15th; a few falls occurred on one other day in the Konkan and southeast Madras, and on three other days in the Bombay Deccan.

3. The chief amounts of rainfall reported were as follows:—

November	13th.	False Point 5·80", Cuttack 1·37", Jubbulpore 0·75", Sholapur 1·11", Raichur 0·89", Mysore 1·64", Cochin 1·26", Trivandrum 2·24", Negapatam 2·60", Vizagapatam 2·62", Calingapatam 4·53" and Gopalpur 8·12".
"	14th.	Lashio 0·98", Jessore 1·34", Calcutta 1·74", Sanger Island 3·88", Balasore 2·80", False Point 5·76", Cuttack 1·81", Belgaum 1·28", Chitaldrug 0·91", Bangalore 1·62", Calicut 1·15" and Gopalpur 4·76".
"	15th.	Bassein 1·21", Kyaukpyu 7·35", Akyab 10·28", Myitkyina 0·95", Silchar 1·21", Cherrapunji 3·80", Cox's Bazar 4·44", Chittagong 2·55", Barisal 1·14" and False Point 7·72".
"	16th.	Moulmein 1·39", Kyaukpyu 6·34", Akyab 4·48", Minbu 2·02", Myitkyina 3·86", Silchar 2·37", Cox's Bazar 0·94", Chittagong 2·76" and Barisal 0·96".
"	17th.	Mergui 1·10", Moulmein 1·70", Kyaukpyu 3·86", Bhamo 1·45" and Poona 0·58".
"	18th.	Rangoon 1·47", Lashio 0·42", Maymyo 0·66", Dwarka 0·49", Ahmadabad 0·30" and Poona 0·77".
"	19th.	Port Blair 1·54", Neemuch 0·40", Amraoti 0·36", Khandwa 0·66", Udaipur 0·20", Rajkot 0·56", Ahmadabad 0·26" and Parbhani 0·19".

4. The week's rainfall was 20 per cent or more in excess in the Bay Islands, Burma, Assam, Bengal, Orissa, Gujarat, Central India West, Berar, the Central Provinces West, the Konkan, the Bombay Deccan, Hyderabad South, Mysore, Malabar, the Madras Deccan and the Madras Coast North; and was 20 per cent or more in defect in Bihar, Kashmir, Baluchistan, Central India East, the Central Provinces East, Hyderabad North and Madras South-east. It was equal to the normal in Chota Nagpur and Rajputana East. No rain usually falls at this time of year in the United Provinces, the Punjab, the North-West Frontier Province, Sind and Rajputana West.

The rainfall from the 2nd May to date is 20 per cent or more in defect in the Bay Islands, Kashmir, Sind and Hyderabad North; and is 20 per cent or more in excess in Orissa, Chota Nagpur, Baluchistan, Rajputana West, Central India, the Central Provinces West, Mysore and the Madras Coast North. In the remaining divisions the rainfall of the period differs from the normal by less than 20 per cent.

SUPPLEMENT TO THE GAZETTE OF INDIA, NOVEMBER 22, 1919.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 15th November 1919.

Burma.—The rainfall during the week was general in Lower Burma and in the wet zone of Upper Burma, but mostly light in the dry zone. Reaping of early paddy is proceeding in Lower Burma. Cultivation of cold weather crops, gathering of groundnuts and plucking of cotton continue in Upper Burma. Standing crops are in fair condition and their outturn is expected to be below normal in the majority of districts. The condition of cattle is generally satisfactory. The price of unhusked rice remained unchanged at rupees 150 and that for white rice (specials) at rupees 385 per hundred baskets. Prices are much above normal.

Assam.—During the week the weather was seasonable and cloudy. Plucking of tea and cotton and ploughing for and sowing of mustard and pulses are in progress. Harvesting of winter rice has commenced. The outturn of winter rice, cotton and tea is fair. Prospects of sugarcane are fair to good. Other crops are generally in fair condition. Cattle disease is reported from six districts. The price of common rice continues to fall.

Bengal.—The week was practically rainless. Harvesting of winter paddy continues. Sowings of potatoes, tobacco, wheat and oilseeds are progressing favourably. Prospects of standing crops are hopeful. The average price of common rice has fallen by about 0.13 per cent.

Bihar and Orissa.—During the week rain fell in Orissa, Purnea, the Santal Parganas, Manbhum and Singhbhum. There was no rain in the rest of the Province. The fall was heavy in the coast districts of Orissa especially in Puri and light in the remaining districts. Sowings of spring crops are in progress. Harvesting of early winter paddy continues. Standing crops are doing well. More rain is wanted for paddy in parts of Saran, Champaran, Muzaffarpur, Darbhanga and Purnea. Gratuitous relief was given to 14,571 persons in Bhagalpur, 767 in the Santal Parganas, 4,496 in Cuttack and 6,277 in Puri. The number of persons attending relief works was 70 in the Santal Parganas. The price of common rice has risen in six districts, fallen in seven and remained stationary in the remaining districts as compared with that of the preceding week. The average price of local common rice at headquarters was 5.89 seers a rupee against 5.96 in the preceding week and that of maize was 7.56 seers against 7.91 seers in the preceding week. Cattle disease is reported from nine districts. During the week ending the 8th November, 602 persons were given gratuitous relief and 2,826 attended test works in three Feudatory States of Orissa, viz. Bamia, Baramba and Despalla.

Famine report not received.

United Provinces.—No rain fell during the week. Damage to late rice crop is reported from Padrauna and Hata tahsils in Gorakhpur. Preparation of lands for and sowing of spring crops and poppy, harvesting of autumn crops, irrigation of spring crops, sugarcane and late rice crops and pressing of sugarcane and picking of cotton continue. Standing crops are generally flourishing. Prospects are good. The condition of agricultural stock is satisfactory. Very little cattle disease is reported. Fodder is somewhat scarce in flooded tracts of Ballia, but elsewhere it is adequate. Water and market supplies are sufficient. Prices are stationary with a tendency to rise in some districts.

Punjab.—During the week the weather remained dry. Rain is urgently wanted everywhere. The condition of standing crops is average to good on irrigated and below average to average on unirrigated areas. Picking of cotton and harvesting of other autumn crops continue. The yield is generally normal on irrigated and below normal on unirrigated areas. Wheat and other spring crops are being sown. The area sown is below normal to normal. Cattle are generally healthy. Shortage of fodder and canal water is reported in parts of a few districts. Prices have risen slightly in some districts and are stationary in others. They are generally above scarcity rates. Prices of wheat—Amritsar and Rawalpindi 8, Ferozepore 6½ and Lahore 6½ seers per rupee.

North-West Frontier Province.—The week was rainless. Sowings of spring crops and harvesting of certain autumn crops are in progress. The outturn of cotton is reported to be below average in Peshawar. Standing crops are generally average but prospects of crops on unirrigated areas in one district are reported to be poor. Prices of wheat:—Peshawar 7½ and Dera Ismail Khan 7 seers per rupee.

Jammu.—During the week no rain fell. Prices are stationary. Fodder is sufficient.

Kashmir.—The week was generally dry and clear. Cattle are healthy. Fodder is sufficient. Prices are fluctuating.

Rajputana.—During the week the weather was generally cold and clear. Autumn crops except *til* and cotton are being generally harvested. Sowings of spring crops still continue. Germination is generally good. The supply of fodder and water is adequate. The condition of agricultural stock is good except in parts of Kotah. Prices are steady.

Central India.—The rainfall during the week was nil in northern districts of Gwalior. Harvesting of autumn crops and sowing of spring crops are in progress. Picking of cotton continues in Gwalior and Malwa. Standing crops with their probable outturn are fair to good except in Bhilsa where they are poor. Damage is reported in some places of Baghelkhand and Malwa. Agricultural stock is generally good except for cattle disease in parts of Gwalior, Indore and Baghelkhand. Prices are high.

The weekly report on famine in Bundelkhand is as follows.—Distress is not acute. Numbers on relief works are decreasing. People are reverting to agricultural operations. No wandering or emaciation is reported. Relief measures are adequate. Suspensions of land revenue are being granted. *Takavi* advances are sufficient. The public health is good. Prices range from 6 to 7½ seers per rupee. Numbers on relief in thousands:—works 3½, gratuitous relief 47, total 81½.

Central Provinces.—During the week the weather has been cool and occasionally cloudy. Five districts received light showers, ranging from 10 to 81 cents. Reaping of *juar* has commenced in places and gathering, threshing and winnowing of other autumn crops are in progress. Picking of cotton is in full swing. Sowings of spring crops are approaching completion in several districts and germination is reported to be satisfactory. Prospects of both season crops are generally good. Fodder and water are ample. Cattle are generally healthy but cattle disease prevails in a sporadic form in parts of nine districts. The price of wheat rose by 1 seer per rupee in Seoni. Gram sells cheaper by 1 seer in Buldana. *Juar* in Chanda and rice and *juar* in Yeotmal became dearer by 1 to 2 seers per rupee. Other variations are unimportant but exhibit a tendency to rise.

Fundatory States.—The weather was occasionally cloudy. Reaping of autumn and sowing of spring crops are proceeding.

Bombay.—Rain fell during the week in the Konkan, the Karnatak, parts of the Deccan and Kolhapur. Rain is injurious to crops in parts of Kanara and Belgaum but elsewhere crops are in good condition. Harvesting of autumn crops and spring sowings continue. Cotton picking is in progress in some places. The supply of fodder and water is generally adequate. Agricultural stock is sufficient. Cattle are in good condition. Prices of food-grains have slightly risen in parts of the Karnatak and are steady elsewhere.

Hyderabad.—During the week the rainfall was almost general. The average fall was 23 cents. Autumn and early rice crops which are in fair to good condition are being harvested. Sowings of spring crops continue. Cattle disease is reported in some talukas of the Mahbubnagar, Nalgonda, Warangal, Adilabad and Karimnagar districts. Prices of grains continue to be high. *Juar* is selling at 4 seers per rupee in the Adilabad district.

The weekly report on famine for week ending 8th November 1919 is as follows:—Situation continues to be generally satisfactory. Several camps were closed. The number of persons on relief works is decreasing. *Takavi* is still being advanced to help spring cultivation. Prices of grains continue to be high. Rice is selling at 3½ seers and *juar* at 7 seers per rupee. Numbers relieved in thousands for week ending 6th instant:—works 12, gratuitous relief 11, total 23.

Mysore.—Good rain fell during the week. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available. Prices are high and fluctuating. Prospects of the season are fair. Harvesting of rice, *rags* and sugarcane is proceeding. The outturn is fair to good.

Coorg.—Report not received.

Madras.—The rainfall during the week was very heavy in Ganjam, Vizagapatam littoral, Sandur and Cochin, heavy in Godavari, Banganapalle, Bellary, Nellore, Malabar, South Kanara, Travancore and the hills, good in the Vizagapatam Agency, Kistna, Guntur, Kurnool, Cuddapah, Chingleput, Madras, South Arcot, central except Coimbatore and south except Tinnevely and fair elsewhere. Standing crops are in fair condition generally but they have been damaged in small areas in Godavari, Kistna and Chittoor. Owing to recent rains paddy crop in parts of one taluka in Tanjore is affected by floods. Castor in parts of one taluka in Salem has been damaged by insect pests. The outturn of harvested paddy and dry crops is generally fair. Fresh sowings of paddy and dry crops are progressing. The condition of cattle is generally good. Water is sufficient except in parts of seven districts. Pasture and fodder are sufficient generally. Prices are generally steady. Prospects are fair generally.

The weekly report on famine in Ganjam is as follows.—Relief works 25 in Goomsur, 3 in Udayagiri, 23 in Kallikota and Atagada, 3 in Humma, Biridi, and Palur and one in Ronabha are in progress. Labourers and small agriculturists are mostly affected. People are resorting freely to works and their physical condition is generally fair. Relief measures are adequate. Cloth distribution is being provided by private charity. Prices of rice in Goomsur 4·5, in Udayagiri 7·0, in Kallikota and Atagada 4·5 and in Chatrapur 4·8 seers and of *ragi* in Kallikota and Atagada 6·0 and in Chatrapur 7·6 seers per rupee. Numbers (incomplete) on relief works 49,337, gratuitous relief 74,432, total 123,769.

Printed and Published for the GOVT. OF INDIA, by the SUPERINTENDENT GOVERNMENT PRINTING, INDIA, Delhi.

The Gazette of India

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, NOVEMBER 22, 1919.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 8th November 1919

On and after 15th November and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Delhi, Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Delhi and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWITT,

Secretary to the Government of India "

Rates of Subscription.

	per annum.
Subscription for <i>Gazette</i> and Supplement	Rs. 15 0 0

THE PATENT OFFICE

PATENTS and DESIGNS.

Calcutta, the 22nd November 1919.

APPLICATIONS FOR PATENTS UNDER SECTION 3.

November 10.

5014. A. B. Godrej. *Improvements in safes.*
 5015. H. Kendall. *Improvements in or relating to bale-band fasteners.*
 5016. T. Zweigbergk. *Improvements in or relating to electric-motor control systems.*

November 11.

5017. C. G. L. Judge. *Improvements in rolling machines for tea.*
 5018. C. G. L. Judge. *Improvements in electrically driven motor vehicles and means of transmitting current thereto.*
 5019. E. Moss. *Improvements in and relating to raising, lowering and depth regulating means for ploughs and other implements.*

November 12.

5020. W. J. Sellars. *Improvements in heels of footwear.*
 5021. Roneo Ltd. and W. Chipperfield. *Improvements in the construction of metal cases for containing shelves, drawers or the like and in the construction of sliding drawers therefor.*

November 13.

5022. F. C. Griffin. *Improvement in sterilizing apparatus.*
 5023. W. P. C. Smith. *Improvements in or relating to burners for use in heating and other appliances.*

November 14.

5024. H. L. T. Wolfe. *Improvements in or relating to pumps of centrifugal or turbine types.*
 5025. E. Hayward. *A new and improved engine driven motor-car horn.*
 5026. I. Hotson-Tait. *A composition for sealing cans, and the like, that contain perishable foods.*

APPLICATIONS ACCEPTED AND ADVERTISED UNDER SECTION 6.

Notice is hereby given that all persons interested in opposing the grant of a Patent on any one of the applications, referred to below, may, at any time within three months of the date of this *Gazette of India*, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

Printed copies of the specifications in the following list will be on sale at the Patent Office, 1, Council House Street, Calcutta, within about three weeks.

Any one desiring a copy posted to an address in British India should send to the Patent Office the sum of annas eight by money-order on which the number of the application should be stated on the coupon at the foot of the order.

4349. S. S. Sarma. *Improved cooker.*
 4669. Norsk Hydro-Elektrisk Kavaelstofaktieselskab. *Improvements in the manufacture of concentrated nitric acid.*
 4757. Norsk Hydro-Elektrisk Kavaelstofaktieselskab. *Improvements in the manufacture of fertilizers containing nitrogen compounds and phosphoric acid.*
 4783. A. G. Zuniga. *Improvements in easy chairs.*
 4857. E. R. Subroyar. *Door and window adjuster.*
 4859. J. H. H. Rolfe. *Drying machine for tea and other substances.*
 4909. W. T. Barbour and W. M. Bell. *Improvements in winding, doubling or other like machines for yarn or thread.*
 4917. Aktieselskabet Dansk Gærings-Industri. *Process for production of yeast, especially air-yeast.*

4918. Aktieselskabet Dansk Gærings-Industri. *Process for production of yeast, especially air-yeast.*
 4942. J. Wells. *Improvements in gas producers for mechanical traction.*
 4243. A. E. M. Van der Meersch. *Improvements in safety razors.*
 4958. F. Handley Page and Handley Page Ltd. *Improvements in mechanism for releasing bombs and other articles from aircraft.*
 4954. F. Handley Page. *Means for supplying fuel to internal combustion engines.*

PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office, 1, Council House Street, Calcutta, annas eight each.

4221. W. L. H. Roberts. *Improvements in furnaces.*
 4265. Miris Steel Co., Ltd. *Improved manufacture of iron or steel or their alloys.*
 4269. H. D. Bennett. *Improvements in cooking vessels.*
 4318. M. F. Connell. *Improvements in recording machines or totalisators.*
 4638. J. Mucklow. *Improved machine for extracting stalk from tea.*
 4717. E. E. Dutt. *A process for the manufacture of portland cement from feldspar residues.*
 4759. A. J. Jung. *Improvements in or relating to carburettors.*
 4779. B. S. Bharade. *Indian kitchen chula.*
 4803. T. W. Bonner. *Improved disc pulveriser.*
 4808. K. Annaji and K. Sundararajan. *Improved automatic electric lime switch.*
 4823. F. H. Kettell and Hobson & Sons (London) Ltd. *Improvements in helmets.*
 4824. J. S. Arthur and L. G. Killby. *A new compound of lime and bromine and a process for its manufacture.*
 4827. C. C. Stephen. *Improvements in machines for cleaning scrap rubber or other substances.*
 4828. Measuregraph Co. *Fabric measuring and cost computing machine.*
 4829. Holt Manufacturing Co. *Improvements in and relating to chain-track vehicles.*
 4830. A. T. Ellis and H. A. Hands. *Improvements in and relating to the valves of internal combustion engines.*
 4832. Holt Manufacturing Co. *Improvements in or relating to chain-tracks for vehicles with self-laying tracks.*
 4833. J. H. Walker. *Improvements in and relating to metal reinforcement for concrete.*
 4834. W. H. Dixon. *Improvements in or relating to the manufacture of match boxes.*
 4835. A. J. F. Lee. *Improvements relating to submersible vessels.*
 4836. A. J. F. Lee. *An immersible salvage vessel.*
 4837. R. L. Datta. *Production of chromates.*
 4838. R. L. Datta. *Improvements in the production of trinitrophenol.*
 4841. J. M. Marum. *An improved method and apparatus for vaporizing volatile oil for disinfecting and other purposes.*
 4842. T. W. Dear. *Improvements in adjustable hubs for cart wheels and the like.*
 4849. Fastnut Ltd. *Improved combined nut and washer.*
 4850. R. S. Whaloy. *Improvements in or relating to internal-combustion engines.*

SEALING FEES DUE UNDER SECTION 10.

Notice is hereby given that a patent may now be sealed on the applications referred to below. If it is desired that a patent should be sealed, a request on the prescribed form No. 7 accompanied by the fee, Rs 30, should be sent to the Controller of Patents, 1, Council House Street, Calcutta.

4038. Rapson.

4120. McManis and Shorwood.

PATENTS SEALED.

8862. Porter and Emrick.
 4382. Edmondson.
 4478. Barclay.

EXTENSION OF COPYRIGHT IN DESIGNS.

Class 13. No. 2608. The Calico Printers' Association, Ltd., St. James's Buildings, Oxford Street, Manchester, England. January 12, 1915. (Copyright in design extended for five years.)

Class 13. No. 2716. The Calico Printers' Association, Ltd., St. James's Buildings, Oxford Street, Manchester, England. February 23, 1915. (Copyright in design extended for five years.)

DESIGN ENTERED IN THE REGISTER.

From November 10th to 15th, 1919.

Class 13. Nos. 8996 to 9041. The Calico Printers' Association, Ltd., of St. James's Buildings, Oxford Street, Manchester, England. November 6, 1919.

Class 14. Nos. 9042 to 9045. The Calico Printers' Association, Ltd., of St. James's Buildings, Oxford Street, Manchester, England. November 6, 1919.

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. *These should be consulted before an application is made to the Controller.*

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India application should be made to the patent offices in the countries concerned.

5. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

7. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AHMEDABAD . . .	E. C. Technical Institute.	HYDERABAD . . .	Revenue Department of His Highness the Nizam's Government.

J. A. CHAPMAN,

Librarian.

**SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE,
 CINCHONA FEBRIFUGE, RESIDUAL ALKALOID
 AND QUINOIDINE.**

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. QUININE can be purchased by Government officers, District and Local Boards for Hospitals and Dispensaries in the Provinces of Bengal, Bihar, Punjab and Assam on indents duly countersigned by the Civil Surgeon of their Districts. It can also be purchased by Missionaries for *bona fide* public purposes. It is never sold to private persons or firms. CINCHONA FEBRIFUGE both in powder and $3\frac{1}{2}$ grain tablet forms and CINCHONIDINE can be purchased by Government officers and the general public. It is also sold by the Principal Druggists in Calcutta. QUINOIDINE or *Pure Amorphous Alkaloid* and *Residual Alkaloid* or *Amorphous Cinchona Alkaloid*, which contains about 40 per cent. of *Pure Amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance but private purchasers may use the V. P. P. system*, and are obtainable from the SUPERINTENDENT, JUVENILE JAIL, ALIPORE.

The rates for these drugs from 16th May 1919 are as follows:—

SULPHATE OF QUININE.

For quantities 60 lbs. and above in one delivery	Rs. 24 per lb.
For quantities of not less than 6 lbs. but below 60 lbs. in one delivery	" 25 "
For any quantity less than 6 lbs.	" 26 "

SULPHATE OF CINCHONIDINE.

For quantities of not less than 6 lbs. in one delivery	Rs. 11 per lb.

5. Tracers.
6. Men trained in—
 - (a) Photo-Mechanical and Lithographic Work.
 - (b) Workshops (both Electrical and Mechanical sides).

W. G. WOOD,
Principal, Thomason College, Roorkee

DEPARTMENT OF MINES IN INDIA, DHANBAD P. O., MANBHUM.

Indian Mines Act, 1901.

NOTICE.

An examination for First Class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for Second Class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subject at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India Dhanbad P.O., E. I. Railway, and not to any Officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

G. F. ADAMS,
Chief Inspector of Mines in India,
and *ex-officio* President of the Board of Examiners.

DHANBAD,
The 18th October 1919.

There was no transfer between the Paper Currency Reserve and the Indian branch of the Gold Standard Reserve during the week ending 15th November 1919.
There was no gold in the Indian branch of the Gold Standard Reserve on the 15th November 1919.

W. ALDER,
Offg. Controller of Currency.

OFFICE OF THE CONTROLLER OF MILITARY ACCOUNTS. 9TH (SECUNDERABAD) DIVISION.

CLAIMANTS WHO HAVE ATTAINED THEIR MAJORITY.

It is hereby notified that claims from the undermentioned individuals on account of the patrimony due to them should be submitted to the Controller of Military Accounts, Bolarum, through the Staff Officer of the station at which each claimant may be residing:—

Names of Warrant and Non-Commissioned Officers and Soldiers deceased.	Claimants.
Brooks, John, Sergeant, Infantry Veteran Company	{ Caroline Brooks (daughter), Dennis Brooks (son).
Brandon, John, Gunner, European Artillery Veteran Company	{ John Brandon (son). Charles Brandon (son).
Clarkson, Samuel, Artificer, Carnatic Ordnance Department	Ann Clarkson (daughter).
Carroll, J., Sergeant, 2nd European Light Infantry	{ Elizabeth Carroll (daughter). Joseph Carroll (son).
Cosser, J., Sub-Conductor, Ordnance Department	{ Agnes Carroll (daughter). John Cosser (son).
Crawley, Sergeant	George Wellington Crawley (son).
Doyle, I., Gunner, 4th Battalion, Madras Artillery	James Doyle (son).
Danford, S., Gunner, 3rd Battalion, Madras Artillery	Amelia, <i>alias</i> Emma Danford (daughter).
Furlong, L., Corporal, 3rd Madras European Regiment	John Furlong (son).
Flynn, J., Corporal, 1st Madras Fusiliers	{ James Flynn (son). William Flynn (son). Joseph Flynn (son).
Grimstone, R., Sergeant, 3rd Madras European Regiment	{ Perquira Grimstone (daughter). Richard Grimstone (son).
Hawkins, Richard, Private, European Infantry Veteran Company	{ Jeremiah Mitchell Hawkin (Foster-son). George Hawkins (son).
Hunsley, W., Sub-Conductor, Ordnance Department	Charles Hunsley (son).
Hutchins, James, Gunner, 2nd Battalion, Artillery	George Henry Hutchins (son).
Healey, P., Hospital Sergeant	{ Edward Healey (son). Frank Healey (son).
Keleker, I. T., Bombardier, 3rd Battalion, Artillery	Mary Keleker (daughter).
Knowles, W. S., Bugler, D. Company, 1st Battalion, Madras Artillery	Andrew James Knowles (son).
McDonald, B., 2nd Corporal, Sappers and Miners	James McDonald (son).
McGuire, Michael, Staff Barrack Sergeant, B. Company, 4th Battalion, Artillery	Andrew McGuire (son).
McManus, J., Foreman, Carnatic Ordnance Artificer Corps	{ Agnes Maude McManus (daughter). Mary Elizabeth McManus (daughter). Reith McManus (daughter). Patrick John McManus (son).
Murphy, I., Private, 3rd Madras European Regiment	James Murphy (son).
Nicholson, T., Shoeing Smith	Arabella Hannah Nicholson (daughter).
Rothe, R., Corporal, 2nd European Light Infantry	Catherine Rothe (daughter).
Scully, E., Sub-Overseer	{ Eleanor Scully (daughter). John Scully (son).
Smith, Michael, Colour-Sergeant, 1st Madras Fusiliers	Mary Ann Smith (daughter).
Smithes, R., Sergeant, 2nd Battalion, Artillery	Henry Smithes (son).
Sheepard, J., Sergeant, 23rd Brigade, Royal Artillery	{ John Sheepard (son). Ellen Sheepard (daughter).
Wallace, J., Gunner, 4th Battalion, Artillery	{ John Wallace (son). Thomas Wallace (son).
Wiggins, R., Gunner, Madras Artillery	John M. Wiggins (son).

* Claim received, but claimant has not yet appeared to receive payment.

G. R. O'DOWD,
for Controller of Military Accounts.

CYRIL E. GWYTHER,

Deputy Controller in charge Paper Currency.

PAPER CURRENCY DEPARTMENT,
Calcutta, the 18th November 1919.

ASSAM SECRETARIAT.**Revenue Department.****Revenue Branch.****NOTIFICATION .**

Dated the 10th November 1919.

No. 3522-R.—In exercise of the powers conferred by section 1, sub-section (3), of the Assam Land and Revenue Regulation, 1886, the Chief Commissioner, with the previous sanction of the Governor General in Council, hereby rescinds Notification No. 27, dated the 26th July 1889, of the Revenue Department of this Administration in so far as it applies to the permanently-settled portions of parganas Renga, Dakshinkach and Baraya in the district of Sylhet.

In accordance with this Administration Notification No. 27, dated the 26th July 1889, the operation of the section 59 of the Assam Land and Revenue Regulation, 1 of 1886, by which tenants are exempted from the obligation to pay rent except to a registered proprietor, was suspended in the permanently settled portions of the Sylhet district. The intention was that the provisions of the section should not be brought into force until registration was facilitated by the preparation of a general register of estates.

The General Register of Estates, based on the new record of rights, has now been completed for parganas Renga, Dakshinkach and Baraya in the Sadar Sub-Division of the Sylhet district. There is therefore no longer any reason why all changes of proprietorship in respect of the permanently-settled estates of the aforesaid three parganas should not be registered in accordance with the provisions of the Land and Revenue Regulation.

J. E. WEBSTER,

Chief Secretary to the Chief Commissioner of Assam.

**PUBLIC WORKS DEPARTMENT, BALUCHISTAN.
BUILDINGS AND ROADS BRANCH.**

NOTIFICATION.

Quetta, the 14th November 1919.

No. 10.—Whereas it appears to the Chief Commissioner in Baluchistan that land is required by Government for public purposes namely :—

REMODELLING SPEZAND YARD.

It is hereby declared that the undermentioned land is required for the said purposes :—

This declaration is made under the provision of Section 6 Act I of 1894 and under Section 7 of the said act the Deputy Commissioner of the Kalat District is hereby directed to take order for the acquisition of the said land :—

SPECIFICATION OF LAND.

District.	Tehsil.	Manzah.	Area in acres.	Boundaries.	Place where the plan may be inspected.
Kalat.	Mach (Bolan).	Spezand.	284 acres	<i>North</i> —Railway Line and Railway land. <i>South</i> —Zamindar's land. <i>East</i> —Zamindar's Land and Railway line towards Sibi. <i>West</i> —Railway and Zamindar's lands.	Offices of the Settlement Officer, Quetta, and the Executive Engineer, North Western Railway, Quetta.

J. A. DEALY, Colonel,
Secretary to the Hon'ble the A. G. G. and Chief Commissioner in
Baluchistan, P. W. D.

NORTHERN INDIA SALT REVENUE DEPARTMENT.

NOTIFICATIONS.

The 3rd October 1919.

No. 142.—Mr. E. D. Wilson, Superintendent, 1st grade on return from leave is appointed to officiate as an Assistant Commissioner on Rs. 500—30—800, from the 20th October 1919, *vice* Mr. G. W. C. Lisle, Assistant Commissioner, granted leave and is posted to the charge of the Pachbadra Division.
(177 P. of 1919).

The 31st October 1919.

No. 177.—Mr A. Gardner, Assistant Superintendent substantive *pro tempore*, Farrukhabad circle, in the Upper Division, Internal Branch, is granted privilege leave for 15 days from the 9th November 1919.
(F. 731 P. of 1919).

The 6th November 1919.

No. 179.—Mr. E. St. C. L. Chopin, Superintendent, 1st grade, was appointed to officiate as an Assistant Commissioner, on Rs. 500—30—800, the 16th August 1919 to the 19th October 1919 (both dates inclusive) *vice* Mr. G. W. C. Lisle, Assistant Commissioner granted leave and from the 20th to the 27th October 1919, during the transit period of Mr. E. D. Beatson, Assistant Commissioner and was posted to the charge of the Salt Range Division.

J. C. FERGUSON, I.C.S.,
Offg. Commissioner, Northern India Salt Revenue.

ORDERS BY THE HON'BLE THE AGENT TO THE GOVERNOR-GENERAL, RAJPUTANA.

NOTIFICATION.

Dated Camp Ajmer, the 13th November 1919.

No. 1661-C---3—The following draft rules which it is proposed to make for the assessment and collection of tax on hawkers plying their trade in the Abu Municipal Area in exercise of the powers conferred by sections 24 (1) (b) and 112 (2) (b) of the Abu Municipal Law, 1919, are published as required by section 27 of the said Law for the information of persons likely to be affected thereby and notice is given that the draft will be taken into consideration by the Agent to the Governor General in Rajputana on or after the 16th December 1919, any objections or suggestions received by that date being also considered.

DRAFT RULES FRAMED UNDER THE ABU MUNICIPAL LAW, 1919.

1. The term "hawker" shall mean and include all itinerant vendors who take and expose goods for sale outside the limits of the Abu Bazar: but it shall not apply to the sale of goods by a shop-keeper or hotel-keeper at his shop or hotel situated outside bazar limits nor to goods taken out of bazar limits for sale by a *bondafide* shop-keeper on a written order of a customer.

2. The limits of the Abu Bazar are the group of houses comprised in Blocks A to H of the Municipal Register.

3. No hawker shall ply his trade within Municipal limits unless he shall have first obtained a license from the Municipal Committee.

4. Such license shall be valid for one year commencing from the 1st April, and shall be subject to the following conditions:—

- (1) The licensee shall deposit a sum of R10 as security for due observance by him of the conditions of the license.
- (2) No goods shall be exposed for sale at night, *i. e.*, after half an hour after sunset and before half an hour before sunrise.
- (3) The licensee shall not make any loud cry or noise for the purpose of attracting attention to his goods.
- (4) The licensee shall not sell or attempt to sell, or to attract attention to, his goods on any road, path or other public place prohibited by the Municipal Committee.
- (5) On expiry or surrender of his license the licensee shall declare what income he has derived from such hawking and shall pay a tax on such income calculated as follows:—
 - (a) An income not exceeding R500—a tax at R2½ per cent subject to a maximum of R5.
 - (b) An income exceeding R500 but not exceeding R750—a tax of R7-8-0.
 - (c) An income exceeding R750 but not exceeding R1,000—a tax of R10.
 - (d) An income exceeding R1,000—a tax at R1-8-0 per cent on each complete R100.
- (6) On payment of the prescribed tax the security deposit shall forthwith be refunded to the licensee.

5. These rules shall come into force with effect from 1st April 1920.

By order,

A. D. MACPHERSON, Lt.-Col.,

First Assistant to the Hon'ble the Agent to the Governor General, Rajputana.

THE HON'BLE THE CHIEF COMMISSIONER IN BALUCHISTAN.

CORRIGENDUM.

Quetta, the 10th November 1919.

No 4440-R.—Substitute the following for the boundaries of Chaman given in the schedule annexed to this office Notification No. 3329-R., dated the 5th August 1919:—

Chaman.

North.—Water tank, large Military Fort and Terminal Commissariat Godown.

East.—Slaughter House, Small Pox Ward and Pucca Pillar No. 20.

South.—Public Road, Rain Water channel (Shella Ab) and Railway Store.

West.—Railway Quarters and small Military Fort up to Terminal Commissariat Godown.

By order,

H. D. G. LAW,

Secretary.

AGENT TO THE GOVERNOR GENERAL IN CENTRAL INDIA.**NOTIFICATION.**

Central India Agency, Indore, the 10th November 1919.

No. 1812-B.—In exercise of the powers conferred by sections 5 and 7 of the India Explosives Act, 1884 (IV of 1884), as applied to the railway lands in Central India specified in the notification of the Government of India in the Foreign Department No. 261-I. B., date the 10th February 1913, and with the previous sanction of the Governor-General in Council the Agent to the Governor-General in Central India is pleased to make the following rules to regulate the manufacture, possession, sale, transport and importation of explosives in the said lands, hereinafter styled "the Central India Railway-Lands".

THE CENTRAL INDIA [RAILWAY LANDS] EXPLOSIVES RULES, 1919.**CONTENTS.****CHAPTER I.****PRELIMINARY.****RULES.**

1. Short title.
2. General exemptions.
3. Definitions.

CHAPTER II.**CLASSIFICATION OF EXPLOSIVES.**

4. Classes of explosives.
5. Division of nitro-compounds.
6. Division of chlorate mixtures.
7. Division of fulminates.
8. Division of ammunition.
9. Division of fireworks.

CHAPTER III.**IMPORTATION.**

10. When license to import is requisite.

Testing of explosives.

11. Testing of the imported explosives.
12. Explosives exempted from testing.
13. Nature of test prescribed.

Importation in anticipation of the grant of a license to import.

14. Importation by land in anticipation of the grant of a license.
15. Requirements to be fulfilled by importer and consignee prior to importation.
16. Disposal of explosives imported.
17. Delivery of samples by owner or person in charge of the magazine and the testing of such samples.
18. Distribution prohibited till license is granted.

CHAPTER IV.**TRANSPORT.**

19. When license to transport is requisite.

Licenses for the general transport of explosives for blasting.

20. Application for license for general transport.
21. Procedure in granting a license for general transport.
22. Procedure in transporting explosives under license for general transport.
23. Procedure in issuing passes.

CHAPTER V.

MANUFACTURE, POSSESSION AND SALE.

Manufacture.

RULES.

24. When license to manufacture is requisite.
25. Conditions to be observed by persons filling cartridges.
26. Conditions to be observed by persons adapting or preparing cartridges.

Possession.

27. When license to possess is requisite.
28. Saving of general prohibition under the Act.

Sale.

29. When license for sale is requisite.

CHAPTER VI.

MAGAZINES.

30. Procedure in applying for license in Form J.
31. Issue of notices to objectors to the site of the magazine.
32. Publication and service of notices.
33. Inquiry into objections.
34. Report on completion of inquiry.
35. Procedure to be observed by the Chief Inspector of Explosives on receipt of report.
36. Submission of application to the licensing authority.
37. Grant of license.
38. Procedure on grant of license.
39. Endorsement of license.

CHAPTER VII.

LICENCES AND PERMITS.

Grant of licenses.

40. Forms of licenses, licensing authorities and fees.
41. Conditions under which licenses are held.

Amendment of licenses.

42. Amendment of licenses.

Renewal of licenses.

43. Renewal of licenses issued by the Governor-General in Council.
44. Renewal of licenses in form J.
45. Renewal of licenses not provided for in rule 52 or rule 53.
46. Renewal of license for general transport for blasting explosives.
47. Time for making application for the renewal of a license.
48. Fee chargeable on renewal of license.

Expiration of licenses.

49. Procedure on expiration or forfeiture of license.
50. Issue of temporary license when original has expired or been forfeited.
51. Death, etc., of licensee.

Forfeiture of licenses.

52. Liability of license to forfeiture.

General provisions as to licenses.

53. Production of licenses or passes on demand.
54. Duplicate licenses in case of loss of license.
55. Mode of payment of fees.
56. Discretion of authority empowered to grant, amend or renew licenses.
57. Executive control over licensing authorities.

Permits for temporary possession of explosives to be granted free of cost.

58. Permit for temporary storage of explosives in a magazine in excess of licensed quantities.
59. Permit for temporary possession of fireworks by non-licensees elsewhere than in Burma.
60. Permit to possess fireworks in excess of licensed quantities.

CHAPTER VIII.

PRECAUTIONS TO BE OBSERVED IN TRANSPORTING EXPLOSIVES.

PART I.—GENERAL.

Packing and Marking.

RULES.

61. Prohibition of consignment or conveyance of improperly packed explosives.
62. Packing of explosives.
63. Packing of authorised explosives.
64. Packing of explosives which are not authorised.
65. Labelling and marking of packages.
66. Relaxation of packing rules.

Consignment.

67. Despatch of explosives to carrier.
68. Receipt of explosives by carrier.

Precautions to be observed in loading and unloading explosives.

69. Loading and unloading to be by daylight.
70. Prohibition of naked lights, etc.
71. Prohibition of smoking.
72. Prohibition of nailed boots, etc.
73. Method of handling explosives.

Loading.

74. Protection of explosives in transit.
75. Maximum consignments allowed.
76. Explosives of different kinds to be kept apart.
77. Danger from fire and water to be guarded against.
78. Protection from naked iron or steel.

Conveyance.

79. Explosives not to be sent by public carriage or vessel.
80. Carriage or vessel to be in charge of competent person or persons.
81. Intoxicated person not to have charge of carriage or vessel.
82. Driving or navigation to be careful.
83. Prohibition of delay in transit.
84. Avoidance of danger by fire, etc.
85. Explosives not to be carried across railway bridges.

Exemptions and savings.

86. Saving as to the conveyance of ammunition and Chinese crackers.
87. Saving as to the conveyance of small consignments.
88. Saving as to conveyance by railway.
89. Saving of liability of carrier and owner and master of a ship for breach of these rules when consignee, etc., is in fault.

PART II.—RAILWAYS.

Consignment.

90. Conveyance by railway.
91. Certain explosives not to be consigned.
92. Certificate of packing.
93. Notice of the consignment.
94. Receipt of consignment.
95. Certificate in case of nitro-compounds and chlorates.
96. Discretion of Railway to refuse improperly packed explosives.
97. Disposal of consignment on arrival at station of departure.

Loading.

98. Maximum quantities to be conveyed in one vehicle.
99. Prohibition of conveyance with inflammable substances, etc.
100. Condition of vehicle.
101. Stowing of explosives.
102. Method of stowing of explosives.
103. Method of stowing of high explosives.
104. Locking of vehicles.

Delivery.

105. Delivery to consignee.
106. Disposal when consignee fails to take delivery.
107. Protection of explosives pending removal.

Power to open packages.

108. Opening of suspected packages.
109. Disposal of opened packages.

Precautions to be observed during loading and unloading.

RULES.

110. Time of loading and unloading.
111. Loading and unloading to be continuous.
112. Place of loading and unloading.
113. Loading and unloading of Government explosives.
114. Maximum number of vehicles to be dealt with at a time.
115. Time of transhipment.

Marshalling and Shunting.

116. Maximum number of vehicles to be hauled in one train.
117. Precaution in the case of high explosives.
118. Position of vehicles in the train.
119. Shunting.
120. Limit of speed in shunting.
121. Superintendence in shunting.

Brakes.

122. Brakes.

Conveyance by passenger train.

123. Conveyance of explosives by passenger train.
124. Conveyance of explosives by mixed train.

Exemptions.

125. Saving as to cartridges for small arms.

CHAPTER IX.

SUPPLEMENTARY.

Powers of search and destruction.

126. Powers of search and destruction.

Penalties.

127. Penalties.

Exemptions.

128. Saving as to acts done in emergency, etc.

1. SCHEDULE I.—PREScribed TESTS.
2. SCHEDULE II.—CLASSES OF LICENSES, LICENSING AUTHORITIES, ETC.
3. SCHEDULE III.—PREScribed FORMS.
4. SCHEDULE IV.—METHODS OF PACKING.
5. TABLE OF DISTANCES.

RULES UNDER THE INDIAN EXPLOSIVES ACT, 1884, AS APPLIED TO THE CENTRAL INDIA RAILWAY LANDS FOR THE MANUFACTURE, POSSESSION, SALE, TRANSPORT AND IMPORTATION OF EXPLOSIVES.

CHAPTER I.

PRELIMINARY.

1. These rules may be called the Central India [Railway Lands] Explosives Rules, 1919.
2. Nothing in these rules shall apply—
to the manufacture, possession, sale, packing, transport or importation of paper caps for toy pistols, under such conditions and in such quantities as the Agent to the Governor-General in Central India, or, in the case of transport by rail, the Railway Board, on the recommendation of the Chief Inspector of Explosives may from time to time determine;
3. In these rules, unless there is any thing repugnant in the subject or context:—
 - (1) "The Act" means the Indian Explosives Act, 1884, as applied to the Central India Railway Lands.
 - (2) "Ammunition" means any explosive when the same is enclosed in any case or contrivance; or is otherwise adapted or prepared, so as to form—
 - (a) a cartridge or charge for small-arms, cannon or any other weapon, or for blasting, or
 - (b) a safety or other fuze for blasting or for shells, or
 - (c) a tube for firing explosives, or
 - (d) a percussion-cap, detonator, fog-signal, shell, torpedo, war-rocket, or any other contrivance other than a fire-work.
 - (3) "Authorised explosive" means an explosive included in a list of authorised explosives prepared by the Chief Inspector of Explosives with the Government of India and in force for the time being.
 - (4) "Chlorate-mixture" means any explosive containing a chlorate.

(5) "Detonator" means a capsule or case which is of such strength and construction, and contains fulminate in such quantity, that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(6) "District authority" means the officer exercising the powers of a District Magistrate.

(7) "Fulminate" means any chemical compound or mechanical mixture whatever, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliances for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

(8) "Gunpowder" means gunpowder ordinarily so called.

(9) "Nitrate-mixture" means any preparation, other than gunpowder, which is formed by the mechanical mixture of nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance:

and includes such explosives as—

Chilworth special powder,
Ammonal,

Bobbinite, and
Westfallite.

(10) "Nitro-compound" means any chemical compound which is possessed of explosive properties or is capable of combining with metals to form an explosive compound, and is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid), or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

(11) "Small-arm nitro-compound" means a nitro-compound adopted and intended exclusively for use in cartridges for small-arms.

(12) "Safety cartridge"—

(i) means a cartridge for small-arms, the case of which can be extracted from the small-arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and

(ii) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (i) whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine-gun having special chambers:

Provided that the diameter of the cartridge in either case (i) or case (ii) does not exceed one inch.

(13) "Safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes.

(14) "Testing authority" means the Chemical Examiner or such other officer as the Agent to the Governor-General in Central India may appoint in this behalf.

CHAPTER II.

CLASSIFICATION OF EXPLOSIVES.

4. (1) For the purposes of these rules, explosives shall be classified as follows, namely:—

Class 1	Gunpowder.
Class 2	Nitrate-mixture.
Class 3	Nitro-compound.
Class 4	Chlorate-mixture.
Class 5	Fulminate.
Class 6	Ammunition.
Class 7	Firework.

Classes of expl

(2) When any explosive falls within more than one of the said classes, it shall be deemed to belong exclusively to the latest of such classes.

5. Nitro-compounds shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising—

(i) such explosives, as—

Ballistite,
Blasting gelatine,
Carbonite,
Cordite,

Dynamite,
Gelatin dynamite,
Gelignite,
Nitro-glycerine, and

Stonite, and

(ii) any chemical compound or mechanically mixed preparation which consists either wholly or partly, of nitro-glycerine or some other liquid nitro-compound; and

Division of
nitro-compou

(b) Division 2, comprising—

(i) such explosives, as—

Amberite No. 2,
Ammonite,
Bellite,
Coopall's powder,
F. C. sporting powder,

Gun-cotton,
Picric powder,
Roburite,
Schultz's powder, and
Tonite (or cotton powder),

and

(ii) any nitro-compound, as hereinbefore defined, which is not comprised in Division 1.

Division of

chlorate-mixtures.

6 Chlorate-mixtures shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising—

(i) such explosives, as—

Permonite, and
Polarite, and

(ii) any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound, and

(b) Division 2, comprising—

(i) such explosives, as—

Cheddite, and
Steelite, and

(ii) any chlorate-mixture, as hereinbefore defined, which is not comprised in Division 1.

Division of

fulminates.

7. Fulminates shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of compounds of phosphorus, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate, with sulphur, or with sulphuret, with or without carbonaceous matter; and

(b) Division 2, comprising such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazo benzol.

Division of
ammunition.

8. Ammunition shall, for the purposes of these rules, be sub-divided as follows, namely:

(a) Division 1, comprising exclusively—

Safety cartridges,
Safety fuzes for blasting,
Railway fog-signals, and
Percussion-caps; and

(b) Division 2, comprising any ammunition, as hereinbefore defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, other than safety cartridges,
Cartridges and charges for cannon, shells, mines, blasting or other like purposes,
Shells and torpedoes containing any explosive,
Fuzes for blasting, other than safety fuzes,
Fuzes for shells,
Tubes for firing explosives, and
War-rockets,

which do not contain their own means of ignition; and

(c) Division 3, comprising any ammunition, as hereinbefore defined, which contains its own means of ignition and is not included in Division 1, such as—

Detonators,
Cartridges for small-arms, which are not safety cartridges,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells, and
Tubes for firing explosives,
containing their own means of ignition.

Explanations.—The expression "ammunition containing its own means of ignition" means ammunition having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion.

The expression "percussion-cap" does not include a detonator.

9. Fireworks shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising *firework compositions*, that is to say,—

(i) any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in any of the foregoing definitions,

(ii) any star, and

Division of
fireworks.

(iii) (except as declared in the proviso to this rule) any coloured fire composition; and

- (b) Division 2, comprising *manufactured fireworks*, that is to say, any explosive of Class 1, 2, 3, 4 or 6 and any firework composition, when such explosive or composition, is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker (including Chinese crackers), toy cap or amorce, serpent rocket (other than a war-rocket), maroon, lance, wheel Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals:

Provided that a substantially constructed and hermetically closed metal case, containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition, shall be deemed to be a "manufactured firework" and not a "firework composition."

CHAPTER III.

IMPORTATION.

10. No explosive shall be imported into the Central India Railway Lands,—

(i) unless it is in authorised explosive,

(ii) except under and in accordance with the conditions of a license granted under these rules:

When license to import is required

Provided that nothing in sub-clause (ii) of this rule shall apply to an explosive conveyed under rule 14;

Further provided that when an explosive is so imported, a District authority or any other officer empowered by the Agent to the Governor-General in Central India in this behalf may at any time detain such explosive until he receives the orders of the Agent to the Governor-General in Central India thereon.

Testing of explosives.

11. No license for the importation of an explosive shall be granted unless such explosives are certified by the testing authority to have passed the test (if any) prescribed by rule 13 for such explosives.

12. No test shall be necessary—

(i) in the case of gunpowder, ammunition (Division 1), fulminates and fireworks; or

(ii) in the case of a nitrate-mixture:

Explosives exempt from testing.

Provided that—

(a) the Agent to the Governor-General in Central India or the licensing authority may direct that any nitrate-mixture shall be subjected to such analysis by such officer as the Agent to the Governor-General in Central India may prescribe; and

(b) where an analysis has been prescribed under sub-clause (a), such nitrate-mixture is certified by the officer appointed as aforesaid to have passed such analysis.

13. Any explosive not specified in rule 12 shall be subject to the test set forth in Schedule I as applicable to such explosive.

Nature of test prescribed.

14. Any authorised explosive may be imported into the Central India Railway Lands in anticipation of the grant of a license to import if it is certified by the manufacturer to be of British manufacture.

Importation by anticipation of the grant of a license.

15. No explosive shall be imported under rule 14 until the consignee has given notice of his intention to import such explosive to the District authority in whose jurisdiction the place or magazine appointed under rule 16 is situated, and has given to such officer an undertaking (without security or with such security as that officer deems sufficient) that he will in the event of the explosive failing to pass the prescribed test or analysis, comply with such directions as to its disposal as the Agent to the Governor-General in Central India may issue.

Requirements to be fulfilled by importer and consignee on importation.

16. An explosive imported under rule 14 shall, under such conditions as may be prescribed by the Agent to the Governor-General in Central India, be conveyed to and stored in a place set apart by the Agent to the Governor-General in Central India for this purpose or any private magazine declared by the Agent to the Governor-General in Central India to be suitable therefore:

Disposal of explosives imported

Provided that explosives not of British manufacture shall not be transported by rail until a license to import such explosives has been granted.

17. The person owing or being in charge of the magazine to which the explosive imported has been conveyed under rule 16 shall, if analysis or testing of the explosive is required by these rules, forthwith deliver without charge to such officer or person as may be appointed by the Agent to the Governor-General in Central India in this behalf such samples as he may require.

Delivery of samples by owner or person in charge of the magazine and the testing of such samples.

18. The explosive shall not be removed or distributed from the place or magazine to which it has been conveyed under rule 16, until a license has been granted for its importation and until the person in charge of the magazine has received notice from the licensing authority that it may be so removed or distributed.

Distribution prohibited till license is granted

CHAPTER IV.

TRANSPORT.

When license to transport is requisite.

19. Explosives required *bona fide* for blasting purposes shall not be transported except under and in accordance with a license granted under these rules :

Provided that nothing in this rule shall apply to—

- (i) the transport by the holder of a license in form E of any of the explosives covered by his license, and of safety fuzes for blasting in such quantities as he may require for his private use,
- (ii) the transport of explosives which are covered by a license for their importation and are being transported in accordance with such license from the place of import to the place of destination,
- (iii) the transport of explosives from the place of import under rule 16 to the places indicated in that rule,
- (iv) the transport of explosives from one district in British India to another through the Central India Railway Lands provided that the transport of such explosives in British India is regularised by the explosive rule for the time being in force in British India.

Licenses for the general transport of explosives for blasting.

Application for license for general transport.

20. An application for a license in Form 2 (for the general transport of explosives for blasting purposes) shall be in writing and shall state particulars as to the place from which, and the place or places to which, it is desired to transport explosives.

Procedure in granting a license for general transport.

21. When the place or places to which explosives are to be transported is or are outside the local limits of the authority of the licensing officer, a copy of the license shall be forthwith sent to the District authority in whose jurisdiction such place is situated.

Procedure in transporting explosives under license for general transport.

22. Every consignment of explosives transported under a license in Form 2 shall be accompanied by a pass issued by the licensee in the form prescribed in Form 2; and such pass shall (if the consignment be despatched by rail) be attached to the way-bill or invoice as the case may be.

Procedure in issuing passes.

23. A copy of every pass issued under rule 22 shall forthwith be sent—

- (i) to the licensing authority; and
- (ii) when the place to which the consignment is sent is outside the local limits of the authority of the licensing officer, to the officer indicated in rule 21.

CHAPTER V.

MANUFACTURE, POSSESSION AND SALE.

Manufacture.

When license to manufacture is requisite.

24. An explosive shall not be manufactured except under and in accordance with the conditions of a license granted under these rules for such manufactures :

Provided that no license under this rule to manufacture shall be necessary—

- (a) for the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale ; or
- (b) for the filling for private use, and not for sale, of any safety cartridges to the amount allowed by these rules to be possessed for private use ; or
- (c) in the case of any person who, holding a license under these rules to possess an explosive—
 - (i) fills with the said explosive, for sale or otherwise, cartridges for small arms ; or
 - (ii) by filling cartridges, making charges, or drying, sifting, fitting or otherwise, adapts or prepares the said explosive for use exclusively in his mine or quarry or in some excavation or work carried on by him or under his control.

Conditions to be observed by persons filling cartridges.

25. The following conditions shall be observed by every person filling cartridges for small-arms under clause (c) (i) of the proviso to rule 24 :—

- (a) there shall not be in the room in which such filling is being carried on more than five pounds of gunpowder or small-arm nitro-compound or such quantity of any other explosive as is prescribed by the Agent to the Governor-General in Central India in this behalf unless it is made up into safety cartridges ;
- (b) no work unconnected with the making of cartridges shall be carried on in the said room while such filling is being carried on ;
- (c) there shall not be in the said room, while such filling is being carried on, any fire or any artificial light, except a light of such construction, position and character as not to cause any danger of fire or explosion ;
- (d) if filling is done on magazine premises, the said room shall be detached from the magazine, but shall be situated in the immediate neighbourhood thereof and at such distance therefrom as may be specified on the license by the authority granting the same ; and
- (e) the licensee shall give notice to the authority which granted his license that he intends to carry on such filling of cartridges as is allowed by this rule.

26. The following conditions shall be observed by every person adapting or preparing explosives under clause (c) (ii) of the proviso to rule 24 :—

Conditions to be observed by person adapting or preparing cartridges.

- (a) there shall not be in the workshop in which such adaptation or preparation is carried on more than one hundred pounds of gunpowders, or such quantity of any other explosive as is prescribed by the Agent to the Governor-General in Central India in this behalf ;
- (b) no work unconnected with such adaptation or preparation shall be carried on in the said workshop while such adaptation or preparation is being carried on ;
- (c) the said workshop shall be detached from the magazine or licensed premises, but shall be situated in the immediate neighbourhood thereof and at such distance therefrom as may be specified on the license by the authority granting the same ;
- (d) an explosive of one description shall not be converted into an explosive of another description, and an explosive shall not be unmade or resolved into its ingredients ; and
- (e) the licensee shall give notice to the authority which granted his license that he intends to carry on such adaptation or preparation as is allowed by this rule.

Possession.

27. An explosive shall not be possessed except under and in accordance with the conditions of a license granted under these rules for possession :—

When license to possess is requisite

Provided that no license under these rules shall be necessary for the possession—

- (a) of any explosive by a carrier or other person for the purpose of transport, when the same is being kept or transported in accordance with the provisions of Chapter VIII regulating the transport of such explosives ; or
- (b) by any person, of explosives under and in accordance with the conditions of a permit granted under rule 58, rule 59, or rule 60 ; or
- (c) by any person, of manufactured fireworks in any quantity not exceeding two hundred pounds, when the same are obtained and intended by such person for immediate use and not for sale (and are possessed by him for a period not exceeding fourteen days, and when they are kept in a substantial receptacle which is exclusively appropriated to the keeping of explosives and is closed and secured so as to prevent unauthorised persons from having access to the explosives ; or
- (d) by any person for his own private use and not for sale, of—
 - (i) gunpowder in any quantity not exceeding thirty pounds ; or
 - (ii) safety cartridges made with gunpowder and containing in all not more than one hundred and fifty pounds of gunpowder ; or
 - (iii) cartridges (non-safety) for small arms made with gunpowder and containing in all not more than five pounds of gunpowder ;
 - (iv) cartridges for cannon or blasting, made with gunpowder, and not containing their own means of ignition, and containing in all not more than thirty pounds of gunpowder ; or
 - (v) cartridges for small-arm made with small-arm nitro-compound and containing in all not more than ten pounds of small-arm nitro-compound ; or
 - (vi) a small-arm nitro-compound in any quantity not exceeding ten pounds ; or
 - (vii) percussion-caps ; or
 - (viii) safety fuzes for blasting ; or
 - (ix) railway fog-signals and flare-lights when kept by a railway company for use on their railway :

Provided that the quantity of explosive kept by any person under clause (d) shall be in substitution of the like quantity by weight of any other explosives which might otherwise be so kept by him and, that the quantity of such other explosive shall be reduced accordingly ; and, further, that, if the explosive so kept for private use under this clause is in any other form than that of cartridges for small-arms, the explosive of which the quantity is so to be reduced shall be some explosive other than safety cartridges made with gunpowder.

28. Nothing in rule 24 or rule 27 shall be deemed to authorise the manufacture or possession of an explosive in contravention of any prohibition notified under section 6 of the Act, and for the time being in force.

Saving of general prohibition under the Act.

Sale.

29. An explosive shall not be sold except under and in accordance with the condition of a license granted under these rules for such sale :

When license for sale is requisite.

Provided that this rule shall not apply to the sale by any person of an explosive which he is lawfully entitled to possess for his own private use to any person who is lawfully entitled to possess the same.

CHAPTER VI.

MAGAZINES.

Procedure in applying for license in Form G.

30. An applicant for a license to possess explosives (other than an explosive of the 5th Fulminate class) in, and to sell explosives from, a magazine shall submit to the District authority an application in Form G in Schedule III, and shall comply with the conditions embodied therein.

Issue of notices to objectors to the site of the magazine.

31. Upon receipt of the said application the District authority shall forthwith cause notice to be published of such application and of the time and place at which he will be prepared to hear it, and calling upon any person objecting to the establishment of the magazine on the proposed site to give notice of such objection to him and to the applicant not less than seven clear days before the day fixed for hearing the application, together with his name, address and calling, and a short statement of the grounds of his objection.

The day of hearing the application shall be a day following soon after the expiration of the period of one month referred to in rule 32.

Publication and service of notices.

32. The notice under rule 31 shall be published at the expense of the applicant, by the District authority not less than one month before the said day of hearing.

Inquiry into objections.

33. On the day fixed for the hearing, or any day to which such hearing may be adjourned from time to time, the District authority shall hear any objections preferred in accordance with rule 31 and shall make such inquiry as he may deem necessary.

Report of completion of inquiry.

34. On completion of the inquiry the District authority shall forward the application (accompanied by a draft license in Form J of Schedule III) to the Chief Inspector of Explosives together with a report stating whether he—

(a) disapproves of the proposed site for the magazine, or

(b) approves of the proposed site either unconditionally or subject to any such restrictions or precautions as he considers necessary.

Procedure to be observed by the Chief Inspector of Explosives on receipt of report.

35. The Chief Inspector of Explosives shall forward to the applicant a statement in Form H in Schedule III, showing the distances which should, in his opinion, be kept clear round the magazine. Such distances should ordinarily be those specified in the table annexed to these rules.

Submission of application to the licensing authority.

36. The said Form II shall be returned, with the third column duly filled in, by the applicant to the Chief Inspector of Explosives, who shall submit it to the licensing authority with his recommendations and with the draft license and a statement in Form I showing the distances which, after considering any representation made by the applicant when returning Form H to him, he considers should be kept clear round the magazine.

Grant of license.

37. The licensing authority may thereupon grant the license as applied for with such modifications or restrictions (if any) as may be deemed proper, or may reject the application.

Procedure on grant of license.

38. A copy of every license granted under rule 37 shall be forwarded to the Chief Inspector of Explosives, and the original license shall be forwarded to the District authority if the license has not been granted by him.

Endorsement of license.

39. The District authority when satisfied that all the conditions prescribed in the license in regard to the magazine have been complied with, shall forthwith endorse the license, and unless and until so endorsed the license shall not come into force.

If it is decided not to endorse a license the District authority shall forthwith inform the Chief Inspector of Explosives and the licensing authority (if the license has not been granted by the District authority).

CHAPTER VII.

LICENSES AND PERMITS.

Grant of Licenses.

Forms of licenses, licensing authorities and fees.

40. (1) Licenses for the importation, transport, manufacture, possession and sale of an explosive may be granted by the licensing authorities set forth in Schedule II in the Forms, for the purposes, subject to the conditions and on payment of the fees specified therein.

Validity of license.

(2) Licenses granted in accordance with the provisions of these rules shall be valid for such period as is specified in column 7 of Schedule II.

Conditions under which licenses are held.

41. (1) Every license granted under these rules shall be deemed to be granted subject to the conditions contained therein.

(2) Such conditions shall comprise all those specified in the prescribed form and—

(a) (in the case of a license in Form J or Form K) such further conditions as the licensing authority may impose, or

(b) (in the case of a license in Form I) such further conditions as the licensing authority may think necessary in respect to the time and place of unloading, landing, delivery and conveyance of the explosive, and expedient for the public safety or in the interest of the State,

(3) Such conditions shall, in the case of a license granted by the Governor-General in Council to manufacture any explosive in any quantity, include all the conditions prescribed under these rules and in the forms of license for possessing such explosive in such quantity.

Provided that, notwithstanding anything contained in clause (2) or clause (3), the Agent to the Governor-General in Central India or the Governor-General in Council, as the case may be, may, on the recommendation of the Chief Inspector of Explosives, dispense with any of the conditions specified in the prescribed form of a license.

Amendment of licenses.

42. (1) Provided that these rules are otherwise complied with, every license granted under them may be amended by the authority granting such license. Amendment of license,

(2) A licensee who desires to have his license amended shall submit it to the district authority with an application stating the nature of the amendment and the reasons for it. The District authority, in cases in which the original license was not granted by him, shall forward the license and the application with his recommendation to the licensing authority direct, or, if the license to be amended is in Form J or Form K, through the Chief Inspector of Explosives:

Provided that the Chief Inspector of Explosives shall be consulted before a license in Form J originally granted by the District authority is amended.

(3) No fee shall be charged for the amendment of a license.

Renewal of licenses.

43. The Agent to the Governor-General in Central India may, from time to time, renew, on the same or on altered conditions, any license granted by the Governor-General in Council for the manufacture of explosives: Renewal of license issued by the Governor-General in Council.

Provided as follows:—

(i) no such renewal shall admit of the manufacture of any explosive other than that specified in the original license;

(ii) every such renewal shall first be approved by an Inspector of Explosives; and

(iii) every such renewal shall be for a period not exceeding one year.

44. (1) The authority granting a license in Form J may renew such license on the same or altered conditions. Renewal of license in Form J.

(2) A licensee who desires such renewal shall, within the period specified in rule 47, submit the license to the Chief Inspector of Explosives with a written application stating the quantity and description of explosives for the storage of which he desires the license to be renewed.

(3) On receipt of such application the Chief Inspector of Explosives shall, if there is any proposed variation in the particulars of the license, and if he considers it necessary to do so, send to the applicant a statement in Form H in Schedule III hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine.

(4) The procedure prescribed in rules 36 to 39 shall then be followed, so far as it is applicable.

45. Every license for the manufacture, possession or sale of explosives not provided for in rule 43 or rule 44 may, unless the circumstances have so changed that the grant of a new license either would not be authorised under the Act and these rules, or is deemed objectionable by the licensing authority, be renewed on application made within the period specified in rule 47. Renewal of license not provided for in rule 43 or rule 44.

46. Every license for the general transport of explosives may be renewed by the authority granting such license. Renewal of license for general transport for blasting explosives.

47. Every application for the renewal of a license shall be made at a date not less than thirty days before the date on which the original license expires, and if the application is so made, the magazine or premises shall be held to be duly licensed or the transport license shall be held to be duly granted until such date as the licensing authority issues the renewed license or until an intimation that the renewal of the license is refused has been communicated to the applicant. Time for making application for the renewal of a license.

48. The fee chargeable for renewing any license shall be the fee originally chargeable under these rules on such license. Fee chargeable on renewal of license.

Expiration of licenses.

49. A person licensed to manufacture, possess or sell any explosive shall on the expiration or forfeiture of his license, forthwith give notice to the District authority of the description and quantity of explosives in his possession, and shall comply with any directions which the said District authority may think fit to give in regard to the possession or transport of the same. Procedure on expiration or forfeiture of license.

50. (1) On receiving a notice under rule 49 the said District authority may grant for a term not exceeding three months from the date of such expiration or forfeiture, as the case may be, a temporary license for the possession or sale of the actual stock of explosives which is held at the time of the issue of such license. Issue of temporary license when original has expired or been forfeited.

(2) The fee chargeable on such license shall bear the same proportion to the fee charged on the expired or forfeited license as the period covered by the temporary license bears to a full year.

51. (1) When any person holding a license under these rules dies, or is adjudicated an insolvent, or is otherwise disqualified by operation of law from continuing the business in respect of which the license was granted, any person carrying on such business shall forthwith apply to the proper licensing authority for the grant of a new license in his own name for the unexpired portion of the original license. Death, etc., of licensee.

(2) No person applying for a license under clause (1) shall, during such time as is reasonably necessary for making his application, and during the pendency thereof, be liable

to any penalty under the Act or these rules for carrying on the business and acting under the license, so that he otherwise conforms with the provisions of the Act and these rules.

(3) The fee chargeable on such new license shall be one rupee:

Provided that no fee shall be charged on a new license in Form 2 or Form E of Schedule III.

Forfeiture of licenses.

Liability of license to forfeiture.

52. Every license granted under these rules shall be liable to be forfeited by the licensing authority on breach of any of the conditions contained therein, and also by the Agent to the Governor-General in Central India if at any time the continuance of the license in the hands of the licensee is deemed objectionable.

General provisions as to licenses.

Production of licenses or passes on demand.

53. (1) Every person holding a license, or acting under a license, granted under these rules, shall be bound to produce the same, or an authenticated copy kept at the magazine or place to which the license applies, when called upon to do so by an Inspector of Explosives, or any Magistrate, or any Police Officer not below the rank of a Police Officer in charge of a police-station; and

(2) Any person in charge of a consignment of blasting materials under cover of a pass, issued by a holder of a license in Form 2 of Schedule III, shall be bound to produce such pass when called upon to do so by any of the officers aforesaid.

(3) Copies of any license may, for the purposes of this rule, be authenticated free of charge by any of the officers aforesaid or by the authority which granted the license.

Duplicate license in case of loss of license.

54. When a license granted under these rules is lost or destroyed through no fault of the licensee, a duplicate may be granted to the licensee on payment of a fee of eight annas.

Mode of payment of fees.

55. All fees chargeable under these rules shall be collected by impressed stamps:

Provided that, when such fees have been made over to any local authority, they shall be collected in such manner as the local authority may from time to time direct.

Discretion of authority empowered to grant, amend or renew licenses.

56. Every authority empowered to grant, amend or renew a license may, in its discretion,

(a) refuse to grant, amend or renew such license, or

(b) refer the application for orders to the Government (if any) to which it is subordinate.

Executive control over licensing authorities.

57. All subordinate authorities acting under this chapter shall perform their duties subject to the control of their executive superiors and of the Agent to the Governor-General in Central India.

Permits for temporary possession of explosives to be granted free of cost.

Permit for temporary storage of explosives in a magazine in excess of licensed quantities.

58. (1) A permit may be granted to the holder of a license in a Form J or Form K, to store in his magazine subject to the conditions of his license (except in this respect) and for a period not exceeding one month, any quantity of explosives in excess of that entered in his license.

(2) Such permit shall be granted by the authority who issued the license and only when it is proved to his satisfaction that the excess storage is due to unforeseen circumstances.

Permit for temporary possession of fire-works by non-licensees.

59. A permit may be granted to any person to possess manufactured fire-works in any quantity exceeding fifty pounds but not exceeding two hundred pounds and for any period not exceeding fourteen days, provided that such fire-works are obtained and intended by such person for immediate use and not for sale and are kept in a substantial receptacle which is exclusively appropriated to the keeping of explosives and is closed and secured so as to prevent unauthorised persons from having access to them.

Such permit shall be granted by a Magistrate of the first class or a Police Officer not below the rank of Assistant or Deputy Superintendent of Police.

Permit to possess fire-work in excess of licensed quantities.

60. A permit may be granted to a holder of a license in Form A, Form B, Form C or Form D to possess, for a period of seven days, subject to the conditions in his license (except in this respect), any quantity of manufactured fire-works not exceeding one thousand pounds.

CHAPTER VIII.

PRECAUTIONS TO BE OBSERVED IN TRANSPORTING EXPLOSIVES.

Part I.—General.

Packing and Marking.

Prohibition of consignment or conveyance of improperly packed explosives. Packing of explosives.

61. No explosive shall be tendered for conveyance or conveyed unless packed and marked in accordance with the provisions of rules 62 to 66, or (in the case of explosives conveyed under rule 16) in accordance with the rules in force in the United Kingdom at the time of embarkation.

62. Whatever be the nature of the explosive and to whatever class it belongs, the following general rules shall be observed:—

(1) The interior of every package shall be free from grit and otherwise clean.

(2) Save as is provided in Schedule IV, there shall not be any iron or steel in the construction of any package unless the same is covered with suitable material so as effectually to prevent the exposure of such iron or steel.

(3) Every package, when actually used for the packing of one explosive, shall not be used for the packing of any other explosive or any other article or substance :

Provided that this rule shall not prevent the packing of inner packages containing a propellant in an outer package with inner packages containing gunpowder or other propellant :

Provided also that with ammunition (Divisional) there may be packed in the same package any article which is not of an inflammable or explosive nature, or liable to cause fire or explosion.

(4) Nothing in this rule shall be deemed to prohibit the use of an additional package, whether inner or outer ; provided that such additional package shall not be of such character as shall have been prohibited in writing by the Chief Inspector of Explosives.

Explanation.—Unless the context otherwise requires—

the expression "outer package" means a box, barrel, case or cylinder of wood, metal or other solid material, of such strength, construction and character, that it will not be broken or accidentally opened, nor become defective or insecure whilst being conveyed, and will not allow any explosive to escape ;

the expression "inner package" means a substantial case, bag, canister or other receptacle, made and closed so as to prevent any explosive from escaping ;

the expression "propellant" means an authorised explosive of the nitro-compound class adapted and intended exclusively for use as a propelling charge in cannon of small-arms.

63. The method of packing authorised explosives of various Classes, respectively, and the maximum amounts which may be packed in any one package shall be those indicated in Schedule IV. Packing of authorised explosives.

64. Explosives which are not authorised explosives shall be packed subject to such special precautions as may be prescribed by the Chief Inspector of Explosives. Packing of explosives which are not authorised.

65. (1) On the outermost package there shall be affixed in conspicuous characters, by means of a brand or securely attached label or other mark, the word "Explosive," the name of the explosive, the number of the Class and of the Division to which it belongs, and the name of the manufacturer or sender. Labelling and marking of packages.

(2) In the case of a nitro-compound or of a chlorate-mixture there shall be added the date of manufacture or issue from the factory, or such sign indicating such date as may be approved by the Chief Inspector of Explosives :

Provided that—

(a) in the case of cartridges or charges for cannon, shells, mines, blasting or other like purpose, which do not contain their own means of ignition, the marking shall be as for the explosive when not so made up ;

(b) in the case of ammunition (Divisional) (safety fuzes excepted), there shall be added the words "Not liable to explode in bulk ;

(c) in the case of pin-fire cartridges for pistols, there shall be added the words "pin-fire cartridges," and

(d) in the case of safety fuzes or gunpowder, the word "Explosive" and the number of the Class and Division may be omitted.

(3) Where an outer package contains more than one explosive, the marking above required shall be affixed separately in respect of each explosive so contained.

66. To meet special cases the Chief Inspector of Explosives may, by order in writing, subject to such conditions (if any) as he may think fit to impose, relax any of the conditions imposed by rules 62 to 65. Relaxation of packing rules.

Consignment.

67. (1) No person shall forward to any warehouseman or carrier any explosive unless he has given notice to such warehouseman or carrier of his intention to forward such explosive and has received an intimation from such warehouseman or carrier that he is prepared to receive such consignment. Despatch of explosives to carrier.

(2) Such notice shall state—

(a) the name and quantity of the explosive to be conveyed ; and

(b) the name and address of the consignee.

68. No warehouseman or carrier shall send such an intimation as is specified in rule 67 unless he is prepared to receive it, and Receipt of explosives by carrier.

(a) forthwith to despatch such explosive, or

(b) to deposit it in an authorised magazine or at a place at which some person is licensed to possess such explosive in such quantity.

Precautions to be observed in loading and unloading explosives.

69. No explosive shall be loaded on, or unloaded from, any carriage or vessel between sunset and sunrise. Loading and unloading to be by daylight.

70. During the loading or unloading of an explosive no person shall, nor shall any person be allowed to, bring into, have or use in, dangerous proximity to such explosive any fire or any article or liquid or substance which is liable to cause or communicate fire or explosion (such as charcoal, matches or petroleum) or (unless the use of a light is unavoidable) any light : Prohibition of naked lights, etc.

Provided that when the use of a light for the purposes of loading or unloading is unavoidable a light may be used if it be of such construction and character and in such position as not to cause any danger from fire or explosion.

Prohibition of smoking.

71. During the loading or unloading of an explosive no person shall smoke, nor shall be allowed to smoke, on, in or dangerously near to the carriage or vessel containing such explosive.

Prohibition nailed boots, etc.

72. During the loading or unloading of an explosive no person wearing boots or shoes with iron or steel nails, heels or tips, shall handle, nor shall be allowed to handle, such explosives.

Method of handling explosives.

73. In the loading or unloading of an explosive the casks or packages containing the explosive shall be passed from hand to hand and shall not be rolled along, and they shall not be thrown down or dropped but shall be carefully deposited and stowed.

Loading.

Protection of explosives in transit.

74. (1) Explosives shall be conveyed whenever possible in the interior of a carriage so enclosed on all sides with wood or metal, or in the hold of a vessel having a close deck so closed, as effectually to protect the explosives from communication of fire; and

(2) When they cannot be so conveyed, they shall be completely covered with a painted cloth, tarpaulin or other suitable material so as effectually to protect the explosives from communication of fire.

Maximum consignments allowed.

75. The quantity of explosives conveyed in any one carriage or vessel shall not exceed two thousand pounds:

Provided that where the explosives are conveyed under the conditions set forth in clause (1) of rule 74, the quantity of explosives may exceed two thousand pounds, but shall not exceed ten tons in any one carriage on a railway or two tons in any one other carriage or twenty tons in any one vessel.

Explosives of different kinds to be kept apart.

76. No explosive, which contains its own means of ignition, shall be conveyed in any carriage or vessel which is being used for the conveyance of an explosive not of the same Class, and Division, unless it is sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

Dangers from fire and water to be guarded against.

77. Due precautions shall be taken by means of a partition or otherwise, and by careful stowing, to secure any explosive from being brought into contact with, or endangered by, any other article or substance conveyed in the carriage or vessel which is liable to cause fire or explosion; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

Protection from naked iron or steel.

78. All iron or steel in the interior of the portion of the carriage or vessel with which the package containing any explosive is or may come in contact, shall be effectually covered with leather, wood, cloth or other suitable material.

Conveyance.

Explosives not to be sent by public carriage or vessel. Carriage or vessel to be in charge of competent person or persons.

79. No explosives shall be conveyed in any carriage or vessel plying for or carrying public passengers.

Intoxicated person not to have charge of carriage or vessel.

80. The carriage or vessel conveying an explosive shall be in charge of, and constantly attended by, some competent person, or by a sufficient number of competent persons.

Driving or navigation to be careful. Prohibition of delay in transit.

81. No person who is intoxicated shall, nor shall he be permitted to, have charge of, or be in, on or, attending to, any carriage or vessel conveying explosives.

82. The person in charge of a carriage or vessel conveying an explosive shall not drive, conduct or manœuvre such carriage or vessel in a dangerous or negligent manner.

83. If the quantity of explosive conveyed in the carriage or vessel exceeds one hundred pounds the person or persons in charge of such carriage or vessel shall not stop or delay at any place for a longer time than may be reasonably necessary, nor stop unnecessarily at any place where such stopping would be attended by public danger.

Avoidance of danger by fire, etc.

84. No person shall, during the conveyance of an explosive, do any act, or thing in relation to the explosive which is liable to cause fire or explosion and is not reasonably necessary for the conveyance of the explosive or for work immediately connected with such conveyance.

Explosives not to be carried across railway bridges.

85. No explosive shall be carried otherwise than by rail across any railway bridge across which reasonable facilities for the conveyance thereof by rail are afforded by the Railway Administration:

Provided that nothing in this rule shall apply to—

- (a) ammunition Class 6, Division 1, in any quantity; or
- (b) any quantity of gunpowder, or of a nitro-compound or of ammunition, Class 6, Divisions 2 and 3, not exceeding five pounds; or
- (c) any quantity of fire-works not exceeding ten pounds.

Exemptions and savings.

Leaving as to the conveyance of ammunition and Chinese crackers.

86. Nothing in rules 69 to 78 shall apply to ammunition (Division 1), and in the case of the transport by rail of Chinese crackers (Division 2 of Class 7—Fireworks), the provisions of rule 78 may be relaxed during the period from July to March inclusive under an order of the District Traffic Officer when the number or size of consignments offering is such that, in

his judgment, serious delay would be caused by the observance of the rule: provided that in both instances all due precautions shall be taken to prevent explosion.

87. Nothing in rules 67, 68 and 79 shall apply to the conveyance of—

- (a) any quantity not exceeding five pounds of any explosive other than a fulminate or ammunition (Division 3) or fire-works (Division 1);
- (b) detonators not exceeding two hundred in number and not containing in the aggregate more than three ounces of fulminate;
- (c) ammunition (Division I) in any quantity:

Saving as to the conveyance of small consignment

Provided that—

- (i) previous notice shall be given to the person in charge of the carriage or vessel in which the explosive is intended to be conveyed;
- (ii) all due precautions shall be taken to prevent accidents by fire or explosion;
- (iii) no other explosive shall be carried in the same compartment; and also
- (iv) (in the case of detonators) the consignment shall be covered by a certificate, signed by the consignor, that the quantity of fulminate in the consignment does not exceed the amount specified in sub-clause (b).

88. Nothing in rules 67, 68, 79, 80 and 83 shall apply to the conveyance of any explosive by railway.

Saving as to conveyance by railway.

89. Where a carrier, or the owner or the master of a vessel, is prevented from complying with these rules by the wilful act, neglect or default of the consignor or consignee of the explosive, or other person, or by the improper refusal of the consignee or other person to accept delivery of the explosive, such consignor, consignee or other person who is guilty of such wilful act, neglect, default or refusal shall be liable to the same penalty to which the carrier, owner or master is liable for a breach of those rules, and his conviction shall exempt the carrier, owner or master from any penalty under these rules.

Saving of liability of carrier and owner and master of a ship for breach of these rules when consignee, etc., is in fault.

Part II.—Railways.

Consignment.

90. Rules 91 to 125 shall apply to the transport of explosives by railway.

Conveyance by railway.

91. No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought, sent or forwarded to or upon any railway of the said Railway Administration.

Certain explosives not to be consigned

92. The consignor shall certify that the explosive has been packed in accordance with the rules in force in the United Kingdom or in British India or in the Central India Railway Lands.

Certificate of packing.

93. No person shall send for carriage upon any railway any consignment of an explosive unless—

Notice of the consignment.

- (1) he has given to the officer in charge of the railway station previous notice in writing (which, at the option of the Railway Administration, may extend to 48 hours) of his intention to send such consignment, and stating—
 - (a) the true name, description, quantity and mode of packing of the explosive proposed to be conveyed, and
 - (b) his own name and address, and also the name and address of the proposed consignee, and
- (2) he has had an intimation in writing from an authorised officer of the railway that such consignment will be received.

94. Consignments of explosives shall be sent to the forwarding station and shall be received by the railway servants only at such times, between sunrise and sunset, as the Railway Administration may appoint.

Receipt of consignment.

95. The consignor shall (in the case of nitro-compounds and chlorate-mixtures)—

Certificate in case of nitro-compound and chlorates.

- (1) cause the outer packages to be marked with the date of manufacture, and
- (2) attach to the consignment note a certificate, or (provided the original is produced for verification) copy of a certificate (so describing the packages as to render their identification certain) signed by the Chief Inspector of Explosives or an Inspector of Explosives, or, if the certificate is granted at the time when the explosive is imported, by the Chemical Examiner or Analyser—
 - (a) that the explosive is of standard purity, and
 - (b) that (if the explosive be denamite or any nitro-glycerine compound) there are no signs of exuded nitro-glycerine or of liquefaction.
- (3) The aforesaid certificate shall ordinarily be valid for six months after date: provided that, in the case of dynamite and other nitro-glycerine compounds which are not used as propellants as defined in rule 62—
 - (a) such certificate shall lapse on the 31st July, and
 - (b) a fresh certificate for each conveyance may, at the discretion of the Railway Administration concerned, be demanded during the period from the 1st April to the 31st July (both inclusive) if the original certificate has not been granted later than the 31st March.

96. The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations.

Discretion of Railway to refuse improperly-packed explosives.

Disposal of consignment on arrival at station of departure.

97. Every package containing any explosive proposed to be conveyed on any railway shall immediately on arrival at the station be unloaded and placed in a safe place under the special direction of the officer in charge of the station. These packages should not be allowed to stand in the sun.

Loading.

Maximum quantities to be conveyed in one vehicle.

98. The quantity of explosives conveyed in any one vehicle shall not in any case exceed that specified in rule 75 and shall not (unless the vehicle is specially constructed and approved by the Railway Board for the carriage of explosives) exceed two-thirds of the normal load of such vehicle :

Provided that (in the case of explosives of the kinds specified in rule 103) the quantity of explosives shall not—

(a) where such explosives are stowed in the manner described in clause (1) of that rule exceed three tons, and

(b) where such explosives are stowed in the manner described in clause (2) of that rule exceed five tons.

Prohibition of conveyance with inflammable substances.

99. There shall not be conveyed in the same vehicle with any explosive any lucifer or other matches, fuzes, pipe-lights, acids, naphtha, paraffine, petroleum or any other volatile spirit substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

Condition of vehicle.

100. Vehicles used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Hair-cloth, hides or other suitable materials shall be spread on the floor of the wagon and between each layer of packages, except when the packages are covered with gunny or felt, or contain safety cartridges for small-arms packed in tin-lined service pattern boxes.

Stowing of explosives.

101. All packages containing explosives shall be secured in such a way as to prevent concussion when the train is in motion.

Method of stowing explosives.

102. Packages containing explosives other than those referred to in rule 103 shall not be stowed in more than three layers one above the other. But if the packages are in rectangular form and of uniform size (provided they are double packages, and are so secured as to prevent movement during transit) they may be stowed in any number of layers not exceeding five :

Provided that this rule shall not apply to safety cartridges for small-arms packed in tin-lined service pattern boxes.

Method of stowing of high explosives.

103. (1) Packages containing dynamite and other blasting explosives of the 3rd (nitro-compound) Class or explosives of the 4th (chlorate-mixture), 5th (fulminate) Classes or of the 1st Division of the 7th (firework) Class shall be stowed in one layer only and secured so as to prevent movement during transit.

(2) Provided that, if the packages of explosives are in rectangular form and are properly secured so as to prevent movement during transit, they may be stowed in any number of layers not exceeding five.

Locking of vehicles.

104. Vehicles shall in every case be locked when loaded with explosives.

Delivery.

Delivery to consignee.

105. The consignee shall remove the explosives from the receiving station during the twelve hours of day light following its arrival.

Disposal when consignee fails to take delivery.

106. If the consignee does not remove the explosive within the time allowed by rule 105, the Railway Administration may return the explosive to the consignor at his risk and expense.

Protection of explosives pending removal.

107. Pending removal by the consignee, or return to the consignor, the explosive shall be kept at a safe distance from the station buildings, and (if unloaded) shall be completely covered with tarpaulins or other suitable material and, if necessary, shall be protected by a police guard.

Power to open packages.

Opening of suspected packages.

108. The Railway Administration may at any time open or require to be opened at the risk and expense of the consignor any package which is upon any railway and which is suspected to contain explosives packed or consigned in contravention of any of these rules.

Disposal of opened packages.

109. The Railway Administration may return to the consignor at his risk and expense the contents of any package which is found during transit to have been packed or consigned in contravention of any of these rules.

Precautions to be observed during loading and unloading.

Time of loading and unloading.

110. Notwithstanding anything in rule 69 a small consignment of explosives may be unloaded between sunset and sunrise.

For the purposes of this rule no consignment of more than half a wagon load booked to one station shall be deemed to be a small consignment.

Loading and unloading to be continuous.

111. Subject to the provisions of rules 64 and 110, the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed.

Place of loading and unloading.

112. Vehicles containing explosives shall be loaded and unloaded on sidings at a safe distance from the station buildings.

Loading and unloading of Government explosives.

113. All explosives under despatch or receipt by a Government arsenal, depot or factory shall be loaded or unloaded by Government servants employed in such arsenal, depot or factory.

Maximum number of vehicles to be

114. Not more than five vehicles containing explosives shall be loaded or unloaded at any railway station at any one time.

115. All operations connected with the transhipment of explosives at junction stations shall take place during daylight. Time of transhipment.

Marshalling and Shunting.

116. Not more than five vehicles containing explosives shall at any one time be hauled in the same train. Maximum number of vehicles to be hauled in one train. Precaution in the case of high explosives.

117. No explosive of the 5th (fulminate) Class or of the 3rd Division of the 6th (ammunition) Class, or of the 7th (firework) Class shall be carried in the same train with any explosive not of the Class and Division to which it belongs, unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

118. Vehicles containing explosives shall be placed at the end of the train away from the locomotive, and shall be close-coupled to one another as well as to the adjoining vehicles and shall be preceded and followed by three vehicles not loaded with explosives or other article or substance of an inflammable nature. Position of vehicle in the train.

119. When the train is being marshalled, vehicles loaded with explosive shall not be shunted by a locomotive, unless they are separated from the engine by not less than three vehicles containing no explosive nor easily inflammable substance : Shunting.

Provided that nothing in this rule shall apply to the shunting of vehicles specially constructed for the carriage of explosives.

120. During the shunting of vehicles containing explosives the speed of all movements shall not exceed five miles an hour ; and loose shunts are prohibited. Limit of speed in shunting.

121. No shunting shall be carried on save under the superintendence of a duly authorised officer, who shall see to the observance of rules 119 and 120. Superintendence shunting.

Brakes.

122. If the vehicles employed in the transport of explosives are provided with brakes other than iron brakes, the brakes thereon shall on no account be worked while the vehicles are running with a train, nor shall brakes, other than iron brakes, on vehicles immediately adjoining such vehicles, be worked while such vehicles are so running. Brakes.

Conveyance by Passenger train.

123. Save as provided in rule 124, no explosives shall be conveyed by passenger train except— Conveyance of explosives by passenger train.

- (a) safety cartridges and percussion caps and safety-fuzes (for blasting), and fog-signals for railway use ;
- (b) explosives of the 3rd (nitro-compound) Class other than propellants in the form of cartridge up to the limit of 5 lbs.

Provided that no detonators are carried in the same compartment ;

- (c) detonators to the number of 200 if the amount of fulminate of mercury in the package or packages containing the detonators does not exceed in the aggregate 3 oz. (and a certificate to this effect is tendered by the consignor).

Provided that no other explosive is carried in the same compartment ;

- (d) sporting gunpowder packed in double cases as provided in Schedule IV, so long as the gunpowder is contained in tin canisters containing not more than five pounds each and packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Chief Inspector of Explosives. But no outer case shall contain more than 25 lbs. of gunpowder, and the total consignment by one train shall not exceed 80 lbs.

124. Any explosive may be conveyed by mixed train on any line or section on which goods trains are not running, subject to the following conditions :— Conveyance of explosives by mixed train.

- (1) that not more than one vehicle containing explosives shall be hauled at any one time ;
- (2) that such vehicle shall be specially constructed and approved by the Railway Board for the carriage of explosives ;
- (3) that there are not less than three vehicles between such vehicle and the engine and between such vehicle and the passenger coaches ;
- (4) that such vehicle is close-coupled to the adjoining vehicles ; and
- (5) that, immediately on entering a section upon which goods trains are running, such vehicle is detached from the train.

Exemptions.

125. Nothing in rules 98, 114 and 116 shall apply to separate consignments of safety-cartridges for small-arms. Saving as to cartridges for small arms.

CHAPTER IX.

SUPPLEMENTARY.

Powers of Search and Destruction.

126. (1) Any of the officers mentioned in clause (2) may, within the areas specified in that clause— Powers of search and destruction.

- (a) enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed, sold, transported or imported under a license granted under these rules, or in which he has reason to believe that an explosive has been or is being manufactured, possessed, sold, transported or imported in contravention of the Act, or of these rules and may enter, inspect and examine any magazine or

- (b) search for explosives therein ;
 (c) take samples of any explosives found therein, on payment of the value thereof, if payment can be made at the time the samples are taken ; and
 (d) seize, detain, remove and, if necessary, destroy or otherwise render harmless any explosive found therein in respect of which he has reason to believe that any of the provisions of the said rules or Act have been contravened.
- (2) The officers and areas referred to in clause (1) are :—

Officers.	Areas.
The Chief Inspector and Inspectors of Explosives	Throughout the Central India Railway Lands.
All District Magistrates	Within their respective districts.
All Magistrates subordinate to the District Magistrate	Within their respective jurisdiction.
All Police Officers of rank not below that of Inspector, or, if the Agent to the Governor-General in Central India so directs, of Sub-Inspector.	Within the respective areas over which their authority extends.

(3) Whenever the Chief Inspector or any Inspector of Explosives, or any Magistrate subordinate to the District Magistrate, or any Police Officer seizes, detains or removes any explosive under this rule, he shall report the fact to the District authority.

(4) Neither the Chief Inspector nor an Inspector of Explosives, nor any Magistrate subordinate to the District Magistrate, nor any Police Officer shall under these rules destroy or otherwise render harmless any explosive without the previous sanction of the District authority unless the matter appears urgent and fraught with serious public danger.

(5) Whenever any officer destroys any explosive or otherwise renders it harmless, he shall take and keep a sample thereof, and shall, if required, give a portion of the sample to the person owning the explosive or having the same under his control at the time of seizure ; and whenever any officer other than the District authority so deals with any explosive, he shall report the circumstance to the District authority.

Penalties.

127. Whoever commits any offence mentioned in the first column of the following table shall be punishable with fine which may extend to the amount indicated in that behalf in the second column of that table :—

1	2
(1) Importing an explosive in contravention of rules 10, 14, 15 and 16.	Three thousand rupees.
(2) Contravening any of the provisions of rule 17 or rule 18 relating to importation of explosives.	One thousand rupees.
(3) Transporting blasting material in contravention of rule 19.	One thousand rupees.
(4) Manufacturing an explosive in contravention of rule 24.	Three thousand rupees.
(5) Contravening any of the provisions of rules 25 and 26 relating to the manufacture of explosives.	One thousand rupees.
(6) Possessing an explosive in contravention of rule 27.	One thousand rupees.
(7) Selling an explosive in contravention of rule 29.	Five hundred rupees.
(8) Contravening a condition of a license granted under article 1 or article 9 of Schedule II.	Three thousand rupees.
(9) Contravening a condition of a license granted under article 3, article 4, article 5, article 6, article 7, article 8, article 15 or article 16 of Schedule II.	Five hundred rupees.
(10) Contravening a condition of a license granted under article 2, article 10, article 11, article 12, article 13 or article 14 of Schedule II.	One thousand rupees.
(11) Contravening any direction given under rule 49, for the disposal of an explosive.	One thousand rupees.
(12) Failing to produce a license (or authenticated copy thereof) or pass when called upon to do so under rule 53.	Two hundred rupees.
(13) Contravening any of the provisions of Chapter VIII relating to the transporting of explosives.	One thousand rupees.
(14) Furnishing a false certificate under rules 14, 27, 22, 25 and 123.	Two hundred rupees.

Exemptions.

128. Nothing in these rules shall render liable to any penalty the owner or master of any vessel, or any carrier, or ware-houseman or the person having charge of any carriage for any act done in breach of these rules, if he proves that by reason of stress of weather, inevitable accident, or other emergency, the doing of such act was, under the circumstances, necessary and proper. Saving as done in etc.

SCHEDULE I.

PRESCRIBED TESTS.

[*Vide rule 13.*]

I.—Heat Test as applied to Explosives of the Nitro-compound Class.

GENERAL INSTRUCTIONS.

Apparatus required.

1. A water bath, consisting of a spherical glass or copper vessel [(a) Fig. I] of about 8 inches diameter, and with an aperture of about 5 inches; the bath is filled with water to within a quarter of an inch of the edge. It has a loose cover of sheet copper about 6 inches in diameter (b), and rests on a tripod stand about 14 inches high (c), which is covered with coarse iron wire gauze (e), and is surrounded with a screen of thin sheet tin or copper (d). Within the latter is placed an Argand burner (f), with glass chimney. The cover (b) has four holes arranged as seen in Fig. II, No. 4 to receive the regulator, No. 3 the thermometer, Nos. 1 and 2 the test-tubes containing the gun-cotton or other materials to be tested. Around holes 1 and 2 on the under side of the cover are soldered three pieces of brass wire with points slightly converging (Fig. III); these act as springs and allow the test-tubes to be easily placed in position and removed.

Fig. I.

Fig. II.

Fig. III.

Fig. IV.

- * 2. Scheibler's or Page's temperature regulator.
 - * 3. Two cells of Le Clanché's battery No. 1
 - * 4. A few yards of insulated copper wire
- } if Scheibler's regulator is used.
5. Test-tubes from $5\frac{1}{4}$ to $5\frac{3}{4}$ inches long, and of such diameter that they will hold from 20 to 22 cubic centimetres of water when filled to a height of 5 inches.
6. India-rubber stoppers, fitting the test-tubes and carrying an arrangement for holding the test-paper, viz., a narrow glass tube passing through the centre of the stopper, drawn out so as to form a hook, or terminating in a platinum wire hook (Fig. IV).
7. A thermometer, with range not less than from 30° to 212° Fahrenheit.
8. A minute clock.

* This is not absolutely required as the temperature of the bath can be kept constant by proper attention to the heating flame.

Materials required.

(a) *Test-paper.*—The test-paper is prepared as follows :—45 grains of white maize starch (cornflour) previously washed with cold water, are added to 8½ ounces of distilled water; the mixture is stirred, heated to boiling, and kept gently boiling for 10 minutes; 15 grains of pure potassium iodide (i.e., which has been re-crystallized from alcohol) are dissolved in 8½ ounces of distilled water. The two solutions are thoroughly mixed and allowed to get cold. Strips, or sheets, of best white English filter paper, weighing air dry, from 4.1 to 4.6 grammes per 100 square inches, previously washed with water and re-dried, are dipped into the solution thus prepared, and allowed to remain in it for not less than 10 seconds; they are then allowed to drain and dry in a place free from laboratory fumes and dust. The upper and lower margins of the strips, or sheets are cut off, and the paper is preserved in well-stoppered or corked bottles and in the dark.* The dimensions of the pieces of test-paper used are about $\frac{1}{8}$ inch by $\frac{2}{3}$ inch (10 mm. by 20 mm.).

(b) *Standard tint-paper.*—A solution of caramel in water is made of such concentration that when diluted one hundred times (10 cc. made up to 1 litre) the tint of this diluted solution equals the tint produced by the Nessler test in 100 cc. water containing 0.000075 grm. of ammonia or 0.00023505 grm. of chloride of ammonium. With this caramel solution lines are drawn on strips of white filter paper † by means of a clean quill pen. When the marks thus produced are dry the paper is cut into pieces of the same size as the test-paper previously described, in such a way that each piece has a brown line across it near the middle of its length, and only such strips are preserved in which the brown line has a breadth varying from $\frac{1}{8}$ min. to 1 mm. ($\frac{1}{8}$ of an inch to $\frac{1}{16}$ of an inch).

II.—Testing Dynamite, Blasting Gelatine, and other explosives of the First Division of the Nitro-compound Class.

A.—DYNAMITE, ETC. ETC.

Nitro-glycerine preparations, from which the nitro-glycerine can be extracted in the manner described below, must satisfy the following test.

This test, however, though at present looked upon as the most important as far as testing the purity of the nitro-glycerine is concerned, is in England only one of several which any given sample of nitro-glycerine preparation has to satisfy in order to establish its compliance with the definition in the Authorised List.

Apparatus required.

A funnel 2 inches across (d), a cylindrical measure divided into grains (e). (See sketch.)

*Mode of operation.*

About 300 to 400 grains of dynamite (b) finely divided are placed into the funnel which has previously been loosely plugged by some freshly-ignited asbestos (a)

The surface is smoothed by means of a flat-headed glass rod or stopper, and some clean washed and dried Kieselguhr (c) is spread over it to the depth of about $\frac{1}{4}$ inch.

Water is next carefully dropped from a wash bottle upon this Kieselguhr, and when the first portion has been soaked up more is added; this is repeated until sufficient nitro-glycerine has been collected in the graduated measure (e) below.

If any water should have passed through with the nitro-glycerine, it should be removed with a piece of blotting paper, and the nitro-glycerine, if necessary, filtered through a dry paper filter.

*When a paper is freshly prepared, and as long as it remains in good condition, a drop of dilute acetic acid, put on the paper with a glass rod, produces no coloration. In process of time, however, the stronger the light to which the paper is exposed, the sooner a drop of acid produces a brown or bluish coloration (a single hour of direct sunlight produces a marked effect), and whenever this is the case the paper should be rejected. After preparation the paper should be kept in the dark for a month before being taken into use. After that if carefully kept in the dark it will remain good for 6 months or more, but should be tested from time to time as above.

† This paper must be carefully washed with distilled water in the first instance, to remove any traces of bleaching matter, and dried.

Application of the Test.

The thermometer is fixed so as to be inserted through the lid of the water bath described under I, into the water (which is to be steadily maintained at a temperature of 160° Fahr.*) to a depth of 2½ inches. Fifty grains of nitro-glycerine to be tested are weighed into a test-tube in such a way as not to soil the sides of the tube. A test paper is fixed on the hook of the glass rod so that when inserted into the tube it will be in a vertical position. A sufficient amount of a mixture of half distilled water and half glycerine to moisten the upper half of the paper is now applied to the upper edge of the test paper by means of a camel's-hair pencil, the cork carrying the rod and paper is fixed into the test-tube and the position of the paper adjusted, so that its lower edge is about half-way down the tube; the latter is then inserted through one of the perforations of the cover to such a depth that the lower margin of the moistened part of the paper is about five-eighths of an inch above the surface of the cover. The test is complete when the faint brown line, which after a time makes its appearance at the line of boundary between the dry and moist part of the paper, equals in tint the brown line of the standard tint paper.

The nitro-glycerine under examination will not be considered to have satisfied the test unless the time necessary to produce the standard tint as above described is at least 15 minutes.

B.—BLASTING GELATINE, GELATINE DYNAMITE, AND ANALOGOUS PREPARATIONS.

Fifty (50) grains of blasting gelatine are to be intimately incorporated with one hundred (100) grains of French chalk.† The mixture is to be gradually introduced into a test-tube, of the dimensions prescribed above for the dynamite heat test, with the aid of gentle tapping upon the table, between the introduction of successive portions of the mixture into the tube so that when the tube contains all the mixture it shall be filled to the extent of 1½ inches (one inch and three-quarters) of its height. The test-paper is then to be inserted and the heat is to be applied in the manner prescribed above for the dynamite heat test, and the sample tested is to withstand exposure to 160° Fahr. for a period of ten (10) minutes, before producing a discoloration of the test-papers corresponding in tint to the standard colour test which is employed for governing the results of the dynamite heat tests.

(For Exudation and Liquefaction tests for Blasting Gelatine, etc., etc., see Appendix.)

N.B.—Non-gelatinized nitro glycerine preparations from which the nitro-glycerine cannot be expelled by water, are tested without any previous separation of the ingredients, the temperature being as above (160° Fahr.) and the time being seven (7) minutes.

C.—CORDITE AND BALLISTITE.*1. Apparatus required.*

The apparatus necessary for the application of the heat test to cordite is identical with that described above for explosives of the nitro-compound class generally ‡ with the addition of a mill and a nest of sieves§ similar to those used at Waltham Abbey for preparing the cordite for testing (see instructions below).

2. Preparation of the sample to be tested.

Pieces half an inch long are cut from one end of every stick selected for the test; in the case of the thicker cordites, each piece so cut is further sub-divided into about four portions. These cut pieces are then passed once through the mill, the first portion of material which passes through being rejected on account of the possible presence of foreign matter from the mill. The ground material is put on the top sieve of the nest of sieves and sifted. The portion which has passed through the top sieve and been stopped by the second is taken for the test. If the mill is properly set the greater portion of the ground material will be of the proper size.

If the volatile matter in the explosive exceed 0.5 per cent. the sifted material should be dried at a temperature not exceeding 140° Fahr. until the proportion does not exceed 0.5 per cent.

After each sample has been ground, the mill must be taken to pieces and carefully cleaned.

* For explosives supplied for His Majesty's Military and Naval Services the temperature is fixed by the War Office at 180°.

† This can be readily effected by carefully working the two materials together with a wooden pestle in a wooden mortar.

The French chalk should be of good commercial quality, and, after being carefully washed with distilled water and dried in a water oven, it should be exposed under a bell jar to moist air until it has taken up about 0.5 per cent. of moisture. It should then be bottled for use; and with ordinary care the limits of 0.5 per cent. can be maintained in keeping.

‡ In the Waltham Abbey apparatus the cover (Fig. II) has all the holes around the circumference instead of having one in the centre and three around the circumference.

§ A nest of two sieves with the holes drilled in sheet copper. The holes in the top sieve have a diameter=14 B. W. G., those in the second=21 B. W. G.

If too hard for the mill, it may be softened by exposure to the vapour of acetone, or reduced to the necessary degree of sub-division by means of a sharp moderately coarse rasp. Should it have become too soft in the acetone vapour for the mill, it should be cut up into small pieces which may be brought to any desired degree of hardness by simple exposure to air.

Explosives which consists partly of gelatinized collodion cotton and partly of ungelatinized gun-cotton are best reduced to powder by a rasp, or softened by exposure to mixed ether and alcohol vapour at a temperature of 90° to 100° Fahr.

3. Application of the Test.

The thermometer is fixed so as to be inserted through the lid of the water bath described under paragraph 1, so as to be immersed in the water to a depth of $2\frac{1}{2}$ inches. The water is maintained at a constant temperature of 180° Fahr. When this temperature is reached, 25 grains of the sifted cordite are put into one of the test-tubes, and collected at the bottom by gentle tapping. A test-paper is fixed on to the hook of the glass rod, so that when inserted into the tube it will be in a vertical position. A mixture of equal parts of distilled water and pure glycerine (Price's) is now applied to the upper edge of the test-paper by means of a camel's-hair pencil, in sufficient amount to moisten the upper half; the stopper carrying the rod and paper is fixed into the test-tube and the position of the paper adjusted so that its lower edge is about half-way down the tube; the latter is then inserted through one of the perforations of the cover to the same depth as the thermometer. The lower margin of the moistened part of the paper should then be about five-eighths of an inch above the surface of the cover. The test is completed when the faint-brown line, which after a time makes its appearance at the margin between the wet and dry portions of the test-paper, equals in depth of tint the brown line drawn on the standard tint paper.

4. The time which elapses between the insertion of the test-tube and the completion of the test must not be less than 15 minutes.

N. B.—In the case of ballistite the treatment is the same except that when it is in a very finely granulated condition it need not be cut up.

III—Testing Gun-cotton, Schultz's Gun Powder, E. C. Powder, and other explosives, of the 2nd Division of the Nitro-compound Class.

A.—COMPRESSED NITRO-CELLULOSE, TONITE, ETC., ETC.

Sufficient material to serve for two or more tests is removed from the centre of the cartridge by gentle scraping, and, if necessary, further reduced by rubbing through a sieve with a clean hard brush.

The fine powder thus produced is spread out in a thin layer upon a paper tray 6 inches by $4\frac{1}{4}$ inches which is then placed inside a water oven, kept, as nearly as possible, at 120° Fahr.

The wire gauze shelves in the oven should be about 3 inches apart. The sample is allowed to remain at rest for 15 minutes in the oven, the door of which is left wide open.

After the lapse of 15 minutes the tray is removed and exposed to the air of the room for two hours, the sample being at some point within that time rubbed upon the tray with a brush in order to reduce it to a fine and uniform state of division.

Application of the Test.

The cover of the water bath is fitted with the gas regulator which is inserted through the centre (hole No. 4). The thermometer is fixed into hole No. 3. The water in the bath is then heated to 170° Fahr., and the regulator set to maintain that temperature. Twenty grains of the sample to be tested are weighed out, placed in the test-tube, and gently pressed down until the specimen occupies a space of not more than $1\frac{5}{8}$ inches in a test-tube of the dimensions specified. A test-paper is affixed to the hook of the glass rod or tube, and moistened by touching the upper edge with a drop of distilled water containing 50 per cent. of Price's glycerine. The quantity of liquid used must be only sufficient to moisten about half of the paper. The cork carrying the rod and test-paper is then fixed into the test-tube, and the latter inserted into the bath to a depth of $2\frac{1}{4}$ inches, measured from the cover, the regulator and thermometer being inserted to the same depth. The test-paper is to be kept near the top of the test-tube, but clear of the cork, until the tube has been immersed for about five minutes. A ring of moisture will about this time be deposited upon the sides of the test-tube a little above the cover of the bath; the glass rod must then be lowered until the lower margin of the moistened part of the paper is on a level with the bottom of the ring of moisture in the tube: the paper is now closely watched. The test is complete when the faint brown line which makes its appearance at the line of boundary between the dry and moist parts of the paper, equal in tint the brown line of the standard tint paper.

The interval of time between the first insertion of the tube containing the sample of gun-cotton in the water at 170° and the production of the standard tint constitutes the test and this interval of time must be not less than 10 minutes, or the sample will not be considered to have satisfied the test.

B.—GELATINIZED AND SEMI-GELATINIZED NITRO-CELLULOSE PREPARATIONS.*

Twenty-five grains introduced into the test-tube* of the dimensions prescribed for the dynamite heat test, then proceed as for blasting gelatine, etc., taking the temperature at 180° Fahr., and the time as 15 minutes.

* If in a compressed form it should be broken up in the same manner as cordite and ballistite.

C.—NITRO-CELLULOSE NOT INCLUDED IN A. OR B. SCHULTZ'S POWDER, E. C. POWDER, ETC., ETC.

Sufficient of the sample, without further mechanical division, is dried in the oven as above and then exposed for two hours to the air. The test as directed above for compressed nitro-cellulose, etc., is then applied, the minimum duration of test being the same, *viz.*, 10 minutes.

D.—PICRIC ACID.

- (1) The material shall contain not more than 0.3 part of mineral or non-combustible matter in 100 parts by weight of the material dried at 160° Fahr.
- (2) It should not contain more than a minute trace of lead.
- (3) One hundred parts of the dry material shall not contain more than 0.3 part of *total* (free and combined) sulphuric acid, of which not more than 0.1 part shall be *free* sulphuric acid.
- (4) Its melting point should be between 248° and 253° Fahr.

E.—AMMONITE, BELLITE, ROBURITE, AND EXPLOSIVES OF SIMILAR COMPOSITION.

These are required to stand the same heat test as compressed nitro-cellulose.

IV.—Testing Chlorate-Mixtures.

The material must not be too sensitive* and must show no tendency to increase in sensitivity on keeping.

The material must contain nothing liable to reduce the chlorate.

Chlorides calculated as potassium chloride must not exceed 0.25 per cent.

The material must contain no free acid, or substance liable to produce free acid.

Explosives of this class containing nitro-compounds will be subject to the heat test as if they belonged to Class III.

V.—Testing Ammunition (Divisions 2 and 3).

Any explosive made up into ammunition (other than Division 1), for which a test is provided in the schedule, is to be tested as if not so made up.

APPENDIX.

Exudation and Liquefaction Test for Blasting Gelatine, Gelatine Dynamite and analogous Preparations.

TEST FOR LIQUEFACTION.

A cylinder of blasting gelatine is to be cut from the cartridge to be tested, the length of the cylinder to be about equal to its diameter and the ends being cut flat.

The cylinder is to be placed on end on a flat surface without any wrapper, and secured by a pin passing vertically through its centre.

In this condition the cylinder is to be exposed for one hundred and forty-four (144) consecutive hours (six days and nights) to a temperature ranging from 85° to 90° Fahr. (inclusive), and during such exposure the cylinder shall not diminish in height by more than one-fourth of its original height, and the upper cut surface shall retain its flatness and the sharpness of its edge.

Note.—If the blasting gelatine and the gelatine dynamite to be tested be not made up in a cylindrical form the above test is to be applied with the necessary modifications.

TEST FOR LIABILITY TO EXUDATION.

There shall be no separation from the general mass of the blasting gelatine or gelatine dynamite of a substance of less consistency than the bulk of the remaining portion of the materials under any conditions of storage, transport, or use, or when the material is subjected three times in succession to alternate freezing and thawing, or when subjected to the liquefaction test hereinbefore described.

* They will be considered too sensitive if they can be exploded however partially by means of a glancing blow with a broomstick on soft wood (such as deal).

SCHEDULE II.

Licenses (vide rule 40).

Article.	Form of License. (See Schedule III).	Purpose for which granted.	Kinds and maximum quantities of explosives for which granted.	Authority entitled to grant license.	Fee.	Period for which license is valid.
1	2	3	4	5	6	7
<i>Importation.</i>						
1	1	To import by land	Any authorised explosives in any quantity.	The District authority of the area to which the explosives are consigned.	Rs. 10.	Such period as the licensing authority deems necessary.
2	2	For the general transport of explosives required for blasting purposes by a holder of a license in Form F, Form J or Form K, from the place of storage of the magazine as the case may be to such place or places as the licensing authority may specify.	Any explosive in any quantity.	The District authority of the area from which the explosive is to be transported.	Free of charge.	One year from the issue of the license or such less period as the licensing authority may prescribe.
<i>Manufacture, Possession and Sale.</i>						
3	A	To manufacture, possess and sell at such place as may be approved by the licensing authority.	(i) Two hundred pounds in all of gunpowder, and small-arm nitro-compound, together with any quantity of explosives contained in ammunition (Division 1), or (ii) Two hundred pounds of manufactured fireworks, or	The District authority.	Rs. Covering the maximum quantity of explosives allowed or any less quantity exceeding one half such maximum . . . 20 Covering half such maximum or any less quantity exceeding one-fourth 10 Covering one-fourth such maximum or any less quantity 5	Up till the 31st day of December of the year for which the license is issued.
4	B	To possess and sell at such place as may be approved by the licensing authority.	(iii) Sixty pounds in all of gunpowder, small-arm nitro-compounds and manufactured fireworks, together with any quantity of explosives contained in ammunition (Division 1), or (iv) Any such less quantity of any of the said explosives, as the licensing authority may think fit to specify in the license.		Covering the maximum quantity of explosives allowed or any less quantity exceeding one-half such maximum . . . 10 Covering half such maximum or any less quantity exceeding one-fourth 5 Covering one-fourth such maximum or any less quantity . . . 2-8	
5	C	To possess at such place as may be approved by the licensing authority.			Annas 8.	
7	E	To possess (granted to contractors, cultivators and other persons only when the explosives are proved to the satisfaction of the licensing officer to be required <i>bona fide</i> for blasting purposes).	One hundred pounds of gunpowder, ten pounds of other explosives and one hundred detonators.			
8	E		One hundred pounds of gunpowder.	The District authority or any Magistrate of first class or any Magistrate of the 2nd class specially authorised by the District Magistrate in this behalf.	Free of charge.	

Article.	Form of License. (See Schedule III.)	Purpose for which granted.	Kind and maximum quantities of explosives for which granted.	Authority entitled to grant license.	Fee.	Period for which license is valid.
1	2	3	4	5	6	7
9	Such Form as the Governor-General in Council may prescribe.	To manufacture [in cases not provided for in Articles (3) and (6)].	Any explosive in any quantity.	The Governor-General in Council.	Such fee as the Governor-General in Council may prescribe.	Up till the 31st day of December of the year for which the license is issued.
10		To possess . . .	Fulminates . . .			
11		To possess [in cases not provided for in Articles (3), (4), (5), (6), (7) or (8)] at such place as may be approved by the licensing authority.	Any explosive (not being a fulminate) in any quantity not exceeding sixty pounds).	The District authority.	Rs. 5.	
12		To possess [in cases not provided for in Article (3), (4), (5), (6), (7), (8) or (11)] in a magazine.	Any explosive (not being a fulminate) in any quantity.	The Agent to the Governor-General in Central India or such officer as the Agent to the Governor-General in Central India may authorise in this behalf.	Rs. 15.	
13	J	To possess in and sell [in cases not provided for in Article (4) or (6)] from a magazine	Any explosive (not being a fulminate) in any quantity.		Rs. 20.	Six months from the issue of the license or such less period as the licensing authority may prescribe.
14	K	To possess (temporarily) in a floating magazine.	Any explosive (not being a fulminate) in any quantity.	The Agent to the Governor-General in Central India.	Rs. 20.	

SCHEDULE III.

PRESCRIBED FORMS.

FORM I.

(Article 1 of Schedule II).

[FEE—TEN RUPEES IN STAMPS.]

License to import Explosives.

Name, etc., and address of license-holder.	Number of packages.	EXPLOSIVE.			Purpose for which required.	Designation.	Period for which the license is valid.
		Description.	Weight.	Number.			
							From _____
							_____ to the
							_____ of
							_____ 191 .

The _____ of _____
191

(Signature)

— of —

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act, 1884, as applied to the Central India Railway Lands and the rules thereunder.

2. This license shall become void after expiry of the period named thereon.

3. On the outside of each package there shall be affixed in conspicuous characters by means of a brand or securely attached label or mark the word "Explosive," followed by the name of the explosives or other description of the contents and the name and address of the owners or senders.

FORM 2.

(Article 2 of Schedule II.)

[FREE OF CHARGE.]

General license to transport Explosives required for blasting purposes.

(To be granted to holders of licenses in Forms F, J or K contained in schedule III to the Central India Railway Lands Explosives Rules, 1919.)

A general license is hereby granted to _____

to transport explosives required for blasting purposes from _____

to the places * specified below, subject to the conditions hereinafter contained.

*Places of destination _____

The license shall continue in force till the _____

The _____ 191 .

(Signature.)

Seal.

Conditions of license.

1. The license is subject to the provisions of the Indian Explosives Act, 1884, as applied to the Central India Railway Lands and to the rules made thereunder.

2. It becomes void on the expiration of the term mentioned, or if a consignment breaks bulk before reaching the place of destination, or if the explosive is taken from or to any place other than the places mentioned in the license.

3. It authorises the licensee to deliver consignments of explosives required for blasting purposes from and to the places specified in the license : provided—

(i) that the consignee has taken out a license for the possession of such explosives under the Indian Explosives Act, 1884, as applied to the Central India Railway Lands ;

(ii) that the quantity of explosives despatched to any consignee is not in excess of the quantity which such consignee is entitled to possess ;

(iii) that each consignment of explosives is covered by a pass in the form appended hereto ; and that (when the explosives are transported by rail) such pass shall be attached to the way-bill or invoice (as the case may be) ;

(iv) that a copy of the pass issued with each consignment is forthwith sent to the authority granting the license and (in cases where the explosives are being transported to a place beyond the local limits of the jurisdiction of such authority) also to the District authority of the area to which the explosives are consigned.

(v) that any loss, shortage or theft of explosives in transit is reported without delay to the licensing authority and to the police station in the jurisdiction of which the loss, shortage or theft is discovered.

FORM OF PASS.

[See condition 3 (iii) of License.]

Pass granted by the holder of General Transport License (Explosives) No. _____ for the transport of a consignment of explosives required for blasting purposes.

No. _____

This pass covers _____ packages containing (Description of explosives and weight) _____

while in transit from _____ to _____

Name of consignee _____

No. of consignee's license to possess explosives _____

Date of despatch of consignment _____

Approximate date on which consignment should reach its destination _____

(Signed) _____

Holder of General Transport License No. _____

FORM A.
(Article 3 of Schedule II.)

[FEE RUPEES IN STAMPS.]

License to manufacture, possess and sell gunpowder, or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class, or elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class.

(Granted by the District Authority.)

Name, etc., of licensee and place of residence.	Place of business, factory or shop.	Maximum quantity of explosive to be possessed at any one time.	Description and quantity of explosive to be manufactured during the year.	Description and quantity of explosive to be possessed and sold during the year.	Date on which license expires.

_____ of _____

Conditions.

1. The license is granted subject to the provisions of the Indian Explosives Act, 1884, as [IV of 18] applied to the Central India Railway Lands and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives manufactured, of all stock in hand, and of all sales, in such form as the Agent to the Governor General in Central India may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of manufacture and sales to any Magistrate or to any Police Officer duly empowered in this behalf, whenever such Magistrate or officer may call upon him so to do.

Provided that where the license extends only to the manufacture, possession and sale of manufactured fireworks and the quantity permitted to be kept at one time does not exceed fifty pounds the licensee shall not be required to keep or exhibit records or accounts of the same.

4. (1) The explosive shall be manufactured in a tent or lightly constructed building exclusively appropriated for the purpose and separated from any dwelling-house, highway, street, public thoroughfare or public place by the distance—

(a) in the case of gunpowder or small-arm nitro-compound, of one hundred yards, or

(b) in the case of an explosive of the 1st Division of the 6th (Ammunition) Class, or of the 7th (Firework) Class, of fifty yards.

(2) In the case of filling cartridges for small-arms the operation may, if preferred, be carried out in the upper room of a building to which the conditions in clause (1) as to distance need not apply.

Provided that no more than five pounds of explosive (except such as may be contained in safety cartridges) shall be in the room where the operation is being carried on.

(3) In all other cases the manufacture shall be carried on in a one-storeyed building.

5. The number of persons employed at any one time in manufacture in any one building or room shall not exceed six and only persons actually manufacturing or superintending manufacture shall be allowed inside the place of manufacture.

6. No iron or steel implements shall be used in manufacture. Only copper, gun-metal or wooden tools are permissible.

7. All explosives, as manufactured, shall be removed without delay to a safe place of storage, and no explosive shall be allowed to accumulate in the place of manufacture.

8. Manufacture shall only be carried on between sunrise and sunset.

9. No smoking or lights shall be allowed in or near a room where explosives are being manufactured.

10. All sales of explosives under this license must be effected on the premises shown on the face of the license.

11. An explosive shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture.

12. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the distances prescribed in condition No. 4* from any

* These distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorized persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives: and

- (a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe;
- (b) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorized persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A:

Provided that a fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound, and cartridges of the 2nd Division of the 6th (Ammunition) Class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

13. The maximum quantity of explosives allowed to be kept at the same time shall be the following:—

- (1) if the only explosive kept be one or more of the following, namely:—

- (a) gunpowder;
 - (b) small-arm nitro-compound; or
 - (c) ammunition of the 1st Division of the 6th Class,
- the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound, in all	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st Division of the 6th Class	Any quantity.	Any quantity.
(2) if the only explosive kept be manufactured fireworks, the maximum shall be—		
manufactured fireworks	Two hundred.	Fifty.
(3) in any other case the maximum shall be—		
mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st Division of the 6th Class	Any quantity.	Any quantity.

Provided that in each of the three cases abovementioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

14. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B—

(a) the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean;

(b) in the case of any explosive being possessed which is liable to be dangerously effected by water, due precautions shall be taken to exclude water therefrom;

(c) all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same; and

(d) no person in any such room or part of a building or any such excavation or any such receptacle, shall have any iron or steel in his possession or attached to or on his boots or shoes:

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st Division of the 6th (Ammunition) Class.

15. Any quantity exceeding five pounds of an explosive of the 1st Division of the 6th (Ammunition) Class or of the 2nd Division of the 7th (Firework) Class, and of any other explosive exceeding one pound, shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping;

and, when publicly exposed for sale or when sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark:

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

16. (1) Explosives of different descriptions which may be kept under this license, shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other:

(2) Provided as follows:—

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st Division of the 6th (Ammunition) Class may be kept with each other without any intervening partition or space;

(b) the various explosives of the 1st Division of the 6th (Ammunition) Class may be kept with each other without any intervening partition or space;

(c) the various explosives of the 7th (Firework) Class may be kept with each other without any intervening partition or space.

17. The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license for the possession of explosives, the following particulars, namely:—

(a) the name and address of the person who takes delivery of the articles sold;

(b) the nature and amount of articles sold: and

(c) the date of sale:

and shall append his signature to the endorsement.

FORM B.

(Article 4 of Schedule II.)

[FEE

RUPES IN STAMPS.]

License to possess and sell gunpowder, or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class.

[Granted by the District Authority.]

Name etc., of licensee and place of residence.	Place of business, factory or shop.	Maximum quantity of explosive to be possessed at any one time.	Description and quantity of explosive to be possessed and sold during the year.	Date on which license expires.
1	2	3	4	5
				The 31st December 191

Area, }  Signature. of

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884, [IV of 1] as applied to the Central India Railway Lands and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock and of all sales, in such form as the Agent to the Governor General in Central India may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of sales to any Magistrate or to any Police Officer duly empowered in this behalf, whenever such Magistrate or officer may call upon him so to do:

Provided that where the license extends only to the possession and sale of manufactured fireworks and the quantity permitted to be kept at one time does not exceed fifty pounds, the licensee shall not be required to keep or exhibit records or accounts of the same.

4. All sales of explosives under this license must be effected upon the premises shown on the face of the license.

5. An explosive shall not be sold to any child apparently under the age of fourteen years.

6. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling house, and is separated by the prescribed distances* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe; and

* In the case of gunpowder or small-arm nitro-compound, one hundred yards.

In the case of an explosive of the 1st Division of the 6th (Ammunition) Class or of the 7th (Firework) Class, fifty yards.

Provided that these distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

- (b) such an excavation must be formed in solid rock or earth or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house or inside a building which is not itself qualified for the keeping of explosives in Mode A :

Provided that a fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd Division of the 6th (Ammunition) Class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

7. The maximum quantity of explosives allowed to be kept at the same time shall be the following :—

- (1) if the only explosive kept be one or more of the following, namely :—

- (a) gunpowder,
(b) small-arm nitro-compound, or
(c) ammunition of the 1st Division of the 6th Class,
the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound, in all	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st Division of the 6th Class	Any quantity.	Any quantity.

- (2) if the only explosive kept be manufactured fireworks,
the maximum shall be—

manufactured fireworks . . .	Two hundred.	Fifty.
------------------------------	--------------	--------

- (3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st Division of the 6th Class	Any quantity.	Any quantity

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

8. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B—

(a) the interior thereof, and the shelves and fittings therein, shall be so constructed or so lined and covered as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosives ;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean ;

(b) in the case of any explosive being possessed which is liable to be dangerously effected by water, due precautions shall be taken to exclude water therefrom ;

(c) all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same ; and

(d) no person in any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes :

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st Division of the 6th (Ammunition) Class.

9. Any quantity exceeding five pounds of an explosive of the 1st Division of the 6th (Ammunition) Class or of the 2nd Division of the 7th (Firework) Class and of any other explosive exceeding one pound, shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping ;

and when publicly exposed for sale or sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark :

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

10. (7) Explosives of different descriptions which may be kept under this licence shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows:—

- (a) gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st Division of the 6th (Ammunition) Class, may be kept with each other without any intervening partition or space;
- (b) the various explosives of the 1st Division of the 6th (Ammunition) Class may be kept with each other without any intervening partition or space;
- (c) the various explosives of the 7th (Firework) Class may be kept with each other without any intervening partition or space.

11. The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license for the possession of explosives, the following particulars:—

- (a) the name and address of the person who takes delivery of the articles sold:
- (b) the nature and amount of the articles sold: and
- (c) the date of sale:

and shall append his signature to the endorsement.

FORM C.

(Article 5 of Schedule 11.)

[FEE—EIGHT ANNAS IN STAMPS.]

License to possess gunpowder or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class, or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class.

[Granted by the District Authority.]

Name, etc., of licensee and place of residence.	Description and quantity of explosive to be possessed during the year.	Place with full details where explosive is to be possessed.	Maximum quantity of explosive to be kept at any one time.	Date on which license expires.

 _____ of _____

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 [1V of as applied to the Central India Railway Lands and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock, in such form as the Agent to the Governor-General in Central India may from time to time direct.

3. The licensee shall exhibit his stock and his books and records to any Magistrate or to any Police Officer duly empowered in this behalf, whenever such Magistrate or officer may call upon him so to do:

Provided that where the license extends only to the possession of manufactured fireworks and the quantity permitted to be kept at one time does not exceed 50 pounds, the licensee shall not be required to keep or exhibit records or accounts of the same.

4. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

- (a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe; and

*In the case of gunpowder or small-arm nitro-compound, one hundred yards.

In the case of an explosive of the 1st Division of the 6th (Ammunition) Class or of the 7th (Firework) Class fifty yards.

Provided that these distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

- (b) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place, which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A:

Provided that a fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the second Division of the 6th (ammunition) Class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

5. The maximum quantity of explosives allowed to be kept at the same time shall be the following, namely:—

- (1) if the only explosive kept be one or more of the following, namely:—

- (a) gunpowder,
(b) small-arm nitro-compound, or
(c) ammunition of the 1st Division of the 6th Class,
the maximum shall be—

	In Mode A lbs.	In Mode B lbs.
gunpowder, and small-arm nitro-compound, in all and, in addition, of explosives contained in ammunition of the 1st Division of the 6th Class . . .	Two hundred.	Fifty.
(2) if the only explosive kept be manufactured fireworks, the maximum shall be—	Any quantity.	Any quantity.

- (2) if the only explosive kept be manufactured fireworks, the maximum shall be—

manufactured fireworks Two hundred. Fifty.

- (3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all and, in addition, of explosives contained in ammunition of the 1st Division of the 6th Class . . .	Sixty.	Fifteen.
	Any quantity.	Any quantity.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

6. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B—

(a) the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching, of any grit, iron or steel, or similar substance, in such manner as to come into contact with the explosive;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean;

(b) in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom;

(c) all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation, or receptacle containing the same; and

(d) no person in any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes;

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st Division of the 6th Class.

7. Any quantity exceeding five pounds of an explosive of the 1st Division of the 6th (ammunition) Class or of the 2nd Division of the 7th (firework) Class, and of any other explosive exceeding one pound, shall be kept in a substantial case, bag, canister, or other receptacle, made and closed so as to prevent the explosives from escaping.

8. (1) Explosives of different descriptions which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other;

- (2) Provided as follows:—

- (a) gunpowder, small-arm nitro-compound and safety fuses belonging to the 1st Division of the 6th (ammunition) Class, may be kept with each other without any intervening partition or space;

- (b) the various explosives of the 1st Division of the 6th (ammunition) Class may be kept with each other without any intervening partition or space;
- (c) the various explosives of the 7th (firework) Class may be kept with each other without any intervening partition or space.

9. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature, namely:—

- (a) the name and address of the person who takes delivery of the articles purchased;
- (b) the nature and amount of the articles purchased; and
- (c) the date of purchase.

FORM E.

(Articles 7 and 8 of Schedule II.)

[FREE OF CHARGE.]

License to possess gunpowder or other explosives required bonâ fide for blasting purposes.

[Granted by the District authority. If gunpowder only is to be possessed, the license may be granted by any Magistrate of the 1st class or by a Magistrate of the 2nd class specially authorised by the District authority in this behalf.]

Name, etc., of licensee, and place of residence.	Description and quantity of explosive to be possessed during the year.	Place, with full details, where explosive is to be possessed.	Maximum quantity of explosive (not exceeding 100 lbs. gunpowder and 10 lbs. of other explosives and 100 detonators) to be kept at any one time.	Date on which license expires.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884, [as applied to the Central India Railway Lines and the rules thereunder.

2. The explosives shall be kept in a substantially constructed unflammable building approved by such officer as the Agent to the Governor-General in Central India may prescribe, or in a fireproof safe separated from any dwelling-house, highway, street, public thoroughfare or public place by a distance of 50 yards and made and closed so as to prevent unauthorised persons from having access thereto, and to secure it from danger from without;—

Provided that 50 lbs. of gunpowder may be kept inside a dwelling-house or in any building other than as last aforesaid in a receptacle exclusively appropriated to keeping explosives.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any room or part of a building, fireproof safe, or receptacle containing the same, and no person entering such room or part of any building or such safe or receptacle shall have any iron or steel in his possession or attached to or on his boots or shoes.

4. Neither the building exclusively appropriated for the purpose of keeping the explosive, nor the fireproof safe or receptacle referred to above shall have any exposed iron or steel in the interior thereof:

Provided that this condition shall not be obligatory in a building, fireproof safe, or receptacle in which no explosive other than an explosive of the 1st Division of the 6th (ammunition) Class is kept.

5. Gunpowder or other explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle made and closed so as to prevent the explosives from escaping.

6. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases and under the vendor's signature:—

- (a) the name and address of the person who takes delivery of the articles purchased;
- (b) the nature and amount of the articles purchased; and
- (c) the date of purchase.

7. All losses, shortage of stock or thefts of explosives, shall be reported without delay

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884, as applied to the Central India Railway Lines and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock and of all issues in such form as the Agent to the Governor-General in Central India may from time to time direct.

3. The explosive shall be kept in a substantially constructed building which is exclusively appropriated for the purpose, and is detached from any dwelling-house, and is situated at a safe distance from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without.

4. The doors of the building shall open outwards and shall be faced on the outside with iron plating a quarter of an inch thick. They shall be closed by means of a lock or bolt on the inner side of such make or design as shall be approved by the licensing authority, and so placed that it shall be inaccessible from the outside except by means of its own key. The lock or bolt shall be made of some metal other than iron or steel.

5. All windows in the building shall be closed by shutters which open outwards but which cannot be open from outside. The shutters shall be faced on the outside with iron plating a quarter of an inch thick.

6. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosives and from any building or receptacle containing the same.

7. No building exclusively appropriated for the purpose of keeping the explosives, and no receptacle in which the explosives are kept, shall have any exposed iron or steel in the interior thereof.

8. All explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping.

9. Explosives of different descriptions which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other.

10. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature, namely:—

- (a) the name and address of the person who takes delivery of the articles purchased;
- (b) the nature and amount of the articles purchased; and
- (c) the date of purchase.

11. All losses, shortage of stock or thefts of explosives shall be reported without delay to the nearest police station.

Factory or magazine occupied by the Government of India or any Department under that Government with the consent, in writing, of the Government of India or such Department.	"		
Ditto, without such consent	"		

NOTE. The applicant for the license should state in the third column whether he is able to observe the distances assigned in the second column or not. In any case where he is unable to observe the full distance assigned, he should state what distance he can observe, and in the column of "Remarks" should set forth the grounds, if any, upon which he relies as justifying such reduction of distance, e.g., whether the magazine will be protected by mounds or by natural features of the ground, or otherwise.

(Signature of applicant) _____

(Postal address of applicant) _____

(Date) _____

*The distances will be required to be kept clear not merely on the first establishment of the magazine, but during the continuance of the license.

†This rule also applies to two or more magazines kept on the same premises, when such magazines—

(1) belong to the same occupier, or

(2) are so kept by mutual consent of the respective occupiers.

FORM I.

[See rule 36.]

Distances to be kept clear round a magazine.

*Distances to be maintained between the magazine and other buildings and works :—

From every	Not less than yards.
Room used in connection with the magazine, in pursuance of rule 25	..
Workshop used in connection with the magazine, in pursuance of rule 26†	..
Private railway	..
Highway or public footpath	..
Open air public meeting place (such as a market)	..
Canal or navigable water	..
Dock	..
River wall	..
Pier or jetty	..
Reservoir or bunded tank	..
Room or workshop in connection with another magazine, store or licensed premises	..
Any other room or workshop, or any shop	..
Any other explosive magazine, or store for explosives	..
Furnace, kiln or chimney	..
Public railway	..
Dwelling-house, <i>with</i> the consent, in writing, of the occupier	..
Dwelling-house, <i>without</i> such consent	..
Factory not belonging to Government	..
Church, chapel or hospital	..
Public institution or building	..
Government building	..
Wireless station	..
Factory or magazine occupied by the Government of India, or any Department under that Government, <i>with</i> the consent, in writing, of the Government of India, or such Department	..
Ditto, <i>without</i> such consent	..

In the case of any building or work above-mentioned which is so screened from the magazine by the natural features of the ground or by good and sufficient artificial mounds of earth as not to be visible from any part of such magazine, the distance assigned above as that to be observed between such building or work and the magazine may be reduced by one-half.

In the case of any building or work above-mentioned which is so screened from the magazine by an intervening hill, that a line drawn from any part of such building or work to any part of such magazine would pass through such hill, the distance assigned by this schedule as that to be observed between such building and work and the magazine may be reduced by three-fourths; but if a Government Inspector notifies in writing that in his judgment the intervening hill, in respect of which such reduction is claimed, is not of a character to justify such reduction, this clause, authorising such reduction, shall be deemed not to apply in respect of the said building or work.

FORM J.

(Articles 12 and 13 of Schedule II.)

[FEE— FIFTEEN RUPEES IN STAMPS.]
TWENTY

License to possess explosives (other than fulminates) in, and to sell explosives from, a magazine.

[Granted by the Hon'ble the Agent to the Governor-General in Central India or officer appointed by the Agent to the Governor-General in Central India in this behalf.]

Name of licensee, and residence.	Boundaries of the land forming the site of the magazine to which the license applies.	Situation, character and construction of the buildings and works connected with the magazine.	Description of explosives to be possessed.	Amount of explosives to be possessed at the same time in the magazine and within the boundaries of the site thereof.	Date on which license expires.

Secretary or

* The distances will be required to be kept clear not merely on the first establishment of the magazine, but during the continuance of the license.

† This rule also applies to two or more magazines kept on the same premises, when such magazines—

(1) belong to the same occupier, or

(2) are so kept by mutual consent of the respective occupiers.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 as applied to the Central India Railway Lands and the rules thereunder.

2. All explosives must be kept in the magazine indicated in this license.

3. The magazine is not to be used until this license is endorsed by the District authority in accordance with rule 39.

4. The licensee shall keep records and accounts of all explosives in stock and of all sales or issues in such form as the Agent to the Governor-General in Central India may from time to time direct.

5. There shall not be at the same time in the magazine any quantity of explosives exceeding the quantity specified in the license.

6. The magazine shall be used only for the keeping of the explosives specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives.

7. The interior of the magazine, and the benches, shelves, and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel and the detaching of any grit, iron, steel or similar substances in such manner as to come into contact with the explosives; and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean; and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom:

Provided that so much of this condition as relates to precautions against the exposure of any iron or steel and the detaching of any grit, iron, steel or similar substances, shall not be obligatory in a building in which no explosive other than an explosive of the first Division of the 6th (ammunition) Class is kept.

8. The magazine shall have attached thereto an efficient lightning conductor, which shall be tested at least once during the currency of the license, and a certificate showing the result and date of the last test shall be hung up in a conspicuous place in the magazine.

9. Before repairs are done to any room or magazine or part thereof, the same shall, as far as is practicable, be cleaned by the removal of all explosives, or mixed ingredients thereof, and the thorough washing out of such room, magazine or part; and after such cleaning these conditions shall cease to apply to such room or part of the magazine until any explosive is again taken into it:

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the first Division of the 6th (ammunition) Class is kept.

10. Except after such cleaning, all tools and implements used in, or in making any repairs to, any part of the magazine shall be made only of wood, copper or brass or some soft metal or material, or shall be covered with some safe and suitable material:

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the 1st Division of the 6th (ammunition) Class is kept.

11. Due provision shall be made, by the use of suitable working clothes without pockets or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article likely to cause explosion or fire, or of any grit, iron or steel; but this rule shall not prevent the introduction of an artificial light of such construction, position or character as not to cause any danger of fire or explosion:

Provided that so much of this condition as applies to the exclusion of grit, iron or steel, shall not be obligatory in a building in which no explosive other than an explosive of the first Division of the 6th (ammunition) Class is kept.

12. No person shall smoke in any part of the magazine.

13. No person under the age of fourteen years shall be employed in or enter the magazine, except in the presence and under the supervision of some grown up person, and no explosive shall be sold to any such person.

14. (1) Two or more descriptions of explosives which may lawfully be possessed in a licensed magazine may be possessed in the same magazine if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other:

(2) Provided as follows:—

(a) the various explosives of classes 1 (gunpowder), 2 (nitrate mixture), 3 (nitro-compound) and 4 (chlorate-mixture), safety fuzes belonging to the 1st Division of the 6th (ammunition) Class, and such of the various explosives of the 2nd Division of the 6th (ammunition) Class as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space;

(b) the various explosives of the 1st Division of the 6th (ammunition) Class may be kept with each other without any intervening partition or space:

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884, as applied to the Central India Railway Lands and the rules thereunder.

2. The whole vessel, barge or craft in or on board which the explosives are stored shall be deemed to constitute the magazine.

3. The magazine shall be used only for the keeping of such explosives as may be specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives.

4. The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel in such manner, and the detaching of any grit, iron, steel or similar substance in such manner, as to come into contact with the explosives in such magazine; and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean.

5. The magazine shall have attached thereto an efficient lightning conductor, which shall be tested previous to the storage of explosives.

6. No charcoal, whether ground or otherwise, oiled cotton, oiled rags or oiled waste and no article whatever which is liable to spontaneous ignition, shall be taken into the magazine.

7. Before repairs are done to or in any part of the magazine, it shall, so far as practicable, be cleaned by the removal of all explosives, and by a thorough washing out. After being so cleaned, it shall not be deemed to be a magazine until explosives are again taken into it.

8. There shall be constantly kept in the magazine, affixed in such manner as to be easily read, a copy of the license, and of any special rules that may be issued from time to time for the keeping of explosives in a floating magazine.

9. All tools and implements used in any repairs to or in any part of the magazine shall be made only of wood or copper or brass or some soft metal or material, or shall be covered with some safe and suitable material.

10. No fires, lights or lucifer matches, and no substance or article which is likely to cause explosion or fire, shall be permitted to be at any time in the magazine.

11. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article which is likely to cause explosion or fire; and for preventing the introduction of any grit, iron or steel into any part of the magazine where it would be likely to come into contact with explosives; and in any part of the magazine in which any explosive is kept which is liable to be dangerously affected by water, due precautions shall be taken to exclude water from such part; but this condition shall not prevent the introduction of an artificial light of such construction, position or character as not to cause any danger of fire or explosion; and so much of this condition as relates to the exclusion of grit, iron or steel shall not be obligatory in the case of a magazine in which no explosive other than explosives of the 1st Division of the 6th (ammunition) Class is kept.

12. No person shall smoke in any part of the magazine.

13. (1) The licensee shall not employ any vessel, barge or craft to carry an explosive to or from the magazine unless the cabin, hold or other part of the vessel, barge or craft in which the explosive is or is to be carried—

(a) is constructed without any exposed iron or steel in the interior thereof,

(b) contains only explosives, and

(c) is closed or otherwise properly covered over:

Provided that clause (a) shall not apply in the case of any vessel, barge or craft which carries no explosive other than explosives of the 1st Division of the 6th (ammunition) Class, or which is specially exempted by an order of the Chief Inspector of Explosives or by an order of the Agent to the Governor-General in Central India endorsed on this license.

(2) The licensee shall see that the explosives to be placed on any vessel, barge or craft so employed are loaded, carried and unloaded with all due diligence and with such precautions and in such manner as will sufficiently guard against any accidental ignition.

14. The licensee shall see—

(a) that no fire, unprotected light or smoking is allowed while any explosive (other than explosives of the 1st Division of the 6th (ammunition) Class) is being

received or delivered, or while the hatches or door of the magazine, or the hatches or coverings of any vessel, barge or craft alongside containing any such explosive, are open; and

- (b) that no receipt or delivery of explosive is carried on, and that the hatches or door of the magazine are or is kept closed, when any vessel, barge or craft having on board a fire (other than engine-fires properly banked up) or an unprotected light is alongside a magazine containing an explosive other than explosives of the 1st Division of the 6th (ammunition) Class or in its immediate vicinity.

15. A person under the age of fourteen years shall not be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person.

16. In the case of the magazine being approachable at low water by carriages, the words "vessel, barge, or craft," in Nos. 13 and 14 of these conditions, shall be taken to include a carriage.

17. (1) Two or more descriptions of explosives, which may lawfully be possessed in a licensed magazine, may be possessed in the same magazine, if they are, separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in one compartment from extending to another compartment:

(2) Provided as follows:—

- (a) the various explosives of Classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound) and 4 (chlorate-mixture), safety fuzes belonging to the 1st Division of the 6th (ammunition) Class, and such of the various explosives of the 2nd Division of the 6th (ammunition) Class, as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space;
- (b) the various explosives of the 1st Division of the 6th (ammunition) Class may be kept with each other without any intervening partition or space;
- (c) such of the various explosives of the 2nd Division of the 6th (ammunition) Class as contain any exposed iron or steel, may be kept with each other without any intervening partition or space;
- (d) the various explosives of the 3rd Division of the 6th (ammunition) Class may be kept with each other without any intervening partition or space;
- (e) the various explosives of the 7th (firework) Class may be kept with each other without any intervening partition of space.

(3) Save as aforesaid, two or more descriptions of explosives shall not be kept in the same magazine.

SCHEDULE IV.

REGULATIONS FOR PACKAGE OF EXPLOSIVES.

[See rule 63.]

Class	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
Class 1	When the quantity in any one consignment does not exceed 5 lbs. in amount, a single outer package; otherwise. A double package, the inner and outer packages being as defined in rule 62.	100 lbs. Provided that where gunpowder and propellant are packed together the amount shall not exceed— 50 lbs.	100 lbs. 25 lbs. 50 lbs.
Class 2	As for Class 1	50 lbs.	50 lbs.
Class 3, Division 1, other than propellants.	As for Class 1, provided that either the outer or inner package shall be thoroughly waterproof, and both shall be without metal in the construction thereof.	50 lbs.	50 lbs.
Class 3, Division 1, propellants.	As for Class 1	50 lbs.	50 lbs.
Class 3, Division 2, other than Picric Acid and Wet Gun-cotton.	As for Class 1	50 lbs.	50 lbs.
Picric Acid	As for Class 1	Unlimited.	Unlimited.
Gun-cotton so wetted with water as to be absolutely unflammable.	As for Class 1, provided that the inner or outer package, or both of them, shall be of such a nature, and so closed, as to prevent any material loss of moisture during conveyance.	Unlimited.	Unlimited.
Class 4, Division 1	As for Class 3, Division 1, other than propellants	50 lbs.	50 lbs.
Class 4, Division 2	As for Class 1	50 lbs.	50 lbs.
Class 5	Packed in water. A treble package, the innermost package being a bag permeable to water, enclosed in a case containing sufficient water to ensure the explosive being kept constantly wet; and the outer package containing sufficient water constantly to surround the case. Both the case and the outer package shall be of such construction as will not allow water to escape. If the explosive is of such character that it cannot be packed in a thoroughly wet condition, it shall be packed in accordance with conditions prescribed by the Chief Inspector of Explosives.	200 lbs.	25 lbs.
Class 6, Division 1, other than Pin-fire cartridges for pistols.	A single outer package: Provided that clause (2) of rule 62 shall not apply to explosives of this Division: Provided also that bulletted cartridges of a calibre exceeding 0.5 inch and belonging to this Division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge.	Unlimited.	
Pin-fire cartridges for pistols.	(a) Not exceeding 50 in number in any one consignment:—So packed in a single package that the bases lie alternately in opposite directions. The bases and pins shall be so fitted into perforations in millboard or other suitable material as to prevent the firing of any one of the said cartridges by an explosion in any other of the said cartridges. (b) Exceeding 50 in number:—In an inner and outer package, the cartridges being	50 in number.	50 in number.

Class.	Method of packing.	Amount in any one outer package.	Amount in any one inner package.
Class 6, Division 2	Explosives made up into cartridges or charges for cannon, shells, torpedoes, mines, blasting or other like purposes shall be packed in such manner and in such quantity as is required for the same explosive when not so made up provided that, where a double package is required, the enclosing case of such cartridges or charges may, if it satisfies the conditions required for an inner package, be held to be such inner package.
	Other ammunition of this Division:—A single outer package	100 lbs.
Class 6, Division 3, other than Detonators and Electric Detonators.	As for Class 1	50 lbs.	2 lbs. or 10 in number, whichever be the greater.
	Provided that bulletted cartridges of a calibre exceeding 0.5 inch and belonging to this Division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge.		
Detonators	(a) Not exceeding 1,000 in any one consignment:—As for Class 1, provided that the detonators and the spaces between the same and between the sides of the inner package and the said detonators shall all be filled, as far as practicable, with fine sawdust or other similar material; a layer of felt or other soft yielding material shall be placed between both ends of all the detonators and the interior of the inner package in which the same are placed, in such manner and so secured, that both ends of the detonators will rest upon the said cotton wool or other material: every inner package, if of metal, to be lined throughout with paper or other soft material; and	1,000 in number	100 in number.
	(b) Exceeding 1,000 detonators:— The detonators shall be packed in inner packages, with sawdust and cotton wool as above described. Such inner packages shall be placed inside a substantial case of wood or metal, made and closed so as to prevent any of the inner packages escaping therefrom, and such case shall be placed inside an outer package in such manner and so secured as to leave a clear space of not less than three inches between the case and every part of the interior of the said outer package, notwithstanding that such clear space may, if preferred, be filled with sawdust, straw, or other similar material, or may contain a light framework or battens of wood to keep the case aforesaid in position in the outer package; and	10,000 in number	100 in number.
	(c) where the number of detonators exceeds 5,000, such outer package shall be provided with handles or other contrivance, by means of which it can be safely and conveniently carried.		
Electric Detonators	As for Class 1, provided that where the number in any outer package exceeds 3,000, such outer package shall be provided with handles or other contrivance, by means of which it can be safely and conveniently carried.	5,000 in number	100 in number.
Class 7, Division 1	Double package, the inner package being hermetically closed and contained in an outer package as above defined.	20 lbs.	1 lb.
Class 7, Division 2	Single outer package provided that clause (2) of rule 62 shall not apply to explosives of this Class and Division.	100 lbs.

TABLE SHOWING DISTANCES WHICH SHOULD

[See

In any case where any of the items enumerated in the first column of this Table is, in the opinion of an Inspector of artificial mounds of earth or mine refuse, of such height that a line drawn from any part of the magazine to any part of quantities of one thousand pounds of explosives and under) will be reduced one-half: Provided that when a natural hill adjoins the magazine, the distance shown in the Table will be reduced to one-quarter.

B—The figures in small italics are the distances to be observed when ordinary gunpowder only is to be stored or other explosives up to the

NOTE.—(a) This table furnishes the basis on which applications for licences will be considered. (b) This rule applies to two or more magazines kept on the same premises—
 (1) belonging to the same occupier, or
 (2) so kept by mutual consent of the respective occupiers.
 (c) Detonators may be kept in an annexe near to or adjoining a magazine under the following conditions—
 (1) The amount of explosive contained in the detonators must not exceed 100 lbs. (2) The detonators must be kept in a separate box or boxes. (3) The detonator annexe must be constructed that not less than two feet of masonry wall must be between the detonator annexe and the magazine.

ORDINARILY BE KEPT CLEAR ROUND MAGAZINES.

rule 35.]

Explosives, effectively screened from a magazine either by the natural features of the ground or by good and substantial the item in question will pass through the intervening ground or mound, the distance from that item (except for so interference as to afford a degree of protection which, in the opinion of an Inspector of Explosives, justifies a further

equivalent of five thousand pounds of gun powder, every half pound of such other explosive being reckoned as one pound of gun powder.

CHIEF COMMISSIONER, DELHI.

NOTIFICATIONS.

Delhi, the 13th November 1919.

No. 6864-Home.—Lala Sat Narain was appointed and assumed charge of the duties of Deputy Superintendent of Police, Delhi, with effect from the 31st October 1919, relieving Khan Bahadur Sheikh Abdulla.

No. 6875-Education.—In accordance with the provisions of section 242 (1), clause (d) and (e) of the Punjab Municipal Act III of 1911 the Chief Commissioner is pleased to appoint the following persons to be the President and Members of the Notified Area Committee, Narela in the Delhi Province, for a period of two years.

President.

Secretary, District Board, Delhi,

Members:

1. Chaudhri Abhe Ram, son of Mohan Lal.
2. L. Ramsaran Das, son of Harchandrai,

The 14th November 1919.

No. 6893-Home.—The following return of births and deaths at the undermentioned Municipal towns in the Province of Delhi for the week ending 8th November 1919 is published for information :—

No. 6899-Home.—In exercise of the powers conferred by section 12, sub-section (1), of the Indian Press Act, 1910 (I of 1910), the Chief Commissioner of Delhi, declared to be forfeited to His Majesty all copies, wherever found, of a leaflet printed in English entitled "Message of Salvation" and headed "Allah-o-Akbar" beginning with the words "Seventy millions of Mussalmans of India" and ending with the words "By order: President, Central Revolution Committee," and all copies of all other documents containing the matter of the said leaflet on the ground that the said leaflet contains exhortations to rebel against the British Government and to commit murder, and appears to the Chief Commissioner to contain words which have a tendency to incite to acts of violence and are of the nature described in section 4, sub-section (1), clauses (a) and (c), of the said act.

The 15th November 1919.

No. 6933-Education.—Under the provisions of section 242 (1) (c) of Act III of 1911, the Punjab Municipal Act, the Chief Commissioner is pleased to appoint Mr. J. L. Sale as a Member and Secretary of the Imperial Delhi Municipality, Raisina, with effect from the afternoon of the 8th November 1919, *vice* Mr. T. Harvey, proceeding on leave.

The 17th November 1919.

No. 6955-Home.—In exercise of the powers conferred by section 10, sub-section (2) of the Code of Criminal Procedure, 1898 (V of 1898), the Chief Commissioner of Delhi is pleased to appoint Mr. H. L. H. Shuttleworth, Assistant Commissioner, to be a Magistrate of the 1st Class and to be an Additional District Magistrate in the Delhi District for a period of six months with effect from the forenoon of the 4th November 1919, or till further orders.

No. 6956-Home.—Mr. H. L. H. Shuttleworth, Additional District Magistrate, Delhi, is hereby invested under section 80 of the Code of Criminal Procedure, 1898 (V of 1898), with power to try as a Magistrate all offences not punishable with death.

No. 6957-Home.—Mr. H. L. H. Shuttleworth, Additional District Magistrate, Delhi, is hereby invested with power to try summarily in the Delhi District the offences specified in section 260 of the Code of Criminal Procedure, 1898 (V of 1898).

No. 6958-Home.—In exercise of the powers conferred by section 105, sub-section (1), clause (a), of the Punjab Tenancy Act, 1887 (XVI of 1887), the Chief Commissioner is pleased to confer on Mr. H. L. H. Shuttleworth, I.C.S., Additional District Magistrate, Delhi, the powers of a Collector under the said Act.

No. 6959-Home.—In exercise of the powers conferred by section 27, sub-section (1), clause (a), of the Punjab Land Revenue Act, 1887 (XVII of 1887), the Chief Commissioner is pleased to confer on Mr. H. L. H. Shuttleworth, I.C.S., Additional District Magistrate, Delhi, the powers of a Collector under the said Act.

No. 6960-Home.—Under the provisions of section 14 of the North West Provinces and Oudh Land Revenue Act (III of 1901), the Chief Commissioner is pleased to appoint and hereby directs that Mr. H. L. H. Shuttleworth, I.C.S., Additional District Magistrate, Delhi, shall be the Collector of the District and shall exercise all the powers conferred on a Collector by the said Act in respect to the territory added to the Delhi Province under the Delhi Laws Act, 1915 (VII of 1915), and specified in Schedule I thereto attached.

No. 6961-Home.—Under the provisions of sections 1 and 8 of Act IX of 1860, Mr. H. L. H. Shuttleworth, I.C.S., Additional District Magistrate, Delhi, is invested with the powers of a Magistrate under the said Act, such powers to be exercised within the local limits of Delhi District.

No. 6962-Home.—Under the provisions of section 22 of the Code of Criminal Procedure, 1898 (V of 1898), the Chief Commissioner is pleased to appoint Mr. H. L. H. Shuttleworth, I. C. S., Additional District Magistrate, Delhi, to be a Justice of the Peace within and for the Province of Delhi.

No. 6974-Home.—Major A. D. Stewart, I.M.S., Deputy Sanitary Commissioner, New Capital, Delhi, assumed charge of the duties of Health Officer, Notified Area, Delhi, with effect from the forenoon of the 12th November 1919, relieving Dr. K. S. Sethna, Health Officer, Municipal Committee, Delhi, of the additional charge.

The 10th November 1919.

No. 7001-Home.—In exercise of the powers conferred by section 12 sub-section (1), of the Indian Press Act (I of 1910), the Chief Commissioner of Delhi is pleased to declare to be forfeited to His Majesty all copies, wherever found, of a leaflet entitled "The Tragedy of India" commencing with the words "To the people of the U. S. A." and ending with the words "Published by the Hindustan Gardar Party," published at San Francisco by one Edward Gammons, and all extracts from and reproductions of the same, and all documents containing some or all of the subject matter of the said leaflet, inasmuch as the said leaflet contains words which have a tendency to bring into hatred and contempt the Government established by law in British India, and are therefore of the nature described in section 4, sub-section (1), clause (c), of the Act.

C. A. BARRON,
Chief Commissioner, Delhi.

MILITARY ACCOUNTS DEPARTMENT.

NOTIFICATIONS.

SUPPLEMENT TO
The Gazette of India.

No. 47.} CALCUTTA, SATURDAY, NOVEMBER 22, 1919.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

IMPORTS INTO CHIEF PORTS DURING SEPTEMBER, 1919

RETURN SHOWING the QUANTITIES of the PRINCIPAL STAPLES OF AGRICULTURAL PRODUCE IMPORTED into CALCUTTA, BOMBAY, KARACHI, and MADRAS PORTS by RAIL, RIVER, and SEA during the month of SEPTEMBER, 1919

DEPARTMENT OF STATISTICS, INDIA

November 21, 1919

G. FINDLAY SHIRRAS,

Director of Statistics.

Published by order of the Governor-General in Council.

DEPARTMENT OF STATISTICS, INDIA.

TRADE FLUCTUATIONS IN SELECTED ARTICLES IN SEPTEMBER, 1919.

The object of the tables appended is to show the quantities of the principal staples of agricultural produce imported from the various provinces and Indian States and from foreign countries into the ports of Calcutta, Bombay, and Karachi, and into the Madras ports during the month of September, 1919, and for the six months, April to September, 1919, as compared with the corresponding periods of 1918. The statistics include foreign sea-borne and coasting trade as well as inland (rail and river-borne) trade. They have been furnished by Collectors of Customs, Steamer Companies, Railway Audit Officers, and the Commissioners for the Port of Calcutta.

TRADE FLUCTUATIONS IN SEPTEMBER, 1918 AND 1919.

It will be seen from Table I that the imports by rail, river, and sea in September, 1919, as against the corresponding month of 1918, show (in round numbers) a decrease of—

- 82 per cent in linseed
(5,300 tons as against 28,900 tons last year),
- 77 per cent in gram and pulse
(19,500 tons as against 85,300 tons last year),
- 61 per cent in rape and mustard seed
(5,900 tons as against 15,300 tons last year),
- 41 per cent in tea
(17,771,900 lbs as against 30,104,800 lbs last year),
- 39 per cent in wheat (excluding wheat flour)
(34,400 tons as against 56,700 tons last year), and
- 15 per cent in raw cotton
(58,600 bales as against 69,200 bales last year).

The imports of rice (including paddy) by rail, river, and sea into ports show an increase of 102 per cent (189,900 tons as against 94,100 tons last year), due mainly to larger shipments from Burma. The increase of 49 per cent (568,900 bales as against 380,900 bales last year) in the imports of jute is accounted for by larger exports from Bengal, Bihar and Orissa, and Assam.

It will be seen from Table IV (wheat, excluding wheat flour) that during September, 1918, the principal sources of the imports were the Punjab (43 per cent) and the United Provinces (33 per cent of the total). During September, 1919, the ports received their supplies mainly from the Punjab (44 per cent), Foreign Countries (31 per cent) and the United Provinces (21 per cent of the total). Table XI shows the *exports* from India by sea of wheat (including wheat flour) during each month of the six official years, 1913-14 to 1918-19, and from April to September, 1919.

NOTE.—(1) One bale of cotton or jute is equivalent to 400 lbs.
(2) One maund is equivalent to 82½ lbs.
(3) One maund of paddy is taken as equivalent to 25 seers of rice.

GENERAL RESULTS—SIX MONTHS' IMPORTS INTO THE PORTS BY RAIL, RIVER,
AND SEA THIS YEAR AND LAST YEAR.

The six months' figures in table I show (in round numbers) a decrease of—

- 58 per cent in wheat (excluding wheat flour)
(291,900 tons as against 699,200 tons last year),
- 58 per cent in gram and pulse
(227,600 tons as against 545,400 tons last year),
- 14 per cent in tea
(111,677,700 lbs as against 129,148,100 lbs last year),
- 10 per cent in jute
(2,110,000 bales as against 2,335,300 bales last year), and
- 1 per cent in rape and mustard seed
(69,200 tons as against 70,000 tons last year).

The imports of rice (including paddy) by rail, river, and sea into ports show an increase of 60 per cent (800,700 tons as against 500,500 tons last year) mainly on account of larger shipments from Burma. The increase of 19 per cent (179,400 tons as against 150,400 tons last year) in linseed is accounted for by larger exports into the ports chiefly from Bihar and Orissa, Rajputana and Central India and Nizam's Territory. There was an increase of 5 per cent (1,403,200 bales as against 1,332,000 bales last year) in the imports of raw cotton in spite of smaller exports from Bombay, Madras and non-British ports in India, due mainly to larger exports from the Central Provinces, Sind and British Baluchistan, Nizam's Territory, Punjab, and Rajputana and Central India.

TRADE FLUCTUATIONS IN SEPTEMBER, 1919, AS COMPARED WITH THE PREVIOUS MONTH.

As compared with August, 1919, the imports in September, 1919, into the ports referred to above show (in round numbers) a decrease of—

- 80 per cent in linseed
(5,300 tons as against 26,400 tons previous month),
- 65 per cent in raw cotton
(58,600 bales as against 166,800 bales previous month),
- 42 per cent in gram and pulse
(19,500 tons as against 33,500 tons previous month),
- 40 per cent in tea
(17,771,900 lbs as against 29,496,800 lbs previous month)
- 40 per cent in rape and mustard seed
(5,900 tons as against 9,800 tons previous month), and
- 7 per cent in wheat (excluding wheat flour)
(34,400 tons as against 36,900 tons previous month),

and an increase of—

- 81 per cent in rice, including paddy
(189,900 tons as against 104,700 tons previous month), and
- 64 per cent in jute
(568,900 bales as against 347,500 bales previous month)

The statistics for September, 1918 and 1919, as also for the six months ending September, 1918 and 1919, together with those for August and September 1919, are summarised below :—

SUMMARY TABLE I.

	lbs	lbs	
Tea	29,496,803	17,771,917	-40

The annexed charts show the course of the monthly imports of wheat, cotton, and jute from April, 1916, to September, 1919 :—

**IMPORTS BY RAIL, RIVER, AND SEA OF WHEAT, COTTON, AND JUTE
FROM APRIL, 1916, TO SEPTEMBER, 1919.**

WHEAT
Imported into Calcutta, City of Bombay, and Karachi

COTTON (RAW)

Imported into Calcutta, City of Bombay, Karachi, and Madras ports

JUTE (RAW)

Imported into Calcutta

NOTE.—The numerical figure at the end of each vertical line represents the month beginning from January

PRESS NOTE.

The level of Prices in Indian Ports at the end of September, 1919.

This memorandum brings up to September, 1919, the main statistics published in July last. It deals with (1) wholesale prices and (2) retail prices at the chief ports.

I.—WHOLESALE PRICES.

The general level of wholesale prices (all articles) in the five chief ports at the end of September, 1919, although 100 per cent above the level immediately before the outbreak of war (July, 1914), indicated a fall of 17 per cent as compared with a year ago (September, 1918), and of 4 per cent as compared with the preceding month (August, 1919), as will be seen from the following table.

General index number of wholesale prices.
(All Articles)

Port	No. of articles	AT THE END OF					
		July, 1914 (Pre-war level)	August, 1917	August, 1918	September, 1918	August, 1919	September, 1919
Madras .	27	100	188	203	302	243	230
Bombay .	43	100	179	260	263	220	208
Calcutta .	75	100	142	190	197	204	200
Karachi .	29	100	175	250	258	201	193
Rangoon .	41	100	133	175	181	172	170
AVERAGE (UNWEIGHTED)	...	100	163	234	240	208	200

As compared with the pre-war level, the rise at the end of September, 1919, was 130 per cent in Madras, 108 per cent in Bombay, 100 per cent in Calcutta, 93 per cent in Karachi, and 70 per cent in Rangoon. Compared with the level of August, 1918, prices in September, 1919, fell by 23 per cent in Karachi, 22 per cent in Madras, 20 per cent in Bombay, and 3 per cent in Rangoon. There was, however, a rise of 5 per cent in Calcutta. It should be borne in mind that the articles in the general index number of each port are the staples of that port and the index number so selected is not made up of the same commodities in all ports.

If food grains (cereals and pulses) alone are taken into account, the index numbers are as follows :—

Index Number of wholesale prices of food grains.

Port	AT THE END OF					
	July, 1914 (Pre-war level)	August, 1917	August, 1918	September, 1918	August, 1919	September, 1919
Calcutta . . .	100	92	119	134	170	177
Bombay . . .	100	100	171	186	176	174
Madras . . .	100	93	119	128	174	174
Karachi . . .	100	103	139	157	167	151
Rangoon . . .	100	118	108	139	154	147
AVERAGE (UNWEIGHTED)	100	101	132	149	170	165

It will be seen that the average price of food grains at the end of September, 1919, fell by 3 per cent as compared with the preceding month, although it showed an increase of 11 per cent, as compared with the corresponding period of the preceding year, and of 65 per cent as compared with the level at the outbreak of war.

The fluctuations in the wholesale prices of the principal articles of trade in each port are stated in Appendix A.

II.—RETAIL PRICES.

Retail prices in the chief ports in India, including articles of food, fuel, and lighting, showed at the end of September, 1919, a fall of 1 per cent as compared with the preceding month, but an increase of 70 per cent as compared with July, 1914 (the pre-war level), and of 14 per cent as compared with the corresponding date of the preceding year (September, 1918). Prices rose by 21 per cent over the level of August, 1918 (i.e., the end of the fourth year of war).

The rise in retail prices in the five ports was greatest in Bombay and least in Rangoon.

Index numbers of retail prices are stated below.

General average of retail prices.

Port	AT THE END OF					
	July, 1914 (Pre-war level)	August, 1917	August, 1918	September, 1918	August, 1919	September, 1919
Bombay . . .	100	120	151	166	194	190
Madras . . .	100	111	131	147*	173	178
Karachi . . .	100	123	148	148	180	173
Calcutta . . .	100	120	128	135	153	156
Rangoon . . .	100	110	148	151	159	154
AVERAGE (UNWEIGHTED)	100	117	141	149	172	170

* Related to December 1918.

FOOD PRICES.

If the retail prices of articles of food only are taken into account, the average for all the ports at the end of September, 1919, showed a fall of about 2 per cent, as compared with the preceding month, but it indicated a rise of 68 per cent above the level of prices which ruled immediately before the outbreak of war, and 17 per cent as compared with a year ago, as will be seen from the following table.

Index Number of retail food prices.

Port	AT THE END OF					
	July, 1914 (Pre-war level)	August, 1917	August, 1918	September, 1918	August, 1919	September, 1919
Bombay	100	119	148	161	197	193
Madras	100	111	128	145*	174	179
Karachi	100	121	143	143	181	173
Calcutta	100	119	124	131	151	154
Rangoon	100	102	124	132	149	142
AVERAGE (UNWEIGHTED)	100	114	133	143	170	168

* Relates to December 1918.

The rise in the price of food articles was greatest in Bombay and least in Rangoon. Compared with the pre-war level, the rise in September, 1919, was 93 per cent in Bombay, 79 per cent in Madras, 73 per cent in Karachi, 54 per cent in Calcutta, and 42 per cent in Rangoon.

It should be noted that these general index numbers are unweighted, *i.e.*, the articles have been given an equal importance in the general average. Food grains, however, have been indirectly weighted by more than one grade of an important article of consumption being included in the index numbers.

The fluctuations in the retail prices of the principal articles of consumption in each port are shown in Appendix B.

PRICES IN FOREIGN COUNTRIES.

It is interesting to compare the rise in the prices of the articles of food in India with that in foreign countries since the pre-war period. The following statistics show the latest available information on the subject in respect of certain foreign countries :—

Countries.	Percentage rise since July, 1914.
Belgium (Brussels)	267 (July 1919)
Sweden	209 (September 1919)
Vienna	173 (August 1917)
Norway	171 (May 1919)
France (Paris)	159 (September 1919)
Portugal (Lisbon)	151 (May 1918)
Switzerland (since June, 1914)	150 (June 1919)
United Kingdom	122 (1st October 1919)
Denmark	112 (July 1919)
Berlin	111 (November 1916)
Holland (Amsterdam)	108 (August 1919)
Italy (Rome)	107 (" ")
Canada	94 (" ")
United States	88 (" ")
Spain	57 (March ")
Australia (Commonwealth)	48 (August ")
New Zealand	48 (September 1919)
South Africa	36 (June 1919)
India (unweighted)	68 (End of September 1919)
Calcutta	54
Bombay	93
Madras	79
Karachi	73
Rangoon	42
	Ditto.

As compared with other countries in this list, India's price rise has not been altogether exceptional especially when compared with those countries near to the scene of action in Western Europe.

G. FINDLAY SHIRRAS,
Director of Statistics

DEPARTMENT OF STATISTICS, INDIA,
1, COUNCIL HOUSE STREET, CALCUTTA,
The 15th November 1919.

APPENDIX A.

Index Numbers of Wholesale Prices in Calcutta, Bombay, Karachi, Madras, and Rangoon at the end of September, 1919, as compared with those at the end of August 1918, September 1918, and August 1919.

No. 4904-I. B.—In exercise of the powers conferred by section 4 of the Local Authorities Loans Act, 1914 (IX of 1914), as applied to Berar, the Governor General in Council is pleased to direct that the following amendment shall be made in the Berar Local Authorities Loans Rules, 1917, namely :—

After Rule 8 of the said rules the following rule shall be inserted, namely :—

“ 8-A.—Where a local authority in its application desires the immediate grant, or sanction to the raising, of a loan on the ground that funds are urgently needed for any of the purposes mentioned in clauses (ii), (iii) or (iv) of sub-section (1) of section 3 of the Act, the Local Government, if otherwise so empowered and if it is satisfied that the loan is urgently needed for any such purpose, may, notwithstanding any thing contained in rules 5, 7 and 8, after such enquiry, if any, as it thinks fit to make, grant, or sanction the raising of, such loan at any time after the receipt of the application.”

No. 4910-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all other powers enabling him in that behalf, the Governor General in Council is pleased to direct that the following amendments shall be made in the Schedule to the notification of the Government of India in the Foreign Department, No. 162-I. B., dated the 28th January 1913, applying certain enactments to the Cantonment of Baroda, namely :—

1. Entry No. 15, relating to the Indian Income-tax Act, 1886 (II of 1886), shall be cancelled.

2. After entry No. 36, the following shall be added, namely :—

36-A. The Indian Income-tax Act, 1918 (VII of 1918).

Only so much of the Act shall apply as relates to the assessment and collection of income-tax on salaries received by persons who are in the service of, and paid by or on behalf of, Government or a local authority established in the exercise of the powers of the Governor General in Council.

R. E. HOLLAND,
Secretary to the Government of India.

ACCOUNTS AND FINANCE.**MINT.***The 22nd November 1919.*

No. 2976-F.—In pursuance of sub-section 2 of section 3 of the Gold (Import) Act, 1917, the Governor General in Council is pleased to prescribe the following rates at which payment shall be made for gold taken possession of under the provisions of the said Act:—

Class of gold.	Rate.
(1) Gold coins coined at His Majesty's Royal Mint in England or at any mint established in pursuance of a Proclamation of His Majesty as a branch of His Majesty's Royal Mint. Provided that such coins have not been called in by any Proclamation made in pursuance of the Coinage Act, 1870, or have not lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the said statute as the least current weight.	Rs. 11-2-0 per sovereign.
(2) All other gold not included in entry No. 1	Rs. 1 for every 10·632 grains troy of fine gold.

2. The notification by the Government of India in the Finance Department, No. 2918-F., dated the 13th November 1919, is hereby cancelled.

(Note 1.—Gold shipped to India on a through bill of lading before the 22nd November 1919 will be paid for at the rates hitherto in force.)

Note 2.—When firms or institutions have arranged to import gold into India and wish to avoid risks from possible variations in the acquisition rate before it is delivered to the Government of India, the Controller of Currency or, in the case of gold delivered at Bombay, the Accountant General, Bombay, will be prepared to contract on behalf of the Government of India to pay for the gold on delivery at the acquisition rate prevailing at the time the gold was purchased for shipment. Firms or institutions wishing to take advantage of this arrangement must declare the fact and date of purchase to the above officers without delay and as soon as they have received intimation thereof. The officer making the contract will take such undertaking as he thinks fit from the firm or institution to ship and deliver gold with all possible expedition for payment at the rate stated.

The India Office is prepared to make a similar arrangement with firms and institutions who find it more convenient to submit in London evidence of their having engaged gold for shipment to India.)

ACCOUNTS AND FINANCE.**PUBLIC DEBT.***The 27th November 1919.*

No. 3017-F.—In modification of the Notifications in the Finance Department No. 2346-F., dated the 11th September 1919 and No. 2684-F., dated the 16th October 1919, it is notified for public information that the rates for Treasury Bills with effect from Friday the 28th November 1919 and until further notice will be as follows:—

For three months' Bills	Rupees ninety-nine, annas $\frac{11}{2}$ per cent.
For six months' Bills	Rupees ninety-seven, annas eight per cent.
For nine months' Bills	Rupees ninety-six, annas four per cent.
For twelve months' Bills	Rupees ninety-five, annas $\frac{11}{2}$ per cent.

LEAVE AND APPOINTMENTS.*The 25th November 1919.*

H. F. HOWARD,*Secretary to the Government of India.*

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

CUSTOMS—WAR.

Delhi, the 29th November 1919.

No. 367-D.—The following Board of Trade list, dated the 24th October 1919, on the subject of prohibitions of export from the United Kingdom, is published for general information :—

BOARD OF TRADE,
EXPORT LICENCE DEPARTMENT,
1, QUEEN ANNE'S GATE BUILDINGS,
WESTMINSTER, S. W.-1.

LIST OF EXPORT PROHIBITED GOODS, &c., 24th OCTOBER 1919.

This list cancels all similar lists and supplements issued by the Export Licence Department prior to the above date.

	PAGE.
List A and B	2266—69
List C	2269—70
List D and E	2270—71
Open General Licences for Exports :	
APPENDIX No. 1	2271—72
General Information with regard to Export Regulations to certain Countries in Europe and on the Mediterranean	2272—76
Trade with Germany and Austria-Hungary	2276—77
Transshipment in the United Kingdom	2278

This consolidated "List of Export Prohibited Goods" is amended and issued fortnightly. Exporters who desire to have copies of each list posted to them during the current year can do so on payment of a registration fee of 2s. 6d. for one copy of each issue. Should more than one copy of each issue be required an additional payment should be made at the rate of 1d. per copy for each month up to the end of the current year.

Exporters who desire to have their names placed on the register should make application to the Stationery Clerk, Export Licence Department, enclosing Money Orders payable to the Export Licence Department, Board of Trade.

IMPORTANT NOTICE.

Application Form A for Licence to Export.

The Export Licence Department, having regard to the circumstances now existing, and subject to any further notification which it may hereafter become necessary to make, notifies Exporters that answers need only be given to the undermentioned questions which are set forth in the above-mentioned form of application.

- (a) Full name and address of Consignor.
- (b) Name and address of person or company to whom the licence is to be sent.
- (c)—1. Proposed date of despatch of goods.
2. Port of intended shipment in this country or post office of despatch.
- (d) Prospective port and country to which the goods are to be exported.
- (e) Route by which the goods are to be forwarded to ultimate destination.
- (f) Full name and address of consignee abroad.
- (g) State whether previous application has been made for all or part of the consignment, &c.

- (f) Full description of goods—quantity, weight, value, number and description of packages and the shipping marks.
- (g) Any special reasons in support of your request for a licence to export these goods.

Instructions Nos. 1, 6, 7, 9 and 12 on page 4 of Application Form A are now cancelled.

P. S.—Should it be desired that in any exceptional case an answer should be given to any questions set forth in the Application Form but not appearing above, a notification will be addressed to the applicant concerned after the receipt of the relative application.

Application Form B for General Licences.

The use of Application Form B for making application for licence to export goods in several consignments over a certain period is no longer necessary. Form A can now be used when making application for either specific or general licence provided that if a general licence is required a statement to that effect is endorsed on the Application Form A.

Applications for licences and all correspondence should be addressed to:—

**The Controller, Export Licence Department,
1, Queen Anne's Gate Buildings,
Westminster, S. W.-1.**

List A and B.

List of goods the export of which is prohibited by the Royal Proclamation of the 10th May, 1917, as amended by Orders of Council of the 22nd June, 1917, the 13th July, 1917, the 14th August, 1917, the 28th August, 1917, the 18th October, 1917, the 27th November, 1917, the 18th December, 1917, the 22nd January, 1918, the 8th February, 1918, the 26th February, 1918, the 8th March, 1918, the 12th April, 1918, the 25th April, 1918, the 14th May, 1918, the 11th June, 1918, the 2nd July, 1918, the 30th July, 1918, the 6th August, 1918, the 27th August, 1918, the 1st October, 1918, the 15th October, 1918, the 19th November, 1918, the 29th November, 1918, the 6th December, 1918, the 13th December, 1918, the 20th December, 1918, the 24th December, 1918, the 27th December, 1918, the 3rd January, 1919, the 7th January, 1919, the 10th January, 1919, the 17th January, 1919, the 24th January, 1919, the 31st January, 1919, the 7th February, 1919, the 14th February, 1919, the 21st February, 1919, the 28th February, 1919, the 7th March, 1919, the 14th March, 1919, the 21st March, 1919, the 28th March, 1919, the 4th April, 1919, the 11th April, 1919, the 15th April, 1919, the 25th April, 1919, the 2nd May, 1919, the 9th May, 1919, the 16th May, 1919, the 30th May, 1919, the 20th June, 1919, and the 8th July, 1919, to be exported from the United Kingdom to the following destinations, viz:—

List A and B.—Goods marked (A) to All Destinations.

- Whale cake, *see* Cakes and Meals.
- (A) Whale fins; (1-5-17).
- (A) Wheat, wheat flour and wheat meal, and all articles, mixtures and preparations containing wheat, wheat flour, or wheat meal.
- (A) Whisky.
- Wool and Woollen Goods:—**
- (A) Wool, raw, and mixtures thereof; (8-9-16) (18-10-17).
- (*See also* Appendix No. 1 for camel hair, cashmere, alpaca and mohair.)
- (A) Wool tops and mixtures thereof; (18-10-17).
- (A) Wool noils and wool waste and mixtures thereof; (18-10-17).
- (A) Woollen and worsted yarn and mixtures thereof; (18-10-17).
- Yarns, *see* Wool.
- (A) Yeast; (8-9-16) (22-6-17) (28-2-19).

LIST C.

By Order of Council dated 1st October, 1918, as amended by Order of Council of the 24th December, 1918, the 7th January, 1919, the 7th February, 1919, the 11th February, 1919, the 28th February, 1919,

the 11th April, 1919, the 29th April, 1919, and the 16th May, 1919, **ALL GOODS** (other than (1) printed matter and (2) personal effects accompanied by their owners) are prohibited from export to All Destinations in European Russia (except Russian ports on the Black Sea) and in other Foreign Countries in Europe and on the Mediterranean, except France and French Possessions, Italy and Italian Possessions, Belgium, Portugal, Greece, Serbia, Roumania, Iceland and the Farøe Islands, Spain, Morocco, Palestine and Syria as far north as a line from Alexandretta to Aleppo inclusive, and as far east as the Hedjaz railway inclusive, Czecho-Slovakia, Alsace-Lorraine, Luxembourg and the portions of Austria, Hungary in the occupation of the Armies of the Associated Governments, Occupied Rhineland territory, and to all Ports in any such Foreign Countries.

LIST C comprises **ALL GOODS** not included in List A or B, excepting the following goods, which may be exported without licence :—

- (1) Printed matter ;
- (2) Personal effects accompanied by their owners.

In addition to the above countries, trading is permitted with the following countries, to which List C goods may be exported without licence (*see*, however, Lists D and E, below) :—

Turkey, Bulgaria, Russian Black Sea ports, Austria, Hungary, Jugo-Slavia, Montenegro, Albania, Bosnia, Herzegovina, Dalmatia, and Arabia.

Goods on List C may also be exported to the following countries without licence (*see* page 2272):—

Denmark, Holland, Norway, Sweden, Switzerland, Esthonia, Finland, Germany, Lettland, Lithuania, and Poland.

LIST D.

By Order of Council dated 21st March, 1919, as amended by order of Council of the 11th April, 1919, the 15th April, 1919, and the 9th May, 1919, the following goods on list D* are prohibited from export to Turkey, Bulgaria, Ports on the Black Sea (not including Roumanian Ports), Austria, Hungary, Jugo-Slavia, Montenegro, Albania, Bosnia, Herzegovina, Dalmatia, and Arabia.

Aircraft of all kinds, including aeroplanes, airships, balloons and their component parts, together with accessories and articles suitable for use in connection with aircraft.

Apparatus which can be used for the storage or projection of compressed or liquefied gases, flame, acids or other destructive agents capable of use in warlike operations and their component parts.

Armour plates.

Armoured motor-cars.

Arms of all kinds, including arms for sporting purposes and their component parts.

Barbed wire and implements for fixing and cutting same.

Camp equipment, articles of, and their component parts.

Clothing and equipment of a distinctively military character.

Electrical appliances, adapted for use in war, and their component parts.

Explosives specially prepared for use in war.

Field-glasses.

Gases for war purposes.

Guns and machine guns.

Gun mountings.

Limbers, military waggons of all descriptions.

Harness or horse equipment of a military character.

Implements and apparatus designed exclusively for the manufacture of munitions of war or for the manufacture or repair of arms or of war material for use on land or sea.

Mines, submarines and their component parts.

Projectiles, charges, cartridges and grenades of all kinds and their component parts.

Range-finders and their component parts.

Searchlights and their component parts.

Submarine sound signalling apparatus.

Materials for wireless telegraphs.

Torpedoes.

Warships, including boats and their component parts of such a nature that they can only be used on a vessel of war.

* Many goods on the above List are already on List A or B.

LIST E.

In addition to the goods contained in List D, the following goods on List E* are prohibited from export to Bulgaria.

All articles for use in transportation on land.
Saddle or pack animals, vehicles, motor-cars, bicycles, and their component parts.

Locomotives and rolling stock.
Telegraphs and telephones and their component parts, and materials for use therewith.

*Many goods on the above Lists are already on List A or B.

APPENDIX No. 1.**GENERAL LICENCES FOR EXPORTS.**

An Open General Licence has been issued, permitting the exportation of the following goods (without application to the Export Licence Department) to all destinations except those foreign destinations to which goods on list C (see page 2269) are prohibited from export.

Alpaca and noils, waste and yarns thereof.
Beans, imported, other than Soya, Locust or Chinese horse beans.
Bird seed.
Blanc-mange powder.
Cake mixture.
Camel hair, and noils, waste and yarns thereof.
Cashmere, and noils, waste and yarns thereof.
Cement for building and engineering purposes.
Chillies.
Cocoa and milk, coffee and milk, chocolate and milk, sweetened or unsweetened, in tins.
Coffee, the following varieties :—
Pernambuco.
West African.
Liberian.
Rio.
Bahia.
Victorian.
Custard powder.

Dates.
Gloy.
Horseflesh.
Koffio.
Lactol.
Lactogol.
Mango Chutney, tomato chutney, and tomato ketchup.
Marmite.
Minced meat and minced pies.
Mixtures and preparations containing not more than 10 per cent. aniline colour, not otherwise prohibited.
Mohair and noils, waste and yarns thereof.
Paisley flour.
Paint, other than gold paint.
"Phosto" animal food.
Pudding powder.
Puddings.
Vanilla custard.

SAMPLES.

An open general licence has been issued which permits the free export of all *bona-fide* samples of prohibited goods to all non-enemy destinations, and to enemy territory with which trade is now permitted (see page 2269). Samples exported under this licence may be used only for genuine sample purposes, i.e., for obtaining orders from foreign buyers, and may not be sold except with the written consent of the Export Licence Department, but such consent may be dispensed with when it is desired to sell the articles in the country of destination after they have fulfilled their purpose as samples. Exporters will be required to satisfy the Customs Authorities that the goods presented for export under this licence are *bona-fide* samples, and to make a declaration to that effect on the relative shipping documents.

This notice only applies to samples of goods which require licences for export to the particular destination concerned.

In addition, the consent of the Export Licence Department is not required for the sale of samples which, though within this scheme at the actual time they were exported, could be exported outside the scheme at the actual time of the proposed sale.

OPEN GENERAL LICENCE FOR THE EXPORT OF EXPLOSIVES, DOUBLE-BARRELLED GUNS, &c.

An Open General Licence has been issued for the export of cartridges, charges, &c., industrial explosives, double-barrelled guns and sporting rifles, to the destinations given below, to which, therefore, exports may be made subject to the usual Customs formalities without applications for specific licences to the Export Licence Department :—

British Possessions and Protectorates.

French Possessions and Protectorates.

United States of America.

South America.

Africa.

Japan and Korea.

Asiatic Russia.

France, Belgium, Spain, Portugal, Greece, Italy, Serbia, Roumania, Norway, Sweden and Denmark.

The issue of this licence does not relieve exporters from the necessity of obtaining import permits from the country of destination in cases where local regulations render such a course necessary.

OPEN GENERAL LICENCE FOR THE EXPORT OF AIRCRAFT, &c.

An Open General Licence has been issued for the export of the undermentioned goods to all destinations except Russia, Germany, Hungary, Austria, Turkey and Bulgaria. Applications are no longer to be made to the Export Licence Department in respect of the export of these goods to countries other than those mentioned :—"Acroplane engines and their component parts. Aircraft, other than balloons of all kinds, and their component parts, together with accessories and articles suitable for use in connection with aircraft."

GENERAL INFORMATION WITH REGARD TO EXPORT REGULA- TIONS TO CERTAIN COUNTRIES IN EUROPE AND ON THE MEDITERRANEAN, &c.

Albania.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D except as provided in Note (iii), page 2276. Any available route may be adopted at the option of the exporter.

There is no parcel post service at present.

Alsace-Lorraine.

Licences are only required for goods on Lists A and B. Goods may be exported by any available route at the option of the exporter.

There is no parcel post service at present.

Arabia.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in note (iii), page 2276).

See page 2276.

Asia Minor (*see* Turkey).**Austria Hungary.**

Trade is now permitted with all portions of the late Austro-Hungarian Empire.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in note (iii), page 2276).

Goods may be exported *via* any available route.

Parcels will now be accepted by the Post Office for transmission to Austria (States of Upper and Lower Austria, Styria, Carinthia, Salzburg, Northern Tyrol, Vorarlberg and Liechtenstein, Trentino, Istria and Dalmatia).

For the portions of the late Austro-Hungarian Empire now incorporated in Italy, Czechoslovakia, Poland and Jugo-Slavia, *see* notes applicable to those countries.

See also page 2276.

Belgium.

Licences are only required for goods on Lists A and B.

Belgian import licences are required in respect of arms of all kinds, sugar, wheat (grain and flour) and coal.

Bulgaria.

Licences are required for goods on Lists A, B, D and E. Licences will not, as a rule, be granted for goods on Lists D and E except as provided in Note (v).

Any available route may be adopted at the option of the exporter.

Czechoslovakia (*including any portions of Silesia and Galicia allotted to Czechoslovakia*).

This territory consists, broadly speaking, of the former Austrian provinces of Bohemia and Moravia, and the northern part of Hungary-Slovakia.

Licences are only required for goods on Lists A and B.

Goods may be exported *via* Hamburg and the Elbe, provided they are consigned to the Czechoslovak Government's Trade Office, Welserhaus 12, Schaarsteinwegsbrücke, Hamburg, for further transhipment to the actual consignee in Czechoslovakia. Czechoslovak Import Licences should reach the Hamburg Office from the consignee previous to the shipment of goods. A duplicate set of shipping documents should be forwarded in advance to that office. Goods may also be exported *via* any other available route.

All shipments to Czechoslovakia are subject to Import Licences issued by the Import and Export Commission in Prague. Applications have to be made by consignees.

Denmark.

Licences are only required for goods on Lists A and B.

No certificates from the Danish Associations need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to any Danish import prohibition.

Estonia (principal port—Reval).

Licences are only required for goods on Lists A and B. The support of the Estonian Legation is no longer required.

There is no parcel post service at present.

Finland.

Licences are only required for goods on Lists A and B. Exporters should instruct their consignees to obtain any import licence that may be necessary.

Any available route may be adopted at the option of the exporter.

France.

Licences for exports are only required for goods on Lists A and B. Exporters are warned that French import licences are required for many classes of goods. Full information may be obtained from the French Customs Office, Bank Buildings, Kingsway, London, W. C. 2.

Germany.

Licences are only required for goods on Lists A and B.

Goods may be exported by any available route at the option of the exporter.

An import licence is required for the importation into unoccupied Germany of goods other than newspapers, periodicals, books, and foodstuffs. Before goods other than those

mentioned are despatched, therefore, the sender should apply to the Imperial Commissary for Export and Import Licences, Lützowufer 6-8, Berlin, W. 10, with a view to ascertaining whether the German Authorities are actually prepared to admit the goods.

For the occupied territory in the Rhineland *see* Note (ii), page 2276.

See also page 2276.

Greece.

Licences are only required for goods on Lists A or B. Any available route may be adopted at the option of the exporter.

Holland.

Licences are only required for goods on Lists A and B.

Consignment to the Netherlands Oversea Trust is no longer necessary.

Italy.

Licences are only required for goods on Lists A and B. Exporters are warned that Italian import licences are required for many classes of goods; full information may be obtained from the Italian Government Commission, West Africa House, Kingsway, W. C. 2.

Any available route to Italy may be adopted at the option of the exporter.

Jugo-Slavia.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in Note (iii), page 2276).

Any available route may be adopted at the option of the exporter.

There is no parcel post service at present, except to Dalmatia.

Letland (Latvia) (principal port—Libau).

Licences are only required for goods on Lists A and B. Applications to export goods on Lists A and B will be considered in the usual way.

There is no parcel post service at present.

Lithuania (principal port—Riga).

Licences are only required for goods on Lists A and B. Applications to export goods on Lists A and B will be considered in the usual way.

There is no parcel post service at present.

Luxembourg.

Licences are only required for goods on Lists A and B.

Goods may be exported by any available route at the option of the exporter.

Montenegro (*see* Jugo-Slavia).

Norway.

Licences are only required for goods on Lists A and B.

No certificates from the Norwegian Associations, or other form of guarantee, need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to any Norwegian import prohibition.

Palestine.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Poland (*including any portions of Silesia and Galicia allotted to Poland*).

Licences are only required for goods on Lists A and B.

Exporters should satisfy themselves in all cases that the goods are not subject to any Polish import prohibition, *see* Note (iv), page 2276.

There is no parcel post service at present.

Portugal.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Roumania.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Exporters should satisfy themselves in all cases that the goods are not subject to any Roumanian import prohibition.

Russia (Asiatic).

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Russia (European).

(a) *Northern District—approached via *Archangel or the Murman Coast.*

Licences are required for all goods, except "free" goods (a list of which can be had on application to the Stationery Clerk, Export Licence Dept.) and except "foodstuffs" on List C. All goods imported into Northern Russia must be for consumption in the districts of Archangel and Murmansk, and they must be consigned to the British Supply Mission at Archangel or Murmansk for account of a sub-consignee. Exporters are warned that import licences must be obtained by consignees from the Archangel Government before they can take delivery of the goods.

(b) *Southern District—approached via Batoum and Novorossisk on the Black Sea and Toganrog on the Sea of Azov.*

Licences are only required for goods on Lists A, B and D.

There is no parcel post service at present.

(c) *Other Districts.*

No licences are being granted at present.

Serbia.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

There is no parcel post service at present.

Spain.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Sweden.

Licences are only required for goods on Lists A and B. No certificates from the Swedish Handels Kommission, or other forms of guarantee, need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to any Swedish import prohibition.

Switzerland.

Licences are only required for goods on Lists A and B. Consignment to the Société Suisse de Surveillance Economique is no longer necessary.

Any available route may be adopted at the option of the exporter.

With regard to exports to Switzerland under the British Re-export Scheme, goods may now be exported without licence, and without consignment to H. M. Consul at St. Gall, but it will be necessary for exporters to communicate with the Department of Import Restriction, 22, Carlisle Place, S. W. 1, in connection with the necessary import certificate for the re-admission of the goods into this country.

Syria (as far north as a line from Alexandretta to Aleppo inclusive, and as far east as the Hedjaz railway inclusive).

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

A Parcel Post Service is in operation as far north as Alexandretta, but not east of Aleppo.

Turkey (including Asia Minor).

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D except as provided in Note (iii), page 2276.

Any available route may be adopted at the option of the exporter.

Parcels for civilians in European Turkey (Constantinople) are accepted if they are addressed "Poste Restante, British Army Post Office, Constantinople," and parcels for civilians in Smyrna are accepted if they are addressed "Poste Restante, British Post Office, Smyrna."

Notes.**FOODSTUFFS.**

(i) Foodstuffs should be regarded as including all articles intended for use as human food, including articles to be manufactured into human food and including beverages and spices.

* It is understood that there are no shipping facilities for Archangel at present.

OCCUPIED RHINELAND TERRITORY.

(ii) The principal towns in Allied occupation are—

Trier), Schillingen, Siershahn, Sinzig, Stadtkyll, Treis (Mosel), Treves (Trier), Ulmen, Waxweiler, Winingen (Mosel), Wittlich.

French Zone.—(In addition to places in Alsace-Lorraine.)—Alsheim, Alzey, Annweiler, Bacharach, Bad Ems, Bad Dürkheim, Bingen (Rhein), Birkenfeld, Boppard, Bullay, Castellau, Caub, Cronberg, Darmstadt, Diez, Eltville, Enkenbach, Flonheim, Frankenthal (Pfalz), Gemünden (Hunsrück), Gernersheim, Groszgran, Hahn (Taunus), Heftrich, Hofheim (Taunus), Homburg (Pfalz), Kaiserslautern, Kirchheimbolanden, Kreuznach, Landau (Pfalz), Landstuhl, Langenschwalbach, Lauterecken, Lebach, Mainz, Merzig, Nastätten, Neunkirchen, Neustadt (Haardt), Niederlahnstein, Nieder Sanlheim, Nierstein, Osthofen (Rheinhessen), Otterberg, Pirmasens, Rüdesheim (Rhein), Saarbrücken, Sankt Louis, St. Gue, St. Wendel, Simmern, Sobernheim, Speyer, Stromberg (Hunsrück), Türkismühle, Waldsiedelbach, Wiesbaden, Winnweiler, Worms, Zell, Zweibrücken.

Belgian Zone.—Aix-la-Chapelle (Aachen), Aldekerk, Aldenhoven, Bochum, Clève, Cornelimünster, Crefeld, Dahlem, Dülken, Erkelenz, Eschweiler, Eupen, Carzweiler, Geilenkirchen-Hünshoven, Geldern, Goch, Grefrath (b. Crefeld), Grevenbroich, Heinsberg (Rheinland), Hülchrath, Jülich, Kaldenkirchen, Kempen (Rhein), Linn, Mörs, München-Gladbach, Neuss, Odenkirchen, Randerath, Rheydt, Steinstrass, Stolberg (Rheinland), Viersen, Wevelinghoven, Xanten.

GOODS ON LIST D.

(iii) Consideration will be given to applications in respect of the following goods on list D, if there is clear evidence that the shipments are destined for commercial purposes:—

Barbed wire and implements for fixing and cutting same.

Camp equipment, articles of, and their component parts.

Clothing and equipment of a distinctly military character.

Electrical appliances, adapted for use in war, and their component parts.

Military waggons of all descriptions.

Harness or horse equipment of a military character.

EXPORTS TO POLAND.

(iv) In order to facilitate the re-establishment of commercial relations between Great Britain and Poland, the Polish Commercial and Financial Agency, 88, Kingway, London, W.C.2, has been duly authorised to issue Import Permits. The applicant for an Import Permit must fill in the four forms with which he will be supplied, and return them with the original invoice and four copies thereof.

It must be noted that all goods intended for Poland must be addressed to:—

The Polish Government Import and Export Commission, Elektoralne 2, Warsaw (for the ultimate consignee).

The charges for this Import Permit are five shillings stamp duty, and 21 per thousand pounds sterling of the total value of the goods to be imported, which must be paid upon receipt of the Permit.

The Import Permit does not exempt the goods from any Customs duty or other taxes imposed by the Polish Government.

Due notification will be given of any alteration in these regulations.

TRADE WITH GERMANY, AUSTRIA, HUNGARY, AND ARABIA.

In view of the raising of the blockade the Board of Trade have issued General Licences under the Trading with the Enemy legislation authorising, with certain restrictions, the resumption of trade with Germany, Austria, Hungary, and Arabia.

The Licences do not remove the existing restrictions upon the payment of debts and the return of property due or deliverable to persons in Germany, Austria, Hungary, and Arabia in respect of pre-war transactions.

The Licences do not permit the importation from Germany, Austria, Hungary, or Arabia of any goods included in the Prohibition of Import Proclamations and not covered by a General Licence issued under those Proclamations. Information with regard to imports into the United Kingdom can be obtained from the Import Restrictions Department, 22, Carlisle Place, S. W. 1. Further, Export Licences must be obtained from the Export Licence Department, 1, Queen Anne's Gate, Westminster, S. W. 1, before goods included in Lists A and B of prohibited exports are shipped to those countries, but no licences are required in respect of goods included in List C.

The text of these General Licences is as follows:—

The Board of Trade, on behalf of His Majesty, and in pursuance of the powers reserved in the Trading with the Enemy Proclamations and all other powers thereunto them enabling, do hereby give and grant licence to all persons and bodies of persons resident, carrying on business, or being in the United Kingdom, to trade and have commercial and financial transactions with persons or bodies of persons resident or carrying on business in Germany/Austria/Hungary:

Provided always that any licence which may be necessary in respect of any transaction under any prohibition of export or prohibition of import for the time being in force in the United Kingdom or in respect of any remittance of money out of the United Kingdom covered by *Regulation 41D of the Defence of the Realm Regulations is first obtained:

Provided also that this licence shall not permit any person or body of persons to pay to or for the benefit of any person or body of persons resident or carrying on business in Germany/Austria/Hungary any sum of money which by the terms of the Trading with the Enemy Amendment Acts, 1914 and 1915, or either of them, is required to be paid to the Custodian appointed under the Trading with the Enemy Amendment Act, 1914, but such sums of money must be paid to the said Custodian:

Provided further that this licence shall not permit any person or body of persons to pay or deliver any sum of money or property which is, or but for the war, would have been due or deliverable to any person or body of persons resident or carrying on business in Germany/Austria/Hungary in respect of a transaction entered into before the outbreak of war.

A General Licence with regard to Arabia has been issued, dated the 19th August 1919.

URGENT ORDERS.

The Board of Trade, Export Licence Department, announces that, in collaboration with the Department of Overseas Trade, an arrangement has been made whereby firms receiving orders which require immediate acceptance may telegraph details of any such order to the Department of Overseas Trade in order to ascertain whether a licence will be granted for the export of the goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the Export Licence Department the licence will be granted.

The telegrams should be addressed to "Orders, c/o Advantage, Stock, London." They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the name and address of the ultimate consignee if the goods are destined for a neutral country. In the case of orders from Allied or British Territory or from Territory in the occupation of troops of the Associated Governments, the consignee need not be stated; and it will be sufficient merely to give the country of destination. A reply of 24 words (1/3) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Comptroller General, Department of Overseas Trade (Export Facilities Section), 4, Queen Anne's Gate Buildings, Westminster, S.W. 1.

*Regulation 41D of the Defence of the Realm Regulations is now cancelled.

TRANSHIPMENT IN THE UNITED KINGDOM.

The provisional approval of the Export Licence Department should be obtained before the following goods are brought to this country for transhipment :—

Bacon, ham and lard of all kinds.

Butter and cheese

Cereals on Section "A" of the list of prohibited exports.

Animal feeding stuffs on Section "A" of the list of prohibited exports

Seeds, oils and fats on Section "A" of the list of prohibited exports.

It is not now necessary to make application to the Collector of Customs at the transhipment ports on Form N 90 for the transhipment of any goods except those specified in the following list :—

Foodstuffs for animal or human consumption which are on Section "A" or "B" of the list of prohibited exports (including tea, coffee and cocoa).

Seeds, oils and fats on Section "A" of the list of prohibited exports.

Synthetic dyestuffs.

Bigot.

Quinine sulphate.

Caustic potash.

Potassium carbonate

Wool, raw, and mixtures thereof.

Wool-tops and mixtures thereof.

Woollen and worsted yarn and mixtures thereof

Major Arthur Fayrer Hosken, 26th Hyderabad Rifles, Indian Defence Force.

Surgeon Major Samuel Arthur Powell, Bombay Volunteer Rifles (now 15th Bombay Battalion), Indian Defence Force.

No. 3370.—The following are the particulars of the acts of gallantry performed by the undermentioned Indian officers, while serving with the Mesopotamia Expeditionary Force, for which the award of the Military Cross was published in the *Gazette of India*, Army Department Notification No. 1060, dated the 29th October 1915:—

Jemadar Sohan Singh, 24th Punjabis.

For conspicuous gallantry and coolness throughout the action of the 14th April 1915, especially in going back under heavy fire at a very critical time and bringing up a box of ammunition which he obtained from a number of mules that had been shot down in an endeavour to approach closer to the firing line.

Jemadar Dattaji Rao Khanvilkar, 110th Mahratta Light Infantry.

For gallantry and resource on the 14th April 1915, in leading his half company under heavy rifle and machine gun fire during the engagement and in the final assault on the enemy's trenches.

Jemadar Sitaram Sellar, 117th Mahrattas.

For gallantry and devotion to duty on the 14th April 1915, when, though wounded early in the action, he continued to lead his company with conspicuous coolness, even in the final assault.

He also acted with gallantry on a previous occasion.

No. 3371.—The following rewards have been granted to the undermentioned for acts of gallantry or devotion to duty in the field while serving with the Waziristan Force:—

Awarded the Indian Distinguished Service Medal.

Jemadar Taza Gul, South Waziristan Militia.

No. 2548 Lance-Naik Mehmud Khan, 82nd Punjabis.

No. 3372.—The following amendment is made to Army Department Notification No. 2088, dated the 3rd June 1919, under the heading "Awarded the Meritorious Service Medal (without annuity)":—

For "No. 2403 Sowar Dilawar Khan, 1st Duke of York's Own Lancers (Skinner's Horse)", read "No. 2403 Sowar Dilawar Khan, 18th King George's Own Lancers."

SUPPLEMENT TO
The Gazette of India.

No. 48.} DELHI, SATURDAY, NOVEMBER 29, 1919.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Proceedings of the Indian Legislative Council will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five rupees per annum if delivered in Calcutta, or eight rupees if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of rupees six per annum if delivered in Calcutta, or rupees nine if sent by post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

No. M.-440.

GOVERNMENT OF INDIA
INDIAN MUNITIONS BOARD.

CHEMICALS AND MINERALS.

RESOLUTION.

PROPOSAL FOR THE CREATION OF AN ALL-INDIA SCIENTIFIC SERVICES.

Delhi, the 26th November 1919.

THE Indian Industrial Commission, in paragraphs 116-118 of their Report, have pointed out that the present arrangements for the recruiting, employment and grouping of scientific officers for the purpose of carrying out research work are unsatisfactory. There have not been wanting, it is true, individual officers who have done valuable work in their own special lines. But some of those who have achieved the greatest degree of success, are also most insistent in their cry for co-ordination, and for the help of other scientists in dealing with the complicated problems that demand solution. The Industrial Commission draw attention, not only to the absence of an effective means for meeting this demand, but also to the entire absence of a scientific atmosphere, except in a few isolated centres. The lack of scientific intercourse and of prospects of material advancement tends to deprive workers of any incentive to research.

2. Unsatisfactory as the existing position is from the point of view of the employed, it is even less satisfactory from that of the employer. The inability of local Governments to judge of the work of the isolated scientific officers whom they employ, or to replace them when they leave or fall ill, has been fully emphasised by the Industrial Commission. The small, but not unimportant, results achieved with the help of the Indian Munitions Board, as an agency for marshalling the scientific forces of the country to attack a few problems of considerable local importance under war conditions, throw into strong contrast the vast field of possibilities from which a consistent policy, pursued before the war, might have developed valuable economic assets in peace time and powerful safeguards of established industries in time of war. There have, however, not been wanting examples of attempts, more or less successful, to build up organisations of officers for scientific work; instances such as the Geological Survey of India and the Indian Agricultural Service, prove by their success, even on their present limited scale, the advantages of system, even though that system differs radically in the case of these two departments. The importance of organising scientific workers, not only in the interest of the workers themselves, but of the work which they perform and of the public in whose interest they perform it, is now widely recognised; and the question for consideration appears to the Government of India to be the form of organisation best suited for Indian conditions, political, economic and geographical. A scheme for all-India services as a basis of scientific organisation has been put forward by the Indian Industrial Commission in paragraphs 120-126 of their Report, and supported by the Government of India, subject to certain criticisms of detail, in their despatch No. 15 (Industries), dated the 4th June 1919 of which paragraphs 22 to 30 are annexed to this resolution.

3. The Government of India have decided to deal, in the first place, with the case of officers employed under Government as chemists; and have, with the concurrence of the Secretary of State, appointed a Committee, with the following terms of reference:—

- (1) To consider whether an all-India Chemical Service is the best and most suitable method of overcoming the difficulties and deficiencies pointed out by the Indian Industrial Commission.
- (2) In the event of the Committee approving the principle of an all-India Service, to devise terms of recruitment, employment and organisation; to indicate the extent to which chemists already in Government employ should be included in that service; and to suggest what should be the relations of the proposed organisation with the public and with departments of the Government of India and of local Governments.
- (3) In particular, to frame proposals for the location, scope and organisation of institutions for chemical research.

4. Professor J. F. Thorpe, C.B.E., D. Sc., Ph. D., F.I.C., F.R.S., Professor of Organic Chemistry in the Imperial College of Science and Technology, London, has been appointed President, and Dr. J. L. Simonsen, F.I.C., F.A.S.B., Forest Chemist, Dehra Dun, has been appointed Member and Secretary. The constitution of the Committee will be announced shortly.

ORDERED that a copy of this Resolution be forwarded to all local Governments and Administrations, with the request that the Committee may be given any assistance which they may require and that any applications for information which may be made by the Committee may be complied with.

ORDERED also that a copy of the Resolution be forwarded to all Departments of the Government of India, to the Director-General of Commercial Intelligence, to the President and Members of the Committee, and that the Resolution be published in the Supplement to the *Gazette of India*.

F. R. B. RUDMAN,
Secretary, Indian Munitions Board.

Extract (paragraphs 22—30) from despatch No. 15 (Industries), dated the 4th June 1919, from the Government of India to His Majesty's Secretary of State for India, London.

* * * * *

THE SCIENTIFIC SERVICES.

22. The third of the main proposals refers to the constitution of scientific services and of an industrial service. The Commission draw attention to the extreme importance of research under modern industrial conditions, and to the especial needs of India, in view of her vast unexploited resources in raw material and of the paucity of her scientific workers. They criticise the complete lack of organisation among scientists employed by Government and describe the difficulties, both administrative and technical, to which this gives rise. The Commission recommend as a remedy the creation of a similar mechanism to that through which the Central and Local Governments have hitherto carried out almost all their most important activities, especially those requiring technical knowledge, *viz.*, all-India services; and they discuss the basis on which these services should be constituted. The Commission propose the creation, not of scientific departments, but of scientific services, an essential distinction which has been clearly brought out in the replies of Local Governments, though it has not been so clearly apprehended by critics of the proposal. The Commission contemplate the recruitment of officers into separate scientific services, such as a chemical, botanical or zoological service, for employment under imperial and provincial departments, such as Forest and Agriculture, which deal with the application of a number of separate sciences. They propose that scientific officers in the employ of Government, instead of being recruited in small numbers or single units into the different services which happen to require them, should be recruited as experts in their several sciences, into scientific services, each with its appropriate conditions of qualification, pay, pension and promotion. Although the services will be distinct entities for the above purposes, yet the only members of those services that will not be actually employed under the various departments that require their services, will consist of a central staff, engaged under such officers, for instance, as Deputy Chief Chemists, at research centres, in scientific work. This central agency will also serve as a reservoir to meet the demands that may be put forward by other departments or by Local Governments for men to undertake temporary special investigations, to fill new posts or leave vacancies, or for the replacement of existing officers.

The head of each scientific service would thus exercise an influence over the members of his service in matters scientific by the check of scientific results and by the provision of advice and criticism on scientific work, whether for Local Governments or for research workers. It is not, we understand, proposed by the Commission, nor do we ourselves contemplate, that he should actually control research work in the sense of ordering definite problems to be taken up by officers serving under Local Governments, or should turn his department into a gang of hack researchers. We rely on constant correspondence between scientific officers of the same caste and periodical conferences as sufficient to correlate research programmes.

23. With the Commission's view of the very unsatisfactory nature of the present position as set forth in paragraphs 116 and 117 of their Report, we are in complete accord.

Local Governments and heads of departments find the greatest difficulty in forming an opinion of the work done by scientists employed under them; or of the probable value of lines of research proposed by their officers. Should the administrative authority consider the results obtained by a scientist unsatisfactory, it is almost impossible to obtain an authoritative opinion on his work and qualifications; or to say whether he might not do better in another post; or to find such a post for him. The difficulties arising from the existence of isolated specialists in a department are in fact notorious. Local Governments constantly find themselves saddled with unsatisfactory men for long periods. The Chief Commissioner of the Central Provinces, for instance, specifically alludes to his own experience of these difficulties.

The impossibility of applying any common measure in determining the respective claims to promotion of a botanist, a chemist, an engineer and a political economist have been recognised in the existing services by the creation of separate posts on a time-scale. But this does not get over the difficulties already indicated, nor supply the proper incentive to the research worker, nor afford scope or prospects for men of more than average ability. The absence of such prospects is bound to militate against our chances of obtaining good recruits, to render our staff discontented, and to prevent our securing the best work from the best men.

Moreover, so long as students of a particular science are recruited sporadically on behalf of different departments as vacancies occur, Government will have to accept the men that happen to be left over, whatever their qualifications, after other and more regular demands have been supplied. The prospect of regular annual recruitment will enable the Government of India to fill its future demands for scientists, as it has hitherto done for engineers, forest officers and medical men.

24. The present system, under which the only chemists employed by the State are scattered through numerous departments without any organisation that can marshal the chemical forces of the country to attack problems of national importance, can give no help towards an active industrial policy.

We might quote as illustrating the inspiring value of a central co-ordinating authority, the work undertaken by the Munitions Board through its chemical adviser. The report of the Conference of Chemists at Lahore, which we

*Not reprinted.

append* to this despatch, shows that even our isolated and scattered chemists can be moulded into one team for the purpose of suggesting new lines of research and means for turning the results to practical account, without overlapping and consequent waste of effort.

This experience, in the light of the magnificent results obtained in England by the Research Committee of the Privy Council, shows clearly how much may be expected from a system which provides a permanent organic connection between all chemists in Government employ.

25. The importance of a common system of recruitment and of a common service has recently been recognised by the Council of the Institute of Chemistry in the United Kingdom, (*vide* proceedings of the Institute of Chemistry, 1918, part IV, page 14), in a representation submitted by them to all Government Departments in which chemists are employed; they state their opinion that "the time is opportune for taking steps to secure for the provision of chemistry a position corresponding to that occupied by the learned professions and they feel that much would be accomplished towards the attainment of that end if, in the first place, adequate and uniform conditions of appointment were accorded to chemists directly engaged in the service of the State. The necessity for a definitely organised chemical service (both in peace and war) for all purposes of the State on which the science of chemistry has a bearing, has long been recognised in the chemical profession."

Conditions in India render the services of chemists employed under Government of even greater relative importance than in England. India is far more deficient than England in the knowledge of its raw materials and of the appropriate industrial processes; consulting chemists and chemists in private employ are almost entirely absent here, and this deficiency is not likely soon to be remedied. Research institutes with special reference to a particular industry in England, it would seem, will usually be financed and controlled by the industry itself, with a Government grant-in-aid, whereas in India the position will be precisely the opposite, and the industry will rely primarily on State chemists. We therefore agree with the Commission that the advancement of industries in India must depend for scientific assistance almost entirely on State-employed men, and these men will be far more concerned with the initiation of important new lines of development and research and far less with merely routine work than is the case in England. The need of organisation is the greater, in that the functions of Indian State chemists are more important to the country; while their greater isolation and the consequent absence of a scientific atmosphere furnish an additional argument. The case for a State chemical service is thus even stronger in India than in England.

26. We are much influenced by the prospects which the proposed system affords of increasing the number of Indians in the scientific services. An Indian appointed to an isolated post, or as an assistant to an isolated professor in a country where the scientific atmosphere is non-existent, or at the best, exceedingly attenuated, lacks guidance and the stimulus of his fellows in the pursuit of scientific knowledge. His ambitions tend to become limited to the improvement of his pay and prospects rather than of his professional attainments. His membership of an all-India service, based on the pursuit of a common science, will increase the prestige of that science in his eyes and in those of the Indian public; the existence of the proposed imperial nucleus of scientists under a distinguished chief will provide him with an incitement to excel, with assistance in his studies and with opportunity for training if he desires it.

27. The Commission propose that, if the principle of scientific services is approved, committees should be appointed to formulate proposals for the permanent organisation and the terms of employment of each such service, and for the location and equipment of research laboratories. We support this recommendation, subject to the condition that the terms of reference to each committee should include a direction to report as to the advisability of constituting all-India services for each well-defined science.

28. Without anticipating the conclusions of the proposed committee, we think it desirable, in view of criticisms which have been expressed in some of the annexures to this despatch, to indicate certain principles in the general administration of these services, which should govern the relations between the members of the scientific services and the heads of departments and Provincial Governments, under whom many of them will be employed.

We do not think that members of scientific services should be seconded by the method which the Commission propose, *viz.*, by deputation for periods of 5 years at a time; but we consider that, as in the case of other services, an officer when once placed permanently under the orders of a Local Government, should remain with that Government for the rest of his service, unless the Government under which he is serving itself desires his transfer; or unless his services are required in a higher post or in a post requiring special qualifications outside the province, in which case the Local Government will recognise that the Imperial Government have a claim on them. This is the system which exists at present in respect of all similar services.

Local Governments would have complete liberty to appoint, after consulting the head of the service, to any post in their industrial or scientific cadre, any available member of the respective services; they would also be at liberty, in the special circumstances arising during the initial stages, to appoint to such posts men outside the service; but the subsequent admission to the all-India service of men so appointed would be entirely controlled by the Secretary of State. The Local Governments universally support the proposed scheme of scientific services, and though the Governments of the Punjab, the United Provinces and Bombay and the officers and public bodies consulted by them put forward certain criticisms of the scheme, especially with reference to the position of scientists in the Education Department, these criticisms are, we think, fully met by the foregoing explanation of the lines on which we think the proposed services should be administered.

29. We desire, however, to add a few remarks with special reference to the case of science teachers. We fully recognise that much is required of a scientific professor in a college, outside his scientific work. He must look on himself as a member of the body responsible for the tone of the college and for its general success. It will, therefore, we agree, be most undesirable that such a man should continuously have in mind the possibility of promotion outside his own department. We think, however, that this difficulty will be obviated by the general principle laid down by us above, *viz.*, that members of scientific services serving under the Department of Education should not be removed from that department, unless at the request of the educational authorities, or for posts requiring high administrative capacity, or special scientific qualification.

The advantage to the Education Department of a system of scientific services will still be very considerable. In the first place, we consider that, though University and college science workers should be by no means entirely

divorced from technical research, their main sphere of activity should lie among problems of pure science. The proposed central scientific organisation should afford a means whereby such problems arising in the course of technical research can be referred to University and college laboratories.

Such co-ordination, both in respect of pure science problems and technical problems, can be most readily effected in cases where the educational researchers are themselves members of a scientific service. This policy will doubtless stimulate the interest in research work taken by students and professors. Officers who have entered the educational service as teachers may be in some cases expected to develop as research workers. The existence of all-India scientific services will afford a ready means for accommodating men whose aims in life have thus been diverted from one form of work to another. In the next place, the present system of recruitment of scientists into the Educational Service is capable of improvement, and far better results could be obtained with the aid and advice of watchful central agencies in India. The absence of a scientific atmosphere again has been particularly injurious to scientific officers in the Educational Service and has led to great stagnation in respect of research work. This atmosphere will in future reach individual officers by the numerous channels of communication which will be created between them and the central agency on technical subjects, whether by way of correspondence, conferences and scientific publications, by the central staff's tours of inspection, or by officers spending some portion of their vacations at research institutes. The case of scientists at present employed under the Department of Education will obviously require careful treatment; such men should not be allowed to join the scientific services as a matter of course, but each case will have to be considered on its merits and there may still be classes of appointments for which men will have to be recruited independently. Further, the whole question, so far as it affects the employment of officers with scientific qualifications in colleges and universities, will have to be reviewed in connection with the proposals of the Calcutta University Commission regarding recruitment.

30. In addition to the opinions expressed in the letters received from Local Governments, two important conferences of chemists have recently put forward their views on the Commission's proposals. A record of their discussions is appended.* A full meeting

*Not reprinted.

of the Sectional Conference of Agricultural Chemists at Pusa in February passed the following resolution:—

"That this Conference considers that, in view of the intense local knowledge required for effective work for agricultural improvement by chemical methods, it is not desirable that the chemists in the Agricultural Departments should be formed into a service apart from the ordinary agricultural service in which the bond of union would be the science rather than its application. On the other hand, in addition to agricultural chemists attached to the Provincial Departments, this Conference is definitely of opinion that a strong central body of chemists, should be maintained by the Imperial Department of Agriculture from whom Provincial Departments could draw for the investigation of special problems."

The main objection taken was, it will be observed, based on the idea that men would usually be transferred after 5 years periods. We have explained already that such an idea forms no part of the system which we contemplate. It is also significant that the same resolution declared the necessity of a strong central body of chemists for the department of agriculture; and it may be added, the same meeting pointed out the desirability of equipping the agricultural research organisation to deal with certain industrial problems arising out of agricultural research. The sum of these conclusions seems to point to the desirability of supplying some agency which can correlate chemical research with agricultural and industrial problems, and of avoiding the needless expense of creating separate research nuclei for dealing with each separate class of chemical problems.

A Conference of chemists was convened in Lahore in January 1918 by the Indian Munitions Board. It included not only Government officers, but also chemists attached to missionary colleges and employed under private firms. The Conference passed no formal resolution, but strongly supported the proposed system of scientific services.

No. 1128-F. S.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FOODSTUFFS.)

Delhi, the 26th November 1919.

REPORT ON THE OPERATIONS OF THE INDIAN FOODSTUFFS COMMISSIONER.

RESOLUTION.

IN the debate on the resolution moved by the Hon'ble Mr. Chanda, in the Legislative Council on the 15th September last, on the subject of high prices, the Hon'ble Mr. Mant promised that the report of the Indian Foodstuffs Commissioner would be published as soon as possible. The report has now been received and is published herewith for general information.

2. The Government of India do not think it necessary to comment at length on the report. It deals fully with the various factors which conspired to bring about a grave situation at the end of 1918, and with the measures taken to meet that situation. Some of these measures were very unusual. As pointed out in the report, the Government of India up to the date of the outbreak of the war had always refused to adopt a policy of restricting the export of foodgrains from India. The abnormal circumstances created by the war compelled them, in common with the Governments of almost all countries in the civilised world, to resort to an expedient which in ordinary times is open to strong objections. Although the extraordinarily high level of prices still prevailing in India makes it impossible for them at present to remove the embargo on export, they are fully alive to the necessity of allowing, as soon as circumstances permit, the export trade in foodgrains to resume its normal course. A beginning has been made in this direction. It has already been found possible to withdraw either wholly or partially the notifications prohibiting the export of certain foodstuffs, such as ragi, onions, potatoes and chillies. The Government of India have already announced their intentions regarding exports of wheat, gram, jowar, bajra and various other kinds of grain and pulse, and they hope shortly to be able to make a statement on the subject of their rice policy in 1920.

3. Probably no part of the Government of India's policy during the past year has aroused more criticism than the control exercised over the movements by rail of foodgrains within India. As the report shows, the system of railway priority certificates had its origin in the inability of the railways to perform their normal function of distribution. When the system was first introduced, a large measure of control was deliberately placed in the hands of Local Governments with a view to decentralisation, but it was soon found necessary to exercise central control over inter-provincial movements in order to economise the aggregate food-supplies of the country. The choice lay between two alternative policies. One course would have been to allow no restrictions on the movement between one province and another of foodgrains for which certificates had been issued by Directors of Civil Supplies. This course was considered at the end of 1918 and was rejected. At that time it was feared that India would be in serious straits for food in the middle of 1919, and the danger was, that the available supplies in surplus provinces would be rapidly exhausted by inconsiderate demands from deficit areas. It was decided, therefore, that the wiser plan was to conserve the supplies of wheat, gram and rice in India by regulating export from surplus provinces, and the primary object of appointing the Indian Foodstuffs Commissioner was that he might co-ordinate demands from the different provinces and make an equitable distribution of such supplies as were known to be available. The Government of India were constrained on more than one occasion to override the wishes of particular Governments, but they believe that this report, especially paragraph 58, will show that in all the circumstances of the year the course which they adopted was justified by the interests of India as a whole.

4. The other important measures taken consisted of the arrangements made for the control, in the interests of India, of the Burma rice trade, and for the importation of Australian wheat. Both these measures were, on the whole, thoroughly successful, and there can be no question as to the advantages derived by India from Mr. Gubbay's ingenious system of controlling not only the distribution of exports of Burma rice, but also the prices at which that rice was sold. The Government of India desire to express their acknowledgments of his valuable services and also of those of Mr. Innes, who successfully carried the scheme through, and whose unfailing tact and resource surmounted innumerable difficulties. The Government of India are pleased to endorse Mr. Innes' commendations of the other officers referred to in the report, and they would be glad if Local Governments would suitably acknowledge the services of Provincial Directors of Civil Supplies, whose co-operation with the Foodstuffs Commissioner has enabled the country to get through a most critical period.

ORDERED that a copy of the resolution, with a copy of the report, be forwarded to all Local Governments and Administrations, all Departments of the Government of India, all Directors of Civil Supplies, all Collectors of Customs, the Deputy Foodstuffs Commissioner (Rice), Rangoon, the Deputy Foodstuffs Commissioner (Wheat), the Shipping Controller in India, the Director General of Commercial Intelligence and the Director of Statistics, for information.

Ordered also that the resolution, as well as the report, be published in the Supplement to the *Gazette of India*.

R. A. MANT,
Secretary to the Government of India.

REPORT

ON THE

Operations of the Indian Foodstuffs Commissioner.

I.—Preliminary.

The policy adopted by the Government of India in the latter half of 1918 in regard to food control in India was so greatly influenced by the railway position that it is necessary to begin this report by a brief reference to the difficulties in which, as the war progressed, the Indian railways increasingly became involved. These difficulties were felt at a comparatively early stage of the war, and as far back as July 1916, a Conference was held at Calcutta to consider whether the preference, which it had been found necessary to give to military traffic, should be extended to certain classes of civil traffic. In deference to commercial opinion, the proposal was dropped, but in June 1917 it was found necessary to appoint a Controller of Traffic at the Headquarters of the Government of India, and in the spring of 1918 it became necessary to reconsider the whole position. Tonnage had become scarcer with the result that much traffic, which formerly had been carried by coasting steamers, had devolved on the railways. Coal is a case in point, and the effect of the scarcity of coasting steamers is seen in the fact that at the beginning of 1918 at least forty thousand wagons, or more than one-third of the total number of broad gauge wagons available in India, were permanently employed on the transport of coal. Moreover, other preferential traffic had increased. Apart from the fact that demands of the United Kingdom and her allies for Indian wheat, hides and oilseeds were steadily growing, the enemy submarine campaign in the English Channel and the Mediterranean, which reached its climax in the spring of 1917, had made it essential that India should be used as far as possible as a base of supplies for expeditionary forces operating in Mesopotamia and other Eastern theatres of war. Thus the capacity of the railways was severely taxed to carry to the ports traffic essential for the prosecution of the war, and the point had been reached at which this preferential traffic constituted 80 per cent. of the total traffic carried. Public traffic, that is traffic necessary for the movement of foodstuffs for the civil population or essential for maintenance of the trade and industries of the country, had been reduced to 20 per cent. Moreover, while the tendency of traffic was to increase rather than to diminish, the capacity of the railways to carry that traffic had been impaired. Locomotives, rolling stock and railway material had been supplied to Mesopotamia; great difficulty was experienced in obtaining from home even the material essential for the upkeep of existing services; and the task of handling a constantly increasing volume of traffic was complicated by the fact that the supervising staff had been seriously depleted. The anxieties of the position were further increased by the possibility not only of a failure of the S. W. Monsoon in 1918 but also of a general mobilisation on the North-West Frontier which contingency recent events in Persia and Russia had brought appreciably nearer.

2. These facts were represented to the Secretary of State. It was urged that shipping for the coal traffic between Calcutta and Bombay should be provided by the Admiralty, and that the Government of India should be given some measure of control over neutral steamers plying in Indian waters. Special stress was laid on the need for the early despatch from home of railway material for which indents had already been sent or were under submission, and it was pointed out that locomotives and wagons were particularly required. But for the purposes of this report, the main point to notice is that it was the inability of the railways to perform their normal service to the country that led in April 1918 to the introduction of the railway priority certificate

Railway congestion.

Introduction of
Railway Priority
certificate system.

Appointment of
Directors of
Civil Supplies.

system which was the basis of the measures subsequently adopted by the Government of India for internal food control in India. When this system was introduced there was no lack of food in India. The difficulty was to distribute it. In April 1918 the price of rice was lower than it had been for some years in Bengal and Bihar and Orissa, but in Bombay which ordinarily depends to a large extent on foodstuffs imported by rail from other provinces, the shortage of food had already become so acute that the Local Government had found it necessary to appoint a Controller of Prices and to propose that such supplies as this officer considered essential should be consigned to him and given preference on the railways. Hitherto general traffic had got through, though in reduced quantities and after much delay. But preferential traffic was increasing, and the Government were faced with the possibility that general traffic, much of which was as essential as any classed as preferential, might be shut out altogether. It was decided, therefore, that action must be taken not only to economise transport in respect of traffic already classed as preferential but also to ensure that essential traffic to which no preference had hitherto been given should be moved. A Central Priority Committee was accordingly formed on which all Departments interested were represented, and the railway priority certificate system was introduced. Goods traffic was divided for the purpose of priority into (1) urgent, (2) preferential and (3) ordinary, the first two classes again being subdivided into military and civil. Preferential traffic in classes (1) and (2) could be moved only on priority certificates issued by specially authorised officers. Ordinary traffic required no certificate but could be moved only in the absence of preferential traffic. Various officers of the Army Department and the Indian Munitions Board were empowered to issue military certificates, and in order that the requirements of civil traffic might receive due consideration, Local Governments were asked to appoint in each province a special officer to be known as the Director of Civil Supplies. The duties of this officer were defined as below:—"to consider the stocks of foodstuffs and other necessities of life in his province, to receive and examine applications from merchants and others for the movement of traffic in his province, to scrutinize reports and demands sent to him by District officers of his province, to consult freely with the local representatives of the railways in his province as to the possibility of moving particular traffic, to issue certificates, to examine and refer to the Central Priority Committee, through the Controller of Traffic, proposals for the movement of important traffic between provinces, to communicate with other Provincial Directors of Civil Supplies as to nearest points from which supplies for his own province could be obtained and to co-operate with them in preventing non-essential movements and in particular cross movements."

Central Transport
and Foodstuffs
Board.

3. This action was taken in April 1918. At the end of that month a Conference was held at Delhi by His Excellency the Viceroy to concert measures for the development and organisation of the resources of India for the purposes of the war. One of the resolutions adopted by this Conference drew attention to the hardships of the public and the dislocation of trade caused by the congestion on the railways, and besides suggesting that measures should be taken to encourage the building in India of sailing ships and river craft, recommended that provincial committees should be formed "for the purpose of advising Government departments and of encouraging the people to confine their private requirements as nearly as possible to local products in order to save unnecessary demands for railway transport, and for the further purpose of advising Directors of Civil Supplies as to the special necessities of particular districts and as to the commodities for which they think that priority should be given on the railways." By another resolution it was recommended that similar committees should be set up to advise in regard to the possibilities of developing the production of particular foodstuffs and to collate and propagate information likely to be of value to the agriculturist on the subject of manures, implements, etc., required for such development; also to recommend to Government what steps might be taken to facilitate the cultivation of waste lands. As the result of these resolutions, a Communications Board was substituted for the Central Priority Committee mentioned in the previous paragraph, and a Central Transport and Foodstuffs Board was constituted. This Board was presided over by the Hon'ble Sir

Claude Hill, K.C.S.I., C.I.E., Member of Council in charge of the Revenue and Agriculture Department of the Government of India, and was divided into two sub-committees, one dealing with animal and mechanical transport and the other with foodstuffs. The functions of the Board in the latter capacity were to collate information and advise Government as to measures calculated to develop the production of foodstuffs, to encourage local consumption of local products and generally to inculcate economy of resources in allied directions. It was recognized, of course, that the real work in connection with these subjects must be done in the provinces, but it was thought that the institution of a co-ordinating board at the headquarters of the Government of India would be a necessary means of supplementing provincial activities and of passing on from one province to another information of value for the promotion of the objects in view as well as for the purpose of offering advice and suggestions.

4. It may here be mentioned that the Government of India had already in the previous year consulted the Local Governments of the principal exporting provinces as to the measures which might suitably be adopted to stimulate the production of foodgrains, particularly wheat, in India. In some provinces, notably the Central Provinces, cotton competes with wheat, and the area under the latter crop fluctuates greatly from year to year and is dependent primarily on the character of the early monsoon and the prospects of the cotton market and partly on the late monsoon and the price which the crop is likely to fetch. In areas where cotton does not compete, however, it was generally agreed that the wheat crop responds readily to an active demand, and that the cultivators are usually alive to the state of the market. The Royal Commission on Wheat Supplies had already undertaken to buy the entire surplus of foodgrains (other than rice) grown in India and available for export, and though this undertaking had not been made known to the public for fear of a rise in prices, the Local Governments concerned had been asked to publish abroad the fact that a large demand for wheat and other foodgrains was expected. The policy approved by the Government of India also contemplated the stimulation of the production of foodgrains not only by liberal grants of *takavi* loans for the purchase of seed and bullocks, but also by the grant of temporary leases of Government waste lands on attractive terms for the growth of food crops. Other measures suitable to the particular conditions of particular provinces had also been approved. These measures comprised the supply of good seed whenever required, the grant of special irrigation facilities and the grant of rewards to village officers and zamindars who succeeded in increasing the area under wheat in their villages. Arrangements had also been made with the Agents of the Bengal Nagpur and Great Indian Peninsula Railways for the carriage of wheat for seed purposes to selected stations in the Central Provinces at specially reduced rates. The correspondence on the subject was now circulated to all Local Governments and Administrations and to all Darbars in India, and their attention was drawn to the importance of stimulating the production of foodgrains in order that each locality in India might as far as possible be self-supporting in the matter of food supplies and that cross traffic in the railways might be reduced. Numerous proposals with the same end in view were considered by the Foodstuffs Committee of the Central Board. It was suggested to the Agents of the different railways in India that unoccupied railway land should be leased out for temporary cultivation. Notes on the utilisation of farm yard manure as fuel and on the encouragement of the use of bone meal and basic slag as fertilisers, which had been prepared by the Agricultural Adviser to the Government of India, were circulated to Local Governments and Administrations for communication to provincial Advisory Committees where these had been formed. A proposal that Local Governments should be asked to consider the question of leasing out maidans, pleasure grounds and open spaces in and around cities for the cultivation of food crops was considered and rejected. The possibility of allowing zamindars to irrigate over and above the fixed percentage of areas commanded by irrigation free of charge, provided that only food crops were cultivated and that water was available, was investigated. It was found that on the Lower Chenab Canal alone the proposal, if adopted, would result in a loss amounting to some 30 per cent. of the average revenue of the previous five years, and it was decided that

Measures taken
to stimulate the
production of food
grains in India

the suggestion should not be pressed. Other possibilities, which it is not necessary to mention, were also explored.

The failure of the
S. W. Monsoon.

5. But it soon became evident that the activities of the Central Transport and Foodstuffs Board would necessarily be concentrated rather on the equitable distribution of available supplies than on the production of increased supplies. The Foodstuffs Sub-Committee held its first meeting on the 13th June 1918. Already the south-west monsoon had made an ominous start by appearing on the Malabar Coast on May 11th, three weeks before its normal date, and it is significant that at its first meeting the Committee found it necessary to discuss the question of restrictions on the export of foodgrains from one part of India to another. One Local Government and certain Native States had already been induced by the high level of prices prevailing in their territories and by threatened depletion of stocks to resort to the expedient of prohibiting the export of foodgrains, and almost the first action taken by the Board was to circularise Local Governments on the dangers of this policy and to call for information as to stocks in the different provinces. Unfortunately the progress of the monsoon did not belie its bad start. The Arabian Sea monsoon gave widespread and unusually heavy rain over nearly the whole of the Peninsula in May, but in the beginning of June its activity declined rapidly, and except for short intervals of comparative improvement, it remained very weak up to the end of July. The Bay current arrived in Bengal two weeks earlier than usual; it was decidedly strong in June, but appreciably weaker than usual in July. In July, indeed, the failure of the rains was unprecedented. Assam had 63 per cent. more rain than usual, in Bengal the total precipitation was nearly normal, and in Burma the rainfall was only 22 per cent. in defect. But no other division of India had more than half of its usual supply, and most provinces had considerably less. The extent of the failure of the rains in June and July 1918 is exhibited in the following table:—

Rainfall in June and July 1918.

Division.	Actual 1918.	Percentage departure from normal.
Burma	40.00	—12
Assam	48.4	+43
Bengal	42.9	+31

Mysore	2.2	—66
Madras	7.4	—49
Mean of India	15.1	—25

the Nagpur
conference.

6. The situation was carefully watched by the Government of India. Already currency difficulties had necessitated a reduction in the programme of purchases of wheat for the Royal Commission on Wheat Supplies, and on the 18th July the Government of India reported to the Secretary of State that the delay in the Arabian Sea monsoon was giving cause for anxiety and suggested that in order to give the monsoon time definitely to declare its character, purchases in the Punjab should be entirely stopped for one month.

The Royal Commission agreed to this proposal, but urged that when the position was reviewed at the end of August, the vital importance of economising tonnage by provisioning the Mediterranean countries from India should not be lost sight of. The Government of India's next step was to summon a Conference of Directors of Civil Supplies to consider the new position with regard to the general food supplies of the country caused by the threatened failure of the rains. The Conference met at Nagpur on the 18th August. It was presided over by the Hon'ble Sir Claude Hill and was attended not only by the Director of Civil Supplies in the different provinces, but also by a member of the Railway Board, the Controller of Traffic, and the Agents of the Great Indian Peninsula and Bengal-Nagpur Railways. Much useful work was done in the direction of introducing order and method into the system of railway priority certificates, and of defining the powers of Directors of Civil Supplies in relation to one another and the Railway Companies. In particular a decision was arrived at on the vexed question whether a Director of Civil Supplies was at liberty to prevent exports of foodgrains from his province by the expedient of withholding priority certificates. It was agreed that this power should not be vested in Directors, and that if such action were considered necessary, the orders of the Government of India should be taken. But the Directors of Civil Supplies had not been long enough in existence to be able to furnish accurate information as to the position of their provinces in regard to supplies of foodstuffs, and it was decided that detailed estimates of stocks and requirements should be furnished to the Central Transport and Foodstuffs Board not later than the 15th September.

7. After this Conference events moved rapidly. The prospects of the monsoon, which had shown a slight improvement at the time of the Nagpur Conference, again deteriorated, and the September rains proved a failure. By the end of that month it became certain not only that the *kharif* crops would be a failure over a great part of India, but also that the *rabi* sowings would seriously be restricted. Prices not only of wheat but of other foodgrains began to rise rapidly, and food riots occurred in the Madras Presidency and were threatened elsewhere. It was now obvious that in addition to the difficulty of distribution, there was the fear of an actual shortage of supplies. The estimates of stocks and requirements furnished to the Central Transport and Foodstuffs Board in accordance with the Resolution passed at the Nagpur Conference disclosed a net deficit, and the Board reported to the Government of India that the outlook was grave. Accordingly, in spite of the fact that the war was still in progress, it was decided in the beginning of October, in consultation with the Secretary of State, to stop immediately purchases of wheat and "feeds" for export overseas to destinations other than Mesopotamia, though in view of the serious embarrassment caused by the failure of Indian supplies, no objection was raised to the shipment of quantities already purchased by the Royal Commission. The Government of India also decided at the beginning of October that effective measures must be taken to ensure the equitable distribution of supplies in India. For this purpose they resolved to set up, in lieu of the Central Transport and Foodstuffs Board which was purely an advisory body, a single executive authority working under themselves and to be designated the Indian Foodstuffs Commissioner. Mr. M. M. S. Gubbay, O.S.I., C.I.E., I.C.S., was selected for the new appointment and assumed charge on November 1st.

The appointment of an Indian Foodstuffs Commissioner.

II.—The Foodstuffs Problem.

8. I have traced briefly the sequence of the events which led to the appointment of an Indian Foodstuffs Commissioner, and I now propose to examine the situation in India in respect of the supply of foodstuffs (a) as it existed at the time of Mr. Gubbay's appointment and (b) as it developed with the harvesting of the *rabi* crops of 1919. The essentials of the problem were known when Mr. Gubbay became Indian Foodstuffs Commissioner, but it is now possible to fill in the details. On the 15th October a second Conference of Directors of Civil Supplies was held at Delhi. This Conference gave Mr. Gubbay an opportunity of meeting the officers with whom he would have to work, but it was convened mainly for the purpose of arriving at a correct

The Delhi Conference.

appreciation of the difficulties which confronted the Government of India and Local Governments and of deciding what was the most hopeful solution of those difficulties. The reports of the Directors were not encouraging. They indicated that surplus stocks of rice were available in Bengal and Burma and that supplies of wheat and gram were obtainable from the United Provinces and the Punjab, but when the balance was struck, it was found that the estimated requirements of deficit areas during the three months ending January 1919, exceeded the supplies of wheat, gram, rice and other foodgrains reported to be available for export from more fortunate provinces by 229,460 tons. There was some reason to believe that the prospect, though it was sufficiently gloomy, was not quite so black as it had been painted, and it may here be remarked that all efforts to obtain accurate estimates of stocks of foodgrains in this country during the past year have failed. A more serious attempt was made in December. The co-operation of district officers was secured, and a formal census of stocks of foodgrains was held throughout the country. No pains were spared to make the returns as accurate as possible, but when they were received, they were recognised by common consent to be of very little value. The proceedings of the Delhi Conference were useful as indicating the areas from which supplies of foodgrains could be drawn and as containing an appreciation by those best qualified to judge of the position in India as it was when Mr. Gubbay was appointed, but I propose to examine that position in the light of more general considerations.

stocks at the end
1918.

9. Fortunately, the main harvests of the two previous years had been particularly good. The rice and wheat crops of 1916-17 and 1917-18, these being by far the two most important food crops in India, were almost the biggest crops on record. The same remark is substantially true of the gram and barley crops of those two years, while the maize crops were above the average. The bajra crop of 1916-17 was exceptionally good and the jowar crop normal, but both these crops failed over large areas in 1917-18 and the yields were poor. But taking the harvests of 1916-17 and 1917-18 as a whole, it may be said with confidence that India's period of stress in 1918-19 succeeded two exceptionally good years. It is commonly believed, however, that during the war India had been denuded of grain and pulse in order to feed the United Kingdom and her Allies as well as the Expeditionary forces operating in Eastern theatres of the war. The exports of wheat, gram, maize, barley and the like in 1917-18, which were mostly on the account of the Royal Commission on wheat supplies, were heavy, and particular areas may have suffered in this way, but export statistics over a long series of years do not support the theory of denudation as applied to India as a whole. The relevant statistics are given in Appendix I to this report, and in Appendix II I have compared the total yield of various important foodgrains and pulses, as recorded in the publication of the Department of Statistics entitled *Estimates of the area and yield of the principal crops in India 1917-18* with the quantities of these foodgrains and pulses exported. It will be seen that the results of this comparison do not support the view that stocks were particularly low in India at the end of 1918 owing to heavy exports. It is quite probable that owing to the bad harvests of 1917-18 stocks of bajra and jowar were short, but unless indeed increasing prosperity due to the war had resulted in a general rise in the standard of living and an increase in consumption, such evidence as is available points to the conclusion that stocks of foodstuffs in India must have been comparatively large at the end of 1918. Had not this been the case, indeed, it is difficult to see how India could have come through 1919 as well as she did.

margin of
reduction over
consumption in
India.

10. Unfortunately, for the reasons already explained, it is impossible to give any quantitative estimate of these stocks, nor can any comparison between production and consumption in India be usefully undertaken. Apart from the difficulty of fixing a standard of consumption, which could reasonably be applied to a population of more than 300 millions, it is useless even to attempt the comparison, since there are very large areas in India under crops classed in the Agricultural Statistics under the head "other foodgrains and pulses" for which no estimates of outturn are framed. Moreover, though constant attention is being paid to the improvement of our agricultural statistics, it must be admitted that they are still defective. In some provinces, particularly

provinces where there are large tracts of country under permanent settlement, even the statistics of the area under cultivation are unreliable, while the estimates of the out-turn of crops are always rather doubtful quantities. In my opinion, all that can usefully be said on the subject of the margin of production over consumption in India is what follows. Of the total amount of food produced in the country, part goes into current consumption and part is held in stock for purposes of seed and as a reserve. These two parts between them constitute internal requirements, and the surplus that remains is exported. In times of scarcity the country falls back on its reserve stocks and on the safety margin afforded by the surplus ordinarily exported. There is no means of ascertaining accurately the amount of reserve stock held in the country, but the safety margin afforded by the surplus ordinarily exported is not large. The figures are given below. In working them out Burma has been excluded. That is to say, exports to and imports from Burma have been added to exports from and imports into India proper.

Net exports of grain and pulse from India.

Year.	Quantity (in 0's of tons.)
1909-10	785
1910-11	1,571
1911-12	3,018
1912-13	3,387
1913-14	1,183
1914-15	133
1915-16	151
1916-17	601
1917-18	2,314
1918 up to October	1,091

It will be noted that the above table does not support the theory that India was drained of foodstuffs during the war, but the main interest of the figures lies in the fact that in the ten years ending 1918 the net export of grains and pulse from India proper averaged less than $1\frac{1}{2}$ million tons per annum. The amount is small, compared with the total production in the country, and moreover the level of prices in India does not ordinarily allow deficiencies in local production to be made up by imports from outside countries other than Burma.

11. We may now consider the extent of the calamity which overtook India owing to the failure of the crops in 1918-19. This crop failure, if less intense than had been experienced previously in particular areas, was unprecedented in the extent of country affected. I have already referred to the unsatisfactory character of the south-west monsoon, and it may be noted that taking the average precipitation over the whole of the plains of India, the rainfall in the monsoon period was 6·5 inches or 19 per cent. in defect. The records of the Meteorological Department contain only two instances of similar failures of the monsoon. One was in the disastrous year 1899, when the deficiency was 6·5 inches; the other was in the even more disastrous year 1877, when the deficiency was 7·9 inches. The Bay current was stronger than that from the Arabian Sea, but it died away early in September, and there was no part of India which did not suffer to a greater or less extent. In Burma the final estimate of the paddy crop showed a defect of 16 per cent. compared with the out-turn of the previous year. Both in Bengal and Bihar and Orissa excessive rainfall in June, deficient rain in July, and the entire cessation of the rains in the middle of September seriously affected the out-turn of the *bhadai* or autumn crops and gravely prejudiced the prospects of the important winter rice crops. The outturn of this crop was estimated at only 77 per cent. of the normal in Bengal and at only 60 per cent. in Bihar and Orissa. Even in Assam both the autumn and winter rice crops were exceptionally poor, floods being the cause of the damage in the one case and drought in the other. The failure of the Arabian Sea monsoon was more complete than that of the Bay current and other provinces fared even worse. The season in the United Provinces was one of the worst on record. The unirrigated *kharif* crops failed over

large areas, and *rabi* sowings were much restricted. In the Punjab, *kharif* sowings were 27 per cent. below normal, and the percentage of crop failure was 41, double the normal figure. *Rabi* sowings were late and were much restricted. In the Central Provinces, where, apart from deficient rainfall, influenza was particularly severe, all field work being brought to an entire standstill just when labour was required for the sowing of the *rabi* crops, the yield of the *kharif* and *rabi* crops taken together was little more than half the normal. In all these three provinces, however, timely rain in January resulted in a better *rabi* than at one time had been expected, and heavy rain in November assisted to relieve the situation in Madras. But the rain came too late to save the *kharif* crops in Madras, and throughout the Peninsula the crops were bad. The Bombay Presidency fared particularly badly. The harvests were poor everywhere and in some areas failed altogether, and a widespread fodder famine aggravated an already serious situation.

efficiency of
production.

12. Normally in India crop failures are only partial, and shortages in some parts of the country are made up for by bountiful harvests in other parts. But in 1918-19 there was no province which did not suffer from a failure of the monsoon which was either partial or complete, and the terrible influenza epidemic of the autumn months of 1918 was another calamity which tended still further to restrict production. The effect of these factors is exhibited statistically in the appended table in which I have compared the estimated yield of the principal crops in 1918-19 with the corresponding figures for 1917-18 and with the average yield of the five years ending 1916-17.

Out-turn of some of the principal crops in 000's of tons.

a real nature of
the problem.

13. The above table shows that in British provinces alone and in respect only of certain principal crops, the deficiency of production in 1918-19 amounted to more than 14 million tons compared with the average of the four years ending 1916-17, and more than 19 million tons compared with the year 1917-18. Attention in the press and in the Legislative Councils has been concentrated recently mainly on the question of prices. I will deal with this question later. But it will now be clear why at the end of 1918, the Government of India and Mr. Gubbay regarded the question of prices as one of secondary importance. The problem before them obviously was how to conserve, supplement and distribute to the best advantage supplies of food which were feared to be inadequate for the needs of the country.

III.—The policy adopted.

14. The measures adopted may conveniently be considered under the above three heads. The conservation of resources covers the Government of India's export policy and under this head I will deal not only with the ring fence

drawn round India by the embargo on exports of foodstuffs, but also with the arrangements made to ration countries which ordinarily draw their supplies from India. The second head involves the consideration not only of the arrangements made for the control of the Burma rice trade and for the importation of Australian wheat, but also of the control exercised over shipping in Indian waters and the measures taken to reduce the rates of freight on rice imported from Burma. Under the head of distribution falls the consideration of the whole subject of internal control in India.

(1) EXPORT POLICY.

15. The policy of prohibiting exports of foodstuffs in times of scarcity has frequently been examined by the Government of India, and up to the outbreak of the war, the conclusion arrived at had always been the same. Nothing could justify recourse to this expedient, it was stated in 1873, "unless it were a certainty or a reasonable probability that exports of food had so exhausted the resources of India as to render them incapable of affording supplies, which may be required for affected districts." This principle was re-affirmed by the Hon'ble Mr. (now Sir J. O.) Miller in the Legislative Council in 1908, but the war had not been long in progress before the rapid rise in the price of wheat in the Indian markets compelled the Government of India to abandon their established policy, and since the beginning of 1915 some form of embargo has always existed on the export of wheat and wheat flour. When Mr. Gubbay joined his appointment as Indian Foodstuffs Commissioner in November 1918, the orders in force prohibited the export of wheat and wheat flour except under license, and no further action in this direction was necessary. But the question at once had to be examined whether supplies of wheat could be made available for the United Kingdom. At the beginning of 1918, in response to an earnest appeal from the Royal Commission on Wheat Supplies, a very large programme of wheat purchases in 1918-19 had provisionally been arranged. Fortunately, as it turned out afterwards, currency difficulties had necessitated a reduction of this programme in June 1918, and as I have already explained, purchases had been temporarily suspended in July at the instance of the Government of India, and except for Mesopotamia, had been stopped altogether in the beginning of October. The Secretary of State, however, in agreeing to this measure, had asked, in view of the extra strain on tonnage caused by the failure of Indian supplies, that the possibility of resuming purchases on the Royal Commission's account might be examined before the 15th December. The signing of the Armistice on the 11th November fortunately made the question of supplies from India less important, and on December 17th the Secretary of State was informed that in view of the necessity of conserving stocks to meet the Indian demand, it was quite impossible for the Government of India to agree to the resumption of purchases by the Royal Commission for export overseas. The position as regards rice was very similar. As I shall explain later, the export of rice on private account had already been prohibited, and the only question requiring immediate settlement was how far the Government of India could meet the Royal Commission's requirements for 1919 which had been estimated at one million tons. After a careful examination of the position in Burma, the Government of India offered to supply the United Kingdom with 300,000 tons of rice in 1919, but when the Royal Commission resigned their claim to this amount in favour of the colonies, the Government of India decided to retain the rice for India. The position in regard to other foodgrains was then examined, and in the beginning of February 1919 notifications were issued prohibiting the export except under license of bajra, jowar, barley, gram, maize and pulse. Chillies, onions, potatoes and ragi were also included in the notification on various dates.

16. It was, of course, not possible to shut down exports of foodgrains from India altogether. India supplies a considerable proportion of the world's requirements of rice, and there are many rice-eating countries which are almost entirely dependent on India for their food supplies. Many of these countries, moreover, besides being included in the British Empire, contain large resident Indian populations, Ceylon, the Straits Settlements, Mauritius and South

Restriction on exports.

The Ration Scheme.

Africa are cases in point. For political reasons, moreover, it was important to supply certain countries, and the resumption of the pilgrim traffic made it imperative to send foodstuffs to Jeddah. One of the first duties, therefore, taken up by Mr. Gubbay and Mr. Hullah (who had been appointed Deputy Foodstuffs Commissioner) was the devising of a rationing scheme. Certain countries, although large importers of rice from India, were eliminated altogether as having no special claim on India, and it was announced on the 17th December that it would not be possible to grant licenses for shipment to Australia, Canada, the Dutch East Indies, China and various other countries. 300,000 tons were then earmarked for the Royal Commission (it has already been mentioned that this quantity was subsequently reserved for India), and a preliminary estimate was made of India's probable requirements. The balance remaining for export was then divided up between countries regarded as having a special claim on India, and was distributed among the different Indian ports. Exports from Madras and Karachi were closed down altogether, and the bulk of the exports were made from Burma. Details of the rice rationing scheme as finally settled by Mr. Gubbay are given in appendix III to this report. In most cases the rations allowed were much below the quantities of rice normally imported by the countries concerned, and in order to give them time to exploit other sources of supplies, they were allowed to overdraw in the first quarter of 1919. The effect of the scheme was also obscured at first by the fact that at the end of 1918 the Royal Commission held large stocks of old crop rice in Burma for which it had not been able to provide shipping. Shipments of these stocks still continue, and this fact explains the exports to Egypt, Sweden and some other countries which appear in the sea-borne trade returns, and which have occasioned some comment in the press. I do not propose to enlarge on this matter. It is sufficient to remark that the rice was old crop rice bought at a price much above the controlled price for the 1919 crop and therefore useless to India, and that much of it had been bought for allied or neutral countries under agreements effected during the war and therefore could not have been resigned by the Royal Commission even if the Government of India had pressed this course. Moreover, it was shipped at a time when there was far more of the 1919 crop in the Burma ports than we could arrange to lift to India. I should explain that it was not possible absolutely to adhere to Mr. Gubbay's rationing scheme. Most of the modifications made were unimportant and consisted mainly of transfers of allotments from one port to another. But the allotment made to Ceylon had largely to be increased. This island, which contains more than 4 million people including a large resident Tamil population, has only a small area under food crops, and is almost entirely dependent on India for its food supplies. For reasons into which it is unnecessary to enter but which were accepted by the Government of India as satisfactory, the Government of Ceylon were not able to make up the deficiency between their ration and their normal supplies from India by imports from the only two free markets, Siam and Saigon, and the Government of India were compelled to assume responsibility for providing the Island's minimum requirements, namely 26,000 tons of rice a month. Had they not done so, the island would have starved, the tea and rubber industries would have been ruined, and there would have been a large influx of starving Tamil coolies back into Madras. The task of supplementing the sanctioned allotment was not easy. But as the situation in India improved with the harvesting of the *kharif* crops, licensed importers of Burma rice in various ports found themselves with stocks of Burma rice for which there was no demand and which could not be sold except at a loss. These surplus stocks were utilised in feeding Ceylon, and it was also found possible to make additional allotments from Burma. In the end we were able to make available for Ceylon during 1919 a large proportion of her normal supplies of Indian rice amounting to some 315,000 tons. A small additional allotment was also sanctioned for the Straits Settlements, but much of the Foodstuffs Commissioner's time was taken up in rejecting appeals from countries east of Suez for supplies of rice. Similar rationing schemes for wheat, wheat flour and other grain and pulse were drawn up in respect of exports from Bombay, Karachi and Calcutta, but the amounts involved were small, and it is not necessary to go further into detail.

17. A statement is appended which exhibits statistically the effect of these measures. Effect of restrictions.

Comparative Statement of exports.

(Tons).

Grain.	Average nine years ending 1917-18.	1st six months 1918-19.	2nd six months 1918-19.	1st six months 1919-20.	Total columns 4 and 5.	Difference between columns 6 and 2.
1	2	3	4	5	6	7
Rice	2,044,011	1,253,674	763,647	228,012	991,659	1,052,352
Wheat	1,122,537	445,886	80,237	4,207	84,534	1,088,003
Jowar and Bajra	44,937	4,165	1,231	2,278	3,509	41,428
Barley	210,788	170,647	55,705	342	56,047	154,741
Gram	120,143	223,653	58,539	2,561	61,100	59,043
Total grain, pulse and flour	3,834,757	2,243,487	1,003,823	312,144	1,315,967	2,518,790
Total grain, pulse and flour excluding Burma rice.	2,299,708	1,225,300	379,943	132,385	512,328	1,787,375

It will be seen that if exports of Burma rice be excluded, exports of grain, pulse and flour from India proper were reduced in the year ending 30th September 1919 to slightly more than 500,000 tons or rather more than one-fifth of the annual normal exports of just under 2,300,000 tons. A saving was affected to India in this way of about 1,800,000 tons of food grains.

(2) IMPORT POLICY.

(a) *Burma rice control.*

18. Before describing the measures adopted for the control of the Burma rice trade in 1919, it may be of interest to give a brief account of the inception and extent of the operations of the Royal Commission on Wheat Supplies in respect of Burma rice in 1918, especially as those operations have been the subject of considerable misapprehension in the press. In September 1917 it was evident from reports in the newspapers as well as from representations received by the Government of India, that the position of the Burma rice trade was becoming critical, and the Government of Burma were asked to report what the position actually was. In reply they stated that owing partly to the shortage of shipping and partly to the curtailment of markets, a large proportion of the 1916 crop was still on the local market, that the price of paddy had dropped to Rs 78 per 100 baskets, a price which had not been touched at that season of the year in any of the previous 17 years, that if no relief could be arranged the price would probably drop to Rs 60 when the new crop came in, and that the cultivators would be involved in very heavy loss. Urgent representations were at once made to the Secretary of State that additional tonnage should be provided for the Burma rice trade, and the suggestion was also made that the United Kingdom and her allies might welcome supplies of Burma rice. The Secretary of State, in consultation with the Shipping Controller, was able at once to relieve to some extent the shipping position, but in December 1917 more important developments ensued. The Secretary of State cabled out that it was proposed to supply the allied countries with 100,000 tons of Burma rice monthly in 1918, and in view of the immense quantities involved, he asked that local arrangements might be made which would ensure continuous supplies at a reasonable price. These arrangements were made by the Local Government in consultation with the trade. The export of rice to all destinations was prohibited except under license, and purchases on behalf of the Royal Commission were entrusted to a Rice Commissioner who in distributing the contracts among the millers was assisted by an Advisory Committee. The Royal Commission naturally provided the

Operations of
Royal
Commission
Wheat Supply
1918.

tonnage for the rice purchased on its account, and in this way the situation in Burma was saved. The amount of rice purchased for the Royal Commission in 1918 was 788,632 tons, and the price paid amounted approximately to £6,020,000.

Gubbay's
me of control.

19. The Royal Commission originally agreed to pay for the rice supplied on its order on the basis of R105 per 100 baskets of first quality Europe paddy delivered at Rangoon or Bassein. This price was considerably higher than the Royal Commission had been paying, but they agreed to it on the representation of the Government of Burma that it was the average price of paddy in Rangoon in the three months January, February and March in the 20 years preceding the war, and that with due regard to the interests of the Burma cultivators, the price could not be fixed at a lower figure. As a matter of fact, the price was not fixed under the Defence of India Rules or otherwise made effective. Wide publicity was given to the fact that the Royal Commission had agreed to pay for the rice it required on the basis of R105 per 100 baskets of paddy, and it was hoped and believed that the cultivators would stand out for this figure. But the 1917-18 crop was an exceptionally good one, and paddy poured down into the ports in such quantities that the millers, especially as the supplies of tonnage were irregular, were able to obtain their requirements at a price much below Rs. 105, and it became necessary to revise the terms of the contracts between the millers and the Royal Commission. The price of paddy remained low in the first six months of 1918. It averaged R89 in May, R93 in June and R98 in July, but when it became apparent that the monsoon in India threatened to be a failure, prices rose rapidly. The average price in August was R112, in September it rose to R150 and in October to R162. When Mr. Gubbay arrived in Rangoon in the middle of November the price had touched R180, a figure never before reached at this season of the year. The market was in a very sensitive mood, and prices were rising in response to every demand from India. This sensitiveness was due to the fact that it was certain that India must require large supplies, and was accentuated by competitive buying in Burma by merchants from Bombay, Madras and Mysore. It was also thought that need for rice in India was so urgent that Mr. Gubbay must take over the balance remaining of the 1918 crop (which was estimated at between 100,000 and 150,000 tons) at any price which those who held that balance might choose to fix in combination with one another. Mr. Gubbay, however, destroyed these hopes by stating that he had no intention of taking over the balance of the 1918 crop, and he contented himself with devising in consultation with the big millers, the small millers and the Government of Burma, a scheme for the control of the 1919 crop. The main features of his scheme as announced in a press communiqué issued on the 25th November were as follows:—

- (1) Licenses would be required for export to any destination.
- (2) The quantities which might be shipped to any destination would be determined by the Government of India;
- (3) Licenses to ship rice of the 1919 crop to authorised destinations within the quantities allowed by the Government of India would be granted only on satisfactory evidence being furnished that the price paid or to be paid for the rice which it was intended to ship was not in excess of the controlled basic price, and
- (4) The maximum buying price for the Burma rice crop of 1919 was fixed at R335 *ex* hopper for the quality known as big mills specials.

It may be explained that the prices of other qualities of rice in the province bear a definite relation to the price of big mill specials, and that the price of rice in the Burma market bears a definite relation to the price of paddy. The rice price is made up of (1) the price of paddy, (2) the milling hire and (3) the cash out-turn *i.e.*, the quantities of white rice and *kuddis* or broken obtained in the course of milling from a given quantity of paddy (2) is a fixed charge and (3) depends on the milling quality of the paddy, but without going further into a very technical matter, it may be said that price of R335 fixed by Mr. Gubbay for 100 baskets (each of 75 lbs.) of big mills specials represented

a price of R124 for 100 baskets (each of 46 lbs.) of paddy. This price was undoubtedly fair and even liberal. In the 10 years preceding the war the medium average price for paddy in the first quarter of the year had been R116; in the three years ending 1917 the average had been R105; in 1918 the average had been R97, and the settlements in Burma assume a price of R105. Mr. Gubbay in fixing the price of big mills specials at R335 added about 20 per cent. to the price assumed by settlement officers, and in doing so he was guided by the considerations (1) that the paddy cultivator in Burma naturally expected that the necessities of the world for food would bring him compensation for the lean years which he had experienced since 1914, and (2) that his price must be sufficiently liberal to make it certain that paddy would come down freely. Mr. Gubbay's system of control, as already explained, applied only to the 1919 crop which would not come on to the market till January, but the issue of his press communiqué on 23th November 1918 led to an immediate fall in the price of old crop paddy. In the first week of December the price of paddy had dropped to R140 and during the course of the month it fell to R110, a figure well below the maximum permissible under the control scheme.

20. A number of officers were engaged in working the control. The Foodstuffs Commissioner, with the approval of the Government of India, fixed the quantities which might be licensed monthly for import into the different ports of India. The Agent to the Shipping Controller (or, as he afterwards became, the Shipping Controller in India) was responsible for providing the tonnage as far as it was available. The Directors of Civil Supplies in Bombay, Madras and Calcutta, issued licenses for import up to the quantities allotted by the Foodstuffs Commissioner, and the Deputy Foodstuffs Commissioner (Rice) under which name Mr. Stevens, the Rice Commissioner, had been transferred to Mr. Gubbay's staff, supervised the working of the scheme in Burma. He licensed shipments and satisfied himself that the maximum buying price had not been exceeded by the shippers. The control came into force with the arrival of the new crop in January, and for the first three months of the year it worked, by common consent, remarkably well. Paddy poured down into the ports in normal quantities, and while shippers experienced no difficulty in obtaining all the rice they required at or below the control price, the cultivators obtained a reasonably good price for their paddy, as will be seen from the average prices for January, February and March noted in the margin. In fact when Mr. Gubbay visited Rangoon in March, the only complaint made to him in respect of the working of the control was that sufficient tonnage had not been provided.

Working of the control.

	R
January	119
February	122
March	128

21. Even in March, however, the price of paddy had risen slightly above the parity of the maximum controlled price for rice, and in April it became evident that the control was breaking down. There was sufficient rice already licensed and contracted for to fill our steamers for some time to come, but Mr. Stevens reported that unless early action were taken the time would soon arrive when it would be difficult to find rice for the shipping provided. Accordingly at the end of April I, who had in the meantime succeeded Mr. Gubbay as Indian Foodstuffs Commissioner, proceeded to Rangoon to investigate matters on the spot. The general position when I arrived was that the millers had stopped selling rice of the controlled qualities, and that the price of paddy had advanced far beyond the parity of the controlled rice price. As already noted, Mr. Gubbay had fixed his maximum price for rice on the basis of R124 for 100 baskets of paddy. At the time of my arrival transactions in paddy had been reported at R150 and R155, and one transaction at R165. It was evident therefore that the control scheme had temporarily broken down. It was freely said in the bazaar that the price control no longer existed, and it was an open secret that certain shippers were evading the control. The most common method of evasion was for the shippers to pay, in addition to the nominal control price, secret bonuses for the rice they bought.

Temporary breakdown of the control in April-May.

22. My enquiries showed that this temporary breakdown of the price control was due to a variety of reasons. In the first place, the rule that rice

its causes.

might not be exported unless Mr. Stevens was satisfied that the transaction was not effected at a price above the control price was not, and could never be, in itself a really effective safeguard against dishonesty. Up to the end of March, it worked well enough, but merely because owing to the arrival of the new crop and the glut of paddy in the ports the market price of rice was below the control figure. As soon as the point arrived when rice could not be bought at the control price, the rule ceased to be effective. It was not possible for Mr. Stevens to check every shipping bill, and even in cases where he was dissatisfied and called for further information, it was quite easy for a dishonest shipper to put in a false bill. The next point, which impressed itself on me, was that no system of control in Burma could by itself be effective. The first condition of success in Burma was that price control in India should be real, and there was little doubt that laxity of control in India had contributed to the temporary breakdown of control in Burma. His Honour the Lieutenant Governor laid great stress on this point, and it was emphasised by everyone whom I consulted in Burma. It was obvious that if the licensees could evade the price control in India, and if they could make large illicit profits on the rice which they imported from Burma, they would find means of evading the control in Burma. The first conclusion I came to, therefore, was that control in India must be tightened up, otherwise whatever measures were taken in Burma must prove ineffective. This point was important for other reasons on which His Honour the Lieutenant-Governor laid emphasis. If we had not restricted the export of rice from Burma, prices would have been much higher than those fixed by the control. It might reasonably be argued that the necessities of India justified control in Burma, but obviously there was no justification for limiting the profits of the miller, the merchant and cultivator in Burma unless steps were taken to ensure that the consumer in India, and not the profiteer, got the benefit of the artificial lowering of the price. In addition to laxity of control in India, faulty methods of issuing licenses had also enhanced the difficulties of the position. Originally it was the intention that the Director of Civil Supplies of importing provinces should work as far as possible through the ordinary trade channels, and should issue licenses to established shippers. Moreover, in some provinces there was at first a reluctance on the part of merchants to take the risk of importing rice, and the Director of Civil Supplies welcomed any one who came forward to take up licenses. The result was that in some provinces the mistake had been made of issuing too many licenses and of issuing licenses for too small quantities. These licensees had competed against one another for rice in Burma, and, moreover, the greater the number of licensees, the greater the difficulties of control. Further, in the original control scheme the price of certain qualities of rice, such as Europe No. 1, boiled rice, and the lower grades of brokens, had been left uncontrolled. Fancy prices had been obtained for Europe No. 1 and boiled rice, and this fact had contributed to the rise in the price of paddy. The omission to control the lower grades of brokens had also opened the door to fraud. All these reasons had contributed to the temporary breakdown of the price control, but all whom I consulted were agreed that the main cause of the stagnation in the rice market was that the first rush of paddy had spent itself, and it is noteworthy that Mr. Gubbay in introducing the control scheme had clearly indicated his opinion that some raising of the control price would be necessary in April or May. At the time of my arrival in Burma, the cultivator was scarcely in the picture. The balance of the paddy had passed into the hands of the stock-holders. The exportable surplus was even smaller than had been supposed, and the Government of Burma had just issued a communiqué reducing its estimate of this surplus from 2,250,000 tons cargo rice to 2,110,000 tons. The stock-holders knew not only that the crop was short in Burma and that the exportable surplus was estimated officially to be nearly three-quarters of a million tons less than in the previous year, but also that famine conditions prevailed in India, and that India was in urgent need of large supplies of Burma rice. It was also believed that if the monsoon opened well in India, conditions would change and that the control would be relaxed in July. The stock-holders thought that then the Burma market would be opened again to the world generally, and that prices would rise to the extraordinary levels prevailing in Siam and Saigon. It was reported

that they could afford to hold till the end of the year, if necessary, or even longer, and it was obvious that they were in a strong position.

22. If I had been in a position to put up a bluff, the best course would undoubtedly have been to reduce the control price and divert the rice steamers for a month or two. This course was impossible for obvious reasons. In the first place, if I had diverted the rice steamers for a month or two it might have been impossible to collect the fleet again. Secondly, India was in urgent need of rice. I came to the conclusion, therefore, after consulting not only the Local Government but also the big millers, the small millers, and the Rice Merchants' Association, that there was only one way of inducing a free flow of paddy, and that was to raise the control price. Paddy had already been sold at Rs155 for 100 baskets, and I decided that no smaller price than Rs150 would have the effect of bringing out stocks. All whom I consulted were also agreed that it was essential that if the rice price was raised, the price of paddy should be fixed under the Defence of India Rules, and that it should be made clear to the stock-holders that if they continued unreasonably to withhold their stocks they would run the risk of having their stocks commandeered, and that if they sold above the maximum price, they would be liable to go to jail. Before, however, I could ask the Local Government to take action in this direction, it was necessary for me to satisfy them that I was offering a reasonable price to the stock-holders. It must be remembered that these stock-holders are an essential link in the chain of the paddy trade, and that it has been the policy of the Local Government in past years to encourage the ryot to hold up his stores of paddy. An examination of the statistics of paddy prices between May and December showed that in the previous ten years the average price in these months had been as high as Rs172 in 1912, and Rs155 in 1911. In 1915 it was Rs141. In no other year had it been more than Rs128, and in five years out of the ten it was less than Rs120. Judging by these figures, no reasonable cause of complaint would have been given if the paddy basis had been fixed at Rs145 or even Rs140. But the main thing was to tempt out stocks of paddy. It was doubtful whether commandeering on a large scale was possible, and in any case I regarded commandeering as a weapon to be held in reserve rather than as an ordinary means of bringing out paddy. For the purpose of bringing out the paddy, it was necessary to rely mainly on an attractive price. I therefore recommended to His Honour the Lieutenant-Governor that the rice price should be increased so as to enable millers to pay up to Rs150. His Honour, after examining the price statistics submitted to him, accepted this price as a reasonable price in all the circumstances of the year. Accordingly on the 8th May, with his approval and that of the Government of India, I issued a press communiqué. I raised the maximum control price of rice in Burma from Rs335 per 100 baskets of big mills specials to Rs385, this being the equivalent of Rs150 per 100 baskets of paddy. The maximum prices of other qualities of rice were revised in the same proportion, and practically every quality of rice known in the trade in Burma was brought under control. It was announced that the Government of India had issued a notification under rule 11-J. of the Defence of India Rules declaring that it was necessary to control the supply of rice in Burma and that in the exercise of the powers conferred on them by this notification the Government of Burma intended to prescribe that the price at which paddy might be sold in Burma should not exceed Rs150 per 100 baskets delivered at the mills in the various Burma ports. It was also stated that there was no foundation for the belief that the rice control was likely to be relaxed in July or August, and that, if necessary, the Government of India would retain control until the 1919 crop had been completely disposed of.

23. For reasons for which the Local Government were in no way responsible, the notification prescribing the maximum price for paddy was not issued till the 17th May, and some further time elapsed before the news penetrated into the jungle. But as soon as my press communiqué was issued, the price of paddy dropped to Rs150, and as soon as stock-holders became aware of the Local Government's notification, paddy, arrivals of which had dropped alarmingly at the end of April, again began to move freely down to the ports.

On my return to India, I visited Calcutta, Madras and Bombay and discussed with the Directors of Civil Supplies the question of tightening up rice control in India. The measures adopted will be referred to later, but it may be mentioned that they consisted chiefly of a rigorous limitation of the number of licensed importers with the object of rendering control at once easier and more effective. For two months everything worked smoothly, but with the signing of the peace treaty in July, the rumour again revived that the relaxation of control was imminent, and the price of paddy at once hardened. Millers were unable to obtain paddy at controlled prices and consequently were unwilling to enter into fresh commitments, and complaints were received from Madras, Calcutta and Bombay that licensees were experiencing difficulty in securing rice. It was also reported that speculators in Burma had brought up large stocks of rice, and that large premia had been paid in addition to the control price. On the 31st July a press notice was issued that the control would not be relaxed until the 1919 crop had been disposed of and that in any event it would be maintained till the end of December 1919. On the 1st August the Local Government issued a notification prescribing the control prices for rice announced in the press communiqué of the 8th May as maximum prices under the Defence of India Rules, and authorising the commandeering of rice in the event of its being unreasonably withheld. Finally, it was decided to make an example of stock-holders who refused to sell paddy at the controlled prices by commandeering their stocks. The *modus operandi* as finally settled by the Local Government was as follows. The different centres for paddy were divided up by arrangement among the millers. The names of stock-holders, so far as they could be ascertained by Mr. Bower, who had succeeded Mr. Stevens as Deputy Foodstuffs Commissioner (Rice) in May, were communicated to the millers, and they were instructed to approach the stock-holders with a firm offer for their stocks of paddy at the equivalent of control rates. In the event of a refusal, it was decided that notices should be served on the stock-holders requiring them to deliver the stocks at a specified wharf or station within a specified period, the millers being left to make their own arrangements to take delivery. A number of notices were served on stock-holders, but as was to be expected, it was not found easy actually to secure the paddy. The measures taken, however, had the desired effect, and very large quantities of rice were secured for India in August, September and October without any serious difficulty, nor was any shipping held up for lack of rice. Fortunately the final official estimate of the exportable surplus (2,100,000 tons cargo rice) turned out to be too low. By the middle of October 1,953,256 tons of white rice equivalent to nearly 2,300,000 tons cargo rice had arrived in the ports, and paddy was still coming down at the rate of some 20,000 tons a week.

24. I may here break off to refer very briefly to two questions which have had a very direct bearing on the supplies of Burma rice to India, namely, the arrangements for control over shipping and the rates of freight charged for the conveyance of rice to the different Indian ports. At the end of 1918, control was exercised over British vessels by arrangement with the Ministry of Shipping at home and in respect of foreign vessels by virtue of the powers conferred on the Government of India by rule 14-A. of the Defence of India Rules. The powers of control were vested in an officer styled the Agent to the Shipping Controller in the East, an appointment held by Major R. Douglas Story. In February 1919, however, the Government of India found it necessary to take further powers. Information had been received from home that it was proposed very shortly to terminate the Liner Requisition Scheme, but that the Ministry of Shipping would retain the powers of licensing and direction of vessels registered at ports registered in the United Kingdom. Control, therefore, could still be exercised over such vessels by arrangement with the Ministry of Shipping, but there was no power to control British vessels registered in Indian ports or ports other than those of the United Kingdom. Consequently the powers conferred by rule 14-A. of the Defence of India Rules were extended to include the licensing and direction of all vessels, whether British or Foreign, not registered at ports in the United Kingdom. The effect of the rule as amended was that owners of such vessels were required to obtain licenses from Major Story before proceeding to sea from an Indian

port, and to submit such licenses to the Collectors of Customs at the various ports when applying for Port Clearance.

This action was taken solely for the purpose of ensuring that adequate tonnage should be available for the conveyance of rice from Burma to India, and for the same reason, the Government of India resisted pressure from home that the policy in India with regard to shipping control should be brought into line with the policy decided on at home and that detailed control and direction of shipping should be dispensed with as far and as quickly as possible. But when the post of Shipping Controller was abolished at home, it was no longer possible to retain Major Story as Agent to that officer, and in March 1919 he was appointed Shipping Controller with the Government of India. As already explained, one of his duties was to provide the tonnage necessary for the execution of the Foodstuffs Commissioner's monthly programme, and in the first three months of the year his task was a very difficult one. The shipping available in Indian waters was very limited in comparison with the demands for rice for India, and the position in Bombay at the beginning of April was critical. Urgent representations were made to the Secretary of State as the result of which the Ministry of Shipping made additional tonnage available for the rice traffic and also expedited the return of requisitioned ships to the British India and Asiatic Steam Navigation Companies. Thus in spite of the fact that successive reductions in the freight charges on rice gradually drove foreign ships (on which we relied greatly in the early part of the year) away from Indian waters, the tonnage position steadily improved. Indeed as the year advanced, the problem of supplying India with rice completely changed. In the early months of the year the difficulty was one of shipping. In the later months, as the exportable surplus in Burma gradually approached exhaustion, it was one of rice. Since May, indeed, a periodical anxiety has been the bunching of steamers and consequent congestion at the ports. However carefully the shipping programme was arranged and however meticulously steamers were spaced out, unforeseen accidents and delays would occur, and a bunch of rice steamers would arrive simultaneously at a port. Congestion in the docks would follow, and congestion in one port invariably led a month later to congestion in another. The most anxious time was at the end of May when I had 900,000 bags of rice in the Port Trust sheds at Bombay with another 80,000 tons afloat *en route* to the port. But by heroic efforts on the part of the Director of Civil Supplies, the Port Trust authorities, the railways and the merchants, the sheds were cleared in a remarkably short space of time, and the crisis passed away. The steamer companies also were sympathetic and forebore to press their claims for demurrage. I should here like to express my obligations to Major Story. His achievements in the matter of supplying shipping will be exhibited statistically below and will speak for themselves. But one of my chief difficulties was the bewildering rapidity with which the foodstuffs position was apt to change, and I was constantly calling upon Major Story to alter his programme and provide at short notice large quantities of tonnage for particular ports. He never failed me. Another pleasing feature of the shipping control (if I may be permitted to travel rather out of my sphere) was the complete absence of friction with the two great Indian Shipping Companies, the British India and the Asiatic Steam Navigation Companies. I had frequently to consult and negotiate with these two companies, and I should like to testify to the assistance and courtesy which invariably I received from them.

25. The following table shows the rates of freight on rice from Rangoon^B which were in force at the end of 1918 :—

Port of destination.	Rate of freight per ton.	Pre-war rate per ton.
	Rs	Rs A.*
Madras	42	9 8
Calcutta	22	5 0
Bombay	55	9 8
Alleppy	55	9 8
Cochin	55	9 8

*Gross rates. Rebates were allowed.

A freight rate of Rs55 per ton represented an addition of 52 per cent. to the *ex-hopper* price of big mills specials as fixed by Mr. Gubbay, and as soon as he returned from Burma in the beginning of December, he was directed by the Government of India to consider whether some reduction of freight could not be secured. Under the system of control then in vogue, rates of freight were fixed by Major Story in consultation with the Shipping Controller at home, but the danger was that if freights were materially reduced, foreign ships would desert Indian waters for more remunerative markets, and much of our essential tonnage would be lost. After discussion with Mr. Gubbay, however, Major Story agreed with effect from January 15th to reduce the rates of freight on rice from Rangoon to Rs40 per ton for Bombay, Rs35 per ton for Tuticorin and West Coast ports, Rs30 per ton for Madras, Negapatam and Cuddalore, Rs20 per ton for Calcutta and Rs42 per ton for Karachi. At the end of the month a further reduction was secured. The position had been entirely changed by the announcement of the approaching termination of the Liner Requisition Scheme, and questions of freight instead of being decided by the Shipping Controller were henceforward a matter for negotiation with the two companies chiefly concerned, namely the British India and the Asiatic Steam Navigation Companies. Negotiations were at once opened by Mr. Gubbay and Major Story, and on the 30th January the former was able to announce that the rates of freight for foodstuffs from Rangoon and Akyab were reduced as below:—

To—	R	
Bombay	30	} Less a rebate of 10 per cent. on the usual terms.
Malabar ports	32	
Madras and East Coast ports	28	
Karachi	35	
Calcutta	20	

Slightly higher rates were fixed for Bassein and Moulmein and the revised rates were guaranteed for three months. On the expiry of this period in April, I again interviewed the two companies as to the possibility of securing a further reduction of the rates, and as the result of these negotiations, the rates were finally fixed with effect from the 1st June at Rs24 for Bombay, Rs26 for Tuticorin and Malabar ports, Rs22-8 for Madras, Negapatam and Cuddalore and Rs. 16 for Calcutta. These rates, of course, are still high compared with those prevailing before the war, and they have been criticized on that ground. But they are much lower than those obtaining for other kinds of cargo—for instance Rs72 per ton have freely been paid on timber from Rangoon to Madras—and it is, perhaps, a sufficient answer to criticism that the announcement of the new rates was followed by the disappearance of the Dutch tonnage which Major Story had hitherto been able to use for the transport of rice. These steamers henceforth avoided Indian waters lest they should be impressed into the service of the foodstuffs programme.

26. The following statement shows the amount of Burma rice shipped to India between the 1st January and 31st October 1919:—

	Tons.
Bombay	734,251
Calcutta	442,609
Chittagong	92,118
Port Blair	1,418
Madras	211,654
Negapatam	80,756
Cuddalore	20,321
Tuticorin	59,582
Karachi	7,128
Cochin	59,247
Calicut	10,996
Alleppey	58,615
Other Madras ports	4,898
Total	1,732,643

In the ten years ending 1917-18 India's imports of Burma rice never exceeded 1,139,978 tons in any one year, and it will be seen that in the first 10 months of this year shipments of rice from Burma to India exceeded this figure by nearly 600,000 tons. Except a few thousand tons shipped in January, the whole of this quantity was rice supplied under the control scheme, and the saving to India must have been enormous. I do not propose to enter at any length into the price at which the rice was sold in India. The price varied, of course, not only according to the quality but according to the ex-hopper controlled prices in Burma, the f. o. b. charges (which were revised by Mr. Stevens in May with my sanction), the rate of freight, and the profit allowed to the importer. It is sufficient to say that in Bombay in July the whole-sale controlled prices of the different qualities of Burma rice varied from Rs 4-0 per bag of 168 lbs. for the lowest quality of brokens to Rs 13-15-6 per bag for long grain special, the most expensive quality of boiled rice. The controlled price for small mill specials was Rs 12-0-3 per bag of 168 lbs. or Rs 8 per cwt., and it is interesting to note that according to information collected by Mr. Bower, this same quality of rice was selling about the same time at Rs 14 per cwt. in Java and Saigon, at Rs 15 in Siam and at Rs 18 in Japan. In most cases, moreover, the prices quoted by Mr. Bower were controlled prices. It has been ascertained from the Government of Ceylon that they had to pay in Bangkok, Hong Kong and Singapore prices for rice varying from Rs 27 to Rs 57 per bag f. o. b. The f. o. b. prices of the corresponding qualities of Burma rice in Rangoon at the same time varied from Rs 8-9-3 to Rs 10-2-4 per bag. Mr. Gubbay's controlled ex-hopper price of Rs 335 per 100 baskets of 7,500 lbs. of big mills specials is equivalent to Rs 100 a ton, and my revised price of Rs 385 per 100 baskets represents Rs 115 per ton. It is generally agreed that if it had not been for the control the price of big mills specials would have risen to Rs 500 (equivalent to Rs 150 per ton) or even higher. But even if we make the very conservative assumption that had it not been for the control, the average wholesale price of Burma rice in India would have been Rs 30 per ton higher, it means that the saving in India by the operation of the price control on the 1,700,000 tons imported amounted to more than 5 crores of rupees.

27. An equivalent loss was, of course, caused to Burma, and in Burma the whole scheme of control was fiercely assailed. It was asserted that the Government of India were feeding India at the expense of the Burman cultivator, and it was pointed out that instead of attempting to control the price of wheat in Canada and Australia, the British Government were paying £50 million sterling a year to keep the price of the quartern loaf at home at 9d. I do not think that I need reply at any great length to these criticisms. It is, of course, true that the prosperity of the cultivator in Burma is bound up with the prosperity of the export trade in rice. Indian cultivators had prospered greatly during the war owing to the high prices obtained for their cotton, their wheat, and their oil seeds. The Burman cultivator, on the other hand, had passed through a series of lean years and naturally looked to recouping his losses. Extremely high prices ruled for the rice exported from Siam and Saigon in 1919, and it must have been extremely galling to the Burman to find himself prevented from reaping similar profits. Quite naturally this point of view was strongly pressed in the press and on the platform in Burma, but I do not think that anyone in Burma ever expected that the Government of India or the Local Government would take this line of argument seriously. Reduced to its essentials, it amounted merely to a plea that the Government of India should stand aside and leave the rice trade of Burma to take advantage, for the purpose of profiteering, of the necessities of India and of the world shortage of food which was the direct consequence of the war. Mr Gubbay had shown how the rice trade of Burma could be brought under control, and having regard to the needs of India, of which Burma is a part, it would have been a clear dereliction of duty on the part of the Government of India if they had omitted to use the weapon which Mr. Gubbay had forged. At the same time, both Mr. Gubbay and I realised the necessity of dealing fairly with the cultivator, the stock-holder, and the miller in Burma, and had we not done so, the control scheme would at once have broken down. In making it effective, we had to rely very largely on the

co-operation of the Government of Burma, and at every stage we had to satisfy the Local Government that the interests of Burma had been duly safeguarded. With this aspect of the question I have already dealt. It is here sufficient to mention that the average price for paddy in this year has only twice been exceeded in the last 17 years, and I do not think that we can reasonably be accused of illiberality. The people of Burma, no doubt, will still continue to nurse their grievance, but at any rate they have the consolation of knowing not only that Burma rice has been the salvation of the situation in India, but also that had it not been for the control, their experience would have been the same as that of the people of Siam. Until the 12th June 1919, Siam was a free market for rice, and no embargo was placed on exports. Unprecedented prices were obtained, and exports were very heavy. They were so heavy in fact that the country was drained of rice. Prices were driven up for the consumer in Siam, and large sums of money had to be advanced by the Treasury "for the purpose of buying and transporting rice for the relief of the people." I quote from a notification issued by the Siamese Board of Rice Control on the 28th August 1919. It must also be remembered that while, on the one hand, we regulated exports of rice from Burma, we also provided the shipping necessary to take away that rice. I append below the latest statement of the rice position received from the Deputy Foodstuffs Commissioner (Rice):

Rice position for the period ending 4th November 1919, in tons of white rice.

1	2	3	4	5	6	7	8	9
Port.	Estimated 1919 crop available for export.	Lardings in the ports.	Shipments of 1919 crop including all steamers cleared up to 14th October.	Balance awaiting shipment (8-4).	Quantity of 1919 crop still to arrive (2-3).	Tonnage now loading.	Tonnage expected.	Estimated balance for which no tonnage has been fixed.

* Equivalent to 2,400,000 tons cargo rice.

33. It will be seen that we lifted practically the whole of the 1919 crop, and that every port in Burma was extremely well served with shipping. Mr. Gubbay and I both owe a deep debt of gratitude to His Honour the Lieutenant Governor, not only for his advice which was always freely at our disposal, but also for his consistent support of the control scheme when once he had accepted it. Mr. Stevens worked under me as Deputy Foodstuffs Commissioner (Rice) only for a short time. But his unique experience of the rice trade in Burma was invaluable, and he was of great assistance both to Mr. Gubbay when he was working out the control scheme, and to me when I was revising it. Mr. Bower succeeded Mr. Stevens in May 1919. His previous training, both in the Customs Department and in the office of the Shipping Controller, served him in good stead, and he was a most useful Assistant. I venture to bring the good work done by both these officers to the notice of the Government of India. There is one other remark that I should like to make. I have made above certain criticisms on points of detail in Mr. Gubbay's scheme of control, and I should like to make it clear that every one whom

I consulted in Burma considered that the control had worked marvellously well, and that whatever scheme had been devised in December modifications would have been necessary in April.

(b) *Imports of Australian wheat.*

34. As soon as Mr. Gubbay returned from Burma in the beginning of December 1918, he was directed by the Government of India to consider the possibility of importing wheat from Australia. The wheat position in India was then very difficult. In spite of the announcement by the Government of India in the beginning of October of the termination of purchases for the Royal Commission, prices of wheat in the Punjab and the United Provinces had touched the record. The balance of the 1918 crop had passed into the hands of stock-holders, the prospects of the 1919 crop, owing not only to restricted sowings but also to the continued holding off of the winter rains, were not bright, and there was reason to believe that stocks were being hoarded up in the Punjab and the United Provinces in the hope of prices being forced still higher. It was impossible to apply to Indian wheat a system of control similar to that devised for Burma rice, and it was decided that there was no method either of tempting out the stocks of wheat held in the country or of keeping down prices other than that of turning the markets on to a new source of supply. Large stocks of wheat were known to exist in Australia, and on the 9th December preliminary enquiries were addressed to the Secretary of State as to the possibility of securing a share of these supplies for India. At first it was hoped that the business of import could be left to private firms, but the scarcity of tonnage, the high rates of freight, the uncertainty of the Indian market and the risk of serious loss all made it impossible for private enterprise to touch the business, and the Government of India were compelled themselves to assume the responsibility and to take the risk. Thanks to the good offices of the Secretary of State, however, very favourable terms were secured from the Royal Commission on Wheat Supplies and the Australian Government. Both agreed to supply wheat at cost price, and in recognition of the assistance received by the Home Government from India during the war in the matter of wheat supplies, the Treasury agreed to freight being charged for at bare cost, the rate being estimated at 50 shillings per ton. It was stipulated, however, that the wheat should not be sold at a profit in India. These terms were gratefully accepted by the Government of India, and arrangements were made for the shipment to India of 50,000 tons of wheat in each of the months of February, March and April. Of this quantity, 120,000 tons were sold by the Royal Commission at cost price, namely shillings 44-6 per quarter of 480 lbs., while 30,000 tons were purchased from the Australian Government at shillings 44 per quarter f. o. b. Australia.

35. The next step was to settle the method of finance and to arrange for the handling of the cargoes on their arrival in India. At that time a large number of flour mills in India had been taken under control by the Controller of Contracts, and these mills were employed entirely on producing flour and *atta* for the troops, wheat being supplied to them for the purpose. It was originally intended that the bulk of the imported wheat should be utilised by these controlled mills and that the balance should be sold to uncontrolled mills in Bombay and Calcutta. It was arranged that payment for the wheat and freight should be made at home by the Secretary of State, and that the Government of India should recoup themselves from the sale-proceeds in India. Supplies made to controlled mills, of course, involved no payments by the mills, but it was anticipated that the reduction of the payments then being made for purchases of Indian wheat would reduce military expenditure, and that this reduction combined with direct recoveries from uncontrolled mills would tend to ease the strain on Indian balances. As a matter of fact, for reasons which will be explained later, supplies to controlled mills were small, and the great bulk of the imported wheat was sold to uncontrolled mills and merchants in Bombay and Calcutta. The arrangements for finance, therefore, whereby the wheat and freight were paid for in sterling in London while the sale-proceeds were recovered in rupees in India, were of some assistance in relieving the ways and means problem in India since, in effect, the rupee payments

represented a retransfer to India of funds locked up in London. The successive rises in exchange, moreover, which took place between May and October 1919 also helped to protect the Government of India from loss in respect of transactions of an unusual character which involved very large sums of the tax-payers' money.

36. The condition that the wheat must not be sold at a profit made it necessary that the firms selected to deal with the wheat on arrival should work merely as agents of the Government of India. The firms selected were Messrs. Louis Dreyfus and Company at Bombay and Karachi, and Messrs. Shaw, Wallace and Company at Calcutta, both these firms having offered to dispense with any commission and to charge merely on the basis of actual expenses incurred. After negotiations with these firms, *pro forma* charges were finally agreed to by the Foodstuffs Commissioner. In Bombay and Karachi they covered the following items:—(1) Terminal tax, (2) town duty, (at Bombay only), (3) weighing on arrival, (4) loading on boats, (5) unloading, (6) sewing on steamers and replacing gunnies, (7) weighing on delivery, (8) godown rent, (9) establishment charges, and (10) fire insurance. All these charges, except the first three, were arranged for on a contract basis. In Calcutta a similar *pro forma* was drawn up, though naturally the details differed, but Messrs. Shaw, Wallace and Company preferred to work on the basis of expenses actually incurred. In addition to the above charges, allowances were made for loss in outturn, quality, loss in interest and marine insurance (3-10%). Marine insurance was effected by Messrs. Shaw, Wallace and Company at the contract rate for all wheat ships arriving at Calcutta, Bombay and Karachi. The charges under the above heads amounted to As. 7.1 per maund in Bombay, As. 6.6 per maund at Karachi and As. 5.5 per maund in Calcutta. The basis for the sale price was arrived at by adding to the *pro forma* the f.o.b. price of the wheat in Australia *plus* the freight charges, both converted at the current rate of exchange. Special officers were posted to Bombay and Calcutta for the purpose of effecting sales. Mr. C. W. Jacob, I.C.S., who had previously held the appointment of Wheat Commissioner, was appointed Deputy Foodstuffs Commissioner (Wheat) and was placed in direct charge of the operations under the Foodstuffs Commissioner with headquarters at Calcutta. Mr. O'Byrne, I.C.S., the Assistant Foodstuffs Commissioner (Wheat), was posted to Bombay. In June the need for a second officer having disappeared with the completion of sales in Calcutta, Mr. Jacob was transferred to Bombay, and Mr. O'Byrne reverted to his province. Both officers did very good work, Mr. Jacob's exceptional knowledge of the wheat trade due to his long connection with the operations of the Royal Commission being particularly useful. Sales at Karachi were small, and delivery orders were issued under the directions of the local Director of Civil Supplies.

37. The first wheat cargoes began to arrive from Australia in the beginning of March. In the meantime, the first forecast of the 1919 wheat crop had been received by the Government of India. It showed a decrease in the area cultivated with the crop of 33 per cent., compared with the previous year, and on the 11th February the Government of India had asked the Secretary of State whether supplies of Australian wheat to India could be raised to a total of 500,000 tons delivered at the rate of 100,000 tons a month. In view of tonnage difficulties and the demands of European countries, the Royal Commission were unable to accede to this request, but after some negotiations they agreed rather reluctantly to supply at a slightly higher price 75,000 tons in excess of the programme previously sanctioned. In the middle of April, however, the Royal Commission found it necessary to reconsider its decision. The United Kingdom, France and Italy had reached the period when home crops having passed into consumption, they were entirely dependent on imported supplies, and it was essential to utilise the limited shipping which the Shipping Controller was able to provide for the purpose of sending wheat to Europe. The Government of India accordingly were asked whether they would agree to the diversion to Europe of the 75,000 tons extra wheat previously promised them. At this period the wheat position in India was temporarily easier. Prices had fallen, and the new harvest was expected in the following month. The Government of India, therefore, agreed to the diversion of these

cargoes to Europe, but they stipulated that they should be regarded as having a preferential claim to an equivalent quantity of Australian wheat later in the year if it was required. Further supplies at a slightly enhanced price (shillings 46-6 per quarter) amounting to some 15,000 tons were secured in July and August, and a certain amount of wheat was shipped to India from time to time in liners up to the end of October. But at the end of September the improvement in the general agricultural outlook justified the Government of India in renouncing their lien on supplies of Australian wheat. In all 53 steamers (inclusive of liners) brought wheat to India on Government account in 1919, and the appended statement shows the total amount imported and the distribution among the different ports : —

	Tons.
Calcutta	27,954
Bombay	136,004
Karachi	36,738
Total	200,696

38. These imports of Australian wheat were arranged partly in order that the pressure on stocks of Indian wheat might be relieved and partly in the hope that we could use them as a lever on prices. At first our position was not easy. The *pro forma* price was so calculated as to cover reasonable risks, and strictly speaking it represented the best estimate we could make of the price at which we could afford to sell without incurring loss. At the same time, the stipulation made by the Treasury that we should not sell at a profit rendered it necessary at first that we should not go above the *pro forma* price. In the initial stages therefore the position was that, while we could not exceed the *pro forma* we might have to go below it if as we hoped the arrival of larger quantities of Australian wheat had the effect of bringing down the price of Indian wheat. Later on of course it might be legitimate to sell above the *pro forma* in order to cover losses previously incurred, but if the arrival of the wheat did result in a fall in the price of Indian wheat it was natural to suppose that the United Provinces harvest in April and the Punjab harvest in May would bring prices still lower. The Government of India therefore were quite prepared to face a considerable loss.

At first, it looked as if our expectations would be realised. Four steamers with more than 25,000 tons of wheat arrived in Bombay in the first half of March. The price of Indian *Pissi* wheat 70 per cent of which on the 2nd March had been quoted in Bombay for March delivery at R11-8-0 per cwt. dropped to R10-6-0 on March 14th and to R9-14-0 at the end of the month. Prices in Calcutta fell in sympathy, and in order to sell the first three cargoes which arrived in Calcutta at the end of March and in the beginning of April, we had to reduce our price well below the *pro forma*, and we sustained considerable loss. In Bombay great difficulty was experienced at first in finding a sale for the wheat. The *pro forma* price at that time was R9-8-0 per cwt. or As. 6 below the current price of *Pissi* wheat. But buyers held off possibly because they had no experience of Australian wheat, and also because with stocks beginning to emerge in view of the approaching harvest in the Punjab, they expected the prices of Indian wheat to drop and a corresponding reduction in our price. At the end of the first week in April, 72,429 tons of Australian wheat had been landed in Bombay but only 12,895 tons had been sold. Nearly 30,000 tons were due to arrive before the end of the month, and another disquieting fact was that it had not been possible to find covered storage for all the wheat which had arrived, and much of it was lying on open plinths at Sewri. Heavy showers of rain might do this wheat considerable damage. In order to expedite the rate of sale, the price was reduced to R9-4-0 per cwt. from the 6th April, and arrangements were also made to secure covered storage for the wheat lying in the open at Sewri. Sales, however, continued to be small till the 3rd week in April, but in that week, probably owing to the disturbances in the Punjab, prices of Indian wheat began to harden. *Pissi* wheat, which had dropped to R9-10-0 per cwt., rose sharply to R10. Simultaneously, a brisk demand for Australian wheat sprang up from Berar, and in the week ending 26th April, 8,215 tons were sold. The outbreak of the Afghan War

followed, and in spite of the harvest of the new crop in the Punjab, the price of wheat in Bombay continued to rise till *Pissi* wheat reached Rs. 11 per cwt. in the middle of May. Our selling price was gradually raised to the maximum allowed by the original *pro forma viz.*, Rs. 9-8-0 per cwt., but the wheat was eagerly bought up, and by the end of the first week in June 76,446 tons had been sold out of arrivals in Bombay aggregating 107,641 tons. By this time the risk of serious loss had disappeared. In the first place, in the original *pro forma* the estimates for quality allowance and loss in outturn had necessarily been pitched high, as we had no experience to guide us in dealing with Australian wheat, and moreover it was known that the wheat which was being supplied to us had been for a long time in storage in Australia. After the first few cargoes had been handled, however, it was found that the estimate for quality allowance and loss in outturn might safely be reduced from 2 per cent. and $1\frac{1}{2}$ per cent. respectively to $\frac{3}{4}$ per cent. and $\frac{3}{4}$ per cent. These reductions reduced our *pro forma* price to Rs. 9-4 per cwt., but it was decided to retain Rs. 9-8 as our maximum, partly because of losses which had occurred in Calcutta and were expected in Karachi, and partly because there was no object in making a present of Rs. 4 per cwt. to uncontrolled flour mills in Bombay. But what really saved us from loss was the rise in exchange from *1s.6d.* to *1s.8d.* on the 13th May, followed by the further rises in August and September. With the advent of the monsoon, prices of Indian wheat began to drop, and sales fell off. The price was again reduced, and a temporary improvement was effected in the rate of sales, but as the monsoon developed, increasing difficulty was experienced in disposing of the wheat which had arrived in April and May, and which had deliberately been kept back at Mr. Keatinge's request as a reserve against the trying times expected in Bombay in the monsoon. This difficulty was not felt in respect of fresh cargoes arriving from Australia. The 5,000 tons which arrived by the S.S. *Orissa* were sold within two hours of the vessel's arrival on the 19th June. But the other wheat had previously been treated for weevil in Australia, and as invariably happens with wheat so treated, when the weevils again made their appearance, they increased and multiplied at an incredible rate. I inspected the stocks then amounting to 18,000 tons at the end of July, and again reduced the price. But at the end of August 11,000 tons still remained unsold. There was no demand either in Bombay or elsewhere in India. Merchants refused to buy the wheat for sale as wheat, and the mills whose markets had been contracted by the restrictions on the export of flour were fully stocked. Mr. Jacob reported that no reasonable reduction in price was likely to have any appreciable effect on the rate of sale. On the other hand, he stated that weevilling was proceeding at such a pace, that unless early measures were taken to get rid of the stocks, there was every likelihood of large quantities of valuable foodstuffs, which if not required in India were in urgent request in countries ordinarily dependent on India for their supplies, being entirely destroyed without anyone being benefited. It had been previously arranged that the Controller of Contracts should take over 2,000 tons of this wheat for use in controlled mills, and it was now decided that other millers who bought the balance of the wheat should be given not only an allowance for loss in weight, but also export licenses for flour up to 90 per cent. of the quantity of wheat purchased. No difficulty was experienced in selling off the weevilled stocks on these terms, and such odd liner cargoes as continued to arrive in Bombay were readily sold at prices which the fall in exchange enabled us to pitch fairly low. In Karachi the imports of Australian wheat gave greater trouble. Mr. Gubbay had despatched five steamers to this port, and it was originally intended that the whole of this wheat should be made over to the Controller of Contracts for use in the controlled mills. The first two cargoes, aggregating 13,774 tons net, which arrived on the 21st March and the 1st April, were accordingly made over to Messrs. Ralli Brothers on military account, but the flour and *atta* made from the wheat did not keep quite so well as the products of hard Punjab wheat, and it was decided that the remaining cargoes should be utilised for civil requirements. There was, however, only one uncontrolled mill in Karachi, and the Indian population of Sind much preferred the qualities of wheat to which they were accustomed. Moreover, Punjab wheat was considerably cheaper in Sind than in the Bombay Presidency proper. The price of the Australian wheat was reduced at the end of

June, but the reduction had little effect on the rate of sales, and a further complication ensued in the setting in of weevilling at an even more rapid rate than in Bombay. It was found necessary to go to the expense of cleaning the wheat, but at the end of July there were still more than 13,000 tons in stock. The price was again reduced, but by this time the demand had died away altogether, and practically no sales were effected. At the end of August, therefore, the balance of the wheat remaining at Karachi, amounting to 11,300 tons, was made over to the Controller of Contracts for use in the controlled mills. It was agreed that an allowance should be made based on the actual loss in outturn experienced in milling, and that this loss should be charged to the wheat account.

39. I regret that I am not yet able to state accurately the financial results of the transactions. Account sales for several cargoes are still due from the agent firms, and until all these accounts have been received the audit cannot be begun. Mr. Jacob hopes that it will be possible to begin the audit before the end of the current month (November), and the audited accounts will be published as soon as possible. In the circumstances, only an approximate estimate can be offered at present of the financial results of the transactions. No intimation has yet been received from the Secretary of State of the amount paid on account of the freight and cargoes of three steamers totalling about 4,000 tons which arrived in Bombay only recently. Excluding these three steamers, payments by the Secretary of State on the account of the Government of India in respect of Australian wheat have been as below:—

Financial rest

£	s.	d.	s.	d.	R	A.	P.
1,269,120	5	2	at 1	5 $\frac{1}{2}$	1,69,51,032	5	2
1,002,206	18	8	„ 1	7 $\frac{3}{4}$	1,26,46,025	1	10
251,998	14	7	„ 2		25,49,987	4	8
2,526,325	18	5			3,15,47,044	11	8

Add—

Freight paid in Bombay	...	67,514	7	2
		3,16,14,589	2	10

The net receipts from the sale proceeds of all cargoes for which account sales have been received amount to more than R25.4 lakhs. But account sales have yet to be received in respect of nearly 50,000 tons of wheat, and I prefer at this stage not to commit myself too far. As far as can be seen, however, the final accounts when received are certain to show a profit. This profit was due partly to the fact that we had the Controller of Contracts to fall back upon in case of need, and, as has already been explained, we should have lost heavily on our stocks in Karachi in August had he not taken them over for use in the controlled mills. But the main factor was the rise in exchange. Our *pro forma* was drawn up on the assumption that payments would be made by the Secretary of State on receipt of cable advice of shipment, and as a very large proportion of our wheat ships sailed from Australia in February, March and April, exchange was calculated at 1s. 5 $\frac{1}{4}$ d. But some delay took place in payment in London and we got the benefit of the 1s. 8d. exchange on an unexpectedly large proportion of the earlier payments. If there is any loss on the guarantee given to Distributing Agent firms in Calcutta, as explained in paragraph 51 of this report, it will be more than covered by the profits on the Australian wheat transactions.

40. In all about 200,000 tons of Australian wheat were imported into India. This quantity is a mere fraction of the amount of wheat consumed in India which has been estimated at some 8 million tons in a normal year. But the imports combined with the stocks conserved for Indian consumption by the restriction on exports helped to relieve the situation caused by the serious

General effect o
wheat policy.

shortage of the wheat crop in 1919. The stocks of Australian wheat in Bombay, Calcutta and Karachi eased the pressure on the Punjab and the United Provinces, and undoubtedly they contributed to the result that the retail price of wheat in the Punjab, United Provinces, Central Provinces and Bombay was cheaper in September 1919 than it had been in September 1918. It was in Bombay of course that the effect of the imports of Australian wheat on retail prices was most marked. The average retail price in the Presidency was three seers and $11\frac{1}{2}$ chittaks for a rupee in January 1919. In September 1919 it was four seers six chittaks. It is noteworthy that in the latter half of October, when imports of Australian wheat were known practically to be at an end, the wholesale price of wheat in Bombay rose rapidly. A desire was expressed in some quarters that Government should continue to import wheat from Australia, but with exchange at 2s., the freight position becoming easier and all danger of an actual shortage of food in India at an end, it was thought that there was no reason why Government should continue to interfere in a sphere which properly belongs to private enterprise. I have had applications from more than one quarter for permission to import Australian wheat and I take this opportunity of noting that no permission is required. On the contrary, in order to encourage private imports of foodstuffs, Government have removed temporarily all import duties on grain and pulse imported.

quality of
Australian wheat.

41. The wheat was shipped under a certificate from the Australian Government that it was of fair average quality. Mr. Jacob reports that in quality it most nearly resembled Indian *Pissi* wheat. It was practically clean containing only about $\frac{1}{2}$ per cent. of dirt and $\frac{1}{4}$ per cent. of foreign grain. It appeared, however, to have been treated for weevil in Australia, and there was a fair proportion of shrivelled and weevilled grains averaging about $3\frac{1}{2}$ per cent. and varying in different cargoes from 2 to 6 per cent. Though Australian wheat has been shipped to India in the past, the majority of the mills had had no experience of it, and at first they showed some reluctance to take it. The wheat being rather soft, it was considered at first that the best milling results would be obtained by mixing Australian wheat with Indian in the proportion of 60 to 40. After some experience had been gained, however, some mills found it unnecessary to mix Australian wheat with Indian wheat and there was a keen demand for the wheat not only because it was cheap but also because the flour made from it was popular with the public. Unlike Indian wheat, Australian wheat was passed through the mills without being washed, and though the mills lost the advantage of the gain in weight which follows washing, compensation was afforded by the greater speed with which the wheat could be passed over the mill and by the better yield of flour. At first, before the mills had gained experience of the wheat, the bulk of it was sold to merchants. Thus between the middle of March and the end of June some 11,000 tons were sold to merchants for distribution in the Bombay Presidency, while during the same period only 16,000 tons were sold to the mills. After the end of June, the demand from the interior declined while that from the Bombay mills increased. Thus between July and September private merchants bought only 5,000 tons against 40,000 tons purchased by the mills. Nearly 9,000 tons were taken at intermittent intervals by the Central Provinces and Berar merchants.

Agent Firms.

42. My acknowledgments are due to the two agent firms Messrs. Louis Dreyfus & Co. and Messrs. Shaw Wallace & Co., and in particular to Mr. Henchoz of the Bombay Branch of the former firm on whom the bulk of the agency work fell. As already stated, these firms gave their services without charge except for actual expenses incurred.

(c) *Burma white beans and South African maize.*

is and maize.

43. Two other possibilities in the way of imports were examined. The Royal Commission on Wheat Supplies had bought practically the whole of the 1918 crop of Burma white beans amounting to upwards of 110,000 tons. In October 1918 the unshipped balance of the crop amounted to more than 40,000 tons, and the question was considered whether these stocks should be

taken over for use in India. But the price of the beans was high, and it was ascertained that opinion in the provinces was much in favour of the limited shipping available being utilised for the carriage of rice. In the meantime the 1919 crop was coming on. The cultivators had been warned that there would be little demand for beans in 1919, but in view of the high prices obtained in 1918 they had disregarded these warnings and had planted a large area with this crop. It was suggested that these beans might be utilised for feeding the Central Empires in Europe, but the Government of India were advised by the India Office that the prospects of finding a market for the crop in this way were small. A limited amount of space was set aside in every rice steamer loading for India for general cargo, and in March Mr. Gubbay offered to allow the shipment of 5,000 tons of beans in the space so set aside in order that the market for beans in India might be tested. Subsequently as the demand for rice slackened, the space reserved for general cargo was increased and there was a certain demand for beans in India. In all nearly 40,000 tons of beans were shipped to India between the 1st January and the 30th September 1919. The efforts to secure maize from South Africa were entirely unsuccessful. A Calcutta firm was encouraged to make enquiries in South Africa, and the Secretary of State was asked whether there was any objection to the Government of India endeavouring to arrange for import. The Secretary of State's reply was that almost the whole of the South African crop had been purchased by the Royal Commission for use in Europe and that none could be spared for India. The matter was not pressed since the private firm already referred to had ascertained that the price obtaining for maize in South Africa was so high as to rule out any possibility of import into India except at a very heavy loss.

(3) INTERNAL DISTRIBUTION.

44. The primary object of the appointment of the Indian Foodstuffs Commissioner was to secure the most effective distribution to deficit provinces of the supplies of wheat, rice and gram, and subsequently of other foodstuffs which were not required for local consumption in surplus provinces. Originally it was intended that the Foodstuffs Commissioner should arrange through the agency of selected firms for the actual purchase of grain and for its despatch to the destinations and consignees indicated by the Directors of Civil Supplies in the deficit provinces. On further examination, however, this idea was given up. It was considered to be too risky to endeavour to substitute a Government distributing agency for the private distributing agency created by generations of small traders. Only three foodgrains were brought under strict control, wheat, rice and gram, and it was decided to limit the intervention of the Foodstuffs Commissioner to the fixation, subject to the approval of the Government of India, of certain allotments within which ordinary trade agencies should be allowed to import into the deficit provinces. Eventually the system developed into the following arrangements :—

Internal rest
on the move
of foodgrain
rail.

(a) *Wheat, gram and rice* :—These grains could not be moved from one province to another save within the limits of allotments sanctioned in each month by the Government of India. The procedure was that the Director of Civil Supplies of the importing province issued railway priority certificates to selected merchants up to the limit of the amount sanctioned by the Government of India. The certificates, however, were not honoured by the railways until the counter-signature of the Director of Civil Supplies of the exporting province had been obtained. Except in Madras, where the certificate was in force for a shorter period, the period of validity was 21 days.

(b) *Foodstuffs other than wheat, gram and rice* :—In British provinces Local Governments had no power to prohibit the export of flour or foodgrains other than wheat, gram and rice. The Directors of Civil Supplies of the importing provinces were at liberty to issue certificates for their requirements, and these certificates

did not require the counter-signature of the Directors of the exporting provinces. But the Directors were expected to work in consultation with one another, and to avoid issuing certificates on scarcity areas or areas where stocks were known to be low.

- (c) *Intra-provincial movements* :—Local Governments were given full powers, in consultation with the railways concerned, to restrict the movement of foodgrains from one district to another within their provinces.

45. As has already been explained, these restrictions were necessitated by the congestion on the railways, and it is not necessary to discuss at any length the question how the system of control, which circumstances compelled the Government of India to impose, worked in actual practice. It is probable that the measures taken tended to reduce speculation, to conserve supplies, to keep down prices in exporting provinces, and to facilitate price control in importing provinces. On the other hand, the Government of India always recognised that the system had grave disadvantages, and as far back as December 1918 they considered seriously whether they would not be justified in abolishing the railway priority system altogether. The system afforded opportunities for bribery and corruption, and as the year advanced, there was reason to believe that it was increasingly lending itself to evasion. The delays inseparable from certification hampered trade operations which often depend on the immediate seizure of favourable opportunities, and when, as not infrequently was the case, merchants who had been accustomed to buy in one province, were unavoidably diverted to another, the difficulty of forming new trade connections at short notice led in some cases to the priority certificates not being implemented, and the failure of supplies which may have been urgently required. The main objection to the system was that it hampered and embarrassed private trade, and the Government of India always kept before them the desirability of allowing trade to resume its normal course and of leaving the movement of foodgrains within India to the regulation of the laws of supply and demand as soon as the railway position and the agricultural outlook justified this step.

46. Some comment is necessary on the orders relating to the movement of foodgrains other than wheat, gram and rice. Originally Local Governments had been given power to prohibit the export of such foodgrains from their provinces. Some Local Governments promptly exercised this power with the result that certain areas, especially in Western India, owing to the closure of their usual markets, soon found themselves in a condition of serious deficit. It was considered whether the detailed control exercised over wheat, gram and rice should not be extended to other foodgrains, but effective control was impossible unless the available supplies of the controlled commodities and their location had been ascertained with some approximation to accuracy. More information of this kind was available in respect of wheat, gram and rice than in respect of other foodgrains, and the Government of India decided that the information at their disposal in regard to available stocks of these other foodgrains did not justify them in extending their control further than it already existed. They came to the conclusion, therefore, that in respect of these foodgrains the dangers inherent in the restrictions imposed by Local Governments were greater than those to be apprehended from the removal of these restrictions. Accordingly it was decided in December 1918 to withdraw from Local Governments the power of prohibiting the export of these foodgrains from their provinces. The orders aroused some protest, especially from the Government of Madras. On the whole, however, they worked well. Difficulties at one time seemed likely to arise in respect of a threatened denudation of stocks of jowar, bajra and ragi in certain deficit areas in Madras owing to heavy purchases by Bombay merchants. But a compromise was effected, and the danger was averted. No attempt, however, was made to enforce these orders on Native States. The Darbars of some of these States considered that the interests of the people committed to their charge rendered

it essential that a complete embargo should be placed on the export of foodgrains from their States. Pressure might have been put on at least some of the Darbars to come into line with the policy adopted in British India by depriving them of supplies of Burma rice. But though they were placed in possession of the Government of India's views on the subject, it was decided that the Darbars should be allowed to decide for themselves what policy they would adopt.

47. Another question which was referred to the Government of India on more than one occasion by more than one Local Government was the question whether movements of foodgrains by road, river and canal should be brought under control as well as movements by rail. The Government of India decided against this proposal. Their policy was to confine their interference with the ordinary course of trade within the narrowest possible limits, and further, it was considered that it would be very difficult to make the control of movements by road effective while the attempt to do so would inevitably open the door to petty blackmail and oppression. Another reason for rejecting the proposal was that it meant the addition of a new rule to the Defence of India Rules, and as the year advanced the Government of India became more and more reluctant to use these rules for the purpose of dealing with economic distress in India and still more reluctant to extend them.

48. Price control in India was no part of the Foodstuffs Commissioner's duties. With the approval of the Government of India, he made monthly allotments of wheat, gram and rice, but Local Governments through their Directors of Civil Supplies made their own arrangements for licensing importers, for distributing the grain when received and for price control. Intervention by the Foodstuffs Commissioner was necessary only when laxity of control in India threatened to upset his arrangements in Burma. Even then no orders were issued. The matter was discussed in person with the Directors concerned. It may be remarked parenthetically that both Mr. Gubbay and I toured incessantly, and that in this way we were able to keep not only the Government of India advised of the position and prospects in the different provinces but also the Director of Civil Supplies in one province in touch with developments in another. Railway priority certificates and import licenses offered Local Governments a useful lever for control, and all Local Governments had power not only to commandeer stocks of foodgrains unreasonably withheld from the market under the Articles of Commerce Ordinance, but also to delegate their powers to their officers. Some use was made of these powers from time to time, but generally speaking the policy of attempting to keep down prices artificially by drastic penal legislation was avoided. After the outbreak of the Afghan War, the Chief Commissioner of the North-West Frontier Province was authorised to fix maximum prices for foodstuffs under the Defence of India Rules, and for special reasons similar action was sanctioned in two districts of Bombay and in respect of ragi in Bangalore. But as a matter of general policy the Government of India disapproved of the fixation of maximum prices under the Defence of India Rules. They attributed the high range of prices to an actual shortage of foodstuffs aggravated in particular areas by difficulties of railway transport, and apart from the difficulty of enforcing maximum retail prices over wide areas, there was the obvious danger that the prices, if fixed too low, would deter the merchants from importing and thus accentuate the shortage. There was little divergence of opinion on this point, only one or two Local Governments being desirous of making the fixation of prices an integral part of their price policy. The policy favoured in most provinces was that of controlling prices by opening cheap grain shops. In most of these shops Burma rice was used for purposes of control, and the first essential, of course, was that strict supervision should be exercised over the importers at the ports of entry in order both that the rice might be distributed where it was most required and that it might reach the consumer without unnecessary or undue intermediate profits. This was a question in which I was deeply interested from the point of view of the maintenance of the rice control in Burma, and I give below a brief account of the methods adopted in Bombay, Madras and Calcutta.

bay. 49. No great measure of success was attained in the early months of the year in any of the ports, but gradually an improvement was effected. In Bombay drastic methods were employed, and licenses for import after the beginning of May were granted only to a few reliable firms. 10,000 tons a month were earmarked for Bombay city, and the import of this amount was entrusted to a single firm, Messrs. Currimbhoy, Ebrahim and Company. The remaining licenses were divided up in fixed proportions between the big millers in Rangoon and two Indian firms, Messrs. Tata Sons and Company and Messrs. Amarchand Madhowji and Company. These arrangements naturally caused strong resentment among the merchants established in the Bombay-Burma rice trade, but unfortunately the interests of the trade had to be sacrificed to other more important considerations. The problem of control was extremely difficult. The difficulty arose from the fact that we were endeavouring to place Burma rice on the market at a price much below its real market value. It was obvious, therefore, that unless control was real right up to the point when the rice reached the consumer, some one would snatch an illicit profit at some link in the chain, and it was the fact that these illicit profits were made that led to the secret bonus system, which threatened to render nugatory the rice control in Burma in April. Apart from price control the mere problem of sending the rice from the port to the numerous districts which were clamouring for it was very complicated where the Director of Civil Supplies had to deal with immense quantities of rice and a very large number of small importers. The main justification for the revised arrangements made by Mr. Keatinge, the Director of Civil Supplies, Bombay, whose health unfortunately broke down under the strain in May, was that they were successful. The distribution to districts was entrusted to whole-sale agents selected by the Collector. These men took over the rice from the importers at prices fixed by the Director of Civil Supplies and railed it up-country on priority certificate. The business thus was reduced to manageable proportions, and Mr. Brander, Mr. Keatinge's successor, had no difficulty in maintaining a steady stream of rice to the districts which required it. The whole-sale district agents distributed to retail dealers under the supervision of the district officers, and as a further check against profiteering, nearly 400 cheap grain shops were opened. Ten thousand tons of Burma rice were allotted every month to the Bombay Famine Relief Fund, which by the end of May had sold three lakhs of maunds of rice at or below cost price, and loans amounting to more than Rs 9 lakhs were advanced by the Government of Bombay to District Boards and Municipal Councils for the purpose of enabling them to open similar shops. Similar measures were taken in the Presidency Town. The distribution of rice to the retail shops was entrusted, at a fixed rate of commission, to a single firm; the prices at which the rice might be sold were fixed by the Director of Civil Supplies; and Inspecting officers were employed to see that these prices were not exceeded. In addition, the Bombay Merchants Cheap Grain Agency opened 23 cheap grain shops in the town and sold more than Rs 16 lakhs worth of rice at or below cost price.

50. In Madras very similar methods were employed by Mr. Moir, the Director of Civil Supplies. The number of licenses was cut down. It was made a condition of the license that all rice imported under license should be held at the disposal of the Director of Civil Supplies. The importers' profit was cut down to annas 4 a bag, and licensees were required to deposit, as security for the fulfilment of the conditions of these licenses, a sum of Rs 5 per ton up to a maximum of Rs 1,000. In this way Mr. Moir was able to arrange to supply rice to up-country merchants nominated by the Collector and to Local Boards. In Madras city Messrs. Best and Company opened several retail shops where Burma rice was sold at cheap rates, and shops were also opened by the Madras Corporation, supervision being entrusted to an Emergency Committee presided over by the Commissioner of Police. In Madras there were other stores of rice to draw upon. Owing to the policy of inter-district control, a small reservoir of rice was maintained in the Kistna district, and supplies from this reservoir were carefully regulated. A Deputy Director of Civil Supplies was posted to Bezvada. Monthly allotments were made to specified districts, and supplies were arranged through the Deputy Director. A limit of price was fixed, and

tenders were called for. No attempt was made to finance the transactions. The licensed merchants were merely put in touch with the millers whose tenders had been accepted, and priority certificates were issued in the names of the millers as consignors and the licensed merchants as consignees. Over 50,000 tons were obtained in this way between May and October.

51. In Calcutta the problem was somewhat different in that until August the port was merely a distributing centre for rice required not in Bengal but in other provinces. As elsewhere the policy of relying on established shippers failed. It was a condition of their licenses that at first half, and subsequently the whole, of the rice imported under license should be held at the disposal of the Director of Civil Supplies, Bengal, but it was found impossible to ensure that the rice reached the provinces to which it had been allotted. There were incessant disputes between the importers and the up-country merchants. Frequent complaints were received that rice could not be obtained at the controlled prices, and there was reason to believe that much of the rice landed in Calcutta evaded control in the early months of the year. Licenses for import were granted accordingly only to a limited number of firms, and a system of distribution was devised by Mr. Townend, the Director of Civil Supplies, Bengal. Four Calcutta firms, Messrs. Becker Gray and Company, Messrs. Shaw Wallace and Company, Messrs. Amarchand Madhowjee and Company, and Messrs. Chaudhuri and Company, were appointed agents for distribution. These firms took over the rice from the licensed importers under Mr. Townend's instructions. Only merchants nominated by the Director of Civil Supplies in the importing province were allowed to import rice into that province, and they were placed by Mr. Townend in touch with one or other of the distributing agent firms. The rice was placed on rails by these firms, and the railway receipt was sent to the consignee through the District Officer. In this way it was ensured both that the rice was sent where it was required, and that the nominated merchants secured it at the control price. Large quantities of rice were supplied under this system to the United Provinces, Bihar and Orissa, and the Central Provinces, and, on the whole, the system worked extremely well. But it was open to certain disadvantages. In the first place, as invariably happens when control is applied, Burma rice steadily deteriorated in quality, and the licensed importers, secure in the knowledge that the heavy demands would compel us to take over all the rice brought over from Burma, embarrassed us by importing large quantities of inferior broken, or of broken of a quality not ordinarily eaten in Northern India. The demand for rice was so keen in the United Provinces and Bihar and Orissa that even these broken were accepted, though with reluctance at first, but the despatch of broken to the Central Provinces in response to indents for rice led to some troublesome disputes. Secondly, it was found necessary to guarantee the agent firms against loss. They were remunerated only by a small commission, and there was obvious danger that in the event of a sudden break in the demand for rice and a fall in prices they might be left with large stocks of rice on their hands which they could not sell except at a loss. It was decided to protect them against this risk. The guarantee applied only to rice taken over from importers under the instructions of the Director of Civil Supplies, Bengal, for supply to nominated merchants and left on the hands of the agent firms by the failure of the merchants actually to accept the rice. The extent of the guarantee was limited to the difference between the price paid for the rice and the price at which it could be sold in the open market, and it was further stipulated that the guarantee would not become operative unless one month's notice were given me together with full particulars of the stocks in respect of which the guarantee was claimed and unless the rice were held at my disposal during that period. The object of this stipulation, of course, was to enable me to dispose of the rice whether to any other province in India, or by export. The guarantee was first given up to September 1st, but at the request of the Government of Bengal it was extended first up to the 1st October and then up to the 1st November. In September and October the system was very useful in ensuring the prompt despatch of rice to the districts affected by the cyclone of September 24th, but it was not found necessary to take over all the rice imported, and the difference in price between controlled and uncontrolled

The distributing agent system in Calcutta.

Burma rice in Calcutta was so small in the second half of October that it was decided to terminate the system on November 1st. On this date nearly ten thousand tons of rice were left on the hands of the agent firms, and preliminary notice was given that the guarantee was claimed in respect of this quantity. It was considered, however, that it would be a useful lever on prices if this rice were retained for some time in Calcutta, and no effort was made to dispose of it to outside countries. By the middle of the month one firm, Messrs. Amarchand Madhowji and Company, had intimated that it did not propose to press its claim for the benefit of the guarantee, and of the stocks held by the other firms, all but 1500 tons had been sold locally without loss. It was left to the Government of Bengal to decide whether this small amount should be sold in Calcutta even at some sacrifice or whether it should be offered to export firms. The agent firms distributed in the manner explained more than 150,000 tons of rice and rendered at very small profit to themselves but at the expense of much time and trouble, very useful service. In particular I must mention Mr. C. F. Beadell of Messrs. Becker Gray and Company. This gentleman who was the first Director of Civil Supplies in Bengal was always most helpful.

IV.—Conclusion.

Results of the
control.

52. Put statistically, the main result achieved by the Government of India was that in the year ending 30th September 1919, they converted a normal net export of $1\frac{1}{2}$ million tons of grain, flour and pulse from India (excluding Burma) into a net import of rather more than 1,400,000 tons. They also did something to ensure an equitable distribution among deficit areas of such stocks of foodstuffs as were available in surplus provinces. The different Directors of Civil Supplies will no doubt report in detail how their respective provinces fared. Only the most general summary can be attempted here, written partly from the point of view of prices and partly from that of supplies.

Supplies in the
different provinces.

53. To take the latter first, our chief anxiety first centred on the Bombay Presidency. This Presidency is never self-supporting in the matter of food-supplies, and Mr. Keatinge, the Director of Civil Supplies, an officer of great experience who is an acknowledged authority on all questions relating to rural economics, originally estimated that in order to keep the people alive, the Bombay Presidency would require in the year ending the 15th November 1919 a net import of more than 1,800,000 tons of foodgrains. At the beginning of April, prices were extraordinarily high and things were critical. Through no fault of his own, Major Story had lifted 100,000 tons less Burma rice than Mr. Gubbay had allotted for Bombay in the first three months of the year. On the other hand, it was a matter of urgent importance to stock the Konkan districts before with the advent of the monsoon communications were interrupted. There were ample stocks of Australian wheat in Bombay, but the demand was all for rice. On the urgent representations of the Bombay Government, a special allotment of 10,000 tons of Bengal rice was sanctioned for Bombay, but owing, it is reported, to reckless buying by the Bombay merchants in Bengal, this allotment while it did harm in Bengal was of no benefit to the Bombay Presidency. Burma rice saved the situation. Over 90,000 tons were poured into Bombay in April, and of this amount nearly 500,000 bags were despatched to the Konkan districts. In May nearly 160,000 tons were landed, and further large supplies followed in June. These measures, combined with favourable monsoon prospects, had the desired effect. In the second half of July, prices of foodgrains began to fall, and there was a sudden break in the demand for Burma rice. Bombay was over the worst of its troubles and ceased to be an anxiety. In May the situation in Bihar and Orissa became disquieting. In March the Local Government in a closely reasoned letter had given reasons why the province could not be treated as a surplus area, and had estimated that 345,000 tons of foodstuffs would be required in the six months ending the 30th September. Railway and other difficulties had prevented Mr. Gubbay from arranging for the monthly supply of the 59,000 tons reported by the Local Government to be the minimum required, and in May there was a sharp

rise of prices. The position was discussed at Ranchi with the Local Government, and the critical months of June and July were tided over by increased allotments of Bengal and Burma rice. In July rice prices showed a tendency to fall, and in August, with the maize crop beginning to ripen and the autumn rice crop promising well, there was a general improvement in prospects, though the demand for Burma rice lasted well on into September. But the necessity of providing large supplies of Bengal rice for Bihar and Orissa reacted on Bengal. At the end of 1918 it was known that there were large surplus stocks of rice in Bengal, and in the early months of 1919 these stocks were freely drawn upon for other provinces. In May there was a sharp rise in prices. The allotments on the province for June, though increased for Bihar and Orissa, were cut down materially in the aggregate, and further reductions were made in July and August. Small supplies of Burma rice were also placed at the disposal of the Director of Civil Supplies, Bengal, in May, June and July for the purpose of testing the market and ascertaining whether there was any real demand for additional supplies of rice. These measures were at first successful. The average retail price of common rice remained steady in June and by the 15th July, though the average price had risen, it was still lower than in any other important province. Moreover, there was little demand for Burma rice, and in the beginning of July the Director of Civil Supplies reported that the cheap grain shops opened in Calcutta by the Municipal Corporation for the sale of Burma rice had definitely proved a failure. In August, however, a crisis arose. The trouble began with a temporary shortage of stocks in certain districts of Eastern Bengal. The merchants from these districts scoured the country for rice, and a general panic followed in the Bengal markets. Prices rose rapidly, and grain looting followed in the beginning of September in the Burdwan Division. Arrangements were at once made to pour in supplies of Burma rice into Bengal. 44,000 tons of rice from Burma were shipped to Calcutta in the first fortnight of September and 15,000 tons to Chittagong. By the third week of September the tide had definitely been turned, and the price of common rice fell in that week in more than thirty reporting stations. But on the 24th September a disastrous cyclone devastated Eastern Bengal and caused a distinct set back. The first reports of damage to standing crops turned out to be exaggerated, but stocks of food were destroyed, flats were sunk, and communications were interrupted. A brisk demand for Burma rice sprang up from the affected districts, and it was necessary to arrange for imports on a large scale right up to the end of October. Between the 31st August and the 31st October 149,007 tons of rice were despatched to Calcutta and 40,851 tons to Chittagong. By the end of the latter month the demand had ceased, and though prices were still high they were falling steadily. There was no sudden crisis in Madras, but there were more grain riots in the Presidency than in any other province, and prices reached unprecedented heights. Mr. Gubbay had promised an allotment of 30,000 tons of Burma rice a month for the Presidency including Travancore, but as the tonnage position improved, we were able to make larger supplies available. In arranging shipments to Madras ports we had always to take into account not only the capacity of the ports but also railway facilities, but in the ten months ending 31st October 455,119 tons of rice were shipped to Madras ports from which Travancore and Mysore were fed as well as the Presidency proper. There were stores of rice also available in the Kistna district, and additional supplies were also made available from Bengal. In spite, however, of these large imports, we were not able to prevent the price of rice from rising slowly till September, and much hardship was caused by the extremely high prices prevailing for jawar, bajra and ragi. At the end of July, the prospects of the season were very favourable, and it was hoped that August would see a distinct fall in prices. But a prolonged break in the monsoon in that month caused a set back, especially in the Ceded Districts, and it was not till October that the demand for Burma rice broke, and prices began seriously to fall. The control worked smoothly in the United Provinces and the Central Provinces. In both provinces, particularly the latter, prices were very high but they were fairly stable, and both provinces stood up to them in remarkable fashion. The Punjab was the granary of India in respect of wheat and gram, and the main object of the control was so to regulate export as to prevent stocks from being

rapidly exhausted. The control was so far successful that prices in the Punjab were kept materially lower than those in other provinces.

Rise in prices.
General causes.

54. I do not propose to deal at any length with the general causes which have operated to raise prices in India since the war began. The rise has not been confined to India of course, and it is a commonplace that it is mainly due partly to the facts not only that a large proportion of those ordinarily engaged in production in the principal European countries were called up for military service but also that the energies of the rest were concentrated mainly on producing commodities required for the maintenance and supply of the armies in the field, and partly to the simultaneous creation of a huge additional volume of credit and currency for the purpose of financing the war. The cost of producing almost all the ordinary necessities of life naturally increased, and the increase in the cost of living led to demands for higher wages. These higher wages increased still further the cost of production, and a further rise in price levels followed. India has to some extent been protected from the operation of these factors. Shortage of freight limited the demands for her raw materials in 1917 and 1918. Exchange difficulties had the same effect, and in the last year the export of all foodstuffs has been prohibited. But the exigencies of the war forced the Government of India to make large additions to their rupee and note circulation with the result that the purchasing power of money declined, and though India was to some extent sheltered from the full operation of the causes which led to the great increase of prices in other countries, it was not to be expected that she could remain unaffected by the general upheaval in price levels which has taken place throughout the civilised world since the war began. The increase in the price of imported articles naturally reacted on the price of commodities produced in the country.

Causes of rise in
prices of
foodgrains in
India.

55. But I am concerned principally with the prices of foodstuffs, and I append a table showing wholesale prices of certain foodgrains in India together with index numbers. The figures are based on statistics supplied by the Director of Statistics. The quotations are wholesale price quotations and were compiled on a uniform basis, *viz.*, the average price prevailing in January and July of each year. Information regarding the markets selected will be found in appendix 4. I have included the quotations for the year 1900, a year of severe and widespread famine, in order that they may be compared with those of 1919.

Wholesale prices of certain foodgrains in India.

Average prices.

Article.	Rate per.	1900.	1910-1913.	1914-1917.	1918.	1919.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Wheat	Maund	8 9 0	8 7 0	4 5 1	5 0 5	7 1 4
Barley	Do.	2 9 11	2 2 2	2 14 6	2 15 4	4 11 2
Rangoon rice	Cwt.	8 12 0	5 0 9	4 4 5	3 8 9	5 5 0
Country rice	Maund	8 7 9	4 6 2	5 2 5	4 8 9	7 7 7
Jowar	Do.	8 12 1	2 9 7	2 12 2	4 6 2	7 10 10
Bajra	Do.	8 8 2	2 14 2	3 8 10	4 9 4	8 5 1
Maize	Do.	8 3 0	2 4 0	3 1 10	3 5 11	5 8 8
Ragi	Do.	2 9 6	2 14 1	3 0 11	3 4 0	7 5 0
Gram	Do.	9 1 4	2 4 10	3 8 2	3 4 8	5 15 8

Index Numbers.

(Average of 1900-1909=100).

Article.	1900.	1910-1913.	1914-1917.	1918.	1919.
Wheat	106	102	130	149	211
Barley	120	98	133	133	215
Rangoon rice	94	125	103	98	131
Country rice	83	104	123	101	178
Jowar	147	102	108	171	300
Bajra	136	111	125	177	321
Maize	131	94	123	189	327
Ragi	109	121	129	137	309
Gram	117	87	133	125	223
Average	116	105	124	136	235

The above tables, I think, fully bear out what has been said in the previous paragraph. Prices of foodgrains rose in the four years ending 1917, no doubt owing to the operation of the general causes to which I have referred. But the rise was comparatively small, and India escaped lightly in the first three years of the war. In 1918 the rise in price levels continued. It was accentuated by the sharp increase in the price of jawar and bajra following on the failure of those crops in 1917-18. Moderating factors were a slump in rice prices in Burma, Bengal and Bihar and Orissa, due in the first case to shortage of freight, and in the last two to shortage of railway wagons. Then came the crowning disaster of the widespread crop failure of 1918-19, and prices in 1919 rose by 73 per cent. compared with the previous year.

56. The above prices are the average of prices recorded at a few selected markets which are mostly big towns. In appendix V, I give a series of statements showing the trend of retail prices of different foodgrains in India since July 1913. The statistics represent the average of the retail prices recorded at numerous markets in each province and published fortnightly in the *Gazette of India*, and have kindly been furnished by Mr. Findlay Shirras. I have selected the prices prevailing in July 1913 as the pre-war level, since 1913-14 was a scarcity year in Northern and Central India, and in July 1914 there were still 150,000 people on relief in the United Provinces. The average index numbers given in the tables have not been properly weighted, and are merely a rough guide to the average rise in retail prices. I do not propose to comment at any length on these figures. They indicate clearly the extraordinary heights to which prices of foodgrains have risen in India in the past year. Wheat prices have risen more than those of rice over the whole period, but in the last year rice rose in price while the price of wheat slightly declined. The prices given, it may be noted, are those of 'common rice' in which term Burma rice is not included in most provinces. The biggest rise took place in the price of jowar and bajra, no doubt owing to the fact that these two crops failed in 1917-18 as well as in 1918-19. The control tended to equalise prices in the different provinces. For instance, in the rice-eating provinces (excluding Burma) prices of rice in September 1918 varied between a maximum of 4 seers and 7 chittaks per rupee in Bombay and a minimum of 9 seers per rupee in Assam. In September 1919 the variations were much smaller, the maximum being 4 seers and 2 chittaks in Madras, and the minimum 5 seers 15 chittaks in Assam. The control also tended to stabilise prices in deficit provinces, but in the country as a whole Government were not able to prevent prices from rising to heights which never before had been reached.

57. These high prices have caused the greatest distress and embarrassment in India. They have pressed most hardly on the poorer classes and on people living on small fixed incomes in the towns, but the effect of them has been felt by every section of the community as well as by Government and by other large employers of labour. It is small comfort to the Indian to be told that on the whole he has escaped more lightly than the people in most other countries. For instance, in Japan in July 1919 the wholesale prices of rice in Tokyo were 305 per cent. higher than in October 1910. But the fact which is painfully brought home to the Indian is that prices in 1919, as the table in the margin

Grain.	Previous.	Maximum.	1919 price.
	Year.	Rs. A. P.	Rs. A. P.
Wheat	1915	4 15 0	7 1 4
Barley	1908	3 5 9	4 11 0
Rice (country)	1908	5 12 2	7 7 7
Jowar	1900	3 12 1	7 10 10
Bajra	1908	3 10 6	3 5 1
Maize	1908	4 2 0	5 8 3
Ragi	1909	3 5 9	7 5 0
Gram	1915	4 1 5	5 15 3

Note.—1918 excluded. Prices given are average wholesale prices prevailing in selected marts in January and July of each year.

shows, have been considerably higher than ever before. High prices have promoted crime, unrest and discontent, and there has been a tendency to lay them at the door of Government. No one would pretend that the control has been perfect or that it has benefited all provinces in the same degree. It would have suited Bengal best if we had closed down exports of rice to all other provinces, but the adjoining provinces would have been

gravely embarrassed. On the other hand, if we had consulted only the interests of the wealthy province of Bombay, we should have controlled only Burma rice and have allowed all other foodgrains to move freely within India. But in that case prices would have been driven up in less wealthy provinces. But it is hoped that this report will show that the rise of prices in India in 1919 was due to causes beyond control by any Government and that it will place the foodstuffs problem in its proper perspective. The crop failure of 1918-19 was one of the worst on record. It was not only severe, but it affected every province in a greater or less degree, and moreover the failure of the rains was aggravated in most provinces by a disastrous epidemic of influenza just when the sowing of the rabi crop should have been proceeding. In a normal year, the total production of foodstuffs in India, including Native States, may be estimated at somewhere near 80 million tons. Last year the loss of production due to the failure of the rains may be put, at a conservative estimate, at not less than 20 million tons. This crop failure moreover followed on a failure of the jowar and bajra crops in the previous year; it came at a time when prices had already begun to rise under the pressure of world causes; and the difficulties of the situation were increased by the fact that the Railways were not able properly to perform their normal functions of distribution. Whatever measures of control Government might take, they could only palliate these difficulties. All this year, India has been drawing largely on reserve stocks of food grains, and it was inevitable that prices should rise and that much hardship and distress should be caused. It was foreseen from the beginning that nothing could prevent this rise of prices, and as I have already said, the main preoccupation of the Foodstuffs Commissioner has always been with the question of supplies, not with that of prices. Literally we were afraid that in the middle of the year there would not be enough food to go round in some provinces, and the people of India have much to be thankful for. Had this year's monsoon again failed, instead of being on the whole exceptionally good, nothing could have saved India from appalling disaster. Reserve stocks of food must now be very depleted, and had there been this year, as there was last, a deficiency of production amounting to 20 million tons, it is impossible to see how the deficiency could have been made good. Now, of course, the problem has changed. The agricultural outlook is excellent almost every where in India, and all immediate difficulties as regards supplies are at an end. The Railway position has also improved, and the problem is now purely one of prices. The prices of *kharif* grains has already begun to fall owing to the harvest, and prices of rice are beginning to show a downward tendency. But reserve stocks must be so low that it will probably be a long time before grain becomes really cheap, and it is doubtful whether prices will ever return to their pre-war level. The Government of India have decided to keep on, for some time longer, their embargo on the export of foodgrains from India, and they propose to go as far as they safely can in removing all restrictions on the movement of foodgrains within India. But there are obvious dangers in the former measure. If the embargo is maintained too long, it will tend to drive the cultivator to grow other crops of which the export is not prohibited, and the safety margin afforded by the surplus foodgrains which ordinarily are exported will disappear. Regarded purely as a temporary measure, however, the continuance of the policy of the ring fence should help to bring down prices in India, and even when the fence is removed, the rising exchange should assist in the same direction. For the rest we can trust only to time and good harvests and to the restoration of more normal conditions not only in India but in the world generally.

58. There is one other remark which I must make before I close this report. We have just passed through the worst crop failure India has experienced since the famine of 1899-01. The crop failure was complicated by other factors to which I need not refer again, and prices of food grains were 100 per cent. higher than in 1900. Nevertheless, nothing has impressed me more in my numerous tours round India than the comparative absence of visible signs of distress, and the apparent ease with which the people stood up to the unprecedented level of prices. The same fact is commented upon by more than one Director of Agriculture in the Season and Crop Reports for the year 1918-19. Prices were nowhere higher than in the Central Provinces, yet the report records that distress was nowhere really serious or severe and that

the agricultural population had come through a period of anxiety extremely well. The report for the United Provinces bears similar testimony. The agriculturists 'weathered the season without much apparent difficulty' and 'over a great part of the provinces,' it is said 'a degree of protection seems to have been attained which removes the worst danger of a failure of the rains.' Famine and scarcity were declared in numerous areas, and all the usual measures were taken. It would not have been surprising if the circumstances of this disastrous year had been reflected in the famine returns, but as a matter of fact, the numbers on relief were never very large. In 1900 the maximum number on relief at any one time was 6,332,211; in 1919 it was 565,348. In the five war years, rupees were absorbed in India at the rate of 22·08 crores per annum compared with an average of 8·78 crores in the preceding quinquennium. As pointed out by the Hon'ble Mr. Mant in his speech in the Legislative Council on the 17th September, the balance of trade, as deduced from the excess of exports of merchandise over imports *minus* private imports of treasure and council bills, was against India in the five years ending 1913-14 to the extent of 23 lakhs per annum; in the five years of war the balance in India's favour averaged 20·90 crores per annum. These figures point to an increase of wealth in India, and the history of the year which is just over indicates that no small portion of this wealth has passed into the hands of the cultivator. At any rate the most hopeful feature of a year, which otherwise was disastrous, is the clear evidence it affords of India's increasing power to withstand crop failure and famine prices.

59. This report has been written entirely from the point of view of the Foodstuffs Commissioner. The Directors of Civil Supplies in the different provinces were not my subordinate officers, and it would be impertinence on my part to comment on their work. But I should like to make it clear that the burden and heat of the day have been borne by them and by District Officers, ably assisted in many provinces by various non-official and semi-official organisations. Mr. Gubbay, I am aware, received the greatest assistance from Mr. Hullah, the Deputy Foodstuffs Commissioner, and when the latter was promoted, his place was ably filled by Mr. Hardy. Mr. Green, the Superintendent of the Foodstuffs Branch, has been most useful. His work, like that of the Branch generally, was at times very heavy, and it was always cheerfully and satisfactorily done.

C. A. INNES.

The 18th November 1919.

Appendix I—(Paragraph 9).

Exports of Jowar and Bajra, Gram, Maize, Barley, Wheat and Rice, during the ten years 1909 to October 1918.

(In tons).

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 27th November 1919, based on the Indian Daily Weather Reports of the period.

1. Three disturbances affected the weather during the week. The first of them appeared over Gujarat and the adjacent parts to the east towards the end of the previous week and advanced in a northeasterly direction; it caused widespread rain between the 20th and 22nd in Gujarat, Rajputana, Central India West, the west of the Central Provinces and of the United Provinces, with local falls in the east of the Punjab. The second entered Kashmir on the 24th, but was slight and gave only a few light falls of snow or rain. The third disturbance appeared over the central parts of the country on the 25th and gave fairly widespread rain in the west of the Central Provinces on that day. Some rain fell also in Burma, Assam and the south of the Peninsula during the week. The total rainfall of the week was heavy for the time of year in Central India West, Berar, the Central Provinces West, Gujarat and Rajputana.

2. *Burma.*—Rain was restricted to a few scattered falls.

Northeast India, including Orissa.—Weather was dry except for a light fall at Sibsagar, Tezpur and Cox's Bazar, and a moderate fall at Darjeeling.

The United Provinces, Central India and the Central Provinces.—There was no rain in the east of the United Provinces. Rainfall was nearly general in the west of the United Provinces including the Kumaon hills on the 22nd, with local rain in the Kumaon hills alone on the 25th. In Central India West nearly general rain fell on the 20th and local rain on the succeeding day. In the west of the Central Provinces rain fell locally on the 20th, 22nd and 25th, with a few falls on two other days. In the east of the Central Provinces rain was limited to a light fall at Pandra.

Northwest India.—In east Rajputana rainfall was nearly general on the 21st and occurred locally or at a few stations on two other days; in west Rajputana there was local rain on the 21st. A few falls occurred in the east and north Punjab on the 22nd, in Kashmir on the 24th and in Gujarat on the 20th. In Sind, Baluchistan and the North-West Frontier Province the week was rainless.

The Peninsula.—A few falls occurred in southeast Madras daily between the 20th and 24th, on the north Madras coast on the 26th, in north Hyderabad on the 20th and in the Bombay Deccan on the 20th and 21st. In Malabar local rain fell on the 23rd and there were a few falls on two other days.

3. The chief amounts of rainfall reported were as follows:—

November	20th.	Neemuch 1·72", Indore 0·62", Khandwa 1·20", Hoshangabad 1·50", Pachmarhi 0·65", Ajmer 0·35", Kotah 0·29", Rajkot 1·40", Ahmadabad 0·74", Aurangabad 0·42", and Pamban 0·83".
"	21st.	Neemuch 0·73", Khandwa 0·72", Jodhpur 0·15", Jaipur and Udaipur each 0·28", Ajmer 0·75", Kotah 0·20", Mount Abu 0·31", Malegaon 0·12", and Cochin 3·68".
"	22nd.	Meerut and Mussooree each 0·31", Chakrata 0·40", Roorkee and Pachmarhi each 0·25", Hoshangabad 0·45", Simla 0·41", Kotah 0·29", and Pamban 0·53".
"	23rd.	Cochin 1·23" and Pamban 1·08".
"	24th.	Darjeeling 0·73" and Sonamarg 0·25".
"	25th.	Myitkyina 0·44", Mussooree 0·95", Amraoti 0·96", Seoni 2·60" and Simla 0·40".
"	26th.	Akyab 0·84".

4. The week's rainfall was 20 per cent or more in excess in the Bay Islands, the United Provinces West, Rajputana, Gujarat, Central India West, Berar, the Central Provinces West, Hyderabad North and Malabar; and was 20 per cent or more in defect in Burma, Assam, Bengal, Bihar and Orissa, the United Provinces East, the North-West Frontier Province, Baluchistan, Central India East, the Konkan, Hyderabad South, Mysore, Madras Southeast, the Madras Deccan and the Madras Coast North. It was equal to the normal in Kashmir, the Central Provinces East and the Bombay Deccan. No rain usually falls at this time of year in the Punjab and Sind.

The rainfall from the 2nd May to date is 20 per cent or more in defect in the Bay Islands, Kashmir, Sind and Hyderabad North; and is 20 per cent or more in excess in Orissa, Chota Nagpur, Baluchistan, Rajputana West, Central India, the Central Provinces West, Mysore and the Madras Coast North. In the remaining divisions the rainfall of the period differs from the normal by less than 20 per cent.

No. 8270-S.

Dated the 27th November 1919.

M. G. SUBRAHMANYAM,
for Offg. Director General of Observatories.B. A. MANT,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 22nd November 1919.

Burma.—The rainfall during the week was general throughout the Province, heavy in Arakan coast, light in the dry zone and moderate elsewhere. Reaping of early paddy is progressing in Lower Burma and in the wet zone of Upper Burma. Gathering of groundnuts, plucking of cotton and cultivation of miscellaneous dry crops, tobacco and onions are proceeding in Upper Burma. The condition of standing crops are generally fair. Recent rains are beneficial to crops generally. Cattle are generally healthy in the Amherst district. The number of persons on relief works was 1,450 and that of persons receiving gratuitous relief was about 100. The price of white rice (specials) in Rangoon remained stationary at Rs. 385. No quotations are given for unhusked rice as paddy season is practically closed.

Assam.—During the week the weather was seasonable. Rain is much beneficial to standing crops. Plucking of tea and cotton, harvesting of winter rice and sowings of mustard and pulses are in progress. The outturn of winter rice and cotton is fair. Prospects of pulses are not good but other standing crops are generally in fair to good condition. Cattle disease is reported from three districts. The price of common rice has risen in the Surma Valley but continues to fall in the Assam Valley.

Bengal.—During the week light to moderate rain fell in almost throughout the Province. It has somewhat benefited the late transplanted paddy and greatly facilitated the growth of vegetables and other spring crops. Harvesting of winter paddy and sowing of spring crops are proceeding. The average price of common rice has risen by about 1.36 per cent.

Bihar and Orissa.—During the week light rain fell in the Santal Parganas, Singhbhum, parts of Cuttack, Balasore, Angul and Puri. There was no rain in the rest of the Province. Sowings of spring crops and harvesting of early winter paddy continue. Standing crops are, on the whole, doing well. More rain is however wanted in parts of Tirhut and Purnea. Some damage has been done to pulses by the recent heavy rainfall in Puri. Gratuitous relief was given to 12,261 persons in Bhagalpur, 728 in the Santal Parganas, 3,146 in Cuttack and 6,042 in Puri. The price of common rice has risen in one district, fallen in seven and remained stationary in the remaining districts as compared with that of the preceding week. The average price of local common rice at headquarters was 8.14 seers a rupee against 5.89 in the preceding week and that of maize was 7.57 seers against 7.46 seers in the preceding week. Cattle disease is reported from eight districts.

The weekly report on famine for week ending 15th November 1919 is as follows:—In Bhagalpur Sadar persons gratuitously relieved by poor-houses, orphanages and village doles were 3,465. In Deoghar relief-workers were 70 and persons gratuitously relieved by village doles 767, total on relief 837, grand total under relief 4,302. Famine operations have been practically closed.

United Provinces.—The rainfall during the week was insignificant. Preparation of lands for and sowing of poppy, harvesting of autumn crops, irrigation of spring crops and sugarcane, picking of cotton and pressing of sugarcane continue. Standing crops are doing well. Prospects are favourable. The condition of agricultural stock is satisfactory. Fodder is generally sufficient. Water and market supplies are sufficient. Prices are mostly stationary.

Punjab.—During the week light rain has fallen in nearly all the reporting districts except in parts of the south, east and west. Though the fall was slightly beneficial it was quite insufficient. More rain is urgently wanted everywhere for unirrigated crops. The condition of standing irrigated crops is average to good and of unirrigated crops below average to average. Picking of cotton, pressing of sugarcane and harvesting of other autumn crops are in progress. The yield is generally normal on irrigated and below normal on unirrigated areas. Sowings of spring crops continue and are below normal to normal. Cattle are generally healthy, but fodder is scarce in parts of a few districts. Prices are generally stationary and above scarcity rates. Prices of wheat:—Ambala and Rawalpindi 6, Ferozepore 6½, Lahore 6½ and Lyallpur 6½ seers per rupee.

North-West Frontier Province.—The week was again rainless. Rain is much needed. Sowings of spring crops and harvesting of certain autumn crops are in progress. The outturn of cotton is reported to be below average in Peshawar. Standing crops are generally average but prospects of crops on unirrigated areas in one district are reported to be poor. Prices of wheat:—Peshawar $7\frac{1}{2}$ and Dera Ismail Khan $7\frac{3}{16}$ seers per rupee.

Jammu.—During the week no rain fell. Prices are stationary. Fodder is sufficient.

Kashmir.—The week was generally dry and cold. Cattle disease is reported in Gurez. Prices are fluctuating.

Rajputana.—During the week rain fell in some places, the heaviest fall being in South Rajputana. The weather was cool. Sowing and watering of spring crops continue. Germination is generally good. The supply of fodder and water is adequate. The condition of agricultural stock is good except in parts of Kotah. Prices are steady.

Central India.—The rainfall during the week was partial. More rain is needed in Gwalior north. Harvesting of autumn and sowing of spring crops are in progress. Picking of cotton continues in Gwalior and Malwa. Standing crops are in fair to good condition and their probable outturn is fair to good. Damage is reported in the Nimar district of Indore and in three parganas in Baghelkhand. Agricultural stock is generally good except for cattle disease in parts of Gwalior, Indore and Baghelkhand. Prices are high.

The weekly report on famine in Bundelkhand is as follows:—Distress is not acute. Numbers on relief works are decreasing. People are reverting to agricultural operations. No wandering or emaciation is reported. Relief measures are adequate. Suspensions of land revenue are being granted. *Takavi* advances are sufficient. The public health is good. Prices range from $7\frac{1}{2}$ to 10 seers per rupee. Numbers on relief in thousands:—works 3·3, gratuitous relief 4·7, total 8.

Central Provinces.—During the week the weather continues to be cool with occasional clouds. Hoshangabad had 2 inches of rain. Five other districts in the north-west of the Provinces also received light showers of rain not exceeding half an inch. Harvesting, threshing and winnowing of autumn crops and picking of cotton continue. All the important autumn crops are excellent this year. Sowings of spring crops are nearing completion. Germination is successful and prospects are favourable. Recent rain has been beneficial to spring crops but the cloudy weather and rain are said to have slightly effected cotton and *juar* in parts of the Hoshangabad, Nagpur and Chanda districts and *juar* has suffered in several tracts. No deficiency of fodder and water is reported. Cattle disease prevails in parts of seven districts, otherwise the condition of agricultural stock is generally good. Variations in prices are irregular but indicate a slight upward course.

Feudatory States:—Reaping of autumn crops and sowings of spring crops are in full swing. Prospects are quite good.

Bombay.—Rain fell during the week in the Presidency proper. Rain is injurious to crops in parts of Ahmedabad, the Panch Mahals, Khandesh, Belgaum, Kathiawar, Mahi Kantha and Rewa Kantha but elsewhere crops are generally in good condition except in parts of Broach where they have been damaged by insects. Harvesting of autumn crops and sowings for spring crops continue in some places. Cotton picking is in progress in parts of the Deccan and Kathiawar. The supply of fodder and water is generally adequate. Agricultural stock is sufficient. Cattle are in good condition. Prices of food-grains have fallen slightly in parts of the Deccan and Belgaum and are generally steady elsewhere.

Hyderabad.—The rainfall during the week was slight and undistributed in the Mahrattara districts and copious throughout Telingana. The average fall was 1 inch and 95 cents. Autumn and early rice crops are in fair to good condition and are being harvested. They have been damaged somewhat by rains. Recent rains have injured cotton crops in Telingana but are helpful to spring crops. Sowings for spring crops have been almost completed and sprouts are in prosperous condition. Cattle disease is reported in some talukas of the Mahbubnagar, Nalgonda, Adilabad and Karimnagar districts. Prices of grains continue to be high. *Juar* is selling at 4 seers a rupee in Adilabad.

The weekly report on famine for week ending 15th November is as follows:—Famine conditions are disappearing rapidly. Yellow *juar* and oil seed crops in Telingana have been damaged by recent rains. Relief works and poor-houses continue in affected parts of Telingana only. Village gratuitous relief was stopped. *Takavi* is still being advanced to help the cultivation of spring and hot weather crops. Numbers relieved in thousands for week ending 13th November:—works 10, gratuitous relief 8, total 18.

Mysore.—During the week the rainfall was light. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available. Prices are high and fluctuating. Prospects of the season are fair. Harvesting of rice, *ragi* and sugarcane is proceeding with outturn fair to good.

Coorg.—Light rain fell during the week. The condition of rice is good. Picking of cardamum continues. Cattle are generally healthy. Water and fodder for cattle are available. The public health is fair. Prices of food-grains are high.

Madras.—The rainfall during the week was good in Ganjam and Tinnevely, fair in Cochin and light or *nil* elsewhere. Standing crops are in fair condition generally but they have been damaged in small areas in Ganjam, Kistna, Chittoor and Ramnad owing to recent heavy rains. Dry crops in parts of one taluka in Ramnad have been damaged by locusts. The outturn of harvested paddy and dry crops is generally fair. Fresh sowings of paddy and dry crops are progressing. The condition of cattle is generally good. Water is sufficient except in parts of seven districts. Pasture and fodder are sufficient generally. Prices are generally steady. Prospects are fair generally.

The weekly report in famine in Ganjam is as follows:— Relief works 5 in Goomsur, 8 in Kallikota and Atagada, 2 in Humma, Biridi and Palur and 1 in Ronabha are in progress. Famine operations were closed in Udayagiri and are being closed in other areas. Relief measures are adequate. Cloth distribution is being provided by charity. Prices:—rice in Goomsur 4.5 and in Kallikota and Atagada and in Chatrapur 4.8 seers; *ragi* in Kallikota and Atagada 6.5 and in Chatrapur 7.6 seers per rupee. Numbers on relief works were 32,977 and on gratuitous relief (incomplete figures) 56,891, total 89,871.

DELHI :
The 27th November 1919. }

F. H. G. HUTCHINSON, Lieut.-Col., I.M.S.,
Sanitary Commissioner with the
Government of India.

H. SHARP,
Secretary to the Government of India.

**Statement of Approximate Gross Earnings of Indian
Railways.**

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, NOVEMBER 29, 1919.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 8th November 1919.

On and after 15th November and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Delhi, Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Delhi and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India."

Rules and Notifications issued under Legislative Acts, and having the force of law, may be obtained separately at 2 pice per page.

By order of Government, all subscriptions must be paid *in advance*.

Applications for the supply of the *Gazette* on the public service should be addressed to the Department of the Government of India, Local Government, Head of Department or other officer empowered in this behalf to whom the applicant is subordinate.

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the date on which it is due.

J. J. MEIKLE,

Publisher, *Gazette of India*.

THE PATENT OFFICE

PATENTS and DESIGNS.

Calcutta, the 29th November 1919.

APPLICATIONS FOR PATENTS UNDER SECTION 3.

November 17.

5027. M. L. Koenig and A. M. Molony. *An improved spiral warming elevator for displacing oil-seed-meal.*
 5028. M. L. Koenig and A. M. Molony. *An improved hydro-control system for the automatic control of hydraulically operated oil expressing machines and the like.*
 5029. M. L. Koenig and Molony. *An improved automatic hydraulically controlled and operated machine for the extraction of oil from oil seeds.*
 5030. E. H. Hazel, J. C. W. Beadle and A. V. Pearson. *Insect pest collector.*
 5031. G. S. Awasthi. *Manila board washers.*
 5032. C. H. Chubb. *An improved lock.*
 5033. H. S. Reece. *An improved key or tapper for signalling morse signals from a ship's head light.*
 5034. S. Kuroki. *Improvements in water proof paint.*
 5035. J. J. Hood, J. Clark and P. G. Clark. *Improvements in the discolourising and purification of saccharine materials.*
 5036. R. Verey. *Method and apparatus for changing gears.*

November 18.

5037. N. P. Roe. *Railway block section detector.*
 5038. J. Fraser and E. E. Lucy. *Improvements relating to the heating of feed water for boilers.*
 5039. Electrolytic Zinc Co., of Australasia Proprietary Ltd. *Improvements in the recovery of zinc by electrolysis.*
 5040. Societe Anonyme Pour L'Exploitation des Procèdes Westinghouse-Leblanc. *Improvements in installing rotors of high tangential and angular velocity.*
 5041. J. Wells. *Improvements in grates for gas producers and carbonising plants.*
 5042. Linotype and Machinery, Ltd. *Improvements in or relating to apparatus for producing curved stereotype printing plates.*
 5043. Linotype and Machinery, Ltd. *Improvements in or relating to apparatus for producing curved stereotype printing plates.*

November 19.

5044. W. Spoelstra. *Apparatus for drying vegetables and the like.*
 5045. B. T. P. Parker. *Improvements in and in the production of pectous substances.*

November 20.

5046. K. S. Sanghani. *Improved horizontal pump.*

November 21.

5047. W. Thorig. *Improvements in and relating to safes or the like.*

APPLICATIONS ACCEPTED AND ADVERTISED UNDER SECTION 6.

Notice is hereby given that all persons interested in opposing the grant of a Patent on any one of the applications, referred to below, may, at any time within three months of the date of this *Gazette of India*, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

Printed copies of the specifications in the following list will be on sale at the Patent Office, 1, Council House Street, Calcutta, within about three weeks.

Any one desiring a copy posted to an address in British India should send to the Patent Office the sum of annas eight by money-order on which the number of the application should be stated on the coupon at the foot of the order.

1706. R. Kutschinski. *Improvements in fuels for internal combustion engines.*

1787. Dr. W. Fuchs and Dr. E. Granichstätten. *Process for the manufacture of catalysing agents.*
1931. Elektro-Osmose Aktiengesellschaft (Graf Schwerin Gesellschaft.) *An improvement in the treatment of clay and kaolin by an elutriation process.*
2048. L. Karnet. *Apparatus for straightening rails, girders or the like.*
2095. Elektro-Osmose Aktiengesellschaft (Graf Schwerin Gesellschaft.) *Improved process for separating from a mixture one or more suspension colloids, emulsion colloids, true colloids, ions or dissolved bodies or members of two or more of these classes.*
2214. C. F. Boehringer & Soehne. *Process of preparing derivatives of bismethylaminotetraminoarsenobenzene which are soluble in water.*
4483. P. M. Mehta. *Improved means for repairing cinema films.*
4960. A. E. Trimmings. *Improvements in or relating to tennis and the like rackets.*

PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office, 1, Council House Street, Calcutta, annas eight each.

3594. A. Aroutunianz. *Improvements in a water and dust tightly closed dynamos generators and electromotors.*
3595. A. Aroutunianz. *Improvements in electro-pumps submergible into liquid.*
3885. General Electric Co. *Improvements in and relating to methods of producing alloys.*
3932. J. M. Cooper. *Improvements in pneumatic or resilient tyres.*
4046. Standard Oil Company of New York. *Fire extinguishing apparatus.*
4326. G. B. Bowles. *Improvements in or relating to axle boxes for railway and like vehicles.*
4327. G. B. Bowles. *Improvements in or relating to dust shields for axle boxes for railway and like vehicles.*
4347. T. P. Dave. *An improved process for extracting and purifying castor oil.*
4557. John E. Minnitt, Ltd. *Semi-portable incinerator.*
4576. O. Hermoye and C. Glorian. *Improved concrete construction.*
4591. R. J. E. Thurburn, J. V. Gamundi and L. I. Nogueira. *Improved apparatus for locking and detecting railway switch points and the like.*
4659. E. Anderson. *Improvement in machine tools.*
4681. S. L. Pathuek. *Improved padlock.*
4785. H. W. Crane and J. W. Walker. *An improved live-stock food and process for manufacturing the same.*
4801. F. Purshotam. *Improved rocking cradle for children.*
4843. D. R. Blair. *Improvements in the manufacture of iron and steel.*
4844. E. S. Luard. *Improvements in and relating to vacuum brake systems and apparatus for railway and like vehicles.*
4845. E. S. Luard. *Improved apparatus for testing vacuum brakes on railway trains and the like.*
4846. E. S. Luard and V. P. Rawlings. *Apparatus for testing vacuum ejectors such as those employed on railway locomotives for brake purposes.*
4848. Holt Manufacturing Co. *Improvements in and relating to the track-shoes or tread-plates of chain-track vehicles.*
4851. R. S. Whaley. *Improvements in or relating to the cylinder heads of internal combustion engines.*
4852. F. R. Graham-Yooll. *Improvements in mouth pieces for feeding bottles.*
4853. H. C. Jenkins. *Improvements in electrolytic cells.*
4854. Aktiebolaget Kväfveindustri. *Improved apparatus for the production of nitrogen products.*
4856. R. S. Hamilton. *Improved exterminator for the tea mosquito blight or other insect plant pests.*
4862. Alphaero Engines, Ltd. *Improvements in or relating to internal combustion engines.*
4868. Holt Manufacturing Co. *Improvements in and relating to chain-track tractors.*
4869. Holt Manufacturing Co. *Improvements in and relating to chain-tracks for vehicles.*
4870. P. A. H. Mossay and Enclosed Motor Co., Ltd. *Improvements in dynamo electric machines.*
4877. F. J. J. Gibbons. *Improvements in metal window frames and sashes of the sliding sash type.*
4880. Electrolytic Zinc Co., of Australasia Proprietary, Ltd. *Improvements in the roasting of zinc sulphide ores preparatory to leaching.*
4884. E. H. W. Weibull. *Improvement in roller bearings.*

SEALING FEES DUE UNDER SECTION 10.

Notice is hereby given that a patent may now be sealed on the applications referred to below. If it is desired that a patent should be sealed, a request on the prescribed form No. 7 accompanied by the fee, Rs. 30, should be sent to the Controller of Patents, 1, Council House Street, Calcutta.

NOTICES.**THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.**

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. *These should be consulted before an application is made to the Controller.*

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India application should be made to the patent offices in the countries concerned.

5. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

7. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*.

These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AHMEDABAD . . .	R. C. Technical Institute.	HYDERABAD . . .	Revenue Department of His Highness the Nizam's Government.

V. LOUGH,

Controller of Patents and Designs.

TREASURE TROVE.

NOTICE.

Under section 5 of the Indian Treasure Trove Act, 1878, notice is hereby given that on the 27th day of February 1919 a copper idol of Vishnu estimated at Rs. 150 was found buried under earth in the bed of the tank of Madayanvayal in the Tiruppattur taluk by one Narayanan, son of Raman, a bandyman, residing at the Palayapatti village in the Tiruppattur taluk, while he was digging there for earth with some others. All persons claiming the said treasure are hereby required to appear before the Collector of Ramnad either in person or by an agent duly authorized by law on 10th April 1920 in the Ramnad Collector's office at Madura at 12 noon in order that the matter may be inquired into and determined according to law.

H. M. HOOD,

Collector.

Madura, 28th October 1919.

BOARD OF EXAMINERS.

Librarian.

**SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE,
 CINCHONA FEBRIFUGE, RESIDUAL ALKALOID
 AND QUINOIDINE.**

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. QUININE can be purchased by Government officers, District and Local Boards for Hospitals and Dispensaries in the Provinces of Bengal, Bihar, Punjab and Assam on indents duly countersigned by the Civil Surgeon of their Districts. It can also be purchased by Missionaries for *bona fide* public purposes. It is never sold to private persons or firms. CINCHONA FEBRIFUGE both in powder and $3\frac{1}{2}$ grain tablet forms and CINCHONIDINE can be purchased by Government officers and the general public. It is also sold by the Principal Druggists in Calcutta. QUINOIDINE or *Pure Amorphous Alkaloid* and *Residual Alkaloid* or *Amorphous Cinchona Alkaloid*, which contains about 40 per cent. of *Pure Amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance but private purchasers may use the V. P. system*, and are obtainable from the SUPERINTENDENT, JUVENILE JAIL, ALIPORE.

The rates for these drugs from 16th May 1919 are as follows:—

SULPHATE OF QUININE.

For quantities 60 lbs. and above in one delivery	Rs. 24 per lb.
For quantities of not less than 6 lbs. but below 60 lbs. in one delivery	" 25 "
For any quantity less than 6 lbs.	" 26 "

SULPHATE OF CINCHONIDINE.

For quantities of not less than 6 lbs. in one delivery	Rs. 11 per lb.
For any quantity less than 6 lbs.	" 12 "
(Only small quantities available when in stock.)	

CINCHONA FEBRIFUGE.

For quantities of not less than 6 lbs. in one delivery	Rs. 5 per lb.
For quantities less than 6 lbs. (when in stock)	" 6 "

CINCHONA FEBRIFUGE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.
For any quantity less than 6 lbs. (when in stock)	" 7 "

QUINOIDINE in non Tablet form (when in stock) and Residual Alkaloids.

" 4 "

QUINOIDINE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.
For quantities less than 6 lbs. in one delivery (when in stock)	" 7 "

Quinine is available in 1-oz., $\frac{1}{2}$ -lb., $\frac{1}{4}$ -lb., 1-lb., 4-lb., and 6 $\frac{1}{2}$ -lb. tins.

Cinchonidine is available in $\frac{1}{2}$ -lb., $\frac{1}{4}$ -lb. and 1-lb. boxes.

Cinchona Febrifuge is available in $\frac{1}{2}$ -lb., $\frac{1}{4}$ -lb. and 1-lb. boxes.

Residual Alkaloid is available in 1-lb., 5-lb. and 10-lb. boxes.

Quinoidine is available in 1-lb. box.

Quinoidine Tablets are available in 1-lb. box.

Transit charges are in addition to the above prices in every case.

Local sale at the Jail gate from 7 to 10 A.M. and 2 to 4 P.M.

Drugs are sold for cash or by V. P. Post. Price of Postage must accompany the price of the drug (when the drug is required by Post). The name of the Railway and Steamer Station or Post Office must be written distinctly when the parcels are required by Rail Steamer or by Post. A scale of Postage is given below:—

[For $\frac{1}{2}$ lb. 4 As.; $\frac{1}{4}$ lb. 5 As.; 1 lb. 8 As.; $1\frac{1}{2}$ lb. 11 As.; 2 lbs. 14 As.; 2 $\frac{1}{2}$ lbs. Re. 1 Anna 1; 3 lbs. Re. 1 Anna 1; 3 $\frac{1}{2}$ lbs. Re. 1 As. 4; 4 lbs. Re. 1 As. 7; 4 $\frac{1}{2}$ lbs. Re. 1 As. 10; 5 lbs. Re. 1 As. 13; 6 lbs. Rs. 2; 6 $\frac{1}{2}$ lbs. Rs. 2 As. 3.]

CALCUTTA UNIVERSITY.**NOTIFICATION.**

The following orders, which have been passed by the Government of India in the Department of Education and come into operation from the Examinations in 1920, are published for general information:—

In section 4, Chapters XXXII and XXXVI of the Regulations of the University regarding B.A. and B.Sc. Examinations, for the word “forty” substitute “forty-five”.

To the same section and chapters of the Regulations thus revised, add the following proviso:—

Provided that a candidate who applies for admission to the Honours Examination shall pay an additional fee of Rs. 10.

In sections 2 and 3, Chapters XXXIII and XXXVII of the Regulations, prescribed for M.A. and M.Sc. Examinations, for the word “fifty” substitute “eighty”.

In sections 7, 9 and 12, Chapter XLI of the Regulations governing the Examinations for the Degree of Bachelor of Law, for the word “fifteen” substitute “thirty”.

J. C. GHOSH,

Registrar.

SENATE HOUSE;
The 24th November 1919.

THOMASON CIVIL ENGINEERING COLLEGE, ROORKEE.**NOTIFICATION.**

Roorkee, the 21st March 1917.

A Registry Office for men of the undermentioned grades is kept up by the Principal, Thomason College, Roorkee. Officers and employers of labour requiring men are requested to apply to the Principal:—

1. Engineers.
2. Overseers.
3. Sub-Overseers.
4. Draftsmen and Sub-Surveyors.
5. Tracers.
6. Men trained in—
 - (a) Photo-Mechanical and Lithographic Work.
 - (b) Workshops (both Electrical and Mechanical sides).

W. G. WOOD,

Principal, Thomason College, Roorkee.

**DEPARTMENT OF MINES IN INDIA, DHANBAD P. O.,
MANBHUM.**

Indian Mines Act, 1901.

NOTICE.

An examination for First Class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for Second Class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, Notification No. 2968—S2, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad P.O., E. I. Railway, and not to any Officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

G. F. ADAMS,

Chief Inspector of Mines in India,
and *ex-officio*, President of the Board of Examiners.

DHANBAD,
The 13th October 1919.

HIGH COURT OF JUDICATURE AT LAHORE.**NOTIFICATION.**

Lahore, the 19th November 1919.

No. 5327-G.—The following list of Local Holidays to be observed by the various Civil Courts in the Delhi Province subordinate to the High Court of Judicature at Lahore during the year 1920 has been prepared by the High Court under section 47 (i) of the Punjab Courts Act, VI of 1918, as amended by Act IV of 1919, and is published for general information.

Name of holiday.	Date on which the holiday falls.	Number of days allowed.
Budho Mata	Not fixed	1
Urs Nizam-ud Din *	10th or 11th January	1
Qutab Pankha fair †	In August or September	1
Ganga Ashnan	28th November	1
		4

*Subject to the appearance of the moon.

† In case the Pankha fair is not held on account of the failure of the rains Goverdhan (11th November 1920) which is an important day for the Hindus should be substituted for the holiday.

NOTE 1.—Where the actual or correct date has not been specified in the above list, the Senior Sub-Judge will fix it in consultation with the District Judge and Deputy Commissioner and will give timely notice to the public.

NOTE 2.—With the previous sanction of the High Court (but not otherwise) any day not specified in this list may be substituted for any day which is specified therein.

NOTE 3.—The number of Local holidays allowed will not ordinarily exceed 7 days in each year.

NOTE 4.—Certain festivals which fall on either Sundays or General holidays have been omitted.

By order, etc.,
M. S. LEIGH,
Registrar.

Delhi, the 24th November 1919.

No. 7108-Education.—In exercise of the powers vested in the Local Government in that behalf by section 5, sub-section (3) of the Punjab Municipal Act, 1911 (III of 1911), the Chief Commissioner is pleased to declare that the area described in his Notification No. 5547-Education, dated the 12th September 1919, and the schedule annexed thereto, is included within the limits of the Delhi Civil Station Notified Area.

No. 7120-Home.—Major A. D. Stewart, I.M.S., took over charge of the duties of Medical Officer and Superintendent, District Jail, Delhi, from M. Munir-ud-Din, L.M.S. and Mr. T. S. Farmer, respectively, with effect from the afternoon of the 13th November 1919.

Delhi, the 25th November 1919.

No. 7126-C. & I.—In exercise of the powers conferred on him by section 59 of the Punjab Excise Act (I of 1914), as applied to the Delhi Province, the Chief Commissioner is pleased to direct that the following words appearing in rule 54 of the rules for the grant of licenses for the manufacture, supply, storage and sale of certain kinds of liquors in the Delhi Province prescribed by Notification No. 1314-C. & I., dated the 25th February 1915, shall be deleted from the said rule :—

From the 3rd and 4th line "excluding perfumes and toilet preparations", the comma after the word "chemicals" being replaced by a full-stop.

In the last sentence substitute a full-stop for the comma after the word "fee" and delete the rest of the sentence.

No. 7129-C. & I.—In exercise of the powers conferred on him by section 59 (d) of the Punjab Excise Act (I of 1914), as applied to the Delhi Province, the Chief Commissioner is pleased to prescribe the following amendment to Form L-13 (wholesale vend of country spirit) prescribed in this office Notification No. 1315-C. & I., dated the 25th February 1915 :—

For "Rs. 24" in the 8th line read "Rs. 50".

No. 7132-C. & I.—In exercise of the powers conferred on him by section 59 (d) of the Punjab Excise Act (I of 1914), as applied to the Delhi Province, the Chief Commissioner is pleased to make the following amendment in rule 46 of the rules for the grant of licenses for the manufacture, supply, storage and sale of certain kinds of liquors in the Delhi Province published with this office Notification No. 1314-C. & I., dated the 25th February 1915 :—

For "Rs. 24 per annum" in the 3rd line of the said rule read "Rs. 50 per annum with effect from 1st April 1920".

C. A. BARRON,
Chief Commissioner, Delhi.

AGENT TO THE GOVERNOR-GENERAL IN CENTRAL INDIA.

NOTIFICATION.

Central India Agency, Indore, the 18th November 1919.

No. 3987-D.—In exercise of the powers conferred by section 25 of the Negotiable Instruments Act, 1881, as applied to the Administered Areas in Central India, the Agent to the Governor-General in Central India is pleased to declare Saturday, Monday and Tuesday, the 13th, 15th and 16th December 1919, to be public holidays in the said areas, in celebration of the return of Peace.

Central India Agency, Indore, the 21st November 1919.

No. 4050-D.—In exercise of the powers conferred by section 6, sub-section (1) and section 15, sub-section (3) of the Provincial Small Cause Courts Act, 1887 (IX of 1887), as applied to the Cantonment of Mhow, and in supersession of the notification of the Government of India in the Foreign Department, No. 2582-I., dated the 31st July 1894, the Agent to the Governor-General in Central India is pleased (1) to appoint Mr. B. Barnes, Extra Assistant to the Agent to the Governor-General, to be the Judge of the Court of Small Causes in the Cantonment of Mhow and (2) to direct that all suits of a civil nature which are cognizable by a Court of Small Causes and of which the value does not exceed one thousand rupees shall be cognizable by the said Court. This notification supersedes the Central India Agency Notification No. 1752-B., dated the 21st December 1918.

By order,

E. J. D. COLVIN, Major,

First Assistant to the Agent to the Governor General in Central India.

IN THE HIGH COURT OF BOMBAY.

In Insolvency.

WHOLESALE AND RETAIL (FORTNIGHTLY) PRICES

RETURN SHOWING the WHOLESALE and RETAIL PRICES of CEREALS, PULSES, OILSEEDS, SUGAR (RAW), SALT, ETC., in INDIA by DISTRICTS for the FORTNIGHT ENDING THE 31ST OCTOBER, 1919

DEPARTMENT OF STATISTICS, INDIA }
November 26, 1919

G. FINDLAY SHIRRAS,
Director of Statistics

Published by order of the Governor-General in Council

PREFATORY NOTE.

Prices of Country Produce and Salt in India at the end of October, 1919.

(a) *The last fortnight of October, 1919, as compared with the preceding fortnight.*

At the end of October 1919, the average wholesale prices of food grains and pulses in India remained the same as in the previous fortnight. Although there was a rise of 1 per cent in rice and gram, 2 per cent in barley, and 5 per cent in wheat, there was, on the other hand, a fall of 6 per cent in bajra and 5 per cent in jawar; while the prices of maize and arhar dāl showed no change. Ghee, raw sugar (gūr), and salt advanced by 1 per cent each. The all-India fluctuation is stated below:—

Article	PREVIOUS FORTNIGHT (15TH OCTOBER, 1919)		THIS FORTNIGHT (31ST OCTOBER, 1919)	
	Unweighted	Weighted	Unweighted	Weighted
Rice	100	100	101	102
Wheat	100	100	105	104
Barley	100	100	102	103
Jawar	100	100	95	95
Bajra	100	100	94	92
Maize	100	100	100	101
Gram	100	100	101	103
Arhar dāl	100	—	100	—
Ghee	100	—	101	—
Raw Sugar (gūr)	100	100	101	102
Salt	100	—	101	—

The noticeable changes in provincial prices are a fall of 15 per cent in bajra in the Madras Presidency and a rise of 6 per cent in wheat in the Punjab; the price of rice in Bengal showed no fluctuation as compared with the preceding fortnight.

(b) *The last fortnight of October, 1919, as compared with the average of the preceding three years at corresponding date.*

The wholesale prices of cereals and pulses in India at the end of October, 1919, showed a rise of 50 per cent as compared with the average of the prices which prevailed at the corresponding date in the last three years. The increase in the price of rice was 45 per cent (unweighted average), while the rise by using the weighted average was 62 per cent. In the chief rice producing provinces, the increase was 74 per cent in Bengal, 88 per cent in Bihar and Orissa, 55 per cent in the Madras Presidency and 45 per cent in Burma. The price of wheat advanced by 35 per cent, showing a rise of 27 per cent in the Punjab, 40 per cent in the United Provinces, 36 per cent in the Central Provinces and Berar, and 33 per cent in the Bombay Presidency. There was a rise of 39 per cent in barley, 41 per cent in jawar, 42 per cent in bajra, and 50 per cent in maize. Gram prices increased by 73 per cent and arhar dāl by 74 per cent. Ghee showed a rise of 34 per cent and raw sugar (gūr) 63 per cent; but the price of salt showed a fall of 4 per cent.

* 5% barley, 3% dirt, and 30% red.

NOTE.—These statistics are compiled from fortnightly returns furnished by Local Governments and Administrations. They relate to the wholesale prices in the markets referred to above, which prevailed on the last or nearest market day of each fortnight. The statistics for Karachi, Bombay, and Calcutta are compiled from the Chambers of Commerce Market Reports.

(a) Based on the price for the fortnight ending the 31st July, 1914, which is taken as 100.

India per maund of 82½ lbs

DEPARTMENT OF STATISTICS, INDIA.

Joint Stock Companies.

OCTOBER 1919.

During the month under report, 92 companies were registered with an aggregate authorised capital of over R52 crores, as against 12 companies with an aggregate authorised capital of about R73 lakhs in the corresponding month of the preceding year. Bengal accounted for 39 companies (over R29 crores), Bombay coming in next with 34 companies (over R22 crores). For the seven months, April to October, 1919, the number of companies registered was 435 with an authorised capital of over R1,38 crores, as against 137 companies with about R6 crores of authorised capital in the corresponding period of the preceding year. The largest flotation in October was that of the Himalaya Assurance Company, Bengal (R15 crores).

Table 1.

Abstract Statement of Companies incorporated in British India and in the Mysore State and registered in the month of October 1919, and in the corresponding month of 1918.

Classification of Companies	OCTOBER 1918		OCTOBER 1919

CALCUTTA :
November 20, 1919.G. FINDLAY SHIRRAS,
Director of Statistics.

The Gazette of India

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, DECEMBER 6, 1919.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 8th November 1919.

On and after 15th November and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Delhi, Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Delhi and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,
Secretary to the Government of India."

EXTENSION OF TERM OF PATENT.

Notice is hereby given that the Governor-General in Council is pleased to sanction the extension of the term of the patent for "An improved method of working kilns for burning bricks," No. 387 of 1905, obtained by Mr. G. K. Ramjee on 17th February 1906, for a further term of five years, *i.e.*, up to 16th February 1925, under the provisions of Section 15 of the Indian Patents and Designs Act, 1911, and subject to the following conditions:—

- (1) that existing licenses to users of the invention shall be continued, if the licensees so desire, at rates not exceeding the present rates,
- (2) that future licenses shall be granted at rates not exceeding 4 annas per thousand bricks burnt to applicants who deposit caution money not exceeding Rs. 250; and
- (3) that the prescribed fee of Rs. 100 for a certificate of renewal shall be paid on or before the 17th day of February in respect of each year of the extended period.

CESSATION OF EXCLUSIVE PRIVILEGES.

The public are warned that entries under this heading must not be accepted as final, as under the provisions of Rules 9 and 11 of "The Indian Patents and Designs (Temporary) Rules, 1915," the Controller may extend the time prescribed by the Indian Patents and Designs Act, 1911, and by the Inventions and Designs Act, 1888, for paying the necessary renewal fees.

The Patent Office will supply on request definite information, so far as possible, as to the position of any particular Patent or Exclusive Privilege.

NOTICES.**THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.**

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (11 of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. *These should be consulted before an application is made to the Controller.*

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India application should be made to the patent offices in the countries concerned.

5. *Fees* are payable in cash and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

7. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AMERDABAD . . .	E. C. Technical Institute.	HYDERABAD . . .	Revenue Department of His Highness the Nizam's Government.

J. A. CHAPMAN,
 Librarian.

**SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE,
 CINCHONA FEBRIFUGE, RESIDUAL ALKALOID
 AND QUINOIDINE.**

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. QUININE can be purchased by Government officers, District and Local Boards for Hospitals and Dispensaries in the Provinces of Bengal, Bihar, Punjab and Assam on indents duly countersigned by the Civil Surgeon of their Districts. It can also be purchased by Missionaries for *bona fide* public purposes. It is never sold to private persons or firms. CINCHONA FEBRIFUGE both in powder and $3\frac{1}{2}$ grain tablet forms and CINCHONIDINE can be purchased by Government officers and the general public. It is also sold by the Principal Druggists in Calcutta. QUINOIDINE or *Pure Amorphous Alkaloid* and *Residual Alkaloid* or *Amorphous Cinchona Alkaloid*, which contains about 40 per cent. of *Pure Amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance but private purchasers may use the V. P. P. system*, and are obtainable from the SUPERINTENDENT, JUVENILE JAIL, ALIPORE.

The rates for these drugs from 16th May 1919 are as follows:—

SULPHATE OF QUININE.

For quantities 60 lbs. and above in one delivery	Rs. 24 per lb.
For quantities of not less than 6 lbs. but below 60 lbs. in one delivery	" 25 "
For any quantity less than 6 lbs.	" 26 "

SULPHATE OF CINCHONIDINE.

For quantities of not less than 6 lbs. in one delivery	Rs. 11 per lb.
For any quantity less than 6 lbs.	" 12 "

(Only small quantities available when in stock.)

CINCHONA FEBRIFUGE.

For quantities of not less than 6 lbs. in one delivery	Rs. 5 per lb.
For quantities less than 6 lbs. (when in stock)	" 6 "

CINCHONA FEBRIFUGE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.
For any quantity less than 6 lbs. (when in stock)	" 7 "

QUINOIDINE in non Tablet form (when in stock) and Residual Alkaloids.

QUINOIDINE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.
For quantities less than 6 lbs. in one delivery (when in stock)	" 7 "

Quinine is available in 1-oz., $\frac{1}{4}$ -lb., $\frac{1}{2}$ -lb., 1-lb., 4-lb., and 6 $\frac{1}{2}$ -lb. tins.

Cinchonidine is available in $\frac{1}{4}$ -lb., $\frac{1}{2}$ -lb. and 1-lb. boxes.

Cinchona Febrifuge is available in $\frac{1}{4}$ -lb., $\frac{1}{2}$ -lb. and 1-lb. boxes.

Residual Alkaloid is available in 1-lb., 5-lb. and 10-lb. boxes.

Quinoidine is available in 1-lb. box.

Quinoidine Tablets are available in 1-lb. box.

Transit charges are in addition to the above prices in every case.

Local sale at the Jail gate from 7 to 10 A.M. and 2 to 4 P.M.

Drugs are sold for cash or by V. P. Post. Price of Postage must accompany the price of the drug (when the drug is required by Post). The name of the Railway and Steamer Station or Post Office must be written distinctly when the parcels are required by Rail Steamer or by Post. A scale of Postage is given below:—

[For $\frac{1}{4}$ lb. 4 As.; $\frac{1}{2}$ lb. 5 As.; 1 lb. 8 As.; $1\frac{1}{2}$ lb. 11 As.; 2 lbs. 14 As.; 2 $\frac{1}{2}$ lbs. Re. 1 Anna 1; 3 lbs. Re. 1 Anna 1; 3 $\frac{1}{2}$ lbs. Re. 1 As. 4; 4 lbs. Re. 1 As. 7; 4 $\frac{1}{2}$ lbs. Re. 1 As. 10; 5 lbs. Re. 1 As. 13; 6 lbs. Rs. 2; 6 $\frac{1}{2}$ lbs. Rs. 2 As. 3.]

Quinoidine tab: 1 lb. Weg. 8 lbs. Postage	Rs. 1	1	6
Quinoidine tab: 2 lbs. Weg. 6 lbs. Postage	2	0	0
Quinoidine tab: 3 lbs. Weg. 9 lbs. Postage	3	0	0

N.B.—Postage stamps are not accepted as revenue.

W. G. WOOD,

Principal, Thomason College, Roorkee.

**DEPARTMENT OF MINES IN INDIA, DHANBAD P. O.,
MANBHUM.****Indian Mines Act, 1901.****NOTICE.**

An examination for First Class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for Second Class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad P.O., E. I. Railway, and not to any Officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

G. F. ADAMS,

Chief Inspector of Mines in India,
and *ex-officio* President of the Board of Examiners

A Catalogue of Maps corrected up to 1st October 1917 is available at Rs. 1 per copy.

All published maps are sold at the Map Record and Issue Office, Survey of India, Calcutta, for cash with postage prepaid.

Agents cannot issue maps on the Public Service except on cash payment.

The following is a list of the more important "General" and other maps which are available for quarter ending 30th September 1919.

EXPLANATION.

All Maps from Surveys after 1905 called "Modern" are printed in 4 or 5 colours, i.e., water forms in blue, towns and roads in red, forests and jungle in green, cultivation in yellow, hill contours in brown with shading to emphasize the hills, and other details in black.

All Maps from Surveys prior to 1905 are printed in black only or in black with hills in brown.

All Maps on scales $1''=4$ miles, $\frac{1}{1,000,000}$ or nearly $1''=16$ miles and $\frac{1}{2,000,000}$ or nearly $1''=32$ miles are printed in either one or two of the following editions, except those marked "Provisional Issue" which are from old surveys:—

- (1) *Layered edition*, printed in colours with contours and graduated layer tints to show altitudes and shading to emphasize the hills. (Colour ribands along boundaries cannot be added to this edition.)
- (2) *Political edition*, printed in colours with colour ribands along boundaries, contours to show altitudes and shading to emphasize the hills.
- (3) *Provisional issue*, generally printed in black or in black with hills in brown. Colour ribands along boundaries are added by hand when required at an extra cost of 2 annas per sheet.

NOTICE UNDER SECTION 247 (5) OF THE INDIAN COMPANIES ACT VII OF 1913.

Delhi, the 1st December 1919.

In the matter of the Bharat Beopar Association Limited, Delhi.

With reference to the notice dated the 5th August 1919 published pursuant to Section 247 (3) of the Indian Companies Act (VII) of 1913, it is hereby notified that under the provisions of Section 247 (5) of the said Act, the Bharat Beopar Association, Limited, Delhi, has been struck off the register as a defunct company.

H. A. SMITH,
Joint Stock Companies, Delhi.

ORDERS BY THE HON'BLE THE AGENT TO THE GOVERNOR-GENERAL, RAJPUTANA.

NOTIFICATION.

Mount Abu, the 25th November 1919.

No. 6099 - 3.—In exercise of the powers conferred by Section 112 (2) (f) of the Abu Municipal Law, 1919, the Hon'ble the Agent to the Governor General is pleased to make the following rules for the registration of births and deaths in the Abu Municipal Area.

1. The Secretary, Municipal Committee, Abu, or any other officer deputed by him in this behalf shall maintain registers of births and deaths in Forms A. and B. appended to this Notification in respect of all births and deaths occurring in the Municipal Area.
Maintenance of registers.
2. No charge shall be made for the registration of any birth or death.
Registration to be free.
3. The head for the time being of every house or family in which any birth occurs or in his absence any adult member of the family or any servant shall within 3 days after the event, report the same to the Secretary, Municipal Committee, or any other officer deputed by him in this behalf together with the following particulars namely:—
Report of Birth.
 - (a) the date and hour of birth, and the sex and name (if any) of the child;
 - (b) the name, place of residence and occupation, and the caste or religion (if any) of the father; and
 - (c) the name and place of residence of the person making the report. If the person registering the birth desires it, he may within a fortnight apply to the Secretary, Municipal Committee to register the name of the child.
4. The head for the time being of every house or family in which any death occurs or in his absence any adult member of the family shall immediately after the event report the same (a) if the death occurs in the Sanitarium (including the Supply and Transport lines and Gora Chapra) to the Officer Commanding the Station Hospital (b) if the death occurs elsewhere in the Municipal Area than in the Sanitarium, to the Sub-Assistant Surgeon in charge of the Adams Memorial Hospital.
Report of death.
5. The Officer Commanding or Sub-Assistant Surgeon on receiving a report under the preceding rule shall grant to the person reporting a certificate in form C. appended to these rules.
Grant of certificate on report of death.
6. The person receiving such certificate shall within 24 hours deliver it to the Secretary, Municipal Committee or any other officer deputed by him in this behalf and shall at the same time furnish the following particulars:—
Duty of person receiving certificate.
 - (a) the date and hour of the death, the sex, name, age and occupation and the caste or religion (if any) of the deceased, the cause of death and the place of residence of the deceased at the time of death.
 - (b) the name of the father, or, if the deceased was a married woman, the name of her husband; and
 - (c) the name with parentage and place of residence of the person making the report.
7. The head-man (garni) of the villages of Goa, Torna, Dundhai, and Hetamji shall within seven days after the event report the occurrence of any birth or death within the limits of their respective villages to the Secretary, Municipal Committee.
Responsibility of village headmen.
8. In the case of a dead body of any person unknown, or which is not claimed by any person, being found exposed, the Superintendent of Police shall within one week report the fact to the Secretary, Municipal Committee.
Report of death of person unknown.
9. The registers of births and deaths shall be open during office hours to inspection by any inhabitant of the Municipality, and the Secretary, Municipal Committee shall furnish, on application, certified extracts therefrom to persons interested upon payment of a fee of two annas per entry.
Inspection of registers and grant of copies.
10. The Secretary shall supply on demand, copies of and extracts from the registers free of cost to the Superintendent of Police, to the Registrar of Births, Deaths and Marriages and to any Government Officer who may require this information for public purposes.
Supply of copies of entries to Government officers.
11. Whoever fails to comply with the provisions of rules 3, 4, 6 and 7 shall be punishable on conviction by a Magistrate with fine which may extend to five rupees.
Penalty for breach of rules.

Wholesale and Retail (Fortnightly) Prices.—Return showing the Wholesale and Retail Prices of (Cereals, Pulses, Oilseeds, Sugar (Raw), Salt, etc., in India by Districts, for the Fortnights ending the 31st May 15th and 30th June and 15th and 31st July 1919. Foolscap. Stitched. As. 6 (1s.) each.

ARMY DEPARTMENT.

Demobilisation Orders (India)—Supplementary Instructions for the Supply and Transport Corps, 1919 (Provisional). Royal 8vo. Limp. As. 10 (1s.)

Field Service Manual—Mountain Artillery Brigade, Headquarters and Battery (armed with 2-7-5 in. B. L. Guns) India, 1919. As. 4 (1s.)

Field Service Sanitary Notes, India, 1919. Cloth. Limp. As. 12 (3s.)

Signal Training, Part I, 1917. (Roman Urdu) Cloth. Limp. As. 10 (2s.)

INDIAN MUNITIONS BOARD.

Notes on wool in India. Super-royal 8vo. Paper cover. As. 12 (2s.)

Report on Portland Cement of Indian Manufacture by Mr Henry A. F. Musgrave. Foolscap. Paper cover. As. 3 (3s.)

RAILWAY BOARD

Technical Paper No 193—Second Report of the Indian Railway Bridge Committee, November 1918. Foolscap. Paper cover. As. 8 (2s.)

LIST OF BOOKS FOR SALE AT THOMASON COLLEGE, ROORKEE.**Thomason Civil Engineering College Manual, No. XIV—**

Surveying Part I. Originally compiled by Lieutenant-Colonel F. FIREBRACE, R.E.; re-written and revised by C. J. VEALE, Esq., Professor of Surveying and Drawing, II Edition, 1915. Rs. 2-8.

Surveying, Part II. Originally compiled by Lieutenant-Colonel F. FIREBRACE, R.E.; re-written and revised by C. J. VEALE, Esq., Professor of Surveying and Drawing, II Edition, 1915. Rs. 2-6.

Thomason Civil Engineering College Manual, Section V, Examples of Estimating.—Originally compiled by the late Ensign Peter Keay, Head Master, Upper Subordinate Class, Thomason Civil Engineering College, Roorkee, 8th Edition, 1915, entirely revised by F. W. HART, Instructor in Applied Science, Thomason Civil Engineering College. Rs. 3-8.

Notes on Lawn Tennis, Rowing and Sculling for beginners. By Captain E. W. C. SANDES, R.E. Paper cover. As. 10.

LIST OF NEW BOOKS AND PERIODICALS FOR SALE AT THE LIBRARY OF THE ASIATIC SOCIETY OF BENGAL, 1, PARK STREET, CALCUTTA.**SPECIAL CATALOGUE.**

CATALOGUE OF THE SCIENTIFIC SERIAL PUBLICATIONS IN THE PRINCIPAL LIBRARIES OF CALCUTTA. COMPILED FOR THE ASIATIC SOCIETY OF BENGAL BY STANLEY KEMP, B.A. Rs. 5. INTERLEAVED COPY. Rs. 7-8.

SOCIETY'S PUBLICATIONS.

Journal and Proceedings—

- Vol. XIV, 1918, No. 1-2. Rs. 4.
 Vol. XIV, 1918, Nos. 3-9. Rs. 2 each.
 Vol. XV, 1919, Nos. 1-2. Rs. 2 each.

Memoirs—

- Vol. VI. Zoological Results of a Tour in the Far East. Part IV.—Brackish Water Polyclads. By DR. T. KABURAKI. Sponges. By N. ANNANDALE, D.Sc., F.A.S.B. Rs. 2. Part V.—Crustacea Decapoda and Stomatopoda. By STANLEY KEMP, B.A., F.A.S.B. Mollusca of the Tai-Hu. By N. ANNANDALE, D.Sc., F.A.S.B. Rs. 4.
 Vol. VII. No. 1. The Ormuri or Bargista Language, an account of a Little-known Eranian Dialect.—By SIR GEORGE ABRAHAM GRIBBS, K.C.I.E., Ph.D., D.Litt. Rs. 4.
 Vol. VIII. No. 2 Revision des Champignons appartenant au Genre *Nocardia*.—Par le Capitaine de Mello et Dr. J.F. St. Antonio Fernandes. Rs. 1-8.

BIBLIOTHECA INDICA.

- Baudhayana Sranta Sutram, Vol. 3. Fasc. 2. As. 10.
 Yoga Sastra. Fasc. 5. Rs. 1-4.
 Akbarnama (Eng.) Vol. 3. Fasc. 10. Rs. 1-4.
 Nyayavartika Tatparya Parisudhi. Fasc. 5. As. 10.
 Prithviraja Vijaya. Fasc. 2. As. 10.
 Shah Jahan Nama. Fasc. 3. Rs. 2.
 Tantravartika (Eng.) Fasc. 15. Rs. 1-4.
 Bardic and Historical Survey of Rajputana. (Vell. Krisana Rukamani ri Rathora raja Prithi Raja ri kahi) Part I. Dingala Text with Notes and Glossary. Rs. 1-8.
 The Odes of Shaikh Muslihu-d-din Sa'di Shirazi Fasc. I. Rs. 1-8.
 Maitra or Maitrayaniya Upanisad. Fasc. 2. As. 10.
 Baudhayana Sranta Sutram. Vol. III. Fasc. 3. As. 10.
 Minor Tibetan Texts. The Song of the Eastern Snow Mountain. Rs. 1.

LIST OF NEW BOOKS PUBLISHED BY THE GEOLOGICAL SURVEY OF INDIA

A Bibliography of Indian Geology and Physical Geography with an annotated Index of Minerals of Economic Value. By T. H. D. LATOUCHE, M.A., F.G.S., Fellow of the Asiatic Society of Bengal. Part I—Bibliography of Geology of India. Part II—An Annotated Index of Mineral of Economic Value. Rs. 4 each.

Memoirs of the Geological Survey of India—

- Volume XLII, Part 1. By J. COGGIN BROWN, M.Sc., F.G.S., Assistant Superintendent, Geological Survey of India. The Burma Earthquake of May 1912. Rs. 3.
 Volume XLIII, Part 2. By J. COGGIN BROWN, M.Sc., F.G.S., Assistant Superintendent, Geological Survey of India. A Descriptive Catalogue of the Meteorites comprised in the collection of the Geological Survey of India, Calcutta (on August 1st, 1914). Rs. 1.
 Volume XLV, Part 1. By A. M. HERON, B.Sc., F.G.S., Assoc. Inst. C.E., Assistant Superintendent, Geological Survey of India. The Geology of North-Eastern Rajputana and adjacent Districts. Rs. 3.
 Volume XLII, Part 2. By R. D. OLDHAM, F.R.S. The structure of the Himalayas, and of the Gangetic Plain, as elucidated by Geodetic Observations in India. Rs. 3.

Memoirs of the Geological Survey of India, Palaeontologia Indica, New Series—

- Volume VI, Memoir No. 1. By F. R. COWPER REED, Sc.D., F.G.S., Supplementary Memoir on New Ordovician and Silurian Fossils from the Northern Shan States (with plates I to XII). Rs. 3.
 Volume III, Memoir No. 2. By S. S. HUCKMAN, F.G.S. The Brachiopoda of the Namyan Beds, Northern Shan States, Burma (with plates I—XXI). Rs. 5.
 Volume V, Memoir No. 3. By Prof. HENRI DOUVILLE. Le Crétacé et Léocène du Tibet Central. Rs. 4.
 Volume VI, Memoir No. 3 (with plates I to VIII). By F. R. COWPER REED, M.A., Sc.D., F.G.S. Ordovician and Silurian Fossils from Yunnan. Rs. 2.

Records of the Geological Survey of India—

- Volume XLVII, Part 1. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India: General Report of the Geological Survey of India for the year 1915. GUY E. PILSBRY, D.Sc., F.G.S., Ofg. Superintendent, Geological Survey of India: Some Newly Discovered Eocene Mammals from Burma. G. D. P. CORRE, B.A., F.G.S., Assistant Superintendent, Geological Survey of India: Miscellaneous Notes—Chemical Composition of the Red Marl of the Salt Range, Punjab, and corrective Note on the Age of the Tertiary of Java. Rs. 1.
 Volume XLVII, Part 2. By L. LEIGH FLEMING, D.Sc., A.R.S.M., F.G.S., Superintendent, Geological Survey of India, and C. S. FOX, B.Sc., M.I.M.E., F.G.S., Assistant Superintendent, Geological Survey of India: The Deccan Trap Flows of Lings, Chhindwara District, Central Provinces. J. COGGIN BROWN, M.Sc., F.G.S., M.I.M.E., Assistant Superintendent, Geological Survey of India: A Note on the Iron ore deposits of Twingyi, Northern Shan States. Rs. 1.
 Volume XLVII, Part 3. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, and HENRY W. VREDEBURG, Superintendent, Geological Survey of India. Obituary: R. C. BUNYON. The Mineral Production of India during 1915. Flemingostrea, an eastern group of Upper Cretaceous and Eocene Ostreidae (with plates 17 to 20). Rs. 1.
 Volume XLVII, Part 4. By J. COGGIN BROWN, M.Sc., F.G.S., M.I.M.E., Assistant Superintendent, Geological Survey of India, Miss RUTH HOLDEN, and H. WALKER, A.R.C.S., Assistant Superintendent, Geological Survey of India: Contributions to the Geology of the Province of Yunnan in Western China. 5. Geology of Parts of the Salween and Mekong Valleys (with plates 21 to 28). A Fossil Wood from Burma (with plate 29). The Vissai and Ekk Khara Aerolites (with plates 30 to 33). Rs. 1.
 Volume XLVIII, Part 1. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, and G. D. P. CORRE, B.A., F.G.S., Assistant Superintendent, Geological Survey of India: General Report of the Geological Survey of India for the year 1916. A Revised Classification of the Gondwana System. Rs. 1.

Records of the Geological Survey of India—contd.

- Volume XLVIII, Part 2. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, and Lieut. G. E. PILGRIM, D.Sc., I.A.R.O., Assistant Superintendent, Geological Survey of India. The Mineral Production of India during 1916. Preliminary Note on some recent Mammal Collections from the Basal Beds of the Siwalika. Re. 1.
- Volume XLVIII, Part 3. By L. LEIGH FERRER, D.Sc., A.R.S.M., F.G.S., Superintendent, Geological Survey of India, J. COGGIN BROWN, M.Sc., M.Inst.M.M., M.I.M.E., F.G.S., Assistant Superintendent, Geological Survey of India, and A. M. HERON, B.Sc., F.G.S., Assoc.Inst.C.E., Assistant Superintendent, Geological Survey of India, on the Crystallography and Nomenclature of Hollandite (with plate 1). Geology and Ore Deposits of the Bawdwin Mines (with plates 2 to 8). Miscellaneous Notes—Monazite in Mergui and Tavoy. Re. 1.
- Volume XLVIII, Part 4. A. M. HERON, B.Sc., F.G.S., Assoc.Inst.C.E., Assistant Superintendent, Geological Survey of India, and Late R. C. BURTON, B.Sc., F.G.S., I.A.R.O., Assistant Superintendent, Geological Survey of India. The Bina-Lalsot Hills in Eastern Rajputana (with plates 9-12). On the origin of the Laterite of Seoni, Central Provinces (with plate 13). Index. Re. 1.
- Volume XLIX, Part 1. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, J. COGGIN BROWN, M.Sc., M.Inst.M.M., M.I.M.E., F.G.S., Assistant Superintendent, Geological Survey of India, and R. FOURMAN. General Report of the Geological Survey of India for the year 1917. The Cassiterite Deposits of Tavoy. Les Echinides des "Bagh Beds" (Plates 1, 2). Re. 1.
- Volume XLIX, Part 2. By H. H. HAYDEN, C.I.E., F.R.S., Director, Geological Survey of India, and R. D. OLDHAM, F.R.S. The Mineral Production of India during 1917. The Support of the Mountains of Central Asia. Re. 1.
- Volume XLIX, Part 3. By E. S. PINFOLD, B.A., F.G.S., Stud. Inst. M.M., C. S. MIDDLEMISS, C.I.E., F.G.S., and LALA JOTI PARSHAD, B.A., F.G.S., Mineral Survey of Jammu and Kashmir State, and Captain MURRAY STUART, I.D.F., D.Sc., F.G.S., Assistant Superintendent, Geological Survey of India. Notes on Structure and Stratigraphy in the North-West Punjab (with plates 4 and 5). Note on the Aquamarine Mines of Daso on the Braldu River, Shigar Valley, Baltistan (with plates 6 to 10). Preliminary Note on the Srimangal Earthquake of July 8th, 1918 (with plates 11 and 12). Re. 1.
- Volume XLIX, Part 4. By C. S. MIDDLEMISS, C.I.E., B.A., F.G.S., F.A.S.B., Superintendent, Mineral Survey of Kashmir, T. H. D. LATOUCHE, M.A., F.G.S., F.A.S.B., and K. HALLOWES, M.A. (Cantab.), F.G.S., A.R.S.M., A. Inst. M.M., Assistant Superintendent, Geological Survey of India. Possible occurrence of Petroleum in Jammu Province: Preliminary Note on the Nar-Budhan Dome, of Kotli Tehsil in the Peach Valley (with plates 13 to 16). The Submerged Forests at Bombay (with plates 17 to 19). On some Intra-Trappeans and a Silicified Lava from Hyderabad, S. India. Re. 1.
- Volume I, Part 1. By H. H. HAYDEN, C.S.I., C.I.E., F.R.S., Director, Geological Survey of India. General Report of the Geological Survey of India for the year 1918. Murray Stuart, D.Sc., Assistant Superintendent, Geological Survey of India. The Potash Salts of the Punjab Salt Range and Kohat (with plates 1 to 8). Murray Stuart, D.Sc., Assistant Superintendent, Geological Survey of India. Suggestions regarding the Origin and History of the Rock Salt Deposits of the Punjab and Kohat (with plates 9 to 25). Re. 1.
- Volume I, Part 2. By J. COGGIN BROWN, O.B.E., M.Sc., F.G.S., and A. M. HERON, B.Sc., F.G.S., Assistant Superintendents, Geological Survey of India. Distribution of ores of Tungsten and Tin in Burma (with plates 26 and 27). C. S. MIDDLEMISS, C.I.E., B.A., F.G.S., F.A.S.B., Superintendent, Mineral Survey of Jammu and Kashmir State. On the Inclination of Thrust plane or Recurved Fault, between the Siwalik and Murree Zone of formation, near Kotli, Jammu Province (with plate 28). E. S. PINFOLD, B.A., F.G.S. Two New Fossil Localities in the Garo Hills. G. DeP. CORTEE, B.A., F.G.S., Assistant Superintendent, Geological Survey of India. Report on the Sanni Sulphur Mines (with plate 29). E. J. BERR. Miscellaneous Notes—Note on a spiral Impression on Lower Vindhyan Limestone (with plate 30). Re. 1.

NEW PUBLICATION ISSUED BY THE METEOROLOGICAL DEPARTMENT.

Annual Summary of the Monthly Weather Review, 1915. Rs. 2 or 2s. 8d.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, DECEMBER 6, 1919.

 Separate paging is given to this Part in order that it may be filed as a separate compilation.

TRADE BY PROVINCES.

The total imports and exports, including re-exports, of private merchandise into and from the several maritime provinces during the month of October, 1919, as compared with those of September, 1919, are stated below :—

	IMPORTS		EXPORTS, INCLUDING RE-EXPORTS	
	September, 1919	October, 1919	September, 1919	October, 1919
	Rs (lakhs)	Rs (lakhs)	Rs (lakhs)	Rs (lakhs)
Bengal	7.28	7.26	13.93	15.65
Bombay	6.23	5.60	10.77	7.08
Sind	1.08	1.17	1.53	1.91
Madras	1.07	1.16	3.73	3.28
Burma	1.14	1.83	1.02	1.39
Total	16.80	16.52	30.97	29.31

Under imports, Sind and Madras showed an increase of 8 per cent each and Burma of 17 per cent; while Bombay showed a decrease of 10 per cent and Bengal of 3 per cent. Under exports, Bengal showed an increase of 12 per cent, Burma of 36 per cent, and Sind of 25 per cent, while Bombay showed a decrease of 34 per cent and Madras of 12 per cent. These comparisons are with the preceding month (September, 1919).

BALANCE OF TRADE.

India's balance of trade during the seven months ended October, 1919, as compared with the corresponding period of 1918, is shown in the appended table. The table takes into account the imports and exports of merchandise, and the net imports of treasure, on private account only :—

	Seven months, April to October, 1918	Seven months, April to October, 1919
Exports of Merchandise, including Re-exports *	Rs (lakhs) 1 49 91	Rs (lakhs) 1 79 35
Imports	98.28	1 04 43
Excess of Exports over Imports	51.63	74.92
Net imports of Gold (private)†	9	1 37
" " " Silver (private)†	2	—1
Net Imports of Treasure (private)†	5	1.33
Net (private) Exports of Merchandise and Treasure	51.58	73.59
Council Bills and Telegraphic Transfers paid in India	30.77	24.01
Sterling Bills on London sold in India	—	20
Enfaced Rupee paper (net imports)	4	41
Interest on Enfaced Rupee paper	13	15
Net Balance of Trade in favour of India	20.64	49.22
Average rate of exchange	October, 1918 d 17 92	October, 1919 d 28 31(a)

In the seven months ended October, 1919, the excess of exports over imports of private merchandise was Rs74.92 lakhs, as against Rs51.63 lakhs in the corresponding period of 1918, and the net imports of treasure on private account (excluding transactions which do not enter into the balance of trade) were Rs1.33 lakhs, as against Rs5 lakhs last year. The net exports (merchandise and treasure) were thus Rs73.59 lakhs, as against Rs51.58 lakhs in 1918. The balance of trade, so far as shown by the statistics of merchandise, treasure, Council Bills, and Enfaced Rupee paper, was Rs49.22 lakhs in favour of India in the seven months, April to October, 1919, as compared with Rs20.64 lakhs in the corresponding period of 1918.

The amount of Council Bills and Telegraphic Transfers paid in India in the seven months ended October, 1919, was Rs24.01 lakhs, all of which were paid through the Treasuries, except Rs12,000 which were paid through the Paper Currency Reserve, but Reverse Council Bills were sold to the extent of Rs20 lakhs during the period, the net imports of funds by Council Bills thus amounting to Rs23.81 lakhs. In the seven months ended October, 1918, the amount was Rs30.77 lakhs, of which Rs21.51 lakhs were paid through the Paper Currency Reserve and Rs9.26 lakhs through the Treasuries. In the seven months ended October, 1917, the amount of Council Bills paid was Rs35.07 lakhs. As regards Enfaced Rupee paper, Rs2.6 lakhs represented the amount of paper enfaced to London and Rs48.4 lakhs the amount re-transferred from London in the seven months April to October, 1919, while in the corresponding period of 1918, about Rs10 lakhs represented the amount of paper enfaced to London and over Rs14 lakhs the amount re-transferred from London.

* Exclusive of Government transactions.

† Excludes transactions which do not enter into the balance of trade.

(a) Approximate.

MOVEMENTS OF GOLD AND SILVER (PRIVATE AND GOVERNMENT).

In the month of October, 1919, the imports of gold were valued at nearly R19 lakhs and the exports at R2,600, as against nearly R42 lakhs and R7½ lakhs respectively in the preceding month. The imports in October, 1919, were mainly, and the exports wholly, in the form of bullion.

The imports of silver during the month of report were valued at R21½ lakhs, of which over R20 lakhs were on Government account, as against R9½ lakhs on both private and Government account in September, 1919. The exports of silver in October, 1919, were valued at over R4 lakhs, of which R3½ lakhs were on Government account, as against over R4 lakhs, both on private and Government account, in the preceding month.

DECLARED VALUE PER UNIT OF SELECTED ARTICLES

The declared values per unit of certain selected articles imported and exported during October, 1913, 1918, and 1919, are noted below :—

Imports	OCTOBER										OCTOBER									
	1918			1918			1919				1913			1918			1919			
	R	A	P	R	A	P	R	A	P		R	A	P	R	A	P	R	A	P	
Coal ton	18	8	5	25	10	6	34	9	10	Coal ton	9	7	8	10	12	2	12	0	2	
Sugar, 16 D S and above cwt	8	18	3	15	9	3	25	7	10	Coffee cwt	58	10	11	46	15	0	71	0	8

										" gunny bags no	0	6	0	0	6	5	0	9	4	
										" gunny cloth yard	0	2	6	0	4	3	0	4	5	

As compared with the corresponding month of the previous year (October, 1918), under imports, the declared unit value of sugar 16 D. S. and above rose in October, 1919, by 62 per cent, of cotton twist and yarn by 20 per cent, of coal by 35 per cent, while that of cotton piecegoods, coloured, decreased by 11 per cent and grey piecegoods by 3 per cent, and white by 11 per cent. Under exports, raw jute showed an increase of 26 per cent, coffee of 52 per cent, rice of 40 per cent, coal of 12 per cent, indigo of 2 per cent, and wheat of 39 per cent, while manganese ore showed a decrease of 12 per cent, and raw cotton of 40 per cent.

CUSTOMS REVENUE.*

The following table shows the gross Indian sea customs revenue (excluding salt revenue) collected on principal articles in October, 1919, as compared with September, 1919, and October, 1918 and 1913.

IMPORT DUTY	October, 1913 (pre-war month)	October, 1918	September, 1919	October, 1919	Increase (+) or decrease (—) in October, 1919, as compared with

* The Indian Tariff (Amendment) Act, IV of 1916, took effect from 1st March, 1916.

† Subject to duty from 11th September, 1919.

(a) Excludes the 7½ per cent duty on explosives.

(b) petroleum.

(c) cotton.

(d) Duty collected during the period from the 11th to 30th September, 1919.

The customs duty figures are an index to the volume of the import trade only, since under exports hides and skins (raw), jute, rice, and tea only are now subject to duty. In the seven months ended October, 1919, the import duties increased to R7,56 lakhs from nearly R7,34 lakhs in the same period of 1918, while the export duties fell to R2,26 lakhs from nearly R2,29 lakhs. The grand total of gross Indian sea and land customs revenue (excluding salt revenue) in the seven months, April to October, 1919, amounted to over R10,93 lakhs, as compared with R10,65 lakhs in the corresponding period of last year.

SHIPPING.

The following table shows the number and tonnage (net register tonnage) of vessels which entered and cleared with cargoes at ports in British India during October, 1919, as compared with September, 1919, and October, 1918 and 1913:—

Entered with cargoes.

	STEAMERS.		SAILING VESSELS.		TOTAL.	
	No.	Tons.	No.	Tons.	No.	Tons.
October, 1919	197	485,224	190	20,420	387	505,644
September, 1919	170	423,566	47	4,451	217	428,017
October, 1918	173	305,462	160	15,060	333	320,522
October, 1913 (pre-war month)	204	562,978	99	8,494	303	571,472

Cleared with cargoes.

October, 1919	230	583,283	86	9,179	316	592,462
September, 1919	216	527,707	97	12,635	313	540,342
October, 1918	211	453,647	180	20,085	400	473,732
October, 1913 (pre-war month)	224	621,480	57	4,027	281	625,507

The total tonnage entered and cleared with cargoes in October, 1919, as compared with that in the preceding month (September, 1919) and in the corresponding month of 1913 and 1918, is shown in the last column of the table above. In the month of October, 1919, there were 387 arrivals* and 316 sailings† with cargoes in and from India. As regards tonnage, if a comparison be made with October, 1913, the corresponding pre-war month, it will be seen that there was a decrease in the tonnage of vessels cleared with cargoes of 33,045 tons or 5 per cent. The decrease in the entries (with cargoes) amounted to 65,828 tons or 12 per cent.

The shipping clearances with cargoes in the foreign trade from the ports of British India in the seven months, April to October, 1919, as compared with the corresponding period of 1913, *i.e.*, before the war broke out, were as follows:—

	TONNAGE (NET REGISTER TONNAGE) CLEARANCES IN THE SEVEN MONTHS, APRIL TO OCTOBER.	
	1913 (Pre-war period)	1919
British ships (including British Indian)	3,701,864	2,728,469
Foreign ships	1,042,001	507,946
TOTAL	4,743,865	3,236,415

In 1919, as against 1913, the total tonnage clearances with cargoes declined 32 per cent. In 1913 the British (including British Indian) tonnage was 78 per cent and foreign tonnage 22 per cent of the total, while in 1919 the British (including British Indian) tonnage was 84 per cent and foreign tonnage 16 per cent.

* The details were as follows:—Bengal 39, Bombay 122, Sind 76, Madras 89, and Burma 81.

† The details were as follows:—Bengal 62, Bombay 82, Sind 55, Madras 82, and Burma 28.

RAILWAY STATISTICS.

Railway statistics, like the import and export statistics above, are a valuable index to the general movement of trade throughout the country, and show that the earnings from 1st April to 1st November, 1919, were R49,51 lakhs, as against R50,21 lakhs in the corresponding period of 1918, or a decrease of R70 lakhs.

TRADE OF ADEN IN OCTOBER, 1919.

The grand total value of the imports and exports of merchandise, by sea, into and from the port of Aden amounted to R1,56 lakhs in the month of October, and R10,48 lakhs in the seven months ended October, 1919. The value of the principal articles of import and export was as follows:—

	OCTOBER, 1919		SEVEN MONTHS, APRIL TO OCTOBER, 1919	
	Imports into Aden	Exports from Aden	Imports into Aden	Exports from Aden
	R (thousands)	R (thousands)	R (thousands)	R (thousands)
Cotton manufactures	27,81	23,49	1,75,71	1,78,15

Provisions	66	21	4,71	1,05
Sugar	1,75	—	10,83	—
Spices	1,37	—	5,27	—
Salt	—	3,38	—	10,23
Kerosene oil	—	—	8,33	—
Other articles	12,11	8,89	80,27	70,56
TOTAL VALUE	87,72	68,01	5,38,68	5,09,54

SHIPPING AT THE PORT OF ADEN IN OCTOBER, 1919.

In October, 1919, 117 steamers with an aggregate tonnage of 316,189 entered at the port of Aden, while 112 steamers with 307,384 tons cleared from the port, and 87 sailing vessels (country craft) with 2,253 tons entered and 62 vessels with 1,529 tons cleared. These figures exclude Government vessels and vessels in ballast.

DEPARTMENT OF STATISTICS, INDIA;
December 1, 1919.

G. FINDLAY SHIRRAS,
Director of Statistics,

GOVERNMENT OF INDIA
DEPARTMENT OF COMMERCE AND INDUSTRY.

TARIFF VALUATION OF SUGAR.

The following statement shows in respect of each of the descriptions of sugar distinguished in the Tariff Schedule II (excepting molasses and all other kinds of sugar), *first*, the total imports into India in the month of October 1919, and the average value per cwt. as calculated on the returns received from the Customs Houses; and, *secondly*, a running total showing the total imports into India since the beginning of the year (1st October to 30th September) and the average net value per cwt. so far established. It is published in conformity with the procedure laid down in Customs Circular No. V of 1911, in order to enable merchants to compute the probable rate of duty for the year 1921:—

Description of sugar.	IMPORTED DURING THE MONTH OF OCTOBER 1919.		IMPORTED SINCE 1ST OCTOBER 1919.	
	Quantity.	Average net value per cwt.	Quantity.	Average net value per cwt.
Sugar, crystallised, beet	Cwt.	Rs. a.	Cwt.	Rs. a.
" " and soft, refined in China . . .	18,135	30 8	18,135	30 8
" " " " from Egypt
" " " " from Java or Japan,* 23 Dutch Standard and above.	424,751	26 8	424,751	26 8
" " " " from Java or Japan,* 16 to 22 Dutch Standard.	171,051	23 0	171,051	23 0
" " " " from Java or Japan,* 15 Dutch Standard and under.
" " " " from Mauritius equal to 16 Dutch Standard and over.

* This revised classification has been adopted with effect from January 1918, in accordance with the classification of Japanese Sugar in item No. 18 of the Import Tariff Schedule prescribed by the Government of India, Department of Commerce and Industry, Notification No. 1547-D., dated the 15th December 1917.

The imports of Sugar from Japan during the three months, October to December 1917, were 2,691 cwt. and the average value per cwt. was Rs 17-8.

H. A. F. LINDSAY,

Director-General of Commercial Intelligence

A. H. LEY,

Secretary to the Government of India

CALCUTTA:

The 2nd December 1919.

SUPPLEMENT TO
The Gazette of India.

No. 49.} CALCUTTA, SATURDAY, DECEMBER 6, 1919.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

FOREIGN SEA-BORNE TRADE DURING OCTOBER, 1919.

REVIEW of the SEA-BORNE TRADE of BRITISH INDIA for the month of October, 1919, and for the seven months ended October, 1919.

FOREIGN COMMERCE.

OCTOBER AND THE SEVEN MONTHS ENDED OCTOBER, 1919.

Large favourable balance of trade.

The trade returns of British India for October, 1919, as compared with those of its immediate predecessor, showed decreases in the import and export trade but the value of re-exports showed an increase. The total imports of merchandise in October, 1919, were valued at R16,52 lakhs as against R16,80 lakhs in the preceding month, and the value of the exports was R27,90 lakhs as against R29,80 lakhs the record exports of the previous month and of the re-exports R1,41 lakhs as against R1,17 lakhs. Imports decreased by 2 per cent, exports by 6 per cent, but re-exports increased by 20 per cent. As compared with October, 1918, imports, exports and re-exports showed increases of 5 per cent, 18 per cent and 23 per cent respectively. A review of the trade of the seven months ended October, 1919, will be found on page 7.

The most interesting features of the month, as compared with the corresponding month of the previous year, were (1) a large decrease in the exports of rice, wheat, barley, gram, tea, castor seed, raw wool, gunny bags and tanned hides, (2) a considerable increase in the shipments of raw and tanned skins, raw cotton, raw jute, cotton seed, groundnuts, jute, gunny cloth, and cotton twist and yarn. (3) a large increase in the imports of kerosene oil, and sheets and plates (iron or steel), and (4) a large decrease in the imports of cotton twist and yarn.

The quantity of wheat shipped in October, 1919, was only 778 tons as against 16,613 tons in October, 1918. The shipments were made mainly to Persia, Arabia, Asiatic Turkey and Hongkong. Shipments of rice not in the bulk decreased to 56,680 tons from 244,264 tons in October, 1918. The imports of kerosene oil amounted to 10 million gallons as against *nil* in October, 1918.

The following statement shows the monthly imports and exports of merchandise during April to October, 1919, as compared with the corresponding months of the preceding year:—

	IMPORTS				EXPORTS, INCLUDING RE-EXPORTS			
	1919	1918	Increase (+) or decrease (-) in 1919 as compared with 1918.	Per cent	1919	1918	Increase (+) or decrease (-) in 1919 as compared with 1918	Per cent

TOTAL (7 months)	104,43	98,28	+6,15	+6	179,35	149,91	+29,44	+20

The chart showing the course of monthly imports and exports, including re-exports, from April, 1918, to October, 1919, as compared with the pre-war average, is appended below :—

MONTHLY IMPORTS AND EXPORTS (INCLUDING RE-EXPORTS) FROM APRIL, 1918, TO OCTOBER, 1919, AS COMPARED WITH THE PRE-WAR AVERAGE (1911-12 TO 1913-14).

(Private merchandise only.)

Note.—The numerical figure at the end of each vertical line represents the month beginning from January.

The actual net excess of exports, including re-exports, over imports was Rs. 12,79 lakhs in October, as against Rs. 14,17 lakhs in September, 1919. The statement below shows the figures of imports and exports, including re-exports, during September and October of the years 1917, 1918, and 1919, and the actual net excess of exports over imports during the same periods :—

	1917		1918		1919		Actual net excess of exports over imports		
	Imports	Exports, including re-exports	Imports	Exports, including re-exports	Imports	Exports, including re-exports	1917	1918	1919
	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)
September	12,91	18,69	14,36	19,37	16,80	30,97	5,78	5,01	14,17
October	14,01	29,65	15,78	24,80	16,52	29,31	6,04	9,08	12,79

Comparisons with September, 1919.—As compared with September, 1919, the most noticeable changes * were :—

Under imports : *increases* under dates (+Rs. 16 lakhs), cotton piecegoods, coloured (+Rs. 16 lakhs), and articles imported by post (+Rs. 14 lakhs), but *decreases* under sugar 16 D. S. and above (—Rs. 23 lakhs), wheat (—Rs. 10 lakhs), and kerosene oil (—Rs. 12 lakhs).

Under exports : *increases* under rice (+Rs. 40 lakhs), black tea (+Rs. 2 lakhs), rape seed (+Rs. 13 lakhs), raw jute (+Rs. 3,26 lakhs), and oilcakes (+Rs. 12 lakhs), but *decreases* under raw cotton (—Rs. 2,09 lakhs), linseed (—Rs. 67 lakhs), lac (—Rs. 72 lakhs), raw hides (—Rs. 64 lakhs), raw skins (—Rs. 69 lakhs), coconut oil and copra (—Rs. 14 lakhs each), groundnuts (—Rs. 32 lakhs), opium (—Rs. 11 lakhs), tanned hides (—Rs. 61 lakhs), and cotton twist and yarn (—Rs. 38 lakhs).

* The articles of which the fluctuations were less than Rs. 10 lakhs are not specially noticed.

Comparisons with October, 1918.—As compared with October, 1918, the most noticeable changes * were :—

Under imports : *increases* under wheat (+R10 lakhs), dates (+R11 lakhs), sugar, 16 D. S. and above (a) (+R28 lakhs), molasses (+R13 lakhs), motor cars and motor cycles (+R20 lakhs), sheets and plates (iron or steel) (+R21 lakhs), salt (+R18 lakhs), cotton hosiery (+R12 lakhs), kerosene oil (+R66 lakhs), and railway carriages and wagons (+R17 lakhs), but *decreases* under raw cotton (—R11 lakhs), chemicals (—R16 lakhs), articles imported by post (—R14 lakhs), bars and channel (steel) and woollen piecegoods (—R10 lakhs each), cotton yarn (—R72 lakhs), cotton piecegoods, white (b) (—R10 lakhs) and coloured (—R27 lakhs).

Under exports : *increases* under raw hides (+R17 lakhs), raw skins (+R95 lakhs), cotton seed (+R48 lakhs), groundnuts (+R31 lakhs), linseed (a) (+R10 lakhs), rape seed (a) (+R16 lakhs), sesamum seed (+R11 lakhs), raw cotton (+R1,45 lakhs), raw jute (+R4,25 lakhs), tanned skins (+R40 lakhs), cotton twist and yarn (+R98 lakhs), oilcakes (+R16 lakhs), cotton piecegoods (+R25 lakhs), bran and pollards (+R12 lakhs), and jute gunny cloth (+R55 lakhs), but *decreases* under barley (—R36 lakhs), gram (—R45 lakhs), rice (—R1,95 lakhs), wheat (—R27 lakhs), black tea (—R28 lakhs), coconut oil (—R12 lakhs), castor seed (—R35 lakhs), raw silk (—R15 lakhs), tanned hides (—R47 lakhs), jute gunny bags (—R1,27 lakhs), and raw wool (—R43 lakhs).

VARIATIONS IN CLASSES.

The variations in October, 1918 and 1919, as compared with September, 1918 and 1919, respectively, according to the four main classes of merchandise, are as follows :—

	September, 1918	October, 1918	Increase (+) or decrease (—)	September, 1919	October, 1919	Increase (+) or decrease (—)
	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)	R(lakhs)

(b) Quantity increased

COMPARISON WITH THE IMPORTS AND EXPORTS OF THE PRECEDING MONTH (SEPTEMBER, 1919)*

I.—Imports.

A DECREASE IN THE IMPORTS OF WHEAT AND SUGAR AND AN INCREASE IN THE IMPORTS OF DATES.

The imports of Food, drink, and tobacco in October, 1919, decreased by only R4 lakhs, as compared with the preceding month, to R3,38 lakhs. The imports of wheat in October, 1919, decreased by 5,239 tons to 5,281 tons, Wheat. valued at R10 lakhs, consigned entirely from Australia. The imports of sugar, 16 D. S. and above, in October, 1919, decreased in quantity by 13 per cent Sugar. to 30,809 tons and the value (R155½ lakhs) also showed a decrease of 13 per cent, as compared with the preceding month (September, 1919). Imports from Java and China decreased, while those from the Straits Settlements increased. In the seven months ended October 1919, the imports of sugar, 16 D. S. and above, amounted to 204,439 tons, valued at R9,57 lakhs, as against 258,925 tons, valued at R7,63 lakhs, in the corresponding period of the previous year. The imports of dates increased to 11,798 tons valued at Dates. R21 lakhs from 2,987 tons valued at R5 lakhs in the preceding month.

A DECREASE IN THE IMPORTS OF KEROSENE OIL AND RAW COTTON AND AN INCREASE IN THE IMPORTS OF RAW SILK.

The value of the imports of Raw materials in October, 1919, decreased by R43 lakhs to R1,49 lakhs. The quantity of raw cotton, imported in October, Cotton raw. 1919, decreased by 7,026 cwts as compared with the preceding month, to 6,839 cwts, while that of raw silk increased to 263,553 lbs from 168,137 lbs. Silk raw. The quantity of kerosene oil imported fell to over 10 million gallons from Kerosene oil. nearly 15 million gallons in September, 1919.

AN INCREASE IN THE IMPORTS OF COTTON YARN (QUANTITY ONLY) AND COTTON PIECEGOODS.

The value of the imports of Manufactured articles in October, 1919, increased by only R6 lakhs to R11,36 lakhs. The quantity of cotton yarn im- Cotton yarn. ported in October, 1919, increased by 16 per cent to 1,335,679 lbs. The imports of cotton piecegoods, including fents, in October, 1919, increased by Cotton goods 5 million yards to 96 million yards, and the value (R4,19 lakhs) by 3 per cent, as compared with the preceding month. Grey goods increased by 1 million yards or 2 per cent to 57 million yards, and coloured goods by nearly 5 million yards or 38 per cent to 18 million yards; white goods maintained the level of the preceding month at 20 million yards. In the seven months ended October, 1919, the total imports of cotton piecegoods amounted to 468 million yards, valued at R21,62 lakhs, as against 703 million yards, valued at R31,85 lakhs, in the corresponding period of the previous year.

II.—Exports.

AN INCREASE IN THE EXPORTS OF FOODSTUFFS.

The exports of Food, drink, and tobacco increased in October, 1919, by R1,11 lakhs, as compared with the preceding month, to R3,87 lakhs. Exports of rice, not in the husk, amounted to 56,680 tons in October, 1919, as Rice.

Exports of Rice, not in the husk

	September, 1919 Tons	October, 1919 Tons
To United Kingdom	27	8,002
„ Turkey, Asiatic	86	822
„ Mauritius	1,487	7,065
„ Ceylon	18,564	18,665
„ Straits Settlements	9,214	13,715
Total (including other countries)	36,108	56,680

against 36,108 tons in the preceding month, and the value increased by 75 per cent to R94 lakhs. The marginal table shows the exports to the principal countries. Exports to Ceylon, the Straits Settlements, the United Kingdom, Asiatic Turkey, and Mauritius increased. In the seven months ended October, 1919, the exports of rice amounted to 284,692 tons, valued at

R4,43 lakhs, as against 1,497,938 tons, valued at R16,26 lakhs, in the corresponding period of the previous year. Exports of wheat amounted to Wheat. 778 tons, as against 770 tons in September 1919. In the seven months ended October 1919, the total exports of wheat amounted to 5,076 tons, as against 462,479 tons in the corresponding period of the previous year.

* Comparison is made with the previous month, and not with the corresponding month of last year, owing to the present abnormal circumstances brought about by the war.

A LARGE INCREASE IN THE EXPORTS OF TEA.

Shipments of tea in October, 1919, increased by 60 per cent to 43 million lbs, as compared with 27 million lbs in the preceding month. The United Kingdom took 40 million lbs as against 21 million lbs in September, 1919. The total exports in the seven months ended October, 1919, amounted to 185 million lbs, as against 215 million lbs in the corresponding period of 1918.

A DECREASE IN THE EXPORTS OF RAW COTTON AND A LARGE INCREASE IN THE EXPORTS OF RAW WOOL AND RAW JUTE.

The value of the exports of Raw materials decreased by R2,23 lakhs to R14,03 lakhs. The marginal tables show the

exports of raw cotton and jute to the principal countries. The shipments of raw cotton decreased in October, 1919, by 38 per cent to 23,203 tons, valued at R2,92 lakhs. Exports to the United Kingdom, Japan and Spain decreased, while those to France and Italy increased. In the seven months ended October, 1919, as compared with the corresponding period of the previous year the exports rose by 89 per cent to 185,215 tons, valued at R25,17 lakhs. The exports of raw jute in October, 1919, increased by 120 per cent, to 119,507 tons, valued at R5,73 lakhs. Exports to the United Kingdom, France, and Italy increased, while those to Spain, Japan and the United States decreased. In the seven

months ended October, 1919, the exports amounted to 320,153 tons, valued at R13,86 lakhs, as against 228,236 tons, valued at R6,01 lakhs, in the corresponding period of the previous year. The exports of raw wool in October, 1919, increased to 3,226,495 lbs from 1,594,992 lbs in the preceding month.

A DECREASE IN THE VALUE OF MANUFACTURED ARTICLES EXPORTED.

The value of the exports of Manufactured articles decreased by R78 lakhs

to R9,67 lakhs. The marginal table shows the exports of jute gunny bags to the principal countries. Shipments to the United Kingdom, France, West Indies and Australia increased, while those to the Straits Settlements, Japan and the United States decreased. In the seven months ended October, 1919, as compared with the corresponding period of 1918, the exports fell by 50 per cent in number to 203 millions, valued at R10,92 lakhs. Exports of jute gunny cloth amounted to 124 million yards, valued at R3,40 lakhs. It will be seen from the marginal table that shipments to the United Kingdom, Canada, Uruguay, the Argentine Republic, and Australia increased, while those to the United States decreased. In the seven months ended October, 1919, the

To United Kingdom	6,433,400	8,788,600
" Canada	2,121,000	3,912,000
" United States	87,069,500	59,887,100
" Uruguay	2,400,000	4,358,000
" Argentine Republic	24,742,500	45,134,000
" Australia and New Zealand	426,700	620,900
Total (including other countries)	yards 125,403,600 tons 32,692	133,537,700 31,663

exports increased by 62 million yards, while the value thereof decreased by 12 per cent.

SEVEN MONTHS ENDED OCTOBER, 1919.

The summary of the results for the seven months ended October, 1919, as compared with the corresponding period of 1913 (pre-war seven months) and of 1918 is as follows :—

	April to October 1913 (Pre-war seven months).	April to October 1918.	April to October 1919.	Increased (+) or decrease (—) per cent as compared with 1913.
Merchandise (private)—	R (lakhs)	R (lakhs)	R (lakhs)	
Exports, including re-exports	1,99,08	1,49,91	1,79,35	+ 20
Imports	1,05,39	98,28	1,04,48	+ 6
Actual net excess of exports over imports	88,69	51,63	74,87	+ 45

In the seven months ended October, 1919, exports, including re-exports, were higher by R29,44 lakhs or 20 per cent than in 1918, and by R40,27 lakhs or 29 per cent than in 1913. In the same period imports were higher by R6,15 lakhs or 6 per cent than in 1918, but were less by R96 lakhs or 1 per cent than in 1913. The net excess of exports over imports in these seven months was R74,92 lakhs, as compared with R51,63 lakhs in 1918 and R33,69 lakhs in 1913. The total value of merchandise increased by R36 crores, or 14 per cent, as compared with the corresponding period of 1918, and amounted to R284 crores.

TRADE IN THE SEVEN MONTHS ENDED OCTOBER, 1919.

In the seven months ended October, 1919, as compared with the corresponding period of the preceding year, the quantity of imported cotton piece-goods decreased by 2,35 million yards or 33 per cent to 468 million yards, and the value (R22 crores) was less by 32 per cent. The value of cotton twist and yarn imported decreased by R3,46 lakhs to R1,87 lakhs, of articles imported by post by R92 lakhs, of woollen piece-goods by R58 lakhs, of salt by R30 lakhs, of raw cotton by R56 lakhs, and of chemicals by R45 lakhs. Wheat increased by R2,52 lakhs, sugar, 16 D. S. and above, by R1,94 lakhs, kerosene oil by R2,60 lakhs, lubricating oils by R28 lakhs, raw silk by R62 lakhs, motor cars and motor cycles by R1,33 lakhs, hardware by R75 lakhs, railway carriages and wagons by R1,03 lakhs, electrical machinery by R68 lakhs, jute mill machinery by R59 lakhs, sheets and plates (iron or steel) by R1,80 lakhs, and silk piece-goods by R93 lakhs. Under exports, the quantity of rice not in the husk decreased by 1,213,216 tons to 284,692 tons and the value by R11,83 lakhs to R4,43 lakhs, while wheat showed a decrease of 457,403 tons to 5,076 tons in quantity and of R6,39 lakhs to R12 lakhs in value. The quantity of raw cotton exported increased by 86,809 tons and the value by R7,95 lakhs. The quantity of raw jute exported showed an increase of 91,922 tons or 40 per cent. The value of coffee exported increased by R69 lakhs, of cotton twist and yarn by R6,92 lakhs and piece-goods by R2,06 lakhs, of raw hides by R3,79 lakhs, of raw skins by R7,22 lakhs, of skins, tanned, by R2,87 lakhs, of hides, tanned, by R1,93 lakhs, and of seeds by R13,56 lakhs, while the value of barley decreased by R2,35 lakhs, of gram by R2,97 lakhs, of tea, black, by R1,97 lakhs, of gunny cloth by R2,42 lakhs, and of gunny bags by R3,40 lakhs.

Comparing the values of the imports and exports during the seven months ended October, 1919, with those in the corresponding period of 1918, the chief increases and decreases are as follows:—

I.—Imports.

EXTRAORDINARY.

PUBLISHED BY AUTHORITY.

DELHI, SATURDAY, DECEMBER 6, 1919.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Delhi, the 6th December, 1919.

An Ordinance to prohibit the possession of rouble notes.

WHEREAS an emergency has arisen which makes it necessary to prohibit the possession of rouble notes ;

Now, therefore, in exercise of the power conferred by section 72 of the Government of India Act, 1915, the Governor General is pleased to make and promulgate the following Ordinance :—

ORDINANCE No. VII OF 1919.

1. This Ordinance may be called the Rouble Note Ordinance, 1919.

Short title.

2. In this Ordinance, " rouble note " means any note being or purporting to be in the nature of a currency note

Definition.

issued by or on behalf of any form of government in the territories which, on the fourth day of August, 1914, constituted the Russian Empire, or purporting to be so issued, and expressed to be payable in roubles.

3. After the expiration of six weeks from the commencement of this Ordinance, no person shall have in his possession any rouble note.

Prohibition of possession of rouble notes.

4. (1) During the said period of six weeks any person who has in his possession a rouble note may dispose of the same by either of the following methods but not otherwise :—

Rouble notes may be deposited in a currency office or treasury or exported.

(a) he may deposit the same in a Government currency office or treasury, or

(b) he may export the same to any place outside India.

(2) Where under the provisions of sub-clause (a) of sub-section (1) any person has deposited a rouble note in a Government currency office or treasury, he shall not be entitled to any compensation therefor, nor shall he be entitled to withdraw the same therefrom, except subject to the conditions of a license issued by an officer of Government authorised by the Governor General in Council in this behalf.

5. Any person who—

Penalties.

- (a) has in his possession or disposes of a rouble note in contravention of the provisions of this Ordinance, or
- (b) fails to comply with the conditions of a license for the withdrawal of a note from a Government currency office or treasury issued under sub-section (2) of section 4,

shall be punishable with imprisonment for a term which may extend to three years, or with fine or with both; and any rouble note in respect of which an offence has been committed under this section shall be confiscated, and shall be disposed of in such manner as the Governor General in Council may direct.

CHELMSFORD,

Viceroy and Governor General.

Mitra, C.B.E., C.I.E., M.A., Controller of War Accounts and Officiating Military Accountant General, is confirmed as Military Accountant General with effect from the 16th November 1919. He will continue, until further orders, to discharge the duties of Controller of War Accounts in addition to those of Military Accountant General.

The 4th December 1919.

No. 2118-F. E.—Mr. C. A. G. Rivaz has been posted as Assistant Controller of Currency with effect from the 16th November 1919.

PAY, ALLOWANCES AND FINANCE OFFICERS.

Simla, the 28th November 1919.

No. 2089-F. E.—In partial modification of the Notification in this Department No. 1712-F. E., dated the 29th September 1919, published on pages 1985 and 1986 of Part I of the *Gazette of India* of the 4th October 1919, it is hereby notified that the number of vacancies in the General List of the Indian Finance Department to be filled by competitive examination in December 1919 will be seven instead of five.

RETIREMENTS.

Delhi, the 5th December 1919.

No. 1735-Accts.—Mr. H. R. Grinnol, Deputy Examiner, 1st grade, Military Accounts Department, is permitted to retire from the service with effect from the 4th December 1919.

H. F. HOWARD,
Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

CUSTOMS ESTABLISHMENTS.

Delhi, the 6th December 1919.

No. 608-D.—Mr. C. W. F. Cotton, I.C.S., a Collector in Class II of the Imperial Customs Service, is granted such privilege leave as may be due to him on the 10th December 1919, or the subsequent date on which he may avail himself of it, in combination with furlough for such period as will bring the combined period of absence up to eleven months.

No. 609-D.—Mr. W. W. Niad, an Assistant Collector in the Imperial Customs Service, is appointed to officiate as a Collector, Class III, in the service, with effect from the date on which Mr. Cotton may proceed on leave and until further orders.

No. 611-D.—Mr. A. E. Ramsbotham, an Inspector in the Salt, Abkari and Customs Department, Madras, is appointed a temporary Assistant Collector in the Imperial Customs Service at Madras, with effect from the 1st December 1919 until further orders.

EXPLOSIVES.

The 6th December 1919.

No. 596-D.—In exercise of the powers conferred by sections 17 and 6 of the Indian Explosives Act, 1884 (IV of 1884), and in supersession of the notification of the Government of India in the Department of Commerce and Industry, No. 706-39, dated the 30th January 1915:—

I. The Governor General in Council is pleased hereby to declare that acetylene, when liquid or when subject to a pressure above that of the atmosphere capable of supporting a column of water exceeding two hundred and fifty inches in height, and whether or not in admixture with other substances, or when in admixture with atmospheric air or with oxygen gas in whatever proportion and at whatever pressure, and whether or not in admixture with other substances, shall be deemed to be an explosive within the meaning of the said Act, subject to the following exception that if it be shown to the satisfaction of the Governor General in Council that acetylene declared to be an explosive by this notification when in admixture with any substance, or in any form or condition, is not possessed of explosive properties, the Governor General in Council may, by order, exempt such acetylene from being deemed to be an explosive within the meaning of the said Act:

Provided that nothing in this notification shall apply to acetylene in admixture with air when such admixture takes place only in a burner or contrivance in which the mixture is intended to be burnt:

Provided also, that nothing in this notification shall be held to apply to an admixture of acetylene and air which may unavoidably occur in the first use or re-charging of an apparatus properly designed and constructed with a view to the production of pure acetylene:

Provided also, that acetylene, when in admixture with oil-gas (that is to say, a gas manufactured from mineral oil), shall not when under compression be deemed to be an explosive within the meaning of the said Act, if the following conditions are fulfilled, namely:—

(1) The acetylene shall be generated only by the Atkins Dry Process.

(2) The proportion of acetylene shall not exceed fifty parts by volume in every one hundred parts of the mixture of acetylene and oil-gas.

(3) The acetylene and oil-gas shall be mixed together in a chamber or vessel before the gases are subjected to compression.

(4) The mixture shall not be compressed to a pressure exceeding one hundred and fifty pounds to one square inch:

Provided also, that acetylene when contained in a homogeneous porous substance with or without acetone or other solvent, shall not be deemed to be an explosive within the meaning of the said Act if the following conditions are fulfilled, namely:—

(1) The porous substance shall fill as completely as possible the cylinder into which the acetylene is compressed.

(2) The porosity of the substance shall not exceed eighty per cent.

(3) Any acetone or other solvent used shall not be capable of chemical reaction with the acetylene gas or with the porous substance or with the metal of the cylinder, and the quantity of acetone or other solvent shall be such that when fully charged with acetylene it shall not completely fill the porosity of the porous substance at any temperature likely to be met with in ordinary practice or use.

(4) A drawing showing the method of construction of every type of cylinder it is proposed to use for the storage of compressed acetylene gas shall be deposited with the Chief Inspector of Explosives with the Government of India and no cylinder shall be so used unless it is of a design approved in writing by the said Chief Inspector:

Provided that this shall not be deemed to prohibit the use of existing cylinders for a period of five years from the date of this notification.

(5) The pressure in the cylinder shall not exceed two hundred and twenty-five pounds to the square inch at a temperature of sixty degrees Fahrenheit:

Provided that no cylinder capable when empty of containing one cubic foot of water or more, which has the ends secured to the body by welding only, and no cylinder in which a porous substance is used without acetone or other solvent shall be charged to a pressure exceeding one hundred and fifty pounds to the square inch at a temperature of sixty degrees Fahrenheit. This condition shall not apply to cylinders used exclusively for marine lighting by an officer appointed by a Local Government in that behalf.

(6) Every cylinder capable when empty of containing one cubic foot of water or more in which under this notification the pressure allowed may be two hundred and twenty-five pounds to the square inch, shall be annealed and every cylinder shall be tested by hydraulic pressure to a pressure of not less than four times the pressure to which the cylinder is to be subjected in use, such hydraulic pressure to be maintained for a period of not less than fifteen minutes and no cylinder shall be used which on the first occasion of its being subjected to this test shall show any permanent stretch.

(7) The compression of the acetylene shall be carried out only on such premises as shall have been approved in writing by the Chief Inspector of Explosives with the Government of India. Such approval may be withdrawn at any time by that officer.

(8) No firm shall charge with acetylene any cylinder manufactured by any other firm unless it is in full possession of full particulars and previous history of such cylinder or has otherwise assured itself that the cylinder complies with the requirements of this notification.

(9) Whenever a cylinder is charged with acetylene it shall be subjected to a thorough visual examination if the history of the cylinder shows that it has not been subjected to such an examination within the previous twelve months and at the same time the valve shall be removed and the condition of the porous substance at the neck of the cylinder ascertained.

(10) Every cylinder shall have permanently and conspicuously marked upon it or upon a brass plate soldered to it the name of the manufacturer and the words "Acetylene compressed into porous substance exempted by the notification of the Government of India in the Department of Commerce and Industry No. 596-D., dated the 6th December 1919"; and every cylinder shall bear a label giving the date when it was last charged together with the name of the firm by which it was charged, the address of the last charging station and the maximum pressure allowed in the cylinder. Every cylinder capable when empty of containing one cubic foot of water or more and manufactured after the date of this notification shall have stamped upon it the name or the trade mark of the manufacturer and the serial number of the cylinder.

(11) Each charging firm shall keep a record of every cylinder charged by it. This record shall give the following information, namely:—

- (a) the date of each charging of the cylinder;
- (b) the dates upon which solvent has been added;
- (c) the dates upon which the cylinder has been thoroughly examined as provided in condition (9), the results of each such examination, and the name of the person carrying out such examination; and,

in the case of cylinders first issued by the firm, the tare weight of the cylinder including porous substance and acetone or other solvent, the nature of the solvent and the maximum pressure allowed in the cylinder. The record shall be open to the inspection of the Chief Inspector of Explosives and Inspectors of Explosives with the Government of India.

(12) Every facility shall be given to the Chief Inspector of Explosives and Inspectors of Explosives with the Government of India to inspect the apparatus and methods by which the cylinders are charged.

II. The Governor General in Council is pleased to prohibit absolutely the manufacture, possession and importation of such acetylene as is declared by paragraph I of this notification to be an explosive.

STATISTICS.

The 6th December 1919.

No. 578-D.—Mr. G. Findlay Shirras, I.E.S., Director of Statistics, is deputed to England with effect from the 13th December 1919 or the subsequent date on which he may relinquish charge of his office.

REWARDS.

No. 3418.—The following rewards have been granted to the undermentioned for acts of gallantry or devotion to duty in the field while serving with the Mesopotamia Expeditionary Force :—

Awarded the Military Cross.

Jemadar Lal Shah Gul, 126th Baluchistan Infantry.

For conspicuous gallantry and devotion to duty on 17th September 1919. This Indian officer with two sections attacked and won a position within close range of the enemy's sangars and, although heavily fired on by the enemy, he held it unsupported for two hours, until ordered to withdraw. While holding the position he, with two volunteers, went out under close rifle fire from the enemy and brought in a wounded man. During the withdrawal he was closely followed by the enemy and had to fight a rear-guard action.

Although hampered by the wounded he managed by his skilful leadership and gallant example to extricate his party over very difficult ground.

Awarded the Indian Distinguished Service Medal.

Jemadar Harnam Singh, 34th (Reserve) Mountain Battery.

No. 18 Havildar Fazal Dad, 34th (Reserve) Mountain Battery.

No. 2160 Havildar Jagarnath Singh, 1st Battalion, 8th Rajputs.

Subadar (acting Subadar-Major) Madho Sing Rawat, *Bahadur*, 1st Battalion, 39th Garhwal Rifles.

No. 3968 Rifleman Kala Sing Negi, 1st Battalion, 39th Garhwal Rifles.

Subadar-Major Umar Khan, 126th Baluchistan Infantry.

Jemadar Ajab Gul, 126th Baluchistan Infantry.

No. 5153 Sepoy Bakhtawar Singh, 126th Baluchistan Infantry.

Jemadar Hakim Khan, 1st Battalion, 128th Pioneers.

No. 4403 Naik Ladha Singh, 1st Battalion, 128th Pioneers.

No. 1739 Havildar Gopi Thapa, 1st Battalion, 7th Gurkha Rifles.

No. 1792 Rifleman Adipal Chettri, 1st Battalion, 7th Gurkha Rifles.

Surveyor Muhammad Nasir Khan, Survey Department.

Awarded the Meritorious Service Medal (without annuity).

No. 654 Driver (acting Kot-Dafadar) Soonder Das, 19th Mule Corps, Supply and Transport Corps.

No. 1581 Driver (acting Naik) Umar Din, 19th Mule Corps, Supply and Transport Corps.

INDIAN DISTINGUISHED SERVICE MEDAL.

No. 3419.—The Governor General in Council is pleased to sanction the award of the Indian Distinguished Service Medal to No. 138 Rifleman Aiman Pun, 3rd Battalion, 8th Gurkha Rifles, for conspicuous gallantry on the 29th October 1919 while serving with the Kohat Kurram Force.

No. 3420.—The following amendment is made to Army Department Notification No. 2086, dated the 3rd June 1919, under the heading Awarded the Indian Distinguished Service Medal for "Clerk Gnakam John Deba Dawson, Military Accounts Department" read "Clerk Gnanakan John Devadawson, Military Accounts Department."

SPECIAL AND MISCELLANEOUS.

No. 3421.—The following Votes of Thanks passed by the Houses of Lords and Commons to all services in respect of the war of 1914—1918 are published for general information :—

HOUSE OF LORDS.

Die Mercurii, 6th Augusti 1919.

RESOLVED.—*Nemine Dissentiente by the Lords Spiritual and Temporal in Parliament assembled,*

That the thanks of this House be accorded to the officers, warrant officers, petty officers, and men of the Navy and of the Royal Marines for their sleepless watch over the seas and for the courage, resource and devotion with which, during four years of constant peril, they have maintained the blockade of the enemy's coast, convoyed armies drawn from the most distant lands, and defended the commerce of the civilised world against the craft and subtlety of a lawless foe :

RESOLVED.—*Nemine Dissentiente,*

That the thanks of this House be accorded to the officers, warrant officers, non-commissioned officers, and men of the Armies in the field for the matchless valour and endurance with which, amid circumstances of unexampled hardship, they have sustained the shock of war in many climes, for the good humour, clemency and patience of their bearing, and for the undaunted spirit which has carried them through four years of strenuous toil to a complete and splendid victory :

RESOLVED.—*Nemine Dissentiente,*

That the thanks of this House be accorded to the officers, non-commissioned officers, and men of the Air Force for their brilliant daring and conspicuous services over sea and land :

RESOLVED.—*Nemine Dissentiente,*

That the thanks of this House be accorded to the gallant troops from the Dominions overseas, from India, and from the Colonies and Protectorates, for the promptitude with which they responded to the call of justice and freedom, and for the noble part that they have played, in conjunction with their comrades of the British Isles, in securing the triumph of right over wrong :

RESOLVED.—*Nemine Dissentiente,*

That the thanks of this House be accorded to those subjects of His Majesty, who, inspired by the greatness of the issue, voyaged from Foreign lands to offer their lives in the service of their Country :

RESOLVED.—*Nemine Dissentiente,*

That the thanks of this House be accorded to the members of the Royal Army Medical Corps and of the Indian Medical Service for the skilful discharge of their humane office, and for the unprecedented success which attended their unremitting labours to preserve the armed Forces of the Crown from the ravages of disease :

RESOLVED.—*Nemine Dissentiente,*

That the thanks of this House be accorded to the women of the medical and other auxiliary services for their devotion in tending the sick and wounded and for other duties faithfully and bravely discharged :

RESOLVED.—*Nemine Dissentiente,*

That the thanks of this House be accorded to the officers and men of the Mercantile Marine for the fine and fearless seamanship by which our people have been preserved from want and our cause from disaster :

RESOLVED.—*Nemine Dissentiente,*

That this House doth acknowledge with deep submission and reverence the heroism of those who have fallen in the service of their Country and tenders its sympathy to their relatives in the hour of their sorrow and their pride.

ORDERED.—*By the Lords Spiritual and Temporal in Parliament assembled,*

That the Lord Chancellor do communicate the said Resolutions to the Admiralty, the Army Council, the Secretary of State for India, the Secretary of State for the Colonies, and the Board of Trade, with a request that they will communicate the same to the officers and others referred to therein.

ARTHUR T. THRING,
Cler. Parliamentor.

HOUSE OF COMMONS.

Wednesday, 6th August 1919.

RESOLVED.—*Nemine Contradicente,*

That the thanks of this House be accorded to the officers, warrant officers, petty officers, and men of the Navy and of the Royal Marines for their sleepless watch over the seas and for the courage, resource and devotion with which, during four years of constant peril, they have maintained the blockade of the enemy's coast, convoyed armies drawn from the most distant lands, and defended the commerce of the civilised world against the craft and subtlety of a lawless foe :

That the thanks of this House be accorded to the officers, warrant officers, non-commissioned officers, and men of the Armies in the field, for the matchless valour and endurance with which, amid circumstances of unexampled hardship, they have sustained the shock of war in many climes, for the good humour, clemency and patience of their bearing, and for the undaunted spirit which has carried them through four years of strenuous toil to a complete and splendid victory :

That the thanks of this House be accorded to the officers, non-commissioned officers, and men of the Air Force for their brilliant daring and conspicuous services over sea and land :

That the thanks of this House be accorded to the gallant troops from the Dominions overseas, from India, and from the Colonies and Protectorates, for the promptitude with which they responded to the call of justice and freedom, and for the noble part that they have played, in conjunction with their comrades of the British Isles, in securing the triumph of right over wrong :

That the thanks of this House be accorded to those subjects of His Majesty, who inspired by the greatness of the issue, voyaged from Foreign lands to offer their lives in the service of their Country :

That the thanks of this House be accorded to the members of the Royal Army Medical Corps and of the Indian Medical Service for the skilful discharge of their humane office, and for the unprecedented success which attended their unremitting labours to preserve the armed Forces of the Crown from the ravages of disease :

That the thanks of this House be accorded to the women of the medical and other auxiliary services for their devotion in tending the sick and wounded as for other duties faithfully and bravely discharged :

That the thanks of this House be accorded to the officers and men of the Mercantile Marine for the fine and fearless seamanship by which our people have been preserved from want and our cause from disaster :

That this House doth acknowledge with deep submission and reverence the heroism of those who have fallen in the service of their Country and tenders its sympathy to their relatives in the hour of their sorrow and their pride.

Ordered.

That Mr. Speaker do signify the said Resolution to the Commissioners for executing the office of Lord High Admiral, and to the Army Council, and to the Air Ministry, and to His Majesty's Secretaries of State for India and for the Colonial Department, and to the President of the Board of Trade to communicate the same to the officers and men referred to therein.

C. P. ILBERT,
Clerk of the House of Commons.

No. 114.—The services of Commander G. H. Finnis, C.B.E., Royal Indian Marine, are placed at the disposal of the Government of Madras for employment as Deputy Conservator of the Port, Madras, sub. *pro tem.*, with effect from the 29th October 1919.

A. H. BINGLEY, *Major-General,*
Secretary to the Government of India.

RAILWAY DEPARTMENT.

(RAILWAY BOARD.)

NOTIFICATIONS.

Delhi, the 4th December 1919.

No. 2333-E.—19.—With reference to Railway Board's Notification No. 1021-E.—19, dated the 6th June 1919, on reversion from military duty the services of Lieut.-Col. C. L. Magniac, C.M.G., C.B.E., R.E., are replaced at the disposal of the Madras and Southern Mahratta Railway Company for employment as their Agent.

The 5th December 1919.

No. 509-F. - 19.—In pursuance of sub-section (1) of section 135 of the Indian Railways Act, 1890 (IX of 1890), the Governor General in Council is pleased to declare that the administration of the Bengal Nagpur Railway shall be liable to pay in aid of the funds of the local authority set out in the schedule hereto annexed, the tax specified in the second column thereof.

SCHEDULE.

Local Authority.	Tax.
Drug Municipality	Haisyat tax.

No. 1928-E.—19.—Mr. M. F. Wadley is appointed to the Superior Stores Establishment of State Railways, as an Assistant Controller of Stores (on probation) in class III, grade 4, of that Establishment, with effect from the 13th October 1919, and posted to the Eastern Bengal Railway.

No. 1928-E.—2—19.—Mr. Bal Krishna Sood is appointed to the Superior Stores Establishment of State Railways as an Assistant Controller of Stores (on probation) in class III, grade 4, of that Establishment, with effect from the 22nd October 1919, and posted to the North Western Railway.

No. 1967-E.—19.—With reference to Railway Board's Notifications No. 1967-E.—3—18, dated the 24th December 1918, and No 791-E.—19, dated the 25th July 1919, Mr. J. Coates, Officiating Agent, Eastern Bengal Railway, reverted to his substantive appointment of Deputy Agent with effect from the 13th July 1919.

No. 2002-E.—19.—Mr. G. J. Bades, Junior Assistant Signal Engineer, North Western Railway, is appointed to officiate as a Senior Assistant Signal Engineer of that Railway, with effect from the 16th October 1919 and until further orders.

No. 2013-E.—19.—Mr. J. E. Wood, Assistant Carriage and Wagon Superintendent, North Western Railway, in class III, grade 2 (Provisional), of the Superior Revenue Establishment of State Railways is appointed to officiate as a District Carriage and Wagon Superintendent on that Railway in class II of that Establishment, with effect from the 17th October 1919 and until further orders.

No. 2018-E.—19.—Major E. P. Anderson, D.S.O., R.E., Executive Engineer, State Railways, is, on the termination of his special duty under the Railway Board, appointed to the charge of the Hardwar-Karunprayag Railway Survey, with effect from the 3rd November 1919.

No. 2188-E.—19.—With reference to Railway Board's Notification No. 1176-E.—19, dated the 29th July 1919, Mr. S. Zahiruddin Shamsi, Officiating District Traffic Superintendent, Oudh and Rohilkhand Railway, reverted to his substantive appointment of Assistant Traffic Superintendent in class III, grade 3, of the Superior Revenue Establishment of State Railways with effect from the 30th October 1919.

R. McLEAN,
Secretary, Railway Board.

INDIAN MUNITIONS BOARD.

NOTIFICATIONS.

Delhi, the 1st December 1919.

No. E-954.—The designation of the appointment of Senior Executive Engineer, Ammunition Factory Extensions, Kirkee, held by Major H. Mc. G. Morris, R.E., has been changed to Constructional Engineer, Ordnance Factories Extensions, Kirkee, with effect from the 1st December 1919.

The 4th December 1919.

No. E.-718.—Mr. C. F. Randall, Assistant Controller (Munitions Manufacture), Simla, was placed on special duty at the headquarters of the Indian Munitions Board with effect from the 15th October 1919.

No. E.-1104.—Sir Ernest Low, K.C.I.E., I.C.S., President, Indian Munitions Board, is granted privilege leave for five months and twenty-one days with effect from the 29th November 1919, under Articles 246 and 260 of the Civil Service Regulations and Finance Department letter No. 168-C. S. R., dated the 24th February 1919.

The 5th December 1919.

No. E.-515.—Captain P. J. K. Warren, R.G.A., is appointed Assistant Superintendent, Ammunition Factory, Kirkee, with effect from the 28th November 1919.

F. R. R. RUDMAN,
Secretary, Indian Munitions Board.

No. 505-D.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

RESOLUTION.

ANNUAL REPORT ON THE WORKING OF THE ASSAM LABOUR BOARD
DURING THE YEAR ENDING THE 30TH JUNE 1919.

(EMIGRATION).

Delhi, the 2nd December 1919.

The following paper is published in accordance with Rule 29 of the Assam Labour Board Rules:—

Annual Report on the working of the Assam Labour Board during the year ending the 30th June 1919.

I.—ADMINISTRATIVE.

1. The changes which took place in the membership of the Board have been detailed in appendix A to this report. Lieutenant-Colonel Kennedy continued to discharge the duties of Tea Commissioner for India in addition to those of Chairman of the Board.

2. In exercise of the power conferred upon them by rule 24-A (h) prescribed under section 116-F. (d), of the Assam Labour and Emigration Act, 1901, the Government of India have, on the recommendation of the Board, been pleased to accord general sanction to charges in connection with medical and sanitary measures on the transit routes to Assam being defrayed from the cess levied under section 116-E. of the above Act.

3. The two statutory meetings of the Board were held respectively on the 2nd October 1918 and 14th March 1919 and were attended by all the members except the following who were unavoidably absent:—

October Meeting.—The Hon'ble Mr. J. Mackenzie, Messrs. A. D. Gordon, L. Church and J. Henderson.

March Meeting.—The Hon'ble Mr. J. Mackenzie, Messrs. H. W. Carr and C. Wood.

The Hon'ble Mr. H. Miller, C.I.E., Chairman, Assam Branch, Indian Tea Association, attended the March meeting by invitation.

On the same dates meetings of the Executive Committee were held. Mr. A. D. Gordon was unavoidably absent from the October meeting and Mr. C. Wood from that held in March.

4. The Chairman was on tour for 122 days, including 30 days in connection with his work as Tea Commissioner, which, as in the previous year, prevented him from leaving Calcutta for other than short periods. The centres visited by him are given in appendix B.

5. As mentioned in paragraph 7 of last year's report, Mr. P. D. Kirkham has, as a temporary measure, been appointed supervisor, *vice* Mr. (now Captain) C. E. Middleton Stewart, who has been given a commission in the Indian Army Reserve of Officers, having handed over his duties on the 7th November 1918.

Mr. J. McPherson rejoined his appointment as Supervisor on the 3rd February 1919, the Government of Bihar and Orissa having been good enough to replace his services at the disposal of the Board after his release from military service. Appendix C. shows the charges allotted respectively to Messrs. McPherson and Kirkham by the Executive Committee. The following is a synopsis of the touring and inspection work done by the supervisors:—

Name.	Number of days on tour.	Number of stations visited.		Number of local Agencies inspected.		Number of Transport Agencies inspected.	
		Once.	More than once.	Once.	More than once.	Once.	More than once.
Mr. J. McPherson (from February 1919).	155	24	17	11	12	1	6
Mr. C. E. Middleton Stewart (from July 1918 to October 1918).	60	17	1	11	...	4	1
Mr. P. D. Kirkham (from November 1918 to June 1919).	181	25	9	13	8	5	1

Owing to the abnormal emigration much extra work was thrown upon Messrs. McPherson and Kirkham in connection with railway traffic arrangements and the provision of extra accommodation and medical and sanitary facilities at local and forwarding agencies. These duties were performed to the entire satisfaction of the Board, the assistance rendered by Mr. McPherson at Goalundo in reorganising the hospital accommodation and sanitary arrangements there, during the period when influenza and cholera were prevalent among the emigrants, being especially valuable. Mention was made in the report of last year of the fact that Local Governments in the recruiting districts had vested Mr. Stewart with the powers of a magistrate of the third class for purposes of the investigation but not the trial of cases of illegal recruitment. Similar powers have since been conferred upon Messrs. McPherson and Kirkham. Hitherto the exercise of these powers has not been frequent and has been confined to the recording of statements in the course of investigation of cases of illegal recruitment, and in this particular certainly the possession of magisterial authority has done much to strengthen the hands of the supervisors.

6. The appointment of an Inspector of police to act as investigating inspector under the supervisors, which was referred to in paragraph 8 of the report for the year 1918-19, having proved to be a success, has been made permanent and the Government of Bihar and Orissa have kindly lent the services of the present incumbent to the Board for a further period. The Inspector has been continuously employed in the investigation of cases of wrongful recruitment and in miscellaneous enquiries in which he rendered considerable assistance, being enabled to get into touch with people with whom it is difficult for the supervisors to come into contact.

II.—SUPERVISION OF LOCAL AGENTS.

7. Sixty-eight applications for the grant or renewal of licenses as local agents in the British recruiting district were received. Of these the Board recommended that sixty-four should be granted and that two should be rejected the Board's recommendations being accepted in all cases. One application was withdrawn and one was pending at the close of the year; the latter has since been disposed of.

In addition to the above, forty-four applications under the model rule approved by the Government of Bihar and Orissa for the regularisation of recruitment in the Feudatory States of that province, were filed for the appointment of local agents licensed for British districts to be local agents for those of the above States and of the Feudatory States in the Central Province which have adopted the aforesaid rules. Of these applications three were pending with the Political Agents at the end of the year and have since been disposed of. All the licenses were granted as recommended by the Board.

On the 30th June 1919 altogether 65 persons held licences as local agents, of whom 57 were employed by the Tea Districts Labour Supply Association and the remainder by individual estates or firms or combinations thereof. At the end of the previous year the number licensed was 59, the increase being due to the necessity for strengthening the staff of the Tea Districts Labour Supply Association because of the large numbers of coolies to be dealt with and because the staff had become seriously depleted owing to several agents having joined the army.

Number of local agencies,
distributed as follows:—

8. On the 30th June 1919 there were altogether 32 local agencies at work,

Bengal two, Madras three, Bihar and Orissa eighteen, United Provinces five, Central Provinces four.

During the year the Tea Districts Labour Supply Association reopened their agency at Baidyanath in the Santal Perganas.

The agency of the Salonah Tea Company Limited at Cuttack was also reopened under a new local agent.

Messrs. McLeod and Company have transferred the Ranchi agency for their concerns from the Tea Districts Labour Supply Association to Mr. M. G. Watts, who already held a license as local agent for the Empire of India and Ceylon Tea Company Limited.

The Assam Railways and Trading Company Limited closed their special local agency at Dumka on the 31st May.

9. Owing to the large numbers of emigrants going forward, the year was for the local agents one of strenuous work and they deserve much credit for the efficient manner in which they coped with the situation. Not only was there a great increase in the ordinary work of registration, enquiring into the antecedents of doubtful recruits, financing and supervising the garden-sardars and despatching the emigrants, but they had to arrange for extra rest-house and hospital accommodation in most cases and for cholera inoculations and in some instances to provide for outbreaks of influenza and cholera. Some idea will be gathered of the extent of the work thrown upon them when it is mentioned that the local agent at Ranchi had to deal with 6,920 garden-sardars and 64,376 emigrants and the local agent at Cuttack with 5,882 garden-sardars and 39,242 emigrants including dependants. Special and very efficient arrangements were called for at Cuttack, since the local agency is situated in the town, and there was very little space available in the vicinity for the formation of extra camps. Though the emigration was not so large from other local agencies, there was everywhere a great increase involving a proportionate increase of work.

The services of four local agents were dispensed with by the Tea Districts Labour Supply Association because of unsatisfactory work.

10. The Board understand that the reorganisation of the Tea Districts Labour Supply Association is now approaching completion and that it is probable that the Association will take over the arrangements for the transit of emigrants to the labour districts from the present forwarding agents. Owing to the favourable recruiting season the Association have been enabled to make good to their staff the amounts by which the salaries of the latter were reduced in 1917, and will refund to their constituents the special contribution received from them. As in previous years the Board are greatly indebted to the Association for reporting to them all cases of illegal or objectionable recruitment which came to their notice whether on the part of the management of estates for which they act or on that of garden-sardars or of others, and for the strictness with which they put down abuses.

III.—RECRUITMENT.

11. As mentioned in paragraph 17 of last year's report, a good recruiting season was anticipated, but the actual results have far surpassed all expectations. Altogether 45,227 garden-sardars recruited 248,343 persons including 134,640

adults, as compared with 18,272 persons including 12,849 adults recruited by 13,552 garden-sardars in the previous year. Details will be found in appendix D. The large increase in recruitment was due to the widespread scarcity which affected all of the recruiting districts and which seems to have been especially severe in the areas from which Assam chiefly draws its labour supply, such as the Feudatory States of Bihar and Orissa and of the Central Provinces, and, as was to be expected, the results per garden-sardar showed a marked improvement. The emigration would undoubtedly have been even greater but for the heavy mortality caused by influenza in the recruiting districts. This epidemic also greatly reduced the labour force on tea estates in Assam, which already required replenishment since the two previous recruiting seasons had been poor. The industry was, therefore, in a position to absorb the large numbers wishing to emigrate, but towards the close of the year a number of concerns gave orders for the recall of their garden-sardars, having obtained sufficient additional labourers. As compared with ordinary years the position was reversed, since in many instances it was not a case of the garden-sardars endeavouring to obtain recruits but of intending emigrants leaving their homes in search of garden-sardars. On the whole, the physical condition of the emigrants was fairly good, but, as was inevitable, a number were suffering during the earlier portion of the season from the after effects of influenza and later from malnutrition due to the scarcity which tended to swell the mortality *en route* to and after arrival on the estates. When necessary, emigrants in poor condition were rested and fed for some days at the local agencies under medical supervision. The large emigration was not only of great benefit to the tea industry, but there is reason to believe that it also greatly relieved the situation in the recruiting areas, more especially as the tea-planter prefers to obtain whole families including aged dependants. The Political Agent, Orissa Feudatory States, having received complaints that some adult males had emigrated leaving their families unprovided for, the Tea Districts Labour Supply Association circularised their constituents asking them to obtain from the newly arrived emigrants the names and addresses of any members of their families left behind, in order that they might be sent to Assam to join their relatives there. The number of such cases must, however, be small, since single males and single females form only a small proportion of the total numbers recruited.

A very curious feature of the situation has been the reluctance of the *chasa* or cultivator in the Orissa Feudatory States to resort to the famine relief works which were liberally provided by the State Darbars or to work in the mines or large industrial concerns in or adjoining the States, which offer tempting wages. Apparently the cultivators consider such work to be coolie work and lose caste if they engage in it. They, therefore, prefer to emigrate. A similar reluctance was observed in the Hazaribagh district where a census taken by the Deputy Commissioner showed that the largest emigration to Assam took place from those areas in which mining concerns had been established. It would seem, therefore, that the tea industry can still hold its own with large industrial centres in the recruiting districts.

Much assistance was rendered in regard to recruitment and to the measures taken at local agencies to deal with the crowds of emigrants by District Magistrates and the other local officers of Government and in Feudatory States by the Political Agents. In Palamau notices were issued through officers in charge of police stations and Settlement camps to the effect that persons wishing to emigrate to Assam would be forwarded to the local agency, and the police had instructions to assist the garden-sardars. Permission was, also, granted to estates which had no previous connection with Palamau to depute garden-sardars, whose homes were in other districts, to recruit in the former district. Such garden-sardars were, however, almost invariably unsuccessful, the people being unwilling to trust themselves to strangers to the district whom they knew nothing about. Nor did they present themselves at the police stations or settlement camps in order to be sent forward to the local agency.

Quite a number of emigrants were sent forward under the auspices of the Belgian and Society for the Propagation of the Gospel Missions at Ranchi. These missions do not engage in recruitment but when any of their converts ask

to be sent to Assam, they arrange for their despatch to an estate where their spiritual welfare can be attended to by a local missionary. The emigrants are registered by the local agent, Tea Districts Labour Supply Association, Ranchi, and generally go for a fixed period of a year or so, after which they are repatriated. The system worked well and the emigrants were generally contented with their employment, except in the case of a large batch sent to the Dauracherra Tea Estate in Sylhet through the Society for the Propagation of the Gospel Mission, most of whom left the garden shortly after their arrival, asserting that they had not been correctly informed of the terms of employment. They had no complaint to make of their treatment on the garden. They were a very miscellaneous batch, consisting for the most part of non-Christians who represented themselves to the mission as being friends of the Christian emigrants with whom they wished to proceed to Assam; some of them were of the *arkatti* type of recruit. A number of them were interviewed by Mr. McPherson, Supervisor, who formed the opinion that they were under a *bond fide* misapprehension as to the terms, though there can be no doubt but that these were explained to them by the mission at Ranchi.

As so large a number of persons presented themselves with a view to permanent emigration, the Tea Districts Labour Supply Association have temporarily discontinued the recruitment of short term labour from the Ranchi district, other than that going forward through the two Missionary Societies. Since Managers of estates complain of the inconvenience of having to return all short term labourers and dependants at the expiry of the period for which they agreed to work on the estate irrespective of whether they wish to remain on the estate or not, the local agent has arranged with the Deputy Commissioner that, in the case of families who do not wish to return, it will be sufficient if an adult member of the family be sent back in order to explain to the villagers that they have decided to settle in Assam. This innovation will obviate the hardship caused to the children and aged dependants in having to undertake the double journey to Ranchi and back to the garden, and at the same time the villagers will be reassured that the people are not being detained against their will.

Following upon the declaration of the armistice, the recruitment by Government for war purposes slackened, and this doubtless to some extent contributed to the successful results of the season. Towards the close of the year also, the Government of India removed the embargo which they had placed on the engagement of Nepalese labourers at Gorakhpur, it being stipulated that no recruitment should take place within the Nepal State.

12. Reference was made in paragraph 15 of last year's report to the inconvenience experienced in carrying on recruitment in the portions of the Madras

Measures affecting recruitment.

Agency Tracts in which it is permitted, and the Board have asked that the whole of the Ganjam and Vizagapatam Agency Tracts should be thrown open, the former without any restriction but recruitment in the latter being restricted to people of the Domb caste. The Board would naturally prefer that in the Vizagapatam Tract also recruitment should be unrestricted and the restriction has been proposed in deference to the wishes of the local officers of Government. The Chairman was accorded the privilege of explaining the Board's views to the Hon'ble Member of the Government of Madras in charge of the subject, and the orders of that Government are now awaited.

The draft model rules for the regularisation of recruitment in the Feudatory States of Bihar and Orissa were sanctioned by the Government of that province during the year under report. The rules are reproduced in appendix G. The Feudatory Chiefs of Athgarh, Baud, Daspalla, Dhenkanal, Gangpur, Keonjhar, Mayurbhanj, Narsingpur, Nilgiri, Pallehera, Rairakhol, Kharsawan, Seraikella, Hindol, Raramba, Nayagarh, Athmallik, Kandapara, Patna and Tigiria have adopted the model rules but the Chiefs of Kalahandi, Bamra, Sonpur, Ranpur, Talcher and Bonai have not as yet decided to do so. In the Central Provinces, also, owing to the prevailing scarcity, the Feudatory Chiefs of Udaipur and Sirguja have agreed to allow recruitment to take place in their States in accordance with the model rules, the former as a temporary measure and the latter on condition that the period of six months specified in rule 10

should be reduced to two months. It is a matter of great satisfaction to the Board that so many of the Feudatory Chiefs have adopted the rules. Though the fees charged will add to the cost of recruitment, the Board consider that the extra expenditure is justified in view of the fact that recruitment in the States which have accepted the rules has now been placed upon a regular footing, thereby enabling the local agents to control the garden-sardars working in them, and to investigate cases of doubtful recruitment, which it was previously impossible for them to do. In the British districts local agents have instructions to regard themselves as the unofficial assistants of the District Magistrates in the prevention of abuses in recruitment and they will now be in a similar position in relation to the Feudatory Chiefs who have adopted the rules. Considerable trouble having been caused owing to the failure of many tea-garden managers to enter the name of the State in column 9 of the certificate issued to garden-sardars working in States which have adopted the model rules, instead of that of the nearest British district, the Board have requested the Government of Bihar and Orissa to permit District Magistrates to correct errors of this kind. That Government have also been asked for a ruling as to whether separate certificates are required to cover the operations of garden-sardars in the Feudatory States, and in the British recruiting districts in which persons recruited in the Feudatory States are registered as required by the provisions of Act VI of 1901. The Board have suggested that in the case of a garden-sardar proceeding to a Feudatory State the name both of the State and of the British recruiting district should be entered in column 9 of the certificate, copies of which would be sent both to the Political Agent and to the District Magistrate.

The Board have observed that some managers are making a practice of deputing clerks to the recruiting districts for the ostensible purpose of supervising their garden-sardars working there. The Board do not view this practice with favour since it is the duty of the local agents to finance and supervise the garden-sardars, and there is a danger that the clerks might themselves directly recruit labourers and supply them to the garden-sardars. A case of this description was under investigation at the close of the year in the Monghyr district. The Board have, therefore, requested the Indian Tea Association and Tea Districts Labour Supply Association to discourage the practice, which these bodies have agreed to do. It has been suggested that if for any special reason an estate is desirous of deputing a clerk to the recruiting districts, a permit from the Board should previously be obtained. It is not intended that the visits of managers or assistant managers of tea estates to the recruiting districts, in order to see how their garden-sardars are working and to gain local knowledge, should be discouraged, as the Board are much in favour of such visits being made.

13. The statement in appendix E, which has been compiled from figures supplied by the local agencies, shows the average advance per adult recruit at each of the local agencies made to garden-sardars including sums paid to discharge village debts. There is a considerable variation between the figures at different local agencies. Apart from the idiosyncrasies of individual local agents and the instructions issued by employers, the amount of the advance is, broadly speaking, governed by the distance over which the garden-sardar has to travel to reach his home and the local cost of living. At local agencies such as Ranchi, Chaibassa, Sambalpur, Balasore and Cuttack where the garden-sardars recruit to a great extent from the Feudatory States and have consequently long distances to travel comparatively larger advances are required. In the United Provinces, Central Provinces, Bengal, Bihar and Madras where living is cheap and communications fairly easy, the advances are as a rule very low. During the past season fairly liberal advances were necessary, especially in the case of garden-sardars proceeding to the Feudatory States, since the price of food grains ruled very high, and the garden-sardars have not only to feed themselves and do some entertaining in their villages, but also to provide the feeding and travelling expenses of their recruits till they reach the local agency. The small average advance at Cuttack is particularly satisfactory, seeing that most

Average cost of advances to garden-sardars per recruit.

of the recruits from this agency come from the Feudatory States where the pressure of scarcity was severe. Money for the payment of village debts or of sums due on *kamiouti* bonds is not entrusted to the garden-sardars, such debts being paid after verification by the local agent either by himself personally or through peons.

Mention was made in paragraph 16 of last year's report of the practice which obtains in all the local agencies at Ranchi, except that of the Assam Frontier and Budla Beta Tea Companies, Limited, of making small cash advances to emigrants. Unfortunately during the year under report there has been a recrudescence of the professional emigrant trouble, and several batches after receiving their outfits and advances have absconded *en route*, or have expressed their unwillingness to proceed when in transit from the local agency to the labour district. One such batch, who had previously absconded, presented themselves at Ranchi again for registration but were detected by the local agent, Tea Districts Labour Supply Association, and are now being prosecuted. These people generally hail from an area in the Ranchi district known as the Panch Parganas and steps have been taken with the help of the district authorities to deal with the trouble locally. A few of the batches came from Ranchi town or neighbouring hamlets. Though the grant of advances to persons offering themselves for hire is customary in the district and is, no doubt, an inducement to intending emigrants, the practice has a tendency to encourage dishonesty of the description mentioned, but the number of persons who have been guilty of this fraud bear but a small proportion to the total recruited.

14. It is difficult so early to form an estimate of the probable recruiting results in the ensuing season, as so much depends upon the outturn of the crops.

Prospects for the season 1919-20.

Seeing, however, that the recruiting districts must have lost an appreciable proportion of their population owing to the epidemic of influenza and to the abnormal emigration which took place in the year under report, and in view of the fact that the rains have been favourable, it might reasonably be anticipated that the recruiting results of next season will be below the average, especially since, in addition to the causes mentioned above as affecting conditions in the recruiting areas, many estates in Assam have been enabled to replenish their labour forces, and are not likely to need any considerable number of recruits next year. On the other hand, it seems to be doubtful whether the people will have fully recovered from the effects of the scarcity. It is reported that in some of the recruiting areas the rice crops may be below the average owing to shortage of seed and of persons to till the soil. If this proves to be correct, the prices of food-stuffs will probably continue to be high, and an emigration equal at least to that of normal years may be expected. As regards the rate of wages in Assam, the Board understand that certain concerns have raised the standard wage, but in a year like that under report, when severe scarcity exists, the rate of the wage has little effect upon emigration. So far individual estates do not appear to have acted on the advice given by the Board last year that they should take steps to advertise in the recruiting districts the advantages which they offer, notwithstanding that, at the Annual General Meeting of the Surma Valley Branch, Indian Tea Association, the Chairman of the Board offered to have any leaflets sent to him translated into the vernaculars of the areas from which the estates recruit.

IV.—ILLEGAL RECRUITMENT.

15. Of the cases referred to in paragraph 18 of last year's report as pending, that at Chaibassa against Banerji and Chakrabarty resulted in their conviction and fines were imposed on them. The enquiry into the Buxar case disclosed the fact that the batch of coolies who were released at Goalundo had been fraudulently recruited by the garden-sardar, who represented that they would be employed as sweepers and basket-makers at Goalundo. As so long a period had elapsed since the commission of the offence the garden-sardar was not prosecuted, but his certificate was cancelled, and the manager was asked not to depute him again to recruit. The local agent and a peon whose conduct in the matter was not above suspicion were dismissed by the Tea Districts Labour Supply

Association. The trying magistrate had made very unfavourable remarks regarding this local agent in his judgment in the case against Ganga and Ganesh which is referred to below. In the Balaghat case no evidence was obtained to show that the woman and her daughter had been illegally recruited.

During the year under report cases of illegal recruitment by *arkatties* were neither numerous nor of much importance. At Bilaspur one Lochiram was sentenced to six months' rigorous imprisonment under section 420, Indian Penal Code, for accepting money from two garden-sardars on condition that he would supply them with coolies—a condition which he did not fulfil. A garden-sardar and two accomplices were sentenced each to three months' rigorous imprisonment for misdescription of a woman before the local agent at Chaibassa. The woman was handed over to the garden-sardar by an *arkatti* who has not yet been traced. From Raxaul in the Champaran district a Gurkha contractor, who was also a recruiter for the army, appears to have sent quite a number of Nepalese coolies surreptitiously to Assam. One batch was traced to a tea estate in Sylhet from which they had absconded shortly after their arrival, alleging misrepresentation on the part of the contractor whom they also accused of annexing their ornaments. The case is still under enquiry. At Buxar Ganga Sonar and a garden-sardar were sentenced to rigorous imprisonment for one month and a fine of Rs50 for fraudulently inducing a woman, her son and her mother to emigrate to Assam, on the pretext that they were being taken to Calcutta to join the woman's husband, who is a telegraph peon there. Latter complained to the Chairman of the Board who had an enquiry made, with the result above mentioned. Two *arkatties* named Gajraj Sing and Rajan managed to get themselves appointed as garden-sardars by representing to a manager, who was new to the garden, that they were old coolies of the estate. They were, however, detected by the local agent at Chaibassa before any harm was done, and returned to the garden, and the Board have warned the manager that in future he must select his garden-sardars from *bonâ-fide* labourers on the estate, who are known to him. Two *arkatties* spirited away two Patna youths who had gone to Calcutta in search of work and made them over to a garden-sardar at Ranchi, it being alleged that they had come there to work in a lac factory but now wished to emigrate to Assam. The local agent's suspicions were aroused and he communicated with the Board's supervisor with the result that a case was instituted, but it came to nothing as the two boys were spirited away again before the trial took place.

The *arkatti* nuisance has been most prominent at Chaibassa and Katni. At the former place the Deputy Commissioner, assisted by the local agent, is taking vigorous action with a view to stamping the trouble out, and Katni is having the attention of the Board. At Outtack, where there used to be numerous petty *arkatties* and touts, the strong action taken by the local agent, Tea Districts Labour Supply Association, with the support of the District Magistrate, has placed things on a satisfactory footing.

16. Altogether 61 garden-sardars were reported by local agents to

Offences by garden-sardars.

District Magistrates for punishment in connection with offences against recruit-

ment and 309 garden-sardars were returned to the estates because of unsatisfactory conduct. Details will be found in appendix E. When the very large number of garden-sardars at work is considered, the proportion who misbehaved themselves is small. There can be no doubt, however, but that, in those districts in which the scarcity was most severe and especially in those adjoining the Feudatory States, many garden-sardars obtained their recruits through intermediaries, often making their headquarters at some central place and waiting for intending emigrants to come to them. In the special circumstances of the year this was inevitable, since intending emigrants were leaving their homes in search of garden-sardars and of necessity enlisted the assistance of anyone who would house and feed them and introduce them to garden-sardars. No particular harm has resulted, since the people were anxious to go to Assam so no deception was necessary, but in a number of cases the emigrants accepted advances from two or more garden-sardars a

practice which gave rise to disputes as to by whom they had been recruited. In such cases the emigrants were permitted to decide to which estate they would proceed.

V.—FINANCIAL.

17. By Department of Commerce and Industry Notification No. 1092, dated the 6th April 1918, the rate of cess during the year under review was fixed at Rs. 2 per garden-sardar and emigrant. The cess was, as usual, paid punctually, and at the close of the year only Rs. 3.2 were in arrears, which sum has since been realised. Assessments on emigrants were checked by the supervisors in the course of their tours. Altogether Rs. 148 were refunded, *viz.*, Rs. 20 paid on garden-sardars and Rs. 128 paid on emigrants.

18. The auditor's report and the audited statement of accounts are reproduced in appendix H. The audited statement of accounts, which is compiled from the cash book, includes payments made in respect of short term investments and sums received when these were repaid. The ordinary receipts and expenditure excluding temporary investments repaid or made, and the opening and closing balances including investments were as follows:—

Receipts.				Expenditure.			
	Rs.	A.	P.		Rs.	A.	P.
Opening balance	11,777	6	11	Ordinary expenditure	84,544	7	3
5½ per cent. War Bonds of 1920	75,000	0	0	Cash with Bank of Bengal	45,850	5	3
Treasury Bills	24,687	8	0	Cash in hand	194	4	8
Fixed deposits	50,000	0	0	5½ per cent. War Bonds of 1920	75,000	0	0
Interest on investments	7,103	2	0	Treasury Bills	2,57,825	0	0
Cess realised	3,22,772	0	0	Fixed deposits	35,000	0	0
Miscellaneous	6,604	0	3				
Total	4,97,944	1	2	Total	4,97,944	1	2

The estimated receipts from cess were only Rs 64,000, the large increase being due to the favourable recruiting season. Rs. 7,977-12-9 outstanding on account of permanent advances and advances for the purchase of motor cars made to the supervisors are in addition to the closing balance, and the Board have still to receive Rs. 14,823-1-9 in adjustment of the shares of the Chairman's salary from the 20th November 1917 to 31st March 1919 payable respectively by the Ministry of Food, the Government of India and the Board, as well as Rs. 1,912-8-0 being the contribution of the Government of India towards his salary for the months of April, May and June 1919. The expenditure side of the budget calls for no remarks, there having been savings under all heads.

19. The budget estimate for 1919-20, as passed at the meeting of the Board held in March 1919, provides for an income of Rs. 3,30,288-4-5 made up as follows:—

	Rs.	A.	P.
Opening balance	2,68,512	4	5
Cess at Re. 1 on garden-sardars and emigrants	60,000	0	0
Government of India's contribution	7,650	0	0
Interest on investments	4,126	0	0
Total	3,30,288	4	5

Since the closing balance of the year under report amounts to Rs. 4,13,999-9-11 the opening balance will be increased to this amount. In view of the strong financial position of the Board it was decided to recommend to the Government of India that the rate of cess should be reduced to Re. 1 per garden-sardar and emigrant and this recommendation has been accepted.

VI.—MISCELLANEOUS.

20. The Chief Commissioner of Assam has ruled that technical mistakes made when filling up the forms of certificate granted to garden-sardars may be corrected by countersigning officers in Assam under section 60 of the Act, without requiring the re-appearance of the garden-sardars. This matter was referred to in the concluding portion of paragraph 23 of last year's report.

21. It was reported to the Board that the question of local recruitment, not only of labourers on estates but also of time-expired labourers or their descendants residing in villages in the neighbourhood of estates, was occasioning trouble and disputes between tea estates in Assam. It has been suggested that the trouble was to a great extent due to the difficulty which new gardens experience in obtaining coolies from the recruiting districts owing to the dearth of a nucleus of labourers who can be deputed as garden-sardars, and the proposal has been put forward that some system of direct recruitment in the recruiting districts by the Board, should be devised in order to supply new gardens with labour. A sub-committee consisting of the Chairman, Messrs. Graham Gordon and Pickford was appointed in order to investigate the matter. With a view to eliciting definite information as to the extent of the trouble and opinions as to the steps, if any, which should be taken to put it right, the sub-committee issued two forms consisting of question addressed to managers of estates. The replies, which will be forwarded through the Indian Tea Association and local Branches, had not been received at the close of the year. The large addition to the labour force received during the year has probably alleviated matters considerably.

22 The hospital at Goalundo is a small State-aided institution, managed by a local Committee. Owing to the peculiar river conditions, the site of the steamer ghat changes twice a year, namely in the cold weather and in the rainy season, and the two sites are liable to fluctuation. Consequently the hospital buildings are temporary with mat or bamboo walls, thatched roofs and earthen plinths. Trouble at first arose at the end of November when congestion occurred owing to the number of cases of influenza. The Board accordingly advanced Rs. 3,000 for the provision of extra wards, etc. During January matters became worse owing to a greater influx of influenza cases, the appearance of cholera and the detention of contacts. The hospital was much over-crowded and the medical and sanitary conditions were unsatisfactory. Additional medical staff was provided by the Surgeon General with the Government of Bengal, the hospital buildings were rearranged and extended under the supervision of the Board's supervisor, and the Inland Steamer Companies lent two flats free of charge for use as hospitals. These measures placed things on a satisfactory footing. The Board are most grateful to the Inland Steamer Companies for their kind assistance, and to Mr. Blackmore, their agent at Goalundo, who was also Chairman of the hospital committee and who took a great deal of personal trouble in connection with the arrangements. The situation at Goalundo was considered at the March meeting of the Board when it was decided to address the Government of Bengal recommending that a Government emigration hospital be established at Goalundo, a floating hospital, which can be towed from ghat to ghat, being suggested. The total expenditure incurred by the Board in connection with the Goalundo hospital amounted to Rs. 3,914-14-9.

At Amingaon the Eastern Bengal Railway erected a small hospital for the treatment of emigrants, and also provided temporary segregation sheds. As conditions at Amingaon and Goalundo are somewhat similar, both being stations at which emigrants change from train to steamer, the Board have recommended to the Assam Administration the establishment of a Government hospital at the former place also.

At Santahar and Naihati the Eastern Bengal Railway kindly ran up temporary hospitals and segregation sheds for the use of emigrants, as well as feeding sheds at the former place. It is the intention of the Railway Administration to

substitute permanent buildings in due course for the temporary ones. In connection with the emigrant traffic at Chandpur the Assam Bengal Railway, whose arrangements are always excellent, provided temporary hospital wards and segregation sheds, and are building hospitals at Tinsukia and Moriani.

At Khargpur there is a small Government emigration hospital. As the accommodation for infectious cases thereat is insufficient, the Board have agreed to contribute Rs. 1,500 towards the cost of a new ward. At Asansole the emigrants are treated at the Leighton Municipal Hospital. A grant of Rs 1,516 has been sanctioned by the Board to meet half the cost of an addition to the cholera ward, which is at present much too small.

23. Arrangements were made with the East Indian, Bengal Nagpur Eastern Bengal and Assam Bengal Railways for special trains for the conveyance of emigrants, when the numbers became too large to be carried by the ordinary passenger trains. Special steamers were also supplied, when required, by the Inland Steamer Companies. Owing to the shortage of coaches, due to war conditions, it was frequently necessary to employ covered goods wagons for the conveyance of emigrants on the broad gauge section of the Eastern Bengal Railway. The Board take this opportunity of acknowledging the efficient arrangements made by the various Railway Administrations and the Inland Steamer Companies, and the courteous manner in which the requests made by the Board have been met.

The forwarding agents had an exceptionally difficult year. Rest-house accommodation at the halting stations had to be increased and sanitary arrangements extended and improved at short notice. Staffs had to be augmented and temporary escort peons engaged since the establishment of regular peons, a number of whom also succumbed to cholera, was insufficient. On the whole, the Board consider that the forwarding agents discharged their duties with remarkable success.

24. As cholera began to cause trouble on the rail routes and several bad outbreaks occurred on river steamers proceeding to the Assam Valley, at the instance of the Sanitary Commissioner, Assam, and with the approval of Sir Leonard Rogers, I.M.S., anti-cholera inoculation was introduced at all local agencies from about the middle of March. Statistics of the incidence of cholera along the transit routes before and after the introduction of inoculation have been collected by the Board and supplied to the Sanitary Commissioner, Assam, who has prepared the note on the subject which is published as appendix F. It will be observed that he has formed the opinion that inoculation has had most salutary results, and that but for it there would have been serious mortality. The Board are also collecting figures from a typical tea company in each of the larger labour districts, showing mortality from cholera and influenza within a fortnight of arrival on the garden. It is pleasant to record that the emigrants willingly submitted to inoculation.

25. The Board wish to express their thanks to the District Magistrates of all the recruiting districts for the ready assistance afforded in emigration matters, and especially to the Collectors of Vizagapatam, Ganjam and Outtack, the Deputy Commissioners, Ranchi, Manbhum, Singhbhum, Hazaribagh, Palamau, Sambalpur, Raipur, Bilaspur, Jubbulpore and Ghazipur, and to the Political Agents, Bihar and Orissa and Central Provinces Feudatory States.

APPENDIX A.

Elected Members of the Board and of the Executive Committee.

BOARD.

	Membership on 1st July 1918.	Result of elections during the year ending the 30th June 1919.
<i>Representatives of the Indian Tea Association, Calcutta and London.</i>	R. Graham, Esq.	R. Graham, Esq.
	W. O. Grazebrook, Esq.	W. O. Grazebrook, Esq.
	H. W. Carr, Esq.	H. W. Carr, Esq.

APPENDIX B.

Synopsis of Tours of Chairman during the year 1918-19.

Places visited by the Chairman :—

Chaibassa, Puri, Dumka, Amrapara, Benagaria, Cuttack, Daltongunge, Balasore, Hazaribagh, Purulia, Sambalpur and Ranchi in Bihar and Orissa ;

Khargpur, Midnapur, Goalundo, Chandpur and Bankura in Bengal ;

Jubbulpore, Raipur and Bilaspur in the Central Provinces ;

Berhampore, Chatrapur and Waltair in Madras ;

Cinnamara and Silohar in Assam ;

Ghazipur in the United Provinces.

APPENDIX C.

Synopsis of charges allotted to Messrs. P. D. Kirkham and J. McPherson.

1st charge.—Mr. P. D. Kirkham.—The United Provinces, Central Provinces and Madras with headquarters at Raipur.

2nd charge.—Mr. J. McPherson.—Bihar and Orissa, Bengal and Assam with headquarters at Ranchi.

APPENDIX D.

Statement showing the number of Garden-Sardars at work, the number of adults and the total number of persons recruited, and the average number recruited per Garden-Sardar in the year 1917-18 and 1918-19.

APPENDIX F.

The Economic value of Anti-cholera Inoculation.

It has fallen to me as Sanitary Commissioner and "ex-officio" Superintendent of Emigration, Assam, to compile some observations bearing on the value of inoculation with anti-cholera vaccine as a prophylactic against the prevalence of cholera among labour emigrants *en route* to Assam. I am aware of the many pitfalls which beset one's path in attempting to interpret statistics, but as the compilation seems to offer definite evidence in favour of the efficiency of the measure and as the conclusion to be drawn is not unimportant, the facts and figures are put forward, as they may perchance carry conviction to others as well as to oneself.

One should perhaps commence by explaining that the emigration season of 1919 has been, in many ways, an exceptional one. Recruiting for the tea industry reached a very low ebb during the latter years of the war, and the influenza epidemic of the autumn of 1918 greatly depleted the available labour force of the tea industry. In the recruiting districts of Bihar and Orissa, the Central Provinces, and the United Provinces, the partial failure of the grain crops and the resulting scarcity led to very large numbers of labour recruits coming forward for enlistment and these two factors, namely a big demand and an ample supply, led to the emigration,

*Figures supplied by Chairman, Assam Labour Board.

between December 1918 and June 1919 inclusive, of 239,885* labourers, most of whom were famine-stricken, debilitated people whose condition pre-

disposed them to attacks of epidemic disease.

In the commencement of the emigration season in December and January influenza was prevalent among the emigrants taking a considerable toll of life, and in February, an increasing incidence of cholera, which was brought prominently to notice by some disastrous voyages of infected river steamers, added to our troubles and strained the resources of our emigration hospitals and staff to the utmost. The voyages of the river steamer "Pegu" which left Goalundo with 666 souls on board, and eventually left Tezpur, when freed from quarantine, having had in all 143 cases of cholera, may be cited as an example of the conditions then prevailing which gave rise to grave apprehensions as to future developments. Under these circumstances, the permission of the local Administration was obtained for a visit to Calcutta to consult with Lieut.-Colonel Kennedy, the Chairman, Assam Labour Board, and with Messrs. Begg Dunlop, Secretaries to the Tea Districts Labour Supply Association, as to how the difficulties of the situation might be alleviated. In discussion with Lieut.-Colonel Kennedy and Mr. Pickford, I ventured to urge the advisability of inoculating all labour recruits with anti-cholera vaccine before their departure from the recruiting districts but, in considering the practical details of such arrangement, we were faced with the difficulty that if the accepted ritual of a double dose of anti-cholera vaccine, separated by an interval of ten days, were to be followed, it would mean the provision of accommodation in the district recruiting agencies on a scale which would, to all intents and purposes, negate the proposal as a practical proposition. In this dilemma Sir Leonard Rogers' advice was sought as to the value for our purpose of a single inoculation with the idea of conferring some degree of temporary immunity, to tide the inoculated emigrants over a period of risk while *en route* to the tea districts. Sir Leonard Rogers lent the weight of his support to this proposal, and Mr. Pickford on behalf of the Tea Districts Labour Supply Association thereupon set to work to organise the work of inoculating all labour recruits for Assam before their despatch from the recruiting agencies. Many difficulties were encountered, but they were successfully overcome, for example, objections were urged on the ground of risk during the "negative phase"; but again Sir Leonard Rogers came to our rescue, and advised that in practice the "negative phase" might be neglected, if those who shewed signs of undue reaction to the vaccine were held back for a few days before being despatched.

This advice was adopted and accordingly by March 16th inoculation with anti-cholera vaccine, obtained from the Central Research Institute, Kasauli, was in force in all the recruiting centres. By the third week in March inoculated coolies began to appear upon the railway routes and by the fourth week of March most of the emigrants travelling to Assam, whether by rail or by river, had been inoculated with a single dose of cholera vaccine before commencing their journey. In regard to the strength of dose given, I understand from the Secretaries of the Tea Districts Labour Supply Association that when the inoculation of coolies was first started by their Association it was arranged that a rather larger dose should be given than that laid down as a first dose when the complete inoculation of two doses is given. On the other hand, a recent writer in the "Indian Medical Gazette" of June 1919, in describing the technique followed in Hazaribagh, states that $\frac{1}{2}$ C.C. was the maximum dose given. The actual standard of dosage adopted is therefore not clear, and may perhaps have varied in different agencies.

Those who have been concerned with the work of inoculation are curious to ascertain the result of their labours, and those who have met the cost of it wish to know what they have received for their money, and, as the individual with whom the suggestion originated, the writer also is interested in ascertaining the results. The method adopted has been to ascertain the cholera mortality on the transit routes in Assam for a period of 5 months, *s.e.*, from January to May, and to compare the cholera mortality in the period before inoculation, and after it. This period divides itself into two, *s.e.*, that before the 15th of March in which there was no

inoculation, and that after it, when all were inoculated. The number of labourers travelling before and after inoculation being known, and the cholera prevalence in the areas from which they were recruited showing no reduction, then one might fairly attribute any appreciable reduction in cholera mortality to the influence of inoculation, if no other important factors were simultaneously operative in the reduction of cholera mortality.

Before any definite conclusion can be drawn from the statistics, therefore, one has first to consider whether any other potent factors were at work to diminish cholera prevalence during the second period which were not operative in the first. During the second half of this period the Emigration Hospital at Goalundo, the condition of which had been unsatisfactory, was greatly improved, and the condition of the Forwarding Agents Depôts throughout the route was somewhat amended as the result of the visits of the Inspecting Officers.

Although those of us who worked to effect these improvements would be reluctant to concede that our efforts were entirely infructuous, yet we would, I think, be agreed that the reforms that were effected were not so drastic as to have had any marked effect *per se*, in view of the continued prevalence of cholera in the areas from which the emigrants were being recruited, and the continued risk of infection in the halting places *en route* from water-supplies open to contamination and from imperfect conservancy arrangements.

In so far as one can discover, no new factors, other than the introduction of inoculation, were effectively operative in the reduction of cholera mortality in the period after March 15th and if this view be accepted as credible, then we may turn to an examination of the statistics to see what was the result of the inoculations. Table No. 1 shows the attacks and deaths on the transit routes from cholera, week by week, from January to May. The figures have been compiled from the returns of the Government and Railway Emigration Hospitals and Depôts, and from the statistics supplied by the Railway and Steamer Companies, and they are substantially correct. Through the courtesy of Lieutenant-Colonel Kennedy, and his staff, the figures showing the number of coolies despatched to Assam week by week during the same period, have been obtained, and are shown in a parallel column in the same table.

Table II shows the weekly cholera mortality in the recruiting districts which has been compiled from figures obtained through the courtesy of the Sanitary Commissioners of the provinces concerned.

Table III, which has been compiled from records in the office of the Chairman, Assam Labour Board, by Mr. McPherson, Supervisor, Assam Labour Board, shows the cholera mortality in the forwarding agencies among emigrants arriving from various local agencies.

In examining the figures in table III it has to be kept in mind that they refer to mortality occurring among emigrants very soon after inoculation, *i.e.*, during a period when its protective influence would be but slightly developed.

In forwarding these figures Mr. McPherson rightly points out that the high level in cholera mortality maintained in the forwarding agencies during April was due to the mortality among Bilaspore coolies in that month, who for some time were arriving in the forwarding agency returning their mortality figures, within a few hours of inoculation. Subsequently the practice obtaining at Cuttack of detaining emigrants for four or five days after inoculation was introduced at Bilaspore, with the result that the figures for Bilaspore coolies fell to the average level, although the district mortality, as supplied by the Sanitary Commissioner, Central Provinces, continued to rise. The low figures for the Cuttack Agency, where a five days' detention subsequent to inoculation had all along obtained, are worth comparing with those for Bilaspore before and after the introduction of a four days' detention, as they seem to suggest that the expenditure involved in the detention at Cuttack was justified by its results.

Not being personally acquainted with the conditions to which the figures in table III relate, I shall not venture on further comments in regard to them, as such remarks can more fittingly be made by some of the officials of the Assam Labour Board who know the circumstances better than I do.

Column 7 of table I shows, week by week, the ratio of cholera deaths per thousand of emigrants despatched during the week in question: it displays the beginning of the cholera outbreak in January, and a high mortality in the third week of January, chiefly owing to the outbreak on the "Pegu." It shows that the mortality ratio was maintained at a high level throughout February, and until the end of the third week in March.

In the last week in March we see that the ratio fell from 8.5 per mille, as it was in the previous week, to 3.19, and that thereafter the ratio decreased regularly and progressively, the mortality per mille in the last week in May being 54. Now these results appear to coincide with what one would expect to happen were anti-cholera inoculation to be the cause of decrease. With inoculation in vogue from March 15th, it follows that in the third week of March its effect, if any, would be obscured by deaths among uninoculated travellers admitted in the previous week, and among the uninoculated emigrants still proceeding by steamer, who, unlike railway emigrants, who travel faster, had started their journey before the commencement of inoculation. One would expect therefore that the effect would not be fully felt until the last week of March or the beginning of April.

The figures seem to show that this is what actually occurred. The fall in the mortality appears to be more than a mere coincidence and it seems reasonable to suggest that the inoculation and the decreased mortality stand to each other in the relation of cause and effect. A critic might argue that the cause of this decrease of mortality should be sought in a decrease

in the prevalence of cholera in the areas from which the emigrants were coming, which would be sufficient to account for the change. To meet this argument, I have compiled table II, which shows the actual cholera mortality week by week in the provinces from which the bulk of the recruits were obtained. The bigger half of them come from Bihar and Orissa and its Feudatory States, but one scrutinises in vain the figures for that province to detect any tendency to a decline in the cholera mortality about the middle or end of March. On the contrary, the statistics supplied from the recruiting provinces (the detailed figures of which, for the sake of brevity, I am omitting), show week by week in every district a progressive increase in cholera mortality following the usual seasonal mortality with the advance of the season. One would expect that the cholera mortality upon the transit routes should follow the same course as in the recruiting districts were no potent factor operative to prevent it, but the actual facts are otherwise, which would seem to show the influence of some such preventive factor.

To sum up, a marked decrease in cholera mortality occurred on the transit routes after the introduction of inoculation, and at the time one would expect it to occur if inoculation were the cause. Table II furnishes evidence of the continuance and increase of cholera in the recruiting districts following the usual seasonal mortality, and it seems reasonable, therefore, to suggest that this marked decrease in the second half of the period under review was largely due to the effect of anti-cholera inoculation commenced in the middle of it.

It is interesting and perhaps not irrelevant as confirmatory evidence to compare the figures for 1919 with those for the year 1908, when food scarcity also prevailed in the recruiting areas, recruiting was brisk, and cholera was rampant. From the Eastern Bengal and Assam Government Resolution on Emigration for that year, one learns that 84,824 emigrants travelled to Assam, and that 627 deaths occurred on the transit routes from cholera or 7.4 per mille. If we compare these with the figures for 1919, we find that from 1st January to 21st March, 106,984 coolies were carried, all except a few in the last week being uninoculated, and that 726 deaths from cholera occurred on the transit routes, or 6.78 per mille. After the introduction of inoculation, between March 22nd to May 31st, 89,609 coolies left the recruiting agencies for Assam, of whom 166 died of cholera on the transit routes, or 1.85 per mille. It would therefore appear probable that the mortality among uninoculated coolies travelling to Assam would be about 7 per mille, and that among those inoculated with a single dose of cholera vaccine, it is less than 2 per mille.

The change in the incidence of cholera mortality among emigrants which followed the introduction of inoculation was of the greatest importance to those who were concerned with the emigration arrangements on the transit routes in Assam this year. Had the mortality on the transit routes remained at its March level or increased to something greater, as might well have happened in the absence of inoculation, the situation on the transit routes would have become well nigh unmanageable, heavy loss of life would have occurred and, in view of the grave risk of dissemination of cholera throughout Assam which the continuance of these conditions would have entailed, unrestricted emigration could hardly have been continued owing to the risks, losses and scandals which have been involved.

If the conclusions deduced from these facts and figures be correct, it does not appear to be unduly straining probabilities to suggest that anti-cholera inoculation in the hands of an efficient organisation rendered possible the recruitment of nearly $\frac{1}{2}$ million labourers for the Tea Industry in Assam, during the present recruiting season. If this be conceded, it follows without further argument that the benefit conferred on the province in general and on the Tea Industry in particular by inoculation has been great and that the economic value of anti-cholera inoculation has been, in this connection, very considerable.

T. C. McCOMBIE YOUNG, M.D., D.P.H.,

Major, I. M. S.,

Sanitary Commissioner, Assam.

APPENDIX G.

Rules for the regulation of emigration from the Feudatory States in Bihar and Orissa.

1. (a) All terms and expressions used in these rules shall, unless otherwise explained, have the same meaning as in the Assam Labour and Emigration Act, 1901.

(b) The expression "State Authority" means the Superintendent in the case of States, under the direct management of Government and, in other cases, the Feudatory Chief or any responsible officer of the State appointed by the Feudatory Chief with the sanction of the Political Agent for the purpose of these rules.

2. (a) All persons are hereby prohibited from recruiting, engaging, inducing or assisting any native of the State or any other person for the time being residing in the same State to emigrate to any labour district otherwise than in accordance with these rules and unless and until they are provided with a certificate duly countersigned by an Inspector of Labourers or Magistrate, and sections 56 to 60 inclusive of the Assam Labour and Emigration Act, 1901, shall, so far as may be possible, apply to the granting and countersignature of such certificates.

(b) Whoever within the State knowingly recruits, engages, induces or assists or attempts to recruit, engage, induce or assist any native of the State or any other person for the time being residing in the same State to emigrate in contravention of these rules, shall be punishable with imprisonment for a term which may extend to six months or with fine which may extend to five hundred rupees or with both.

3. (a) No person shall be allowed to recruit emigrants unless he works under the control of a Local Agent approved by the State.

(b) No Local Agent will be approved by the State authority unless he already holds a licence as a Local Agent in British India and the approval of the State authority will be withdrawn when the Local Agent ceases to hold a licence in British India.

(c) The State authority will entertain no application from any one for approval as a Local Agent unless the application is received through the Assam Labour Board and the Political Agent. Such application must contain full particulars of the Local Agent whose approval by the State is sought.

4. A separate register shall be maintained by the Local Agent for each State in the form appended to these rules and at the end of each month two copies of all entries in each such register relating to the month shall be forwarded by him to the Political Agent who will send one copy to such State concerned and keep the other for record in his office.

5. For every adult emigrant registered by a Local Agent a fee of rupees five shall be paid by the Local Agent to the State from which the emigrant was recruited.

6. The Inspector of Labourers or Magistrate in Assam countersigning the garden-sardar's certificate under Rule 2 of these rules will send a copy of the certificate to the State concerned through the Political Agent for that State. No certificate shall be valid unless the name of the particular State in which the sardar will recruit is specified on the certificate.

7. A fee of rupees fifteen shall be paid to the State concerned for every certificate countersigned under Rule 2 above.

8. No certificate under Rule 2 shall be granted for a longer period than one year from the date thereof, and if the certificate holder fails to comply with any of these rules or is guilty of any other misconduct or is found by the State authority to be for any other reason unfit to recruit emigrants, his certificate may be cancelled by the State authority. Whenever a certificate is cancelled the authority cancelling it will inform the Inspector or Magistrate who countersigned the certificate and the Local Agent under whom the holder of the certificate was working. The information will be sent through the Political Agent.

9. The fees prescribed for countersignature of a garden-sardar's certificate under Rule 2 and for recruitment of each adult emigrant under Rule 5, shall be collected by the Local Agent and remitted to the Political Agent quarterly, who will then remit the amounts to the State concerned. Any expenses incurred by the Political Agent in remitting the fees to the States shall be met by the Local Agent on the demand of the Political Agent.

10. In any case when a State has permitted recruitment within its territory in accordance with these rules, this permission may be withdrawn by the State authority on giving six months' notice of the date on which recruitment will no longer be allowed. The notice will be given through the Political Agent, who will inform the Assam Labour Board. The six months will begin from the date on which the notice is received by the Assam Labour Board. After receipt of such notice no certificate under Rule 2 shall be granted in respect of emigration from the State which has given notice terminating recruitment.

11. Every Local Agent under whom garden-sardars are working in the State and the chaprasis and other servants of such Local Agent shall be allowed to enter the State at all times for the purpose of inspecting and supervising the work of such garden-sardars.

Form of Register of persons and their dependants engaged by Garden-Sardars working under the control of
 at
 191 .
 Local Agent,

Serial No.	Date of registration.	Registration No.	Names of persons engaged and their dependants.	Father's name.	Caste.	Age.	Sex.	RESIDENCE.			Whether labourer or dependant.	Relation-ship, if any, to others in the batch.	Name of Garden-Sardar by whom engaged or recruited.	Where registered.	Place of service.	Date of despatch.	By whom conducted to labour district.	REMARKS.

Local Agent.

APPENDIX H.

No. O. A. 209—60-18, dated Calcutta, the 2nd September 1919.

From—The Examiner, Outside Accounts, Calcutta,

To—The Chairman, Assam Labour Board.

I have the honour to submit herewith a report on the accounts of the Assam Labour Board for the year 1918-19, which have been audited under my supervision and found correct subject to the following remarks :—

2. The opening balance on 1st July 1918 was Rs. 11,777-6-11 (inclusive of Rs. 300, permanent advance, with a supervisor). Total receipts during the year under audit amounted to Rs. 4,11,166-10-3, and the total expenditure to Rs. 3,76,769-7-3, thus leaving a balance of Rs. 46,174-9-11—Rs. 194-4-8 with the Chairman, Rs. 45,380-5-3 with the Bank of Bengal and Rs. 600 with the two supervisors as Permanent Advance. Besides this cash balance, the Board has Rs. 2,92,825 invested in fixed deposits and Treasury Bills; it also holds 5½ per cent. War Bonds of 1920 to the value of Rs. 75,000.

3. The balance of the account on the 30th June 1919 has been verified, as follows :—

	Rs.	A.	P.
Balance as per account	46,174	9	11
Balance as per Bank Pass Book	45,380	5	3
Balance with the Chairman	194	4	8
Permanent advance with supervisors	600	0	0
Total	46,174	9	11

4. An audited copy of the statement of Receipts and Expenditure for the year 1918-19, prepared by the Board, is attached hereto, as usual.

5. Objections raised and communicated during the course of the audit, have not yet been received back, together with the replies of the Chairman. On their receipt, a further communication, if necessary, will be made.

Statement of RECEIPTS and
RECEIPTS.

DELHI : }
The 5th December 1919. }
F. H. G. HUTCHINSON, LIEUT.-COL., I.M.S.,
Sanitary Commissioner with the
Government of India.

No. B-506—11.

GOVERNMENT OF INDIA.

INDIAN MUNITIONS BOARD.

RESOLUTION.

CONSTITUTION OF A COMMITTEE TO DEVISE A SCHEME FOR THE PROPOSED PURCHASE OF STORES IN INDIA.*Delhi, the 5th December 1919.*

The most obvious and direct form of assistance which the Government of India can give to the industries of the country is by the purchase of supplies required for the public services so far as possible in the country itself. This principle is already clearly expressed in the existing Stores Rules, although their key note is economy, an essential factor in any scheme for the purchase of Government stores; but indenting officers have in practice been too often deterred by the risk involved in purchasing in India in the absence of an expert purchasing and inspecting agency. It follows, therefore, that the constitution of a fully equipped stores agency in this country is a very important item in the policy of industrial improvement on which the Government of India are now embarked.

2. The foregoing principles were set forth by the Indian Industrial Commission, accepted by the Government of India and approved by the Secretary of State; they have already been put into practice to a limited extent under war conditions by the Indian Munitions Board and the time has now come to give them permanent effect. The Government of India have, therefore, with the sanction of the Secretary of State, decided on the appointment of a Committee to work out a detailed scheme.

3. There are, however, other factors which must be considered in framing any such scheme. In the first place, the provincial Governments have generally expressed a desire for some measure of freedom in arranging for their own purchases, although they recognise the assistance that the creation of an efficient central purchasing and inspecting department could afford, even to the largest and best equipped provincial Stores department. Although from the point of view of the producer provincial Governments are not individually very important purchasers in comparison with the large consuming departments of the Government of India, yet their demands are on a sufficient scale to make the waste of public money, which inevitably attends inexpert purchase and ineffective inspection, run into considerable figures; and this is bound to lead in the long run to dissatisfaction with local sources of supply. It will be for the Committee, in consultation with the officers of Local Governments and with private suppliers, to devise a system which will, so far as possible, meet the wishes of Local Governments, while securing to the fullest extent practicable the great advantages of centralised purchase, thereby eliminating competition between the different Government agencies, and of an expert and highly specialised inspecting agency, whose advice and assistance will be of no less value to the private manufacturer than to the Government indenter.

4. The great railways of India, whether Company or Government lines, are large consumers of stores, and have, therefore, found it necessary to create their own agencies for holding stocks, and for effecting local purchases, the latter being often on a very considerable scale. There is, however, at present no agency for ascertaining whether stores bought through the Director General of Stores could have been obtained in India; nor do the railways possess any specialised purchasing or inspecting agency for the different classes of articles which they require; but they are able to rely to some extent on the Superintendent of Local Manufactures and on the Test House at Alipore to check samples of articles locally obtained. The usefulness of the institution has been considerable, though limited in direction; and proposals

are on foot for establishing another test house in Bombay. The Government of India, who have large financial interests in railways, desire to have before them clear information regarding the probable benefits which railways could expect from the assistance and advice of a fully equipped stores agency, and as to the lines on which that assistance could be most advantageously afforded. In this connection it will be desirable for the Committee to frame proposals for the future control, duties and equipment of the existing test house and for the provision of additional test houses if necessary.

5. The method of providing military stores is a matter which will be doubtless considered by the Committee, which has been appointed to report on the administration and organisation of the Army in India. This Committee will derive great assistance from the conclusions of an expert body such as that which is being appointed under this Resolution; and the Government of India consider that the most convenient procedure will be for the Indian Stores Committee to proceed with their enquiries on the assumption that the military authorities will require to be provided with stores purchased in India under much the same conditions as other departments of the Government of India; but to ascertain from time to time the views of the Committee on the Army in India, and have regard in framing their own proposals, so far as appears to them proper and feasible, to the views of that Committee.

6. The Government of India have had under consideration the question of the purchase of food and fodder for the army. It has, however, been decided not to include this question within the scope of the present enquiry.

7. The Government of India have decided to constitute a Committee to enquire into the matters indicated in this Resolution, and to frame a definite and so far as possible a detailed scheme for the purchase and inspection of stores in India. Certain general principles have been, it will be observed, accepted by the Government of India and the Secretary of State. It will not be necessary for the Committee to discuss these further; and they should concentrate their attention on the difficult and complicated task of devising a scheme which will as far as possible meet the needs of the different interests concerned, while keeping fully in view the fundamental principles of efficiency and economy.

8. The Committee will consist of the following gentlemen:—

President :

1. Mr. F. D. Couchman, M.I.C.E., Member, Railway Board.

Members :

2. Mr. G. H. Collier, C.I.E., Director-General of Stores, India Office, London.
 3. Mr. F. Palmer, C.I.E., M.I.C.E., M.A.S.C.E., F.R.G.S., late Chief Engineer, Port of London Authority.
 4. Colonel H. A. K. Jennings, C.I.E., Inspector of Quartermaster General's Services.
 5. Lieutenant-Colonel C. O. H. Hogg, C.M.G., R.E., Superintending Engineer and Secretary to the Hon'ble the Agent to the Governor-General in Rajputana in the Public Works Department.
 6. Mr. H. N. Heseltine, C.I.E., Accountant-General, Railways (*retired*).
 7. Mr. A. W. Dods, of Messrs. Burn & Co., Calcutta.
 8. Rai Bahadur Lala Milki Ram, Chief Store-Keeper, Oudh and Rohilkhand Railway (*retired*).
 9. Mr. Lalji Naranji, of Messrs. Lalji Naranji & Co., Managing Agents, the Jupiter General Insurance Co., Ltd., Bombay.
- Mr. J. C. Highet, Assistant Secretary, Railway Board, has been appointed Secretary to the Committee.

9. The terms of reference are as follows :—

In view of the necessity of encouraging Indian industries, while at the same time securing economy and efficiency in the purchase of Government requirements, the Committee should enquire and report :—

- (a) What measures are required to enable the Departments of the Government of India and of Local Governments to obtain their requirements as far as possible in India, and what central and local agencies for purchase and inspection should be constituted ;
- (b) what should be the relations of such agencies with one another and with the Stores Department of the India Office, or such other purchasing organisation in England as may hereafter take the place of that Department ;
- (c) what modifications of the Stores Rules will the scheme recommended by the Committee necessitate.

ORDERED that a copy of this Resolution be forwarded to all Local Governments and Administrations, with the request that the Committee may be given any assistance which they may require and that any applications for information which may be made by the Committee may be complied with.

Ordered also that a copy of the Resolution be forwarded to all Departments of the Government of India, to the Director-General of Commercial Intelligence, to the President and Members of the Committee, and that the Resolution be published in the Supplement to the *Gazette of India*.

F. R. R. RUDMAN,

Secretary, Indian Munitions Board.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th December 1919, based on the Indian Daily Weather Reports of the period.

1. Widespread rainfall was of daily occurrence in the south of the Peninsula between the 27th November and 1st December. Over the rest of the country weather was dry except for a few falls in Assam and Burma.

2. *Burma*.—A few isolated falls occurred during the week.

Northeast India, including Orissa.—The week was rainless except for a few falls in Assam.

The United Provinces, Central India and the Central Provinces. } There was no rain.
Northwest India.

The Peninsula.—In southeast Madras rainfall was nearly general between the 27th November and 1st December, with a few falls on one other day. In Mysore and Malabar rainfall was nearly general on the 29th November, and occurred at a few stations on two other days. There was local rain in the Madras Deccan on the 28th and 29th November, while on the north Madras coast Nellore was the only station that received rain during the week. In the Konkan, the Bombay Deccan and Hyderabad weather was dry.

3. The chief amounts of rainfall reported were as follows :—

November 27th.	Port Blair 2·00", Sibsagar 1·35" and Negapatam and Madras each 0·54".
„ 28th.	Lashio 0·62", Pamban 4·53", Negapatam 3·01", Cuddalore 1·70", Madras 1·31" and Nellore 3·00".
„ 29th.	Trivandrum 3·88", Madura 1·60", Cuddalore 1·31" and Kodaikanal 2·31".
„ 30th.	Port Blair 1·50", Pamban 1·15", Negapatam 2·77", Trichinopoly 1·50", Cuddalore 4·49" and Madras 1·29".
December 1st.	Tinnevely 1·22" and Negapatam 2·54".
„ 2nd.	Pamban 1·05".

4. The week's rainfall was 20 per cent or more in excess in the Bay Islands, Assam, Malabar, Madras Southeast and the Madras Coast North; and was 20 per cent or more in defect in Lower Burma, Orissa, Kashmir, the North-West Frontier Province, Baluchistan, Central India West and the Central Provinces East. It was equal to the normal in Upper Burma, Mysore and the Madras Deccan. No rain usually falls at this time of year in Bengal, Chota Nagpur, Bihar, the United Provinces, the Punjab, Sind, Rajputana, Gujarat, Central India East, Berar, the Central Provinces West, the Konkan, the Bombay Deccan and Hyderabad.

A new rainfall period begins with this week and the departures from normal of the period are therefore the same as those of the week.

G. C. SIMPSON,

Offg. Director General of Observatories.

Dated the 4th December 1919.

R. A. MANT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 29th November 1919.

Burma.—The week was practically rainless. Reaping of early paddy is progressing in several districts of Lower Burma and in the wet zone of Upper Burma. Gathering of groundnuts and plucking of cotton continue. Sowings of island crops have commenced. The condition of standing crops is generally fair. Cattle are generally healthy. In the Amherst and Thaton districts, the number of persons on relief works was 2,700 and 75, respectively. In Amherst the number of persons receiving gratuitous relief was about 100. Prices of white rice (specials) in Rangoon was normal at Rs. 385. Paddy season is closed.

Assam.—The weather during the week was seasonable and favourable. Plucking of tea and cotton, harvesting of winter rice and sowing of mustard and pulses are in progress. The outturn of cotton and winter rice is fair and prospects of other crops are fair to good. Cattle disease is reported from five districts. The price of common rice continues to fall.

Bengal.—Reaping of winter paddy and sowings of spring crops continue. Vegetables and other standing crops are doing well. The average price of common rice has fallen by 3.36 per cent.

Bihar and Orissa.—During the week light showers of rain fell in parts of Palamau and Sambalpur. There was no rain in the rest of the Province. Sowings of spring crops and harvesting of early winter paddy continues. Standing crops are, on the whole, doing well. More rain is however wanted in parts of Tirhut and Purnea. Gratuitous relief was given to 9,277 persons in Bhagalpur, 728 in the Santal Parganas, 1,900 in Cuttack and 1,831 in Puri. The price of common rice has risen in two districts, fallen in twelve and remained stationary in the remaining districts as compared with that of the preceding week. The average price of local common rice at headquarters was 6.43 seers a rupee against 6.14 of the preceding week and that of maize was 7.57 seers against the same figure of the preceding week. Cattle disease is reported from ten districts. During the week ending the 22nd November 33 persons were given gratuitous relief and 567 attended test works in one of the Feudatory States of Orissa, viz.,—Baramba.

Famine report not received.

United Provinces.—During the week light rain fell in a few districts. Preparation of lands for and sowing of poppy, harvesting of autumn crops, irrigation of spring poppy and sugarcane, pressing of sugarcane and picking of cotton continue. Standing crops are doing well. Prospects are favourable. The condition of agricultural stock is satisfactory. Fodder, water and market supplies are sufficient. Prices are almost stationary.

Punjab.—Except for light showers in parts of two districts the weather remained dry. Rain is urgently wanted everywhere. Standing crops are average to good on irrigated and below average to average on unirrigated areas. Picking of cotton, pressing of sugarcane and harvesting of other autumn crops continue. The yield is generally normal on irrigated and below normal on unirrigated areas. Wheat and other spring crops are being sown. Area sown is below normal to normal. Cattle are generally healthy. Shortage of fodder and canal water is reported in parts of a few districts. Prices are generally stationary and above scarcity rates. Prices of wheat:—Rawalpindi 5½, Ambala 6½, Ferozepore and Lyallpur 6½ and Lahore 6½ seers per rupee.

North-West Frontier Province.—The week was rainless. Rain is much needed. Sowing of spring crops and harvesting of certain autumn crops are in progress. The outturn of cotton is below average in Peshawar. Standing crops are generally average but prospects of crops on unirrigated areas in one district are reported to be poor. Prices of wheat:—Peshawar 7½ and Dera Ismail Khan 6½ seers per rupee.

Jammu.—During the week no rain fell. Prices are stationary. Fodder is sufficient.

Kashmir.—During the week the weather was generally dry and cold. Cattle disease is reported in Gurez. Fodder is sufficient. Prices are fluctuating.

Rajputana.—During the week the weather was cool and clear. Harvesting of cotton and *til* continues. Sowing and watering of spring crops are proceeding. Recent rains have damaged autumn crops in Kotah, Jhalawar and Shahpura. Supply of fodder and water is adequate. The condition of agricultural stock is good. Prices are stationary.

Central India.—The rainfall during the week was partial and insufficient in Gwalior north. Harvesting of autumn crops and sowings of spring crops are in progress. Picking of cotton continues in Gwalior and Indore. Standing crops with their probable outturn are fair to good. Damage is reported in three parganas in Baghelkhand. Agricultural stock is generally good except for cattle disease in parts of Gwalior, Indore and Baghelkhand. Prices are high. Opium is being sown in Gwalior and Indore.

The weekly report on famine in Bundelkhand is as follows:—Distress is slight. All relief works were closed. No wandering or emaciation is reported. Gratuitous relief is adequate. Suspensions of land revenue are being granted. *Takavi* advances are sufficient. The public health is good. Prices range from 6 to 11 seers per rupee. Numbers on relief in thousands:—Works *nil*, gratuitous relief 1·5, total 1·5.

Central Provinces.—During the week the weather has been cool and occasionally cloudy. Seoni received 2½ inches of rain and seven other districts had light showers. Picking of cotton and threshing and winnowing of other autumn crops are in progress. Spring sowings are approaching completion. Germination is satisfactory and prospects are excellent. Recent rain benefited all standing crops except *tur* which was slightly damaged in places. Fodder and water are sufficient. Cattle disease is reported in sporadic form in parts of ten districts. *Juar* fell in Nimar and wheat and rice rose in Drug by one seer per rupee. Other variations in prices are unimportant.

Feudatory States.—Only Korea had 1½ inches of rain. Crops are generally in good condition.

Bombay.—Light rain fell during the week in parts of the Deccan, Karnatak, Kathiawar and the Southern Maratha Country States. Standing crops are generally in good condition except in parts of Kathiawar where they suffered slightly from rain and in parts of Broach where they have been damaged by insects. Harvesting of autumn crops and spring sowings continue in some places. Cotton picking is in progress in Ahmedabad, parts of the Deccan and Kathiawar. Supply of fodder and water is generally adequate. Agricultural stock is generally sufficient. Cattle are in good condition. Prices of food-grains have slightly risen in Larkana and Kaira, fallen in Poona and Belgaum and are generally steady elsewhere.

Hyderabad.—During the week the rainfall was slight in parts of seven districts and *nil* elsewhere. The average fall was 5 cents. Autumn crops and early rice crops are fair to good and are being harvested. Spring crops are fair to good and their sowings continue in some talukas of the Gulbarga, Nizamabad, Mahbubnagar and Karimnagar districts. Sowings of hot weather crops have commenced under irrigation sources. Spring crops in the Pathri taluka of the Parbhani district and early rice in the Amrabad taluka of the Mahbubnagar district have been damaged by insects. Cattle disease is reported from a few talukas of the Mahbubnagar, Nalgonda, Warangal and Adilabad districts. Prices of grains show an upward tendency. *Juar* is selling at 4½ seers per rupee in the Raichur district.

The weekly report on famine for week ending 22nd November is as follows:—Distress has considerably decreased. Relief works continue in a few talukas of the Telingana district. The number of persons on relief is falling in some camps. *Takavi* is being advanced to help the cultivation of spring and hot weather crops. Prices of grains continue to be high. Rice is selling at 3½ seers per rupee. *Juar* is selling at 7½ seers per rupee. Numbers relieved in thousands for week ending the 13th November:—works 7, gratuitous relief 5, total 12.

Mysore.—The rainfall during the week was light. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available. Prices are high but falling. Prospects of season are fair. Harvesting of rice, *ragi*, and sugarcane proceeds with outturn fair to good.

Coorg.—Light rain fell during the week. Picking of coffee has commenced. Cattle are generally healthy. Water and fodder for cattle are available. The public health is fair. Prices of food-grains are high.

Madras.—The rainfall during the week was good in Chingleput, Madras, South Arcot, Chittoore, Tanjore, Ramnad and Tinnevely, fair in Cuddapah, North Arcot, Pudukotai and Travancore and light or *nil* elsewhere. Standing crops are in fair condition generally but they have been damaged in small areas in Kistna, Chittoore and Ramnad owing to recent heavy rain. Cholam in parts of one taluka in Bellary has been affected by grass-hoppers.

The outturn of harvested paddy and dry crops is generally fair. Fresh sowings of paddy and dry crops are progressing. The condition of cattle is generally good. Water is sufficient except in parts of seven districts. Pasture and fodder are sufficient generally. Prices are generally steady. Prospects are fair generally.

*The weekly report on famine in Ganjam is as follows:—*Relief works 5 in Goomsur, 8 in Kallikota and Atagada, 2 in Humma, Biridi and Palur and 1 in Ronabha are in progress. Cloth distribution is being provided by private charity. Prices of rice in Goomsur 4·5, in Kallikota and Atagada 4·5 and in Chatrapur 4·8 seers and of *ragi* in Kallikota and Atagada and Chatrapur 7·6 seers per rupee. Numbers on relief works were 27,319 and on gratuitous relief 54,546, total 81,895.

ECCLESIASTICAL.

Delhi, the 11th December 1919.

No. 604.—The services of the Reverend A. M. Nelson, Senior Chaplain, Church of Scotland, Lahore, are placed at the disposal of the Army Department with effect from the date on which he assumes charge of his duties.

H. SHARP,

Secretary to the Government of India.

GENERAL.

The 11th December 1919.

No. 1102.—The Hon'ble Mr. H. Sharp, C.S.I., C.I.E., Educational Commissioner with the Government of India, who was appointed by this Department Notification No 503, dated the 11th June 1919, to be Secretary to the Government of India in the Department of Education substantively *pro tempore* in addition to his own duties, is now appointed to be Secretary to that Department substantively with effect from the forenoon of the 10th November 1919.

The Hon'ble Mr. Sharp will continue to fill the office of the Educational Commissioner with the Government of India in addition to his duties as Secretary to the Government of India in the Department of Education.

J. M. MITRA,

Assistant Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Delhi, the 8th December 1919.

No. 36.—Mr. A Brebner, Executive Engineer, Bihar and Orissa, is attached to the Public Works Department of the Government of India Secretariat on special duty with effect from the 5th December 1919, and until further orders.

The 9th December 1919.

No. 37.—The services of Major and Brevet Lieutenant-Colonel C. C. H. Hogg, C.M.G., R.E., Superintending Engineer (temporary) and Secretary to the Hon'ble the Agent to the Governor General, Rajputana, in the Public Works Department, are placed at the disposal of the Indian Munitions Board with effect from the date on which he is relieved of his duties as Superintending Engineer and Secretary to the Agent to the Governor General, Rajputana.

The 12th December 1919.

No. 38.—Mr. A. Brebner, Executive Engineer, Bihar and Orissa, at present attached to the Public Works Department of the Government of India Secretariat on special duty is appointed to officiate as Under Secretary to the Government of India in the Public Works Department, with effect from the 10th December 1919 during the absence of Mr. D. G. Harris on privilege leave or until further orders.

No. 39.—Mr. D. G. Harris, Under Secretary to the Government of India in the Public Works Department, is granted privilege leave for a period of six months with effect from the 10th December 1919, and his services are replaced at the disposal of the Government of the United Provinces, Public Works Department, with effect from the 10th June 1920.

S. D'A. CROOKSHANK, Colonel,

Secretary to the Government of India.

FOREIGN AND POLITICAL DEPARTMENT.

NOTIFICATIONS.

Delhi, the 8th December 1919.

No. 4120-Est. A.—Captain A. E. B. Parsons, of the Political Department, is posted as Assistant Commissioner, Tank, with effect from the 4th October 1919.

The 9th December 1919.

No. 4133-Est. A.—Mr. R. R. Maconachie, of the Political Department, is posted as First Assistant to the Hon'ble the Agent to the Governor General in Rajputana and Chief Commissioner of Ajmer-Merwara, with effect from the 28th November 1919.

No. 4135-Est. A.—Mr. C. J. Shaw, Inspector, Baluchistan Police, held additional charge of the current duties of the office of Assistant Political Agent, Sibi, for the period from the 2nd June to the 15th July 1919, inclusive.

No. 4137-Est. A.—Major H. R. Lawrence, of the Political Department, is granted privilege leave for six months, combined with furlough for one year, with effect from the 3rd November 1919, under Articles 233 and 308 (b) of the Civil Service Regulations.

No. 4138-Est. A.—Mr. D. G. Mackenzie, of the Political Department, is posted as First Assistant to the Resident at Hyderabad, with effect from the 3rd November 1919.

The 11th December, 1919.

No. 4169-Est. A.—Lieutenant-Colonel A. D. G. Ramsay, C.I.E., O.B.E., of the Political Department, is granted privilege leave for five months and four days combined with furlough for one year six months and twenty-seven days under Articles 199 (a), 233 and 308 (b) of the Civil Service Regulations, with effect from the 12th November 1919.

No. 4170-Est. A.—Mr. J. G. Acheson, temporarily officiating in the Political Department, is posted as Political Agent in Kalat and Political Agent in charge of the Bolan Pass, with effect from the 12th November 1919, and until further orders.

No. 4185-Est. A.—Major A. J. H. Grey, of the Political Department, is posted temporarily as Assistant to His Britannic Majesty's Consul, and His Britannic Majesty's Vice-Consul, Kerman, with effect from the 10th November 1919.

No. 5046-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all other powers enabling him in that behalf, the Governor General in Council is pleased to order that Rai Bahadur Pandit Nand Lal, I.S.O., Assistant to the Political Agent in Bundelkhand, shall exercise the powers of an Additional Sessions Judge, as described in the Code of Criminal Procedure, 1898 (V of 1898), within the limits of the Bundelkhand Agency, including the railway lands, in all cases in which such powers may lawfully be exercised by the Governor General in Council within such limits. In exercise of these powers he may take cognisance of an offence as a court of original criminal jurisdiction without the accused person being committed to him by a Magistrate and shall, when so taking cognisance of an offence, follow the procedure laid down by the Code of Criminal Procedure, 1898, for the trial of warrant cases by Magistrates.

2. The provisions of this notification shall apply to all criminal proceedings except proceedings against European British subjects or persons jointly charged with European British subjects.

3. Nothing in this notification shall be deemed to extend to the Cantonment and Civil Lines of Nowgong.

No. 5053-I. B.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all other powers enabling him in that behalf, the Governor General in Council is pleased to direct that the following further amendments shall be made in the First Schedule to the notification of the Government of India in the Foreign and Political Department, No. 2221-I. B., dated the 1st October 1917, applying certain enactments to the District of Abu, namely:—

1. Entry No. 33, relating to the Income-tax Act, 1886 (II of 1886), shall be cancelled, and

2. After entry No. 74 the following shall be added, namely:—

75. The Indian Income-tax Act, 1918 (VII of 1918).

Only so much of the Act shall apply as relates to the assessment and collection of income-tax on salaries received by persons who are in the service of, and paid by or on behalf of, Government or a local authority established in the exercise of the powers of the Governor General in Council.

R. E. HOLLAND,

Secretary to the Government of India.

The 11th December 1919.

No. 4176-Est. A.—*Corrigendum.*—In notification No. 3125-Est. A., dated 12th September 1919, reverting Mr. A. G. Phillips to the Government of the United Provinces, for "11th July 1919" read "19th August 1919".

No. 316-A.—Captain O. A. Dnke, 22nd Cavalry (Frontier Force), is placed on special duty under the orders of the Chief Commissioner and Agent to the Governor General in the North-West Frontier Province, with effect from 27th November 1919, and until further orders.

H. R. C. DOBBS,

Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

CIVIL AVIATION.

Delhi, the 13th December 1919.

No. 83-C. A.—THE following draft rules which it is proposed to make in exercise of the power conferred by sections 3 and 6 of the Indian Aircraft Act, 1911 (XVII of 1911), and in supersession of the Indian Airships Rules, 1913, published with the notification of the Government of India in the Home Department, No. 525, dated the 1st May, 1913, are published as required by section 13 of the same Act for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 3rd January 1920. Any objection or suggestion which may be received from any person with respect to the draft before the date specified will be considered by the Governor General in Council.

PART I.

PRELIMINARY.

Short title.

1. These rules may be called the Indian Aircraft Rules, 1919.

Definitions and interpretation.

2. (1) In these rules, unless there is anything repugnant in the subject or context,—

“aerodrome” means any definite ground or water area intended to be used and capable of being used for the landing or departure of aircraft, and includes all buildings, sheds, vessels, piers and other structures thereon or appertaining thereto;

“airship” means an aircraft lighter than air;

“approved aerodrome” means an aerodrome the proprietor of which has received a certificate of approval in respect thereof from an officer authorised by the Governor General in Council in that behalf, but does not include a Government or Royal Air Force aerodrome;

“Chief Customs-authority,” “Chief Customs-officer” and “Customs-collector” mean respectively a person appointed to be a Chief Customs-authority, a Chief Customs-officer and a Customs-collector under rule 53;

“customs-aerodrome” means an aerodrome notified as a customs-aerodrome under rule 53;

“examination station” means a space in a customs-aerodrome set apart under the orders of the Chief Customs-authority for the examination of goods;

“export” means the taking by aircraft out of British India;

“flying machine” means an aeroplane, seaplane, flying boat or other aircraft heavier than air;

“foreign aircraft” means an aircraft which has not been registered in the manner provided by these rules, and is not ordinarily kept, in British India;

“Government aerodrome” means any aerodrome which is maintained by, or on behalf of, Government;

“import” means the bringing by aircraft into British India;

“passenger aircraft” and “goods aircraft” mean aircraft which carry, or are intended to carry, for hire or reward passengers and goods (including mails) respectively;

“personnel” in relation to any aircraft means the commander, pilot, navigator, engineer and all other members of the crew;

the “proprietor” of an aerodrome includes any person responsible for the management thereof;

“visible” as applied to lights means visible on a dark night with a clear atmosphere;

the expression “under way” applies to any aircraft when it is not made fast to the ground or to any object on land or water.

(2) The General Clauses Act, 1897, shall apply for the purpose of the interpretation of these rules in like manner as it applies for the purpose of the interpretation of an Act of the Governor General in Council.

PART II.

GENERAL CONDITIONS OF FLYING.

3. No person shall use, or assist in using, an aircraft save in accordance with the provisions of this Part in so far as they are applicable in the case of each such person, and compliance therewith to such extent shall be deemed to be a condition of every licence granted under these rules.

Prohibitions of use save in accordance with conditions.
Registration and nationality and registration marks.

4. No person shall fly, or assist in flying, any aircraft which—

- (a) has not been registered in the manner provided in Part III, and
- (b) does not bear the nationality and registration marks assigned to it in the certificate of registration granted under that Part, affixed thereon in such manner as is provided in Part VI :

Provided that nothing in this rule shall apply to aircraft flown only for the purpose of experiment or test within three miles of an aerodrome or aircraft factory.

5. The pilot of every aircraft and the entire personnel of every passenger and goods aircraft shall be licensed in the manner provided in Part IV :

Licensing of personnel.

Provided that nothing in this rule shall apply within a distance of one mile from an aerodrome in the case of personnel under instruction, and personnel under instruction beyond that distance may be exempted from the requirements of this rule by or under the orders of an officer authorised by the Governor General in Council by order in writing in that behalf.

6. No person in charge of any aircraft shall allow such aircraft to be flown unless its certificate of registration and the licence of each member of the personnel who is under these rules required to be licensed is carried therein.

Certificates and licences to be carried in aircraft.

7. No person shall carry in any aircraft, and no person in charge of any aircraft shall allow to be carried therein, any explosives, arms or ammunition.

Explosives, etc.

8. No person shall carry in any aircraft, and no person in charge of any aircraft shall allow to be carried therein, any mails or wireless telegraphic apparatus without the consent in writing of the Director General of Posts and Telegraphs.

Mails and wireless apparatus.

9. No pilot or person in charge of any aircraft shall use any place as a regular place of landing or departure other than an approved aerodrome :

Use of aerodrome.

Provided that any aircraft may use any Government or Royal Air Force aerodrome which may be appointed for this purpose by or under the orders of the Governor General in Council or the Air Officer Commanding the Royal Air Force in India, as the case may be, subject to such conditions and directions as may be laid down in the case of each such aerodrome.

10. (1) No pilot shall fly any aircraft, and no person in charge of any aircraft shall allow it to be flown, over any city or town except at such altitude as will enable the aircraft to land outside the city or town in the event of the means of propulsion failing through mechanical breakdown or other cause :

General safety conditions.

Provided that this prohibition shall not apply within a distance of one mile from an approved aerodrome or a Government or Royal Air Force aerodrome.

(2) No person in any aircraft shall—

(a) carry out any trick flying or exhibition flying over any city, town area or village site ; or

(b) carry out any trick flying or exhibition flying over any regatta, race meeting or meeting for public games or sports or other public assembly, except where a request in writing for such flying has been received by such person from the promoters of any such assembly ; or

(c) carry out any flying which, by reason of low altitude or proximity to persons or dwellings, is dangerous to public safety ; or

(d) drop or cause or permit to be dropped from the aircraft any article except—

(i) ballast the dropping of which is not prohibited by the provisions of sub-rule (13) of rule 49,

(ii) mails as may be authorised by the Director General of Posts and Telegraphs, and

(iii) any other article the dropping of which may be permitted by general or special order of the Governor General in Council or an officer authorised by him by order in writing in that behalf :

Provided that separate sheets of paper containing printed matter only may be dropped in any place if the written permission of the District Magistrate or, in a Presidency-town or Rangoon, of the Commissioner of Police be first obtained in each case.

- 11.** Every pilot and navigator shall observe, and every person in charge of an aircraft shall cause to be observed, all the rules of the air as contained in Part VIII.

Rules of the air.

- 12.** (1) No pilot of any passenger aircraft carrying passengers shall fly the same unless it has, in accordance with the provisions of Part V,—

Further conditions for passenger and goods aircraft

- (a) been certified as airworthy,
- (b) undergone a periodical inspection and overhaul, and
- (c) undergone examination on the day of flight,

and unless all the certificates referred to in that Part and relating to such aircraft are carried in the aircraft.

(2) No pilot or person in charge of any passenger aircraft shall use as a regular place of landing or departure any approved aerodrome which has not been appointed for the use of passenger aircraft by an officer authorised by the Governor General in Council by order in writing in that behalf.

(3) No person in charge of any passenger or goods aircraft shall allow the same to be flown unless there are carried in the aircraft log books in accordance with the provisions of Part VII.

- 13.** Every person arriving in, or departing from, British India in an aircraft shall comply with the provisions of Part IX in so far as they may be applicable to him.

Aircraft arriving in or departing from British India.

- 14.** Any Magistrate, any Police-officer above the rank of constable, any Customs-officer, any commissioned officer of His Majesty's naval, military or air forces or of His Majesty's Royal Indian Marine, any non-commissioned officer of the Royal Air Force, or any other officer of Government authorised by the Governor General in Council by general or special order in writing in this behalf may, for the purposes of inspection, demand the production by any member of the personnel of an aircraft of his licence or the production by the owner or person in charge of any aircraft of any certificate or log book relating thereto granted or maintained under these rules, and every such person shall be bound to comply with such demand.

Production of licences, &c.

PART III.

REGISTRATION.

- 15.** A certificate of registration for an aircraft may be granted by the Governor General in Council or an officer authorised by him by order in writing in that behalf, on the application by, or on behalf of, the owner of such aircraft :

Certificates of registration.

Provided that no such certificate shall be granted in respect of any aircraft owned by a person who is not a British subject or a firm or company having its principal place of business in His Majesty's dominions, save under a general or special order of the Governor General in Council.

- 16.** Every such application shall be made in Form A set out in Schedule VI, and shall be accompanied—

Nature of application.

- (a) by a fee of twenty rupees which shall be returned if the application is not granted ;
- (b) by a certificate of the nationality and suitability of the owner in Form B set out in Schedule VI granted and signed by a District Magistrate or, in a Presidency-town or Rangoon, by a Commissioner of Police within sixty days before the date on which the application is made ; and
- (c) in the case of passenger aircraft, by a certificate of airworthiness in respect of the aircraft issued under rule 27 or rule 28.

- 17.** If the application is granted, there shall be delivered to the applicant a certificate of registration in Form C set out in Schedule VI.

Grant of application.

- 18.** Upon any change of ownership of an aircraft registered under these rules, the certificate of registration of such aircraft shall be deemed to be cancelled.

Change of ownership.

PART IV.

LICENSING OF PERSONNEL.

- 19.** The licences referred to in rule 5 may be granted by the Governor General in Council or by an officer authorised by him by order in writing in that behalf :

Grant of licences.

Provided that no such licence shall be granted to any person who is not a British subject save under a general or special order of the Governor General in Council.

- 20.** Application for the grant of such licences shall be made as nearly as may be in Form D set out in Schedule VI, and shall be accompanied—

Mode of application.

- (a) by a fee of five rupees which shall be returned if the application is not granted ;
 - (b) by a certificate of the nationality and suitability of the person applying to be licensed, granted in the manner provided in clause (b) of rule 16 ; and
 - (c) by two unmounted copies of a photograph of the person applying to be licensed.
- 21.** (1) A person applying for a pilot's licence to fly aircraft other than passenger or goods aircraft will be required—

Pilots.

- (a) to produce a medical certificate in Form E set out in Schedule VI granted by an officer of the Royal Army Medical Corps or the Indian Medical Service or a medical officer of the Royal Air Force, stating to what extent the applicant fulfils the requirements of mental and physical fitness specified in Schedule I ;
- (b) unless he is qualified as a Royal Air Force pilot, to produce an "A" certificate of flying competency for pilots of private flying machines in Form F set out in Schedule VI after examination conducted in the manner provided in Schedule II for the case of such applicants ;

and may be required to submit proof of recent reasonable flying experience, or failing such proof, undergo practical tests.

(2) A person applying for a pilot's licence to fly passenger or goods aircraft will be required—

- (a) to produce a medical certificate in Form E set out in Schedule VI granted by a medical officer of the Royal Air Force stating to what extent the applicant fulfils the requirements of mental and physical fitness specified in Schedule I ;
- (b) unless he is qualified as a Royal Air Force pilot, to produce a "B" certificate of flying competency for pilots of passenger and goods aircraft as nearly as may be in Form F set out in Schedule VI after examination conducted in the manner provided in Schedule II for the case of such applicants ;

and may be required to submit proof of recent reasonable flying experience on the class of aircraft for which the licence is required.

- 22.** A person applying for a licence to navigate a passenger or goods aircraft will be required—

Navigators.

- (a) to produce a medical certificate granted in the manner provided in clause (a) of sub-rule (1) of rule 21 ; and
- (b) to produce a certificate of technical competency in Form G set out in Schedule VI after examination conducted in the manner provided in Schedule III for the case of navigators.

- 23.** A person applying for a licence to be engaged as engineer on passenger or goods aircraft will be required—

Engineers.

- (a) to produce a medical certificate granted in the manner provided in clause (a) of sub-rule (1) of rule 21 ;
- (b) to produce a certificate of technical competency in Form G set out in Schedule VI after examination conducted in the manner provided in Schedule III for the case of engineers ;

and may be required to undergo practical and theoretical tests.

- 24.** A person applying for a licence as a member of the personnel of a passenger or goods aircraft in any other capacity than that of a pilot, navigator or engineer will be required to produce

Other personnel.

a certificate in Form H set out in Schedule VI granted by a person approved in that behalf by the officer authorised under rule 19, to the effect that he possesses a good general knowledge of the rules of the air as contained in Part VIII.

- 25.** (1) Every licence under this Part shall be issued in Form I set out in Schedule VI, and shall, save as otherwise hereinafter provided, remain valid for a period of one year from the

Issue, renewal and cancellation of licences.

date of issue.

(2) Any licence issued under this Part may be renewed by the officer authorised under rule 19 to grant the same, for such further period as he may think fit, and such officer may before renewing the licence require the person applying for renewal to undergo practical or theoretical tests.

(3) A fee of five rupees shall be payable in respect of each licence renewed under sub-rule (2).

(4) In the event of any applicant for a licence, or for renewal of a licence, being required to undergo any practical test, a further fee of twenty rupees shall be payable.

(5) It shall be deemed to be a condition of every licence issued under this Part that it is subject to cancellation or suspension at the pleasure of the Governor General in Council or of the officer authorised under rule 19.

26. Any pilot, navigator or engineer to whom a licence has been granted under this Part may be required, from time to time, to undergo further medical examination as may be directed by the officer authorised under rule 19.

PART V.

CERTIFICATES OF AIRWORTHINESS, PERIODICAL OVERHAUL AND EXAMINATION OF PASSENGER AIRCRAFT.

27. (1) In the case of passenger aircraft, a certificate of airworthiness in Form J set out in Schedule VI in respect of one aircraft of any particular type (hereinafter referred to as a "type aircraft") may be issued by the Governor General in Council or an officer authorised by him by order in writing in that behalf in such manner and subject to such conditions as are specified in Schedule IV.

(2) For each such certificate a fee of one hundred rupees shall be payable.

28. (1) After the issue of a certificate of airworthiness to a type aircraft, a certificate of airworthiness in Form J set out in Schedule VI may be issued in respect of any further aircraft of that type by the Governor General in Council or an officer authorised by him by order in writing in that behalf in such manner and subject to such conditions as are specified in Schedule IV.

(2) For each such certificate a fee of twenty rupees shall be payable.

29. (1) Every passenger aircraft and each engine of every such aircraft must be periodically inspected and overhauled by a person approved, or by persons respectively approved, for the purpose of inspection and overhaul of aircraft and engines under this rule by the Governor General in Council or an officer authorised by him by order in writing in that behalf.

(2) If an aircraft or engine is on such inspection and overhaul found to be fit for flight or in good order, as the case may be, the person making the inspection in each case shall grant a certificate in duplicate to that effect in Form K set out in Schedule VI.

(3) No passenger aircraft shall be flown,

(a) which has been flown for two hundred hours without having been certified under this rule during the period covered by such flights as fit for flight, or

(b) of which any engine has been run for one hundred hours, without having been so certified during the period covered by such running as being in order.

30. Any person authorised by the Governor General in Council by general or special order in writing in this behalf may at any time inspect any passenger aircraft, and the certificate of airworthiness of any aircraft deemed as a result of such inspection to be unsafe may be cancelled or suspended by the authority by which such certificate was issued.

31. (1) No passenger aircraft shall on any day proceed on any journey carrying passengers unless it has previously been examined on that day by a person other than the pilot of such aircraft.

(2) Such examination shall be made of both the aircraft and the engine or engines by a person approved, or by persons respectively approved, for the purpose of examination of aircraft and engines under this rule, by such officer as may be authorised by the Governor General in Council by general or special order in writing in that behalf.

(3) If on such examination the aircraft and each engine thereof are found to be in every way fit for the flight or flights proposed, the examiner in each case shall sign a certificate in duplicate to that effect in Form L set out in Schedule VI, which certificates shall state the date on which and the hour at which they were signed and shall be countersigned by a person (who may be the pilot of the aircraft) in the employment of the owner.

32. One copy of each of the certificates prescribed in rules 29 and 31 shall be retained by the owner of the aircraft, and the other shall be carried in the aircraft.

33. The pilot of every passenger aircraft shall, before commencing any flight, satisfy himself that the aircraft does not carry more than the load specified in the certificate of airworthiness, and that the aircraft is fit in every way for the proposed journey, and shall sign a certificate to that effect in Form M set out in Schedule VI, which certificate shall be carried in the aircraft.

Pilot to record certificate of load.

himself that the aircraft does not carry more than the load specified in the certificate of airworthiness,

and that the aircraft is fit in every way for the proposed journey, and shall sign a certificate to that effect in Form M set out in Schedule VI, which certificate shall be carried in the aircraft.

PART VI.

NATIONALITY AND REGISTRATION MARKS.

34. (1) The nationality and registration marks shall be affixed in black on a white ground in the following manner, and underlined with a black line :—

Marks how to be affixed.

(a) In the case of flying machines, the marks shall be painted once on the lower surface of the lower main planes, and once on the upper surface of the top main planes, the top of the letters towards the leading edge. They shall also be painted along each side of the fuselage between the main planes and the tail planes. In cases where the machine is not provided with a fuselage, the marks shall be painted on the nacelle.

(b) In the case of airships, the marks shall be painted near the maximum cross section on both sides and on the upper surface equidistant from the marks on the sides.

(2) The nationality mark in the case of flying machines and airships shall also be painted on the port and starboard sides of the lower surface of the lowest tail planes or elevators and also on the upper surface of the top tail planes or elevators, whichever are the larger. It shall also be painted on both sides of the rudder, or on the outer sides of the outer rudders if more than one rudder is fitted.

(3) (a) In the case of flying machines the height of marks on the main planes and tail planes respectively shall be equal to four-fifths of the chord, and the marks on the rudder shall be as large as possible. The height of the marks on the fuselage or nacelle shall be equal to four-fifths of the depth of the narrowest part of that portion of the fuselage or nacelle on which the marks are painted.

(b) In the case of airships the nationality mark painted on the tail plane shall be equal in height to four-fifths of the chord of the tail plane and on the rudder shall be as large as possible. The height of the other marks shall be equal to at least one-twelfth of the circumference at the maximum transverse cross-section of the airship.

(c) In no case need the numbers or letters of the nationality and registration marks exceed eight feet in height.

(4) (a) The width of the numbers or letters shall be two-thirds of their height, and the thickness shall be one-sixth of their height. The numbers or letters shall be painted in plain block type and shall be uniform in shape and size. A space equal to half the width of the numbers or letters shall be left between each number or letter.

(b) The thickness of the line underlining the marks shall be equal to the thickness of the numbers or letters, and the space between the bottom of the marks and the line shall be equal to the thickness of the line.

(5) Where the nationality and registration marks appear together, a hyphen of a length equal to that of one of the numbers or letters shall be painted between the nationality mark and the registration mark.

(6) The nationality and registration marks shall be displayed to the best possible advantage in view of the constructional features of the aircraft. The marks shall be kept clean and visible.

PART VII.

Log Books.

35. (1) The log books required to be maintained in the case of each passenger or goods aircraft are—

Log books.

(a) a journey log book ;

(b) an aircraft log book ;

(c) an engine log book for each engine ; and

(d) a signal log book.

(2) Each log book shall be a separate book, but all log books shall be kept together in the aircraft in a waterproof bag.

(3) Log books shall be maintained in the manner, and shall contain the particulars, required in the case of each by the provisions of Schedule V, and aircraft log books and engine log books shall be maintained in Forms N and O, respectively, set out in Schedule VI.

PART VIII.

RULES OF THE AIR.

Lights and Signals.

36. The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited. The said lights shall not be dazzling.

37. (1) A flying machine when in the air or manœuvring on land or water under its own power shall carry the following lights, namely :—

- (a) forward, a white light, visible in a dihedral angle of two hundred and twenty degrees bisected by a vertical plane through the line of flight, and of such a character as to be visible at a distance of at least five miles ;
- (b) on the starboard side, a green light, so constructed and fixed as to show an unbroken light between two vertical planes, whose dihedral angle is one hundred and ten degrees when measured to the right from dead ahead, and of such a character as to be visible at a distance of at least three miles ;
- (c) on the port side, a red light, so constructed and fixed as to show an unbroken light between two vertical planes whose dihedral angle is one hundred and ten degrees when measured to the left from dead ahead, and of such a character as to be visible at a distance of at least three miles ; and
- (d) at the rear, and as far aft as possible, a white light shining rearwards, and visible in a dihedral angle of one hundred and forty degrees bisected by a vertical plane through the line of flight.

(2) The green and red sidelights shall be fitted so that the green light shall not be seen from the port side, nor the red light from the starboard side.

(3) Where, in order to fulfil the conditions of visibility laid down in clauses (a) to (d) of sub-rule (1), a single light has to be replaced by several lights, the field of visibility of each of these lights should be so limited that in no case can more than one be seen at a time.

Explanation.—The angular limits referred to in this rule shall be determined when the aircraft is in its normal position for flying on a rectilinear horizontal course.

38. (1) The foregoing rules as to the lighting of flying machines shall apply to airships, subject to the following modifications, namely :—

Airships.

- (a) All lights shall be doubled, the forward and aft lights vertically, and the side lights horizontally ;
- (b) Both lights of each pair forward and aft shall be visible at the same time ;
- (c) The distance between lights comprising a pair shall not be less than six feet.

(2) An airship when being towed shall carry the lights required by sub-rule (1), and in addition those specified in rule 40 for airships not under control.

39. A flying machine, when on the surface of the water and when not under control, that is to say, not able to manœuvre as required by the regulations for preventing collisions at sea, shall carry two red lights not less than six feet apart in a vertical line one over the other, and of such a character as to be visible all round the horizon at a distance of at least two miles. In addition, the side lights must be shown if the flying machine is under way.

40. (1) An airship, which from any cause is not under control, or which has voluntarily stopped its engines, shall, in addition to the other prescribed lights, display conspicuously two

red lights, one over the other approximately in a vertical line, not less than six feet apart and constructed to show a light in all directions and of such a character as to be visible at a distance of at least two miles.

(2) By day an airship, when being towed, or which from any cause is not under control, shall display conspicuously two black balls or shapes, each two feet in diameter, placed one over the other and approximately in a vertical line.

(3) By day an airship moored or under way, but having voluntarily stopped its engines shall display conspicuously a black ball or shape two feet in diameter, and shall be treated by other aircraft as being not under control.

41. (1) An airship, when moored near the ground, shall carry the lights required by sub-rule (1) of rule 38.

Moored airship.

(2) In addition, if moored but not near the ground, the airship shall carry below the car at a distance of not less than twenty feet, three lights in a vertical line one over the other not less than six feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible in all directions at a distance of at least two miles.

(3) In addition, the mooring cable shall have attached to it at intervals of one thousand feet, measured from the airship, groups of three lights similar to those mentioned in the preceding paragraph. In addition, the object to which the airship is moored on the ground shall have a similar group of lights to mark its position.

(4) By day the mooring cable shall carry in the same positions as the groups of lights specified in the preceding paragraph, and in lieu thereof, tubular streamers, not less than eight inches in diameter and six feet in length, marked with alternate bands of white and red eighteen inches in width.

42. A flying machine stationary on land or water, but not moored or anchored, shall carry lights as prescribed in rule 37.
Stationary flying machine.

43. In order to prevent collisions with surface craft, the following provisions shall have effect, namely :—
Prevention of collisions.

(a) A flying machine when at anchor or moored on the water shall carry forward where it can best be seen a white light so constructed as to show an unbroken light visible all round the horizon at a distance of at least one mile.

(b) A flying machine of one hundred and fifty feet or upwards in length, when at anchor or moored on the water, shall in the forward part carry one such light, and at or near the stern, and, at such a height that it shall be not less than fifteen feet lower than the forward light, another such light.

Explanation.—The length of a flying machine shall be deemed to be the overall length.

(c) A flying machine of one hundred and fifty feet or upwards in span, when at anchor or moored in the water, shall carry in addition at each lower wing tip one such light as is specified in clause (a).

Explanation.—The span of a flying machine shall be deemed to be the maximum lateral dimension.

44. In the event of the failure of any of the lights prescribed in this Part, the aircraft shall land at the first reasonably safe opportunity.
Failure of lights.

45. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any State with respect to the additional station and signal lights for two or more aircraft or for aircraft in formation, or with the exhibition of recognition signals adopted by owners of aircraft which have been authorised by their respective Governments and duly registered and published.
Savings.

46. (1) Aircraft proposing to land at night on aerodromes having a ground control shall before landing fire a green Very's light or flash a green lamp, and in addition shall make by international Morse code the letter group forming its call sign.
Landing at night.

(2) Permission to land will be given by the repetition of the same call sign from the ground followed by a green Very's light or the flashing of a green lamp.

(3) The firing of a red Very's light or the display of a red flare from the ground shall be taken as an instruction that aircraft are not to land.

(4) An aircraft compelled to land at night shall, before landing, fire a red Very's light, or make a series of short flashes with the navigation lights.

47. When an aircraft is in distress and requires assistance, the following signals shall be used or displayed, either together or separately, namely :—
Aircraft in distress.

(1) the international signal, S.O.S., by means of visual or wireless signals ;

(2) the international code flag signal of distress, indicated by NC ;

(3) the distant signal consisting of a square flag, having either above or below it a ball or anything resembling a ball ;

(4) a continuous sounding with any sound apparatus ;

(5) a signal consisting of a succession of white Very's lights, fired at short intervals.

48. In fog, mist, falling snow, or heavy rainstorm, whether by day or night, an aircraft on the water shall make the following sound signals with any sound apparatus, namely :—
Sound signals.

(a) if not anchored or moored, a sound at intervals of not more than two minutes, consisting of two blasts of about five seconds' duration, with an interval of about one second between them ;

(b) if at anchor or moored, a sound at intervals of not more than one minute, consisting of one blast of about five seconds' duration.

Air traffic.

- 49. (1)** Flying machines shall always give way to airships, and flying machine and airships shall always give way to balloons, whether fixed or free.

General rules.

(2) A motor-driven aircraft must always manœuvre according to these rules as soon as it is apparent that, if it pursued its course, it would pass at a distance of less than two hundred yards from any part of another aircraft.

(3) When two motor-driven aircraft are meeting end on, or nearly end on, each shall alter its course to starboard.

(4) When two motor-driven aircraft are on courses which cross, the aircraft which has the other on its own starboard side shall keep out of the way of the other.

(5) An aircraft overtaking any other shall keep out of the way of the overtaken aircraft by altering its own course to starboard, and shall not pass by diving.

(6) Every aircraft coming up with another aircraft from any direction more than one hundred and ten degrees from ahead, that is to say, in such a position with reference to the aircraft which it is overtaking that at night it would be unable to see either of that aircraft's sidelights, shall be deemed to be an overtaking aircraft; and no subsequent alteration of the bearing between the two aircraft shall make the overtaking aircraft a crossing aircraft within the meaning of this rule, or relieve it of the duty of keeping clear of the overtaken aircraft until it is finally past and clear.

Explanation.—As by day the overtaking aircraft cannot always know with certainty whether it is forward of or abaft this direction from the other aircraft, it should, if in doubt, assume that it is an overtaking aircraft and keep out of the way.

(7) Where under this rule one of two aircraft is to keep out of the way, the other shall keep its course and speed. When in consequence of thick weather or other causes, such other aircraft finds itself so close that collision cannot be avoided by the action alone of the aircraft giving way, it shall take such action as will best serve to avert collision.

(8) Every aircraft which is required by these rules to keep out of the way of another aircraft shall, if the circumstances of the case admit, avoid crossing ahead of the other.

(9) In following an officially recognised aerial route, every aircraft, when it is safe and practicable, shall keep to the right side of such route.

(10) Aircraft on land or water about to ascend shall not attempt to take off until there is no risk of collision with alighting aircraft.

(11) Every aircraft in a cloud, fog, mist or other conditions of bad visibility, shall proceed with caution, careful regard being had to the existing circumstances and conditions.

(12) In obeying and construing the provisions of this rule, due regard shall be had to all dangers of navigation and collision and to any special circumstances which may render necessary a departure from the said provisions in order to avoid immediate danger.

(13) The dropping of ballast other than fine sand or water from aircraft in the air is prohibited.

- 50. (1) (a)** At every approved aerodrome a flag hoisted in a prominent position shall be taken

Rules to be observed in the vicinity of approved aerodromes.

as an indication that, if an aircraft about to land finds it necessary to make a circuit or partial circuit, such circuit shall be left-handed (anti-clockwise)

or right-handed (clockwise) according to the colour of the flag. A blue flag shall indicate a right-handed circuit, that is to say, that the flag is kept to the starboard side or side which carries the green light of the aircraft, and a red flag shall indicate a left-handed circuit, that is to say, that the red flag is kept to the port side or side which carries the red light of the aircraft.

(b) Similarly, aircraft leaving an approved aerodrome shall conform to the circuit as indicated by the flag.

(2) When an aircraft starts from an approved aerodrome, it shall not turn until five hundred yards distant from the nearest point of the aerodrome, and the turning then made shall conform with the circuit indication.

(3) An aircraft flying between five hundred and one thousand yards distance from the nearest point of an approved aerodrome shall conform to the circuit indication, unless such aircraft is flying at a greater height than six thousand five hundred feet.

(4) Side slip and trick landings are prohibited at approved aerodromes, and trick flying is prohibited within a distance in any direction of at least two thousand yards from the nearest point of any such aerodrome.

(5) An aircraft, when taking off from or alighting on an approved aerodrome, shall do so up-wind, except when the natural conditions of the aerodrome do not permit.

(6) In the case of two or more aircraft approaching an approved aerodrome for the purpose of landing, the aircraft flying at the greater height shall be responsible for avoiding the aircraft at the lower height, and shall, as regards landing, comply with the provisions of sub-rule (5) of rule 49.

(7) Aircraft showing signals of distress shall be given free way in attempting to make a landing on an approved aerodrome.

(8) Every approved aerodrome shall be considered to consist of three zones when looking up-wind. The right-hand zone shall be the taking-off zone, and the left hand shall be the landing zone. Between these two there shall be a neutral zone. An aircraft when landing should attempt to land as near as possible to the neutral zone, but on the left of any aircraft which have already landed. After slowing up or coming to a stop at the end of its landing run, an aircraft will immediately move into the neutral zone. Similarly, an aircraft when taking-off shall keep as far as possible towards the right of the taking-off zone, but shall keep clear to the left of any aircraft which are taking off or are about to take-off.

(9) No aircraft shall commence to take off until a preceding aircraft is clear of the aerodrome.

(10) The above rules shall apply equally to night landings on approved aerodromes, when the signals, if exhibited, shall be as follows, namely :—

(a) A red light shall indicate a left-handed circuit, and a green light shall indicate a right-handed circuit. The right-hand zone will be marked by white lights placed in the position of an " L, " and the left-hand zone will be similarly marked. The " L's " shall be back to back, that is to say, the long arms of the " L's " will indicate the borders of the neutral zone. The direction of landing shall invariably be along the long arm of the " L " and towards the short arm. The lights of the " L's " should be so placed that the lights indicating the top extremity of the long arm shall be the nearest point on the aerodrome upon which an aeroplane can safely touch ground. The lights indicating the short arm of the " L " should indicate the limit of safe landing ground for the aircraft, that is, that the aeroplane should not over-run the short arm.

(b) Where it is desired to save lights and personnel, the following system may be used :—

Two lights shall be placed on the windward side of the aerodrome to mark the limits of the neutral zone, the line joining the lights being at right angles to the direction of the wind; two more lights shall be placed as follows, namely, one on the leeward side of the aerodrome on a line drawn parallel to the direction of the wind and passing midway between the two lights on the windward side, for showing the extent of the aerodrome and the direction of the wind; and the other midway between the two lights marking the limits of the neutral zone.

Additional lights may be symmetrically placed along the boundary lines of the neutral zone and on the ends of the taking off and landing zones, on the line through the three lights on the windward side.

(11) No airship shall, in the vicinity of any aerodrome, be moored otherwise than near the ground without the special authorisation of the proprietor of such aerodrome.

51. Every aircraft manœuvring under its own power on the water shall conform to any regulation for the time being in force for preventing collisions at sea, and for the purposes of such regulations shall be deemed to be a steam-vessel, but shall carry lights as laid down in this Part, and not those specified for steam-vessels in those regulations. The sound signals specified in those regulations shall not be used by or apply to such aircraft, save as provided in rules 47 and 48.

52. Mere compliance with the provisions of this Part shall not be deemed to exonerate the owner or personnel of any aircraft from the consequences of neglect of any precaution which may be required by the ordinary practice of the air or by the special circumstances of any particular case.

PART IX.

RULES AS TO AIRCRAFT ARRIVING IN OR DEPARTING FROM BRITISH INDIA.

53. The Governor General in Council may for the purposes of this Part—

Customs-aerodromes and Customs-officers.

(a) by notification in the Gazette of India declare any aerodrome to be a customs-aerodrome; and

(b) appoint persons to be Chief Customs-authorities, Chief Customs-officers and Customs-collectors, and define the areas within which each such person shall exercise the powers and perform the duties conferred and imposed upon him hereunder.

54. (1) Every person in charge of an aircraft entering British India shall cause it to be landed in British India, and the first such landing shall be made at a customs-aerodrome unless the

Arrival and departure.

aircraft is compelled to land before arriving at a customs-aerodrome by accident, stress of weather or other unavoidable cause.

(2) No person in charge of an aircraft shall fly the same or allow it to be flown to a place outside British India save from a customs-aerodrome unless compelled to land after departure from a customs-aerodrome by accident, stress of weather or other unavoidable cause.

55. (1) No person in any aircraft entering or departing from British India shall carry or allow to be carried in the aircraft any goods of Import and export of goods. which the import or export by sea or by land is prohibited by or under any law for the time being in force.

(2) No person in any aircraft entering British India shall break or alter any seal placed upon any part of the aircraft or upon any goods therein by an officer of customs at the aerodrome at which such aircraft departed for British India.

56. (1) The person in charge of any aircraft arriving at a customs-aerodrome from a place outside British India shall, on landing, forthwith cause the aircraft to be taken to the examination station at that aerodrome or, if, owing to circumstances over which he has no control, he is unable so to do, shall make the report required by sub-rule (2), and thereafter remove all goods carried in the aircraft to the examination station in the presence of a Customs-collector or some person duly authorised by the Customs-collector in that behalf.

(2) Within twenty-four hours after the landing at any customs-aerodrome of an aircraft from a place outside British India, the person in charge thereof shall—

(a) make a report to the Customs-collector in such form as may be approved by the Chief Customs-authority ;

(b) deliver to the Customs-collector with such report his log book and a manifest, list of passengers and their baggage and declaration of the goods and stores on board the aircraft signed by the proper officer of customs at the aerodrome from which he departed for British India ; and

(c) land at such aerodrome for examination all passengers and their baggage carried in such aircraft, and, after making such report, produce, and, if required to do so, land all goods in such aircraft for examination.

57. (1) The person in charge of every aircraft in which goods are to be exported shall, before any goods are taken on board, deliver to the Customs-collector at the customs-aerodrome of departure a notice of departure for a foreign destination in Form P set out in Schedule VI, containing the particulars specified in that Form.

(2) Every person in charge of an aircraft exporting goods to any place outside British India shall deliver to the Customs-collector at the customs-aerodrome of departure, together with any log books belonging to the aircraft and a list of passengers and their baggage an application in duplicate for clearance from that aerodrome in such form as may be approved by the Chief Customs-authority, and also, if the aircraft carries any goods, a manifest and declaration in a form approved in like manner declaring the goods and stores on such aircraft, and shall truly state therein the particulars required by such forms ; and such forms, when signed by such Collector, shall be the clearance and authority for the aircraft to proceed to its foreign destination.

58. (1) No person importing goods shall land the goods at any place in British India other than a customs-aerodrome, or shall, save as provided in sub-rule (1) of rule 56, unload the goods from any aircraft except at an examination station, or shall unload the goods except between such hours as the Chief Customs-authority by general or special order directs, or shall remove the goods from an examination station unless the same have first been duly entered in the manner provided in this rule and produced to the Customs-collector and duly passed by him.

(2) No person shall remove from any aircraft any goods imported therein until the report required by clause (a) of sub-rule (2) of rule 56 has been made, and the authority of the Customs-collector has been obtained.

(3) Any person importing goods shall deliver to the Customs-collector at the customs-aerodrome of importation a bill of entry of such goods in the manner provided in section 29 of the Sea Customs Act, 1878, and shall truly furnish therein the several particulars required in a bill of entry under that section, and shall pay to such Collector duties thereon as if such goods were chargeable to duties under that Act. VII

(4) All goods imported into a customs-aerodrome shall be duly entered and unloaded within seven days from the time of the arrival of such aircraft at that aerodrome or within such further period as the Customs-collector or Chief Customs-officer may allow.

(5) All goods imported which have not been examined and passed by the Customs-collector shall be stored in a transit shed at the customs-aerodrome, and no person shall remove such goods from the transit shed before they have been examined and passed by such Collector.

59. (1) The exporter of any goods shall deliver to the Customs-collector at the customs-aerodrome of departure a shipping bill in the manner provided in section 29 of the Sea Customs Act, 1878, and shall truly furnish therein the several particulars required in a shipping bill under that section, and shall pay to such Collector duties thereon as if such goods were charge- VII

able to duties under that Act, and such bill when signed by the Customs-collector shall be the clearance and authority for the exportation of such goods.

(2) No person shall without the consent of the Customs-collector unload from any aircraft any goods loaded thereon for export which have been cleared under sub-rule (1), or open, alter, or break any lock, mark or seal placed by any Customs-collector on any goods in any aircraft about to depart from British India.

60. No person shall for the purpose of evading, or assisting the evasion of, the provisions Prohibition of signals in certain cases. of this Part make any signal from an aircraft entering or leaving British India.

61. If any aircraft arriving from a place outside British India shall be forced to land in any place other than a customs-aerodrome, or if any aircraft is so forced after departure from a customs-aerodrome for a foreign destination, the person in charge of the aircraft shall, if the place of landing is not an aerodrome, forthwith report to a Customs-collector or Police-officer, and shall on demand produce to such Collector or officer the log books belonging to the aircraft, and shall not allow any goods to be unloaded therefrom without the consent of such Customs-collector, and no passenger or member of the personnel thereof shall leave the immediate vicinity without the consent of such Collector or Police-officer. When the locality is one in which no Customs-collector or Police-officer is available, the person in charge shall not allow any goods to be unloaded without his consent, and no passenger or member of the personnel shall leave the immediate vicinity without his consent. The person in charge shall make in his log book a full statement of the action taken, and shall forthwith report the occurrence to the Customs-collector at the nearest customs aerodrome. If the place of landing is an aerodrome, such person shall forthwith report the arrival of the aircraft and the place whence it came to the proprietor of the aerodrome, and the proprietor of the aerodrome shall forthwith report the arrival of the aircraft to a Customs-collector, and shall not allow any goods to be unloaded therefrom, or any passenger thereof to leave the aerodrome, without the consent of such Collector.

62. (1) The person in charge of any aircraft shall permit any Customs-collector at any Examination. time to board and examine the aircraft and any goods laden thereon.

(2) The importer or exporter of any goods shall produce such goods to the Customs-collector at the customs-aerodrome of importation or exportation, as the case may be, and permit him to examine such goods.

63. All persons importing or exporting or concerned in importing or exporting Provisions of Act VIII of 1878 to be deemed goods or passengers into or from British India, to apply to import and export. and all persons in charge of aircraft arriving in or departing from British India, shall so far as may be observe, comply with and be bound by 78. the provisions of the Sea Customs Act, 1878, as if any references in such provisions to ships or vessels and the masters or captains thereof, and to the loading or unloading of goods thereon or therefrom, included references to aircraft and the persons in charge thereof, and to the loading or unloading of goods thereon or therefrom, and as if references in such provisions to a port or quay included references to a customs-aerodrome or an examination station.

64. Nothing in this Part, save the provisions of rule 55, shall apply in the case of aircraft—
Exemption of aircraft proceeding to or from aircraft—
Indian States.

(a) entering British India from a State in India and not bound for a place outside India, or

(b) departing from British India for a State in India.

PART X.

GENERAL.

Inspection.

65. Any officer of Government authorised by the Governor General in Council by general or special order in writing in this behalf may—
Inspection.

(a) at all reasonable times enter any place to which access is necessary for the purpose of exercising his powers or carrying out his duties under these rules ;

(b) at all times during working hours enter that portion of any factory in which aircraft or parts of aircraft are being manufactured or assembled and inspect and examine any such factory, aircraft or parts and any drawings relating to such parts ;

(c) enter, inspect and search any aircraft which he has reason to believe contains explosives, arms, ammunition, wireless telegraphic apparatus or goods which are being or have been imported or are being exported ;

(d) enter and inspect any place where aircraft are kept.

Foreign Aircraft.

Exemption of foreign aircraft.

66. The provisions of these rules as to—

- (a) registration of aircraft,
- (b) licensing of personnel,
- (c) airworthiness, and
- (d) log books,

shall not apply in the case of any foreign aircraft during one month from the date of its arrival in British India :

Provided that—

(i) no person shall fly or land, or assist in flying or landing, any foreign naval, military or air-force aircraft over or in British India except on or with the invitation or permission in writing of the Governor General in Council, and in the case of any such aircraft landing on such invitation or with such permission the exemption provided by this rule shall apply only to such extent and on such conditions as may be specified in the invitation or permission ; and

(ii) where any foreign aircraft, after first landing in British India, is flown over any part thereof except in such manner as may be necessary in order to proceed to a foreign destination, all the provisions of these rules shall apply in the case of such aircraft, unless there are carried in the aircraft and produced for inspection, as and when required by any officer specified in, or authorised under, rule 14, certificates and licences issued, and log books in the form approved, by a responsible authority in the country to which the aircraft belongs, complying substantially with the requirements of these rules.

Exemptions.

67. The Governor General in Council may by general or special order in writing exempt any aircraft or class of aircraft or any person or class of persons from the operation of these rules either wholly or partially, subject to such conditions, if any, as may be specified in such order.

Penalty.

68. Any person contravening any of the rules contained in Part II or any other of these rules with which by any rule contained in Part II he is required to comply, shall, where no punishment is provided for such contravention in the Indian Aircraft Act, 1911, be punishable with imprisonment which may extend to one month, or with fine which may extend to two hundred rupees, or with both.

SCHEDULE 1.

(See rules 21, 22 and 23.)

QUALIFICATIONS FOR GRANT OF MEDICAL CERTIFICATE.

- (a) Good personal and family history, with particular reference to nervous stability. Absence of any mental, moral or physical defect which will interfere with flying efficiency.
- (b) The minimum age for pilots and navigators of passenger or goods aircraft shall be nineteen years.
- (c) The applicant must neither suffer from any wound, injury or operation, nor possess any abnormality, congenital or otherwise, which will interfere with the efficient and safe handling of aircraft.
- (d) The applicant must not suffer from any disease or disability which renders him liable suddenly to become incompetent in the management of aircraft. His heart, lungs, kidneys and nervous system must be capable of withstanding the effects of altitude and of prolonged flight.
- (e) The applicant must possess a degree of visual acuity compatible with the efficient performance of his duties. No pilot or navigator shall have more than two dioptries of latent hypermetropia ; muscle balance must be good and commensurate with the refraction. He must have a good field of vision in each eye, and must possess normal colour perception.
- (f) The middle ear must be healthy. The applicant must possess a degree of auditory acuity compatible with the efficient performance of his duties.
- (g) The vestibular mechanism must be intact, and neither unduly hypersensitive nor hyposensitive.
- (h) The applicant must possess free nasal air entry on either side, and not suffer from serious acute or chronic affections of the upper respiratory tract.

SCHEDULE II.

(See rule 21.)

NATURE OF EXAMINATION TO BE UNDERGONE FOR THE GRANT TO AN APPLICANT FOR A PILOT'S LICENCE OF A CERTIFICATE OF FLYING COMPETENCY.

I.—*For Flying Machine Licence.*

Certificates are of two kinds —

"A" of flying competency for pilots of private flying machines (not valid for the flying of passenger or goods aircraft);

"B" of flying competency for pilots of passenger or goods flying machines.

Certificates may be granted in each case by two examiners approved in that behalf by the officer authorised under rule 19.

PRACTICAL TESTS.

The practical tests for certificates of flying competency shall be carried out within a period of one month.

They may be carried out in any order and each may be attempted twice.

They shall, save as otherwise provided, be witnessed by both examiners who will forward their official reports to the officer authorised under rule 19.

In each practical test the candidate must be alone in the flying machine.

"A" certificate of flying competency for pilots of private flying machines.

(a) *Test for altitude and gliding flight.*—A flight without landing, during which the pilot shall remain for at least an hour at a minimum altitude of 6,000 feet above the point of departure. The descent shall finish with a glide, the engines being cut off at 4,500 feet above the landing ground. The landing shall be made without the engine being started again, within 150 yards of a point fixed beforehand by the examiners.

(b) *Test of skill.*—A flight without landing round two posts (or buoys) situated 500 yards apart, making a series of five figure-of-eight turns, each turn reaching one of the two posts (or buoys). This flight shall be made at an altitude of not more than 600 feet above the ground (or water) without touching the ground (or water). The landing shall be effected by —

(i) finally shutting off the engine or engines at latest when the aircraft touches the ground (or water), and

(ii) finally stopping the flying machine within a distance of 50 yards from a point fixed by the candidate before starting.

(c) *Cross-country flight.*—A cross-country or oversea flight of at least 50 miles, the final landing being made at the point of departure.

"B" certificate of flying competency for pilots of passenger or goods flying machines.

The practical tests shall be as in clauses (a) and (b) above. Candidates already in possession of the "A" certificate are not required to pass these tests again.

Further practical tests shall be as follows:—

2

Test of endurance.—A cross-country or oversea flight of at least 200 miles, the final landing being made at the point of departure.

This flight shall be carried out in the same aircraft within eight hours, and include two obligatory landings during which the machine must come to rest at a point or points which shall not be the point of departure but which shall be fixed by the examiners.

At the time of departure the candidate shall be informed of his course and furnished with a map. The examiners will decide if the course has been correctly followed.

Night flight.—A thirty minutes' flight at an altitude of at least 1,500 feet and also a landing to be made between two hours after sunset and two hours before sunrise.

Recent flying experience test.—This is to be carried out on the type of machine for which the licence is required. It is to be a flying test of at least two hours with four landings in each of which no part of the machine is damaged.

This test need not be carried out in the presence of the examiners; but the candidate must submit proof to their satisfaction that he has performed this test.

TECHNICAL EXAMINATION.

The technical examination for both "A" and "B" certificates shall be in the following subjects:—

Rules of the air as contained in Part VIII.

Theoretical abstract knowledge of the resistance of the air in connection with planes, rudders, elevators and propellers; functions of the different parts of the machine and of their controls.

-Assembling of aeroplanes, propellers, undercarriages, rudders, elevators and their controls.

Practical tests on rigging.

General knowledge of internal combustion engines, and their various functions; valve gear, carburation, ignition, exhaust.

Characteristics of aero-engines and a general idea of their construction, adjustment and assembling.

Causes of the faulty running of engines. Fuel and oils. Description of the details of the aero-engines used. Adjustments, lubrication, upkeep, disassembling and assembling of the principal parts. Causes of breakdown. Use of throttle and other controls.

Practical tests in running repairs.

II. *For Airship Licence.*

The examination for certificates of flying competency for pilots of airships shall be conducted in a similar manner to those for the flying machine licence with such modifications as may be permitted by the examiners under the directions of the officer authorised under rule 19.

The Technical Examination shall also include knowledge of the properties of gases and the theory of Ballooning.

SCHEDULE III.

(See rules 22 and 23.)

NATURE OF EXAMINATION TO BE UNDERGONE FOR GRANT TO AN APPLICANT FOR A NAVIGATOR'S OR ENGINEER'S LICENCE OF A CERTIFICATE OF TECHNICAL COMPETENCY.

Certificates may be granted in each case by an examiner approved in this behalf by the officer authorised under rule 19. The examination shall be in the following subjects :—

For Navigators.

Rules of the air as contained in Part VIII.

Map and chart reading and location of position.

Compass—magnetic meridian—declination, deviation, variation.

Courses—bearings—and their corrections.

Compensation of compasses (theoretical and practical).

Calculations of azimuth.

Flight by dead reckoning—measure of the relative speed—drift, traverse table.

Chronometer—chronometer rate—comparisons.

Sextants—adjustments.

Nautical almanac.

Determination of positions by means of bearings and altitudes of stars.

Great circle navigation.

Aeronautical navigational instruments.

Meteorology and weather charts.

International rules for aerial and maritime navigation and other international aerial legislation.

For Engineers.

Rules of the air as contained in Part VIII.

General knowledge of internal combustion engines, and their various functions; valve gear, carburation, ignition, exhaust.

Characteristics of aero-engines and a general idea of their construction, adjustment and assembling.

Causes of the faulty running of engines. Fuel and oils. Description of the details of the aero-engines used. Adjustments, lubrication, upkeep, disassembling and assembling of the principal parts. Causes of breakdown. Use of throttle and other controls.

Practical tests in running repairs.

SCHEDULE IV.

(See rules 27 and 28.)

CONDITIONS SUBJECT TO WHICH CERTIFICATES OF AIRWORTHINESS MAY BE ISSUED IN RESPECT OF TYPE AIRCRAFT AND TO SUBSEQUENT AIRCRAFT OF THE SAME TYPE.

Type aircraft.

(1) The applicant shall forward with his application a copy of any certificate of airworthiness which may have been granted in respect of such type aircraft.

The applicant shall also send general arrangement drawings of the proposed aircraft, together with such particulars of load, fuel, engines, etc., as will enable a preliminary opinion to be formed as to general safety.

(2) The applicant shall forward either with the application or subsequently such drawings and particulars of the proposed aircraft as may be necessary for the checking in detail of the safety of the aircraft. (Blue prints or rough sketches may be sufficient to enable the said checking to proceed provided they are fully dimensioned.)

(3) The applicant may proceed with the construction of any part or parts of the aircraft as and when these are approved by the officer authorised under sub-rule (1) of rule 27 (in this Schedule referred to as the Officer).

(4) The workmanship and materials of construction of the aircraft shall be approved by the Officer in accordance with detailed directions in clause (17) of this Schedule.

(5) On completion of the aircraft, flying trials shall be carried out by the applicant's or constructor's pilot in the presence of the Officer or of persons nominated by him (in this Schedule referred to as the representatives of the Officer).

(6) After the satisfactory completion of the check calculations, inspection, and applicant's flying trials, and after any modifications considered necessary for safety have been completed to the satisfaction of the Officer, the applicant may be instructed to deliver the aircraft for official trials to such aerodrome as the Officer may specify (in this Schedule referred to as the official aerodrome).

(7) At any time prior to the delivery of the aircraft for official trials, modifications to the aircraft may be made by the applicant, provided that full particulars and drawings of the proposed modifications are first submitted to the Officer and that such as affect the safety of the aircraft are approved by him.

(8) During official trials, which may be attended by such number of representatives of the applicant as the Officer may approve, the aircraft will be in the charge of the representatives of the Officer, but the Officer and his representatives shall not be liable for any loss or damage caused to such aircraft during official trials.

(9) If any modifications are considered by the Officer to be necessary for safety as a result of such official trials, such modifications shall be carried out by the applicant, and on completion thereof the aircraft shall be delivered, if required, for further official trials.

(10) On the completion of official trials, the applicant will be notified, and reports on calculations and tests will be supplied to him by the Officer on application. The aircraft will, as the Officer may direct, either be handed over to the applicant at the official aerodrome for removal, or be delivered by an official pilot to an aerodrome selected by the applicant and approved by the Officer.

(11) On the satisfactory completion of the official trials, and after the completion to the satisfaction of the Officer of any modifications considered necessary for safety, a certificate of airworthiness will be issued. Prior to the issue of such certificate the applicant shall deliver to the Officer a complete set of working drawings (process tracing) of the aircraft.

Subsequent Aircraft.

(12) Following the receipt by the Officer of an application form duly completed, certificates of airworthiness for subsequent aircraft which conform in all essential respects with a type aircraft for which a certificate of airworthiness has previously been issued will be granted subject to the conditions and procedure hereinafter specified.

(13) The applicant may make modifications (including change of engine type) to the aircraft and may depart from the approved complete set of working drawings (process tracings) of the type aircraft which were delivered under clause (11) of this Schedule; but full particulars and drawings of the proposed modification shall first be delivered to the Officer and such as affect the safety of the aircraft shall be subject to his approval.

(14) During the construction of the aircraft the inspection of the workmanship, construction and materials shall be as approved by the Officer in accordance with the detailed directions in clause (18) of this Schedule.

(15) In the case of an aircraft which, in the opinion of the Officer, differs considerably from the type aircraft, or in the case of an aircraft built by a constructor not familiar with the type aircraft, the Officer may on completion of the aircraft require flying trials to be carried out by the applicant's or constructor's pilot in the presence of representatives of the Officer,

and may require the aircraft to be delivered to the official aerodrome for additional trials. The procedure in this case will be in accordance with the procedure governing similar trials in the case of a type aircraft, as laid down in clauses (8), (9) and (10) of this Schedule.

(16) On the satisfactory completion of the aircraft and of any trials that may be required by the Officer, and when any modifications considered necessary for safety have been completed to the satisfaction of the Officer, a certificate of airworthiness will be issued.

Prior to the issue of such certificate, the applicant shall deliver to the Officer a complete set of working drawings (process tracing) of any modifications to or departure from the type aircraft.

Method of Approval of Workmanship and Materials

(17) In the case of type aircraft—

- (a) inspection of workmanship and materials will be carried out by representatives of the Officer ;
- (b) the Officer will accept wherever in his opinion possible the inspection of details, components and materials for type aircraft made by employees of the constructor under the supervision of a representative of such constructor, but each component will be finally inspected and approved by a representative of the Officer who will co-operate with the constructor's inspecting staff ;
- (c) constructors must notify the Officer seven days before commencing work on any part of the aircraft, the inspection of which is necessary prior to further work ;
- (d) the constructor must also fulfil the conditions detailed hereunder for subsequent aircraft.

(18) In the case of subsequent aircraft of a type—

- (a) constructors must satisfy the Officer that their inspecting staff is such as to ensure that aircraft passed by them conform in all essential respects to the type design ;
- (b) constructors must purchase material to the specifications approved for the type design, and must arrange that each and every batch of material is proved to comply with those specifications by such examination, sampling and testing, as may be approved by the Officer ;
- (c) constructors must make such arrangements at their works as will preclude the use of material other than that approved as in sub-clause (b) ;
- (d) constructors' inspecting staffs, referred to in sub-clause (a), must stamp, or otherwise provide means for the identification of, each and every detail in such a way that the individual responsible for such approval can subsequently be traced, selective inspection being adopted where considered possible ;
- (e) constructors must issue only details or parts in respect of which the provisions of sub-clause (d) have been complied with to the shops for assembly into components ;
- (f) constructors must maintain an efficient process inspection during such work of assembly and record such inspection on a process card for each component. Every component must be finally inspected by a qualified member of their inspecting staff, who will stamp the component in such a way that he may afterwards be identified, and will also sign the process card ;
- (g) constructor's methods of carrying out the following operations must be approved by the Officer or his representative, namely :—heat treatment of steel, seasoning and conversion of timber, gluing of important parts, and doping ;
- (h) constructors must ensure that all instruments and other parts affecting airworthiness purchased from sub-contractors have been inspected and approved in accordance with these conditions ;
- (i) constructors (of aircraft or engine as may be arranged) must ensure that all engines have been inspected and approved in accordance with these conditions, and further that they have satisfactorily undergone such bench tests as are required by the Officer and for this purpose that suitable test stands and accessories are provided to the satisfaction of the Officer ;
- (j) aircraft constructors must carry out an efficient inspection of the installation of all engines, instruments and parts that are fitted by them into the aircraft, such inspection to ensure that they function correctly, the individual responsible being indicated by a signature on the process card referred to in sub-clause (f) ;
- (k) constructors must limit the power of their inspection staff to grant concessions to matters which do not affect the weight, the strength or the functioning of the part. Should any of these points be affected, the matter must be referred to the designer of the aircraft, and, if affecting the type design, to the Officer as laid down in the case of modifications to type designs.

Aircraft constructed outside British India.

(19) In the case of any type or subsequent aircraft constructed outside British India the Officer may in his discretion issue a certificate of airworthiness, although the conditions specified in this Schedule have not been fulfilled, if he is satisfied that they have been substantially fulfilled in the construction of the aircraft.

SCHEDULE V.

(See rule 35.)

Instructions for maintenance of Log Books.

(1) The constructor, or the owner if the constructor is not in a position to do so, should fill in and sign the original entries in each log book. Subsequent entries should be made and signed by the pilot or other responsible member of the personnel.

(2) A copy of the certificate of airworthiness should be kept in a pocket at the end of the aircraft log book.

(3) All entries should be in ink, except in the case of journey and signal log books, the entries for which may be made in pencil in a rough notebook, but should be entered in ink in the log book every twenty-four hours.

In the event of any official investigation the rough notebook may be called for.

(4) No erasures should be made in, nor pages torn from, any log book.

(5) A copy of this Schedule should be inserted in each log book.

(6) The various log books shall contain in each case the following particulars namely:—

(1) in the case of a journey log,—

- (a) the type to which the aircraft belongs; its nationality and registration marks; the full name, nationality and residence of the owner; the name of the constructor; the carrying capacity; and
- (b) in addition, for each journey,
 - (i) the name, nationality and residence of each member of the personnel, and
 - (ii) the place, date and hour of departure, the route followed, and all incidents of the journey, including landings and weather conditions;

(2) in the case of an aircraft log,—

- (a) the type to which the aircraft belongs; its nationality and registration marks; the full name, nationality and residence of the owner; the name of the constructor; the carrying capacity; and the capacity of the tanks;
- (b) the type and series number of engine, and the type of propeller, showing number pitch, diameter and maker's name;
- (c) the type of wireless apparatus fitted, if any;
- (d) a table showing the necessary rigging data for the information of persons in charge of the aircraft and of its maintenance; and
- (e) a fully detailed engineering record of the life of the aircraft, including all acceptance tests, overhauls, replacements, repairs and all work of a like nature;

(3) in the case of an engine log,—

- (a) the type of engine, series number, maker's name, power, normal and maximum revolutions of engine, date of acceptance and date on which first put into service; petrol consumption; oil consumption;
- (b) the registration mark and the type of aircraft in which the engine has been installed; and
- (c) a fully detailed engineering record of the life of the engine, including all acceptance tests, hours run, overhauls, replacements, repairs and all work of a like nature;

(4) in the case of a signal log,—

- (a) the type to which the aircraft belongs; its nationality and registration marks; the full name, nationality and residence of the owner;
- (b) the place, date and time of the transmission or reception of any signal; and
- (c) the name or other indication of the person or station from or to whom or which a signal is received or sent.

SCHEDULE VI.

FORM A.

(See rule 16.)

Form of application for aircraft registration certificate.

SIR,

I
We hereby apply for a certificate of registration and the grant of Nationality and Registration Marks for the following ^{private} ~~passenger and goods~~ aircraft.

Maker.
Maker's number.
Owner's full name.
Owner's residence
Station of the aircraft.
Description.

*For Flying Machines.**For Airships.*

Whether aeroplane, seaplane or flying boat.	Whether rigid, semi-rigid or non-rigid.
Number of planes, viz.—monoplane, biplane, etc.	Cubic capacity.
Whether tractor or pusher driven.	Overall length in feet.
Overall length in feet.	Maximum diameter in feet.
Span in feet.	Material of which envelope is made and name of maker.
Maximum height.	Gas ordinarily used.
Are wings made to fold?	Useful weight carrying capacity.
Seating or passenger capacity.	Seating or passenger capacity.

For Engines.

Number—
Rotary or Stationary—
Number of cylinders—
Horse power—
Maker's name—
Name, if any, of engines—
Total weight of machine with engines—
Useful weight carrying capacity—

* I enclose attached herewith :—

* If applicant has already received a certificate or licence substitute "my certificate of nationality and suitability was approved by you on the grant of certificate No. , dated "

† In the case of passenger aircraft only.

(1) Certificate of Nationality and Suitability.

(2) Certificate of Airworthiness.†

I hereby declare that the aircraft is owned by

me
Mr. of...
the.....Company carrying on business at.....
the firm of..... carrying on business at

and that the particulars given above as to such aircraft are true to the best of my knowledge and belief. I agree to observe the following conditions if a certificate of registration be granted to me :—

- (1) to notify either personally or by registered letter any change in station of this aircraft if such change is for a period exceeding fifteen days ;
- (2) to notify as above the destruction, loss or transfer, of the said aircraft and, in the case of transfer, the name and address of the transferee ; and
- (3) to return this certificate when the aircraft is destroyed, lost beyond recovery or transferred.

(Signature of applicant) _____

Full name and address _____

Dated _____

FORM B.

(See rule 16.)

Form of certificate of Nationality and Suitability.

Mr. _____ of _____ in the District of _____
in the Province of _____ { is personally known to me.
has been identified before me to my satisfaction.

I am convinced that he is by nationality a { British
French, Italian, Persian, etc., subject. The inquiry
which I have made as to his character and reputation has not disclosed any reason against
the grant to him of a licence to ^{own} fly in an aircraft.

(Signature) _____

District Magistrate or Commissioner of Police.

Dated

District _____
Presidency town _____

FORM C.

(See rule 17.)

Form of certificate of registration of an aircraft.

The aircraft described below has been registered under the Indian Aircraft Rules, 1919, and has been granted Nationality and Registration Marks as follows :—

Nationality mark—

Registration mark—

Description—

Nationality.

Number and date of Registration.

Type of Aircraft.

Maker.

Maker's number.

Description.

Owner's full name.

Owner's residence.

Owner's nationality.

Station of the aircraft.

The aircraft shall carry affixed to the car or to the fuselage in a prominent position a metal plate inscribed as follows :—

Aircraft registered as No. _____ India.

Marks _____

Owner's Name _____

Owner's Residence _____

Station of aircraft.

(Signature of Officer) _____

Dated

FORM D.

(See rule 20.)

Form of application for pilot's licence for private aircraft.

SIR,

I hereby apply for the issue to me of a licence as a pilot of private Flying Machines
 I enclose attached herewith— Airships.

(1) Certificate of Nationality and Suitability.

(2) Medical Certificate.

(3) Certificate of Flying competency "A"

or

Certificate that I am qualified as a Royal Air Force Pilot. } *Strike out one or other.*

(4) Two copies of a photograph of myself, unmounted.

I send herewith per rupees five.

I am, etc.,

(Name in full with rank, title, etc.) _____

(Full address.) _____

(Occupation.) _____

Dated _____

NOTE.—The form of application for other licences under Part IV will be similar to the above with such modification as may in each case be necessary.

FORM E.

(See rule 21.)

Form of Medical Certificate.

I certify that I have medically examined Mr. _____ of _____ in
 the District of _____ who is personally known to me, _____
 has been identified before me to my satisfaction,
 with a view to ascertaining his mental and physical fitness for flying.

I have considered the medical requirements laid down in Schedule I to the Indian

*Please give here sufficient detail to enable Aircraft Rules, 1919, and after due examination
 a medical officer to form an opinion as to the I am of opinion that he fulfils those requirements,
 degree of applicant's fitness for flying. with the following exceptions :—*

In my opinion he is mentally and physically $\frac{\text{fit}}{\text{unfit}}$ for flying.

(Signature of Medical Officer) _____

(Designation) _____

Dated _____

FORM F.

(See rule 21.)

Form of "A" certificate of flying competency for pilots of private aircraft.

We hereby certify that

_____ of _____ in the District of _____ who
 is personally known to us _____ has in the presence of both of us performed to our
 has been identified before us to our satisfaction _____ satisfaction the following tests on at _____
 †Enter here the type of flying machine or flying machine viz. :—
 airship. airship

He performed each test in the manner noted and initialled by us under each.

We are both of opinion that he is competent to fly a private flying machine
airship† Give here designation, viz., R. A. F. Pilot,
 etc.

(Signature).† { } Examiners.

Dated _____

NOTE.—The form for the "B" passenger and goods certificate will be similar to the above with the alteration of the later tests.

FORM J.

(See rules 27 and 28.)

Form of certificate of airworthiness.

Number _____

I hereby certify that aircraft—

Type _____

Maker's name _____

Maker's number _____

has been examined for airworthiness as a type aircraft
subsequent aircraft of the same type as _____

aircraft for which certificate of airworthiness number _____ has been granted on _____

and is hereby certified as airworthy, provided the following conditions are complied with:—

(a) the total weight including all items of load should not exceed _____ lbs.

(b) the loading including the placing of passengers should be such that the centre of gravity remains within the following limits, viz. _____

(Signature) _____

(Designation) _____

Place _____

Dated _____

FORM K.

(See rule 29.)

Form of certificate of periodical inspection and overhaul of an aircraft
*the engine of an aircraft*I hereby certify that aircraft _____ type _____ marks _____
the engines of aircraft __________ has _____ this day been inspected and overhauled by me, and that
all necessary adjustments and repairs have been made to my satisfaction and that the aircraft
is _____ in good order and fit for flight.
are _____ engines

(Signature) _____

(Designation) _____

Place _____

Dated _____

FORM L.

(See rule 31.)

Daily Certificate of Safety of Aircraft.

Aircraft type _____ Registration mark _____

Inspection at _____ on _____ time _____

I hereby certify that I have this day examined the above aircraft and that I consider it
safe in every way for flights to-day when loaded as specified in its certificate of airworthiness.

(Signature) _____

(Countersignature) _____

Dated _____

I hereby certify that I have this day examined the engines, engine installations and
accessories of the above aircraft, and that in my opinion they are in every way safe for flights
to-day.

(Signature) _____

(Countersignature) _____

Dated _____

FORM M.

(See rule 33.)

Pilots' certificate of General Fitness of Aircraft before Flight.

Aircraft type _____ Registration mark _____
Preparatory to flight from _____ to _____

Loading.

Total weight of the aircraft including all items of load does not exceed _____ lbs.

Loading (including placing of passengers) is such that the centre of gravity of the aircraft is within the limits specified in the certificate of airworthiness. Petrol, oil and water are sufficient for proposed journey, viz. _____

*Officers and Crew.**Name.**Duty.**Licence No.*

Number of passengers _____

This aircraft is considered fit in every way for the proposed journey.

(Signature) _____

Dated _____

Hour _____

FORM N.

(See rule 35.)

Form of Aircraft Log.

Date.	Hour.	Commanding Officer.	Route.	TIME IN AIR.		Petrol consumed.	Oil consumed.	Water consumed.	No. of passengers.	Repairs or replacements.	Remarks.	Signature.
				Hours.	Mins.							
			Brought forward								Time in the air since last periodical inspection and overhaul :— hours. mins.	
											Date of last periodical inspection and overhaul	

Carried forward

FORM O.

(See rule 35.)

Form of Engine Log.

Date.	Hour.	Engineer in charge.	REVS. PER MIN.		Time run.	Defects found.	Particulars of overhaul or replacement.	Remarks.	Signature.
			On ground.	In air (state climbing or level).					
								Time run since last periodical inspection and overhaul :— hours. mins.	
								Date of last periodical inspection and overhaul :—	

FORM P.

(See rule 57.)

Form of notice for departure for a foreign destination.

To the Customs-collector at _____ customs-aerodrome.

I, _____ of _____
 being the person in charge of _____ aircraft marked _____
 hereby give notice that I intend on date _____ at time _____
 hours to take the said aircraft out of British India by air, viz., from _____
 customs-aerodrome to _____.

(Signature) _____

(Person in charge of the aircraft.)

Permission is given for the above aircraft to depart from _____
 customs-aerodrome at or about _____ hours on _____.

(Signature) _____ Custom-collector.

_____ Customs-aerodrome.

Dated _____

CUSTOMS—WAR.

The 13th December 1919.

No. 724-D.—The following Board of Trade list, dated the 7th November 1919, on the subject of prohibitions of export from the United Kingdom, is published for general information :—

BOARD OF TRADE,

EXPORT LICENCE DEPARTMENT,

1, QUEEN ANNE'S GATE BUILDINGS,

WESTMINSTER, S. W.-1.

LIST OF EXPORT PROHIBITED GOODS, &c., 7th NOVEMBER 1919.

This list cancels all similar lists and supplements issued by the Export Licence Department prior to the above date.

	PAGE
List A and B	2361—65
List C	2365
List D and E	2365—66
Open General Licences for Exports :	
APPENDIX No. 1	2366—67
General Information with regard to Export Regulations to certain Countries in Europe and on the Mediterranean	2367—72
Trade with Germany and Austria-Hungary	2372
Transshipment in the United Kingdom	2373

This consolidated "List of Export Prohibited Goods" is amended and issued fortnightly. Exporters who desire to have copies of each list posted to them during the current year can do so on payment of a registration fee of 2s. 6d. for one copy of each issue. Should more than one copy of each issue be required an additional payment should be made at the rate of 2d. per copy for each month up to the end of the current year.

Exporters who desire to have their names placed on the register should make application to the Stationery Clerk, Export Licence Department, enclosing Money Orders payable to the Export Licence Department, Board of Trade.

IMPORTANT NOTICE.**Application Form A for Licence to Export.**

The Export Licence Department, having regard to the circumstances now existing, and subject to any further notification which it may hereafter become necessary to make, notifies

Exporters that answers need only be given to the undermentioned questions which are set forth in the above-mentioned form of application.

- (a) Full name and address of Consignor.
 - (b) Name and address of person or company to whom the licence is to be sent.
 - (c)—1. Proposed date of despatch of goods.
2. Port of intended shipment in this country or post office of despatch.
 - (d) Prospective port and country to which the goods are to be exported.
 - (e) Route by which the goods are to be forwarded to ultimate destination.
 - (f) Full name and address of consignee abroad.
 - (k) State whether previous application has been made for all or part of the consignment, &c.
 - (l) Full description of goods—quantity, weight, value, number and description of packages and the shipping marks.
 - (e) Any special reasons in support of your request for a licence to export these goods.
- Instructions Nos. 1, 6, 7, 9 and 12 on page 4 of Application Form A are now cancelled.

P.S.—Should it be desired that in any exceptional case an answer should be given to any questions set forth in the Application Form but not appearing above, a notification will be addressed to the applicant concerned after the receipt of the relative application.

Application Form B for General Licences.

The use of Application Form B for making application for licence to export goods in several consignments over a certain period is no longer necessary. Form A can now be used when making application for either specific or general licence, provided that if a general licence is required a statement to that effect is endorsed on the Application Form A.

Applications for licences and all correspondence should be addressed to:—

**The Controller, Export Licence department,
1, Queen Anne's Gate Buildings,
Westminster, S. W.-1.**

List A and B.

List of goods the export of which is prohibited by the Royal Proclamation of the 10th May, 1917, as amended by Orders of Council of the 22nd June, 1917, the 13th July, 1917, the 14th August, 1917, the 28th August, 1917, the 18th October, 1917, the 27th November, 1917, the 18th December, 1917, the 22nd January, 1918, the 8th February, 1918, the 26th February, 1918, the 8th March, 1918, the 12th April, 1918, the 25th April, 1918, the 14th May, 1918, the 11th June, 1918, the 2nd July, 1918, the 30th July, 1918, the 6th August, 1918, the 27th August, 1918, the 1st October, 1918, the 15th October, 1918, the 19th November, 1918, the 29th November, 1918, the 6th December, 1918, the 13th December, 1918, the 20th December, 1918, the 24th December, 1918, the 27th December, 1918, the 3rd January, 1919, the 7th January, 1919, the 10th January, 1919, the 17th January, 1919, the 24th January, 1919, the 31st January, 1919, the 7th February, 1919, the 14th February, 1919, the 21st February, 1919, the 28th February, 1919, the 7th March, 1919, the 14th March, 1919, the 21st March, 1919, the 28th March, 1919, the 4th April, 1919, the 11th April, 1919, the 15th April, 1919, the 25th April, 1919, the 2nd May, 1919, the 9th May, 1919, the 16th May, 1919, the 30th May, 1919, the 20th June, 1919, and the 8th July, 1919, to be exported from the United Kingdom to the following destinations, viz. :—

List A and B.—Goods marked (A) to All Destinations.

Goods marked (B) to All Ports and Destinations Abroad other than Ports and Destinations in British Possessions and Protectorates.

A licence is required to export goods marked (A) to any destination abroad.

A licence is required to export goods marked (B) to any destination abroad, except British Possessions and Protectorates, to which goods marked (B) can be exported without licence, providing the goods are not transhipped at foreign ports.

- (B) Accoutrements, not otherwise prohibited; (14-8-17).
- (B) Aeroplane engines and their component parts. (*See, however, page 2371.*)
- (B) Aircraft, other than balloons, of all kinds, and their component parts, together with accessories and articles suitable for use in connection with aircraft; (20-6-19). (*See, however, page 2371.*)
- Alumina, *see* Phosphate Rock.
- (A) Ammonia, sulphate of, and mixtures containing sulphate of ammonia; (19-1-17) (22-1-18) (6-8-18) (24-1-19).
- (A) *Animals, living, for food; (12-12-16).
- (A) *Animals, pack, saddle and draught, suitable, or which may become suitable, for use in war; (8-1-15).
- Apatites, *see* Phosphate Rock.
- (A) Armour plates, armour quality castings, and similar protective material.
- (A) Arms, not being Firearms and their component parts.
- Bacon, *see* Meat.
- Bags, *see* Nitrate.
- Banknotes, *see* Notes.
- (A) Barley and barley meal; (14-2-18).
- (P) Barographs, suitable for aircraft; (6-12-18).
- (A) Basic slag; (23-10-16).
- (A) Bayonets and their component parts.
- (A) Beans of all kinds, including haricots; (12-12-16) (27-11-17) (*see however Appendix No. 1.*)
- (A) Bean flour and meal.
- (A) Boats and craft; (10-5-17) (18-12-17).
- Bran, *see* Offals of Corn.
- (A) Bread.
- Brewers' grains, *see* Grains.
- (B) Bristles, of European origin; (26-6-16) (8-8-18) (2-7-18) (17-1-19).
- (A) Buckwheat; (12-12-16).
- Bullion, *see* Gold.
- (A) Butter.
- (A) Cakes and Meals (which may be used as forage or food for animals), the following:—
 - Calf meal;
 - Coconut and poonac cake;
 - Compound cakes and meal;
 - Cotton seed cake and cotton seed meal;
 - Gluten meal or gluten feed;
 - Ground nut or earth nut cake and meal;
 - Hemp seed cake and meal;
 - Husk meal;
 - Linseed cake and meal;
 - Locust bean meal;
 - Maize germ meal;
 - Maize meal and flour;
 - Meat meal;
 - Palm nut cake and meal;
 - Poppy seed cake and meal;
 - Rape seed or colza seed cake and meal;
 - Sesame seed cake and meal;
 - Soya bean cake and meal;
 - Sunflower seed cake and meal;

- Whale cake;
- Calf meal, *see* Cakes and Meals.
- (A) Calfskins.
- (A) Cannon and other ordnance, and their component parts.
- (A) Carriages and mountings for cannon and other ordnance and their component parts.
- (A) Cartridges, charges of all kinds, and their component parts, and tools, appurtenances and accessories for the filling and repair of rifle and shot-gun cartridges. (*See, however, page 2371.*)
- Castings, *see* Armour Plates.
- Cattle foods, *see* Cakes and Meals.
- Cattle foods, patent and proprietary, *see* Patent.
- Cattle Hides, *see* Hides.
- Caustic potash, *see* Potash.
- (A) Cement for building and engineering purposes; (14-5-18) (*see, however, Appendix No. 1.*)
- (A) Cheese.
- (A) Chicory; (30-3-17) (27-11-17).
- (A) Chick peas; (12-12-16).
- (A) Coal, except coal allowed by the Commissioners of Customs and Excise to be shipped as bunker coal; (27-11-17).
- (A) Coal tar, all products obtainable from and derivatives thereof (except solvent naphtha, cresylic acid and mixtures containing cresylic acid), suitable for use in the manufacture of dyes and explosives, whether obtained from coal tar or other sources, and mixtures and preparations containing such products or derivatives; (26-7-16) (29-11-18) (20-12-18).
- (A) Cocaine and its salts and preparations; (17-11-16).
- Coconut cake, *see* Cakes and Meals.
- (A) Cocoa raw, and manufactures thereof, except cocoa butter and cocoa powder; (19-2-17) (20-12-18).
- (B) Cocoa butter; (20-12-18).
- (A) Cocoa husk; (19-2-17).
- (A) Cocoa shells; (19-2-17).
- (A) Cod liver oil and preparations containing cod liver oil; (4-4-19).
- (A) Coffee; (19-2-17). (*See, however, Appendix No. 1.*)
- Coin, *see* Gold; Silver.
- (A) Coke and manufactured fuel; (18-12-17).
- Combings, *see* Malt.
- Compound cakes and meal, *see* Cakes and Meals.
- (A) Confectionery manufactured wholly or partly of sugar; (12-3-17) (14-3-19).
- Corn offals, *see* Offals.
- Cotton seed cake and cotton seed meal, *see* Cakes and Meal.
- Cows, bulls, etc., *see* Animals.
- Craft, *see* Boats.
- Culms, *see* Malt.
- (A) Dari.
- Dhol, *see* Gram.
- Distillers' grains, *see* Grains, etc.

* Application for licence to export livestock should be made on Application Form "L," copies of which can be obtained from Stationary Clerk, Export Licence Department.

- (B) Docks, floating, and their component parts.
- (A) *Dyes and dyestuffs manufactured from coal tar products, and articles containing such dyes and dyestuffs.
- Earth nut cake and meal, *see* Cakes and Meals.
- (A) Eggs in shells.
- Engines, *see* Aeroplane.
- Equipment web, *see* Web.
- (A) Ergot of rye, and liquid extract of ergot; (10-5-17) (12-4-18) (15-10-18).
- (A) Explosives; *see, however*, page 2371; (19-11-18) (15-4-19).
- Fats, edible, *see* Oils
- (A) Feeding stuffs containing molasses; (21-2-19).
- (A) Firearms and their component parts; (8-2-18) (29-11-18) (*see, however*, page 2371).
- (A) Fish except the following:—tinned, preserved or frozen fish, chinchards, sprats, herrings, crayfish, and prawns; (27-12-18) (30-5-19).
- (A) Salmon, tinned.
- (A) Flax, raw.

- Foodstuffs, *see* specific headings.
- Forage and food which may be used for animals, *see* specific headings as, e.g., Beans; Cakes; Hay; Oats, etc.
- (A) Forage, green.
- (A) Fruit and fruit preserves, except olives, and except the following fresh fruit which may be exported without licence to all destinations with which trading is permitted:—
- Apricots, grape fruit, green figs, grapes, peaches, pears, pineapples, nectarines, imported plums (South African), and imported melons; (29-9-16) (15-1-17) (19-2-17) (10-1-19).
- Fuel, manufactured, *see* Coke.
- (A) Game.
- Gluten meal, or gluten feed, *see* Cakes and Meals.
- (A) Gold, coin and bullion.
- (A) Grains, Brewers' and Distillers'; (12-12-16).
- (A) Gram or dhol; (12-12-16).
- (A) Green forage; (12-12-16).
- (A) Grenades and component parts thereof; (10-5-17).
- Ground nut, or earth nut cake and meal, *see* Cakes and Meals.
- (A) Guanos, except whale guano; (2-2-17) (8-1-19).
- Guns, *see* Cannon, Firearms, Machine.
- Hericots, *see* Beans.
- (A) Hay.
- (A) Heliographs and their component parts; (2-7-18).
- Hempseed cake and meal, *see* Cakes and Meals.
- (A) Hides, British and Irish, cattle; (28-2-19) (5-7-19).
- Horses, *see* Animals.
- Hosiery needles, *see* Needles.
- Husk meal, *see* Cakes and Meals.
- (A) Indigo, synthetic (6-8-18).
- Iron (1-5-17) the following:—
- Castings, *see* Armour plates.
- (A) Pig.
- (A) Scrap.
- (A) Jute, raw and carded; (12-3-17).
- (A) Lard;—except imitation (compound) lard and neutral lard.
- Latch needles, *see* Needles.
- Lentil flour and meal.
- (A) Lime phosphate, *see* Phosphate Rock.
- Linseed cake, and meal, *see* Cakes and Meals.
- Livestock, *see* Animals.
- Locust bean meal, *see* Cakes and Meals.
- (A) Lupin seed; (12-12-16).
- (A) Machine guns, mountings for machine guns, and component parts thereof.
- (A) Maize; (12-12-16).
- (A) Maize germs; (12-12-16).
- Maize germ meal, *see* Cakes and Meals.
- Maize meal and flour, *see* Cakes and Meals.
- (A) Malt dust, malt flour, culms, sprouts or combings; (12-12-16).
- (A) Manures, compound, containing either sulphate of ammonia, superphosphate of lime, or potash; (2-1-17) (31-1-19).
- (A) Margarine; (19-2-17).
- Meals, *see* Barley; Bean; Cakes; Lentil; Pea; Rye; Wheat.
- (A) Meat of all kinds, except turtle meat, horseflesh and except tinned or potted meat, other than tinned bacon and tinned ham; (19-2-17) (7-2-19).
- Meat meal, *see* Cakes and Meals.
- (A) Mica block, mica sheets, and mica splittings; (22-6-17) (27-11-17).
- Middlings, *see* Offals of Corn.
- (B) Milk condensed or preserved; (15-4-19).
- Milk dust and screenings, *see* Offals of Corn.
- (A) Millet; (12-12-16).
- (B) Mines and their component parts.
- Molasses, *see* Feeding Stuffs.
- (A) Needles, hosiery machine, latch; (23-10-16) (18-10-17) (29-11-18).
- (A) Nicotine and its compounds; (6-8-18).

* The following proprietary dyes may, however, be exported without licence to all destinations with which trading is permitted:—

Dolly dyes. Drummer dyes.
Diamond dyes. Dixon's home dyes,
Maypole dyes.

- (b) Nitrate bags (17-1-19).
 †Notes of the Bank of France;
 (27-8-18).
 (A) Notes, Russian rouble; (26-2-18).
 Nuts, *see* Ground Nut, Oleaginous.

- (A) Oats.
 Offals of corn and grain which may
 be used as food for animals, the
 following :—
 (A) Bran.
 (A) Middlings.
 (A) Mill dust and screenings.
 (A) Pollard.
 (A) Rice meal (or bran) and dust.
 (A) Sharps.

- (A) Oils and fats, edible, the following :—
 Coconut oil;
 Groundnut oil;
 Palmkernel oil;
 Oil, cod liver, *see* Cod Liver Oil.

- (A) Oleaginous kernels, nuts, seeds, and
 products of all kinds; (12-3-17)
 (27-11-17).

- (A) Oleo-margarine; (19-2-17).

- (A) Onions.

- (A) Opium and its preparations.

- (A) Opium alkaloids and their salts and
 preparations.

Ordinance, *see* Cannon; Carriages.

Palmnut cake and meal, *see* Cakes
 and Meals.

- (A) Patent and proprietary cattle foods of
 all kinds.

- (A) Pea flour and meal.

- (A) Peas; other than split peas (2-2-17)
 (25-4-19).

- (A) Periscopes and their component parts;
 (10-5-17).

- (A) Phosphate rock, namely :—Apatites;
 Phosphates of lime and alumina;
 (2-2-17).

- (A) Pigeon peas; (12-12-16).

Pistols, *see* Firearms.

Pollard, *see* Offals of Corn.

Poonac cake, *see* Cakes and Meals.

Poppy seed cake, and meal, *see* Cakes
 and Meals.

- (A) Potash, caustic, and articles contain-
 ing caustic potash.

- (A) Potash, muriate, sulphate, and crude
 manurial potash salts, and mixtures
 containing any of these substances;
 (19-2-17) (17-1-19).

- (A) Potassium carbonate and mixtures
 containing potassium carbonate;
 (22-6-17).

- (B) Potassium permanganate.

- (A) Potatoes.

- (A) Poultry; (4-7-16) (29-9-16) (19-2-17).
 Preserves, *see* Fruit.

- (A) Projectiles of all kinds and their
 component parts.

- (A) Quinine sulphate; (20-6-19).

- (A) Range-finders and their component
 parts.

Rapeseed, or colza seed cake and meal,
see Cakes.

Rice meal (or bran) and dust, *see*
 Offals of Corn.

- (A) Rice and rice flour; (21-3-19).

 cashmere, alpaca and mohair.)

† Notes of the Bank of France are prohibited to all destinations except to destinations in France.

- (A) Wool tops and mixtures thereof; (18-10-17).
 (A) Wool noils and wool waste and mixtures thereof; (18-10-17).

- (A) Woollen and worsted yarn and mixtures thereof; (18-10-17).

Yarns, *see* Wool.

- (A) Yeast; (8-9-16) (22-6-17) (28-2-19).

LIST C.

By Order of Council dated 1st October, 1918, as amended by Order of Council of the 24th December, 1918, the 7th January, 1919, the 7th February, 1919, the 11th February, 1919, the 28th February, 1919, the 11th April, 1919, the 29th April, 1919, and the 16th May, 1919, **ALL GOODS** [other than (1) printed matter and (2) personal effects accompanied by their owners] are prohibited from export to All Destinations in European Russia (except Russian ports on the Black Sea) and in other Foreign Countries in Europe and on the Mediterranean, except France and French Possessions, Italy and Italian Possessions, Belgium, Portugal, Greece, Serbia, Roumania, Iceland and the Faroe Islands, Spain, Morocco, Palestine and Syria as far north as a line from Alexandretta to Aleppo inclusive, and as far east as the Hedjaz railway inclusive, Czechoslovakia, Alsace-Lorraine, Luxembourg and the portions of Austria, Hungary in the occupation of the Armies of the Associated Governments, Occupied Rhineland territory, and to all Ports in any such Foreign Countries.

LIST C comprises **ALL GOODS** not included in List A or B, excepting the following goods, which may be exported without licence :—

- (1) Printed matter ;
- (2) Personal effects accompanied by their owners.

In addition to the above countries, trading is permitted with the following countries, to which List C goods may be exported without licence (*see*, however, Lists D and E, pages 2365-66) :—

Turkey, Bulgaria, Russian Black Sea ports, Austria, Hungary, Jugo-Slavia, Montenegro, Albania, Bosnia, Herzegovina, Dalmatia, and Arabia.

Goods on List C may also be exported to the following countries without licence (*see* page 2367) :—

Denmark, Holland, Norway, Sweden, Switzerland, Esthonia, Finland, Germany, Lettland, Lithuania, and Poland.

LIST D.

By Order of Council dated 21st March, 1919, as amended by order of Council of the 11th April, 1919, the 15th April, 1919, and the 9th May, 1919, the following goods on List D* are prohibited from export to Turkey, Bulgaria, Ports on the Black Sea (not including Roumanian Ports), Austria, Hungary, Jugo-Slavia, Montenegro, Albania, Bosnia, Herzegovina, Dalmatia, and Arabia.

Aircraft of all kinds, including aeroplanes, airships, balloons and their component parts, together with accessories and articles suitable for use in connection with aircraft.

Apparatus which can be used for the storage or projection of compressed or liquefied gases, flame, acids or other destructive agents capable of use in warlike operations and their component parts.

Armour plates.

Armoured motor-cars.

Arms of all kinds, including arms for sporting purposes and their component parts.

Barbed wire and implements for fixing and cutting same.

Camp equipment, articles of, and their component parts.

Clothing and equipment of a distinctively military character.

Electrical appliances, adapted for use in war, and their component parts.

Explosives specially prepared for use in war.

Field-glasses.

Gases for war purposes.

Guns and machine guns.

Gun mountings.

Liaison, military waggons of all descriptions.

* Many goods on the above Lists are already on List A or B.

Harness or horse equipment of a military character.
 Implements and apparatus designed exclusively for the manufacture of munitions of war or for the manufacture or repair of arms or of war material for use on land or sea.
 Mines, submarines and their component parts.

Projectiles, charges, cartridges and grenades of all kinds and their component parts.
 Range-finders and their component parts.
 Searchlights and their component parts.
 Submarine sound signalling apparatus.
 Materials for wireless telegraphs.
 Torpedoes.
 Warships, including boats and their component parts of such a nature that they can only be used on a vessel of war.

LIST E.

In addition to the goods contained in List D, the following goods on List E* are prohibited from export to Bulgaria.

All articles for use in transportation on land
 Saddle or pack animals, vehicles, motor-cars, bicycles, and their component parts.

Locomotives and rolling stock.
 Telegraphs and telephones and their component parts, and materials for use therewith.

APPENDIX No. 1.

GENERAL LICENCES FOR EXPORTS.

An open General Licence has been issued, permitting the exportation of the following goods (without application to the Export Licence Department) to all destinations except those foreign destinations to which goods on List C (see page 2365) are prohibited from export.

Alpaca, and noils, waste and yarns thereof.
 Beans, imported, other than Soya, Locust or Chinese horse beans
 Bird seed.
 Blanc-mange powder.
 Cake mixture.
 Camel hair, and noils, waste and yarns thereof
 Cashmere, and noils, waste and yarns thereof
 Cement for building and engineering purposes.
 Chillies.
 Cocoa and milk, coffee and milk, chocolate and milk, sweetened or unsweetened, in tins.
 Coffee, the following varieties :—
 Pernambuco
 West African
 Liberian
 Rio.
 Bahia
 Victorian.
 Custard powder

Dates.
 Gloy.
 Horseshesh
 Koffio.
 Lactol.
 Lactogol
 Mango chutney, tomato chutney, and tomato ketchup.
 Marmite
 Mincemeat and mince pies.
 Mixtures and preparations containing not more than 1% per cent. aniline colour, not otherwise prohibited
 Mohair and noils, waste and yarns thereof
 Paisley flour.
 Paint, other than gold paint
 'Phosto' animal food.
 Pudding powder.
 Puddings.
 Vanilla custard.

SAMPLES.

An open general licence has been issued which permits the free export of all *bona-fide* samples of prohibited goods to all non-enemy destinations, and to enemy territory with which trade is now permitted (see page 2365). Samples exported under this licence may be used only for genuine sample purposes, *i. e.*, for obtaining orders from foreign buyers, and may not be sold except with the written consent of the Export Licence Department, but such consent may be dispensed with when it is desired to sell the articles in the country of destination after they have fulfilled their purpose as samples. Exporters will be required to satisfy the Customs Authorities that the goods presented for export under this licence are *bona-fide* samples, and to make a declaration to that effect on the relative shipping documents.

* Many goods on the above Lists are already on List A or B.

This notice only applies to samples of goods which require licences for export to the particular destination concerned.

In addition, the consent of the Export Licence Department is not required for the sale of samples which, though within this scheme at the actual time they were exported, could be exported outside the scheme at the actual time of the proposed sale.

OPEN GENERAL LICENCE FOR THE EXPORT OF EXPLOSIVES, DOUBLE-BARRELLED GUNS, ETC.

An Open General Licence has been issued for the export of cartridges, charges, etc., industrial explosives, double-barrelled guns and sporting rifles, to the destinations given below, to which, therefore, exports may be made subject to the usual Customs formalities without applications for specific licences to the Export Licence Department:—

British Possessions and Protectorates.

French Possessions and Protectorates.

United States of America.

South America.

Africa.

Japan and Korea.

Asiatic Russia.

France, Belgium, Spain, Portugal, Greece, Italy, Serbia, Roumania, Norway, Sweden and Denmark.

The issue of this licence does not relieve exporters from the necessity of obtaining import permits from the country of destination in cases where local regulations render such a course necessary.

OPEN GENERAL LICENCE FOR THE EXPORT OF AIRCRAFT, ETC.

An Open General Licence has been issued for the export of the undermentioned goods to all destinations except Russia, Germany, Hungary, Austria, Turkey and Bulgaria. Applications are no longer to be made to the Export Licence Department in respect of the export of these goods to countries other than those mentioned:—"Aeroplane engines and their component parts. Aircraft, other than balloons of all kinds, and their component parts, together with accessories and articles suitable for use in connection with aircraft."

OPEN GENERAL LICENCE FOR THE EXPORT OF PARCELS CONTAINING MISCELLANEOUS FOODSTUFFS.

An Open General Licence has been issued for the export by parcel post of parcels containing miscellaneous foodstuffs (for the personal use of the addressee and not for trading purposes) to all destinations with which trading is allowed. Applications need, therefore, no longer be submitted to the Export Licence Department in respect of the export of such parcels by parcel post.

GENERAL INFORMATION WITH REGARD TO EXPORT REGULATIONS TO CERTAIN COUNTRIES IN EUROPE AND ON THE MEDITERRANEAN, &c.

Albania.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D except as provided in Note (iii), page 2372. Any available route may be adopted at the option of the exporter.

There is no parcel post service at present.

Alsace-Lorraine.

Licences are only required for goods on Lists A and B. Goods may be exported by any available route at the option of the exporter.

There is no parcel post service at present.

Arabia.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in Note (iii) page 2372)

See page 2372.

Asia Minor (see Turkey).**Austria, Hungary.**

Trade is now permitted with all portions of the late Austro-Hungarian Empire.

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in Note (iii) page 2372).

Goods may be exported *via* any available route.

Parcels will now be accepted by the Post Office for transmission to Austria (States of Upper and Lower Austria, Styria, Carinthia, Salzburg, Northern Tyrol, Vorarlberg and Liechtenstein, Trentino, Istria and Dalmatia).

For the portions of the late Austro-Hungarian Empire now incorporated in Italy, Czechoslovakia, Poland and Jugo-Slavia, *see* notes applicable to those countries.

See also page 2372.

Belgium.

Licences are only required for goods on Lists A and B.

Belgian import licences are required in respect of arms of all kinds, sugar, wheat (grain and flour) and coal.

6

Bulgaria.

Licences are required for goods on Lists A, B, D. and E. Licences will not, as a rule, be granted for goods on Lists D and E except as provided in Note (v)

Any available route may be adopted at the option of the exporter.

Czechoslovakia (including any portions of Silesia and Galicia allotted to Czechoslovakia).

This territory consists, broadly speaking, of the former Austrian provinces of Bohemia and Moravia, and the northern part of Hungary-Slovakia.

Licences are only required for goods on Lists A and B.

Goods may be exported *via* Hamburg and the Elbe, provided they are consigned to the Czechoslovak Government's Trade Office, Welserhaus 12, Schaarsteinwegsbrücke, Hamburg, for further transhipment to the actual consignee in Czechoslovakia. Czechoslovak Import Licences should reach the Hamburg Office from the consignee previous to the shipment of goods. A duplicate set of shipping documents should be forwarded in advance to that Office. Goods may also be exported *via* any other available route.

All shipments to Czechoslovakia are subject to Import Licences issued by the Import and Export Commission in Prague. Applications have to be made by consignees.

Denmark.

Licences are only required for goods on Lists A and B.

No certificates from the Danish Associations need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to a Danish import prohibition.

Estonia (principal port—Reval).

Licences are only required for goods on Lists A and B. The support of the Estonian Legation is no longer required.

There is no parcel post service at present.

Finland.

Licences are only required for goods on Lists A and B. Exporters should instruct the consignees to obtain any import license that may be necessary.

Any available route may be adopted at the option of the exporter.

France.

Licences for exports are only required for goods on Lists A and B. Exporters are warned that French import licences are required for many classes of goods. Full information may be obtained from the French Customs Office, Bank Buildings, Kingsway, London, W. C. 2.

Germany.

Licences are only required for goods on Lists A and B.

Goods may be exported by any available route at the option of the exporter.

An import licence is required for the importation into unoccupied Germany of all goods other than those mentioned on pages 2372-73. Before goods other than those mentioned are despatched, therefore, the sender should apply to the Imperial Commissary for Export and Import Licences, Lützowufer 6-8, Berlin, W. 10, with a view to ascertaining whether the German Authorities are actually prepared to admit the goods.

For the occupied territory in the Rhineland *see* Note (ii), page 2371.

See also page 2372.

Greece.

Licences are only required for goods on Lists A or B. Any available route may be adopted at the option of the exporter.

Holland.

Licences are only required for goods on Lists A and B.

Consignment to the Netherlands Oversea Trust is no longer necessary.

Italy.

Licences are only required for goods on Lists A and B. Exporters are warned that Italian import licences are required for many classes of goods; full information may be obtained from the Italian Government Commission, West Africa House, Kingsway, W. C. 2.

Any available route to Italy may be adopted at the option of the exporter.

Jugo-Slavia.

Licences are only required for goods on Lists A, B, and D. Licences will not, as a rule, be granted for goods on List D (except as indicated in Note (iii), page 2372).

Any available route may be adopted at the option of the exporter.

There is no parcel post service at present, except to Dalmatia.

Letland (Latvia) (principal port—Libau).

Licences are only required for goods on Lists A and B. Applications to export goods on Lists A and B will be considered in the usual way.

There is no parcel post service at present.

Lithuania (principal port—Riga).

Licences are only required for goods on Lists A and B. Applications to export goods on Lists A and B will be considered in the usual way.

There is no parcel post service at present.

Luxembourg.

Licences are only required for goods on Lists A and B.

Goods may be exported by any available route at the option of the exporter.

Montenegro (as Jugo-Slavia).

Norway.

Licences are only required for goods on Lists A and B.

No certificates from the Norwegian Associations, or other form of guarantee, need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to any Norwegian import prohibition.

Palestine.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Poland (including any portions of Silesia and Galicia allotted to Poland).

Licences are only required for goods on Lists A and B.

Exporters should satisfy themselves in all cases that the goods are not subject to any Polish import prohibition, see page 2372.

There is no parcel post service at present.

Portugal.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Roumania.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Exporters should satisfy themselves in all cases that the goods are not subject to any Roumanian import prohibition.

Russia (Asiatic).

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Russia (European).

(a) *Northern District—approached via Archangel or the Murman Coast.*

Licences are required for all goods, except "free" goods (a list of which can be had on application to the Stationery Clerk, Export Licence Dept.) and except "foodstuffs" on List C. All goods imported into Northern Russia must be for consumption in the districts of Archangel and Murmansk, and they must be consigned to the British Supply Mission at Archangel or Murmansk for account of a sub-consignee. Exporters are warned that import licences must be obtained by consignees from the Archangel Government before they can take delivery of the goods.

(b) *Southern District—approached via Batoum and Novorossisk on the Black Sea and Taganrog on the Sea of Azov.*

Licences are only required for goods on Lists A, B and D.

There is no parcel post service at present.

(c) *Other Districts.*

No licences are being granted at present.

Serbia.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

There is no parcel post service at present.

Spain.

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

Sweden.

Licences are only required for goods on Lists A and B. No certificates from the Swedish Handels Kommission, or other forms of guarantee, need be produced.

Exporters should satisfy themselves in all cases that the goods are not subject to any Swedish import prohibition.

* It is understood that there are no shipping facilities for Archangel at present.

Switzerland.

Licences are only required for goods on Lists A and B. Consignment to the Société Suisse de Surveillance Économique is no longer necessary.

Any available route may be adopted at the option of the exporter.

With regard to exports to Switzerland under the British Re-export Scheme, goods may now be exported without licence, and without consignment to H. M. Consul at St Gall, but it will be necessary for exporters to communicate with the Department of Import Restriction, 22, Carlisle Place, S. W. 1, in connection with the necessary import certificate for the re-admission of the goods into this country.

Syria (as far north as a line from Alexandretta to Aleppo inclusive, and as far east as the Hedjaz railway inclusive).

Licences are only required for goods on Lists A and B. Any available route may be adopted at the option of the exporter.

A Parcel Post Service is in operation as far north as Alexandretta, but not east of Aleppo.

Turkey (including Asia Minor).

Licences are only required for goods on Lists A, B and D. Licences will not, as a rule, be granted for goods on List D except as provided in Note (ii), page 2372.

Any available route may be adopted at the option of the exporter.

Parcels for civilians in European Turkey (Constantinople) are accepted if they are addressed "Poste Restante, British Army Post Office, Constantinople," and parcels for civilians in Smyrna are accepted if they are addressed "Poste Restante, British Post Office, Smyrna."

NOTES.**FOODSTUFFS.**

(i) Foodstuffs should be regarded as including all articles intended for use as human food, including articles to be manufactured into human food and including beverages and spices.

GOODS ON LIST D.

(iii) Consideration will be given to applications in respect of the following goods on List D if there is clear evidence that the shipments are destined for commercial purposes :—

- Barbed wire and implements for fixing and cutting same.
- Camp equipment, articles of, and their component parts.
- Clothing and equipment of a distinctly military character.
- Electrical appliances, adapted for use in war, and their component parts.
- Military waggons of all descriptions.
- Harness or horse equipment of a military character.

EXPORTS TO POLAND.

As a consequence of the exemption of so many classes of goods from the necessity of obtaining import licences, the issue of licences by the Polish Commercial and Financial Agency in London has been suspended. A list of goods which do not now require Polish import licences and the new procedure to be followed with regard to exports are indicated in the "Board of Trade Journal" of the 30th October, 1919 (page 545).

TRADE WITH GERMANY, AUSTRIA, HUNGARY, AND ARABIA.

In view of the raising of the blockade, the Board of Trade have issued General Licences under the Trading with the Enemy Legislation authorising with certain reservations, the resumption of trade with Germany, Austria, Hungary, and Arabia.

The Licences do not remove the existing restrictions upon the payment of debts and the return of property due or deliverable to persons in Germany, Austria, Hungary, and Arabia in respect of pre-war transactions.

The Licences do not permit the importation from Germany, Austria, Hungary, or Arabia of any goods included in the Prohibition of Import Proclamations and not covered by a General Licence issued under those Proclamations. Information with regard to imports into the United Kingdom can be obtained from the Import Restrictions Department, 22, Carlisle Place, S.W. 1. Further, Export Licences must be obtained from the Export Licence Department, 1, Queen Anne's Gate, Westminster, S.W. 1, before goods included in Lists A and B of prohibited exports are shipped to those countries, but no licences are required in respect of goods included in List C.

The text of these General Licences is as follows :—

The Board of Trade, on behalf of His Majesty, and in pursuance of the powers reserved in the Trading with the Enemy Proclamations and all other powers thereunto them enabling, do hereby give and grant licence to all persons and bodies of persons resident, carrying on business, or being in the United Kingdom, to trade and have commercial and financial transactions with persons or bodies of persons resident or carrying on business in Germany-Austria-Hungary :

Provided always that any licence which may be necessary in respect of any transaction under any prohibition of export or prohibition of import for the time being in force in the United Kingdom or in respect of any remittance of money out of the United Kingdom covered by *Regulation 41D of the Defence of the Realm Regulations is first obtained :

Provided also that this licence shall not permit any person or body of persons to pay to or for the benefit of any person or body of persons resident or carrying on business in Germany-Austria-Hungary any sum of money which by the terms of the Trading with the Enemy Amendment Acts, 1914 and 1915, or either of them, is required to be paid to the Custodian appointed under the Trading with the Enemy Amendment Act, 1914, but such sums of money must be paid to the said Custodian :

Provided further that this licence shall not permit any person or body of persons to pay or deliver any sum of money or property which is, or but for the war, would have been due or deliverable to any person or body of persons resident or carrying on business in Germany-Austria-Hungary in respect of a transaction entered into before the outbreak of war.

A General Licence with regard to Arabia has been issued, dated the 19th August 1919.

CONSOLIDATED LIST OF GOODS WHICH MAY ENTER GERMANY WITHOUT IMPORT LICENCES.

1. Newspapers, periodicals and books.
2. Soaps, candles and starch of which the total weight does not exceed 2½ kilos.
3. Foodstuffs for the personal use of the addressee with the exception of butter, meat, bacon, flour, sugar, pine-apple, ginger, vanilla, caviare and caviare substitutes, pickled caviare, sea-crawfish, lobsters and oysters.

* Regulation 41D of the Defence of the Realm Regulations is now cancelled.

4. In the case of margarine, lard, pastry, products of dough or paste, such as macaroni, vermicelli, etc., sweets and other goods of the German Customs Tariff No. 202, coffee, tea, and products of the cocoa and chocolate industry, the quantity allowed without licence is limited to 1 kilo.

URGENT ORDERS.

The Board of Trade, Export Licence Department, announces that, in collaboration with the Department of Overseas Trade, an arrangement has been made whereby firms receiving orders which require immediate acceptance may telegraph details of any such order to the Department of Overseas Trade in order to ascertain whether a licence will be granted for the export of the goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the Export Licence Department the licence will be granted.

The telegrams should be addressed to "Orders, c/o of Advantage, Stock, London." They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the name and address of the ultimate consignee if the goods are destined for a neutral country. In the case of orders from Allied or British Territory or from Territory in the occupation of troops of the Associated Governments, the consignee need not be stated; and it will be sufficient merely to give the country of destination. A reply of 24 words (1-3) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Comptroller General, Department of Overseas Trade (Export Facilities Section), 4, Queen Anne's Gate Buildings, Westminster, S.W. 1.

TRANSHIPMENT IN THE UNITED KINGDOM.

The provisional approval of the Export Licence Department should be obtained before the following goods are brought to this country for transhipment:—

Bacon, ham and lard of all kinds.

Butter and cheese.

Cereals on Section "A" of the list of prohibited exports.

Animal feeding stuffs on Section "A" of the list of prohibited exports.

Seeds, oils and fats on Section "A" of the list of prohibited exports.

It is not now necessary to make application to the Collector of Customs at the transhipment ports on Form S. 90 for the transhipment of any goods except those specified in the following list:—

Foodstuffs for animal or human consumption which are on Section "A" or "B" of the list of prohibited exports (including tea, coffee and cocoa).

Seeds, oils and fats on Section "A" of the list of prohibited exports.

Synthetic dyestuffs.

Ergot.

Quinine sulphate.

Caustic potash.

Potassium carbonate.

Wool, raw, and mixtures thereof.

Wool-tops and mixtures thereof.

Woollen and worsted yarn and mixtures thereof.

GEOLOGY AND MINES ESTABLISHMENT.

The 13th December 1919.

No. 739-D.—Mr. J. H. Lang is appointed Junior Inspector of Mines in India with effect from the forenoon of the 27th November 1919.

A. H. LEY,

Secretary to the Government of India.

FINANCE DEPARTMENT.

NOTIFICATIONS.

ACCOUNTS AND FINANCE.

MINT.

Delhi, the 10th December 1919.

No. 3129 F.—In exercise of the powers conferred by section 10, sub-section (1) of the Indian Coinage Act, 1906 (III of 1906), as amended by the Indian Coinage (Amendment) Act, 1919 (XXI of 1919), the Governor General in Council is pleased to direct as follows:—

(1) The nickel eight-anna and four-anna pieces specified in section 6 of the Act shall henceforth be coined at the Mint and issued.

(2) The eight-anna coin shall be circular, the diameter being 26 millimetres. The rim shall not be milled.

(3) It shall bear on the obverse the effigy of His Majesty King George V, and the inscription George V King-Emperor, and on the reverse the figure "8" in Roman character with the word "annas" below and the word "India" and the year of the coinage above, all encircled by a waved band enclosed within a square surrounded by the designation expressed in Urdu, Nagri, Bengali and Telugu.

(4) The four-anna coin shall be a coin with a waved edge with eight crests and eight hollows. Its greatest diameter being 25 millimetres. The rim shall not be milled.

(5) It shall bear on the obverse the effigy of His Majesty King George V, and the inscription George V King-Emperor with the year of coinage, and the word India, and on the reverse the figure "4" in Roman character with the word "annas" below, all within a square, surrounded by the designation expressed in Urdu, Nagri, Bengali and Telugu.

The 12th December 1919.

No. 3157 F.—In pursuance of sub-section 2 of section 3 of the Gold (Import) Act, 1917, the Governor General in Council is pleased to prescribe the following rates at which payment shall be made for gold taken possession of under the provisions of the said Act:—

Class of gold.	Rate.
(1) Gold coins coined at His Majesty's Royal Mint in England or at any mint established in pursuance of a Proclamation of His Majesty as a branch of His Majesty's Royal Mint.	Rs. 11 per sovereign.
Provided that such coins have not been called in by any Proclamation made in pursuance of the Coinage Act, 1870, or have not lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the said statute as the least current weight.	
(2) All other gold not included in entry No. 1	Rs. 1 for every 10.273 grains troy of fine gold.

2. The notification by the Government of India in the Finance Department, No. 2976-P., dated the 22nd November 1919, is hereby cancelled.

(Note 1.—Gold shipped to India on a through bill of lading before the 12th December 1919 will be paid for at the rates hitherto in force.)

Note 2.—When firms or institutions have arranged to import gold into India and wish to avoid risks from possible variations in the acquisition rate before it is delivered to the Government of India, the Controller of Currency or, in the case of gold delivered at Bombay, the Accountant General, Bombay, will be prepared to contract on behalf of the Government of India to pay for the gold on delivery at the acquisition rate prevailing at the time the gold was purchased for shipment. Firms or institutions wishing to take advantage of this arrangement must declare the fact and date of purchase to the above officers without delay and as soon as they have received intimation thereof. The officer making the contract will take such undertaking as he thinks fit from the firm or institution to ship and deliver gold with all possible expedition for payment at the rate stated.

The India Office is prepared to make a similar arrangement with firms and institutions who find it more convenient to submit in London evidence of their having engaged gold for shipment to India.)

LEAVE AND APPOINTMENTS.

The 19th December 1919.

No. 2142-F.E.—Mr. J. G. Bhandari, Deputy Accountant General, Posts and Telegraphs, Telegraph Branch, Calcutta, has been granted privilege leave for five months, with effect from the 14th November 1919.

No. 2146-F. E.—Mr. B. K. Chatterjee, Assistant Accountant General, Punjab, has been granted privilege leave for 2 months and 17 days, with effect from the 2nd December 1919.

Mr. Nathu Lal, a senior Accountant in the office of the Accountant General, Punjab, has been appointed to officiate as an Assistant Accounts Officer, class II, in that office, with effect from the 2nd December 1919 and until further orders.

The 11th December 1919.

No. 200-G1. (F.E.).—Mr. C. W. C. Carson, O.B.E., Accountant General, Bombay, has been appointed Deputy Controller of Currency, Bombay, with effect from the 8th December 1919.

Mr. R. Srinivasa Ayyar, Deputy Accountant General, Bombay, has been appointed to officiate as Accountant General, Bombay, with effect from the 8th December 1919.

H. F. HOWARD,

Secretary to the Government of India.

Secondly.—That there has been received by me, as the surplus of his property, the amount set opposite his name in the same table.

Thirdly.—That all claims by creditors against the property of the deceased are to be lodged with the official referred to in the column of remarks within two calendar months from the date of this notice.

Rank and name.	Corps or Department.	Place of death.	Date of death.	Testate or intestate.	Amount of surplus.	REMARKS.
					Rs. A. P.	
Captain W. E. Tollit.	2nd Battalion, 48th Pioneers.	Ahmednagar.	15th May 1919.	Intestate.	184 3 3	Secretary to the Government of India, Army Department.

ORGANIZATION.

No. 3474.—In exercise of the powers conferred by section 113 of the Indian Army Act, 1911 (VIII of 1911), the Governor General in Council is pleased to direct that the following amendments shall be made in the Enrolment Form No. 1, Combatants, prescribed in the Army Department Notification No. 911, dated the 3rd November 1911, as subsequently amended, namely :—

- For question No. 12 the following shall be substituted, namely :—
12. Are you willing to be transferred, at any time when necessity arises, to any corps of the group to which the corps in which you are serving belongs or, if you are serving in the Reserve, to any corps of the arm or branch of the service to which you belong? (d).
- For marginal note (d) the following shall be substituted, namely :—
(d) To be omitted if the enrolment is in the Indian Coast Artillery, the Machine Gun Corps, the Supply and Transport Corps or in a Department. Reservists of Gurkha battalions will not be transferred outside the Gurkha battalions.
- For the portion entitled "Transfer to the Reserve" the following shall be substituted, namely :—

TRANSFER TO THE RESERVE. ‡

On being transferred to the Reserve I consent to the conditions as to discharge, and to the liability to transfer, accepted by me ^{on my enrolment} being cancelled from ^{the date of my transfer to the Reserve} ^{on my enrolment and transfer to the Reserve} and to the following being substituted for them :—
^{the expiry of the period of my enrolment}

I will be entitled to receive my discharge at any time unless war is imminent or existing* provided that, if I am discharged at my own request before having served two years in the Reserve exclusive of any portion of the period of my enrolment, I will, before being so discharged, refund the amount expended on my passage consequent on my transfer to the Reserve.

I am willing to be transferred at any time when necessity arises to any corps of the arm or branch of the service to which I belong. §

I am aware that I am liable to be discharged at any time should His Majesty no longer require my services.

I understand that should the exigencies of the service permit, I shall be allowed to continue to serve in the corps to which I now belong, or in a corps of the group to which the corps in which I am now serving belongs.

* To be struck out in the case of a man who, instead of being discharged on demobilization, is transferred to the Reserve.

§ Reservists of Gurkha battalions will not be transferred outside the Gurkha battalions.

No. 3475.—In exercise of the powers conferred by section 113 of the Indian Army Act, 1911 (VIII of 1911), the Governor General in Council is pleased to direct that the following shall be added to the Enrolment Form No. 1-A, Combatants, prescribed in the Army Department Notification No. 1122, dated the 11th December 1914, as subsequently amended.

TRANSFER TO THE RESERVE.

On being transferred to the Reserve, I consent to the conditions as to discharge, and to the liability to transfer, accepted by me on my enrolment being cancelled from the date of my transfer to the reserve and to the following being substituted for them :—

I will be entitled to receive my discharge at any time unless war is imminent or existing.

I am willing to be transferred at any time when necessity arises to any corps of the arm or branch of the service to which I belong. §

I am aware that I am liable to be discharged at any time should His Majesty no longer require my services.

I understand that should the exigencies of the service permit, I shall be allowed to continue to serve in the corps to which I now belong, or in a corps of the group to which the corps in which I am now serving belongs.

No. 2315-1-E-19.—The services of Mr. F. D. Couchman, M.I.C.E., Member Railway Board, are placed temporarily at the disposal of the Indian Munitions Board, with effect from the 1st December 1919.

No. 2315-2-E-19.—The services of Mr. J. C. Highet, Assistant Secretary, Railway Board, are placed temporarily at the disposal of the Indian Munitions Board, with effect from the 27th November 1919.

The 10th December 1919.

No. 1656-E.—16.—The following is published for general information :—

No. 1656-E.—16.

GOVERNMENT OF INDIA.

RAILWAY DEPARTMENT.

(RAILWAY BOARD.)

ESTABLISHMENTS.

Delhi, the 10th December 1919.

RESOLUTION.

In the Resolutions of the Government of India in the Public Works Department, cited in the margin,* revised scales of pay for the members of the Engineer establishments employed in the Public Works Department and State Railways were promulgated, together with certain measures of re-organization consequent thereon. The Government of India have lately had under consideration the question of the adequacy or otherwise of these scales, and they have arrived at the conclusion that, under present conditions, the existing rates of pay are insufficient. The Governor General in Council, with the approval of His Majesty's Secretary of State for India, is, therefore, pleased to sanction the following revised scales of pay for the permanent Engineer service of State Railways with effect from the 30th August 1919 :—

Assistant and Executive Engineers.	IMPERIAL SERVICE.		PROVINCIAL SERVICE.	
	Senior Scale.	Junior Scale.	Senior Scale.	Junior Scale.
1st year of service	450	...	300
2nd "	500	...	340
3rd "	550	...	380
4th "	700	600	500	420
5th "	750	650	540	460
6th "	800	700	580	500
7th "	850	750	620	540
8th "	900	800	660	580
9th "	950	850	700	620
10th "	1,000	900	740	660
11th "	1,050	950	780	700
12th "	1,100	1,000	820	740
13th "	1,150	1,050	860	780
14th "	1,200	1,100	900	820
15th "	1,250	1,150	950	860
16th "	1,300	...	1,000	...
17th "	1,350	...	1,050	...
18th "	1,400	...	1,100	...
19th "	1,450	...	1,150	...
20th "	1,500	...	1,200	...
21st "	1,500	...	1,200	...
22nd "	1,500	...	1,200	...
23rd "	1,600	...	1,250	...

Superintending Engineers.—Rs. 1,750—100—2,150 for both Imperial and Provincial Services.

Chief Engineers.—Rs. 2,750—125—3,000 for both Imperial and Provincial Services.

2. The increments will be given for approved service only, but after the first increment has been admitted by the Agent or Engineer-in-Chief under whom the officer is serving, subsequent increments may be drawn on the date on which they are due and may be admitted in audit without sanction of higher authority, provided that the Railway Board has not issued an order withholding the increment in any particular case, and subject to the provisions of paragraph 3 below.

3. Pay on the junior scale will be drawn by officers holding charges of less importance than a district charge, but no such officer will be allowed to draw more than the pay of the 8th year of service on the junior scale unless the Railway Board are satisfied that he is fully qualified to hold charge of an important district.

4. Pay on the senior scale will be drawn by officers holding charges of not less importance than the charge of a district.

5. Permanent service rendered in the ranks of Chief and Superintending Engineers will count towards increments, except in the case of officers promoted to the rank of Superintending Engineer before their seniors in the ordinary line on special conditions as regards relative seniority.

6. The initial salary which each officer now in the service will draw under the new scales of pay will be determined by the Railway Board. In determining the initial pay under the new scales it should be understood that, though the Railway Board is accorded full power to fix the pay of any officer within the maximum admissible for his length of service, no officer whose promotion has been retarded in the past is, by reason of length of service, entitled to claim a higher rate of pay under the new scales than that admissible to the officer immediately above him in the seniority list.

ORDERED that this Resolution be forwarded to the officers noted below, for information, and that it be published in the *Gazette of India* for general information :—

The Agent, North Western Railway.

The Agent, Eastern Bengal Railway.

The Agent, Oudh and Rohilkhand Railway.

The Senior Government Inspector of Railways, Circles Nos. 1, 2, 3, 4, 5, 6 and 7.

The Government Inspector of Railways, Circle No. 2A, Burma.

The Engineer-in-Chief, Nushki Extension Railway.

The Engineer-in-Chief, Agra-Karachi Railway Survey.

The Engineer-in-Chief, Hukong Valley Railway Survey.

The Engineer-in-Chief, Khyber Railway Survey.

The Engineer-in-Charge, Hardwar-Karnprayag Railway Survey.

The Engineer-in-Charge, Neemuch-Pachpahar-Goonna Railway Survey.

Ordered also that this Resolution be communicated to the Home, Finance, Revenue and Agriculture, Commerce and Industry, Public Works, and Army Departments of the Government of India, and to the Accountant General, Railways.

By order,

R. McLEAN,

Secretary, Railway Board.

The 11th December 1919.

No. 3-T.—18.—In exercise of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, and in pursuance of section 47, sub-section (3) of the Indian Railways Act, 1890 (IX of 1890), as in force in British India or as locally applied, the Railway Board sanction the following rules made by the Bhavnagar State Railway, under sub-section (1), clauses (f) and (g) of the said section, for and to be applicable to the Bhavnagar State Railway System situate in British India or in Native States, for regulating the terms and conditions on which the Railway Administration will warehouse or retain goods at any station or depôt on the said Railway, on behalf of the consignee or owner, and for regulating the use of rolling stock, engines and trains on the said Railway by the public:—

BHAVNAGAR STATE RAILWAY.

I.—RULES FOR WAREHOUSING AND RETENTION OF GOODS.

Wharfage.

Wharfage should be calculated—

- (1) where freight is levied on weight—upon such weight,
- (2) where freight is levied on the vehicle in or on which the goods are carried—upon the carrying capacity of such vehicle.

Circumstances.	Time allowed free.	Commodities.	Rate per maund or part of a maund per day or part of a day in excess of the free time.	REMARKS.
On goods brought on to Railway premises for despatch but consignment notes not received.	Midnight of the day following that on which the first portion of the consignment was received at the Station.	For goods of every description.	Six pies . . .	Goods will in all cases be at owner's risk until a receipt in the prescribed form has been granted duly signed by an authorised Railway servant.
On goods available for delivery.
Goods not removed (a) from Railway premises.	24 hours from midnight of the day on which they arrived at destination.	For cotton in docks or in half-pressed bales.	...	The goods will be stored either under cover or in the open as space may be available.
	48 hours from midnight of the day on which they arrived at destination.	For other goods	Ditto.

Notes.—(a) I. At Bhavnagar Dock Station no wharfage on account of Railway is chargeable as all goods arriving at this station are unloaded on Bhavnagar State premises and are subject to the Dock rules for wharfage, etc.

II. At Wadhwan Junction, the rules for wharfage and demurrage are those in force on Bombay, Baroda and Central India Railway.

III. All consignments of salt are allowed to remain at a station free of wharfage charge for seven days from the date of arrival, after which period, if the consignments are not removed, one pie per maund or part of a maund per day or part of a day is leviable.

2. A consignee must take delivery of goods forming part of consignment whenever they are available for delivery notwithstanding that the remaining goods are short or damaged or have not arrived at their destination or otherwise not available for delivery and, if the consignee does not take delivery of such goods forming part of a consignment as are available for delivery, they will be subject to wharfage charges if not removed within the time allowed for removal.

On Luggage and Parcels Available for Delivery.

3. For unclaimed booked luggage and parcels the following warehouse charge will be made if they are not removed from Railway premises within 48 hours from midnight of the day of arrival :—

Rate per maund or part of a maund
for 24 hours or part of 24 hours.

Rs.	A.	P.
0	1	0

Minimum charge per package.

Rs.	A.	P.
0	1	0

On Carriages, Motor Cars, Carts and Palanquins.

4 (a) Carriages, motor cars, carts, palanquins, etc., left on the Railway premises awaiting removal by consignee after expiration of 48 hours from the time they are available for delivery, will be subject to a wharfage charge of Rupee one per vehicle per day or part of a day (availability for delivery to be considered as soon as the carriages, etc., are unloaded).

(b) A similar charge will be levied on all carriages, motor cars, carts, palanquins, etc., left on the Railway premises awaiting despatch order from consignor after the expiration of 24 hours, from the time they are brought to the station, but until a Railway Receipt is granted, the Railway does not acknowledge any responsibility in respect to such carriages, motor cars, carts or palanquins which must be at owner's risk.

On Birds, Poultry and Animals.

5. Cats, mongooses, ferrets, guinea pigs, rabbits, monkeys, birds, puppies, kittens and other small animals when sent as parcels and if sent without some one in charge, will be charged as follows after the expiry of 6 hours from the time they are available for delivery :—

One anna per package for every hour or part of an hour.

These charges to be in addition to any expenses entailed in feeding the birds, animals, etc.

Under any circumstances, live animals should be removed from the Railway premises within 24 hours, from the time of arrival at destination, failing which they may be disposed of under section 56, clause 2, Railway Act, IX of 1890.

Notice of Arrival.

6. The Railway Administration do not undertake to serve notice of arrival of goods and parcels on the consignees or their agents and non-receipt of such advice will not entitle the consignees to exemption from wharfage and demurrage charges if the goods and parcels are not taken delivery of within the free time allowed.

Treatment and Disposal of Unclaimed Goods and Parcels.

7. (a) Subject to the exception mentioned in Rule (e) below, unclaimed goods (parcels and luggage) will be kept on hand at the station to which booked for a period of not less than one month during which time the notice prescribed in section 56, sub-section (1) of the Indian Railways Act, IX of 1890, will be issued if the owner of the goods or person entitled thereto is known.

(b) If not taken delivery of within a period of one month after receipt at the station to which booked, unclaimed goods, booked luggage and parcels will be sent to the Unclaimed Goods or Lost Property Office, Bhavnagar Para, and dealt with as laid down in Rule (f) below.

(c) Unclaimed articles will be liable to the wharfage and demurrage charges hereinbefore referred to as well as to all freight and special expenditure incurred by the Railway Administration on account of their custody and disposal.

(d) Where articles such as arms, ammunition, explosives, intoxicating liquors, opium and its preparations and hemp drugs, the sale of which by unlicensed persons is prohibited by law, are left unclaimed in the possession of the Railway Administration, they will be made over to the Police or Excise authorities for disposal under the law affecting the articles. When not of a dangerous, perishable or offensive character, they will however be retained in the possession of the Railway administration for the same period as that prescribed for other unclaimed articles.

This rule in so far as it relates to explosives is supplemental to and not in modification of the rules made under the Indian Explosives Act.

(e) Perishable articles unclaimed or not taken delivery of will be disposed of by auction at owner's risk and expense by the Station Master of the station at which they may be left after the expiry of 24 hours or earlier if they are, or are likely to become, offensive.

(f) Public sales by auction will be held from time to time of all unclaimed or lost property which has remained in the possession of the Railway administration over 6 months. At least 15 days' previous notice of each auction will be given by advertisement in a newspaper.

(g) Any surplus proceeds arising out of sale of lost property or unclaimed consignments will, after payment of all charges and expenses due to the Railway administration, be paid to the person or persons thereto entitled.

Lost Property.

8. (a) Lost property found in Railway vehicles or on Railway premises will, subject to the exception mentioned in paragraph (e) above, be sent to the Lost Property Office after 48 hours and will be dealt with in the same manner as unclaimed booked goods.

(b) Application for the recovery of lost property should be made to the nearest Station Master and also to the Traffic Superintendent, Bhavnagar Para, marked on the outside cover "Lost Property."

(c) The Lost Property Office is situated at Bhavnagar Para.

(d) A storage charge of annas four for each article or package per month or portion of a month will be made for the time it has remained in the possession of the Railway as lost property.

Left Luggage Offices or Cloak-rooms.

9. (a) Luggage or parcels may be placed for temporary custody in charge of the Station Master.

(b) A left luggage ticket shall be given to any person depositing luggage or parcels for custody in a Cloak-room and delivery will be made to any person presenting such receipt ticket, after which all responsibility of the Railway administration in respect of such luggage or parcels shall absolutely cease and determine. The person presenting the ticket must sign his name on the ticket and enter the date. An Indemnity Bond should be executed by the owner in all cases of loss of left luggage receipts.

(c) Before a left luggage ticket is given, the luggage ticket issued at the forwarding station in the case of luggage received by Railway, must be collected.

(d) A charge of two annas per maund or part of a maund for the first 24 hours or part of 24 hours and one anna per maund or part of a maund for each subsequent 24 hours or part of 24 hours will be levied from the time the package is deposited in the Cloak-room. This time will be marked on the left luggage ticket just below the date. (For the purpose of this rule Sundays, Good Friday and Christmas Day are not considered *dies non*.)

(e) The responsibility of the Railway administration for articles left in a Cloak-room shall be that of a bailee under sections 151, 152 and 161 of the Indian Contract Act, 1872 (IX of 1872).

Articles deposited in Cloak-rooms which are unclaimed may after a period of one month be transferred to the Lost Property Office and dealt with as prescribed for unclaimed consignments.

II.—RULES FOR REGULATING THE USE OF ROLLING STOCK, ENGINES AND TRAINS.

10. Demurrage.

Circumstances.	Time allowed free.	Rate per ton or part of a ton of carrying capacity per hour or part of an hour in excess of the free time.	REMARKS.
On vehicles ordered and waiting to be loaded by senders or detained for consignment note or otherwise owing to default of or at the request of the sender.	9 working hours from the time the wagons have been placed in position for loading.	One anna.	
On loaded vehicles waiting to be discharged by owners.	9 working hours from the time the wagons have been placed in position for unloading.	One anna	The Railway administration reserves to itself the right to discharge and release the wagons in case of goods received in wagons the unloading of which has to be done by the consignee who fails to perform the unloading within the time allowed. In such cases an extra charge of three pies per maund will be made in addition to any wharfage charge due on the contents.
On vehicles waiting to be discharged or loaded by owners in private sidings.	In the busy season, i.e., from 1st December to 30th June in every year, 6 working hours for either loading or unloading and in the slack season, i.e., from 1st July to 30th November in every year, 12 working hours from the time the wagons have been placed in the siding.	One anna.	
On wagons supplied in Quarry lines for loading stones but not used.	...	One rupee per wagon per day.	

NOTE.—Working hours are reckoned as from 7 to 17 o'clock. Demurrage will be charged for every hour day or night in excess of free time.

Demurrage Charge on Reserved Carriages.

11. When for the convenience of passengers, reserved carriages are detained either at the starting or at intermediate stations a charge of 12 annas for an 8-wheeled carriage, 9 annas for a 6-wheeled and 6 annas for a 4-wheeled carriage, per hour or part of an hour will be made.

The same charge applies for detention to carriages ordered by intending passengers and not used from the time the vehicle is available till the time when intimation is received that it is not required.

Demurrage Charge for Engine.

12. A demurrage charge of Rs. 8 per hour or part of an hour shall be made for the engine of a special train ordered but not availed of or availed of but detained for the convenience of passengers at the starting station *en route* or at destination.

13. In the case of a special train once requisitioned being countermanded or being delayed before starting, the demurrage charges as notified in paragraphs 11 and 12 above will be payable by the party.

III.—CALCULATION OF CHARGES

14. In calculating wharfage and demurrage charges fractions of one anna less than six pies will be dropped and six pies and over will be charged is one anna. Where the total amount of wharfage and demurrage due on any consignment is less than two annas it will be foregone.

IV.—GENERAL.

15. (a) Goods are considered as available for delivery as soon as they are unloaded. Delivery of goods "available for delivery" to be held to be effected after the whole consignment is removed from the Railway premises except where otherwise specified.

(b) In the event of goods requiring to be loaded or unloaded by owners becoming liable to both demurrage and wharfage charges, the Railway administration will levy both demurrage and wharfage charges for such periods as the goods would be liable to such charges under these rules.

(c) If and for so long as the state of the traffic or any sudden emergency makes it necessary, the rate of wharfage or demurrage will after due advertisement in the local newspapers be increased and the free time curtailed.

(d) Sundays, Christmas Day and Good Friday will not be reckoned in charging wharfage or demurrage except in the case of wagons the contents of which have to be unloaded by consignees.

(e) Consignments unloaded on Sundays, Christmas Day, or Good Friday may be delivered on the same days if consignees wish to take delivery.

(f) The Railway administration shall have the same lien on goods for wharfage or demurrage as for freight and these charges must, except under special arrangements, be paid before the goods are removed.

(g) Explosives or dangerous goods must be removed by the consignee from the receiving station during the 12 hours of daylight after arrival; if this condition is not strictly complied with, the Railway administration may return the consignment to the consignor at his risk and expense.

Daylight hours are reckoned as from 6 to 18 o'clock.

No. 1544-E.—19.—The undermentioned reversions among Chief and Superintending Engineers, State Railways, are ordered with effect from the 7th August 1919 :—

Name.	From	To

F. R. R. RUDMAN,
Secretary, Indian Munitions Board.

[To be substituted for the Resolution bearing the same number and date.]

No. 1918.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.

Delhi, the 30th November 1919.

RECOMMENDATIONS OF THE PUBLIC SERVICES COMMISSION RELATING TO PENSIONS OF THE INDIAN CIVIL SERVICE.

RESOLUTION.

In connexion with the recommendations of the Royal Commission on the Public Services in India relating to the Indian Civil Service contained in paragraphs 45 and 46 of Annexure X to their Report, the Government of India, with the approval of the Secretary of State, are pleased to announce that it has been decided—

- (1) to retain the present uniform rate of £1,000 for annuities, and
- (2) to continue the 4 per cent. deduction now made under Article 553, Civil Service Regulations, but to fund it for the benefit of the officer himself with effect from the 1st April 1919, this being returned to him on retirement, or to his legal representative in case of death, with the same interest as is allowed on subscriptions to the General Provident Fund. Amounts subscribed by existing members prior to this date will not be funded for their benefit.

2. The Commission in paragraph 48 of Annexure X to their Report expressed the opinion that the existing rates of invalid annuities laid down in Article 564, Civil Service Regulations, are sufficiently liberal, but the attention of the Government of India has been drawn to the facts that, *firstly*, when questions of the retirement on grounds of health of members of the Indian Civil Service have been under consideration, difficulties have from time to time arisen owing to the disproportion between the rates of the invalid annuities and the amount of the annuity of £1,000 which an officer receives on retirement after a full term of service, *secondly*, that local Governments are naturally unwilling to penalise officers retiring through no fault of their own, and endeavour so far as possible to avoid the premature retirement of their officials on invalid pension, and, *thirdly*, that officers who ought in their own interests and in the interests of the service to be invalided are induced by pecuniary considerations to avoid appearance before Medical Boards and persist in their duties at serious risk to health and even life. The Government of India, with the approval of the Secretary of State, have therefore decided to improve the rates as follows, the exact amount being calculated on years of "active" instead of "total" service as heretofore:—

				£
For total active service of less than 4 years—a gratuity of				500
" " " not less than 4 years but less than 5 years—an annuity of				150
" " " " " 5 " " " 6 " " "				170
" " " " " 6 " " " 7 " " "				200
" " " " " 7 " " " 8 " " "				230
" " " " " 8 " " " 9 " " "				260
" " " " " 9 " " " 10 " " "				290
" " " " " 10 " " " 11 " " "				320
" " " " " 11 " " " 12 " " "				360
" " " " " 12 " " " 13 " " "				400
" " " " " 13 " " " 14 " " "				440
" " " " " 14 " " " 15 " " "				480
" " " " " 15 " " " 16 " " "				540
" " " " " 16 " " " 17 " " "				600
" " " " " 17 " " " 18 " " "				660
" " " " " 18 " " " 19 " " "				720
" " " " " 19 " " " 20 " " "				780
" " " " " 20 " " " 21 " " "				840
" " " " " 21 years—an annuity of				900

This scale will apply to all officers invalided since 1st April 1919 and from date of invaliding. Any of these officers or any officers now in the service invalided hereafter will be allowed the benefit of the present rules in the rare cases where owing to special circumstances the present rules are more favourable to them.

ORDER.—Ordered that a copy of this Resolution be forwarded to all local Governments and Administrations, the several Departments of the Government of India (including the Financial Adviser, Military Finance) and the offices subordinate to this Department for information and guidance.

Ordered also that it be published in the Supplement to the *Gazette of India* for general information.

W. S. MARRIS,
Secretary to the Government of India.

No. 715-D.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

RESOLUTION.

TARIFF RATE ON ALL IMPORTED COTTON PIECE-GOODS.

CUSTOMS DUTIES.

Delhi, the 11th December 1919.

IN this Department Resolution No. 5443-5449-8, dated the 13th July 1906 (Customs Circular No. IV of 1906), the Government of India prescribed a list of imported cotton piece-goods for fiscal purposes so as to enable Customs Officers to differentiate between piece-goods assessable at $3\frac{1}{2}$ per cent. and other goods assessable at 5 per cent. under the Tariff then in force; and the list has been revised from time to time by the Resolutions cited in the

* Resolution No. 6520-6526-8, dated the 21st August 1906 (Customs Circular No. VIII of 1906).

Resolution No. 10115-10121-8, dated the 21st December 1906 (Customs Circular No. XIV of 1906).

Resolution No. 10714-10720-122, dated the 19th December 1907 (Customs Circular No. X of 1907).

Resolution No. 9321-9327-139, dated the 22nd December 1910 (Customs Circular No. VI of 1910).

Resolution No. 9413-9418-102, dated the 23rd December 1912 (Customs Circular No. XI of 1912).

margin.* Inasmuch as, under the present tariff, all cotton piece-goods and all other manufactured cotton goods not otherwise specified, as well as apparel, are assessable at a uniform rate of $7\frac{1}{2}$ per cent. and there is, there-

fore, no longer any difficulty in levying duty on these different descriptions of goods the necessity for maintaining or revising the list referred to has disappeared. The Government of India have, therefore, decided to rescind the previous Resolutions on the subject.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Government of Madras, Revenue Department, Bombay, Revenue Department, Bengal, Financial Department, Barma, Separate Revenue Department, for information and communication to the Customs authorities and commercial associations.

Ordered also that a copy be forwarded to the Director General of Commercial Intelligence, for information and guidance.

Ordered also that the Resolution be published in the *Supplement to the Gazette of India* for general information.

RESOLUTION.

COMPOSITION AND PERSONNEL OF THE COMMITTEE APPOINTED TO INVESTIGATE THE PROBLEMS OF SUGAR CULTIVATION AND MANUFACTURE IN INDIA.

(AGRICULTURE.)

Delhi, the 11th December 1919.

In continuation of the Government of India, Department of Revenue and Agriculture, Resolution No. 949-151, dated the 2nd October 1919, the Governor General in Council is pleased to announce that the composition and personnel of the Committee which has been appointed to investigate the problems of sugar cultivation and manufacture in India has been finally settled as follows :—

- | | |
|--|-----------------|
| 1. Mr. J. MacKenna, C.I.E., I.O.S., Agricultural Adviser to the Government of India. | President. |
| 2. Mr. F. Noyce, I.C.S. (Madras). | Vice-President. |
| 3. Mr. J. W. Macdonald of Messrs. Henry Tate and Sons, Limited, Refiners. | Members. |
| 4. Mr. W. W. Craib, formerly sugar planter in Demerara and Cuba. | |
| 5. Sir Frank Carter, Kt., C.I.E., C.B.E. | |
| 6. Sirdar Jogendra Singh, Punjab. | |
| 7. Mr. B. J. Padshah of Messrs. Tata and Sons, Limited, Bombay. | |
| 8. Mr. W. Sayer of the Indian Agricultural Service. | |
| 9. Mr. A. B. Shakespear, C.I.E., of Messrs. Begg Sutherland and Company, Cawnpore, co-opted for the period of the Committee's tour in Upper India and Burma. | |

ORDERED that a copy of the Resolution be communicated to all Local Governments and Administrations, to Mr. J. MacKenna, C.I.E., I.O.S., President of the Sugar Committee, and to the members of the Committee, and to the Finance, Commerce and Industry and Foreign and Political Departments and to the Secretary to the Committee, for information.

ORDERED also that the Resolution be published in the *Supplement to the Gazette of India* for general information.

R. A. MANT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on
Thursday, the 11th December 1919, based on the Indian
Daily Weather Reports of the period.**

1. Rainfall occurred in the extreme south of the Peninsula between the 4th and 7th. Towards the end of the week a disturbance from Persia passed into northwest India and gave light local rain in Baluchistan and the hills of the North-West Frontier Province.

2. *Burma*.—There was no rain.

Northeast India, including Orissa.—Except for a light fall at Tezpur weather was dry.

The United Provinces, Central India and the Central Provinces.—The week was rainless.

Northwest India.—In Baluchistan local rain fell on the 9th and a few falls occurred on the 10th. In the North-West Frontier Province there were a few falls in the hills on the 10th. Over the rest of the division weather was dry.

The Peninsula.—In Malabar rainfall was local on the 5th and occurred at a few stations on one other day. In southeast Madras nearly general rain fell on the 5th and 6th, and local rain on the 7th, while a few falls were recorded on two other days. Over the rest of the division the week was rainless.

3. The chief amounts of rainfall reported were as follows :—

December 5th. Trivandrum 5·86", Tinnevely 0·91", Pamban 1·54", Negapatam 4·12" and Cuddalore 1·52".

" 6th. Negapatam 1·61" and Cuddalore 1·70".

" 7th. Cochin 1·57", Negapatam 6·10" and Salem 1·42".

" 8th. Pamban 1·40".

" 9th. Port Blair 1·94".

" 10th. Kalat 0·26" and Parachinar 0·14".

4. The week's rainfall was 20 per cent or more in excess in the Bay Islands, Malabar and Madras Southeast; and was 20 per cent or more in defect in Burma, Assam, Bengal, Orissa, Chota Nagpur, the United Provinces West, the Punjab, Kashmir, Baluchistan, Rajputana East, Central India East, Berar, the Central Provinces West, the Bombay Deccan, Hyderabad North, Mysore, the Madras Deccan and the Madras Coast North. No rain usually falls at this time of year in Bihar, the United Provinces East, the North-West Frontier Province, Sind, Rajputana West, Gujarat, Central India West, the Central Provinces East, the Konkan and Hyderabad South.

The rainfall from the 28th November to date is 20 per cent or more in defect in Burma, Bengal, Orissa, Chota Nagpur, the United Provinces West, the Punjab, Kashmir, the North-West Frontier Province, Baluchistan, Rajputana East, Central India, Berar, the Central Provinces, the Bombay Deccan, Hyderabad North, Mysore and the Madras Deccan; and is 20 per cent or more in excess in the Bay Islands, Assam, Malabar and Madras Southeast. It differs from the normal by less than 20 per cent in the Madras Coast North. No rain is expected at this time of year in Bihar, the United Provinces East, Sind, Rajputana West, Gujarat, the Konkan and Hyderabad South.

M. G. SUBRAHMANYAM,
for Offg. Director General of Observatories.

Dated the 11th December 1919.

B. A. MANT,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 6th December 1919.

Burma.—The week was rainless in Lower Burma. Reaping of early rice is progressing and that of winter rice has commenced in Upper Burma. Gathering of groundnuts is still proceeding. Plucking of cotton has been almost completed. Cultivation of island crops is progressing. Standing crops are generally in fair condition but the outturn of rice crop is expected to be about twelve annas only. Cattle are generally healthy. In the Amherst district the number of persons on relief works remains unchanged at 2,700 and the number of persons receiving gratuitous relief was about 100. The price of white rice (specials) in Rangoon is stationary at Rs. 385 per hundred baskets.

Assam.—During the week the weather was seasonable and favourable. Plucking of tea and cotton, harvesting of winter rice and sowing of mustard and pulses continue. Pressing of sugarcane is going on. The outturn and prospects of crops are fair. Cattle disease is reported from four districts. The price of common rice continues to fall.

Bengal.—No rain fell during the week. Reaping of winter paddy is in progress. Sowing of spring crops is well advanced. Standing crops are doing well. The average price of common rice has fallen by 2.87 per cent.

Bihar and Orissa.—There was no rain during the week. Sowings for spring crops have been nearly completed. Harvesting of paddy and pressing of sugarcane are in progress. Standing crops are, on the whole, doing well. More rain is, however, wanted in parts of Tirhut and Purnea. Gratuitous relief was given to 450 persons in Puri. The price of common rice has risen in two districts, fallen in eleven and remained stationary in the remaining districts as compared with that of the preceding week. The average price of local common rice at headquarters was 6.66 seers a rupee against 6.39 seers in the preceding week and that of maize was 7.62 seers against 7.60 seers in the preceding week. Cattle disease is reported from seven districts. During the week ending the 29th November 14 persons were given gratuitous relief and 89 attended test works in one of the Feudatory States of Orissa, viz., Baramba.

*The weekly report on famine for week ending the 29th November is as follows:—*Famine operations in Deoghar and Bhagalpur Sadar were closed on 15th November and those in Banka sub-division on 1st December.

United Provinces.—No rain fell during the week. Preparation of lands for and sowings of spring crops and poppy have been nearly finished. Harvesting of autumn crops, irrigation of spring crops, pressing of sugarcane and picking of cotton continue. Standing crops are doing well. Prospects are favourable. The condition of agricultural stock is satisfactory. Fodder, water and market supplies are sufficient. Prices are almost stationary.

Punjab.—During the week the weather remained dry. Rain is urgently wanted for standing crops which are average to good on irrigated and below average to average on unirrigated areas. Picking of cotton, pressing of sugarcane and harvesting of other autumn crops are in progress. The yield is generally normal on irrigated and below normal on unirrigated areas. Sowings of wheat and other spring crops continue and are generally normal on irrigated and below normal on unirrigated areas. Cattle are generally healthy but fodder is scarce in parts of a few districts. Canals are closed in some districts. Prices of wheat are generally stationary and above scarcity rates. Prices of wheat:—Rawalpindi 5½, Ferozepore and Ambala 6½, Lyallpur 6½ and Lahore 6½ seers per rupee.

North-West Frontier Province.—The week was rainless. Rain is much needed. Sowings of spring and harvesting of certain autumn crops are in progress. The outturn of cotton is below average. Standing crops are generally average but prospects of crops on unirrigated areas in one district are reported to be poor. Prices of wheat:—Peshawar 7½ and Dera Ismail Khan 6½ seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Fodder is sufficient.

Kashmir.—The week was generally dry and cold. Cattle disease is reported in Gurez. Agricultural operations for spring crops are in progress. Prices are fluctuating.

Rajputana.—During the week the weather was cool and clear. Sowings for spring crops still continue. Standing crops are in good condition. Agricultural stock is good except in three districts of Kotah. Water and fodder are sufficient. Prices are high and practically stationary.

Central India.—The rainfall during the week was partial. It was insufficient in four districts of Gwalior. Harvesting of autumn crops and sowing for spring crops are in progress. Picking of cotton continues in Gwalior and Indore. Standing crops with their probable outturn are fair to good. Damage is reported in two parganas in Baghelkhand. Agricultural stock is generally good except for cattle disease in parts of Gwalior, Indore and Baghelkhand. Prices are high. Opium is being sown in Gwalior and Indore.

Central Provinces.—During the week the weather has been clear and cool with no rain. Harvesting, threshing and winnowing of autumn crops and picking of cotton are well advanced. Standing crops are in excellent condition except in parts of the Nagpur division where *tur* and *juar* have been damaged slightly by wind and insects. Sowings for spring crops still continue in places. Prospects are very good at present. No deficiency of fodder or water is reported from anywhere. Agricultural stock is generally in good condition. *Juar* fell in Betul and rose in Chanda by $1\frac{1}{2}$ seers per rupee. The price of wheat shows a slight upward tendency.

Feudatory States.—Harvesting of autumn crops continues. Germination of spring crops is satisfactory.

Bombay.—Standing crops are generally in good condition except in parts of Broach and Bijapur where they were damaged by insects. Harvesting of autumn crops and spring sowing continue. Cotton picking is in progress in Hyderabad, Ahmedabad, in parts of the Deccan and Kathiawar. The supply of fodder and water is generally adequate. Agricultural stock is generally sufficient. Cattle are in good condition. Prices of food-grains have risen slightly in Larkana, Nawabshah and Ahmedabad; fallen in Kanara, West Khandesh and Satara and are generally steady elsewhere.

Hyderabad.—The rainfall during the week was *nil*. Harvesting of autumn crops is nearing completion and that of early rice continues. Sowing of *ragi* has been almost completed. Prospects of standing crops are generally hopeful. Lands are being prepared for and sowings of hot weather crops are progressing. Damage by insects is reported in 3 *talukas*. Cattle disease is reported from four districts. Prices of grains continue to be high. *Juar* is selling at 4 seers per rupee in the Adilabad district.

*The weekly report on famine for week ending 29th November is as follows:—*Distress continues though confined to affected parts of the Telingana district and is likely to increase after close of autumn harvesting operations. *Takavi* is being advanced to help spring cultivation. Prices of grains continue to be high. Rice is selling at $3\frac{1}{2}$ seers and *juar* at 7 seers per rupee. Numbers relieved in thousands for week ending the 20th November:—works 8, gratuitous relief 6, total 14.

Mysore.—The rainfall during the week was light. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available. Prices are high but falling. Prospects of the season are fair. Harvesting of *ragi*, rice and sugarcane is proceeding with outturn fair to good.

Coorg.—During the week the weather was cold. The condition of rice is good. Picking of cardamum and coffee continues. Cattle are generally healthy. Water and fodder for cattle are available. The public health is fair. Prices of food-grains are high.

Madras.—The rainfall during the week was very heavy in South Arcot and Tanjore, heavy in Chingleput, Ramnad, Tinnevely and Travancore, good in Madras, Chittoor, North Arcot, Trichinopoly, Pudukotai, Madura and the hills, fair in Coimbatore and Malabar and light or *nil* elsewhere. Standing crops are in fair condition generally but they have been damaged in small areas in Ramnad owing to excessive rain. The outturn of harvested paddy and dry crops is generally fair. Fresh sowings of paddy and dry crops are progressing. The condition of cattle is generally good. Water is sufficient except in parts of six districts. Pasture and fodder are sufficient generally. Prices are generally steady. Prospects are fair generally.

*The weekly report on famine in Ganjam is as follows:—*Relief works two in Humma, Biridi and Palur and one in Ronabasa are in progress. Famine operations were closed on 13th November in Goomsur and in Kallikota and Atagada. Cloth distribution is being provided by private charity. Prices:—of rice in Chatrapur 4-8 and of *ragi* 7-8 seers per rupee. Numbers on relief works were 502 and in receipt of gratuitous relief 2,277, total 2,779.

B. A. MANT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

SUPPLEMENT TO

The Gazette of India.

No. 50. } CALCUTTA, SATURDAY, DECEMBER 13, 1919.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

WHOLESALE AND RETAIL (FORTNIGHTLY) PRICES

RETURN SHOWING the WHOLESALE and RETAIL PRICES of CEREALS, PULSES, OILSEEDS, SUGAR (RAW), SALT, ETC., in INDIA by DISTRICTS for the FORTNIGHT ENDING THE 15TH NOVEMBER 1919

DEPARTMENT OF STATISTICS, INDIA }

December 10, 1919

G. FINDLAY SHIRRAS,

Director of Statistics

Published by order of the Governor-General in Council

PREFATORY NOTE.

Prices of Country Produce and Salt in India in the middle of November, 1919.

(a) *The first fortnight of November, 1919, as compared with the preceding fortnight.*

The average wholesale prices of food grains and pulses in India in the middle of November 1919, indicated a slight rise *viz.* 1 per cent as compared with a fortnight ago. Prices of rice, bajra, maize, and arhar dāl showed no fluctuation, but there was a rise of 4 per cent in barley, 2 per cent in jawar, and 1 per cent in wheat, and a fall of 1 per cent in gram. The price of ghi increased by 7 per cent and that of salt by 2 per cent, while raw sugar (gúr) fell by 1 per cent. The all-India fluctuation is as follows:—

Article	PREVIOUS FORTNIGHT (31st OCTOBER, 1919)		THIS FORTNIGHT (15th NOVEMBER, 1919)	
	Unweighted	Weighted	Unweighted	Weighted
Rice	100	100	100	98
Wheat	100	100	101	103
Barley	100	100	104	101
Jawar	100	100	102	102
Bajra	100	100	100	98
Maize	100	100	100	103
Gram	100	100	99	101
Arhar dāl	100	—	100	—
Ghi	100	—	107	—
Raw Sugar (gúr)	100	100	99	99
Salt	100	—	102	—

The noticeable changes in provincial prices are a rise of 23 per cent in barley in the Bombay Presidency, and a fall of 17 per cent in maize in the North-West Frontier Province and of 18 per cent in gram in the Madras Presidency. The price of ghi showed a rise of 26 per cent in Delhi and of 18 per cent in the North-West Frontier Province. Rice prices in Bengal fell by 5 per cent but wheat in the Punjab rose by 4 per cent.

(b) *The first fortnight of November, 1919, as compared with the average of the preceding three years at corresponding date.*

The wholesale prices of cereals and pulses in India in the fortnight ending the 15th November, 1919, showed a rise of 47 per cent, as compared with the average of the prices which prevailed at the corresponding period in the last three years. The price of rice recorded a rise of 45 per cent (unweighted average), the weighted average showing a rise of 58 per cent. In the principal rice producing provinces, the increase was 65 per cent in Bengal, 95 per cent in Bihar and Orissa, 35 per cent in the Madras Presidency, and 43 per cent in Burma. Wheat prices advanced by 33 per cent, showing a rise of 29 per cent in the Punjab, 39 per cent in the United Provinces, 37 per cent in the Central Provinces and Berar, and 32 per cent in the Bombay Presidency. Among other grains, arhar dāl showed an increase of 78 per cent, gram 66 per cent, and maize 49 per cent. There was also a rise of 41 per cent in barley, 38 per cent in jawar, and 27 per cent in bajra. The price of ghi showed a rise of 42 per cent and that of raw sugar (gúr) 54 per cent, but salt prices fell by 4 per cent.

* 5% barley, 3% dirt, and 30% red.

NOTE.—These statistics are compiled from fortnightly returns furnished by Local Governments and Administrations. They relate to the wholesale prices in the markets referred to above, which prevailed on the last (or nearest mart) day of each fortnight. The statistics for Karachi, Bombay, and Calcutta are compiled from the Chambers of Commerce Market Reports.

(a) Based on the price for the fortnight ending the 31st July, 1914, which is taken as 100.

India per maund of 82½ lbs

Index Numbers (a) . . .		100	108	127	123	109	120	120	

NOTE.—These statistics are entirely compiled from returns furnished fortnightly by Local Governments and Administrations. They relate to the retail prices in the head quarters of the districts and in the ports referred to above.

(a) Based on the price for the fortnight ending the 31st July 1914, which is taken as 100.
Relates to Khandwa wheat.

[The figures state quantity per rupee in seers of 80 tolas.]

(a) Not subject to duty prior to March, 1916

(b) Figures prior to March, 1916, are included with "All other articles wholly or mainly manufactured"

(c) Figures prior to March, 1916, were shown under "General Import Duties" of the old tariff

(d) Figures for the years previous to 1916-17 include vinegar

(e) Figures for the years previous to 1916-17 are exclusive of raw silk, raw hemp, and raw flax, which are included with "Yarn and textile fabrics"

(f) Figures for the years previous to 1916-17 include raw silk, raw hemp, and raw flax, but exclude haberdashery and millinery

(g) Figures for the years previous to 1916-17 include haberdashery and millinery and coral

(h) Figures for the years previous to 1916-17 represent articles imported by post only

(i) Subject to duty from 11th September, 1919: the figure against this item in the last column represents duty collected during the period from 11th September to 30th November, 1919

(j) Figures for the years previous to 1916-17 are included under "Land Customs"

(k) Figures for the years previous to 1916-17 represent the old combined head "Land Customs and miscellaneous"

* Exclude the duty collected on explosives, namely, blasting gun powder, etc., at 7½ per cent ad valorem

† Exclude the duty collected on petroleum which has its freezing point at or above 150° F. or 200° F. at 7½ per cent ad valorem

‡ Exclude the duty collected on confectionery at 7½ per cent ad valorem

§ Include indigo cess

G. FINDLAY SHIRBAS,
Director of StatisticsH. F. HOWARD,
Secretary to the Government of India

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, DECEMBER 13, 1919.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 8th November 1919.

On and after 15th November and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Delhi, Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Delhi and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered to the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,
Secretary to the Government of India."

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the date on which it is due.

J. J. MEIKLE,
Publisher, *Gazette of India*.

THE PATENT OFFICE

PATENTS and DESIGNS.

Calcutta, the 13th December 1919.

APPLICATIONS FOR PATENTS UNDER SECTION 3.

December 1.

- 5070. L. C. Harvey. *Improved metal melting furnace.*
- 5071. A. S. Gush. *Improved means for mounting electrodes employed in the prevention of corrosion in steam boilers, condensers and like structures.*
- 5072. E. S. Luard. *Improvements in or relating to vacuum brake systems and apparatus for railway vehicles and the like.*
- 5073. Sardar Raja Bahu. *Cooker.*
- 5074. S. Van L. Lippitt. *Improvements in and relating to apparatus for separating fiber.*
- 5075. Libbey Glass Co. *Process of drawing molten material in cylindrical form.*
- 5076. Libbey Glass Co. *Apparatus for forming molten material in cylindrical form.*
- 5077. Shale Reduction Machinery Corporation. *Process of and apparatus for recovering bitumens from shale and the like.*
- 5078. A. H. Jones. *Improvements in or relating to ore separating devices.*
- 5079. Q. R. S. Co. *Improvements in note sheets for automatic players.*
- 5080. G. H. Burrows. *Improvements in or relating to means or appliances for cleaning by vacuum.*
- 5081. F. A. Werner. *A new and useful insoluble rectal suppository.*
- 5082. D. H. Bibb. *Improvements in moulding machines.*
- 5083. Hartford-Fairmont Co. *Improvement in glass delivering apparatus.*
- 5084. F. G. Price. *Process of and apparatus for consolidating granular substances in moulds or other receptacles.*
- 5085. E. M. Sullivan. *Improvements in or relating to shoe upper-pulling machines.*
- 5086. C. V. Jorgensen. *Improvements in method of treating pyrolusite.*
- 5087. A. E. Pottle. *Improvements in or relating to standard electric fans and lights.*

December 2.

- 5088. R. J. Dennett. *Improved fastener and seal for wagons and the like.*
- 5089. Societa Anonima Brevetti Beccari. *System for obtaining the biological autodepuration of manure and of the rubbish and refuse of towns, by means of Beccari's zymothermic cells, and the applications thereof.*
- 5090. W. Gibson and H. I. Roberts. *Improvements in patterns for making the moulds in which metals are cast.*
- 5091. W. Gibson and H. I. Roberts. *Improvements in or in connection with fire bars.*

December 3.

- 5092. F. R. Rand and A. H. Vergine. *Improvements in collapsible crates and the like.*
- 5093. E. H. Degory. *Improvements in carburettors for internal combustion engines.*

December 5.

- 5094. R. J. Dennett. *Improved locking and sealing device with apparatus for operating the same for railway wagons and the like.*

APPLICATIONS ACCEPTED AND ADVERTISED UNDER SECTION 6.

Notice is hereby given that all persons interested in opposing the grant of a Patent on any one of the applications, referred to below, may, at any time within three months of the date of this *Gazette of India*, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

Printed copies of the specifications in the following list will be on sale at the Patent Office, 1, Council House Street, Calcutta, within about three weeks.

Any one desiring a copy posted to an address in British India should send to the Patent Office the sum of annas eight by money-order on which the number of the application should be stated on the coupon at the foot of the order.

- 4142. J. Hettinger and C. A. Vandervell. *Improvements in and relating to telegraphic and other instruments and installations.*
- 4209. T. G. McKay and H. Pollock. *Electric arc welding.*
- 4341. Nitrogen Products & Carbide Co., Ltd. *Improvements relating to the destructive distillation of carbonaceous materials.*
- 4342. Nitrogen Products & Carbide Co., Ltd. *Improved method of and apparatus for the treatment of pitch.*
- 4532. P. & M. Co. *Improvement in rail anchors.*
- 4955. (Mrs.) M. Fuhrhop. *Luminous glass bangles.*
- 4975. J. Wells. *Improvements in gas cleaning apparatus.*

5008. R. J. Dennett. *Improvements in or relating to the driving mechanism from the road wheels for taxi-meters or the like.*
 5011. Gillette Safety Razor Co. *Improvements in safety razors.*
 5012. McKenzie, Holland & Westinghouse Power Signal Co., Ltd. *Improvements relating to railway signalling systems.*

PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office 1, Council House Street, Calcutta, annas eight each.

3850. General Electric Co. *Improvements in and relating to the manufacture of steel.*
 4093. The Luckenbach Processes, Incorporated. *Improvements in or relating to contact methods of ore concentration.*
 4550. U. Duchesne and C. A. Gareau. *Improvements in back pressure brakes.*
 4585. Norsk Hydro-Elektrisk Kvaestofaktieselskab. *Improvements in production of reactions of gases.*
 4617. A. H. R. Fedden, L. F. G. Butler, and Cosmos Engineering Co., Ltd. *Improvements in or relating to cylinders for internal-combustion engines.*
 4640. G. W. Sutton. *Improvements in motor cultivators.*
 4661. D. H. Bibb. *A briquette moulding machine.*
 4676. C. T. Walker. *Rail clips for steel sleepers.*
 4700. C. Roy. *Improvements relating to rendering wood impermeable and recovering liquids contained therein.*
 4860. P. N. Mehta. *A process for the manufacture of potassium chromate and calcium chromate from chromium ores feldspar and gypsum.*
 4898. A. R. Khan. *Undetachable double swivel hinge for axle box face plates or covers of railway vehicles and the like.*
 4899. J. S. Island. *Method and apparatus for the fixation of atmospheric nitrogen.*
 4907. A. Somasundaram. *Compact steam cooker.*
 4914. J. Jackson. *Improvements in windmills.*
 4915. Thomas Robinson & Son, Ltd., C. J. Robinson and T. J. Stevenson. *Improvements in machines for separating dust and other particles from grain and other granular substances.*
 4916. J. Morrison. *Improved process for coating or covering the surface or surfaces of metal with lead or its alloys.*
 4919. N. G. Beckwith. *Improvements in and connected with rotary pumps.*
 4920. Holt Manufacturing Co. *Improvements in chain-tracks for vehicles with self-laying tracks.*
 4921. Holt Manufacturing Co. *Improvements in and relating to chain-track vehicles.*
 4926. W. J. Still. *Improvements in and connected with the cylinders of internal combustion engines.*
 4927. E. H. Young. *Improvements in cotton delinters.*
 4930. International General Electric Co., Inc. *Improvements in and relating to cooling dynamo electric machines.*
 4931. International General Electric Co., Inc. *Improvements in and relating to bearings.*
 4939. R. A. Thom. *Improvements in or relating to steam superheater pipes or elements and a method of manufacturing the return ends or torpedo ends of such elements and the like.*

SEALING FEES DUE UNDER SECTION 10.

CESSATION OF EXCLUSIVE PRIVILEGES.

The public are warned that entries under this heading must not be accepted as final, as under the provisions of Rules 9 and 11 of "The Indian Patents and Designs (Temporary) Rules, 1915," the Controller may extend the time prescribed by the Indian Patents and Designs Act, 1911, and by the Inventions and Designs Act, 1888, for paying the necessary renewal fees.

The Patent Office will supply on request definite information, so far as possible, as to the position of any particular Patent or Exclusive Privilege.

1910.

56. (Mrs. Trott.)

1915.

2283. (Faraday.) 2288. (Regal.)

DESIGN ENTERED ON THE REGISTER.

From December 1st to 6th. 1919.

Class 2. No. 9079. Bhima Bhagwan & Sadul Bhagwan, Prinjrappole Lane, Gulalwadi, Bombay. December 1, 1919.

NOTICES.**THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.**

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. All communications relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. Directions for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911,

the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. *These should be consulted before an application is made to the Controller.*

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India application should be made to the patent offices in the countries concerned.

5. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

7. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AHMEDABAD . . .	B. O. Technical Institute.	HYDERABAD . . .	Revenue Department of His Highness the Nizam's Government.

W. G. WOOD,

Principal, Thomason College, Roorkee.

**DEPARTMENT OF MINES IN INDIA, DHANBAD P. O.,
MANBHUM.**

Indian Mines Act, 1901.

NOTICE.

An examination for First Class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for Second Class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad P.O., E. I. Railway, and not to any Officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

G. F. ADAMS,

Chief Inspector of Mines in India,
and *ex-officio* President of the Board of Examiners.

EXTRACT FROM THE PUNJAB GOVERNMENT GAZETTE.**Commerce and Industry.****NOTIFICATION.**

Simla, the 19th September 1919.

No. 3901-S.—In accordance with rule 12 of the Indian Non-ferrous Metal Industry Rules, 1919, published in the notification of the Government of India, Department of Commerce and Industry, No. 3517, dated 31st May 1919, it is hereby notified that Messrs. Bird and Company, Calcutta, have been granted a license by the Government of the Punjab under the above rules.

CENTRAL PROVINCES SECRETARIAT.**Commerce and Industry Department.****NOTIFICATIONS.**

Nagpur, the 20th October 1919.

No. 47—949-C.-XIII.—In exercise of the power conferred by sub-section (7) of section 4 of the Indian Non-ferrous Metal Industry Act, 1918 (XVII of 1918), the Chief Commissioner is pleased to notify that a license has been granted under sub-section (3) of that section to Messrs. Bird and Company, Calcutta, to carry on the business of winning, extracting, smelting, dressing, refining or dealing by way of wholesale trade in metal or metallic ore to which the said Act applies, in accordance with the provisions of the said Act.

No. 46—949-B.-XIII.—In exercise of the power conferred by sub-section (7) of section 4 of the Indian Non-ferrous Metal Industry Act, 1918 (XVII of 1918), the Chief Commissioner is pleased to notify that a license has been granted under sub-section (3) of that section to Messrs. Shaw Wallace and Company, Calcutta, to carry on business of winning, extracting, smelting, dressing, refining or dealing, by way of wholesale trade in metal or metallic ore to which the said Act applies, in accordance with the provisions of the said Act.

J. F. DYER,

Third Secretary to the Chief Commissioner, Central Provinces

THE COMMISSIONER, AJMER-MERWARA.**FORM B.****NOTICE UNDER SECTION 6 OF THE TALUKDARS LOAN REGULATION (II OF 1911).**

Whereas the General Manager, Court of Wards on behalf of Raja Kalyan Singh, Jagirdar of Gangwana, has applied for a loan under this Regulation, all persons having claims against the said Raja Kalyan Singh, Jagirdar of Gangwana or his immoveable property are called upon to submit a statement of the same in writing in Form C below, to the Commissioner, Ajmer-Merwara, within 6 months from the date of the publication of this notice.

Every claim against the applicant or his immoveable property (other than a claim on the part of the Government) not submitted to the Commissioner in compliance with this notice, shall, save in the cases provided for by Sections 6 and 13 of the Indian Limitation Act, 1908, be deemed for all purposes and on all occasions to have been duly discharged, unless in any suit or proceeding instituted by the claimant or by any person claiming under him in respect of any such claim, it is proved to the satisfaction of the Court that he was unable to comply with the directions contained in this notice.

Every claim so admitted by the Court shall, notwithstanding any law, contract, decree or award to the contrary, cease to carry interest after the expiry of 6 months from the date of the publication of this notice.

2. With effect from the date of the publication of this notice, the consequences prescribed in Sections 7, 8, 16, 17 and 18 of the Regulation, a copy of which is published herewith, shall also ensue.

COPY OF SECTIONS 7, 8, 16, 17 AND 18.

7. With effect from the date of the publication of a notice under Section 6, Sub-Section (1) the following consequences shall ensue, namely :—

- (a) the applicant shall be incompetent to transfer or create any charge on, or interest in, his property or any part thereof, or to enter into a contract which may involve him in any pecuniary liability; and
- (b) all suits and proceedings in any Civil Court in respect of any claim against the applicant shall be stayed, and no fresh suit or proceeding shall be instituted in respect of any such claim in any Civil Court.

8. Nothing in Section 7, clause (a), shall—

- (a) apply to debts due for liabilities incurred to Government,
- (b) apply to debts or liabilities which are incurred for the maintenance of the applicant or his family, or for the due observance of funeral and other ceremonies to the extent approved by the Commissioner, or

(c) affect the capacity of the applicant to enter into a contract of marriage, provided that he shall not incur in connection with such contract of marriage any pecuniary liability except such as the Commissioner, having regard to the personal law to which he is subject, and his rank and circumstances, may, in writing, declare to be reasonable.

16. (1) No suit shall be brought in any Civil Courts against any Talukdar upon any promise made after he has repaid a loan under this Regulation, to pay any debt contracted during the period between the grant and the repayment of such loan, or upon any ratification made after such loan has been repaid of any promise or contract made during such period, whether there is or is not any new consideration for such promise or ratification.

(2) Nothing in Sub-Section (1) shall apply to the debts or liabilities specified in Section 8.

17. (1) If any Talukdar to whom a loan has been granted under this Regulation—

- (a) infringes any condition imposed under Section 13, Sub-Section (1) clause (b), or
- (b) attempts to do any act, which, under Section 7, clause (a), he is incompetent to do,

the Chief Commissioner may by order in writing declare such Talukdar to be disqualified from managing his own property, and such Talukdar shall be deemed to be a landholder who is disqualified to manage his own property within the meaning of the Ajmer Government Wards Regulations, 1888, and the Court of Wards shall thereupon assume the superintendence of the property of such Talukdar.

(2) The Court of Wards shall withdraw its superintendence from any property of which it has assumed superintendence under Sub-Section (1) as soon as all instalments of the loan have been repaid to Government with the interest thereon.

18. In each of the following cases, namely :—

- (a) when a loan made under Section 13 has been repaid to Government with the interest thereon, or
- (b) when the amount so lent with interest has been recovered by the management of the property under Section 17, or
- (c) when an order rejecting an application has been passed under Section 13, the Commissioner shall notify, in the Gazette of India and in such other manner as the Chief Commissioner may by special or general order, direct, that the Talukdar has ceased to be subject to the disabilities mentioned in Section 7, with effect from the date of the publication of such notification.

S. B. PATTERSON,

Commissioner, Ajmer-Merwara.

CALCUTTA UNIVERSITY.

NOTICES.

In accordance with the provision in Section 4, Sub-section (2) of the Indian Universities Act, 1904 (VIII of 1904), the following Ordinary Fellows of the Calcutta University elected by the Registered Graduates in 1915 will vacate their Fellowships on the 31st of March, 1920 :—

The Hon'ble Sir Asutosh Mookerjee, Kt., C.S.I., M.A., D.L., D.Sc., Ph.D.
Dr. Suresprasad Sarbadhikari, C.I.E., B.A., M.D.

In exercise of the powers conferred by Section 7 (1) of the Indian Universities Act, 1904 (VIII of 1904), His Excellency the Chancellor of the Calcutta University is pleased to direct that two Ordinary Fellows shall be elected in January next by the Registered Graduates of the Calcutta University from among themselves.

The election will take place at the Senate House in the Registrar's Room, Darbhanga Library Building, on Saturday, the 17th January, 1920.

No person, unless his name has been entered in the Register of Graduates and unless he has paid his fee for the year, will be qualified to nominate, to vote, or to stand as a candidate for election.

Every candidate for election must be nominated by a Registered Graduate, and no person will be allowed to nominate more than one candidate. The nomination of a candidate shall be made in writing in the following form, which will be signed by the person making the nomination :—

FORM OF NOMINATION.

I, _____ Registered Graduate No. _____, do hereby nominate _____, Registered Graduate No. _____ as a candidate for election as an Ordinary Fellow of the Calcutta University, subject to the approval of His Excellency the Chancellor.

The following is a brief statement of the special qualifications of my nominee :—

The _____ 19 .

Signature _____

The nomination paper should be, on the face of it, addressed to the Registrar, Calcutta University, and must reach his Office not later than 5 p.m. on the 26th December, 1919. A printed list of the nominees (with the name of the first proposer in each case) and statements of their qualifications will be forwarded to the Registered Graduates on the 30th of December, 1919.

On the 30th December, 1919, the Registrar will forward a Voting paper, containing the names of the candidates proposed and their first proposers, by registered post to each of the Registered Graduates. *The Voting paper must be filled up and signed in the presence of the Registrar at the Darbhanga Library Building, on the 17th January, 1920, between the hours of 10 a.m. and 3 p.m.; but Graduates who will not be able to appear in person before the Registrar may fill up and sign their Voting papers in the presence of a Magistrate, a Judge, a Subordinate Judge, a Munsiff (excluding Village Munsiffs), a Fellow of the University (including Honorary Fellows), or a Principal of a College affiliated to this University. In the absence of a Magisterial or Judicial Officer of the rank aforesaid in a Native State, the signature must be acknowledged before the Chief Minister or the Chief Magisterial Officer of the State.* Voting papers may also be filled up and signed before the Registrar, between 4 and 5 p.m. any day (other than a Sunday or holiday) between the 3rd and the 16th January, 1920 (excepting the 5th January 1920). The officer before whom such acknowledgment is made or the Registrar, as the case may be, shall countersign the Voting paper, as having been signed before him by the person whose signature it bears. A voter of the rank aforesaid will not be competent to countersign his own voting paper. All voting papers duly signed and countersigned as aforesaid must reach the Registrar not later than 3 p.m. on Saturday, the 17th January, 1920, after which no voting paper will be accepted. A Graduate who is not known to the officer in whose presence he intends to fill and sign his voting paper must bring with him his Diploma or other satisfactory proof of identity.

Each voter shall have only one vote for each vacancy which is to be filled up and can give only one vote to any one candidate.

SENATE HOUSE;
The 24th November 1919.

● Graduates who have taken the degrees of Doctor or Master in any Faculty, or have graduated in any Faculty not less than ten years before, and who have not yet registered their names as Registered Graduates of this University, may apply to the undersigned to register their names on or before the 29th of December, 1919, so as to enable themselves to take part in the ensuing election of two Ordinary Fellows of the University by Registered Graduates.

No voting paper for the ensuing election of Fellows will be issued to such Graduates as will register their names after the above date.

J. C. GHOSH,
Registrar.

SENATE HOUSE;
The 5th December 1919. }

HIGH COURT, CALCUTTA, ORIGINAL JURISDICTION.

It is ordered that the following rules be added as rules 4 to 8 of Chapter V of the "the Rules of the High Court 1914" to meet the case of applications for the exercise by the Court of its disciplinary jurisdiction with effect from the 2nd day of January 1920.

4. Where on the application of any person, or otherwise, the Court or a Judge is of opinion that any Advocate, Vakeel or Attorney should be proceeded against in the exercise of the Court's disciplinary jurisdiction, such Court or Judge may issue a Rule which shall be made returnable before a Special Bench of 3 Judges to be constituted by the Chief Justice.

5. Such Rule shall call upon the Advocate, Vakeel or Attorney to answer, within 10 days from service thereof—unless a longer time is given—the matter set forth in the affidavit or affidavits of the applicant or as directed by the Rule.

6. Service of the Rule shall, where possible, be personal and a copy of any affidavit or copies of any affidavits mentioned in the Rule shall be served therewith.

7. Any affidavit or affidavits in answer to the Rule shall be filed, and copies thereof served on the applicant, where application was made, two days before the returnable date.

8. Any application for extension of time must be made to the Special Bench to be constituted as above-mentioned.

Dated this 9th day of December 1919.

DIRECTOR-GENERAL, INDIAN MEDICAL SERVICE.

NOTIFICATION.

Delhi, the 4th December 1919.

No. 12.—Major G. G. Hirst, I.M.S., Deputy Medical Store-Keeper to Government, Bombay, is granted 30 days' Special War Leave with effect from the 17th September 1919, under the provisions of Special India Army Order No. 38, dated the 17th April 1919.

(This cancels Notification No. 10, dated the 9th October 1919).

R. A. NEEDHAM, Lieut.-Colonel, I.M.S.,

Deputy Director-General, Indian Medical Service.

CHIEF COMMISSIONER, DELHI.**NOTIFICATIONS.**

Delhi, the 5th December 1919.

No. 7350-C. & I.—In accordance with the provisions of Section 37 of the Indian Factories Act (XII of 1911) and with reference to notification No. 4747-C. & I., dated the 28th June 1918, the Chief Commissioner is pleased to make the following rules for the better control of factories situated in the Delhi Province. Notification No. 865-C. & I., dated the 31st January 1913, as subsequently amended is hereby cancelled:—

C. A. BARRON,
Chief Commissioner, Delhi.

RULES.**SECTION 2—DEFINITIONS.**

1. These rules and orders may be cited as the Delhi Factory Rules, 1919.
2. In these rules:—
 - (a) Words and expressions which are defined in the Indian Factories Act, 1911, have the same meaning as in the said Act.
 - (b) "The Act" means the said Act.
 - (c) "Inspector" means the Inspector appointed under Section 4, sub-section (1) of the Act.
 - (d) The "Abstract" means the Abstract of the Act and of the rules prescribed under Section 36.
 - (e) A "day" means the period of 24 hours from midnight to midnight.
 - (f) A "belt hanger" is a perch or guard fixed near the side and upper edge of a pulley on which the belt can rest when removed from its pulley.
 - (g) "Transmission machinery" includes every shaft, wheel, drum or pulley (including any system of fast and loose pulleys), coupling, clutch, strap, band, belt, chain, rope or other device incidental to the transmission of motion between any prime-mover and any machine or appliance, or by means of which the machine or appliance receives its motion.
 - (h) "Within reach" means within a distance of 6 feet in any direction from any spot on which any person employed may have to stand or pass at any time either in the course of his work or incidentally thereto.
 - (i) A "foot candle" (see rule 13) is defined as the illumination produced by a light source of one standard candle at a point on a plane surface one foot from the source so placed that the light strikes the surface at right angles.

SECTIONS 2 (3) AND 3 (1) AND SECTION 37 (1).**REGISTER OF FACTORIES.**

3. The Inspector shall keep a Register of Factories in Form A attached to these rules, and shall furnish a copy of the entries pertaining to each district to the District Magistrate thereof and to the Certifying Surgeon appointed for the area in which the factory is situated on the 1st February of each year. He shall also intimate to the District Magistrate at the time they are made all changes in the register which are made in accordance with the following rule.

DIRECTIONS FOR COMPILING THE REGISTER OF FACTORIES.

4. (a) Every person sending to the Factory Inspector a written notice under section 33 of the occupation of a factory shall state in prescribed Form M the maximum number of persons simultaneously employed within the precincts of the factory on any one day in the year.

(b) When the Inspector receives notice in accordance with section 33 of the Act in Form M of a factory being occupied, and it does not appear from such notice that any of the exemptions specified in section 3 (1) of the Act apply, or when he has reason to believe that any premises situated within the local limits for which he is appointed and not already registered as a factory ought to be included in his register, he shall send to the occupier of the premises a notice intimating his intention of placing such premises on his register of factories.

(c) Any person served with a notice under clause (b) above may, within 15 days of the receipt of such notice, forward to the Inspector a statement setting forth his objections to the registration of his premises as a factory. The Inspector shall consider and dispose of such objections, after making such enquiry as he may deem necessary, and shall make up his Register of Factories accordingly, and shall communicate his decision to the person concerned.

(d) If the occupier of a registered factory wishes to claim exemption from the Act and to have his factory removed from the register on the ground that it is exempted under section 3 (1), then he shall forward a detailed statement giving his reasons why the factory should be removed from the register. The Inspector shall consider and dispose of such claim, after making such enquiry as he may deem necessary, and shall communicate his decision to the person concerned.

(e) When any premises ceases to be occupied as a factory, the occupier may give notice of the fact to the Inspector, who shall, if satisfied that the Act is no longer applicable to such premises, remove them from his Register of Factories. The Inspector may without such notice of his own motion at any time remove any factory from his register, if satisfied that it is no longer used as such.

(f) Seasonal factories shall not be removed from the register if there is probability of their starting work again within a reasonable time.

SECTIONS 4, 5 AND 37 (2) (a).

INSPECTION.

5. The Inspector appointed under section 4 (1) of the Act shall be primarily responsible for the administration of the Act within the Punjab. He shall inspect every factory other than a seasonal factory, within that area at least twice yearly, and every seasonal factory within the area at least once during each season of work. He shall also make such further inspections as may appear to be necessary to him, or to the authority to whom he is subordinate, in order that he may satisfy himself that the provisions of the Act and of these rules are duly observed.

SECTION 5 AND SECTION 37 (2) (b).

DUTIES AND POWERS OF THE INSPECTOR.

6. (a) In addition to and without prejudice to any other powers or duties which the Inspector may exercise under the Act or rules, he shall at each inspection of a factory satisfy himself that the provisions made in the Act and rules to secure the health and safety of the operatives are observed: that the children employed in the factory have been duly certified and the register of children properly maintained: that the hours of employment of women and children and of any persons working in shifts are properly recorded: that the periodical stoppages of work and the holidays provided by the Act are granted, and that the limits of hours of work laid down therein are not exceeded, and that the abstracts and notices prescribed by section 36 of the Act are duly affixed and that the registers and muster-rolls required by these rules are properly maintained. He shall further enquire into the cause of all accidents which have taken place since the last inspection. Finally, he shall note how far the defects pointed out at previous inspection have been removed and how far orders previously issued have been complied with. A note of all defects and illegalities discovered together with orders for their remedy or removal passed by him under the Act or these rules shall be subsequently sent to the occupier or manager in the Form J (attached to these rules), and a copy of the said list shall be sent to the District Magistrate concerned.

Proviso.—When the inspection is made by the District Magistrate or an Additional Inspector, he shall send a copy of his orders and remarks to the Inspector appointed under section 4, sub-section (1) of the Act.

(b) The Inspector shall keep a diary of his inspection notes in Form G, in which shall be recorded all orders given to the manager as a result of his inspection.

(c) If he has reason to believe that a fatal or serious accident has occurred in any registered factory, whether he has received a notice under section 34 of the Act or not, the Inspector shall proceed to make an investigation either by himself or in co-operation with any official deputed by the District Magistrate or the police authorities or with both in order to determine as soon as possible the cause of and responsibility for the accident, and if it should be found that the death or serious injury resulted from the occupier or manager of the factory or other person having neglected to observe any provision of this Act or rule or order made thereunder the Inspector shall, if he considers that a prosecution should be instituted under the Act, give the previous sanction in writing, required by section 48, and forward the same to the District Magistrate, with a request that a prosecution may be instituted, or if he considers that action is necessary under section 287, Indian Penal Code, he shall record his opinion and send it to the District Magistrate for such action as he may think fit.

At the same time he shall record his opinion whether, if in the event of the accused being convicted and fined, any portion of the fine recovered should be given to the person injured or his dependents by the court in the manner contemplated by section 545 of the Criminal Procedure Code.

(d) In the case of factories situated in places coming under the Municipal Act, 1911, if it appears that there has been a disregard of the provisions under the Municipal Act and rules relating to sanitary arrangements, removal of objectionable rubbish, the cleaning and fencing of water tanks or the like matters, the Inspector shall, without prejudice to any action which he is empowered to take under the Act and rules, draw the attention of the Health Officer or Sanitary Inspector of the municipality to the breach of the sanitary regulations in question.

SECTIONS 6, 7 AND 8 AND SECTION 37 (2) (c) AND (d).

DUTIES OF A CERTIFYING SURGEON AND OF PERSON AUTHORISED TO EXERCISE HIS FUNCTIONS.

7. (a) The certificate granted under the conditions of sections 7 and 8 of the Act shall be in the prescribed printed form B attached to these rules. It shall be prepared by filling up and signing the particulars in the foil and the counterfoil after taking the left thumb impression of the person examined. The certificate granted by a person authorised under section 8 shall be stamped 'Provisional' in red ink. In no case shall any fee be charged for examination or certification.

(b) The Certifying Surgeon or his Deputy appointed under section 8 shall on receipt of an application from the manager of a factory situated within the local limits for which he is appointed, fix such place and such time as may be mutually convenient for the attendance and personal examination of persons desiring to obtain certificates, provided the children employed solely in places mentioned in section 3, sub-section (2) of the Act need not be certified.

(c) The Certifying Surgeon appointed under section 6 of the Act shall visit every factory situated within the local limits for which he is appointed in which children are believed to be employed at least once every quarter or in the case of seasonal factories at least twice in each season and he shall give notice of his visits to the manager. At such visits in addition to his duties under sub-rule (b) he shall personally examine every child in possession of a provisional certificate, and if satisfied as to its correctness, he shall countersign the same and return it to its owner. If he cancels any certificate he shall write "cancelled" upon it and forward it to the Inspector of Factories for information.

(d) He may, and if requested by the Factory Inspector shall, examine any child and call for its certificate, whether provisional or not. If he is of opinion that the child has become unfit for employment in a factory he shall cancel the certificate or suspend it for such period as he considers necessary.

(e) No provisional certificate shall be valid after the lapse of 6 months from the date of its issue.

SECTION 9 (a) AND SECTION 37 (2) (e).

LIMEWASHING.

8. (a) In every factory all the inside walls of the rooms and all the ceilings or tops of such rooms (whether such walls, ceilings or tops be plastered or not), and all the passages and staircases shall be limewashed at least once in each year, dating from the period when last limewashed. All the beams, rafters, doors, window-frames and other wood-work with the exception of floors shall be either limewashed at least once a year dating from the period when last limewashed or shall be painted or varnished once in seven years dating from the period when last painted or varnished and shall be kept in a cleanly state.

(b) The above rules with respect to limewashing and painting shall not apply to the following:—

(i) Rooms used only for the storage of articles.

(ii) Walls or tops of rooms which are made of galvanised iron, tiles or glazed bricks.

(iii) The rooms in which manufacturing process is carried on in the following factories:—

Gas works, forage presses, chemical works and cement factories.

(iv) Engineering workshops or foundries in which 2,000 cubic feet of air space is provided for each person employed.

(v) Walls in oil mills below a height of 5 feet from the ground.

(vi) Any other factory or parts thereof in which limewashing or painting is in the opinion of the Local Government or of the Inspector unnecessary to satisfy the requirements of section 9 (a) of the Act as to cleanliness.

SECTION 9 (a) AND SECTION 37 (2) (e).

SANITARY CONDITIONS.

9. (a) No rubbish, filth or *débris* shall be allowed to accumulate or to remain on any premises in a factory of such a nature or in such a position that effluvia therefrom can arise within the factory.

(b) All drains carrying waste or sullage water shall be constructed in masonry or other impermeable material and shall be regularly flushed and, where possible, connected with some recognised drainage line.

(c) The compound surrounding every factory shall be maintained in a strictly sanitary and cleanly condition.

(d) Proper arrangements shall be made for maintaining in a clean and drained condition the area round the place where drinking water is distributed to the operatives.

SECTION 9 (b) AND SECTION 37 (2) (f).

THE PREVENTION OF OVERCROWDING.

10. There shall be provided on the average for each person employed in any room of a factory a floor area of at least 36 square feet exclusive of that occupied by machinery and a breathing space of at least 500 cubic feet. For the purpose of calculating the breathing space available, no space above 15 feet from the floor of such room shall be taken into consideration.

SECTION 9 (c) AND SECTION 37 (2) (g).

STANDARD OF VENTILATION.

11. (a) In every room of a factory the ventilating openings provided, including windows which are kept open during working hours, shall be in a proportion of 10 square feet for each person employed in such room, and the openings shall be such as to admit of a continual supply of fresh air.

(b) Provided that the Inspector, subject to the control of Local Government may, for reasons to be recorded in writing, relax the condition of this rule where in his opinion this may be done with due regard to the health of the persons employed in any room.

(c) Provided also that if any room in any spinning or weaving mill the following conditions are complied with by the occupier to the satisfaction of the Inspector, then the standard of ventilating openings required shall be reduced to 2 square feet for each person employed in such room :—

(i) The means of forced ventilation shall be such as to supply during working hours not less than 800 cubic feet of fresh air per hour for each person in the case of rooms which are artificially humidified, or 600 cubic feet of fresh air per hour per person in the case of rooms in which there is no artificial humidification.

(ii) The atmosphere at about the breathing level shall not be vitiated to such an extent that it contains more than 12 volumes of carbon dioxide per 10,000 volumes of air, as given by the average of three determinations made by means of a standard Haldane's apparatus.

(iii) In rooms in which there is artificial humidification a standard wet and dry bulb hygrometer shall be properly maintained, and if at any time the wet bulb reading of the hygrometer is higher than that specified in the *schedule* (form I) attached to these rules in relation to the dry bulb reading of the same hygrometer then artificial humidification shall cease, and the ventilation shall be forthwith increased until the wet bulb reading is reduced to the reading required by the schedule.

(d) No room shall be exempted from the operation of sub-section (a) of this rule unless the occupier has received a statement signed by the Inspector to that effect, and this exemption may be revoked by the Inspector if on inspection the conditions contained in sub-section (c) are no longer complied with.

SECTIONS 37 (1) AND 37 (2) (e), (f) and (g).

MAINTENANCE OF GENERAL REGISTER.

12. The Manager of every factory shall maintain a General Register of the Factory printed in prescribed form C (which shall be obtained from the Inspector) showing the following particulars :—

(a) The dates on which the parts of the factory are limewashed or painted or varnished in accordance with rule 8 (a) (so far as the exemptions given by Rule 8 (b) do not apply).

(b) The floor area, the area occupied by machinery, the breathing space in cubic feet, and the area of the ventilating opening in each room together with the maximum number of persons who may be employed in such room. (See Rule 10.)

(c) A list of holidays to be given in accordance with section 22 (1) and the Government of India Notification No. 6750-25, dated the 14th September 1912.

(d) The working hours of men, women and children as well as the rest periods during which all work is discontinued in accordance with section 21 (1).

(e) Any exemptions granted under Sections 13, 21 (2) and 29 (2) and Rules 8 (c) (vi), 11 (c) and 15 (e).

SECTION 11 AND SECTION 37 (1).

LIGHTING.

13. That the lighting of a factory shall not be considered sufficient to satisfy the requirements of section 11 of the Act unless—

(a) In all parts of the factory over which persons employed are liable to pass the illumination measured on a horizontal plane at floor level is not less than 1 foot candle during day-light or 0.5 foot candle during the period between one hour after sunset and one hour before sunrise;

(b) Over any "working area" in a factory the illumination shall not be less than 4 foot candle taken on a horizontal plane at the height at which the work is being done;

(c) That the readings of standard certified Luxometer shall be *prima facie* evidence for the purpose of these rules.

SECTION 12 AND SECTION 37 (2) (i).

PURITY OF WATER USED FOR HUMIDIFYING.

14. No water used for the purpose of producing humidity shall be considered to be effectively purified if it absorbs from an acid solution of permanganate of potash in 4 hours more than 0.5 grains of oxygen per gallon of water.

SECTION 13 AND SECTION 37 (2) (h).

PROVISION OF SANITARY ACCOMMODATION.

15. (a) Except in factories provided with water flushed latrines connected with a water borne sewage system, all latrines shall be provided with receptacles on the dry earth system which shall be cleaned daily by the sweeper and kept in a strictly sanitary condition. The receptacles must be tarred inside and out at least once a year.

(b) The occupier of every factory shall provide latrines within the precincts of the factory, but in an accessible place detached from the other factory buildings, and the accommodation shall be on such scale as may be laid down by the Municipal authority provided that it must not in any case fall short of the following scale :—

	Seats.
Where the number of operatives does not exceed 50	3
Where the number of operatives exceeds 50 but does not exceed 150	4
Where the number of operatives exceeds 150 but does not exceed 250	5
Where the number of operatives exceeds 250	One seat for every 50 or fraction of 50.

(e) If females are employed, separate latrines screened from those for males and marked in the vernacular in conspicuous letters "For women only" shall be provided on the scale laid down in sub-section (b) of this rule.

Those for males shall be similarly marked "For men only."

(d) The walls of the latrines unless made of corrugated iron shall be limewashed inside and out at least twice in every year and the date of the limewashing shall be noted in the General Register.

(e) If in the opinion of the Inspector, in the case of a factory situated in a place detached from other buildings and from which access to the open country on at least 2 sides of it is obtainable, such latrine accommodation is unnecessary to ensure the health of the operatives, then he may exempt such factory from the rules under section 13 provided that only a written sanction, kept in the General Register of the factory, shall be considered valid.

SECTION 14 AND SECTION 37 (2) (i).

DRINKING WATER.

16. The supply of drinking water shall only be deemed sufficient and suitable for the purpose of this rule, if it is supplied to the employes free of cost, and in accordance with one of the following methods :—

- (a) from taps connected with any public water supply from which a sufficient supply of water can at all times be drawn as required, or
- (b) from a well or wells so situated as not to be polluted or contaminated with organic matter or impurities, or
- (c) if in any factory provision is not made in accordance with (a) or (b) above or the public water supply is intermittent, then there shall be provided free of cost to the operatives a storage of water, fit for drinking, supplying at least as many gallons per day as there are persons employed in the factory.

SECTION 16 AND SECTION 37 (1).

PROVISION OF MEANS OF ESCAPE IN CASE OF FIRE.

17. (a) To satisfy the requirements of section 16, every building of more than one storey shall be provided with at least two sets of stairs or steps permanently fixed either inside or outside the building so as to afford direct and unimpeded access from every part of the factory to the ground level and such stairs shall be provided with a suitable and sufficient hand rail.

(b) In factories of more than one storey every window or door giving access to external staircase shall be so arranged as to open immediately from the inside, and such windows or doors shall be distinctively and conspicuously marked 'fire' with red paint.

(c) Ginning factories shall be provided with at least two flights of stairs made of brick-work or other fire-resisting material.

SECTION 18 (1) (c) AND SECTION 37 (2) (i).

FENCING AND GUARDING OF MACHINERY.

18. (a) The following parts of transmission machinery shall be securely fenced if in motion and within reach :—

- (i) All shafts, couplings, collars, clutches, toothed wheels, pulleys, driving straps, chains and ropes except such as are in the opinion of the Inspector by construction or position equally safe to every person employed as they would be if securely fenced or guarded.
- (ii) All projecting set screws, keys, nuts or bolts on revolving parts, except such as are countersunk or otherwise made equally safe.

(iii) The underside of all heavy overhead main driving belts or ropes if there is any liability of persons having to pass under them.

(b) The following parts of machine tools shall be securely fenced :—The back gears and change wheels of lathes ; the back gear and bevel gearing of drilling machines ; and the gear wheels of planing, shaping, slotting and milling machines which are within reach.

(c) Every platen machine in a printing works must be fitted with an efficient finger guard.

(d) All emery wheels must be provided with strong iron guards.

(e) All hoist gates must be self-locking and only capable of being opened when the cage is opposite the floor.

(f) All circular saws shall be provided with a strong metal guard with a riving knife at the back of the saw ; the saw under the table shall be completely guarded.

SECTION 18 (1) (c) AND SECTION 37 (2) (j).

FENCING IN TEXTILE FACTORIES.

19. I.—*Blowing Room Machinery.*—

(a) Beater covers and the door immediately over the dirt grid shall be fitted with an automatic locking arrangement which shall render it impossible to open the covers or the grid doors while the beater is still running, or to re-start the machinery until the doors have been closed.

(b) The nip between the cage wheels and calendar wheels shall be efficiently protected on all machines, preferably by 'spectacle' guards, extending round the outer edge of both wheels.

(c) Fender guards shall be provided for the fan strap side of scutchers to guard the fan strap and slow motion strap : Provided that where the slow motion pulley is driven directly by a strap from the overhead shaft, it shall be optional either to plate the wheel or to protect it by a fender guard. If the fan strap is on the opposite side to the slow motion strap, each strap shall be protected separately.

(d) Projecting ends of beater shafts shall be fitted with loose sleeves, or shall be otherwise protected.

(e) All lap rollers shall be provided with lap protectors.

II.—*Carding machines.*—

(a) All feed roller wheels, doffer and barrow wheels, side shaft wheels, calendar wheels and collar wheels shall be efficiently fenced.

(b) All cylinder doors shall be fitted with a safety automatic locking motion to prevent the doors from being opened until the cylinder has ceased to revolve and to render it impossible to restart the machine until the door has again been closed.

III.—*Drawing Frames.*—

(a) The roller gearing shall be effectively covered.

(b) The under shaft shall be encased in a metal sleeve or otherwise securely fenced.

IV.—*Speed Frames.*—

(a) Headstocks shall be fitted with an automatic locking arrangement which shall prevent the doors being opened while the machinery is in motion, and shall render it impossible to restart the machine until the doors have been closed.

(b) Bobbin skew gear wheels shall be covered over the top and those covers shall be extended both in front and behind round the edge of the wheels, except in those cases where the spindles are not cleaned whilst the machinery is in motion.

(c) Spindle skew gear wheels shall be effectively covered.

(d) Lifter rack wheels shall be securely fenced, the guard to be such that it will effectively protect the nip both as the rail rises and as it falls.

V.—*Self-acting Mules.*—

(a) The guards for middle back shaft scrolls shall be fitted with flanges to protect the intake of the bands and the side of the scroll. The guards for the middle draw band carrier pulleys shall be either fixed to the bottom creel board, or be so fastened otherwise that they cannot readily be knocked aside. The side pieces of the guard shall be extended inwards far enough to completely guard the nip between the band and the scroll.

(b) All headstocks shall be provided with a strong sheet iron guard.

(c) The guards for the end draw band pulleys shall be extended at least half an inch beyond the end of the pulley.

(d) All quadrant pinions shall be securely fenced.

(e) No person shall be allowed to be between the fixed and traversing parts thereof unless the mule is stopped on the outward run.

(f) All front and back carriage wheels shall be guarded by efficient toe guards.

VI.—*Ring and Throstle and Doubling Frames.*—

(a) The outer ends of the frames shall be fitted in with metal plates.

(b) Guards made of strong rigid bars placed so that the vertical gap between them is not more than 6 inches shall be permanently and securely fixed along the whole length of each ring frame and such guards shall not be removable without the use of tools.

VII.—*Calendering Machines.*—All calendering machines shall be provided with an efficient 'nip' guard along the whole length on the intake side of each pair of bowls, and shall be so fitted and maintained while the machine is in use as to prevent the access of any person's fingers to the point of contact of the rollers or bowls.

SECTION 18 (1) (c) AND SECTION 37 (2) (j).

ADDITIONAL FENCING IN GINNING FACTORIES.

20. (a) The line shaft or second motion in cotton ginning factories shall be completely enclosed by a continuous wall or unclimbable fencing with only so many openings as are necessary for access to the shaft for removing cotton seed, cleaning and oiling; and such openings shall be provided with gates or doors which shall be kept closed and locked.

(b) The toothed rollers of the opener shall be guarded by securely fixing across the machine not more than 8 inches above the delivery lattice, a stout wooden plank or strong metal guard not less than 15 inches in width so arranged that under no circumstances can a man's hand get into the rollers.

(c) The spur gearing at the side of the opener shall be completely covered by a strong metal guard.

(d) The crank shaft pulleys and roller pulleys of all gins shall be securely guarded by strong box guards and hinged top covers.

SECTION 18 (4) AND SECTION 37 (2) (j).

PROTECTION FROM DANGER OF PERSONS ATTENDING TO MACHINERY OR BOILERS.

21. (a) All important pulleys shall be provided with belt hangers or perches.

(b) Suitable striking gear shall be provided and used to move driving straps on all fast and loose pulleys.

(c) Lubrication of bearings or gear wheels or replacing or adjusting of belts must be done only by an authorised experienced and especially trained person.

(d) Service platforms and gangways shall be provided for overhead shafting, and where required by the Inspector shall be securely fenced with guard rails and toe boards.

(e) No transmission machinery in motion shall be cleaned by cotton wasterrags, or similar material held in the hand.

(f) Every shafting ladder shall be fitted with either hooks or some effective non-skid device.

(g) No person engaged in oiling or adjusting belts or in any work whatsoever within reach of unfenced transmission machinery shall be allowed to wear loosely fitting clothing. He shall not wear a turban.

(h) Safe and convenient access shall be provided to all bearings.

(i) All water gauge glasses of boilers whose maximum pressure exceeds 100 lbs. per square inch shall be securely guarded.

(j) No additional weights shall ever be placed on the safety valve of any boiler unless written authority has been received from the Boiler Inspector to do so.

(k) All kiers digesters or steam jacketed pans or other vessels worked under pressure shall be fitted with safety valves and pressure gauges.

SECTION 21 AND SECTION 37 (1).

REST INTERVAL AFTER 6 HOURS.

22. The working hours and the rest intervals given thereafter for men, women and children shall be entered daily at the commencement of each day's work in the General Register of the factory in Form C.

SECTION 22 (1) AND SECTIONS 37 (1) AND 38.

HOLIDAYS.

23. (a) Before the end of each calendar month a return shall be sent to the Inspector in Form H (copies of which may be obtained from the Inspector) giving notice of all the days on which the factory will be closed during the succeeding month and this return shall be submitted whether the factory is or is not working during the calendar month preceding the one to which the return relates, and if any change of date is subsequently made notice must be given to the Inspector accordingly.

(b) A copy of the return mentioned in part (a) of this rule shall be made in the general register before the commencement of the month to which it relates and any subsequent changes in the list shall also be entered in it.

SECTIONS 23, 32, 35 AND SECTION 37 (1) AND 37 (2) (1).

EMPLOYMENT OF CHILDREN.

24. (a) In every factory a muster roll or attendance register shall be kept up either in English or Urdu in which shall be recorded each day, the names of all children 'employed' in the factory. It shall clearly show the hours of work of each child or each shift of children and opposite the name of each child shall be recorded the number of his certificate of age and fitness. This muster roll must be entered up at the commencement of each working period and must always be kept available during working hours for immediate inspection.

(b) In every factory where children are employed, there shall be kept a register of children in Form E, attached to these rules, and in it shall be correctly entered the prescribed particulars for every child employed in the factory.

(c) Every child when at work in factory shall carry on his person either the certificate or the token referred to in Section 23 (a) of the Act, and where a child when at work wears a token instead of the certificate, the token shall have the number of the child in the register of children (Form E) stamped upon it. The token shall be attached around the neck of the child.

SECTIONS 24, 26, 28, 29 (1) AND SECTION 37 (1).

HOURS OF EMPLOYMENT OF MEN AND WOMEN.

25. In every factory a muster roll shall be kept which shall show the time of beginning and ending of each period of employment during the day, for men and women. (The children's muster roll kept in accordance with Rule 24 (1) may be combined with the one kept under this rule, but the particulars must be kept separate.)

SECTION 34 AND SECTION 37 (2) (k).

NOTICES OF ACCIDENTS.

26. (a) Notices of accidents resulting in death or causing such severe injury that there is no reasonable hope that the injured person will be able to return to work within 48 hours, shall be sent by telegram, telephone or by special messenger within 4 hours of the occurrence to

(i) the Inspector, and

(ii) the District Magistrate or if he by general order so directs, the Sub-Divisional Officer.

(b) In case of any accident resulting in death, notice shall also be sent within the same time and by similar agency to the officer-in-charge of the police station for the area in which the factory is situated.

(c) If the notice is sent by special messenger, it shall be in Form D, attached to these rules, and if it is sent by telegraph or telephone, it shall be confirmed by a written report in that Form.

(d) Notices of accidents of a minor character, but which nevertheless prevent the injured person from returning to work within 48 hours of the occurrence, shall be given in the same Form D within 24 hours of the expiry of that time to both the Inspector and the District Magistrate, or if the latter by general order so directs, the Sub-Divisional Officer.

SECTIONS 36 AND 37 (2) (m).

THE ABSTRACT OF THE ACT AND RULES.

27. (a) The abstract of the Act and Rules required by section 36 of the Act to be affixed shall for Textile factories be in Form F (1) and for non-textile factories in Form F (2) attached to these rules.

(b) If the abstract of the Act and Rules becomes illegible or defaced, a fresh copy shall be affixed.

(c) Copies of the abstracts of the Act and Rules can be obtained in English, Urdu, Gurmukhi and Hindi languages from the Inspector at 4 annas each. Copies of the General Register can also be obtained from him at four annas each.

SECTION 38.

(Government of India Notification No. 6750, dated Simla, September 14th, 1912.)

SUBMISSION OF ANNUAL RETURNS.

28. Every manager of a factory shall furnish to the Inspector of Factories on or before January 15th in each year an annual return in duplicate in the scheduled Form A.

SECTION 50 AND SECTION 37 (2) (n).

PROCEDURE IN APPEALS.

29. (a) An appeal presented under section 50 of the Act shall lie to the Director of Agriculture and Industries, Punjab, and shall be in the form of a memorandum setting forth concisely the grounds of objection to the order and bearing a court-fee stamps in accordance with Article 11 of Schedule II of the Court Fees Act, and shall be accompanied by a copy of the order appealed against.

(b) On receipt of the memorandum of appeal the appellate authority shall, if it thinks fit, or if the appellant has requested that the appeal should be heard with the aid of assessors, call upon the body, if any, declared to be the body representative of the Industry concerned under sub-section (3) of section 50 of the Act, to appoint an assessor within a period of 14 days. If an assessor is nominated by such body, the appellate authority shall appoint a second assessor itself. It shall then fix a date for the hearing of the appeal and shall give due notice, of such date to the appellant and to the Inspector whose order is appealed against, and shall call upon the two assessors to appear upon such date to assist in the hearing of the appeal.

(c) An assessor appointed in accordance with the provisions of clause (b) shall receive for the hearing of the appeal, a fee to be fixed by the Director of Agriculture and Industries, Punjab, subject to a maximum of Rs. 50. The fee shall be paid by Government, but where assessors have been appointed at the request of the appellant and the appeal has been decided wholly or partly against him, the appellate authority may direct that the fees of the assessors shall be paid in whole or in part by the appellant.

SECTION 37 (2) (o).

MANNER OF SERVICE OF NOTICE.

30. The despatch through the post, under registered cover of any notice, order or extract of an Inspector's report sent under the Act or under these rules, shall be deemed a sufficient service on the occupier or manager of the factory of such notice or order or of any directions contained in such extract.

LIST OF FORMS.

FORM E.

REGISTER OF CHILDREN.

Number of token.	Name.	Father's Name.	Sex.	Caste or religion.	Number of certificate.	Date of certificate.	Nature of employment.

FORM F (1). NON-TEXTILE FACTORIES.

ABSTRACT OF INDIAN FACTORIES ACT, 1911, AND RULES MADE THEREUNDER, 1917.

A copy of this Abstract must be kept constantly affixed in the factory where it can easily be read.

HOURS OF EMPLOYMENT AND REST INTERVALS.

[SECTION 21 (1) AND RULES 22, 24 (a) AND 25.]

1. *All persons* shall be allowed, after 6 hours of work, a rest interval of at least half an hour, during which all work shall be discontinued. [For exceptions see section 21 (2) and (3).]

2. Muster rolls must be kept for all men, women and children employed and the hours of work and rest intervals must be entered daily at the commencement of each period of work.

HOLIDAYS.

[SECTION 22 (1) AND RULE 23.]

3. No person shall be employed in any factory on a Sunday unless he has had or will have a holiday on one of the 3 days immediately preceding or succeeding the Sunday, and unless a notice of the substituted holiday has been sent to the Inspector previous to the Sunday or substituted day whichever is earlier. [For exceptions see section 22 (2), (3) and (4).]

4. A list of holidays which will be observed during each month, giving dates, must be sent to the Inspector of Factories before the end of the preceding month.

(SECTIONS 23, 24 AND 35 AND RULE 24.)

5. *Women and children*.—No woman or child shall be employed before 5-30 A. M. or after 7 P. M. No woman shall work for more than 11 hours and no child under 14 years of age more than 7 hours on any one day.

6. No child under nine years of age shall be employed in a factory. [For exceptions see section 3 (2) of the Act.]

7. (a) No child shall be employed unless it is in possession of a valid certificate of age and fitness. This certificate or a token giving reference to such certificate must be carried by the child when at work. (Certificates may be obtained free of cost on application to the Certifying Surgeon.)

(b) No child shall, under penalty of fine which may amount to 20 rupees, use or attempt to use as his own, a certificate granted to another child. No child shall obtain two certificates. When a child goes to a new factory, he must show his certificate to the manager of the new factory.

8. A register of all children employed shall be kept correctly up to date in the form prescribed.

ACCIDENTS.

(SECTION 34 AND RULE 26.)

9. (a) Notice of accidents resulting in death or causing such severe injury that there is no reasonable hope of the injured person returning to work within 48 hours, shall be sent by telegraph, telephone or special messenger within 4 hours of the occurrence to—

(i) The Inspector of Factories; and

(ii) The District Magistrate or, if he by general order so directs, to the Sub-Divisional Officer.

Notice of all fatal accidents must also be sent to the officer-in-charge of the Police Station. Such notices must be confirmed by a written report in the prescribed Form D.

(b) Notice of minor accidents which nevertheless prevent the injured person from returning to work within 48 hours shall be sent by post in Form D within 3 days of the accident to the Inspector of Factories and the District Magistrate or, if he by general order so directs, to the Sub-Divisional Officer.

(c) Compensation for injuries may be granted to an injured person in accordance with section 545 of the Criminal Procedure Code, if it is proved that the injury resulted from the neglect of the Act or rules or disregard of any orders issued by the Inspector or if a conviction is obtained under the Indian Penal Code.

NOTICES TO BE SENT BY OCCUPIER AND MANAGER.

(SECTION 33 AND RULE 28.)

10. Every manager of a factory shall send to the Inspector before January 15th in each year an annual return in duplicate in the prescribed Form A.

11. The occupier of a seasonal factory shall send to the Inspector of Factories on or before the date of starting work for the season, a notice of occupation containing the particulars prescribed by section 33 and rule 4 (a). If the manager of the factory is changed, the occupier must give notice to the Inspector within seven days. If an occupier wishes his factory removed from the operation of the Act, he must make application to the Inspector in accordance with the rules.

SANITARY CONDITIONS.

(SECTIONS 9, 13 AND 14 AND RULES 8, 9, 10, 11, 15 AND 18.)

12. (a) All inside walls and ceilings of rooms, passages and staircases shall be lime-washed at least once a year.

(b) All beams, rafters, doors and other wood work shall be either limewashed once a year or painted or varnished every seven years.

(c) The dates on which the parts of the factory are limewashed, painted or varnished shall be entered in the General Register (C).

13. The compound of the factory must be maintained in a cleanly and strictly sanitary condition. No rubbish of any sort may be allowed to remain on the factory premises.

14. All drains carrying waste or sullage water must be made of impermeable pucca material.

15. Every room must be provided with ventilating openings in the proportion of 10 square feet for each person employed in the room.

16. A supply of good drinking water containing at least as many gallons as there are persons employed must be provided to the employes free of cost.

17. Sanitary latrine accommodation separate for men and women shall be provided on the dry earth system, on a scale required by the rules.

FENCING AND GUARDING OF MACHINERY.

(SECTION 18 AND RULES 18 AND 20.)

18. (a) All flywheels, lifts and hoists shall be securely fenced.

(b) All shafts, couplings, pulleys, straps, ropes and other transmission machinery specified in rule 18 (a) shall be kept securely fenced.

(c) All important pulleys shall be provided with belt hangers or perches.

(d) Suitable striking gear shall be provided and used to move driving belts on all fast and loose pulleys.

19. (a) The line shaft in ginning factories shall be completely enclosed by a continuous wall or unclimbable fencing in which all doors or gates must be kept locked.

(b) The toothed rollers of the opener in ginning factories must be efficiently protected by a metal or wooden guard at least 15 inches wide securely fixed across the machine.

(c) The crank shaft pulleys and roller pulleys of ginning machines shall be securely guarded by strong wooden or metal guards with hinged covers.

SAFETY OF EMPLOYÉS.

(SECTIONS 16, 19 AND 20 AND RULES 17 AND 21.)

20. Two sets of stairs must be provided for fire escape: in all factories of more than one storey doors or windows leading to external staircases must be so constructed as to be easily opened from the inside and must be distinctly marked in red paint.

21. (a) No person engaged in oiling or adjusting belts within reach of unfenced machinery may be allowed to wear loose clothing or a turban.

(b) Only experienced trained persons shall be allowed to oil bearings, adjust belts or to approach within reach of unfenced transmission machinery.

(c) No woman or child may be allowed to clean mill gearing or other machinery in motion.

22. (a) Safe and convenient access must be provided to all bearings and service platforms or gangways shall be provided for overhead shafting.

(b) Every ladder used for oiling shafting must be provided with hooks.

FORM F (2.)

TEXTILE FACTORIES.

ABSTRACT OF INDIAN FACTORIES ACT, 1911, AND RULES MADE THEREUNDER 1917.

(A copy of this Abstract must be kept constantly affixed in the factory where it can easily be read.)

HOURS OF EMPLOYMENT AND REST INTERVALS.

(SECTIONS 21 (1), 28 AND 31 AND RULES 22, 24 (a) AND 25.)

1. *All persons.*—There shall be after 6 hours of work a rest interval of at least half an hour, during which all works shall be discontinued. (For exceptions see sections 21 (2), (3) and (30).)

2. Muster rolls must be kept for all men, women and children employed and the hours of work and rest intervals must be entered daily at the commencement of each period of work. No person may be employed for more than 12 hours a day nor may the machinery be worked for more than 12 hours.

HOLIDAYS.

(SECTION 22 (1) AND RULE 23.)

3. No person shall be employed in any factory on a Sunday unless he has had or will have a holiday on one of the three days immediately preceding or succeeding the Sunday, and unless a notice of the substituted holiday has been sent to the Inspector previous to the Sunday or substituted day whichever is earlier. (For exceptions see sections 22 (2), (3) and (4).)

4. A list of holidays which will be observed during each month giving dates, must be sent to the Inspector of Factories before the end of the preceding month.

(SECTIONS 23, 24, 32 AND 35 AND RULE 24.)

5. *Women and Children.*—No woman or child shall be employed before 5-30 A.M., or after 7 P.M. No woman shall work for more than 11 hours and no child under 14 years of age for more than 6 hours on any one day.

6. No child under nine years of age shall be employed in a factory. (For exceptions see section 3 (2) of the Act).

7. No child shall be employed unless he is in possession of a valid certificate of age and fitness. This certificate or a token giving reference to such certificate must be carried by the child when at work. (Certificates may be obtained free of cost on application to the certifying Surgeon.)

8. No child shall, under penalty of fine which may amount to 20 rupees, use or attempt to use as his own, a certificate granted to another child. No child shall obtain two certificates. When a child goes to a new factory, he must show his certificate to the Manager of the new factory.

9. A register of all children employed shall be kept correctly up to date in the form prescribed.

ACCIDENTS.

(SECTION 34 AND RULE 26.)

10. (a) Notice of accidents resulting in death or causing such severe injury that there is no reasonable hope of the injured person returning to work within 48 hours, shall be sent by telegraph, telephone or special messenger within 4 hours of the occurrence to—

(i) The Inspector of Factories; and

(ii) The District Magistrate or, if he by general order so directs, to the Sub-Divisional Officer.

Notice of all fatal accidents must also be sent to the Officer-in-charge of the Police Station. Such notices must be confirmed by a written report in the prescribed Form D.

(b) Notice of minor accidents which nevertheless prevent the injured person from returning to work within 48 hours shall be sent by post in Form D within three days of the accident to the Inspector of Factories and the District Magistrate or if he by general order so directs, to the Sub-Divisional Officer.

(c) Compensation for injuries may be granted to an injured person in accordance with section 45 of the Criminal Procedure Code, if it is proved that the injury resulted from the neglect of the Act or rules or disregard of orders issued by the Inspector, or if a conviction is obtained under the Indian Penal Code.

SANITARY CONDITIONS.

(SECTIONS 9, 13 AND 14 AND RULES 8, 9, 10, 11, 15 AND 16.)

11. (a) All the inside walls and ceilings of rooms, passages and staircases shall be limewashed at least once a year.

(b) All beams, rafters, doors and other wood work shall be either limewashed once a year or painted or varnished every 7 years.

(c) The dates on which the parts of the factory are limewashed, painted or varnished shall be entered in the General Register (C).

12. The compound of the factory must be maintained in a cleanly and strictly sanitary condition. No rubbish of any sort may be allowed to remain on the factory premises.

13. All drains carrying waste or sullage water must be made of impermeable pucca material.

14. Every room must be provided with ventilating openings in the proportion of 10 square feet for each person employed in the room, provided that this standard shall not apply to a textile factory in which the conditions prescribed by Rule 11 (c) are complied with.

15. A supply of good drinking water containing at least as many gallons as there are persons employed must be provided for the employees free of cost.

16. Sanitary latrine accommodation separate for men and women shall be provided on the dry earth system, on a scale required by the Rules.

FENCING AND GUARDING OF MACHINERY.

(SECTION 18 AND RULES 18 AND 19).*

17. (a) All flywheels, lifts and hoists shall be securely fenced.

(b) All shafts, couplings, pulleys, straps, ropes and other transmission machinery specified in Rules 18 (a) shall be kept securely fenced.

(c) All important pulleys shall be provided with belt hangers or perches.

(d) Suitable striking gear shall be provided and used to move driving belts on all fast and loose pulleys.

18. The following guarding of machinery shall *inter alia* be carried out in a textile factory :—

(a) Beater covers of blowing room machinery and the door immediately over the dirt grid shall be fitted with an automatic locking arrangement which shall render it impossible to open the covers or grid doors while the beater is still running, or to restart the machinery until the doors have been closed.

(b) The nip between the cage wheels and calender wheels shall be efficiently protected on all machines, preferably by 'spectacle' guards, extending round the outer edge of both wheels.

19. (a) All feed roller wheels, doffer and barrow wheels, side shaft wheels, calender wheels and collar wheels of carding machinery shall be efficiently fenced.

(b) All cylinder doors of carding machines shall be fitted with a safety automatic locking device which will prevent the door from being opened until the cylinder has ceased to revolve and which shall render it impossible to restart the machine until the door has again been closed.

20. Headstocks of speed frames shall be fitted with an automatic locking arrangement which shall prevent the doors being opened while the machinery is in motion, and shall render it impossible to restart the machine until the doors have been closed.

21. All quadrant pinions of self-acting mules shall be securely fenced.

22. (a) The outer ends of the ring frames shall be fitted in with metal plates.

(b) Guards made of strong rigid bars placed so that the vertical gap between them is not more than 6 inches, shall be permanently and securely fixed along the whole length of each ring frame and such guards shall not be removable without the use of tools.

SAFETY OF EMPLOYEES.

(SECTIONS 16, 19 AND 20 AND RULES 17 AND 21.)

23. Two sets of stairs for fire escape must be provided in all factories of more than one storey doors or windows leading to external staircases must be (so constructed as to be easily opened from the inside and must be plainly marked in red ink).

24. (a) No person engaged in oiling or adjusting belts within reach of unfenced machinery may be allowed to wear loose clothing or a turban.

(b) Only experienced trained persons shall be allowed to oil bearings, adjust belts or to approach within reach of unfenced transmission machinery.

(c) No woman or child may be allowed to clean mill gearing or other machinery in motion.

25. (a) Safe and convenient access must be provided to all bearings and service platforms or gangways shall be provided for overhead shafting.

(b) Every ladder used for oiling shafting must be provided with hooks.

HOLIDAY RETURN.

The following is the list of holidays which will be given during the month of _____ in the _____ factory, in accordance with section 22 of the Indian Factories Act and the Government of India Notification quoted below :—

Sundays.	Other substituted days.

Signature of Factory Manager.

Address of Factory.

Date of despatch of notice.

GOVERNMENT OF INDIA NOTIFICATION No. 6750-25.

Dated the 14th September 1912.

“Every Manager of a factory shall furnish to the Inspector of Factories, before the end of each calendar month, a return giving notice of all the days on which the factory will be closed during the next ensuing month. This return shall be submitted whether the factory is or is not working during the calendar month preceding the one to which the return relates.”

R. E. ENTHOVEN,

Secretary to the Government of India.

FORM J.

No. _____

INSPECTOR OF FACTORIES' OFFICE;

Dated the _____ 191

THE INDIAN FACTORIES ACT, 1911, AND DELHI FACTORY RULES, 1918, MADE THEREUNDER.

Upon a recent inspection of your factory it was found, to the extent indicated below, that certain provisions of the above Act and Rules were not being carried out, I have therefore to request that the necessary steps may be taken at once to comply with the law.

I am,

Yours faithfully,

Inspector of Factories for the Delhi Province.

Delhi, the 10th December 1919.

No. 7455-Home.—It is hereby notified that the holidays to be observed in public offices under the Chief Commissioner of the Province of Delhi during the year 1920, which are specified in the schedule hereto annexed, are public holidays within the meaning of section 25 of the Negotiable Instruments Act, XXVI of 1881. These holidays should be given to all Government servants, subject to the single condition that it should be open to the head of an office to stop a holiday notified under the Act in the case of any individual guilty of idleness or inattention to duty, unless the day in question is deemed specially sacred by the members of the religion which the offender professes.

2. In addition to the holidays specified in the schedule all Government offices will be closed from the 28th to the 30th December 1920, and on 26th November 1920 for Guru Nanak's birthday.

Heads of offices may also, subject to the condition that there are no arrears of work, permit the last Saturday of every month to be observed as a holiday in the English and Vernacular offices. In such cases all establishments should be allowed, subject to the condition laid down in the case of public holidays, under the Negotiable Instruments Act, to take full advantage of the holidays.

3. This Notification does not apply to holidays to be observed in Civil Courts.

SEPARATE REVENUE.

STAMPS.

The 17th December 1919.

No. 3183-F.—In exercise of the powers conferred by section 9, clause (a) of the Indian Stamp Act, 1899 (11 of 1899), the Governor General in Council is pleased to remit the duty chargeable under Article 12 of Schedule I of the said Act on the decisions and awards of the Registrar of Co-operative Societies for the Central Provinces and the awards of arbitrators in all disputes in which co-operative societies in the Central Provinces or any members thereof as such are parties.

H. F. HOWARD,

Secretary to the Government of India.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

CUSTOMS—WAR.

Delhi, the 20th December 1919.

No. 856-D.—The following extract from the Board of Trade Journal, dated the 13th November 1919, is published for general information :—

GOVERNMENT NOTICES AFFECTING TRADE.

IMPORT AND EXPORT SECTION.

ABOLITION OF LISTS "D" AND "E."

The Board of Trade announce that Lists "D" and "E" have been cancelled.

The following goods formerly included in these Lists have been replaced on List "A" :—

Armoured motor cars.

Implements and apparatus designed exclusively for the manufacture of munitions of war or for the manufacture or repair of arms or of war materials for use on land or sea.

Apparatus which can be used for the storage or protection of compressed or liquefied gases, flame, acids, or other destructive agents, capable of use in warlike operations, and their component parts.

RELAXATION OF EXPORT PROHIBITIONS.

The Board of Trade announce that, as from to-day, the following goods have been removed from List "A" of Prohibited Exports :—

Pig Iron.
Lobsters.
Malt Flour.
Castor Seed.

IMPORT AND EXPORT LICENCES.

The Board of Trade announce that the Export Licence Department has now removed from 1, Queen Anne's Gate Buildings, S.W.-1 and has been amalgamated with the Department of Import Restrictions at 22, Carlisle Place, S. W.-1. The combined Department will be under the charge of the Assistant Secretary, Industries and Manufactures Department, Board of Trade.

Applications for licences in respect of all commodities (with the exceptions stated below) and all enquiries relating thereto, should be addressed to the Director, Imports and Exports Licensing Section, Board of Trade, 22, Carlisle Place, S.W.-1. (T. N. 4173 Victoria).

Applications for licences for the import of Dyestuffs should be addressed as hitherto to the Secretary, Trade and Licensing Sub-Committee, Danlee Buildings, Spring Gardens, Manchester, for licences for the *Export* of coal to the Controller, Coal Mines Department, Holborn Viaduct Hotel (E.C.) 1.

IMPORT OF GERMAN DYESTUFFS.

The Board of Trade desire to notify Consumers of Dyestuffs that the first instalment of colours which are being obtained from Germany under the Reparation Clauses in the Peace Treaty will shortly be received and will be followed at intervals by further quantities.

It is proposed that distribution should be effected as soon as possible after the arrival of each consignment. For the purpose of making this distribution the information already supplied by the Colour Users' Association and the National Federation of Paint Colour and Varnish Manufacturers as to the probable requirements of their members for dyestuffs during the next six months, will be utilised as a basis. In order that this information may be extended so as to cover the whole of the requirements of the Colour Using Industry of the United Kingdom, it is desirable that any actual consumer of colour who is not a member of the Colour Users' Association or the National Federation of Paint Colour and Varnish Manufacturers and consequently has not submitted any return to either of those bodies should immediately forward to the Board of Trade Industries and Manufactures Department, Great George Street, S.W. 1, information on the following points, namely :—

- (a) The quantity of each particular brand of dyestuff estimated to be required during the next six months and which is not likely to be available in sufficient quantity from either British, Allied or Neutral sources of supply.
- (b) The approximate consumption during the year 1913 of each of these colours.

NOTE.—The dyestuffs required should, as far as possible, be classified under the following headings :—

Direct cotton colours, union colours, acid wool colours, chrome and mordant colours, basic colours, sulphide colours, vat colours, oil spirit and wax colours, immediate products, and the names given should be the usual trade denominations so as to render them easily identifiable.

As it is probable that the quantities which will become available under these arrangements will not be adequate to meet the whole of the requirements of consumers, the Trade and Licensing Sub-Committee will be prepared to consider applications from actual consumers for additional quantities not coming under the Reparation arrangements it being understood that any permission granted for the import of such additional quantities will be on condition that any arrangements for the purchase and import will be made by the Central Importing Agency in accordance with the notice in the "Board of Trade Journal" of 26th June, 1919.

EMIGRATION.

The 20th December 1919.

No. 785-D.—In pursuance of section 116-A, sub-section (1) of the Assam Labour and Emigration Act, 1901, as amended by the Assam Labour and Emigration (Amendment) Act, 1915, the Governor General in Council is pleased to approve, with effect from the 1st December 1919, of the election of Mr. W. M. Fraser to be a member of the Assam Labour Board as a representative of the Indian Tea Association, Calcutta, and of the Indian Tea Association, London, *vice* Mr. R. Graham resigned.

EXPLOSIVES.

The 20th December 1919.

No. 832-D.—Major J. H. Allen is appointed to officiate as Inspector of Explosives with the Government of India, with effect from the forenoon of the 1st December 1919, *vice* Major J. W. Turner on leave.

Mr. S. E. Bird reverts to his appointment as Personal Assistant to the Chief Inspector of Explosives with effect from the 1st December 1919.

POST AND TELEGRAPH ESTABLISHMENTS.

The 20th December 1919.

No. 9858.—Mr. Robert Cornick Winch has been appointed by His Majesty's Secretary of State for India to the Indian Telegraph Department as an Assistant Superintendent, Telegraph Engineering.

STATISTICS.

The 20th December 1919.

No. 896-D.—Rai Bahadur D. N. Ghosh, a Superintendent in the Department of Statistics, is appointed to officiate as Director of Statistics with effect from the afternoon of the 13th December 1919, until further orders.

CUSTOMS DUTIES.

The 20th December 1919.

No. 859-D.—In exercise of the powers conferred by section 3 of the Indian Tariff Act, 1894 (VIII of 1894), as subsequently amended, and in supersession of Notification of the Government of India in the Department of Commerce and Industry, No. 1176-D., dated the 28th December 1918, the Governor General in Council is pleased to fix, with effect from the 1st January 1920, for the articles specified in column 2 of the schedule hereto annexed, the tariff values stated in column 4 of the said schedule.

RAILWAY DEPARTMENT.

(RAILWAY BOARD.)

NOTIFICATIONS.

Delhi, the 19th December 1919.

No. 391-T.—19.—In exercise of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, and in pursuance of section 47, sub-section (4) of the Indian Railways Act, 1890 (IX of 1890), the Railway Board sanction the following alterations made by the Junagad State Railway under sub-section (1), clauses (f) and (g) of the said section in the rules published with Railway Board's Notification No. 3-T.-1—18, dated the 20th June 1919.

Rule 1—

For the words “ For any description of goods—6 pies ” appearing in two places in columns 3 and 4 in the Table *substitute* the words :—

“ For stone—1 pie.

For other descriptions of goods—6 pies.”

Rule 3—

For the words “ within seven days from date of receipt ” *substitute* “ within 48 hours from midnight of date of receipt.”

For the rate per maund and the minimum charge per package of anna “ 1 ” *substitute* annas “ 2.”

Rule 10—

For the first part of this rule substitute the following :—

“ 10—When for the convenience of passengers, reserved carriages are detained at stations, a charge of 12 annas for an eight-wheeled carriage, 8 annas for a six-wheeled and 6 annas for a four-wheeled carriage per hour or part of an hour will be made, but the charge will only be collected when orders to this effect are specially issued.”

No. 698-P.—16.—It is hereby notified for general information that the Railway Board have sanctioned a reconnaissance survey being carried out by the agency of the South Indian Railway for a line of railway on the metre gauge between Nanjangod, a station on the Madras and Southern Mahratta Railway, and a point on the proposed Shoranur-Manantoddy Railway near Devala, a distance of about 50 miles.

2. The survey will be known as the Nanjangod-Devala Railway Reconnaissance Survey.

No. 841-W.—19.—The Senior Government Inspector of Railways, Circle No. 4, Lahore, having inspected the double line sections (1) from Shahdadpur to Nawabshah and (2) from Kotlaloo to Khariro, 26.10 and 3.25 miles respectively, of the Hyderabad-Rohri double line of the North Western Railway, authorised their opening to public traffic with effect from 27th November 1919. The Railway Board after considering his report have confirmed his action.

No. 1003-E.—19.—With reference to Railway Board's Notification No. 1003-E.—19, dated the 13th May 1919, Mr. S. L. R. Naidu, Assistant Traffic Superintendent, Eastern Bengal Railway, in class III, grade 2, of the Superior Revenue Establishment of State Railways, will continue to officiate as a District Traffic Superintendent in class II of that Establishment until further orders.

No. 1627-E.—19.—With reference to Railway Board's Notification No. 1627-E.-2—19, dated the 17th October 1919, Mr. M. A. Siddiqi, Officiating Assistant Traffic Superintendent, Eastern Bengal Railway, reverted to his substantive appointment of Traffic Inspector with effect from the 8th November 1919.

No. 1627-E.-2—19.—Mr. S. N. Hoon, Assistant Traffic Superintendent, Eastern Bengal Railway, in class III, grade 3, of the Superior Revenue Establishment of State Railways, officiated as a District Traffic Superintendent in class II of that Establishment from the 17th August to the 24th October 1919.

No. 2077-E.—18.—The undermentioned gentlemen have been appointed by His Majesty's Secretary of State for India as Assistant Traffic Superintendents (on probation) in class III, grade 3, of the Superior Revenue Establishment of State Railways, and are posted to the railway noted against their names :—

Mr. Paresh Lal Roy	Eastern Bengal Railway.
Mr. Hugh Melville Kitchen	Ditto.
Mr. George William Percy Avery	North Western Railway.

No. 2418-E.—19-1.—Mr. J. W. Helliwell, Assistant Locomotive Superintendent, North Western Railway, is promoted from class III, grade 2, to class III, grade 1, of the Superior Revenue Establishment of State Railways with effect from the 1st November 1919.

No. 2418-E.—19-2.—Mr. H. G. Scotter, Assistant Locomotive Superintendent, Eastern Bengal Railway, is promoted from class III, grade 3, to class III, grade 2, of the Superior Revenue Establishment of State Railways, with effect from the 1st November 1919.

No. 2418-E.-19-3.—Mr. E. Gildea, Temporary Assistant Locomotive Superintendent, North Western Railway, is appointed to the Superior Revenue Establishment of State Railways, as an Assistant Locomotive Superintendent in class III, grade 2, with effect from the 1st November 1919.

No. 2501-E.—19.—Mr. Moizud-Din Sheikh, Assistant Traffic Superintendent, North Western Railway, in class III, grade 2 of the Superior Revenue Establishment of State Railways, is appointed to officiate as a District Traffic Superintendent in class II of that Establishment, with effect from the 24th November 1919 and until further orders.

R. McLEAN,
Secretary, Railway Board.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 18th December 1919, based on the Indian Daily Weather Reports of the period.

1. The disturbance from Persia, which entered northwest India towards the end of the previous week, gave between the 11th and 13th widespread precipitation in the North-West Frontier Province, Kashmir, the Punjab and east Rajputana, with a few falls in the west of the United Provinces. Unsettled conditions appeared off the Arakan Coast during the 14th and much rain fell in Burma on that and the succeeding day. In the Peninsula scattered showers were of almost daily occurrence.

2. *Burma*.—In Upper Burma nearly general rain fell on the 14th and 15th. In Lower Burma rainfall was local on the above mentioned dates and occurred at a few stations on three other days.

Northeast India, including Orissa.—The week was rainless.

The United Provinces, Central India and the Central Provinces.—On the 12th and 13th nearly general rain fell in the Kumaon hills, with a few falls in the plains in the west of the United Provinces. Over the rest of the division, Indore, Saugor and Jagdalpur were the only stations that reported rain during the week.

Northwest India.—There was nearly general rain or snow in the North-West Frontier Province and the hills of the Punjab on the 12th and 13th; rain or snow fell locally on one other day in the former area. Rainfall was local in the plains of the east and north Punjab between the 11th and 13th, in Kashmir between the 12th and 14th, and in east Rajputana on the 11th and 12th; a few falls occurred in Kashmir on two other days. In the southwest Punjab rainfall was limited to a moderate fall at Khushab, while in Baluchistan except for light fall at Fort Sandeman the weather was dry.

The Peninsula.—Local rain fell in the Konkan on the 14th, in the Bombay Deccan on the 12th, in Mysore and southeast Madras on the 14th, in Malabar on the 13th and 14th, in the Madras Deccan on the 15th, and on the north Madras coast on the 15th and 16th; there were a few falls on one other day in the Konkan and on the north Madras coast, and on two other days in the Bombay Deccan and southeast Madras. In Hyderabad some scattered falls occurred during the week.

3. The chief amounts of rainfall reported were as follows:—

December 11th.	Dharampore 0·16", Hissar 0·13", Lahore 0·24", Sialkot 0·11", Sonamarg 0·35", Peshawar 0·41", Drosh 0·70", Jaipur 0·25" and Kotah 0·75".
" 12th.	Roorkee 0·30", Delhi 0·41", Ludhiana 0·53", Rawalpindi 0·85", Murree 0·80", Khushab and Sonamarg each 0·45", Srinagar 0·57", Peshawar 0·85", Cherat 1·24", Drosh 0·50", Fort Sandeman 0·25", Jaipur 0·43" and Ajmer 0·60".
" 13th.	Jhansi 0·22", Sialkot 0·29", Srinagar 0·50", Sonamarg and Peshawar each 0·92", Cherat 0·36", Parachinar 0·25", Drosh 0·28", Marmagao 2·03" and Mangalore 1·16".
" 14th.	Diamond Island 1·43", Kyaukpyn 4·90", Akyab 1·50", Minbu 1·74", Yamethin 1·59", Srinagar 0·29", Sonamarg 0·25", Bangalore 0·68", Calicut 1·14" and Trichinopoly 1·12".
" 15th.	Mergui 0·97", Moulmein 0·83", Rangoon 0·71", Toungoo 1·65", Bhamo 0·72", Hyderabad (Deccan) 0·37" and Nellore 1·27".
" 16th.	Jagdalpur 0·55", Bijapur 0·50", Madras 0·45" and Kodaikanal 0·60".
" 17th.	Nizamabad 0·58", Madras 0·39" and Nellore 2·87".

4. The week's rainfall was 20 per cent or more in excess in the Bay Islands, Burma, the Punjab East and North, Kashmir, the North-West Frontier Province, Rajputana East, Central India West, the Konkan, the Bombay Deccan, Hyderabad, Mysore, Malabar and the Madras Coast North; and was 20 per cent or more in defect in Assam, Bihar and Orissa, the United Provinces East, Baluchistan, Sind, Rajputana West, Central India East, Berar, the

Central Provinces West and Madras Southeast. It was normal in the United Provinces West, the Punjab Southwest, the Central Provinces East and the Madras Deccan. No rain usually falls at this time of year in Bengal and Gujarat.

The rainfall from the 28th November to date is 20 per cent or more in defect in Bengal, Bihar and Orissa, the United Provinces, the Punjab Southwest, Baluchistan, Sind, Rajputana West, Central India East, Berar, the Central Provinces and the Madras Deccan; and is 20 per cent or more in excess in the Bay Islands, Burma, the Punjab East and North, the North-West Frontier Province, Rajputana East, the Konkan, Hyderabad, Mysore, Malabar, Madras Southeast and the Madras Coast North. It is either equal to the normal or differs from it by less than 20 per cent in Assam, Kashmir, Central India West and the Bombay Deccan. No rain is expected at this time of year in Gujarat.

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
13th December 1919.

Burma.—The week was rainless in Lower Burma and in irrigated tracts of Upper Burma. Reaping of winter rice is becoming general in Upper Burma. Cultivation of island crops is progressing. Gathering of groundnuts is still proceeding. Plucking of cotton has been practically completed. Standing crops are generally in fair condition except in three or four districts. Cattle are generally healthy. In the Amherst district the number of persons on relief works remains stationary at 2,700 and of persons receiving gratuitous relief about 100. In Thaton relief works were practically stopped. The price for white rice (specials) in Rangoon is unchanged at Rs. 385 which is the same as control price. There were no sales of unhusked rice.

Assam.—During the week the weather was seasonable. Plucking of tea and cotton, harvesting of winter rice and pressing of sugarcane are in progress. Sowings of mustard and barley have been finished and of pulses continue. The outturn and prospects of crops are fair. Cattle disease is reported from four districts. The price of common rice continues to fall in the Surma Valley.

Bengal.—The week was rainless. Reaping of winter paddy is in full swing. Sowings for spring crops are fast approaching completion. The condition and prospects of standing crops, so far, are reported to be promising. The average price of common rice has fallen by 5.63 per cent.

Bihar and Orissa.—There was no rain during the week. Sowings for spring crops are nearing completion. Harvesting of paddy and pressing of sugarcane continue. Standing crops are, on the whole, doing well. More rain is, however, wanted in parts of Tirhut. The price of common rice has risen in two districts, fallen in eight and remained stationary in the remaining districts. The average price of local common rice at headquarters was 6.76 seers a rupee against 6.66 seers in the preceding week and that of maize 7.8 seers against 7.62 seers in the preceding week. Cattle disease is reported from six districts. During the week ending the 6th December, 11 persons were given gratuitous relief and 1,216 persons attended test works in one of the Feudatory States of Orissa, *vis* :—Baramba.

United Provinces.—During the week light rain fell in a few Himalayan and western submontane districts. Irrigation of spring crops and pressing of sugarcane continue. Standing crops are in good condition. Prospects are favourable. Agricultural stock is in satisfactory condition. Fodder, water and market supplies are sufficient. Prices are practically stationary.

Punjab.—During the week light rain fell in nearly all the reporting districts except in parts of those in the west and was useful for standing crops which are average to good on irrigated and below average to average on unirrigated areas. More rain is badly wanted. Picking of cotton and pressing of sugarcane continue. The yield is generally normal in irrigated and below normal on unirrigated areas. Sowings for spring crops are in progress. The area sown is generally normal on irrigated and below normal on unirrigated tract. Cattle are generally healthy. Shortage of fodder and canal water is reported in parts of a few districts. Prices are generally stationary and above scarcity rates. Prices of wheat :—Rawalpindi 6, Ambala and Ferozepur 6½, Lyallpur 6½ and Lahore 6½ seers per rupee.

North-West Frontier Province.—During the week beneficial rain fell in places. Sowings for spring crops and harvesting of certain autumn crops are in progress. The outturn of cotton is below average. Standing crops are generally average but prospects of crops on unirrigated areas in one district are reported to be poor. Prices of wheat :—Peshawar 7½ and Dera Ismail Khan 6½ seers per rupee.

Jammu.—The rainfall during the week was slight. There is no marked fall in prices. Fodder is sufficient.

Kashmir.—Report not received.

Rajputana.—During the week the weather was cool. Local showers were received in a few places. Sowings for spring crops are nearing completion. Irrigation continues. The supply of fodder and water is adequate. The condition of agricultural stock is good except in Kotah. Prices are stationary.

Central India.—No rain fell during the week. Harvesting of autumn crops is in progress. Sowings for spring crops are nearing completion. Picking of cotton continues in Gwalior, Indore, Bhopal and the Southern States. Standing crops with their probable outturn are fair to good. Damage is reported in Sohawal. Agricultural stock is generally good except for cattle disease in Indore, Gwalior and Baghelkhand. Prices are high. Sowing of opium continues in Gwalior and Indore and has commenced in the Southern States.

Central Provinces.—During the week the weather continued to be clear and cool with occasional clouds. Six districts received slight showers not exceeding one inch. Picking of cotton and reaping, threshing and winnowing of autumn crops are proceeding. Sowings for spring crops have been completed and germination is successful. Prospects are at present excellent. Pressing of sugarcane is in progress. The supply of fodder and water is sufficient. Cattle are healthy. The price of wheat continues to show a slight upward tendency.

Fendatory States.—Autumn crops are being gathered. Spring crops are generally in good condition.

Bombay.—Slight rain fell during the week in parts of Thana, Kolaba, Poona, Satara, Dharwar and the Southern Maratha Country States. Standing crops are generally in good condition except in parts of Broach where they were damaged by insects. Harvesting of autumn crops and sowings of spring crops continue. Cotton picking is in progress in Ahmedabad and in parts of the Deccan and Kathiawar. The supply of fodder and water is generally adequate. Agricultural stock is generally sufficient. Cattle are in good condition. Prices of food-grains have risen slightly in Panch Mahals and Poona and fallen in Larkana, Kolaba, Nasik, Belgaum and Dharwar. Elsewhere they are generally steady.

Hyderabad.—Weather report not received.

*The weekly report on famine for week ending the 6th December 1919 is as follows:—*Improvement in the situation continues but damage to castor seed crop has increased the ryots' distress. There is no increase in the number of persons on relief. Camps are under closing test in the Telingana district. With the exception of a few camps *takavi* advances have discontinued. The average price of rice in the affected parts varies from 2½ to 4½ seers and that of *juar* from 5 to 6 seers per rupee. Numbers relieved in thousands for week ending the 27th November:—works 8, gratuitous relief 3, total 11.

Mysore.—Report not received.

Coorg.—During the week the weather was cold. Reaping of rice has commenced in parts. Picking of cardamum and coffee continues. Cattle are generally healthy. Water and fodder for cattle are available. The public health is fair. Prices of food-grains are high.

Madras.—The rainfall during the week was very heavy in Travancore, heavy in Tanjore, good in Trichinopoly and Pudukotai, fair in South Arcot, Ramnad, Tinnevely and the hills and light or nil elsewhere. Standing crops are in fair condition generally but dry crops have been damaged in small area in Ramnad owing to excessive rain. *Cholam* in parts of Kurnool has been blighted and paddy in one *taluka* of Anantapur has been affected by insect pests. The outturn of harvested paddy and of dry crops is generally fair and fresh sowings of paddy and dry crops are progressing. The condition of cattle is generally good. Water is generally sufficient. Pasture and fodder are sufficient generally. Prices tend to rise. Prospects are fair generally.

*The weekly report on famine in Ganjam is as follows:—*Relief works 2 in Humma, Biridi and Palur and 1 in Ronabha are in progress. Famine operations were closed on 13th in Humma, Biridi and Palur. Cloth distribution is being provided by private charity. Prices:—rice in Chatrapur 4-8 and *ragi* 7-6 seers per rupee. Numbers on relief works were 297 and on gratuitous relief 2,212. Total 2,509.

F. H. G. HUTCHINSON, Lieut.-Col., I.M.S.

SIMLA :
The 19th December 1919, }

Sanitary Commissioner with the
Government of India.

No. 2046.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.

Delhi, the 17th December 1919.

**MEMBERS OF THE PROVINCIAL CIVIL SERVICE ELIGIBLE FOR THE NEWLY
CREATED POSTS OF ASSISTANT OR JOINT JUDGE IN THE BOMBAY
PRESIDENCY.**

RESOLUTION.

The Governor General in Council recently sanctioned the creation of four additional posts of Assistant or Joint Judge in the Bombay Presidency. With the sanction of the Secretary of State he is now pleased to announce that these posts will be open to members of the Provincial Civil Service.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Government of Bombay and the Finance Department and that it be published in the *Gazette of India*.

H. D. CRAIK,

Offg. Addl. Secretary to the Government of India.

**Statement of Approximate Gross Earnings of Indian
Railways.**

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, DECEMBER 20, 1919.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 8th November 1919.

On and after 15th November and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Delhi, Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Delhi and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India."

APPLICATION FOR RESTORATION OF LAPSED PATENT UNDER SECTION 16.

Notice is hereby given that application has been made under Section 16 of the Indian Patents and Designs Act, 1911, for the restoration of the following patent granted to A. H. Wallis, F. L. Wallis, F. H. Harrison and A. J. Brown:—

No. 2262 of 1915. *Improvements in projectiles for fire arms.*

This patent ceased on the 16th August 1919, owing to non-payment of the prescribed renewal fee, and its cessation was notified in the *Gazette of India*, dated 29th November 1919. Any person may give notice of opposition to restoration by leaving patent form No. 5 at the Patent Office, 1, Council House Street, Calcutta, on or before the 3rd February 1920.

CESSATION OF EXCLUSIVE PRIVILEGES.

The public are warned that entries under this heading must not be accepted as final, as under the provisions of Rules 9 and 11 of "The Indian Patents and Designs (Temporary) Rules, 1915," the Controller may extend the time prescribed by the Indian Patents and Designs Act, 1911, and by the Inventions and Designs Act, 1888, for paying the necessary renewal fees.

The Patent Office will supply on request definite information, so far as possible, as to the position of any particular Patent or Exclusive Privilege.

1907.

565. (American Linen Co.)

1915.

2292. (Smith and ors.) 2296. (Billinton.)

DESIGNS ENTERED ON THE REGISTER.

From December 8th to 13th, 1919.

Class 13. Nos. 9052 to 9078. The Calico Printers' Association, Ltd., of St. James's Buildings, Oxford Street, Manchester, England. December 1, 1919.

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. *These should be consulted before an application is made to the Controller.*

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India application should be made to the patent offices in the countries concerned.

5. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

7. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AMMADABAD . . .	E. C. Technical Institute.	HYDERABAD . . .	Revenue Department of His Highness the Nizam's Government.

**DEPARTMENT OF MINES IN INDIA, DHANBAD P. O.,
MANBHUM.**

Indian Mines Act, 1901.

NOTICE.

An examination for First Class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for Second Class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad P.O., E. I. Railway, and not to any Officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

G. F. ADAMS,

Chief Inspector of Mines in India,
and *ex-officio* President of the Board of Examiners.

**GOVERNMENT OF BENGAL, REVENUE DEPARTMENT.
Land Acquisition Branch.**

NOTIFICATION.

Dated the 9th December 1919.

No. 9373-L.A.—The following agreement is published under Section 42 of the Land Acquisition Act, 1 of 1894, for general information.

M. C. MCALPIN,
Secy. to the Govt. of Bengal.

MEMORANDUM OF AGREEMENT made this eighth day of December one thousand nine hundred and nineteen BETWEEN THORNYCROFT (INDIA) LIMITED a Joint Stock Company with limited liability duly incorporated under the Indian Companies Act and having its registered office at No. 7, Old Court House Street in the City of Calcutta (hereinafter called "the Company") of the one part and the SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter called "the Secretary of State") of the other part WHEREAS for the purpose of the construction of offices, factory, workshop and garage for dealing in and the manufacture of motor lorries motor launches and other self-driving mechanical conveyances the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of the piece or parcel of land containing by estimation fourteen Bighas or thereabouts situate in the Village of Mominpore in the District of the 24-Parganas and being portion of premises Nos. 48 and 48-2 Diamond Harbour Road and more—particularly described in the Schedule hereto and delineated in the Plan* herewith annexed AND WHEREAS the said Government of Bengal—being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described AND WHEREAS the said Government of Bengal has— "required the Company under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained NOW THIS INDENTURE WITNESSETH that it is hereby agreed and declared as follows:—

1. On demand the Company shall and will pay to the Government of Bengal all and every compensation in respect of the said land tendered paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligation of the Company under the last preceding clause not being thereby limited, the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing first clause, or, in the discretion of the said Government of Bengal on deposit by the Company of all estimated amounts as provided in the 2nd clause, but not before possession shall have been taken under the provisions of the abovementioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purpose of such manufacture as is hereinbefore mentioned, and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The necessary buildings and plant for the manufacture of the machinery shall be completed (and fully equipped in all respects ready for use) within three years from the date upon which possession of the said land shall have been given to the Company.

6. Should the said buildings and plant not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twelve consecutive months to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause then and in any such case the said Government may summarily re-enter upon and take possession of the said land, and thereupon the interests of the Company in the said land shall absolutely cease and determine.

*Not published herewith, but may be inspected in the office of the special Land Acquisition Deputy Collector, Alipore, 24-Parganas.

7. On taking such possession, the said Government may sell or otherwise deal with the said land as it may think proper. Should the said Government sell the said land, the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company. Should the said Government on taking possession decide not to sell the land it shall repay to the Company all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of fifteen per cent. (under section 23(2) of Act I of 1894) but will not repay any sums received on account of costs, charges and expenses.

8. The public shall be entitled to use the said land on the following terms :—

The public shall have all reasonable access to that portion of the said land and buildings on or in which the machinery manufactured is exposed for sale and reasonable liberty to inspect such manufactured machinery free of charge and to purchase the same at such prices as may hereafter be fixed by the Company.

9. The Company shall be at liberty to transfer all or any of their rights under this agreement to a limited liability Company in India now in the course of promotion to take over the Company's existing interests in India and to be promoted under the name of Thornycroft (India) Limited, when such promotion has been completed PROVIDED ALWAYS that such Company shall not be a " Foreign Controlled Company " as defined in Government of India Notification No. 11917, dated the sixth day of October one thousand nine hundred and seventeen and the Company shall therefore be deemed to be acquiring the said land as Trustees for the said Thornycroft (India) Limited who shall take such land subject to all the liabilities which otherwise would attach to and be binding on the Company.

10. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

THE SCHEDULE above referred to.

ALL THAT piece or parcel of land containing by estimation 14 Bighas or thereabouts situate lying at and being portion of premises Nos. 48 and 48-2 Diamond Harbour Road within the jurisdiction of the Municipality of Calcutta Thannah Ekbalpore Registration Sub-District Alipore in the District of Twenty-four Parganas and butted and bounded in manner following, that is to say :—

On the North by Budge-Budge Road and premises at present numbered 48-3, 49 and 53 Diamond Harbour Road.

On the East by Diamond Harbour Road and premises Nos. 49 and 53 Diamond Harbour Road and premises No. 4 Budge Budge Road and Mominpore Gully.

On the South by Mominpore Gully, and

On the West by premises at present numbered 5 Budge Budge Road and portions of 6, 8, 9 and 10 Mominpore Gully.

OR HOWSOEVER OTHERWISE the said piece or parcel of land or any part thereof is now or was at any time heretofore butted bounded called known numbered described or distinguished and which said land is delineated in the plan hereunto annexed.

IN WITNESS whereof the Company has caused its Common Seal to be hereunto affixed and the Secretary of State for India in Council hath hereunto set his hand and seal the day and year first above written.

THE COMMON SEAL of the abovenamed Thornycroft (India) Limited has hereunto been affixed by the direction and in the presence of F. E. Bushby and T. E. T. Upton two of the Directors of the Company who have herunto set their respective hands and these presents have been countersigned by W. L. Morgan its Secretary in the presence of

Seal.

R. G. SOPER,
7, Old Court House Street, Calcutta,

R. H. MULLIN,
7, Old Court House Street, Calcutta.

FRANK E. BUSHBY, }
T. E. T. UPTON, } *Directors.*

W. L. MORGAN ... *Secretary.*

Signed sealed and delivered by M. C. McAlpin, Secretary to the Government of Bengal in the Revenue Department, on behalf of the Secretary of State for India in Council in the presence of S. Abdul Latif, Under Secretary to the Government of Bengal, Revenue Department.

M. C. McALPIN,
Secy. to the Govt. of Bengal,
Revenue Department.

E. G. HOLDEN, Capt. and Adjt., for Lieut.-Colonel,
Commanding 202nd Battalion, M. G. C.

THE AGENT TO THE GOVERNOR-GENERAL IN CENTRAL INDIA.

NOTIFICATIONS.

Central India Agency, Indore, the 10th December 1919.

No. 2241-C.—In exercise of the powers conferred by section 42 (2) (i) (j) (k) and (l) of the Central India (Administered Areas) Excise Law, 1917, the Agent to the Governor-General in Central India is pleased to make the following rules for the grant by the local excise authority, under section 8(1) of the said Law, of licenses for the sale, by wholesale or by retail, of foreign spirit and foreign fermented liquor.

(1) Licenses for the sale by retail of foreign spirits and foreign fermented liquor (not to be consumed on the premises) shall be in Form I annexed to these rules.

Licenses for the sale by wholesale of foreign spirits and foreign fermented liquor (not to be consumed on the premises) shall be in Form 11 annexed to these rules.

Licenses for the sale of foreign spirits and foreign fermented liquor (to be consumed on the premises) shall be in Form III annexed to these rules.

Occasional bar licenses for the sale of foreign spirits and foreign fermented liquor (to be consumed on the premises) shall be in Form IV annexed to these rules.

Licenses for the sale at a Railway Refreshment room of foreign spirits and foreign fermented liquor (to be consumed on the premises) shall be in Form V annexed to these rules.

Licenses for the retail sale of foreign spirits and foreign fermented liquor at a military Canteen established under the "canteen tenant system" shall be in Form VI annexed to these rules.

(2) Excepting occasional bar licenses, which shall not be issued for any period exceeding six days, no such license shall be issued for a period of more than one year or less than a quarter calculated in all cases from the 1st day of one of the months of January, April, July or October.

(3) Occasional bar licenses will be granted only in order to enable spirits and fermented liquors to be sold at entertainments by or on behalf of the organisers of these entertainments. Such a license will be granted by the local excise authority only after he has satisfied himself that its issue is desirable in the interests of the persons attending the entertainment and is not otherwise objectionable. In each such license the hours during which sales will be permitted will be entered by the local excise authority with due regard to the circumstances of the entertainment for which it is required.

(4) The fees ordinarily payable for licenses shall be—

For a license in Form I Rs. 12 8 0 per quarter payable in advance.

For a license in Form I	Rs. 15	0	0
For a license in Form II	Rs. 25	0	0

For a license in Form III Rs. 300 per quarter payable monthly in advance.

For a license in Form IV Rs. 4 per night payable in advance.

For a license in Form V Rs. 25 per quarter payable in advance.

For a license in Form VI Rs. 24 per annum if the canteen is for a regiment, and Rs. 12 per annum if it is for a smaller unit, payable in advance.

NOTE.—In the term "regiment" is included a battalion of infantry and a regiment of cavalry; and in the term "smaller unit" a battery or company of artillery or a depot thereof, a station hospital, and a station veterinary hospital.

Provided that in any case where in the opinion of the local excise authority the grant of a license in Form I, Form II or Form V is desirable in the interest of the public convenience, while the probable extent of the business done is not such as would justify the levy of the prescribed fee, the local excise authority may after recording his reasons in writing, grant a license on the payment of a reduced fee the amount of which shall not be less than $\frac{1}{3}$ of the prescribed fee.

(5) The fee payable for special permission to make sales after ordinary closing hours at a shop conducted under a license in Form III shall be Rs. 10 per night. Such permission should be granted only when sales after closing hours are rendered necessary or desirable by circumstances of a very exceptional character.

2. The following notifications are hereby cancelled :—

No. 1154-C., dated the 17th June 1908, as subsequently amended

No. 1157-C., dated the 17th June 1908.

No. 2016-C., dated the 31st October 1910.

FORM I.

License for the sale by retail of foreign spirits and foreign fermented liquors not to be consumed on the premises.

License to sell by retail at the premises known as _____

-situated

foreign spirits and foreign fermented liquors is

hereby granted to _____ for a period of _____ commencing on _____

the _____ and ending on the _____
 (for which the sum of Rs. _____ has been paid in advance) subject to the following conditions, the infraction of any of which or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law") or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders or by his authority, or with his knowledge and consent shall render the license liable to forfeiture by order of the local excise authority without prejudice to any other penalty to which the licensee or the person committing such infraction may be liable under sections 28, 30 and 31 of the Law :—

(1) That the business covered by this license shall not be sublet or transferred without the written permission of the local excise authority, nor shall an agent be appointed, without such permission endorsed on this license, for the management of the business covered by this license. That no person suffering from leprosy or other infectious or contagious disease and no person under 14 years of age shall under any circumstances be employed in the handling of spirits or fermented liquor, or otherwise in the business covered by this license.

(2) That the licensee shall not without the permission in writing of the local excise authority hold or acquire any interest in a license, or farm of the fees leviable on licenses for the retail sale within the _____
 of any other excisable commodity, nor shall he, without such permission, employ any person holding such an interest.

Here insert the
 name of the Can-
 ment or other
 for sale in
 which the license
 is granted.

NOTE.—This rule does not preclude the licensee from holding licenses covering dealings of a class other than those covered by this license in foreign spirits or foreign fermented liquors.

(3) That sale of foreign spirits and foreign fermented liquors only shall be made, and that such spirits or liquors shall not be adulterated by the admixture of country spirits or country fermented liquor or otherwise.

(4) That the bottling of foreign spirits or foreign fermented liquors shall not be permitted otherwise than under and in accordance with the conditions of a license for the sale by wholesale of foreign spirits and foreign fermented liquors.

(5) That no gin of strength weaker than 35 U. P. and no other foreign spirit of strength weaker than 25 U. P. shall be sold or offered for sale under this license.

(6) That sale shall be made only at the premises for which this license is granted and not elsewhere.

(7) That a sign-board shall be put up in a conspicuous place outside the licensed premises bearing the name of the licensee and the designation "Licensed retail dealer in foreign spirits and foreign fermented liquors, not to be consumed on the premises."

(8) That wearing apparel or other effects, except money, shall not be taken in barter for spirits or fermented liquor.

(9) That no spirits or fermented liquor shall be sold or in any way supplied to any European non-commissioned officer or soldier, or to any European or Eurasian being a camp follower, or to any soldier's wife or child, except under the written permission of the Commanding Officer of the station, or of some person authorized by the Commanding Officer to grant such permission, or to any policeman, excise officer, or railway servant on duty, or to any child under 14 years of age.

(10) That no spirits or fermented liquor shall be sold before sunrise or after 9 o'clock at night.

(11) That not more than two gallons or twelve reputed quart bottles of spirits or fermented liquor shall be sold or supplied to any person at one time.

(12) That no quantity less than a corked and capsuled pint bottle, at a time, of spirits or fermented liquor shall be sold or supplied, and that no spirits or fermented liquor shall be permitted to be consumed in the shop or on the premises excepting under a license to open a liquor bar.

(13) That the licensee shall keep an account of his sales in such form, if any, as may be prescribed by the local excise authority in this behalf, and shall, when required to do so, produce his license and accounts for the inspection of the local excise authority or of any person specially or generally authorised by him in this behalf, and shall give entry to the shop to any police or excise officer exercising powers not inferior to those of a Sub-Inspector of Police at any time of the day or night.

(14) That the local excise authority shall be at liberty to withdraw this license at any time without making any refund of fee should it appear to him undesirable to allow its continuance.

(15) This license is granted subject to the provisions of the Law and of the rules made thereunder. It shall have effect from the _____
 to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force, notwithstanding that a special order recalling it has not been issued by the local excise authority.

License for the sale by wholesale of foreign spirits and foreign fermented liquors not to be consumed on the premises.

License to sell by wholesale at the premises known as _____ situated _____ foreign spirits and foreign fermented liquors is hereby granted to _____ for a period of _____ commencing on the _____ and ending on the _____

(for which the sum of Rs. _____ has been paid in advance) subject to the following conditions, the infraction of any of which or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law") or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders or by his authority, or with his knowledge and consent shall render the license liable to forfeiture by order of the local excise authority without prejudice to any other penalty to which the licensee or the person committing such infraction, may be liable under sections 28, 30 and 31 of the Law:—

1. That the business covered by this license shall not be sublet or transferred without the written permission of the local excise authority, nor shall an agent be appointed, without such permission endorsed on this license, for the management of the business covered by this license. That no person suffering from leprosy or other infectious or contagious disease and no person under 14 years of age shall, under any circumstances, be employed in the handling of spirits or fermented liquor, or otherwise in the business covered by this license.

2. That the licensee shall not without the permission in writing of the local excise authority hold or acquire any interest in a license, or farm of the fees leviable on licenses, for the retail sale within the _____ of any other excisable commodity, nor shall he, without such permission, employ any person holding such an interest.

NOTE.—This rule does not preclude the licensee from holding licenses covering dealings of a class other than those covered by this license in foreign spirits or foreign fermented liquors.

3. That sale of foreign spirits and foreign fermented liquors only shall be made and that such spirits or liquors shall not be adulterated by the admixture of country spirits or country fermented liquor or otherwise.

4. That the bottling of foreign spirits or foreign fermented liquors shall be permitted only on the premises covered by this license, and only under the supervision of an Excise Inspector or of such other officer as may be specified by the local excise authority in this behalf, and that to each bottle containing foreign spirit or foreign fermented liquor so bottled shall be affixed a label on which the words "Labelled in India" are conspicuously printed.

NOTE.—Whenever the licensee desires to perform the operation of bottling, he must apply to the local excise authority to arrange for the attendance for the purpose of the Excise Officer or other officer specified by the local excise authority.

5. That no gin of strength weaker than 35 U. P. and no other foreign spirit of strength weaker than 25 U. P. shall be sold or offered for sale under this license.

6. That sale shall be made only at the premises for which this license is granted and not elsewhere.

7. That a sign-board shall be put up in a conspicuous place outside the licensed premises bearing the name of the licensee and the designation "Licensed wholesale dealer in foreign spirits and foreign fermented liquors not to be consumed on the premises."

8. That wearing apparel or other effects, except money, shall not be taken in barter for spirits or fermented liquor.

9. That no spirits or fermented liquor shall be sold or in any way supplied to any European non-commissioned officer or soldier or to any European or Eurasian being a camp follower, or to any soldier's wife or child except under the written permission of the Commanding Officer of the station, or of some person authorized by the Commanding Officer to grant such permission, or to any policeman, excise officer, or railway servant on duty, or to any child under 14 years of age.

10. That no spirits or fermented liquor shall be sold before sunrise or after 9 o'clock at night.

11. That no quantity less than two gallons or twelve reputed quart bottles at a time of each kind of spirits or fermented liquor shall be sold or supplied.

12. That no spirits or fermented liquor shall be permitted to be consumed in the shop or on the premises excepting under a license to open a liquor bar.

* Here insert the name of Cantonment or other area for sale in which the license is granted.

13. That the licensee shall keep an account of his sales in such form, if any, as may be prescribed by the local excise authority in this behalf, and shall, when required to do so, produce his license and accounts for the inspection of the local excise authority or of any person specially or generally authorized by him in this behalf, and shall give entry to the shop to any police or excise officer exercising powers not inferior to those of a sub-inspector of police at any time of the day or night.

14. That the local excise authority shall be at liberty to withdraw this license at any time without making any refund of fee should it appear to him undesirable to allow its continuance.

15. This license is granted subject to the provisions of the Law and of the rules made thereunder. It shall have effect from the _____

Bar license for the sale of foreign spirits and foreign fermented liquors to be consumed on the premises.

License to open a liquor bar for the sale of foreign spirits and foreign fermented liquors to be consumed on the premises known as _____

_____ situated at _____ is hereby granted to _____

_____ licensee for the wholesale (or retail) sale of foreign spirits and fermented liquors (or, licensee for the sale of foreign spirits and fermented liquors at the refreshment rooms at _____

_____) for a period of _____ commencing on the _____ and ending on the _____ on the

following conditions, the infraction of any of which or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law") or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders or by his authority or with his knowledge and consent shall render the license liable to forfeiture by order of the local excise authority without prejudice to any other penalty to which the licensee or the person committing such infraction may be liable under sections 28, 30 and 31 of the Law:—

1. That the fee of Rs. _____ payable in respect of this license shall be paid to the local excise authority monthly in advance.

2. That the business covered by this license shall not be sublet or transferred without the written permission of the local excise authority nor shall an agent be appointed, without such permission endorsed on this license, for the management of the business covered by this license. That no persons suffering from leprosy or other infectious or contagious disease and no person under 14 years of age shall, under any circumstances, be employed in the handling of spirits or fermented liquor, or otherwise in the business covered by this license, and that no woman shall be employed, during the hours, in which the premises are kept open for business, in any part of such premises in which foreign spirit or fermented liquor is or may be consumed.

3. That the licensee shall not without the permission in writing of the local excise authority hold or acquire any interest in a license, or farm of the fees leviable on licenses, for the retail sale within the _____ *

of any other excisable commodity, nor shall he, without such permission, employ any person holding such an interest.

NOTE.—This rule does not preclude the licensee from holding licenses covering dealings of a class other than those covered by this license in foreign spirits or foreign fermented liquors.

4. That sale of foreign spirits and foreign fermented liquors only shall be made, and that such spirits or liquors shall not be adulterated by the admixture of country spirits or country fermented liquor or otherwise.

5. That the bottling of foreign spirits or foreign fermented liquors shall not be permitted otherwise than under and in accordance with the conditions of a license for the sale by wholesale of foreign spirits and foreign fermented liquors.

6. That no gin of strength weaker than 35 U. P. and no other foreign spirit of strength

weaker than 25 U. P. shall be sold or offered for sale under this license.

7. That sale shall be made only at the premises for which this license is granted and not elsewhere.

8. That a sign-board shall be put up in a conspicuous place outside the licensed premises bearing the licensee's name and the designation "Licensee for the sale of foreign spirits and foreign fermented liquors to be consumed on the premises."

9. That a room screened off from the rest of the shop shall be used as a bar and that spirits or fermented liquor shall not be delivered under this license in any other part of the premises.

NOTE.—Condition 9 will be deleted when this license is combined with a refreshment room license.

10. That spirits and fermented liquor shall be supplied in the bar and under this license for consumption on the premises only.

11. That wearing apparel or other effects, except money, shall not be taken in barter for spirits or fermented liquor.

12. That no spirits or fermented liquor shall be sold or in any way supplied to any European non-commissioned officer or soldier or to any European or Eurasian being a camp follower, or to any soldier's wife or child, except under the written permission of the Commanding Officer of the station, or of some person authorized by the Commanding Officer to grant such permission, or to any policeman, excise officer, or railway servant on duty, or to any child under 14 years of age.

13. That no spirits or fermented liquors shall be supplied between 9 p. m. and sunrise or during the hours for divine service. If, for any special reason, it is desired to supply spirits or fermented liquor after ordinary hours, the special permission in writing of the local excise authority must be first obtained and a special fee paid.

14. That all spirits and fermented liquors shall be paid for on the spot in cash.

15. That the officers commanding units shall on no account be held responsible for any bills contracted, and shall not be expected to recover such debts.

16. That no disorderly conduct or gaming shall be allowed in the premises, that persons of notoriously bad character shall not be permitted to resort to the premises, that no persons shall be harboured in the premises during the night, and that the licensee shall give immediate information to the nearest Magistrate or police officer of the resort to the premises of any person suspected of having committed a cognizable and non-bailable offence.

17. That the licensee shall keep, in such form, if any, as may be prescribed by the local excise authority in this behalf, an account of his sales under this license, *which account shall be separate from that of sales under the license for wholesale or retail sale of foreign spirits and foreign fermented liquors not to be consumed on the premises*, and shall, when required to do so, produce his license and accounts for the inspection of the local excise authority or of any person specially or generally authorized by him in this behalf, and shall give entry to the shop to the Garrison Military Police or Regimental Police or to any police or excise officer exercising powers not inferior to those of a sub-inspector of police at any time of the day or night.

NOTE.—The words italicised will be deleted when this license is combined with a refreshment room license.

18. That the local excise authority shall be at liberty to withdraw this license at any time without making any refund of fee should it appear to him undesirable to allow its continuance.

19. This license is granted subject to the provisions of the Law and of the rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force notwithstanding that a special order recalling it has not been issued by the local excise authority. It shall also cease to remain in force on the 1st day of any previous month in respect of which the licensee shall have failed to pay the instalment reserved by the first condition of this license.

License for the sale at a Railway refreshment room of foreign spirits and foreign fermented liquors to be consumed on the premises.

License to sell foreign spirits and foreign fermented liquors for consumption on the premises at the Railway refreshment room situated at _____ is hereby granted to _____ (hereinafter referred to as the licensee) for the term of _____ commencing on the _____ and ending on the _____

(for which the sum of Rs. _____ has been paid in advance) subject to the following conditions, the infraction of any of which or of any of the provisions of the Central India (Administered Area) Excise Law, 1917, (hereinafter referred to as "the Law") or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders or by his authority, or with his knowledge and consent shall render the license liable to forfeiture by order of the local excise authority without prejudice to any other penalty to which the licensee or the person committing such infraction may be liable under sections 28, 30 and 31 of the Law :—

1. That the business covered by this license shall not be sublet or transferred without the written permission of the local excise authority, nor shall an agent be appointed, without such permission endorsed on this license, for the management of the business covered by this license. That no person suffering from leprosy or other infectious or contagious disease and no person under 14 years of age shall, under any circumstances, be employed in the handling of spirits or fermented liquor or otherwise in the business covered by this license, and that no woman shall be employed, during the hours in which the premises are kept open for business, in any part of such premises in which foreign spirit or fermented liquor is or may be consumed.

2. That the licensee shall not without the permission in writing of the local excise authority hold or acquire any interest in a license, or farm of the fees leviable on licenses,

* of any other excisable commodity, nor shall he, without such permission, employ any person holding such an interest.

NOTE.—This rule does not preclude the licensee from holding licenses covering dealings of a class other than those covered by this license in foreign spirits or foreign fermented liquors.

3. That sale of foreign spirits and foreign fermented liquors only shall be made, and that such spirits or liquors shall not be adulterated by the admixture of country spirits or country fermented liquor or otherwise.

4. That the bottling of foreign spirits and foreign fermented liquors shall not be permitted otherwise than under and in accordance with the conditions of a license for the sale by wholesale of foreign spirits and foreign fermented liquors.

5. That no gin of strength weaker than 35 U. P. and no other foreign spirit of strength weaker than 25 U. P. shall be sold or offered for sale under this license.

6. That sale shall be made only at the premises for which this license is granted and not elsewhere.

7. That wearing apparel or other effects, except money, shall not be taken in barter for spirits or fermented liquor.

8. That no spirits or fermented liquor shall be sold under this license excepting for consumption on the premises and to persons (not being European non-commissioned officers or soldiers or European or Eurasian camp followers or soldiers' wives or children, or policemen, excise officers or railway servants on duty) taking meals in the refreshment rooms, or to *bona fide* travellers by railway, that is to say, persons (not being policemen, excise officers, or railway servants on duty) who have arrived at the station by any train arriving within the past 24 hours, or who have come to the station with the intention of leaving as passengers by the next suitable train.

Provided also that the sale of spirits or fermented liquor to European soldiers and European or Eurasian camp followers shall be permitted in the following cases only and subject to the following restrictions :—

(a) In the case of such soldiers and camp followers travelling under the command of an officer, the permission of such officer shall be obtained before any spirits or fermented liquor are supplied;

(b) Soldiers and camp followers travelling alone or in small parties not under the command of an officer may, provided that the soldiers are in uniform and the party sober, be supplied with not more than one pint of beer for each man or woman in the party.

Provided also that no spirits or fermented liquor shall under any circumstances be supplied to any child under 14 years of age.

9. That access to and egress from the refreshment room shall not be permitted to the public otherwise than through the entrance opening upon the station platform, and that no spirits or fermented liquor sold under this license shall be permitted to be removed from the premises or consumed elsewhere than in the public refreshment room.

10. That no disorderly conduct or gaming shall be allowed in the refreshment room, that persons of notoriously bad character shall not be permitted to resort to the premises, that no person shall be harboured in the premises during the night, and that the licensee shall give

* Here insert the name of the commissionment or other area for sale in which the license is granted.

immediate information to the nearest Magistrate or police officer of the resort to the premises of any person suspected of having committed a cognizable and non-bailable offence.

11. That the licensee shall keep an account of his sales in such form, if any, as may be prescribed by the local excise authority in this behalf, and shall, when required to do so, produce his license and accounts for the inspection of the local excise authority or of any person generally or specially authorised by him in this behalf, and shall give entry to the premises to the Garrison Military Police or Regimental Police, or to any police or excise officer exercising powers not inferior to those of a sub-inspector of police at any time of the day or night.

12. This license is granted subject to the provisions of the Law and of rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force, notwithstanding that a special order recalling it has not been issued by the local excise authority.

License for the retail vend of imported spirituous and fermented liquors at a military canteen established under the "Canteen Tenant System."

the _____ * No. of License. _____, resident of _____, holder of a contract for the supply of imported spirituous and fermented liquors under the "Canteen Tenant System" is hereby authorised by the undersigned to supply such liquors to _____ at _____ from _____ to _____

It is required of the holder of this license as a condition of its remaining in force that he do faithfully perform and abide by the following articles:—

I.—That he pay to Government in advance an annual fee of rupees _____.

II.—That he do not sell under colour of this license any spirituous or fermented liquors manufactured in this country, except those manufactured in India after the English method.

III.—That he effect his sales of liquors only at the canteen or place appointed for the purpose by the Military authorities and that he do not sell liquors at any other place or establish a second place of vend without another separate license.

N. B.—Tenants are allowed to establish a second place of vend without taking a separate license in cases where a portion of a unit to which they are licensed to supply liquor is detached for training or other purposes or is left behind.

IV.—That he do not store any imported spirituous or fermented liquors to be sold under this license in any premises other than those endorsed on the back of the license.

V.—That he sell no liquor of any description to persons other than those attached to the unit for which this license is granted or duly authorised under the regulations of the Army to use such canteen.

VI.—That he do not transfer his license to any other person without the previous sanction of the undersigned.

VII.—That he do not wilfully adulterate or deteriorate any spirituous or fermented liquors sold by him, or sell the same knowing them to have been adulterated or deteriorated, or store or permit to be stored in his canteen any such liquor in an adulterated or deteriorated state.

N. B.—Tenants are permitted to store and sell spirituous liquor diluted with mineral water with the permission of General Officers Commanding.

VIII.—That he do not rectify spirits by purifying, colouring or flavouring them, or mixing any material with them.

IX.—That he sell no imported or locally-made foreign spirits below the minimum strengths of 25° under proof for whisky, brandy, and rum and 35° under proof for gin.

X.—That he do not receive any wearing apparel or other effects in barter for any excisable article the sale of which is covered by this license.

XI.—That he at once produce for inspection on demand of any Excise Inspector this license and that he do not prevent any Excise officer of whatever grade from inspecting his canteen. That in both cases the Excise officer should first obtain the permission of the Officer Commanding the unit or Regiment.

N. B.—A violation of any of the above conditions will render the holder liable to any of the penalties prescribed by the Central India (Administered Areas) Excise Law, 1917, and rules in force for the time being.

No. 2242-C.—In exercise of the powers conferred on him by section 42 (2) (i) (j) (k) and (l) of the Central India (Administered Areas) Excise Law, 1917, and in supersession of notifications Nos. 739-C. and 741-C., dated the 22nd April 1908, as subsequently amended, the Agent to the Governor-General in Central India is pleased to make the following rules for the regulation of the matters hereinafter mentioned :—

1. For the purposes of these rules—

- (a) "Excise Commissioner" means the Excise Commissioner for Central India, and includes any other officer who may be appointed by the Agent to the Governor-General, by name or virtue of his office, to perform generally or in any specified area or for specified purposes or on specified occasions the functions of Excise Commissioner for the purposes of these rules.
- (b) "Excise year" means, in the Cantonment and Civil Lines of Nowgong the year commencing on the 1st July and ending on the 30th June, in the Cantonment of Mhow and the Indore Residency Bazaars the year commencing on the 1st October and ending on the 30th September, and in the Cantonment of Nimach the year commencing on the 1st November and ending on the 31st October.
- (c) "Hemp drugs" means bhang and ganja and their preparations and admixtures, and also includes charas and its preparations and admixtures except in areas where the possession, import, export or transport of charas have been prohibited under section 14 of the Law.
- (d) "The Law" means the Central India (Administered Areas) Excise Law, 1917.

2. Licenses for the retail sale of country spirit, of opium (including poppy heads and preparations or admixtures of opium not being morphia and its preparations nor those used for smoking) and of hemp drugs, and farms of the right to manufacture country fermented liquor and of the fees leviable on licenses for the retail vend of such liquor shall ordinarily be granted for a single year corresponding with the excise year. Licenses or farms for longer periods may be granted only with the special sanction of the Agent to the Governor-General. Licenses for the sale of opium and hemp drugs will entitle the licensee to prepare admixtures and preparations of opium not being morphia and its preparations nor those used for smoking, and of hemp drugs respectively.

3. Shops for the retail sale of country spirit, of country fermented liquor, of opium and of hemp drugs, will be allowed only at such places as the local excise authority, with the previous sanction of the Excise Commissioner, may from time to time determine.

The number of such shops should not ordinarily be in excess of the following scale :—

Country spirit 1 to every 5,000 inhabitants.

Hemp drugs 1 to every 10,000 inhabitants.

Opium 1 to every 10,000 inhabitants.

The license for the sale by retail of country spirit, of opium, or of hemp drugs (as the case may be) at each one of these shops (or at more than one of them as the Excise Commissioner may direct) shall ordinarily be sold by auction by the local excise authority or other officer authorised by the Excise Commissioner in this behalf before the commencement of each excise year. The farm of the right to manufacture country fermented liquor and of the fees leviable on licenses for the retail vend of such liquor at the places determined in that behalf and at no others shall ordinarily be disposed of in like manner.

4. Such auctions will be held at a time and place previously determined with the approval of the Excise Commissioner and notified as widely as possible by the local excise authority.

5. The auction shall ordinarily be governed by the following conditions, which shall be read to intending bidders before the auction commences :—

- (1) The presiding officer is not bound to accept the highest or any bid.
- (2) The acceptance by the presiding officer of any bid is subject to the confirmation of the Agent to the Governor-General as provided by the rules in this behalf.
- (3) Every person bidding will be held to his bid, whether it be the highest or not.
- (4) No person shall be allowed to bid at auction on behalf of another person unless he holds a written authority from such other person to do so or such other person is present at the auction and authorises or ratifies the bid made on his behalf. The fact that a duly authorized bid has been made on behalf of another person shall be noted in the sale list; and if it be finally accepted, the principal shall be held responsible for the amount tendered.
- (5) A sum equal to 1-6th of the annual fees shall be deposited by the successful bidder as security on the fall of the hammer or before the conclusion of the sales for the day, and the balance shall be paid by such instalments as shall be specified in the license or lease to be granted. The deposit required by this rule shall ordinarily be in cash, but the presiding officer may, in his discretion, accept Government promissory notes (or other securities in which trust monies may be invested under section 20 of the Indian Trust Act, 1882, and the rules made thereunder by any High Court) of the required value at the market rate of the day, provided that such Government promissory notes or other securities shall, before they are accepted in deposit, have been endorsed by the last holder in blank or in favour of the local excise authority. If the successful bidder fails to accept his license or lease and to execute a counterpart within 7 days of the delivery to him or of the publication at the office of the local excise authority of a notice requiring him to do so, or if default is made in the payment of the deposit the license or farm will be resold either immediately or on the following day or on such future date as the officer conducting the sale may then and there notify. The defaulting purchaser shall be debarred from bidding for the same, or for any other license or farm, and if the price finally accepted at the resale be less than that bid at the first sale, the difference will be recoverable from the defaulter in accordance with section 19 of the Law.
- (6) Every shop for which a license is granted, or which is included in a farm, shall be kept open throughout the year (or season in the case of shops for country fermented liquor), unless its closure is specially sanctioned by the local excise authority, and a supply of the commodity for the sale of which it is licensed sufficient to meet the demands of consumers shall be maintained.
- (7) No license or farm shall be sold, transferred, or sublet without the previous permission in writing of the local excise authority nor shall any agent be appointed, without such previous permission as aforesaid, for the management of the business covered by any license or farm.
- (8) If any licensee or farmer die before or during the period of the currency of his license or farm such licensee or farm shall forthwith cease to operate, and shall absolutely determine. Provided that the local excise authority may, in his discretion, continue any such license or farm in favour of any person having a paramount interest in the property of the deceased licensee or farmer.
- (9) No licensee or farmer of fees leviable on licenses for the retail sale of any excisable commodity will be permitted without the special permission in writing of the local excise authority to hold or acquire any interest in a license, or

farm of the fees leviable on licenses, for the retail sale, in the same or in any adjacent area, of any other excisable commodity, or to employ any person holding such an interest.

(10) The right to open new shops for the sale of foreign spirits during the currency of the excise year is reserved to Government.

6. Copies of the various forms of licenses and farming leases prescribed shall be made available, before the commencement of the auction, for the inspection of intending bidders.

7. When the farm of the fees leviable on licenses for the retail sale of country fermented liquor is put to auction, a list of the shops at which sale will be permitted shall be notified at the time of sale, and no subsequent addition to or change of the allocation of these shops shall be permitted without the previous sanction of the local excise authority.

8. The officer conducting the auction will, in accepting or rejecting bids, exercise his discretion in such a manner as to exclude bids which are the result of speculation or rivalry and are obviously in excess of the market value of the license or farm, as to prevent the creation of undesirable monopolies, and as to preclude the acceptance as licensees or farmers of undesirable persons or persons of doubtful solvency. Where there is no reason to the contrary, the highest bid, if adequate, shall be accepted. If the price offered by the highest suitable bidder is not adequate the license or farm shall be withdrawn for resale at a subsequent date or for settlement by tender. When once a bid has been accepted, no subsequent offer in respect of the same license or farm shall be considered.

9. As soon as possible after the auction has been held, its results shall be reported by the presiding officer through the Excise Commissioner to the Agent to the Governor-General for sanction. The Agent to the Governor-General may either sanction the auction or pass such other orders as he considers suitable regarding the disposal of all or any of the licenses and farms offered for sale.

10. Subject to such modifications (if any) as may in the case of any license or lease be approved by the Agent to the Governor-General, licenses granted by the local excise authority for the retail sale of country spirit, of opium, and of hemp drugs, and counterparts thereof shall be in Forms I to III annexed to these rules. Leases of the right to manufacture country fermented liquor and of the fees leviable on licenses for the retail sale of such liquor, licenses granted by the farmer for the manufacture and retail sale of country fermented liquor, and counterparts thereof shall be in Forms IV and V.

11. In the event of the cancellation, forfeiture or determination during the currency of the excise year of any license for the retail sale of country spirit, of opium, or of hemp drugs, or of the lease of the right to manufacture country fermented liquor and of the fees leviable on licenses for the retail sale of such liquor, such license or farm shall be resold immediately by the local excise authority for the remainder of the excise year. The local excise authority shall, in effecting such resale, be guided by the principles contained in the foregoing rules, so far as the same can be applied without causing undue delay; and in the event of the resale being effected by auction, the provisions of Rules 5 to 9 shall apply to the proceedings. The resale will not require the sanction of the Agent to the Governor-General, to whom however it should be reported immediately.

12. Licenses for the wholesale vend of country spirit granted by the local excise authority shall be in Form VI annexed to these rules subject to such modifications, (if any) as may, in the case of any such license be approved by the Agent to the Governor-General in Central India. A single license only will be granted for each area to which the Law applies, and the exclusive privilege of wholesale supply of country spirit within each such area will thus be conferred on a single licensee. At least three months before the commencement of the period for which such a license is to be granted in any area to which the Law applies, notices will ordinarily be published under the orders of the Excise Commissioner for Central India inviting candidates for the license to specify the rates at which they will undertake the supply of the whole of the spirit required for consumption in the area covered by the license, and specifying briefly the conditions of supply. The tenders received will be opened by an officer and at a time and place appointed by the Excise Commissioner for Central India in this behalf. The licensee will be selected, and the period for which the license is to be granted and the prices to be charged by the licensee for the spirit supplied will be determined by the Agent to the Governor-General after considering the tenders so received. The prices so determined will be intimated to the local excise authority, by whom they will be announced, at the time of the auction held in accordance with Rule 3, for the information of candidates for licenses for the retail sale of country spirit.

13. The Agent to the Governor-General in Central India may, by general or special order, direct that any license or farm may be allotted otherwise than as required by the foregoing rules.

FORM I.

License for the retail sale of Country Spirit and counterpart of the same.

License to sell country spirit by retail at the premises known as _____ situated _____ is hereby granted to _____

(hereinafter referred to as the licensee) for the term of _____ commencing on the _____ and ending on the _____ subject to the following conditions, the infraction of any of which, or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law") or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders, or by his authority or with his knowledge and consent, shall render the license liable to cancellation by order of the local excise authority without prejudice to any other penalty to which the licensee or the person committing such infraction may be liable under sections 28, 30 and 31 of the Law :—

1. That the licensee shall pay to Government the sum of Rs. _____ in the following instalments (in addition to the sum of Rs. _____—being one-sixth of the sum annually payable—already deposited by the licensee, which, if it be not immediately forfeited by the licensee for default or breach of some other condition of this license, shall be set off against the 11th and 12th instalments), viz.:—

On the 1st of _____

*

Rs.

*Here insert in order the names of the 1st 10 months of the excise year and the instalments, each of which will be one-twelfth of the annual payment.

NOTE.—(1) When the period of the license exceeds one year, the instalments for all but the last two months of the period of the license will be entered, and the words "11th" and "12th" suitably replaced.

(2) In cases where Government Promissory Notes have been deposited as security, the words within brackets will be omitted, and the requisite instalments for the last two months of the excise year added to the list of instalments.

2. That the deposit mentioned in the foregoing condition shall not, in the event of default or infraction of any condition of this license, or of any of the provisions of the Law, or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, be reclaimable by the licensee.

NOTE.—In cases where Government promissory notes have been deposited as security, the following condition shall be substituted :—

That in the event of default or breach of any of the conditions of this license, or of any of the provisions of the Law, or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, the promissory notes deposited as security for the fulfilment of the conditions of this license shall vest in Government, and shall not be reclaimable by the licensee.

3. That it shall be competent to the local excise authority, on cancellation of the license and forfeiture of the deposit, to resell the license at the risk of the licensee, and, after deducting the forfeited deposit from any loss arising from the resale, to recover the remainder from the licensee in the manner provided by section 19 of the Law, and that the licensee shall not be entitled to any portion of the profit, if any, that may arise from the resale.

4. That the business covered by this license shall not be sub-let or transferred without the written permission of the local excise authority nor shall an agent be appointed, without such permission endorsed on this license, for the management of the business covered by this license. That no person suffering from leprosy or other infectious or contagious disease and no child under 14 years of age shall under any circumstances be employed in the transport, handling or sale of spirit or otherwise in the business covered by this license; and that no woman shall be employed, during the hours in which the premises are kept open for business, in any part of such premises in which country spirit is or may be consumed by the public.

ere insert name of the warehouse or area for sale in which the license is granted.

5. That the licensee shall not, without the permission in writing of the local excise authority, hold or acquire any interest in a license, or farm of the fees leviable on licenses, for the retail sale in the _____ of any other excisable commodity, nor shall he, without such permission, employ any person holding such an interest.

6. That the shop for which this license is granted shall, unless its closure be specially authorised by the local excise authority, be kept open throughout the year, and that a supply of country spirit sufficient to meet the demands of consumers shall be maintained.

7. That sale of country spirit only shall be made, and that sale or admixture therewith of foreign spirit shall on no pretext be made or attempted. That no country spirit shall be sold except such as shall have been lawfully obtained from the bonded warehouse at _____ and that such spirit shall not be adulterated in any way.

ere insert the name of the warehouse from which supplies are to be obtained.

8. That sale shall be made only at the premises for which this license is granted and not elsewhere, and that the licensee shall not without a pass possess country spirit excepting at such premises.

9. That

(i) No country spirit shall be sold or in any way supplied at the shop in the Malwa Bhil Corps Lines to any person other than members and camp followers of the Malwa Bhil Corps.

In the license for sale in the lines of the Malwa Bhil Corps at Indore.

(ii) Not more than 1½ paws (i.e., ¾ bottle) shall be sold in any one day to any Native Officer, Non-Commissioned Officer, man, follower or woman of the Corps. If necessary on any particular occasion, more than this can be issued on a requisition signed by the Commandant or the Assistant Commandant.

(iii) The shop shall be opened ordinarily from 5-30 P.M. to 8-30 P.M. daily, but these times are liable to be varied by the orders communicated in writing to the licensee's salesman, of the Commandant. The Commandant will provide a room to be known as the liquor shop in which all the liquor for sale in the lines must be kept. The licensee will provide each cask with a tap, which can be locked, the key of which will remain with the licensee's salesman. The Commandant will provide a lock for the liquor shop door, the key of which will remain with the Subedar-Major or Acting Subedar-Major during the hours when the liquor shop is closed.

(iv) The salesman shall be approved by the Commandant, who shall have power to dismiss him at 24 hours notice without assigning any reason for so doing, and it shall be incumbent on the licensee to appoint within 24 hours of a notice to that effect delivered to the agent in charge of his main shop in the Indore Residency Bazar a fresh salesman, to be approved by the Commandant.

10. That no spirit shall be sold or consumed on the premises between 9 P.M. and sunrise.

In other licenses.

11. That a signboard shall be put up in a conspicuous place outside the premises, bearing the licensee's name and the designation "Licensee for the retail sale of country spirit."

12. That if a room for private accommodation is provided, access to the same shall be only through the shop or by an entrance at the side of the shop. In the latter case a signboard shall be fixed at the entrance similar to the one fixed outside the shop.

13. That nothing except money shall be taken in barter for spirit and that all spirit sold shall be paid for on the spot in cash.

14. That not more than one seer of spirit shall be sold to, or removed from the shop by one person at any one time without a special permit from the local excise authority.

To be deleted from the license for sale in the lines of the Malwa Bhil Corps at Indore.

NOTE.*—Permits for the sale by licensed vendors of the Mhow Cantonment of more than one bottle of spirit at a time to one person may be issued in special circumstances by the local excise authority, or subject to his control by the Excise Inspector. Such permits will authorize sale only to persons residing in the Cantonment and will cover the conveyance of spirit only to premises situated within the Cantonment. Ordinarily the purchaser will be required to purchase the spirit covered by such a permit from the shop nearest to the purchaser's residence.

* In licenses for the Mhow Cantonment only

15. That spirit shall be sold only at the following

strengths and ^{† prices} at prices not lower than the following *viz.*
† at prices not higher than the following

Strength.

Price per bottle of 8 drams.

Rs. As.

U. P.

U. P.

† One or more of these entries to be deleted in accordance with circumstances of the case.

and that a notice signed by the local excise authority and stating the prices at which the sale of spirit is authorized shall be conspicuously exhibited at the shop.

16. That no country spirit shall be sold or in any way supplied to any European Non-Commissioned officer or soldier, or to any European or Eurasian being a camp follower, or to any soldier's wife or child, excepting under the written permission of the Commanding Officer of the station or of some person authorised by the Commanding Officer to grant such permission, or to any Policeman, Excise officer, or Railway servant on duty, or to any insane or intoxicated person, or to any child under 14 years of age, or to members and camp followers of the Malwa Bhil Corps,

In licenses other than that for sale in the lines of the Malwa Bhil Corps at Indore.

or to any person who is and whom the licensee or his salesman knows or has reason to believe to be a Railway servant stationed at Mhow, whether the said servant is on duty or otherwise,

In the licenses the Choti Kala and Topkhana shops of the M Cantonment. In licenses for Cantonment of Mhow and the Indore Residency Bazaars.

or to any person who is and whom the licensee or his salesman knows or has reason to believe to be a member of the military forces of His Highness the Maharaja Holkar,

That no spirit shall be supplied to any Kanjars residing in the Kanjar settlement adjoining Nowgong without the written permission of the Thagi Inspector, Nowgong.

17. That no disorderly conduct or gaming shall be allowed in the shop, that persons of notoriously bad character shall not be permitted to resort to the shop, that no person shall be harboured in the shop during the night, and that the licensee shall give immediate information

In licenses for Cantonment at Civil Lines of Nowgong only

to the nearest Magistrate or Police officer of the resort to the shop of any person suspected of having committed a cognizable and non-bailable offence.

18. That if so required by the local excise authority the licensee shall keep an account showing the daily receipts and sales of spirit at his shop and the balance in store. That the licensee shall at once produce his license and accounts (if any) for the inspection of the local excise authority or of any person generally or specially authorized by him in this behalf, and shall at all times give entry to the shop to the Military Police, or to any Police or Excise officer exercising powers not inferior to those of a Sub-Inspector of Police,

or to any officer of the Malwa Bhil Corps or any member of the Corps acting under the orders of such officer.

19. That no weights or measures except such as shall previously have been approved by the local excise authority shall be used at the shop.

20. That the licensee shall be bound, if the local excise authority so directs, to purchase, at a price fixed by the local excise authority, the residue of the previous licensee's stock of country spirit to the extent of ten days' supply. Provided that he shall be required to purchase only such country spirit as shall be unadulterated and fit for human consumption.

21. This license is granted subject to the provisions of the Law, and of the rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force, notwithstanding that a special order recalling it has not been issued by the local excise authority. It shall also cease to remain in force on the 1st day of any previous month in respect of which the licensee shall have failed to pay the instalment reserved by the 1st condition of this license. It shall likewise immediately cease to operate in the event of the death of the licensee during the currency of the license. It may be forfeited by order of the local excise authority in the event of the holder being convicted of any criminal offence.

That no person suffering from leprosy or other infectious or contagious disease and no child under 14 years of age shall under any circumstances be employed in the transport, preparation or sale of opium, poppy heads or preparations or admixtures of opium or otherwise in the business covered by this license.

5. That the licensee shall not, without the permission in writing of the local excise authority, hold or acquire any interest in a license, or farm of the fees leviable on licenses, for the retail sale in the*
*Here insert the name of the Cantonment or other area for in which the license is granted.

of any other excisable commodity, nor shall he, without such permission, employ any person holding such an interest.

6. That the shop for which this license is granted shall, unless its closure be specially authorised by the local excise authority, be kept open throughout the year, and that a supply of opium, poppy heads and preparations and admixtures of opium sufficient to meet the demands of consumers shall be maintained.

7. That no opium, poppy heads, or preparations or admixtures of opium shall be possessed or sold except such as shall have been obtained in accordance with the provisions of the Law, and of the rules made thereunder, or prepared from opium or poppy heads so obtained, and that the opium offered for sale as such shall not be adulterated. No opium shall be sold or possessed excepting such as shall, at or before the time of its import into the Mhow Cantonment, have been approved by the local excise authority, or by the Excise Commissioner for Central India in that behalf.
For the license the Cantonment Mhow only.

8. That sale shall be made only at the premises for which this license is granted and not elsewhere, and that the licensee shall not without a pass possess opium, poppy heads, or preparations or admixtures of opium, excepting at such premises.

9. That no opium, poppy heads, or preparations or admixtures of opium shall be sold on the premises between 9 P.M. and sunrise.

10. That a signboard shall be put up in a conspicuous place outside the premises, bearing the licensee's name and the designation "_____
Licensee for the retail sale of opium, poppy heads, and preparations and admixtures of opium."

11. That the licensee shall not permit the consumption of opium in any form in his shop.

12. That nothing except money shall be taken in barter for opium, poppy heads, or preparations or admixtures of opium and that all opium, poppy heads, or preparations or admixtures of opium sold shall be paid for on the spot in cash.

13. That not more than 5 tolas of opium or of any preparation or admixture thereof, or more than 1 seer of poppy heads, shall be sold to, or removed from the shop by, any person at any one time without a special permit from the local excise authority, and that opium shall

not be sold at any price $\frac{\text{other}}{\text{higher}} \text{ than } \text{---} \text{ per tola.}$
 $\frac{\text{lower}}$

† One or more of these entries deleted in accordance with circumstances.

14. That no opium, poppy heads, or preparations or admixtures of opium shall be sold or in any way supplied to any European Non-Commissioned officer or soldier, or to any European or Eurasian being a camp follower or to any soldier's wife or child, excepting under the written permission of the Commanding Officer of the station or of some person authorised by the Commanding Officer to grant such permission, or to any Policeman, Excise officer, or Railway servant on duty, or to any insane or intoxicated person or to any child under 14 years of age.

NOTE.—In licenses for the Cantonment and Civil Lines of Nowgong insert after condition 14 "That no opium, poppy heads, or preparations or admixtures of opium shall be supplied to any Kanjars residing in the Kanjar Settlement adjoining Nowgong without the written permission of the Thagi Inspector, Nowgong."

15. That no disorderly conduct or gaming shall be allowed in the shop, that persons of notoriously bad character shall not be permitted to resort to the shop, that no person shall be harboured in the shop during the night and that the licensee shall give immediate information to the nearest Magistrate or Police officer of the resort to the shop of any person suspected of having committed a cognizable and non-bailable offence.

16. That if so required by the local excise authority, the licensee shall keep an account showing the daily receipts and sales at his shop of opium, of poppy heads, and of each preparation or admixture of opium, and the balance in store. That the licensee shall at once produce his license and accounts (if any) for the inspection of the local excise authority or of any person generally or specially authorised by him in this behalf, and shall at all times give entry to the shop to the Military Police, or to any Police or Excise officer exercising powers not inferior to those of a Sub-Inspector of Police.

17. That no weights or measures except such as shall previously have been approved by the local excise authority shall be used at the shop.

18. That the licensee shall be bound, if the local excise authority so directs, to purchase at a price fixed by the local excise authority, the residue of the previous licensee's stock of opium to the extent of two months' supply. Provided that he shall be required to purchase only such opium as shall be unadulterated and fit for human consumption.

19. This license is granted subject to the provisions of the Law, and of the rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force, notwithstanding that a special order recalling it has not been issued by the local excise authority. It shall also cease to remain in force on the 1st day of any previous month in respect of which the licensee shall have failed to pay the instalment reserved by the 1st condition of this license. It shall likewise immediately cease to operate in the event of the death of the licensee during the currency of the license. It may be forfeited by order of the local excise authority in the event of the holder being convicted of any criminal offence.

FORM III.

License for the preparation and retail sale of hemp drugs, and counterpart of the same.

License to prepare hemp drugs* and to sell the same by retail at the premises known as _____ situated at _____ is hereby, granted to _____ (hereafter referred to as the licensee) for the term of _____ commencing on the _____ and ending on the _____ subject to the following conditions, the infraction of any of which, or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law" or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, shall render the license liable to cancellation by order of the local excise authority without prejudice to any other penalty to which the licensee or the person committing such infraction may be liable under sections 29, 30 and 31 of the Law :—

1. That the licensee shall pay to Government the sum of Rs. _____ in the following instalments (in addition to the sum of Rs. _____—being one-sixth of the sum annually payable—already deposited by the licensee, which, if it be not intermediately forfeited by the licensee for default or breach of some other condition of this license, shall be set off against the 11th and 12th instalments) viz.:—

* Here insert in order, the names of the 1st 10 months of the Excise year and the instalments, each of which will be one-twelfth of the annual payment.

On the 1st of

†

Rs.

NOTE.—(1) When the period of the license exceeds one year, the instalments for all but the last two months of the period of the license will be entered, and the words "11th" and "12th" suitably replaced.

(2) In cases where Government promissory notes have been deposited as security the words within brackets will be omitted, and the requisite instalments for the last two months of the Excise year added to the list of instalments.

2. That the deposit mentioned in the foregoing condition shall not, in the event of default or infraction of any condition of this license, or of any of the provisions of the Law, or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, be reclaimable by the licensee.

NOTE.—In cases where Government promissory notes have been deposited as security, the following condition shall be substituted:—

That in the event of default or breach of any of the conditions of this license, or of any of the provisions of the Law or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, the promissory notes deposited as security for the fulfilment of the conditions of this license shall vest in Government, and shall not be reclaimable by the licensee.

3. That it shall be competent to the local excise authority, on cancellation of the license and forfeiture of the deposit, to resell the license at the risk of the licensee, and, after deducting the forfeited deposit from any loss arising from the resale, to recover the remainder from the licensee in the manner provided by section 19 of the Law, and that the licensee shall not be entitled to any portion of the profit, if any, that may arise from the resale.

4. That the business covered by this license shall not be sub-let or transferred without the written permission of the local excise authority, nor shall an agent be appointed, without such permission endorsed on this license, for the management of the business covered by this license. That no person suffering from leprosy or other infectious or contagious disease and no child under 14 years of age shall under any circumstances be employed in the transport, preparation or sale of ganja, *charas** and bhang or otherwise in the business covered by the license; and that no woman shall be employed, during the hours in which the premises are kept open for business, in any part of such premises in which hemp drugs are or may be consumed by the public.

5. That the licensee shall not, without the permission in writing of the local excise authority, hold or acquire any interest in a license, or farm of the fees leviable on licenses, for the retail sale in the† of any other excisable commodity, nor shall he, without such permission, employ any person holding such an interest.

* In areas the possession of import of is prohibited word "ch" should be del

† Here the name Cantonment other area f in which the is granted.

6. That the shop for which this license is granted shall, unless its closure be specially authorized by the local excise authority, be kept open throughout the year, and that a supply of hemp drugs‡ sufficient to meet the demands of consumers shall be maintained.

‡ In areas the possession of import of is prohibited words "other charas and i parations ar mixtures" be inserted af words drugs."

7. That no hemp drugs shall be possessed or sold except such as shall have been obtained in accordance with the provisions of the Law, and of rules made thereunder, or prepared from hemp drugs so obtained, and that the *ganja*, *charas*§ and *bhāng* offered for sale as such shall not be adulterated.

§ In areas the possession of import of ch prohibited t "charas" st deleted.

8. That sale shall be made only at the premises for which this license is granted and not elsewhere, and that the licensee shall not without a pass possess hemp drugs excepting at such premises.

9. That no hemp drugs shall be sold or consumed on the premises between 9 P.M. and sunrise.

10. That a signboard shall be put up in a conspicuous place outside the premises, bearing the licensee's name and the designation "Licensee for the retail sale of hemp drugs."

11. That if a room for private accommodation is provided, access to the same shall be only through the shop or by an entrance at the side of the shop. In the latter case a signboard shall be fixed at the entrance similar to the one fixed outside the shop.

12. That nothing except money shall be taken in barter for hemp drugs, and that all hemp drugs sold shall be paid for on the spot in cash.

13. That not more than 5 tolas of *ganja* (including preparations and admixtures thereof), 5 tolas of *charas* (including preparations and admixtures thereof) and 20 tolas of *bhāng* (including preparations and admixtures thereof) shall be sold to, or removed from the shop by, any person at any one time without a special permit from the local excise authority.

In areas the possession of import of ch prohibited t nine words second line be deleted.

14. That no hemp drugs shall be sold or in any way supplied to any European Non-Commissioned officer or soldier, or to any European or Eurasian being a camp follower, or to any soldier's wife or child, excepting under the written permission of the Commanding Officer of the station or of some person authorized by the Commanding Officer to grant such permission, or to any Policeman, Excise officer, or Railway servant on duty, or to any insane or intoxicated person or to any child under 14 years of age.

In licenses for the Cantonment and Civil Lines of Nowgong, insert after condition 14 "That no hemp drugs shall be supplied to any Kanjars residing in the Kanjar settlement adjoining Nowgong without the written permission of the Thagi Inspector, Nowgong."

15. That no disorderly conduct or gaming shall be allowed in the shop, that persons of notoriously bad character shall not be permitted to resort to the shop, that no person shall be harboured in the shop during the night, and that the licensee shall give immediate information to the nearest Magistrate or Police officer of the resort to the shop of any person suspected of having committed a cognizable and non-bailable offence.

16. That if so required by the local excise authority, the licensee shall keep an account showing the daily receipts and sales of each description of hemp drugs at his shop, and the balance in store. That the licensee shall at once produce his license and accounts (if any) for the inspection of the local excise authority or of any person generally or specially authorised by him in this behalf, and shall at all times give entry to the shop to the Military Police, or to any Police or Excise officer exercising powers not inferior to those of a Sub-Inspector of Police.

17. That no weights or measures except such as shall previously have been approved by the local excise authority shall be used at the shop.

18. That the licensee shall be bound, if the local excise authority so directs, to purchase at a price fixed by the local excise authority the residue of the previous licensee's stocks of hemp drugs to the extent of two months' supply. Provided that he shall be required to purchase only such hemp drugs as shall be unadulterated and fit for human consumption.

19. This license is granted subject to the provisions of the Law, and of the rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force, notwithstanding that a special order recalling it has not been issued by the local excise authority. It shall also cease to remain in force on the 1st day of any previous month in respect of which the licensee shall have failed to pay the instalment reserved by the 1st condition of this license. It shall likewise immediately cease to operate in the event of the death of the licensee during the currency of the license. It may be forfeited by order of the local excise authority in the event of the holder being convicted of any criminal offence.

FORM IV.

Lease of the right to manufacture country fermented liquor and of the fees leviable on the retail sale of country fermented liquor, and counterpart of the same.

Area of farm _____

Name of farmer _____

Be it known that the right to manufacture country fermented liquor and the fees leviable on licenses for the retail sale of country fermented liquor have been let in farm to _____ (hereinafter referred to as the farmer), for the term of _____ commencing on the _____ and ending on the _____ subject to the following conditions, the infraction of any of which, or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917, hereinafter referred to as "the Law" or of the rules made thereunder, by the farmer or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, shall render this lease liable to cancellation by order of the local excise authority without prejudice to any other penalty to which the farmer or the person committing such infraction may be liable under sections 28, 30 and 31 of the Law:—

1. That the farmer shall pay to Government the sum of Rs. _____ in the following instalments (in addition to the sum of Rs. _____—being one-sixth of the sum annually payable—already deposited by the farmer, which, if it be not intermediately forfeited by the farmer for default or breach of some other condition of this lease, shall be set off against the last instalments) viz.:—

On the 1st of _____

*

Rs. _____

*Here insert in order the names of the months of the *rain* season and the instalments, the total of which will be equal to the annual payment.

NOTE.—In cases where Government promissory notes have been deposited as security, the words within brackets will be omitted.

2. That the deposit mentioned in the foregoing condition shall not in the event of default or infraction of any condition of this lease or of any of the provisions of the Law, or of the rules made thereunder, by the farmer or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, be reclaimable by the farmer.

NOTE.—In cases where Government promissory notes have been deposited as security, the following condition shall be substituted:—

That in the event of default or breach of any of the conditions of this lease, or of any of the provisions of the Law, or of the rules made thereunder, by the farmer or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, the promissory notes deposited as security for the fulfilment of this lease shall vest in Government, and shall not be reclaimable by the farmer.

3. That it shall be competent to the local excise authority, on cancellation of the lease and forfeiture of the deposit, to resell the lease at the risk of the farmer and, after deducting the forfeited deposit from any loss arising from the resale, to recover the remainder from the farmer in the manner provided by section 19 of the Law, and that the farmer shall not be entitled to any portion of the profit, if any, that may arise from the resale.

4. That the business covered by this lease shall not be sublet or transferred without the written permission of the local excise authority nor shall an agent be appointed, without such permission endorsed on this lease, for the management of the business covered by this lease. That no person suffering from leprosy or other infectious or contagious disease and no child under 14 years of age shall under any circumstances be employed in the manufacture, transport or sale of liquor, or otherwise in the business covered by this lease; and that no woman shall be employed, during the hours in which the premises are kept open for business, in any part of such premises in which country fermented liquor is or may be consumed by the public.

5. That the farmer shall not, without the permission in writing of the local excise authority, hold or acquire any interest in a license, or farm of the fees leviable on licenses, for the retail sale in the * of any other excisable commodity, nor shall he, without such permission, employ any person holding such an interest.

6. (Here will be inserted a condition specifying the trees the right to tap which is included in the lease, and the payments or other conditions subject to which tapping will be permitted.)

*Here insert name of the Government or area for sale which the license is granted.

7. That no shops other than those specified in the list annexed shall be licensed by the farmer, and that the site of no shop shall be changed without the permission of the local excise authority.

8. That no license shall be granted to a minor, female, eunuch or child under 14 years of age.

9. That a license in Form V countersigned by the local excise authority shall be given by the farmer, and a counterpart taken and deposited in the office of the local excise authority for every shop licensed by him.

NOTE.—In respect of any shop the privilege of retail vend at which is to be exercised by the farmer he will be required to obtain the countersignature of the local excise authority to a license in Form V.

10. That the farmer will file in the office of the local excise authority by the first day of each quarter a list of licenses granted by him containing the following particulars:—

Date.	Locality of shop.	Name of licensee with caste, parentage and residence.

NOTE.—Licenses in favour of the farmer as required by the note to condition 9 will also be entered in this list.

11. That the farmer shall give immediate information to the local excise authority of any breach of law or rules relating to opium, hemp drugs or excise, that he may know, or have reason to believe, to have been committed by any person holding from him a license for retail sale.

12. This lease is granted subject to the provisions of the Law, and of the rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force, notwithstanding that a special order recalling it has not been issued by the local excise authority. It shall also cease to remain in force on the first day of any previous month in respect of which the farmer shall have failed to pay the instalment reserved by the first condition of this lease. It shall likewise immediately cease to operate in the event of the death of the farmer during the currency of the lease. It may be forfeited by the order of the local excise authority in the event of the holder being convicted of any criminal offence.

License granted by a farmer for the manufacture and retail sale of country fermented liquor and counterpart of the same.

License to manufacture country fermented liquor and to sell it by retail at the premises known as _____ situated _____ is hereby granted by _____ farmer, to _____ (hereinafter referred to as the licensee) for the term of _____ commencing on the _____ and ending on the _____

subject to the following conditions, the infraction of any of which or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law") or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders, or by his authority, or with his knowledge and consent, shall render the license liable to cancellation by order of the local excise authority without prejudice to any other penalty to which the licensee or the person committing such infraction may be liable under sections 28, 30 and 31 of the Law :—

1. That the licensee shall pay to the farmer the sum of Rs. _____ in the following instalments :—

On the 1st of _____

Rs.

*Here insert in order the names of the months of the *fari* season and the instalments, the total of which will be equal to the annual payment.

2. That the business covered by this license shall not be sublet or transferred without the written permission of the local excise authority, nor shall an agent be appointed, without such permission endorsed on this license, for the management of the business covered by this license. That no person suffering from leprosy or other infectious or contagious disease and no child under 14 years of age shall under any circumstances be employed in the manufacture, transport or sale of fermented liquor, or otherwise in the business covered by this license, and that no woman shall be employed, during the hours in which the premises are kept open for business, in any part of such premises in which country fermented liquor is or may be consumed by the public.

3. That the licensee shall not, without the permission in writing of the local excise authority, hold or acquire any interest in a license, or farm of the fees leviable on licenses, for the retail sale in the _____ of any other exisable commodity, nor shall he, without such permission, employ any person holding such an interest.

4. That the shop for which this license is granted shall, unless its closure be specially authorised by the local excise authority be kept open throughout the months of _____ and that a supply of country fermented liquor sufficient to meet the demands of consumers shall be maintained.

5. (Here insert a condition regarding the trees that may be tapped and the payments or other conditions subject to which they may be tapped.)

6. That sale shall be made only at the premises for which this license is granted and not elsewhere.

7. That no liquor shall be sold or consumed on the premises between 9 P.M. and sunrise.

8. That a signboard shall be put up in a conspicuous place outside the premises, bearing the licensee's name and the designation "Licensee for the manufacture and retail sale of country fermented liquor."

9. That if a room for private accommodation is provided, access to the same shall be only through the shop or by an entrance at the side of the shop. In the latter case a signboard shall be fixed at the entrance similar to the one fixed outside the shop.

10. That nothing except money shall be taken in barter for liquor, and that all liquor sold shall be paid for on the spot in cash.

11. That not more than four seers of liquor shall be sold to, or removed from the shop by, any person at any one time without a special permit from the local excise authority.

12. That no liquor shall be sold or in any way supplied to any European, Non-Commissioned officer or soldier or to any European or Eurasian being a camp follower, or to any soldier's wife or child, excepting under the written permission of the Commanding Officer of the station or of some person authorized by the Commanding Officer to grant such permission, or to any Policeman, Excise officer, or Railway servant on duty, or to any insane or intoxicated person, or to any child under 14 years of age.

13. That no disorderly conduct or gaming shall be allowed in the shop, that persons of notoriously bad character shall not be permitted to resort to the shop, that no person shall be

harboured in the shop during the night, and that the licensee shall give immediate information to the nearest Magistrate or Police officer of the resort to the shop of any person suspected of having committed a cognisable and non-bailable offence.

14. That the licensee shall at once produce his license for the inspection of the local excise authority or of any person generally or specially authorised by him in this behalf, and shall at all times give entry to the shop to the Military Police, or to any Police or Excise officer exercising powers not inferior to those of a Sub-Inspector of Police.

15. That no weights or measures except such as shall previously have been approved by the local excise authority shall be used at the shop.

16. This license is granted subject to the provisions of the Law, and of the rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force, notwithstanding that a special order recalling it has not been issued by the local excise authority. It may be cancelled by the local excise authority on the application of the farmer for default in payment of any of the instalments reserved by the 1st condition hereof. (For this purpose a statement of account certified by the farmer shall be conclusive evidence of such default, but this shall not debar the licensee from contesting such statement in a Civil Court.) It shall likewise immediately cease to operate in the event of the death of the licensee during the currency of the license, or of the determination during such currency of the lease held by the farmer by whom it is granted. It may be forfeited by order of the local excise authority in the event of the holder being convicted of any criminal offence.

FORM VI.

License for the wholesale supply of country spirit and for its sale at a warehouse established in an area to which the provisions of the Central India (Administered Areas) Excise Law, 1917, apply.

1. License is hereby granted under and subject to the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law") and of rules made or hereafter to be made thereunder to

(hereinafter called the licensee who have deposited with the local excise authority the sum of _____ as security for the due fulfilment of the conditions of this license) for the wholesale supply of country spirit for sale at the warehouse mentioned in the schedule during the period commencing on the _____ and ending on the _____

2. The license confers on the licensee the exclusive right of sale by wholesale of country spirit at the warehouse, the said spirit being sold and issued from the warehouse to retail vendors only, at the prices and strengths mentioned in the schedule annexed to this license, and after payment to Government of duty at such rates as may from time to time be prescribed or, in the case of spirit supplied to vendors licensed by Native States, approved in this behalf by the Agent to the Governor-General, to whom full liberty is reserved to vary the rates of duty at his discretion during the currency of the license.

3. (Here insert a condition *re* source of supply of spirit.)

Each hogshead or vessel used for the import of spirit shall either—

(a) before it is brought into use at the warehouse, be gauged by actual measurement by the officer in charge, and its capacity and a distinguishing number marked thereon, or

(b) bear a suitable distinctive mark and be accompanied by a certificate, granted by the officer in charge of the distillery from which the spirits are supplied, stating its capacity as ascertained by him by actual measurement.

4. The warehouse buildings and well will be supplied and maintained by Government together with excise locks, hydrometers, and one gallon measures for testing the vessels used for measuring spirit on issue from the warehouse. The vessels in which spirits are removed from the warehouse will be supplied by the purchasers. All other articles or fittings connected with the supply, storing, gauging, handling and issue of spirits, including vats, tanks, casks, pumps, pipes, cocks, dipping rods, bung rods, sealing wax and other material for sealing the vessels in which spirit is issued and all labour other than that of the officer in charge and his clerks and peons shall be supplied by the licensee.

5. The spirit supplied shall be distilled from mahua or other material approved by the Excise Commissioner, and shall be of good quality. It may be subjected under the orders of the Excise Commissioner to analysis and, if found unfit for human consumption, may be rejected and re-distilled or destroyed under the orders of the Excise Commissioner. The officer in charge of the warehouse is also empowered to stop, pending the orders of the officers to whom he is immediately subordinate (to whom an immediate report shall be submitted by him), the issue of any spirit that he considers bad, sending samples without delay for analysis to the Excise Commissioner or officer specified by him in this behalf.

6. Purchasers are entitled to object to the quality of the spirits before taking delivery but not afterwards. The validity of such objection shall be decided by the Excise Commissioner.

7. The licensee shall maintain at the warehouse a minimum stock of the equivalent of _____ gallons L. P. (This minimum may be temporarily raised by the Excise Commissioner, after two months' notice to the licensee, to _____ gallons.) Whenever the stock falls short of the minimum in force, the Excise Commissioner or officer generally or specially authorised by him in this behalf may order in supplies, the cost of which may be recovered from the licensee under the provisions of section 19 of the Law.

8. Retail vendors shall be entitled to have spirits issued to them with all reasonable expedition in such quantities (subject to reasonable limits) and of such of the prescribed strengths as they require on the production of the receipt for price and duty prescribed by the rules for the management of warehouses.

9. Failure to supply spirits in accordance with the foregoing condition within such time and in such quantities as may be deemed reasonable by the Excise Commissioner will entail on the licensee a penalty at the discretion of the Excise Commissioner not exceeding Rs. 5 per proof gallon of spirits reasonably demanded but not supplied. In such cases the spirit may be purchased elsewhere by the Excise Commissioner, or officer generally or specially authorised by him in this behalf, at his discretion and at the risk of the licensee. The penalty, the cost of the spirit purchased, and any loss that may result may be deducted from the amount if any due to the licensee, or from the deposit, or may be recovered under the provisions of section 19 of the Law.

10. The licensee is prohibited from holding any interest in the retail vend of country spirits or in the vend of other intoxicants in any part of the area served by the warehouse, and from employing any person who has such an interest. This prohibition does not extend to the sale of foreign liquor or of rectified or methylated spirit provided that a license has been obtained for such sale.

11. At the expiration of the license the licensee shall be entitled to demand that the storage vats and other apparatus used by him at the warehouse shall be bought from him by the incoming licensee or by Government at a price to be determined by the Excise Commissioner after valuation by a valuer to be nominated with the consent of both parties. Provided—

- (1) That the licensee shall give six months' notice of his intention to claim the benefits of this clause.
- (2) That claims under this clause shall be permissible in respect of only such plant as was regularly used for or in connection with the storage of spirit at the warehouse.
- (3) That nothing shall be claimable under this clause in respect of any plant or apparatus which was not, at the time of its supply to the warehouse, approved by the Excise Commissioner in writing in this behalf, or which is not in the opinion of the Excise Commissioner in good working order and necessary for or in connection with the storage of spirit at the warehouse.

12. At the expiry of the license the licensee shall be entitled to demand that spirit of good quality not exceeding one month's supply be taken over by the incoming licensee at half an anna per gallon L.P., less than the rate fixed by this license. Provided that he shall give to the Excise Commissioner not less than a month's notice in writing of the quantity of spirit which he proposes to demand that the incoming licensee shall take over, and shall thereupon be bound to make over to the incoming licensee if so required by the latter not less than half the amount specified in the notice. Should the Excise Commissioner so order, the licensee may be required to make over to the incoming licensee, at the rate fixed in this license, one month's supply of spirit, provided that not less than three months' notice shall be given of any such order.

13. As soon as possible after the end of each month accounts shall be adjusted and payment made by Government to the licensee of the price as determined by this license of the spirit issued from the warehouse during the previous month.

14. The licensee will be at liberty to commence storing spirits in the warehouse on or after _____ but no spirit so stored shall be sold or issued from the warehouse before the _____ and the licensee shall in respect of such spirit be bound by the provisions of the Law and rules made thereunder.

15. In all matters not expressly provided for herein the licensee shall accept the decision of the Commissioner of Excise, subject to appeal to the Agent to the Governor-General in Central India, whose decision shall be final.

16. In this license the words "retail vendor" shall be understood to have the meanings assigned to them in the rules made by the Agent to the Governor-General for the management of bonded warehouses for the storage of country spirit.

17. It is furthermore agreed that the cost of stamping this license and the counterpart thereof shall be borne by the licensee.

NOTE.—This license and its counterpart are each liable to a stamp duty of 8 annas under Articles 5(b) and 25 of Schedule I of the Indian Stamp Act, 1899.

SCHEDULE.

Licensee.

No. 2243-C.—In exercise of the powers conferred on him by section 42 (2) (i) of the Central India (Administered Areas) Excise Law, 1917, the Agent to the Governor General in Central India is pleased to direct that the license for the working of the Nowgong distillery shall ordinarily be in the form hereto annexed, and shall be granted by the local excise authority with the previous sanction of the Excise Commissioner for Central India.

2. Notification No. 1701-C., dated the 17th November 1913, is hereby cancelled.

DISTILLERY LICENSE.

License to work a distillery is hereby granted to Messrs. _____ of _____ (hereinafter referred to as the licensee) for the period beginning on the _____ and ending on the _____ subject to the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law") and of the rules from time to time in force thereunder and to the following conditions, infraction of any of which provisions or conditions by the licensee or by his servant or agent or by any person acting under his orders or authority or with his knowledge and consent shall render the license liable to forfeiture by order of the Excise Commissioner for Central India without prejudice to any penalty to which the licensee or the person committing such infraction may be liable under the said Law:—

1. That distillation under this license shall be carried on only at the distillery *con- * or lesser structed by the licensee at Nowgong. The apparatus and appliances for the manufacture and chased, or storage of spirit and all fittings and appliances required at the distillery, other than excise case may locks and hydrometers, shall be provided by the licensee.

2. That the distillation, storage and removal of spirit shall be conducted under the supervision and general control of an officer appointed by the Excise Commissioner for Central India, hereinafter referred to as the distillery officer, and that the said officer shall at all times be permitted to gauge and prove the spirit in the distillery. That the licensee shall be responsible for the trenching or removal of all spent-wash and used *mohwa*, and generally for maintaining the premises in a sanitary and inoffensive condition.

3. That the licensee shall take all reasonable precautions to ensure the purity of the spirit, and in particular that he shall take the following precautions, *viz.*,
the return to the still for re-distillation of all spirit of strength weaker than 80 under proof, and of all tailings and foreshots.

4. That no receivers, tanks or vats for the reception of spirit shall be used in the distillery except such as shall have been approved by the Excise Commissioner for Central India. That all such receivers, vats, or tanks shall be set up to the satisfaction of the Excise Commissioner for Central India so as to admit of their contents being accurately gauged or measured, and shall be fitted with proper dipping rods so adjusted to fixed dipping places that the contents thereof may at any time be ascertainable. The receivers, tanks and vats shall also be gauged in such manner as the Excise Commissioner for Central India may, from time to time, direct and no vessel shall be used as a receiver or for the storage of spirit until it has been gauged and the gauging has been checked by such officer as may be appointed by the Excise Commissioner. They must be fixed at a proper height and fitted with cocks

or discharge pipes so that they can be emptied without being moved, and should be slightly sloped so that they may drain dry through the cocks or pipes without difficulty. The receivers and the storage vats and tanks shall be connected with the condensers and with each other by such pipes and pumps as may be required by the Excise Commissioner.

5. That the licensee shall provide and maintain suitable and secure fastenings for all receivers and vessels used for the storage of spirit and for all cocks capable of being so manipulated as to admit of the removal of spirit from the receivers, vessels used for the storage of spirit, or pipes connected therewith. To all such fastenings, as well as to the doors of all rooms in which spirit is stored, locks provided by Government will be affixed and the keys thereof kept in the custody of the distillery officer. The licensee may also affix his own locks to all such fastenings and doors, provided that he shall always at once remove such locks on the requisition of the distillery officer or of any officer to whom the distillery officer is subordinate.

6. That no operations requiring the presence of the distillery officer shall be carried on excepting on the days and between the hours from time to time approved by the Excise Commissioner in this behalf.

NOTE.—(i) The foregoing shall not be deemed to prohibit (a) the continuance of distillation in the absence of the distillery officer provided that the pipes discharging from the condenser and the receivers are so connected and secured by locks affixed by the distillery officer as to preclude the removal of spirit in his absence, and that the strong room is locked or (b) the conduct at any time during the distillery officer's absence of operations not involving the handling of spirit or the opening of the still room or strong room or of the steam valve in the still room.

(ii) The following days only will be observed as distillery holidays, viz. :—

Sundays, the King-Emperor's Birthday, New Year's Day, Christmas Day, the 26th December and one day each at the Holi, Dasehra and Diwali if the distillery officer be a Hindu or at the Id-ul-zuha, the Id-ul-fitr and the Moharram if he be a Mussalman, the precise dates to be observed on this last account in each year being determined by the Cantonment Magistrate.

7. That no saccharine or other material which might obscure the hydrometer reading shall be added to spirit at the distillery and that the spirit distilled shall not be adulterated by the addition of any substance other than water.

8. That no spirit shall be removed from the distillery excepting to such warehouses or other places as shall from time to time be approved by the Excise Commissioner for Central India in this behalf. That spirit consigned to such warehouses or places shall, before removal, be gauged and proved by the distillery officer, and shall be removed in casks sealed by him and under passes issued by him in such form as may be prescribed by the Excise Commissioner. That the licensee shall be responsible for the conveyance of the spirit in its entirety to the warehouse or other place of destination and shall be liable to pay duty, at the highest rate leviable in the area in which the warehouse or other place of destination is situated or in the Nowgong Cantonment (whichever may be higher) on all spirit despatched from the distillery which he shall fail either to produce at the warehouse or other place of destination within such period as may be prescribed by the Excise Commissioner for Central India in this behalf or to account to the satisfaction of the Excise Commissioner for his failure to do so. Provided that such an allowance for dryage in transit as may be prescribed by the Excise Commissioner for Central India in this behalf in respect of each warehouse or other place of destination shall be deducted from any deficiency that may occur in transit. Provided also that the spirit shall, on arrival at the warehouse or other place of destination, be disposed of in accordance with the Law and rules from time to time in force for the conduct of business at the warehouse or for the disposal of the spirit in the case of places other than warehouses.

NOTE.—So long as the Nowgong warehouse is situated within the distillery, so much of the foregoing condition as requires spirit to be removed in sealed casks under passes shall not apply to spirit removed to the Nowgong warehouse.

9. That the licensee shall keep such accounts of materials used and of spirit produced stored and issued for removal from the distillery or for re-distillation as may be prescribed by the Excise Commissioner. That all such accounts shall at all times during business hours be available for the inspection of the distillery officer or of any officer to whom such officer is subordinate. That the licensee shall be liable for the payment of duty at the highest rate leviable in the Nowgong Cantonment on all spirit (in excess of an allowance of 2 per cent. that will be made for wastage) for which he is unable to account to the satisfaction of the Excise Commissioner (such deficiency will be calculated at the expiry of each year of the contract, the wastage being allowed on the balance in hand at the commencement of the year plus spirit produced during the year exclusive of weak spirit issued for re-distillation). Provided that the penalties leviable under this condition shall not be enforced in respect of spirit that may be shown to the satisfaction of the Excise Commissioner to have been wasted or destroyed through accident or other unavoidable cause.

10. That the States supplied from the distillery and Government shall not be responsible for the destruction, loss or damage of spirit or of the licensee's apparatus or appliances by fire, theft, gauging, proof or other cause whatsoever. In the case of fire or other emergency, however, the distillery officer shall, on being informed of the same, immediately attend, at any hour of the day or night, for the purpose of opening the distillery.

11. That the licensee shall

- (i) provide warehouse accommodation at the distillery,
- (ii) provide at the distillery suitable accommodation for the distillery officer and the staff subordinate to him, and
- (iii) pay Rs. 80 per mensem to Government as supervision charges.

12. That the licensee shall, on the expiry or determination of this license, not be entitled to demand the acquisition by the States served by the distillery or by Government, or by his successor, of the building or of any of the apparatus, appliances or fittings provided by him at the distillery.

13. That any penalty leviable under this license may be recovered from the licensee in the manner provided by section 19 of the Law, or may be deducted from the sum deposited by him as security under the license held by him for the wholesale supply of country spirit for the Nowgong Cantonment or from any sum due to him under the conditions of that license.

14. That on the expiry, cancellation or determination of the said license for the wholesale supply of country spirit, this license shall absolutely determine and cease to be in force, unless the Excise Commissioner for Central India sees fit to continue it for the supply by the contractor of other areas.

15. That the licensee shall be bound by the provisions of the Law, and of all rules from time to time made thereunder. He shall also be bound by the provisions of the United Provinces Steam Boilers and Prime Movers Act, 1899, and of the rules made thereunder, any infringement of which shall be deemed to be an infringement of the conditions of this license.

Provided that the employment in charge of the boiler in use at the distillery of an engineer or engine driver certified under the law relating to Boilers and Prime Movers in force in the United Provinces, the Punjab, the Central Provinces, Bengal or Bombay to be qualified to take charge of boilers of the capacity of the boiler in use at the distillery shall be deemed to be sufficient compliance with clause (2) of section 5 of the latter law.

16. That the licensee's distillery building mentioned in paragraph 1 of this license, and his appliances and stock at the distillery are hereby hypothecated to the Excise Commissioner for Central India as security for the fulfilment of the conditions of this license and also for the fulfilment, to the satisfaction of the Excise Commissioner for Central India, of the conditions of the warehouse licenses granted to the licensee for the supply of spirit from the distillery mentioned in clause 1 to the Nowgong, Panna, Amanganj, Chhatarpur, Ajaigarh, Datia and Gulganj warehouses, or of any license or contract that may hereafter be granted to him for the supply of spirit to Government or to any Native State or to any warehouse maintained by Government or by a Native State.

17. That the stamp duty on this license shall be paid by Government.

No. 2244-C.—In exercise of the powers conferred by section 42 of the Central India (Administered Areas) Excise Law, 1917, the Agent to the Governor-General in Central India is pleased to make the following rules governing the import and vend of denatured spirit :—

RULES.

I. In these rules the expression "denatured spirit" means spirit that has been effectually and permanently rendered unfit for human consumption in the manner prescribed.

(i) In the case of spirit imported from beyond seas, by the rules regarding the denaturing of imported spirit in force under the Sea Customs Act, 1878, at the port of import.

(ii) In the case of spirit manufactured in India, by the law and rules regarding the denaturing of spirit in force under the Excise (Spirits) Act, 1863, at the place of manufacture.

II. Licenses for the sale of denatured spirit shall be in the form annexed to these rules.

III. Licenses for the sale of denatured spirit shall be granted by the local excise authority for such periods not exceeding a year as will ensure their expiring on the last day of a quarter.

IV. Such licenses shall be granted, free of charge, to persons applying for them.

Provided that the local excise authority may reject any application for the grant or renewal of a license, on the ground that the applicant is not, in his opinion, a fit person to hold a license, or that a sufficient number of licenses have already been granted, or for any other sufficient reason.

V. Permits granted by the local excise authority for the purchase of denatured spirit in quantities exceeding one gallon shall be in the form annexed to these rules.

VI. The permits prescribed in the foregoing rule may be granted by the local excise authority to chemists, varnish makers or others engaged in arts, manufactures or chemistry who require to use considerable quantities of denatured spirit for the purposes of their business or occupation.

VII. Permits to import denatured spirit shall be in the annexed form and shall be issued free of charge. They may be granted by the local excise authority to persons licensed for the sale of denatured spirit, or to persons holding permits under rule V.

2. Notification No. 1723-C., dated the 20th September 1912, is hereby cancelled.

LICENSE FOR THE SALE OF DENATURED SPIRIT.

License to sell denatured spirit at the premises known as _____ situated at _____ is hereby granted to _____ for a period of _____ commencing on the _____ and ending on the _____ the _____ subject to the following conditions, the infraction of any of which or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917 (hereinafter referred to as "the Law") or of the rules made thereunder, by the licensee or by any person employed by him or acting under his orders or by his authority, or with his knowledge and consent shall render the license liable to forfeiture by order of the local excise authority without prejudice to any other penalty to which the licensee or the person committing such infraction may be liable under sections 28, 30 and 31 of the law :—

1. That the business covered by this license shall not be sub-let or transferred without the written permission of the local excise authority nor shall an agent be appointed, without such permission endorsed on this license, for the management of the business covered by this license. That no person suffering from leprosy or other infectious or contagious disease and no person under 14 years of age shall under any circumstances be employed in the handling of the spirit or otherwise in the business covered by this license.

2. That the licensee shall procure his supplies of denatured spirit either—

(i) by direct importation from beyond sea in accordance with the law and rules regulating such import, or

(ii) by purchase from a person licensed under these rules for the sale of denatured spirit, or

(iii) by purchase from a person licensed under any law in force in British India for the sale of denatured spirit, in accordance with the law and rules in force in the place for which such person is licensed and in the areas through which the spirit passes in transit.

(iv) from a distillery licensed under the Law, in accordance with the rules in force under the Law for the issue of denatured spirit from the distillery.

3. That the licensee shall, before selling denatured spirit to any purchaser, use all reasonable diligence to ascertain the quantity already in the purchaser's possession, and shall not at one time sell to him more than one gallon or such smaller quantity as, together with what is, or in good faith is believed to be, in the buyer's possession, is equal to one gallon. Provided that the licensee may sell a quantity of denatured spirit greater than one gallon—

to a person licensed to sell denatured spirit or

to a person holding a permit granted by the local excise authority authorising him to purchase quantities greater than one gallon.

In the latter case the quantity sold to any such person at one time shall not exceed such quantity as, together with what is, or in good faith is believed to be, in the buyer's possession, is equal to the quantity that he is permitted to purchase.

4. That the licensee shall not have in his possession at any one time denatured spirit in any quantity in excess of one hundred gallons.

5. That no denatured spirit shall be sold before sunrise or after 9 o'clock at night.

6. That sale shall be made only at the premises for which this license is granted, and not elsewhere.

7. That a signboard shall be put up in a conspicuous place outside the licensed premises bearing the name of the licensee and the designation "Licensed vendor of denatured spirit."

8. That the licensee shall not, without taking out a separate license, sell any spirit other than denatured spirit, and if he holds or obtains such separate license the admixture of denatured spirit with other spirit shall under no pretext be attempted by him.

9. That the licensee shall keep a daily account of his sales in the following form and shall submit an abstract thereof at the end of each quarter to the office of the local excise authority :—

Date.	(a)		(b)		(c)		(d)		(e)	(f)	(g)
	Balance in hand.		Quantity received.		Total.		Quantity sold.		Full name of person to whom sold.	Full address of purchaser.	Trade or occupation of purchaser.
	Gallons.	Bottles.	Gallons.	Bottles.	Gallons.	Bottles.	Gallons.	Bottles.			
1	2	3	4	5	6	7	8	9	10	11	12

10. That the licensee shall, when required to do so, produce his license and accounts for the inspection of the local excise authority or of any person specially or generally authorised by him in this behalf, and shall at any time of the day or night give entry to the shop to any Police or Excise Officer exercising powers not inferior to those of a Sub-Inspector of Police.

11. That the local excise authority shall be at liberty to withdraw this license at any time should it appear to him undesirable to allow its continuance.

12. This license is granted subject to the provisions of the Law and of the rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force notwithstanding that a special order recalling it has not been issued by the local excise authority.

PERMIT AUTHORISING THE PURCHASE AND POSSESSION OF DENATURED SPIRIT IN QUANTITIES EXCEEDING ONE GALLON.

Permit to purchase denatured spirit in quantities exceeding one gallon, and to possess the same at the premises known as _____ for the purpose of _____ is hereby granted to _____ for a period of _____ and ending on the _____ commencing on the _____

subject to the following conditions, the infraction of any of which or of any of the provisions of the Central India (Administered Areas) Excise Law, 1917, (hereinafter referred to as "the Law") or of the rules made thereunder, by the permit holder or by any person employed by him or acting under his orders or by his authority, or with his knowledge and consent shall render the permit liable to forfeiture by order of the local excise authority without prejudice to any other penalty to which the permit holder or the person committing such infraction may be liable under the Law :—

1. That the permit holder shall procure his supplies of denatured spirit either :—

- (i) by direct importation from beyond sea in accordance with the law and rules regulating such import, or
- (ii) by purchase from a person licensed under these rules for the sale of denatured spirit, or,
- (iii) by purchase from a person licensed under any law in force in British India for the sale of denatured spirit, in accordance with the law and rules in force in the place for which such person is licensed and in the areas through which the spirit passes in transit.
- (iv) from a distillery licensed under the _____ in accordance with the rules in force under the Law for the issue of denatured spirit from the distillery.

2. That the permit holder shall not have in his possession at any one time more than gallons of denatured spirit.
3. That the denatured spirit shall be kept only in the premises for which this permit is granted, and shall not be sold or utilized otherwise than for the purposes specified in the permit.
4. That the permit holder shall keep a daily account of his stock in the following form, and shall submit an abstract thereof at the end of each quarter to the office of the local excise authority :—

Date.	(a)		(b)		(c)		(d)	
	Balance in hand.		Quantity received.		Total.		Quantity used.	
	Gals.	Bottles.	Gals.	Bottles.	Gals.	Bottles.	Gals.	Bottles.
1	2	3	4	5	6	7	8	9

NOTE.—The local excise authority may dispense with conditions 4 and 5 in any case in which they are, in his opinion, unnecessary, and would be productive of hardship or inconvenience to the permit holder.

5. That the permit holder shall, when required to do so, produce his permit and accounts for the inspection of the local excise authority or of any person specially or generally authorized by him in this behalf, and shall, at any time of the day or night, give entry to the premises for which this permit is granted to any Police or Excise Officer exercising powers not inferior to those of a Sub-Inspector of Police.

6. That the Cantonment Magistrate shall be at liberty to withdraw this permit at any time should it appear to him undesirable to allow its continuance.

7. This permit is granted subject to the provisions of the Law and of the rules made thereunder. It shall have effect from the _____ to the _____ and unless renewed by the latter date by special order of the local excise authority shall thereafter cease to remain in force, notwithstanding that a special order recalling it has not been issued by the local excise authority.

DELHI, WEDNESDAY, DECEMBER 24, 1919.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

NOTIFICATION.

POLITICAL.

No. 2660.

Delhi, the 24th December 1919.

The following Royal Proclamation by His Imperial Majesty the King-Emperor dated the 23rd December 1919 is published for general information.

By order,

H. McPHERSON,

Secretary to the Government of India.

By the King-Emperor.

A ROYAL PROCLAMATION.

GEORGE V, by the grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the seas King, Defender of the Faith, Emperor of India. To my Viceroy and Governor-General, to the Princes of Indian States, and to all my subjects in India, of whatsoever race or creed, greeting.

1. Another epoch has been reached to-day in the annals of India. I have given my Royal Assent to an Act which will take its place among the great historic measures passed by the Parliament of this Realm for the better government of India and for the greater contentment of her people. The Acts of 1773 and 1784 were designed to establish a regular system of administration and justice under the Honourable East India Company. The Act of 1833 opened the door for Indians to public office and employment. The Act of 1858 transferred the administration from the Company to the Crown and laid the foundations of public life which exist in India to-day. The Act of 1861 sowed the seed of representative institutions, and the seed was quickened into life by the Act of 1909. The Act which has now become law entrusts the elected representatives of the people with a definite share in the Government and points the way to full responsible Government hereafter. If, as I confidently hope, the policy which this Act inaugurates should achieve its purpose, the results will be momentous in the story of human progress; and it is timely and fitting that I should invite you today to consider the past and to join me in my hopes of the future.

2. Ever since the welfare of India was confided to us, it has been held as a sacred trust by Our Royal House and Line. In 1858 Queen Victoria of revered memory solemnly declared herself bound to her Indian subjects by the same obligations of duty as to all her other subjects; and she assured to them religious freedom and the equal and impartial protection of the law. In his message to the Indian people in 1903 my dear father, King Edward VII, announced his determination to maintain unimpaired the same principles of humane and equitable administration. Again in his Proclamation of 1908 he renewed the assurances which had been given 50 years before and surveyed the progress which they had inspired. On my accession to the throne in 1910 I sent a message to the Princes and peoples of India acknowledging their loyalty and homage and promising that the prosperity and happiness of India should always be to me of the highest interest and concern. In the following year I visited India with the Queen-Empress and testified my sympathy for her people and my desire for their well-being.

3. While these are the sentiments of affection and devotion by which I and my predecessors have been animated, the Parliament and the people of this Realm and my officers in India have been equally zealous for the moral and material advancement of India. We have endeavoured to give to her people the many blessings which Providence has bestowed upon ourselves. But there is one gift which yet remains and without which the progress of a country cannot be consummated—the right of her people to direct her affairs and safeguard her interests. The defence of India against foreign aggression is a duty of common Imperial interest and pride. The control of her domestic concerns is a burden which India may legitimately aspire to take upon her own shoulders. The burden is too heavy to be borne in full until time and experience have brought the necessary strength; but opportunity will now be given for experience to grow and for responsibility to increase with the capacity for its fulfilment.

4. I have watched with understanding and sympathy the growing desire of my Indian people for representative institutions. Starting from small beginnings this ambition has steadily strengthened its hold upon the intelligence of the country. It has pursued its course along constitutional channels with sincerity and courage. It has survived the discredit which at times and in places lawless men sought to cast upon it by acts of violence committed under the guise of patriotism. It has been stirred to more vigorous life by the ideals for which the British Commonwealth fought in the Great War, and it claims support in the part which India has taken in our common struggles, anxiety and victories. In truth, the desire after political responsibility has its source at the roots of the British connection with India. It has sprung inevitably from the deeper and wider studies of human thought and history which that connection has opened to the Indian people. Without it the work of the British in India would have been incomplete. It was therefore with a wise judgment that the beginnings of representative institutions were laid many years ago. Their scope has been extended stage by stage until there now lies before us a definite step on the road to responsible Government.

5. With the same sympathy and with redoubled interest I shall watch the progress along this road. The path will not be easy and in the march towards the goal there will be need of perseverance and of mutual forbearance between all sections and races of my people in India. I am confident that those high qualities will be forthcoming. I rely on the new popular assemblies to interpret wisely the wishes of those whom they represent and not to forget the interests of the masses who cannot yet be admitted to franchise. I rely on the leaders of people, the Ministers of the future, to face responsibility and endure misrepresentation, to sacrifice much for the common interest of the State, remembering that true patriotism transcends party and communal boundaries and, while retaining the confidence of the legislatures, to co-operate with my officers for the common good in sinking unessential differences and in maintaining the essential standards of a just and generous government. Equally do I rely upon my officers to respect their new colleagues and to work with them in harmony and kindliness; to assist the people and their representatives in an orderly advance towards free institutions; and to find in these new tasks a fresh opportunity to fulfil, as in the past, their highest purpose of faithful service to my people.

6. It is my earnest desire at this time that so far as possible any trace of bitterness between my people and those who are responsible for my government should be obliterated. Let those who in their eagerness for political progress have broken the law in the past respect it in the future. Let it become possible for those who are charged with the maintenance of peaceful and orderly government to forget the extravagances which they have had to curb. A new era is opening. Let it begin with a common determination among my people and my officers to work together for a common purpose. I therefore direct my Viceroy to exercise in my name and on my behalf my Royal clemency to political offenders in the fullest measure which in his judgment is compatible with the public safety. I desire him to extend it on this condition to persons who for offences against the State or under any special or emergency legislation are suffering imprisonment or restrictions upon their liberty. I trust that this leniency will be justified by the future conduct of those whom it benefits, and that all my subjects will so demean themselves as to render it unnecessary to enforce the laws for such offences hereafter.

7. Simultaneously with the new constitutions in British India I have gladly assented to the establishment of a Chamber of Princes. I trust that its counsel may be fruitful of lasting good to the Princes and the States themselves, may advance the interests which are common to their territories and to British India, and may be to the advantage of the Empire as a whole. I take the occasion again to assure the Princes of India of my determination ever to maintain unimpaired their privileges, rights and dignities.

8. It is my intention to send my dear son, the Prince of Wales, to India next winter to inaugurate on my behalf the new Chamber of Princes and the new constitutions in British India. May he find mutual good will and confidence prevailing among those on whom will rest the future service of the country, so that success may crown their labours, and progressive enlightenment attend their administration. And, with all my people, I pray to Almighty God that by His Wisdom and under His guidance India may be led to greater prosperity and contentment, and may grow to the fullness of political freedom.

SUPPLEMENT TO

The Gazette of India.

No. 51. } CALCUTTA, SATURDAY, DECEMBER 20, 1919.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA DEPARTMENT OF COMMERCE AND INDUSTRY.

TARIFF VALUATION OF SUGAR.

The following statement shows in respect of each of the descriptions of sugar distinguished in the Tariff Schedule II (excepting molasses and all other kinds of sugar), *first*, the total imports into India in the month of November 1919, and the average value per cwt. as calculated on the returns received from the Customs Houses; and, *secondly*, a running total showing the total imports into India since the beginning of the year (1st October to 30th September) and the average net value per cwt. so far established. It is published in conformity with the procedure laid down in Customs Circular No. V of 1911, in order to enable merchants to compute the probable rate of duty for the year 1921:—

Description of sugar.	IMPORTED DURING THE MONTH OF NOVEMBER 1919.		IMPORTED SINCE 1ST OCTOBER 1919	
	Quantity.	Average net value per cwt.	Quantity.	Average net value per cwt.
Sugar, crystallised, beet	Cwt.	Rs. a.	Cwt.	Rs. a.
" " and soft, refined in China . . .	15,065	31 8	33,200	31 0
" " " " from Egypt . . .	520,814	28 4	945,565	27 8
" " " " from Java or Japan,* 23 Dutch Standard and above.	138,557	25 12	309,608	24 4
" " " " from Java or Japan,* 16 to 22 Dutch Standard.
" " " " from Java or Japan,* 16 Dutch Standard and under.
" " " " from Mauritius equal to 16 Dutch Standard and over.

* This revised classification has been adopted with effect from January 1918, in accordance with the classification of Japanese Sugar in item No. 18 of the Import Tariff Schedule prescribed by the Government of India, Department of Commerce and Industry, Notification No. 1547-D., dated the 16th December 1917.

The imports of Sugar from Japan during the three months, October to December 1917, were 2,691 cwt. and the average value per cwt. was Rs17-8.

IMPORTS INTO CHIEF PORTS DURING OCTOBER, 1919

RETURN SHOWING the QUANTITIES of the PRINCIPAL STAPLES OF AGRICULTURAL PRODUCE IMPORTED into CALCUTTA, BOMBAY, KARACHI, and MADRAS PORTS by RAIL, RIVER, and SEA during OCTOBER, 1919

DEPARTMENT OF STATISTICS, INDIA

December 24, 1919

D. N. GHOSH,

Offg. Director of Statistics.

Published by order of the Governor-General in Council.

DEPARTMENT OF STATISTICS, INDIA.

TRADE FLUCTUATIONS IN SELECTED ARTICLES IN OCTOBER, 1919.

The object of the tables appended is to show the quantities of the principal staples of agricultural produce imported from the various provinces and Indian States and from foreign countries into the ports of Calcutta, Bombay, and Karachi, and into the Madras ports during the month of October, 1919, and for the seven months, April to October, 1919, as compared with the corresponding periods of 1918. The statistics include sea-borne foreign and coasting trade as well as inland (rail and river-borne) trade. They have been furnished by Collectors of Customs, Steamer Companies, Railway Audit Officers, and the Commissioners for the Port of Calcutta.

TRADE FLUCTUATIONS IN OCTOBER, 1918 AND 1919.

It will be seen from Table I that the imports by rail, river, and sea in October, 1919, as against the corresponding month of 1918, show (in round numbers) a decrease of—

- 95 per cent in linseed
(1,800 tons as against 40,300 tons last year),
- 51 per cent in rape and mustard seed
(3,500 tons as against 7,100 tons last year),
- 47 per cent in gram and pulse
(19,500 tons as against 36,700 tons last year), and
- 30 per cent in wheat (excluding wheat flour)
(24,600 tons as against 35,300 tons last year).

The imports of rice (including paddy) by rail, river, and sea into ports show an increase of 96 per cent (162,400 tons as against 82,800 tons last year), due mainly to larger shipments from Burma. The increase of 31 per cent (749,300 bales as against 572,900 bales last year) in the imports of jute, raw, is accounted for by an increase in exports mainly from Bengal. There was an increase of 15 per cent (43,651,800 lbs as against 37,920,900 lbs last year) in tea on account of larger exports from Bengal and Assam. The increase of 9 per cent (72,500 bales as against 66,300 bales last year) in the case of raw cotton was due to larger exports chiefly from the Central Provinces and Berar and Bombay.

It will be seen from Table IV (wheat, excluding wheat flour) that the principal source of the imports in October, 1918, was the Punjab. During October, 1919, the principal sources of the imports were the Punjab (41 per cent), the United Provinces of Agra and Oudh (25 per cent) and Foreign Countries (21 per cent of the total). Table XI shows the *exports* from India by sea of wheat (including wheat flour) month by month during the six years, 1913-14 to 1918-19, and for the seven months, April to October, 1919.

NOTE.—(1) One bale of cotton or jute is equivalent to 400 lbs.
(2) One maund is equivalent to 82½ lbs.
(3) One maund of paddy is taken as equivalent to 25 seers of rice.

GENERAL RESULTS—SEVEN MONTHS' IMPORTS INTO THE PORTS BY RAIL, RIVER,
AND SEA THIS YEAR AND LAST YEAR.

The seven months' figures in table I show (in round numbers) a decrease of—

- 58 per cent in gram and pulse
(247,100 tons as against 582,100 tons last year),
- 57 per cent in wheat (excluding wheat flour)
(316,500 tons as against 734,500 tons last year),
- 7 per cent in tea
(155,347,300 lbs as against 167,069,000 lbs last year),
- 6 per cent in rape and mustard seed
(72,600 tons as against 77,000 tons last year),
- 5 per cent in linseed
(181,200 tons as against 190,700 tons last year), and
- 2 per cent in jute, raw
(2,859,400 bales as against 2,911,200 bales last year).

The imports of rice (including paddy) by rail, river, and sea into ports show an increase of 65 per cent (963,109 tons as against 583,200 tons last year) mainly on account of larger shipments from Burma. The imports of raw cotton show a rise of 6 per cent (1,475,700 bales as against 1,398,200 bales last year) owing to larger exports, principally from the Central Provinces and Berar, Sind and British Baluchistan, the Nizam's Territory, the Punjab, and Rajputana and Central India.

TRADE FLUCTUATIONS IN OCTOBER, 1919, AS COMPARED WITH THE PREVIOUS MONTH.

As compared with September, 1919, the imports in October, 1919, into the ports referred to above show (in round numbers) a decrease of—

- 66 per cent in linseed
(1,800 tons as against 5,300 tons previous month),
- 42 per cent in rape and mustard seed
(3,500 tons as against 5,900 tons previous month),
- 29 per cent in wheat (excluding wheat flour)
(21,600 tons as against 31,400 tons previous month), and
- 14 per cent in rice, including paddy
(162,400 tons as against 189,900 tons previous month),

and an increase of—

- 145 per cent in tea
(43,651,800 lbs as against 17,789,700 lbs previous month),
- 32 per cent in jute
(749,300 bales as against 568,900 bales previous month), and
- 24 per cent in raw cotton
(72,500 bales as against 58,600 bales previous month).

The statistics for October, 1918 and 1919, as also for the seven months ending October, 1918 and 1919, together with those for September and October, 1919, are summarised below :—

SUMMARY TABLE I.

(1)	(2)	(3)	(4)	(5)	(6)	(7)
Articles	Imports, October, 1918	Imports, October, 1919	Imports, April to October, 1918	Imports April to October, 1919	Increase (+) or decrease (—) of im- ports in October, 1919, as compared with October, 1918	Increase (+) or decrease (—) of im- ports in seven months, April to October, 1919, as com- pared with seven months, April to October, 1918

NOTE.—(1) One bale of jute is equivalent to 400 lbs.

(2) By "Calcutta" is meant the town of Calcutta with Howrah and the Kidderpore Docks. The imports exclude, therefore, imports into those jute mills which are outside this area. Such mills form the large majority of the total number of mills manufacturing jute.

† Revised figures.

TABLE XI.

The following statements show the exports of (1) wheat, (2) wheat flour, and (3) Total (wheat and wheat flour) from British India by sea to foreign countries during each month of the six official years, 1913-14 to 1918-19, and from April to October, 1919. The figures are in thousands of tons:—

1.—Wheat.

Months.	1913-14.	1914-15.	1915-16.	1916-17.	1917-18.	1918-19.	1919-20.
	000's of tons.	000's of tons.	000's of tons.	000's of tons.	000's of tons.	000's of tons.	000's of tons.
April	27	9	11	3	93	56	(a)
May	166	24	105	2	209	64	1
June	260	169	292	42	164	76	(a)
July	318	169	187	44	278	76	1
August	135	43	48	75	154	126	1
September	135	56	6	139	153	47	1
October	53	88	...	151	164	17	1
November	47	55	...	79	68	8	...
December	22	37	...	99	55	3	...
January	20	25	...	52	20	1	...
February	10	22	2	15	17	1	...
March	9	9	1	48	79	1	...
TOTAL	1,202	706	652	749	1,454	476	...
	1912-13	1913-14	1914-15	1915-16	1916-17	1917-18	1918-19
Production (in 1,000 tons)	9,853	8,358	10,087	8,652	10,234	9,922	7,502

NOTE.—In this statement the figures of production for one year have been placed below those of export for the next year, because the production of one year is usually exported in the next year.

(a) Exports were below 1,000 tons in these months.

2.—Wheat flour.

Months.	1913-14.	1914-15.	1915-16.	1916-17.	1917-18.	1918-19.	1919-20.

Captain G. Maltby.	Indian Army Reserve of Officers, attached Supply and Transport Corps.	Bombay	9th June 1919.	Intestate	5,560 6 7	Administrator General, Bombay.

RETIREMENTS.

ORDNANCE DEPARTMENT.

General List.

No. 3546.—Conductor John Burles Biggs, Ordnance Department, General List, is transferred to the pension establishment, with effect from the 2nd May 1919.

REWARDS.

No. 3547.—The following rewards have been granted to the undermentioned for acts of gallantry or devotion to duty in the field while serving with the Egyptian Expeditionary Force:—

Awarded the Indian Order of Merit, 2nd class.

No. 4079 Sepoy Nard Singh, 1st Battalion, 91st Punjabis (Light Infantry).

For conspicuous gallantry and coolness on the 4th July 1919, when a party of 15 signallers and escort under a British officer were attacked by about 40 of the enemy in the hills. During the retirement to a better position the British officer was severely wounded in the leg. Sepoy Nard Singh immediately went to the assistance of the British officer and dragged him under cover remaining with him while the enemy searched the ground in the vicinity and killed a wounded sepoy lying close to their hiding place.

Awarded the Indian Distinguished Service Medal.

No. 1206 Lance Dafadar Gushtasaf Khan, 22nd Sam Browne's Cavalry (Frontier Force), attached 34th Prince Albert Victor's Own Poona Horse.

No. 1721 Lance Dafadar Mir Hyder Ali, 20th Lancers (Deccan Horse).

No. 3210 Squadron Dafadar Major Hakim Khan, 32nd Lancers, attached 2nd Lancers (Gardner's Horse).

No. 2785 Lance Dafadar Sher Shah, 9th Hodson's Horse.

No. 862 Havildar Indar Singh, No. 4 Company, 1st King George's Own Sappers and Miners.

No. 1914 Naik Malla Singh, No. 4 Company, 1st King George's Own Sappers and Miners.

Subadar Jota Singh, 46th Punjabis.

No. 1910 Havildar Mien Muhammad, 46th Punjabis.

No. 1377 Naik Mahnga Singh, 46th Punjabis.

No. 3087 Havildar Kanabiya Ram, 1st Battalion, 91st Punjabis (Light Infantry).

Awarded the Meritorious Service Medal (without annuity).

No. 2281 Sowar Mubon-ul-Zaman Khan, 5th Cavalry, attached 38th King George's Own Central India Horse.

No. 2337 Dafadar Akbar Beg, 6th Cavalry.

No. 2625 Kot Dafadar Muhammad Ali Khan, 32nd Lancers, attached 2nd Lancers (Gardner's Horse).

No. 194 Naik Ali Muhammad, 1st Battalion, The 101st Grenadiers.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 25th December 1919, based on the Indian Daily Weather Reports of the period.

1. Two depressions from the west were transmitted into India during the week. The first entered Baluchistan on the 18th and gave during the 19th and 20th widespread snowfall in Kashmir and local rain or snow in the North-West Frontier Province, with a few falls in northeast Baluchistan. The second passed into Baluchistan on the 21st and by the morning of the 25th had advanced to Central India East and the adjoining districts; during its passage across northern India nearly general rain or snow fell in Baluchistan, Sind, the Punjab, Kashmir and the west of the United Provinces, with local falls in the North-West Frontier Province. Weather was dry over the rest of the country, with the exception of the south of the Peninsula, where scattered falls occurred on many days in the week.

2. *Burma.*—Except for a light fall of rain at Victoria Point the week was rainless.

Northeast India, including Orissa.—There was no rain.

The United Provinces, Central India and the Central Provinces.—In the west of the United Provinces rainfall was nearly general on the 24th, and occurred at a few stations on one other day. Over the rest of the division weather was dry.

Northwest India.—Nearly general rain or snow fell in the southwest Punjab on the 22nd and 23rd, in Kashmir on the 19th and 22nd, and in Sind on the 22nd; rain or snow occurred locally or at a few stations on four other days in Kashmir and on one other day in southwest Punjab. There were local falls of snow or rain in the North-West Frontier Province on the 19th, 22nd, 23rd and 24th, in Baluchistan on the 22nd, and in the east and north Punjab on the 23rd and 24th; a few falls were recorded on three other days in Baluchistan, and on one other day in the remaining two areas.

The Peninsula.—In southeast Madras rainfall was local on the 18th and 24th, and occurred at a few stations on four other days. Over the rest of the division weather was dry except for a heavy fall at Nellore and a moderate fall at Cochin.

3. The chief amounts of rainfall reported were as follows:—

December 18th. Madras 1·21" and Nellore 5·66".

" 19th. Sonamarg 0·81", Dras 0·33" and Dosh 0·20".

" 20th. Sonamarg 0·65", Dras and Peshawar each 0·20", and Skardu 0·19".

" 22nd. Khushab 0·26", Multan 0·74", Lyallpur and Srinagar each 0·20", Sonamarg 0·45", Dras 0·25", Dera Ismail Khan 0·31", Peshawar 0·40", Kalat 0·60", Dalbandin 0·35", Pasni 0·30" and Jacobabad 0·35".

" 23rd. Ludhiana 0·60", Lahore 0·21", Sialkot 1·81", Rawalpindi 1·23", Khushab 1·15", Lyallpur 0·75", Montgomery 0·37", Multan 0·29", Srinagar 0·42", Sonamarg 1·20", Dras 0·20", Peshawar 1·17", Dera Ismail Khan 0·30" and Cherat 1·87".

" 24th. Mainpuri 0·50", Meerut 0·28", Roorkee 0·36", Mussooree 0·61", Chakrata 0·86", Dehra Dun 1·00", Ambala 1·25", Dharampur 0·65", Cherat 0·67" and Peshawar 0·28".

4. The week's rainfall was 20 per cent. or more in excess in the Bay Islands, the United Provinces West, the Punjab, Kashmir, the North-West Frontier Province, Baluchistan, Sind and the Madras Coast North; and was 20 per cent. or more in defect in Burma, Assam, Bengal, Orissa, the United Provinces East, Central India East, Berar, the Central Provinces, the Konkan, the Bombay Deccan, Mysore, Malabar, Madras Southeast and the Madras Deccan. No rain usually falls at this time of year in Chota Nagpur, Bihar, Rajputana, Gujarat, Central India West and Hyderabad.

The rainfall from the 28th November to date is 20 per cent. or more in defect in Assam, Bengal, Bihar and Orissa, the United Provinces East, Baluchistan, Rajputana West, Central India East, Berar, the Central Provinces, the Bombay Deccan and the Madras Deccan; and is 20 per cent. or more in excess in the Bay Islands, Burma, the United Provinces West, the Punjab, Kashmir, the North-West Frontier Province, Sind, Rajputana East, the Konkan, Hyderabad, Malabar, Madras Southeast and the Madras Coast North. It is normal in Central India West and Mysore. No rain is expected at this time of year in Gujarat.

GILBERT T. WALKER,
Director General of Observatories.

Dated the 25th December 1919.

B. A. MANT.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 20th December 1919.

Burma.—Light to moderate rain fell in several districts both in Lower and Upper Burma. In both parts of the province the reaping of winter rice is progressing. In Upper Burma sowing of island crops is proceeding, gathering of groundnuts and plucking of cotton have been nearly completed and reaping of late sesamum has begun. Standing crops are generally in fair condition. Cattle are generally healthy. In the Amherst district the number of persons on relief works remains unchanged at 2,700 and of persons receiving gratuitous relief about 100. The price of white rice (specials) in Rangoon is stationary at Rs. 3.35 which is the same as the control price. There were no sales of unhusked rice.

Assam.—The weather is seasonable. Harvesting of winter rice, plucking of cotton and tea, sowing of pulses and pressing of sugarcane continue. Sowing of mustard has been nearly finished. The outturn of cotton is fair and of winter rice, sugarcane and tea is fair to good. Prospects of other standing crops are fair to good. Cattle disease is reported from four districts. The price of common rice shows a little variation.

Bengal.—No rain fell during the week. Harvesting of winter paddy is in brisk progress. Sowing of spring crops has been almost completed. The condition and prospects of standing crops are favourable. The average price of common rice has fallen by 4.64 per cent.

Bihar and Orissa.—There was no rain during the week except light showers in parts of Angul and Puri. Harvesting of paddy and pressing of sugarcane continue. Standing crops are, on the whole, doing well. The price of common rice has risen in four districts, fallen in five and remained stationary in the remaining districts. The average price of local common rice at headquarters was 6.72 seers a rupee against 6.76 seers in the preceding week and that of maize was 7.85 seers against 7.8 seers in the preceding week. Cattle disease is reported from six districts. Reports from the Feudatory States of Orissa and from Chota Nagpur have not been received.

United Provinces.—Report not received.

Punjab.—Light rain fell in the western and parts of the central districts of the province and was useful for the standing crops which are average to good on irrigated and below average to average on unirrigated areas. More rain is badly wanted everywhere. Picking of cotton and pressing of sugarcane are in progress. The yield of sugarcane is normal and of cotton generally below normal. Reaping of *toria* has commenced in a few districts. The yield is expected to be normal on irrigated and below normal on unirrigated areas. Sowings of spring crops continue and are generally normal on irrigated and below normal on unirrigated areas. Cattle are generally healthy. Shortage of fodder and canal water is reported in parts of a few districts. Prices are generally stationary and range above scarcity rates. Price of wheat:—Rawalpindi 5½, Ferozepore 6, Ambala 6½ and Lahore and Lyallpur 6½ seers per rupee.

North-West Frontier Province.—Beneficial rain again fell throughout the province. Sowing of spring and harvesting of certain autumn crops are in progress. The outturn of cotton is below average. Standing crops are generally average but prospects of crops on unirrigated areas in one district are reported to be poor. The price of wheat in Peshawar is 7½ seers and in Dera Ismail Khan 6½ seers per rupee.

Jammu.—The rainfall during the week was good. There is no perceptible change in prices. Fodder is sufficient.

Kashmir.

Rajputana.

} Report not received.

Central India.—The rainfall during the week was partial and insufficient in Gwalior north. Harvesting of autumn crops is in progress. Sowing for spring crops is nearing completion. Picking of cotton continues in Gwalior, Indore and Bhopal. Standing crops and their probable outturn are fair to good. Damage to crops is reported from Sohawal in the Baghelkhand Agency. Agricultural stock is generally in good condition, except for cattle disease in Gwalior, Indore and Baghelkhand. Prices are high. Sowing of opium is nearing completion in Gwalior and Indore.

Central Provinces.—Report not received.

Bombay.—Slight rain fell during the week in parts of Ratnagiri, Kanara, Sholapur, Satara, Belgaum, Dharwar and Savantvadi. Standing crops are generally in good condition except in parts of Broach and Sholapur, where they have been damaged by insects and in parts of Poona where they are withering. Harvesting of autumn crops continues. Cotton picking is in progress in parts of Ahmedabad, Broach, Khandesh and Sholapur. The supply of fodder and water is generally adequate. Agricultural stock is generally sufficient. Cattle are in good condition. Prices of food-grains have risen slightly in seven districts, have fallen in two and are generally steady elsewhere.

Hyderabad.—Report for week ending 13th December. Rainfall *nil*. Autumn harvest is almost over except that cotton is being picked. The early rice harvest has been nearly completed. Sowings for spring crops have been completed. Crops are generally in fair to good condition. Damage by insects is reported from two *talukas*. Cattle disease is reported from four districts. Prices of grains continue to be high. *Juar* is selling at 4 seers per rupee in the Adilabad district.

*The weekly report on famine and scarcity is as follows:—*Report for week ending 13th December. There is a marked abatement in distress, though the number of persons on relief is stationary. Takavi advances have been stopped. Prices of grains continue to be high. Rice is selling at 3½ seers and *juwar* at 7 seers per rupee. The number of persons on relief in thousands for the week ending the 4th instant was:—works 7, gratuitous 3, total 10.

Mysore.—Rainfall *nil*. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available. Prices of food grains are high and fluctuating. Prospects of the season are good. Harvesting of *ragi* and rice is proceeding with outturn fair to good.

Coorg.—The weather is cold. Reaping of rice has commenced. Picking of cardamum and coffee continues. Cattle are generally healthy. Water and fodder for cattle are available. The public health is fair. Prices of food-grains are high.

Madras.—The rainfall during the week was very heavy in Travancore, heavy in Nellore, good in Guntur, Bellary, Chingleput, Madras, Chittoor and North Arcot, fair in the Vizagapatam Agency, Godavari, South Arcot, Trichinopoly, Tanjore, Ramnad, South Kanara and the hills, and light or *nil* elsewhere. Standing crops are in fair condition generally, but dry crops have been damaged in small areas in Ramnad owing to excessive rain. *Cholam* in parts of Kurnool has been blighted and paddy in parts of one *taluka* in Chittoor has been affected by disease. The outturn of the harvested paddy and dry crops is generally fair. Fresh sowings of paddy and dry crops are progressing. The condition of cattle is good generally. Water is generally sufficient. Pasture and fodder are sufficient generally. Prices tend to rise. Prospects are fair generally.

*The weekly report on famine in Ganjam is as follows:—*One relief work in Ronabha is in progress. Cloth distribution has been provided by private charity. The number of persons on relief works was 197 and in receipt of gratuitous relief 174, total 371.

R. A. MANT,

Secretary to the Government of India.

SIMLA :

The 22nd December 1919. }

Sanitary Commissioner with the Government of India.

No. M.-440.

GOVERNMENT OF INDIA.
INDIAN MUNITIONS BOARD.

CHEMICALS AND MINERALS.

RESOLUTION.

CONSTITUTION OF THE COMMITTEE TO CONSIDER THE CREATION OF AN
ALL-INDIA CHEMICAL SERVICE.

Delhi, the 24th December 1919.

With reference to paragraph 4 of the Resolution issued by the Indian Munitions Board No. M.-440, dated the 26th November 1919, regarding the appointment of a Committee to consider the creation of an all-India Chemical Service, the Government of India desire to announce that the Committee will consist of the following gentlemen:—

President.

1. Professor J. F. Thorpe, C.B.E., D.Sc., Ph.D., F.I.C., F.R.S., Professor of Organic Chemistry in the Imperial College of Science and Technology, London.

Members.

2. Dr. K. C. Caldwell, Ph. D., F.I.C., Principal, Patna College.
3. Mr. R. W. Davies, I.C.S., District and Sessions Judge, North Arcot, Madras Presidency.
4. Dr. W. Harrison, Imperial Agricultural Chemist, Research Institute, Pusa.
5. Sir P. C. Ray, K.C.I.E., D.Sc., F.R.S., Palit Professor of Chemistry, University College of Science, Calcutta.
6. Dr. J. L. Simonsen, F.I.C., F.A.S.B., Forest Chemist, Forest Research Institute and College, Dehra Dun.
7. Dr. J. J. Sudborough, Ph.D., F.I.C., Professor of Organic Chemistry, Indian Institute of Science, Bangalore.

Dr. Simonsen will also be Secretary to the Committee.

ORDERED that a copy of the Resolution be forwarded to all Local Governments and Administrations, to all Departments of the Government of India, to the Director General of Commercial Intelligence, to the President and Members of the Committee and that the Resolution be published in the Supplement to the *Gazette of India*.

F. R. R. RUDMAN,
Secretary, Indian Munitions Board.

The Calcutta Gazette

EXTRAORDINARY.

WEDNESDAY, DECEMBER 24, 1919.

PROCLAMATION.

GEORGE THE FIFTH, BY THE GRACE OF GOD OF THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND AND OF THE BRITISH DOMINIONS BEYOND THE SEAS, KING, DEFENDER OF THE FAITH, EMPEROR OF INDIA. TO MY VICEROY AND GOVERNOR-GENERAL, TO THE PRINCES OF INDIAN STATES AND TO ALL MY SUBJECTS IN INDIA OF WHATSOEVER RACE OR CREED, GREETING.

I. Another epoch has been reached to-day in the Councils of India. I have given my Royal assent to an Act which will take its place among the great historic measures passed by the Parliament of this Realm for the better government of India and the greater contentment of her people. The Acts of seventeen hundred and seventy-three and seventeen hundred and eighty-four were designed to establish a regular system of administration and justice under the Honourable East India Company. The Act of eighteen hundred and thirty-three opened the door for Indians to public office and employment. The Act of eighteen hundred and fifty-eight transferred the administration from the Company to the Crown and laid the foundations of public life which exist in India to-day. The Act of eighteen hundred and sixty-one sowed the seed of representative institutions and the seed was quickened into life by the Act of nineteen hundred and nine. The Act which has now become law

entrusts elected representatives of the people with a definite share in Government and points the way to full representative Government hereafter. If, as I confidently hope, the policy which this Act inaugurates should achieve its purpose, the results will be momentous in the story of human progress; and it is timely and fitting that I should invite you to-day to consider the past and to join me in my hopes of the future.

II. Ever since the welfare of India was confided to us, it has been held as a sacred trust by our Royal House and Line. In eighteen hundred and fifty-eight Queen Victoria of revered memory solemnly declared herself bound to her Indian subjects by the same obligations of duty as to all her other subjects; and she assured them religious freedom and the equal and impartial protection of law. In his message to the Indian people in nineteen hundred and three my dear father King Edward the Seventh announced his determination to maintain unimpaired the same principles of humane and equitable administration. Again, in his proclamation of nineteen hundred and eight, he renewed the assurances which had been given fifty years before and surveyed the progress which they had inspired. On my accession to the throne in nineteen hundred and ten I sent a message to the Princes and peoples of India acknowledging their loyalty and homage and promising that the prosperity and happiness of India should always be to me of the highest interest and concern. In the following year I visited India with the Queen-Empress and testified my sympathy for her people and my desire for their well-being.

III. While these are sentiments of affection and devotion by which I and my predecessors have been animated, the Parliament and the people of this Realm and my officers in India have been equally zealous for the moral and material advancement of India. We have endeavoured to give to her people the many blessings which Providence has bestowed upon ourselves. But there is one gift which yet remains and without which the progress of a country cannot be consummated: the right of her people to direct her affairs and safeguard her interests. The defence of India against foreign aggression is a duty of common Imperial interest and pride. The control of her domestic concerns is a burden which India may legitimately aspire to taking upon her own shoulders. The burden is too heavy to be borne in full until time and experience have brought the necessary strength; but opportunity will now be given for experience to grow and for responsibility to increase with the capacity for its fulfilment.

IV. I have watched with understanding and sympathy the growing desire of my Indian people for representative institutions. Starting from small beginnings this ambition has steadily strengthened its hold upon the intelligence of the country. It has pursued its course along constitutional channels with sincerity and courage. It has survived the discredit which at times and in places lawless men sought to cast upon it by acts of violence committed under the guise of patriotism. It has been stirred to more vigorous life by the ideals for which the British Commonwealth fought in the Great War and it claims support in the part which India has taken in our common struggles, anxieties and victories. In truth the desire after political responsibility has its source at the roots of the British connection with India.

It has sprung inevitably from the deeper and wider studies of human thought and history, which that connection has opened to the Indian people. Without it the work of the British in India would have been incomplete. It was therefore with a wise judgment that the beginnings of representative institutions were laid many years ago. This scope has been extended stage by stage until there now lies before us a definite step on the road to responsible Government.

V. With the same sympathy and with redoubled interest I shall watch the progress along this road. The path will not be easy and in marching towards the goal there will be need of perseverance and of mutual forbearance between all sections and races of my people in India. I am confident that those high qualities will be forthcoming. I rely on the new popular assemblies to interpret wisely the wishes of those whom they represent and not to forget the interests of the masses who cannot yet be admitted to the franchise. I rely on the leaders of the people, the Ministers of the future, to face responsibility and endure to sacrifice much for the common interest of the State, remembering that true patriotism transcends party and communal boundaries; and while retaining the confidence of the legislatures, to co-operate with my officers for the common good in sinking unessential differences and in maintaining the essential standards of a just and generous Government. Equally do I rely on my officers to respect their new colleagues and to work with them in harmony and kindness; to assist the people and their representatives in an orderly advance towards free institutions; and to find in these new tasks a fresh opportunity to fulfil as in the past their highest purpose of faithful service to my people.

VI. It is my earnest desire at this time that so far as possible any trace of bitterness between my people and those who are responsible for my Government should be obliterated. Let those who in their eagerness for political progress have broken the law in the past respect it in future. Let it become possible for those who are charged with the maintenance of peaceful and orderly Government to forget extravagances they have had to curb. A new era is opening. Let it begin with a common determination among my people and my officers to work together for a common purpose. I therefore direct my Viceroy to exercise in my name and on my behalf my Royal clemency to political offenders in the fullest measure which in his judgment is compatible with public safety. I desire him to extend it on this condition to persons who for offences against the State or under any special or emergency legislation are suffering from imprisonment or restrictions upon their liberty. I trust that this leniency will be justified by the future conduct of those whom it benefits and that all my subjects will so demean themselves as to render it unnecessary to enforce the laws for such offences hereafter.

VII. Simultaneously with the new constitution in British India, I have gladly assented to the establishment of a Chamber of Princes. I trust that its counsels may be fruitful of lasting good to the Princes and States themselves, may advance the interests which are common to their territories and British India, and may be to the advantage of the Empire as a whole. I take the occasion again to assure the Princes of India of my determination ever to maintain unimpaired their privileges, rights and dignities.

VIII. It is my intention to send my dear son, the Prince of Wales, to India by next winter to inaugurate on my behalf the new Chamber of Princes and the new constitution in British India. May he find mutual goodwill and confidence prevailing among those on whom will rest the future service of the country, so that success may crown their labours and progress and enlightenment attend their administration. And with all my people I pray to Almighty God that by His wisdom and under His guidance India may be led to greater prosperity and contentment and may grow to the fulness of political freedom.

December the twenty-third, nineteen hundred and nineteen.

**POSTS AND TELEGRAPHS.
(POST OFFICE.)****NOTIFICATIONS.**

PROMOTIONS.

*VOLUNTEER CORPS.**United Provinces Horse.**1st (Southern) Regiment.*

No. 3543.—Lieutenant-Colonel John Champion Fannthorpe is granted the honorary rank of Colonel. Dated 1st January 1918.

JUDICIAL.

No. 3544.—In exercise of the powers conferred by section 113 of the Indian Army Act, 1911 (VIII of 1911), the Governor General in Council is pleased to direct that in the Enrolment Form No. I, Combatants, published in Army Department Notification No. 911, dated the 3rd November 1911, as subsequently amended, the following amendment shall be made in the casts of persons to be enrolled as drivers in mule transport units of the Supply and Transport Corps, namely :—

For the set of conditions numbered (i) under question 14 the following shall be substituted, namely :—

"When you have served for ten years from this date, of which the first six years shall be in Army Service and the remaining four years in the Reserve, you will be entitled to receive your discharge within two months from the date of applying for it, unless war is imminent or existing or, if you are in Army Service, the unit to which you belong is ten per cent. below strength; provided that, in the event of your deserting, service between the date of desertion and that of apprehension or surrender shall not reckon as service towards discharge.

Transfer to the Reserve shall be in the lowest rank; but if on the expiration of your Army Service you are a substantive non-commissioned officer you will be given the option of extending your period of Army Service for the whole period of this enrolment instead of being transferred to the Reserve."

No. 3545.—Under paragraphs 52 and 53 of the Regulations under the Regimental Debts Act, 1893, notice is hereby given :—

First.—That information has been received by me of the deaths of the officers named and described in the subjoined table.

Secondly.—That there have been received by me, as the surplus of their respective properties, the amounts set opposite their respective names in the same table.

DEPARTMENT OF STATISTICS, INDIA;

December 20, 1919.

D. N. GHOSH,

Offg. Director of Statistics.

DEPARTMENT OF STATISTICS, INDIA

CALCUTTA, DECEMBER 23, 1919

Final General Memorandum on the INDIGO Crop of 1919-20.

THIS memorandum is based upon reports received from provinces containing practically the whole area under indigo in British India. The figures refer to the crop which is now being marketed.

The total area is estimated at 233,800 acres, which is 21 per cent below the finally revised area (296,200 acres) of last year.

The total yield of dye is estimated at 37,100 cwts. (55,400 factory maunds*), as against 43,800 cwts. (65,400 factory maunds*), the finally revised estimate of last year, or a decrease of 15 per cent.

The season has been generally favourable, except in parts of Madras, and the condition of the crop on the whole is reported to be fair.

Details for the provinces are given below :—

Provinces	Area		Yield		Average yield per acre	
	1918-20	1918-19	1919-20	1918-19	1919-20	1918-19
	Acres	Acres	cwts	cwts	lbs	lbs
Madras . . .	88,300	119,100	18,500	28,800	23	23
United Provinces .	48,800	49,100	4,500	3,800	10	9
Bihar and Orissa .	57,100	61,200	8,200	6,300	16	11
Punjab . . .	19,800	16,500	3,000	3,000	20	20
Bombay and Sind (including Indian States) . . .	8,100	7,200	1,400	1,100	19	17
Bengal . . .	11,700	10,100	900	800	9	9
Total . . .	233,800	296,200	37,100	43,800	18	17

The provincial reports are summarised below :—

Madras (53·1 per cent of the total area under indigo in British India).—The area sown up to the 1st December is now estimated at 88,300 acres, which is 41 per cent below the estimate of last year. The decrease in area is attributed to want of rains at sowing time, the low price of indigo, and high prices of other crops at sowing time. The total yield of dye for the Presidency, excluding a small area in the south where it is raised only for manure, is estimated at 18,500 cwts on the assumption that the entire green crop is manufactured into dye. This shows a decrease of 36 per cent as compared with last year's estimate.

United Provinces (20 per cent of the total area under indigo in British India).—The area is reported to be 48,800 acres, which is slightly below

the area of last year. The yield is estimated at 4,500 cwts, of which a certain portion is *kutcha* indigo and consumed locally. This is 18 per cent above last year's estimate. The crop suffered from drought in some places in the early part of the season, but improved greatly during the latter part.

Bihar and Orissa (15·5 per cent of the total area under indigo in British India).—The area sown is estimated at 57,100 acres, which is 11 per cent below the area of last year. The decrease is due partly to a difficulty in selling the produce, although good prices were obtainable, and partly to the high prices ruling for food crops. According to the estimates furnished by the Bihar Planters' Association for Saran, Champaran, Muzaffarpur, and Darbhanga, and by the District Officers for the remaining four districts, the total yield works out to 8,200 cwts (12,313 factory maunds), as against 6,300 cwts (9,395 factory maunds) last year, or an increase of 30 per cent. Weather conditions were more favourable than last year, and the second cuttings gave more satisfactory results. The trade estimate for the province (including the Nadia district of Bengal) amounts to 8,000 cwts.

Punjab (10·1 per cent of the total area under indigo in British India).—The area is estimated at 19,800 acres, which is 20 per cent above last year's area. The increase is due to abundant supply of canal water at sowing time. The total yield is estimated at 3,000 cwts, as against 3,000 cwts last year, or an increase of 20 per cent. The season was generally favourable and the outturn average.

Bombay and Sind (0·6 per cent of the total area under indigo in British India).—The area sown is reported to be 8,100 acres (5,900 acres being in the Khairpur State), which is 12 per cent above last year's area. The increase is attributed to good inundation except in the Nawabshah district. The total yield is estimated at 1,400 cwts (800 cwts being in the Khairpur State), which is 27 per cent above the estimate of last year. The crop progressed fairly well under favourable climatic conditions.

Bengal (0·6 per cent of the total area under indigo in British India).—The area and yield are 11,700 acres and 900 cwts respectively as compared with 10,100 acres and 800 cwts last year.

Chart.—The charts below show the variations in the present figures of area and yield as compared with the finally revised figures of the last nine years.

* Factory maund = 75 lbs.

Davis, of the Political Department, for the words "furlough on medical certificate for nine months and twenty-three days" read "furlough on medical certificate for eleven months and nineteen days."

No. 3071-G.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all orders enabling him in that behalf, the Governor General in Council is pleased to order that the following amendments shall be made in the Hyderabad Residency Bazars and Cantonments Arms Law, 1903, published with the Notification of the Government of India in the Foreign Department, No. 3630-I. B., dated the 31st July 1903, namely :—

For section 10 the following section shall be substituted, namely :—

10. (1) Any person possessing arms, ammunition or military stores the possession whereof has, in consequence of the cancellation or expiry of a license or of an exemption, become unlawful, shall without unnecessary delay deposit the same either with the officer in charge of the nearest police station or, at his option and subject to such conditions as the Resident may, by rule made by notification in the Hyderabad Residency Orders, prescribe, with a licensed dealer.

(2) When arms, ammunition or military stores have been deposited under sub-section (1) or, before the first day of January 1920, under the provisions of any law for the time being in force, the depositor shall, at any time before the expiry of such period as the Resident may, by rule made by notification in the Hyderabad Residency Orders prescribe, be entitled—

(a) to receive back any thing so deposited the possession of which by him has become lawful, and

(b) to dispose, or authorize the disposal, of any thing so deposited by sale or otherwise to any person whose possession of the same would be lawful; and to receive the proceeds of any such sale :

Provided that nothing in this sub-section shall be deemed to authorize the return or disposal of any thing the confiscation of which has been directed under section 18.

(3) All things deposited as aforesaid and not returned or disposed of under sub-section (2) within the prescribed period therein referred to shall be forfeited.

(4) (a) The Resident may, by notification in the Hyderabad Residency Orders, make rules consistent with this section for carrying into effect the provisions thereof.

(b) In particular and without prejudice to the generality of the foregoing provision, the Resident may by such rules prescribe—

(i) the conditions subject to which arms, ammunition and military stores may be deposited with a licensed dealer, and

(ii) the period after the expiry of which things deposited as aforesaid shall be forfeited under sub-section (3).

J. B. WOOD,

Secretary to the Government of India.

NOTIFICATIONS.

ACCOUNTS AND FINANCE.

MINT.

Delhi, the 20th December 1919.

No. 3218-F.—In supersession of note 2 appended to the notification by the Government of India in the Finance Department, No. 3157-F., dated the 12th December 1919, prescribing the rates at which payment shall be made for gold taken possession of under the provisions of the Gold (Import) Act, 1917, the following note shall be inserted, namely:—

Note 2.—When firms or institutions have arranged to import gold into India and wish to avoid risks from possible variations in the acquisition rate before it is delivered to the Government of India, the Controller of Currency or, in the case of gold delivered at Bombay, the Deputy Controller of Currency, Bombay, will be prepared to contract on behalf of the Government of India to pay for the gold on delivery at the acquisition rate prevailing at the time when the contract is entered into. Firms or institutions wishing to take advantage of this arrangement must undertake to ship gold within 30 days of making the contract, but failure to ship within 30 days will not operate to make the contract void or involve other penalty, provided that it is shown to the satisfaction of Controller of Currency that the delay was due to no fault of the contracting party. Gold not ordered from India but by offices in London or New York for branches or firms in India should be contracted for with the India Office who will be prepared to make similar arrangements. In case of failure to make a contract, the gold will be paid for on the basis of the rate in force on the date of shipment."

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, DECEMBER 27, 1919.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller-General, etc.

GAZETTE OF INDIA.

NOTICE.

The 8th November 1919.

On and after 15th November and until further notice, Parts I, IV, V and VI of the *Gazette of India* and the Weather and Crop Report will be published in Delhi, Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Delhi and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWEET,
Secretary to the Government of India."

Rates of Subscription.

	per annum.

Sundays and Holidays, from 2 P.M. to 5 P.M.

The Imperial Library is also a Lending Library. It is free to all except children. There is no subscription to pay.

J. A. CHAPMAN,

Librarian.

**SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE,
CINCHONA FEBRIFUGE, RESIDUAL ALKALOID
AND QUINOIDINE.**

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. QUININE can be purchased by Government officers, District and Local Boards for Hospitals and Dispensaries in the Provinces of Bengal, Bihar, Punjab and Assam on indents duly countersigned by the Civil Surgeon of their Districts. It can also be purchased by Missionaries for *bona fide* public purposes. It is never sold to private persons or firms. CINCHONA FEBRIFUGE both in powder and $3\frac{1}{2}$ grain tablet forms and CINCHONIDINE can be purchased by Government officers and the general public. It is also sold by the Principal Druggists in Calcutta. QUINOIDINE or *Pure Amorphous Alkaloid* and *Residual Alkaloid* or *Amorphous Cinchona Alkaloid*, which contains about 40 per cent. of *Pure Amorphous Alkaloid*, are for sale to Missionaries and Government Institutions only. *These drugs are sold strictly cash and in advance but private purchasers may use the V. P. P. system*, and are obtainable from the SUPERINTENDENT, JUVENILE JAIL, ALIPORE.

The rates for these drugs from 16th May 1919 are as follows:—

SULPHATE OF QUININE.

For quantities 60 lbs. and above in one delivery	Rs. 24 per lb. .
For quantities of not less than 6 lbs. but below 60 lbs. in one delivery	„ 25 „
For any quantity less than 6 lbs.	„ 26 „

SULPHATE OF CINCHONIDINE.

For quantities of not less than 6 lbs. in one delivery	Rs. 11 per lb.
For any quantity less than 6 lbs.	„ 12 „

(Only small quantities available when in stock.)

CINCHONA FEBRIFUGE.

For quantities of not less than 6 lbs. in one delivery	Rs. 5 per lb.
For quantities less than 6 lbs. (when in stock)	„ 6 „

CINCHONA FEBRIFUGE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.
For any quantity less than 6 lbs. (when in stock)	„ 7 „
QUINOIDINE in non Tablet form (when in stock) and Residual Alkaloids.	„ 4 „

QUINOIDINE TABLETS.

For quantities of not less than 6 lbs. in one delivery	Rs. 6 per lb.
For quantities less than 6 lbs. in one delivery (when in stock)	„ 7 „

Quinine is available in 1-oz., $\frac{1}{2}$ -lb., $\frac{1}{4}$ -lb., 1-lb., 4-lb., and 6 $\frac{1}{2}$ -lb. tins.
Cinchonidine is available in $\frac{1}{2}$ -lb., $\frac{1}{4}$ -lb. and 1-lb. boxes.
Cinchona Febrifuge is available in $\frac{1}{2}$ -lb., $\frac{1}{4}$ -lb. and 1-lb. boxes.
Residual Alkaloid is available in 1-lb., 5-lb. and 10-lb. boxes.
Quinoidine is available in 1-lb. box.
Quinoidine Tablets are available in 1-lb. box.

Transit charges are in addition to the above prices in every case.

Local sale at the Jail gate from 7 to 10 A.M. and 2 to 4 P.M.

Drugs are sold for cash or by V. P. Post. Price of Postage must accompany the price of the drug (when the drug is required by Post). The name of the Railway and Steamer Station or Post Office must be written distinctly when the parcels are required by Rail Steamer or by Post. A scale of Postage is given below:—

[For $\frac{1}{2}$ lb. 4 As.; $\frac{1}{4}$ lb. 5 As.; 1 lb. 8 As.; $1\frac{1}{2}$ lb. 11 As.; 2 lbs. 14 As.; $2\frac{1}{2}$ lbs. Re. 1 Anna 1; 3 lbs. Re. 1 Anna 1; $3\frac{1}{2}$ lbs. Re. 1 As. 4; 4 lbs. Re. 1 As. 7; $4\frac{1}{2}$ lbs. Re. 1 As. 10; 5 lbs. Re. 1 As. 13; 6 lbs. Rs. 2; $6\frac{1}{2}$ lbs. Rs. 2 As. 9.]

	Rs.	A.	P.
Quinoidine tab: 1 lb. Weg. 3 lbs. Postage	1	1	0
Quinoidine tab: 2 lbs. Weg. 6 lbs. Postage	2	0	0
Quinoidine tab: 3 lbs. Weg. 9 lbs. Postage	3	0	0

N.B.—Postage stamps are not accepted as revenue.

6. Men trained in—
 - (a) Photo-Mechanical and Lithographic Work.
 - (b) Workshops (both Electrical and Mechanical sides).

W. G. WOOD,

Principal, Thomason College, Roorkee.

**DEPARTMENT OF MINES IN INDIA, DHANBAD P. O.,
MANBHUM.**

Indian Mines Act, 1901.

NOTICE.

An examination for First Class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held on the 16th, 17th and 18th February 1920. An examination for Second Class Coal Mine Managers' Certificates of Competency will be held on the 23rd, 24th and 25th February 1920. Both examinations will be held at the Railway Institute, Dhanbad.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age and have had at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year respectively, in the case of a candidate who has received a diploma in scientific and mining subjects after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India, Department of Commerce and Industry, Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid, not less than one month prior to the date of the examination, to the Chief Inspector of Mines at his office." The fees may be remitted by money order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad P.O., E. I. Railway, and not to any Officer by name. No candidate will be permitted to sit at the examination unless his application, supported by original certificates as to experience and character, and fee, is received, in the case of a candidate for the first class certificate examination on or before the 15th January 1920, and, in the case of a candidate for the second class certificate examination on or before the 22nd January 1920. Candidates are advised to send all papers under registered cover.

G. F. ADAMS,

Chief Inspector of Mines in India,
and *ex-officio* President of the Board of Examiners.

DHANBAD,
The 13th October 1919.

NOTES.—(1) In English and Vernacular Offices when there are no arrears of work the last Saturday in the month may be observed as a holiday.

" (2) Mohammadan holidays depend on the moon being visible and fall on the day following such event.

" (3) Civil Court vacations commenced from the 1st August 1920 and continue till the 30th September 1920 inclusive. No fresh suits shall be instituted during that period unless they be of an urgent character but the Courts will be open for the purpose of clearing up cases instituted before the 15th July 1920 and for the disposal of urgent work.

" (4) The day which may be fixed for the celebration of the King-Emperor's birthday will be notified separately in due course.

" (5) There will be two Lunar Eclipses during the year, i.e., on Sunday, the 2nd May and Wednesday, the 27th October, and the holidays will be observed on Monday, the 3rd May, and Thursday, the 28th October, respectively.

The 19th December 1919.

No. 2205-C.—In exercise of the powers conferred by sections 24 (1) (c) and 112 (2) (e) of the Abu Municipal Law, 1919, the Hon'ble the Agent to the Governor General, Rajputana, is pleased to make the following rules for the taxation and control of Rickshaw traffic in the Abu Municipal Area :—

I. No rickshaw shall ply for hire in the Municipality of Abu except under a license issued by the Municipal Committee.

NOTE.—Rickshaws hired out by the month or for any other specified period are held to "ply for hire."

II. Such license shall be issued on payment of a license fee of one rupee for each rickshaw for a period of half a year, namely, from—

(a) 1st March to 31st August.

(b) 1st September to the last day of February and subject to the following conditions :—

(1) The license shall not be transferable.

(2) The licensee shall maintain the rickshaw in proper repair and shall comply with all orders of the Secretary, Municipal Committee, Abu, to repair or put necessary accessories in the rickshaw.

(3) The licensee shall not without good cause refuse to hire out the rickshaw to any person demanding the same and offering payment at the prescribed rates. Provided that he shall not be bound to supply coolies without the rickshaw or the rickshaw without the coolies.

(4) The rates for hire shall be as follows:—

	Day.			Night.		
	Rs.	A.	P.	Rs.	A.	P.
1. Rickshaw with 3 coolies for 3 hours or less	2	0	0	2	8	0
2. For every additional hour or less	0	4	0	0	4	0
3. Rickshaw without coolies for 3 hours or less	0	12	0	0	12	0
4. For every additional hour or less	0	3	0	0	3	0

NOTE 1.—The above rates are not intended to affect the scheduled rates under the Transport Contract between Abu and Abu Road for Rickshaws.

NOTE 2.—A licensee is not precluded from charging lower rates than those prescribed above.

(5) The licensee shall maintain two registers in such form as the Committee may from time to time prescribe in this behalf (1) showing all rickshaws hired out by the month or for any specified period, and (2) all rickshaws kept for daily hire.

(6) The licensee shall provide for each rickshaw not less than 3 coolies.

(7) The licensee shall produce any register, rickshaw or coolie for inspection at such times and places as may be required by any person authorised by the Municipal Committee in this behalf.

(8) Every licensed rickshaw must display clearly—

(1) its number, and

(2) a copy of the sanctioned schedule of fares.

III. A licensee contravening any of the above conditions shall be liable to suspension or cancellation of his license and, on conviction by a Magistrate, to a fine not exceeding Rs. 50 for each offence.

By order,

R. R. MACONACHIE,

First Assistant to the Hon'ble the Agent to the Governor-General, Rajputana.

ORDERS BY THE HON'BLE THE CHIEF COMMISSIONER, AJMER-MERWARA.

NOTIFICATIONS.

NOTES.—(1) In English and Vernacular Offices when there are no arrears of work the last Saturday in the month may be observed as a Holiday.

(2) The last day of every month will be observed as a holiday in the Treasury Office, Ajmer, instead of the last Saturday.

(3) Muhammadian holidays depend on the Moon being visible and fall on the day following such event.

(4) Local holidays may be granted for great festivals and fairs at the discretion of the Commissioner when there are no arrears of work.

(5) Civil Court vacations commenced from the 1st August 1920 and continue till the 30th September 1920. No fresh suits shall during the time be instituted unless they be of an urgent character, but the Courts will be open for the purpose of clearing up cases instituted before the 15th July 1920 and for the disposal of any urgent work.

(6) The day which may be fixed for the celebration of The King-Emperor's Birthday will be notified separately in due course.

(7) Chohlam will be observed as local holiday for Shias only.

(8) There will be two Lunar Eclipses during the year, i.e., on Sunday the 2nd May, and Wednesday, the 27th October 1920, and the holidays will be observed on Monday, the 3rd May, and Thursday, the 28th October 1920, respectively.

(9) The holidays specified above do not, however, apply to offices whose headquarters are at Mount Abu.

Udaipur, the 18th December 1919.

No. 2192-C.—1093.—The following draft of a Notification which it is proposed to issue in exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), is published for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration by the Hon'ble the Chief Commissioner on or after the 15th February 1920.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date aforesaid will be considered by the Hon'ble the Chief Commissioner.

Draft Notification.

In exercise of the powers conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and with the previous sanction of the Governor-General in Council, the Hon'ble the Chief Commissioner is pleased to make the following amendments in the Ajmer-Merwara Petroleum Rules issued in this office Notification No. 1580-1093, dated the 14th October 1909 :—

- (1) In rule 2, Chapter V, Part II of the said rules, the words "otherwise than in bulk" shall be omitted.
- (2) In rule 6, Chapter V, Part II of the said rules, the words "other than in bulk" shall be omitted.

(3) In Form H—

- (a) the words “otherwise than in bulk,” wherever they occur, shall be omitted; and
- (b) in condition 1 of the conditions attached to the Form, after the words “The petroleum” the words “if not in bulk” shall be inserted.

(4) In Form I—

- (a) for the words “^{otherwise than in bulk}
in bulk or otherwise than in bulk” the words “in bulk or otherwise than in bulk” shall be substituted; and
- (b) in condition 1 of sub-head I of the conditions attached to the Form, after the words “The petroleum” the words “if not in bulk” shall be inserted.

(5) In Form I-A for the words “^{in bulk or otherwise than in bulk}
otherwise than in bulk” wherever they occur, the words “in bulk or otherwise than in bulk” shall be substituted.

(6) In Form K—

- (a) the words “cases or packages containing in all” shall be enclosed in brackets and an asterisk placed before the opening bracket; and the following marginal reference shall be inserted, namely :—
“To be omitted when petroleum is transported in bulk”
and
- (b) in condition 1 of the conditions attached to the Form, after the words “The petroleum” the words “if not in bulk” shall be inserted.

By order,

R. R. MACONACHIE,

First Assistant to the Hon'ble the Chief Commissioner of Ajmer-Merwara.

THE HON'BLE THE AGENT TO THE GOVERNOR GENERAL IN BALUCHISTAN.
